## Introduction

Astrology is as old as measured time. Although there are many different approaches to astrology, all astrologers appear united in the idea that there is a connection between the heavens and the Earth -- they share one common space. For centuries there has been a misunderstanding concerning the nature of astrology to the effect that the heavens somehow "influence" events here on Earth. This theory of celestial influence has penetrated into the modern world until today it is the main concept or idea of astrology supported by the public -- the lay astrological audience.

Professional astrologers do not hold with theories of celestial influence. Instead, the modern astrologer conceives of the heavens and Earth as united, interpenetrating, and sharing a common space and time. The great cosmic or celestial events happening around and beyond the Earth (eclipses, lineups, and so on) are not seen as CAUSING events to occur on Earth, but as great signatures of events ALSO happening here on Earth. In other words, there is no "cause" in the heavens followed by an "effect" here on Earth. Instead, both planetary and earthly events happen simultaneously and are mutually reflective. Neither is the cause of the other; both are the product of the moment, one acted out in the heavens above, the other here on the Earth below.

While astrologers don't feel that heavenly events are the cause of events here on Earth, they do feel that specific heavenly events are enacted here on the Earth too -- at the same moment. In other words, there is only one grand "play." The great drama enacted in the sky is also acted out (in exact detail) here on Earth in the same instant. Another way to say this is that the Earth is part of the cosmos and shares in that cosmic moment. Scientists have been discovering (for example) that sunspots, solar flares, and solar activity have a very definite (and almost immediate) effect here on Earth. Astrologers tend to feel that all major cosmic events such as eclipses are interactive; they represent an activity also taking place within us and our consciousness.

In summary, astrology is a study of heavenly cycles and cosmic events as they are reflected in our earthly environment and vice-versa -- a vast cosmic clock. Astrologers find the cosmic patterns revealed in the rhythmic motions of the planets a great help in shedding light on the seeming helter-skelter of everyday life. Astrologers may have their heads in the heavens, but only to better guide their feet here on Earth.

We hope you enjoy your Astro\*Talk profile. It has been calculated using sophisticated astronomical formulae to ensure high accuracy. On the next page you will find a list of the zodiac positions of your natal planets along with the house cusps for your birth moment.

## Your Rising Sign

First let's take a quick look at your ascendant, or rising sign. Astrologers want to know what zodiac sign is rising at birth, since this gives a picture of the way you appear or come across to others.

You come across as emotional and reactive. You sense things rather than think them through. You tend to mother and include everyone within your protective envelope... are more comfortable in this role.

## Planet Aspects

### **The Lights: The Sun and Moon**

At the time of our birth, the planets (through their configurations and relationships) tell us something about how things were when we were born. Each planet points to special qualities within us. Yet, of all the planets, the two most important planets to astrologers are the "lights," the Sun and the Moon. From where we stand here on Earth, the great shining Sun by day and the reflecting Moon at night are our constant companions. They have much to tell us as to where we have been and where we are headed.

### **The Sun: Your Self and Future**

From the Sun comes light, that which draws us into life. The Sun represents all the changes we have not yet taken, that part of us that we have not yet experienced but are headed toward. The Sun represents our identity, or self, in that it is toward these that we are moving and developing. Thus, it also represents that which we will become: older people, authorities -- those we look toward, or up to. Our essence, or future. Teachers, gurus, and older (more experienced) people are represented by the Sun. The Sun is "hot stuff," those further up the road of life experience.

You are outgoing, overflowing, and very generous. Always the leader, if not the center of any group, you seldom fail to exhibit strong emotions. You are proud of yourself and of your accomplishments. Dramatic and just plain happy to be here, you are warm of heart, gregarious, outspoken, and independent.

*Sun in Leo*

A born doer, with an incredible drive to accomplish and achieve in life. Your ambitions are backed up by the will to get things done. You can be very emotional, and others might find you a bit too aggressive. You try hard and you always push on toward whatever goals you have in mind. A conservative by nature, you tend to stand up for the status quo, and, if male, are probably a "man's man."

*Sun Conjunction Mars*

Being successful in life is easy, for you have a built-in sense of how to approach and unravel even the most difficult problems. You have an instinct for justice and the law, and you always know how to approach a problem from just the right angle. This ability makes you a natural counselor or guide for others, in particular regarding vocational matters. Working with and helping older persons is also suggested.

*Sun Trine Jupiter*

Responsibilities are easy for you, and you tend to pile on tasks, one after another. You work very hard, with a gritty resolve, and can accomplish much. It takes a lot to overload your willingness to take charge and help out. Organizational skills are good, and a career in one of the [www.AstroProfile.com](http://www.AstroProfile.com)

physical sciences is quite possible. You find it easy to work with those in authority or those who are more experienced than yourself.

