## Your Planetary Day

While the calendar we use in the West dates from the 1500s, the seven days of the week have repeated without interruption for over two millennia. From ancient times, each day of the week has been associated with the Sun, Moon or one of the five visible planets. The weekday on which you were born shows where you stand in this ancient seven-fold cycle, and gives you a special link with the quality of its planetary ruler.

### *You were born on a Saturday.*

This is the day of Saturn, associated with the Greek Chronos, god of time and the scythe-carrying ruler of endings, limitation and boundaries — and therefore of form and solid objects. Saturn rules all that is tangible and material, most especially the mineral kingdom. Saturn's metal is lead; his colors, earth hues and dark shades like black and navy. As a planet, Saturn is the archetype of the elder who embodies rigidity, but also authority and substance. Traditionally, the sin of Saturn was covetousness; his virtue, prudence. In the Kabbalah, Saturn is ruled by Orphiel, angel of care and solicitude. On the Kabbalistic Tree of Life, Saturn is associated with Binah, one of the highest Sephiroth, which signifies the Great Mother, the principle of Form and of Understanding. "Saturday's child must work for a living." — *Harper's Weekly*, 1887.

## About Personal Numerology

The report that follows explores the numerological meaning of your birth date and the full name that was given to you at birth. Its aim is to make you more aware of the tendencies and patterns in your life, so that you can live more consciously, and more fully become the person you were meant to be.

As you read the following pages, remember that they describe pure types for each number. No one, of course, exhibits these character traits in their pure form. Instead, each of us is multi-dimensional, made up of many energy imperatives vying for expression. Some energies harmonize easily, while others are at cross-purposes, causing us to live with contradictions and inner conflicts. Our task is to honor all parts of ourselves and work at bringing our disparate selves into some kind of balance and cooperation. By making us more aware of our inner tendencies, numerology can help us to do this all-important work on ourselves.

In our families and other groups of which we are a part, some behaviors are encouraged and others are discouraged. If what we are wasn't acceptable, we probably contorted ourselves to be what others wanted us to be. If so, we may have become what is called a "turn-type."

For example, we may negatively manifest a number by expressing its opposite, as when the independent number 1 type becomes extremely dependent. Alternatively, the energy is out of balance and expressed extremely, as when the daring number 1 type becomes foolhardy. Or the energy is not developed enough, so that the number 1 is cowardly instead of courageous.

Because we feel that a certain trait is unacceptable and unworthy of us according to the biases of our family, superiors or peers, we may not be able to relate to it in ourselves. We may then spend many years discovering who we really are apart from other people's expectations of us.

Studies such as numerology can help us find our way out of this maze, orienting us toward our true being and the highest manifestation of what we are. They can give us an objective picture of our strengths and weaknesses, show us our place in the larger scheme of things, and help us find the hidden gold in our characters, which we may not have even suspected that we had.

**How Numerology Works.** Through the use of ancient principles, numerology can derive a world of meaning from your birthdate and birth name. In the course of your life other numbers may become important for you, and you will probably acquire other names, but, like your astrological birth chart, the numerological vibrations at the very beginning of your life set the tone for all that follows.

To find the meaning inherent in your day, month and year of birth, numerologists add the digits in various ways. Most totals turn out to be more than one digit. They therefore reduce them to a single digit by adding the digits together. Whenever a total turns out to be a master number like 11 or 22, however, it is left as-is. These doubled numbers have a special significance, and are given special interpretations.

To find the numerological meaning of your name, numerology assigns a number to each letter of the alphabet. In the Pythagorean system used in this report, A = 1, B = 2, and so on through the first nine letters, and then we repeat the cycle through the rest of the alphabet. We then total the numbers corresponding to the vowels, the numbers corresponding to the consonants, and the numbers corresponding to all the letters to determine specific things about your character.

Each digit from 1 to 9 represents a specific stage in a cycle and has its own set of associations. In general, the odd numbers are considered introverted, in the sense of being primarily focused on inner life. The even numbers tend toward extroversion: that is, being primarily focused on outer activities. The numbers 1, 6, and 22, however, are considered dual in nature.

This said, let us now look first at your basic character and the major themes in your life.

## **Your Life Path**

The total of the day, month and year of your birth is called by numerologists the Life Path, Life Lesson, Birth Path, Birth Force or, sometimes, the Destiny number. This number is chosen by nature rather than by you or your parents, and it reflects the season and historical era of your birth. As its names suggest, it shows your mission in life, your life work and what the universe intends for you. It shows the opportunities you must seize in order to make the most of your potential. Following the life path that has been given to you will enable you to avoid continual discord and frustration, and to unfold in the way that is best for your nature. When you find your true place in the world, you will feel at home.

### ***Your birthdate total is 3.***

Your Life Path of 3 means that that your destiny is involved with the development of social graces and good communication skills. You have a wonderful ability to inspire and amuse people. It is through those you favorably impress that your opportunities in life will come. Be creative, be artistic, and learn to use words to your advantage. You have an appealing charm and a real charisma. Versatility is vital to your success, but you must pace yourself. Learn not to scatter your energy.

### **What Motivates You in Life**

We now move on to the name that you were given at birth. We first look at the total of the vowels in your full birth name, because this shows the emotional force that drives all that you do. Variously known as the Motivation, Soul Urge, Heart's Desire, or Inner Self number, the vowel total shows what you want out of life. Along with the Impression and Expression numbers that will be discussed below, it is a basic component of your character.

### ***The vowel total in your name is 6.***

With 6 as a Motivation number, you want to create harmony everywhere in your world, and you are committed to a well-established, nourishing domestic scene. You do all in your power to help others and to be a source of strength and guidance. You have definite principles, and actively work to set the world straight. You are also artistic and like to work with color and design. You relate to everything personally. This can be a strength, but be on guard that your emotions do not cloud your judgment.

Colors and gems have number vibrations, too. Your Motivation colors are the deeper shades of blue, and your Motivation gems are the pearl and sapphire. Wear these when you want to relax and restore your energies.

## **More about Your Emotions and Motivations**

The first vowel in your first name augments or mitigates the force of the vowel total, and gives additional information about your emotional nature and underlying motivations in life. It manifests differently depending on whether the vowel sound is long or short. The long vowel gives a more direct and forthright expression, while the expression of the short vowel is more muted.

### ***The first vowel in your name is O.***

“O” feels both sympathetic and responsible. You work best with others and prefer not to go it alone. You want to create beautiful and congenial surroundings, and like to support and sustain your loved ones. You are the glue that keeps the family together and the lubricant that smoothes over the rough edges in intimate relationships. You can also be relied upon, such that your friends and family will vouch for your loyalty, stability and steadfastness. You are a refuge for those in need of help, and you have excellent problem-solving skills when the time comes to explore options and plan strategy. You give comfort and lend a sympathetic ear.

## **The Impression You Give to Others**

The total of the consonants in your name is known as the Impression, Personality, Outer Self or Adapted Self number. As its names suggest, this number signifies your persona, the face you show to the world. It shows the vibrations that you project, how others see you, and the kind of impression that you make on those around you. This has its origin in your illusions and fantasies, the world you create for yourself in daydreams. Given enough energy, your fantasies become reality, because you tend to become who you think you are.

### ***Your consonant total is 7.***

Having the Impression number 7, you dream of being a sage who is removed from the chaos of the world, and who, from this detached position, is able to meditate on the meaning of the universe. You feel that your perception of the world is all encompassing, and wish to have a well-developed philosophy of life. You would also prefer the rest of the world to be a quiet, calm and peaceful place where the spiritual and the intellectual are widely valued.

Your Impression color is violet, and your Impression gems are the aquamarine and amethyst. Wear these when you want to be sociable and enjoy the company of others.

## **The Way You Express Yourself**

The total of all the letters in your full name is variously called the Expression, Mission or Life Purpose number. Composed of both the vowels and the consonants, it represents the blending of your inner and outer selves. It thus shows the natural expression of your goals and desires: what you do best, and, by extension, your talents and career potential. It also indicates how you deal with the outside world: your style of solving problems, getting things done, and negotiating with others to attain what you would consider success.

### ***Your name total is 4.***

The Expression number 4 makes you tend to be the workhorse who loves to organize things, devise systems, and make sure that everything has its place. You are especially good with your hands, and feel most comfortable in the material world where you can see the tangible result of your efforts. Not one for flash, you prefer to dress in good taste and in the best quality. Basically conservative, you are loyal and responsible, but can be rather too cautious at times.

When you want to be businesslike, try wearing try wearing green as your Expression color and the emerald as your Expression gem.

## **Careers Offering the Best Self-Expression**

With 4 as your Expression number, consider these kinds of jobs:

**The Boss:** executive, banker, contractor, military officer, buyer, manufacturer of quality items.

**On Stage:** musician.

**Service:** doctor, real estate agent, ecologist, engineer, fireman, policeman, military person, inspector, office worker, secretary, cashier, postal worker, factory employee, waitperson, service station attendant.

**Just You:** accountant, economist, technical writer, architect, proofreader.

**Hands-On:** dentist, surgeon, sculptor, electrician, mechanic, printer, typesetter, plumber, tailor, watch repairer, engraver, draftsman, landscaper, farmer, skilled laborer.