*Sun Sextile Saturn*

### **The Moon: The Support System**

Here is information about the kind of environment we create around us, our support system. It is not only the surroundings that we set up today, but the Moon also represents our past, the particular history and social background out of which we grew. Aside from our social background, the Moon governs all of the old habits that we have grown beyond. We tend to look down on, or back on, our Moon. It represents those experiences out of which we have come, all those younger souls who are unconscious, or "sub" conscious to our own level. This is why it is said that the Moon is a mystery planet, for it is both our parent and our child: our parent in that out of it we were born, our child in that we can't but respond to others who are now living as we once did.

Yours is a passionate life. Intense feelings and strong attachments make for hot times, and you are fiercely loyal, if not sometimes possessive. Secretive, you are not at all superficial but always get to the heart of things. This is good for business and politics. You have a sense for power, wealth, and passion.

*Moon in Scorpio*

You have difficulty expressing your emotions and tend to say things that are unrelated to what you may actually be feeling. You blurt out stuff that you don't really feel, and have trouble putting your real feelings into words. Thus you can't find a lot of support from others for what you think. You don't waste a lot of thought on your surroundings, and history or tradition probably are not high on your interest list. You may upset others with things that you say. You could tend to argue with women.

*Moon Square Mercury*

You have a natural appreciation for the past, personal as well as world history -- all that is traditional. You find it easy to work with music, color, fabric, and the arts -- whatever is beautiful and genial. You would make a superb decorator of homes and, in general, all kinds of environments. You enjoy moods and emotions (whatever is psychological), especially in a group setting. Younger people, the helpless, and the needy can always be found under your umbrella.

*Moon Trine Venus*

You find it easy to work with other people and tend to pour a lot of energy into those around you. Your home and surroundings reflect this. When it comes to teaching or coaching younger people, you are a natural, always able to motivate and inspire others. With your powerful spirit, you enjoy your strong emotions and have an active social life as well.

*Moon Sextile Mars*

You have a knack for always finding assistance in whatever career moves you decide to make. In fact, your ability to rally support makes a public career of one kind or another quite probable. Success is indicated in education, politics, or the law. You know how to attack and solve problems, whether personal or public. Chances are, your social skills mean that you are

popular with almost everyone.

*Moon Sextile Jupiter*

Everything seems to conspire to put you in the limelight. You always come off well in a group and manage to get your ideas across.

*Moon Trine Ascendant*

### **The Inner Planets: Mercury and Venus**

The planets Mercury and Venus have more to do with our internal and personal life than with life outside us. These inner planets are located between the orbit of the Earth and the Sun. We can look to qualities that are inside us. Venus indicates how we appreciate and measure our experience, how we value life. Mercury tells us something about how our mind works, how we think and communicate -- our intrinsic brightness.

#### **Mercury: The Mind and Communication**

Mercury is the light in our eyes, the ever-changing consciousness within us that moves from idea to idea. Thus Mercury has always represented thoughts, ideas, and the mental process in general. It governs not only ideas, but communications, too. Communications -- by phone, letter, spoken, or however -- are ruled by Mercury. Also thoughts, connections, phone wires, and everything that connects and conveys -- even conversations.

You are dynamic and always expressive in thought and speech -- dramatic. You appreciate your own ideas, and tend to be outgoing in speech and manner. Fresh. Warm. You put forth strong views and are hard to influence or change. Emotional and a good entertainer, you are louder than average and tend to exaggerate. You are a lover. There are always plenty of tears and laughter.

*Mercury in Leo*

You say things you don't mean, and you don't always mean what you manage to say. Your feelings often run counter to what you think or communicate, and you are not at your best when things get emotional. What you say may evoke emotions from others.

*Moon Square Mercury*

You enjoy working with your mind, and your sharp perceptions make finding new solutions easy. You always bring an unexpected twist or insight to anything you set your mind to. You are able to teach or help others to be more original when it comes to the words or thoughts they use. You can use the mind in original ways and probably have excellent eye-hand coordination. Your laser-like mind makes conversations fast-paced and illuminating. A ready wit.

*Mercury Sextile Uranus*

#### **Venus: Values and Discrimination**

Venus rules our values and sense of appreciation. When we appraise or appreciate something, whether that be another person or a new car, this is Venus -- the sense of love and compassion we may feel. By the same token, this planet rules enjoyment too. Whether it be self-appreciation or just plain old decadent self-enjoyment by having a good time, this is Venus.

When we go shopping or are on a spending spree, it is Venus that allows us to appreciate and value all the good things of life.

Homeward bound! With you, the domestic scene is ideal. Marriage, children, animals, gardens -- the whole works. You like to feel secure. Sensitive too. You are dependent on others and like to be taken care of, even mothered. You love music, can be very emotional, and tend to be protective.

*Venus in Cancer*

A born charmer with an innate love and appreciation for other people, especially children. A sense of color, of music and all of the arts -- the beautiful and the comfortable. Always welcome in a group, you are a connoisseur of things bright and kind.

*Moon Trine Venus*

You are a personal charmer, as anyone who ever gets into a one-on-one with you can testify. You seem to appreciate everything and everybody, and this shows. Your sense of love and compassion is an open book for all to read.

*Venus Conjunction Ascendant*

### **The External Planets: Mars, Jupiter, Saturn**

The major planets outside the Earth's orbit (external to us) are Mars, Jupiter, and Saturn. These are the planets of the outer world -- life as we find it outside ourselves. Mars tells us something about the drive and energy we have, Jupiter shows us how to best channel that energy, and Saturn decrees what sort of material or territory we will be passing through. Again: Saturn tells us about the territory we will be going through, Jupiter the way or path through it, and Mars what kind of push or drive we can count on to keep going.

#### **Mars: Drive and Emotions**

Mars is the planet of emotion and inner motivation or drive. When we search for the meaning of something, life or whatever, it is Mars that urges us on, keeps us searching. Mars also drives us against things, too and sends us into war and combat. The urgency of Mars, the search for meaning, is identical to the need for union, yoga, and marriage. Mars is the planet of union, and marriage is the most common form of yoga. When we have questions about the opposite sex, we are looking at the planet Mars.

You have an innate urge to save, salvage and conserve, and can make a silk purse from a sow's ear. You always want to help and to be of service -- be fully used. You hate waste and are very thorough and precise. For the most part, you are understanding and accepting, but this can turn into criticism and pettiness. You are careful and a perfectionist.

*Mars in Virgo*

You are very motivated, with a strong drive and urge to do and accomplish. Others could find you a bit pushy. With an eye to progress and the future, you feel compelled to try for what is just out of your reach. You support authority in all forms.

*Sun Conjunction Mars*

A born coach or teacher, you are at home in the physical and "doing" areas of life. An inspiration and driving force in the lives of others. Quite able to manage a very active and strong emotional life. Strong spirit. Attractive. Direct, perhaps loud.

*Moon Sextile Mars*

You are a great doer, an accomplisher. Your outgoing nature, coupled with extremely skillful ways of handling other people, make you a natural for working with or for the public. You would make an excellent teacher or coach, and helping others to make career decisions is a skill you possess. Your career is never a problem, for you have the kind of drive that others can only dream about. Everything works out well for you.

*Mars Trine Jupiter*

You hate a lack of clarity, especially when it comes to your feelings and emotions. This is a less than ideal world as far as you are concerned, and you are for making the best of it. Whatever dreams and ideals you may have had are somehow shut off from the day-to-day realities you face. You would rather ignore your dreams than be tortured by their remoteness. You are suspicious of pie-in-the-sky and have an abnormal fear of being deceived, in particular in matters of love and feelings. A sign of emotional tension.

*Mars Square Neptune*

### **Jupiter: Career and Life Path**

Jupiter is the planet of success and simple survival, the way we have to solve the problems that confront us. Thus Jupiter has to do with the way in which we can be successful, our vocation. The Hindu word for Jupiter is Guru. Jupiter is the guru and guide, the way we go through life, our life path or vocation. Jupiter is the method each of us has for dealing with the laws of life, our Saturn, or limitations. Jupiter is the light or path. Jupiter provides us with our sense of direction, the path we are on, the way we handle life. It affects how we approach life's problems. It has always been an indicator of how successful we may be, our vocation.

Always on the go, you are a skilled diplomat, negotiator, or representative. Honest, frank, and to the point, you hate routines and love the outdoors, travel, and sports. An eternal optimist, you are open, friendly, and lucky too. Always the philosopher, you are not much taken with emotions. Independent.

*Jupiter in Sagittarius*

You have a sense of justice and an innate ability to understand the law, whether natural or manmade. Showing others the way through or beyond the problems in their lives comes easy, for you sense how to manipulate the opportunities of life. Lucky.

*Sun Trine Jupiter*

Like a fish in water when in the limelight or in a group, you have an innate social charm. Political and lucky too! A natural sense of what's right or of the way to get things done brings great popularity, even renown. Law, education. Could be lazy.

*Moon Sextile Jupiter*

Tremendous drive to succeed, plus some sheer good luck, brings real accomplishment. Lots

of physical energy available too. Very ambitious and motivated. Could serve as group leader or manager. Family person. Career and marriage work well.