**Best Bet:** Any job where you can see tangible results for your efforts.

## **The Power You Can Achieve in Maturity**

The total of the day, month and year of your birth and your full name at birth is known variously as the Power, Maturity, Reality, Real Self, Final Opportunity, Destiny or Goal Power number. A summation of both your name and your birthdate, this number shows how the two principal streams of energy converge to fulfill the purposes of your true self. The Power number is of great significance because it gives a clue as to what your ultimate life purpose might be.

This vibration usually becomes manifest only in the later part of your life. In the first half of life it tends to exist only as a potential. In these earlier years you live through many experiences that temper and define your character and aptitudes. Not until the age of 35 or 40 do most people live through enough life events to find their life purpose and develop it to the point where it becomes their main focus and direction. It is then that fulfillment comes. But this is usually achieved only after many false starts, and years of struggling to gain self-knowledge.

Finding your right place in life is gratifying. If you have not pushed through to this achievement, you can be dissatisfied and unhappy. You may feel at loose ends, without direction, rudderless and ill at ease. But if you have lived your life in accord with the purpose that was meant to be fulfilled in this life, you will find contentment and peace of mind.

What follows is the mature expression of your Power number. Mature development is not about living out someone else's idea of what you should be. It has more to do with honoring your own way of being in the world and moving from your own center. It is about trusting the process of unfoldment that exists within each of us and making this your guiding principle.

### ***The total of your name and birthdate is 7.***

Seven is the archetype of the Seeker, and a Power number of 7 signifies a life in pursuit of knowledge and perfection. Sevens have a burning desire to know, and so they question, analyze, probe, explore and examine every detail of whatever stimulates their curiosity. Bright and intelligent, they have penetrating minds that miss nothing. They tend to be quiet and are often thought to be rather antisocial and unfriendly, but this is a misunderstanding. Outside pressures interfere with the imperative of this number. Sevens are introverts who require massive amounts of time alone for study and reflection. They must have solitude to think things through with the depth that naturally comes to them

In the company of others, sevens are poised, refined, philosophical and reserved. Their rich inner life fascinates them far more than what is going on in the world around them. They attract situations that stimulate their investigative and analytical abilities, and it is their insights that are their gift to the world.

### ***Tarot Key 7: The Chariot***

To gain further insights about your Power number, it can help to look at the Tarot trump that corresponds to it. In your case, this is the card called the Chariot. The charioteer, dressed as a military leader, sets out on a journey with vigor and confidence, drawn forward by sphinxes. Emotions, the motivating force, are harnessed so that the Chariot can move forward. One sphinx is black, the other, white, signifying that motion comes about through the interaction of opposites. At the end of the road will be insights, and possibly invention, in far-ranging areas of the mind such as science, philosophy or the occult.

### **Your Karmic Lessons**

Karma numbers are digits that are completely missing in the letters of your name as given at birth. Most people have one or more Karma numbers. These missing digits serve as a guide to the areas of your life and personality that may be lacking. Such areas will benefit from special attention. If you ignore these blind spots, life can have a painful way of making you notice them. This, however, can eventually spur you forward on the path to wisdom. When you develop yourself in these areas, you will feel much more whole and complete.

#### ***The number 4 is missing in your name.***

With a Karma number of 4, you may have to fight a tendency toward laziness and a lack of focus and concentration. You'll strengthen your character when you cultivate discipline and make an effort to work steadily for what you want.

### **Your Subconscious Response**

Your Subconscious Response is related to how many Karma numbers you have. It shows the way you tend to react in emergencies, when you have no time to consult your intellect.

***Your Subconscious Response number is 8.***

When the going gets rough, you generally take charge of the situation in a calm and businesslike manner. You keep in control with a practical plan of action that is both well- organized and expedient.

## **Your Youth, Maturity and Later Years**

So far, we've discussed the number vibrations that stay with you throughout your life. Now we move on to the three major periods of your life as shown by your Life Cycle numbers. These are derived from reducing the digits in your month, day and year of birth. The sum of the month digits describes the first period; the day, the second period; and the year, the third period.

***Your First Life Cycle starts at birth and lasts until age 34.***

***Its number is 4.***

At an age that is naturally concerned with experiment and play, your youth is full of hard work, practical concerns and restrictions. Don't worry. The stability, self-discipline and tolerance for routine that you develop in your First Cycle can be made to pay off later , giving you a secure foundation that allows you to enjoy yourself. You don't readily express your emotional needs, but you still desire much affection and praise. It is good during this period to learn to work with your hands, and to wait to cultivate your emotional self at the appropriate time.

During the First Life Cycle, your Life Path number and your First Minor Challenge number are also especially important influences.

***Your Second Life Cycle starts at age 34 and lasts until age 61.***

***Its number is 7.***

Analysis is the key to your middle cycle. During your middle years you probe deeply to understand all that is going on around and inside you. You are highly sensitive at this time, and it may be best to keep your feelings to yourself. Because you need much time alone to think things through, your partner, if you have one, will need to understand this.

During this Life Cycle or the next, your Power number generally begins to manifest.

***Your Third Life Cycle starts at age 61 and lasts until death.***

***Its number is 1.***

Your later years can be dynamic and fertile with accomplishment if you're able to remain self-reliant. You'll have to depend on yourself and choose your own path, but you'll never be bored. Focus on new ideas or on giving new life to old ones. There should be action enough to keep you going to the very end.

## **Major Decision or Turning Points in Your Life**

Your Turning Points or Pinnacles are also derived from your full birthdate. Each of them defines a period in your life and the special issues that you will face during that period. As their name suggests, Turning Points show points of choice where you need to make decisions. Besides showing the issues at stake, the Turning Point number indicates the choice that will be best for you. Turning Points are like tests that you must pass before proceeding forward. The happiness that you feel in a given Turning Point period depends on the choices you've made and the skills you've developed when faced with the previous Turning Point.

***Your First Turning Point starts at birth and lasts until age 34.  
Its number is 11/2.***

Having the very high 11 vibration as a youthful Turning Point gives you the chance to achieve public notice early in life. Much can be expected of you, so that you may need to deal with nervous tension during these years. Your task is to take the insights, inspiration and possibly inventive genius that are now given to you, and turn them toward bettering the lot of others.

With 2 as the lower-level vibration during this period, you may also be asked to learn to work constructively as a team member, and to learn how to be the tactful diplomat and peacemaker.

***Your Second Turning Point starts at age 35 and lasts until age 44.  
Its number is 8.***

The next nine years of your life will heighten your interest in money and the acquisition of power and material comfort. Your test is how you will handle a yuppie-like lifestyle. Will you use your gifts and organizational skills only for personal gratification, or will you use them to create something of lasting value for the world? The choice you make will affect your sense of happiness and satisfaction during your next Turning Point period.

***Your Third Turning Point starts at age 45 and lasts until age 54.  
Its number is 1.***

This 1 vibration during the prime of your life brings a chance to become noted in your own right. Known for your individuality, you have a chance stand out from the crowd and engage in some creative act that proclaims who you really are. It is now best to work alone or to do the bossing yourself.

***Your Fourth Turning Point starts at age 55 and lasts until death.  
Its number is 5.***

In the last period of your life, a 5 vibration calls you to overturn your old routines and renew yourself with travel, new ideas, and possibly even a new lifestyle. Your choice to do something a bit risky will keep you feeling remarkably young for your years. If you go rigid and try to barricade yourself safely away from the possibility of change, it can have a nasty way of seeking you out anyway. It's best to hang loose and roll with it if it comes. Your life will be so much more interesting that way.

## **The Challenges You Will Meet**

Everyone is born with special lessons to be learned. Again, your full birth date has inherent in it two Minor Challenges that are usually presented to you earlier in life, and a Major Challenge that is lifelong but which you will probably get to master only later in life.

Challenges may at first present themselves to you as external obstacles to your progress, but they arise from the deficiencies that you are born with, parts that are lacking or underdeveloped. Once you can determine exactly what the weak link is, you can make a conscious effort to strengthen that trait within yourself. This takes willpower and may sometimes feel as if you are going against the grain, but it pays off abundantly in terms of progress and success in life. As you tackle each challenge, your fears are pushed back, your scope enlarges, and you feel more comfortable in the world.

### ***Your First Minor Challenge number is 3.***

The First Minor Challenge usually crops up early in life. When its number is 3, you will feel impeded until you learn to overcome the barriers to the free expression of your natural talents. You may need to overcome shyness and learn to express yourself clearly. Once you learn to relax with people, you may exhibit an unusual facility for expressing yourself in conversation and lending life and enjoyment to social situations. You should seize every opportunity to realize your creative potential, taking lessons when you can and letting enjoyment of what you are doing break down any barriers to your spontaneity.

### ***Your Second Minor Challenge number is 6.***

The Second Minor Challenge is about aspects of your character that you need to work on during your Second Life Cycle, from about ages 35 to 62. With a Challenge of 6, you may need to learn to be helpful and responsible without meddling in others' lives and trying to direct what they think and do. You may need to reexamine your own firmly held philosophy of life and grant the validity of others' opinions. When you learn to be more flexible, your relationships will improve and deepen, and all the hard work you have put into them will now seem to have a point.

### ***Your Major Challenge number is 3.***

You face your Major Challenge throughout life. Most likely, however, you will find yourself needing to do the most work on it during your Third Life Cycle, after the lesser challenges have been met. With a Challenge number of 3, you will feel impeded until you learn to overcome the barriers to the free expression of your natural talents. Cultivate your communication skills, and allow yourself to relax and play. When you learn to do this, your creative talents will flourish.

## **Your Best Activities for the Year**

Your Personal Year number combines your birth month and day with the current year. Personal Year numbers go in a recurring nine-year cycle of development. Each time you go around the cycle you have a chance to do things with added wisdom and skill. Keeping your activities in tune with your current year vibration can make your existence more harmonious and keep your unfoldment upon its intended track.

Some numerologists believe that the new personal year number begins on January 1st of the new year. Others believe that it doesn't change until your birthday on that year, so that up until your birthday you would be using the personal year number for the preceding calendar year.

### ***Your Personal Year number beginning on Jan 1 2005 is 18/9***

In a 9 Personal Year, the cycle of Personal Years comes to an end. This is a year to harvest the remaining crop before it rots, time to tie up all the old cycle's loose ends. So clear the decks and weed the garden. Whatever you have put off, you need to finish it now. Next year you'll be starting a new cycle, and you don't want the detritus of the old cycle to impede your progress. Like the 5 Personal Year, this is a pivotal time, one that is appropriate for change. Now you can reinvent yourself, lose weight, toss out old stuff, and get rid of old habits. As people and things fall away because they are no longer appropriate, you may experience this as a year of loss. Say a graceful good-bye, and open yourself to the new cycle to come.

### ***Your Personal Year number beginning on Jan 1 2006 is 19/1***

A 1 Personal Year begins a new cycle. This is a time to make a fresh start, a time to plant seeds that will mature in the next nine years. In this opening phase of a new cycle you should make a special effort to maintain your independence and individuality, make your own decisions, and rely on your own abilities and instincts. Stay at the forefront, and do not take a back seat to anyone. This is the year to focus on *your* ideas, *your* needs, and the fulfillment of *your* dreams. Once you get your own thing going, you will be better able to relate to another person in the next stage of the cycle. So for now, exercise your own creative powers as fully as possible, and use all that fresh new energy to plunge ahead into new areas that you can develop more fully later. In all things this, year, Initiate.

## Where Do We Go from Here?

If this report has aroused your curiosity and you want to learn more, you may find that exploring your numbers with a deck of Tarot cards is an excellent means for further self- reflection.

Suppose that your birth date were August 19, 1962. The Tarot trump that you would look at for the month would be 8 (Strength, or in some decks, Justice). For the day, you would look at 19 (the Sun),  $1+9=10$  (the Wheel of Fortune), and, reducing it even further,  $1+0=1$  (the Magician). For the year, you would look at  $1+9+6+2=18$  (the Moon), and possibly also  $1+8=9$  (the Hermit).

These cards would have something to say about you and how you express these traits as you follow your destiny. Our example birth date would have the Sun in Leo, and trump 19, the Sun, would reinforce the Leo symbolism. You could see that the person is a hard worker (8) with a sunny disposition (19) who is aware of the changes in fortune that life can bring (10). Extremely creative (1), he is also a sensitive, caring person who is tuned in to other people's feelings (18).

It is instructive to buy a Tarot deck, put one of your cards up for a few days, and mull over the symbolism. Remember that there are no truly negative numbers or cards. All participate in the experiences of the soul as it passes through life.

Even trump 15, the Devil, has its place. Everyone has traits that create stumbling blocks or weaknesses. When we work to overcome these we achieve maturity and become more sympathetic to the weaknesses that we see in others. This may be an important focus for a soul with the number 15 prominent.

Also, trump 13, the so-called Death card, is often misunderstood. Remember that in the cycle of seasons the leaves fall and winter comes, but this death is only the precursor of the life that bursts forth in the spring. Life is not all white light and bubbles. There are dark clouds of pain and frustration as well. It's all part of the cycle.

Whatever you find your numbers to be, remember that nobody has it all down pat. We all have plenty to learn. We do have a choice, however. We can, if we wish, fight against our destiny or try to ignore it. Or we can, as the great psychoanalyst C.G. Jung put it, "do willingly what we must do by necessity." Viewing ourselves through the lens of studies such as numerology, the Tarot and astrology, we gain a clearer picture of what our own necessity is, and can then travel more consciously on our life's intended path.