*Mars Trine Jupiter*

You can get stuck in jobs that go nowhere from the point of view of personal growth and change. You tend to wall yourself into a position until nothing can reach or touch you. A lot of tension results, a blow-up occurs, and the whole thing happens again. While it is difficult for you to approach your sensitive areas, it is of great importance that you be able to do so. Here is a situation where one good therapy or another can be of real help.

*Jupiter Square Pluto*

### **Saturn: Responsibilities**

The process of finding out who we are (self-discovery) starts when we come to grips with whatever problems life presents to us and begin to get a handle on them. In other words, if we have not dealt with Saturn, or time (that is, if we don't have some control of time), there is little opportunity for other questions. Saturn rules the laws and limitations of this material world we all live in. Saturn indicates where we are bound to learn, the narrowness that makes our way felt, the walls that make homes possible. Saturn holds us together as much as apart. Saturn is said to be the great teacher, the planet that keeps us from getting carried away in one direction or another. Although it always seeks to limit and determine any thought, word, or action, it also defines and clarifies. Saturn is called the prince of the material world.

You tend to avoid superficiality, hating small talk and communication in general. You may have difficulty making connections and linking up to others. You need to learn how to investigate, search out answers and explore possibilities. Basic communication skills are required.

*Saturn in Gemini*

There is a real love of science and natural laws. You are a hard and tireless worker, with absolute determination and the ability to accomplish great projects with ease. You are fiercely loyal to your friends. Also, very integral... perhaps too sober.

*Sun Sextile Saturn*

You are very skilled at implementing change and improving existing circumstances. You seek to understand and improve situations, finding new but secure ways to better conditions. Inventions and discoveries, in particular in communications, computers, and electronics, may be possible. You bring order and organization to areas where new development is taking place, also emergency situations. You can teach and help others to understand this as well.

*Saturn Trine Uranus*

You are very painstaking and deliberate when it comes to partnerships, lovers -- relationships of all kinds. You tend toward long-lasting friendships and are very loyal. sometimes -- too staid.

*Saturn Square Midheaven*

### **The Outer Planets**

In the previous sections, we have dealt with planets that we can see with our naked eyes. In [www.AstroProfile.com](http://www.AstroProfile.com)

general, these planets refer to life as we know and live it and are the so-called historical or classic planets. Beyond these are three planets that are not visible in the sky and which have cycles longer than the average human life span. Since they are beyond Saturn or time, astrologers call them the trans-personal or transcendental planets -- the planets beyond the physical. One of the ways astrologers learn something about our life beyond time (eternal life) is through these three outer planets: Uranus, Neptune, and Pluto. Here we find information on how we discover ourselves (Uranus), how we understand and accept these discoveries (Neptune), and, in time, how we depend and identify with them (Pluto).

### **Uranus: Break-Thrus & Insights**

Our responsibilities can tend to weigh us down, and we each have our particular ways of getting around (or breaking through) the mass of obstructions that tends to congeal around us. The planet that has to do with how we get beyond the difficulties and problems life presents us is Uranus. Here is the way insights come to us, how we discover or come to know and understand ourselves. It has to do with finding new uses for old things, and it rules inventions and sudden insights into our life -- everything that is unusual, eccentric, and out of the ordinary. It is the reverse of the status quo and is always unconventional and heretical. Uranus is, in many ways, the opposite, or undoing of Saturn.

You can find new ways to relate and may be innovative in marriage and social conventions. Very tolerant and accepting of differences, you have good insights into all social values. Independent. You like to facilitate, compromise, and otherwise show your breadth of scope -- like a coat of many colors.

*Uranus in Libra*

Sharp, nimble mind with ready wit. Quick to get insights and to see new solutions. Approaching genius when it comes to communication skills. Natural physical dexterity. Good hands too. The life of the party when it comes to spontaneity.

*Mercury Sextile Uranus*

Improvement of existing circumstances. Insights into the status quo, ways to make use of a situation to serve new needs. Making a "silk purse out of a sow's ear" sort of thing. Invention, electronics, computers.

*Saturn Trine Uranus*

### **Neptune: Ideals & Imagination**

Even the most hard-nosed of us have moments of real understanding, when things are seen as linked together and one piece. We stop getting the idea in little flashes and just get the whole thing. It dawns on us. We each have our own way of letting go, having communion, and (as the poet wrote) letting "the dewdrop slip into the shining sea." These moments and this state of mind are, in fact, the source for all our imagination. There are many ways of seeing through the separateness in the world to the unity behind it.

Idealism is an innate talent, and you are in love with grand gestures and long thoughts. Religion, politics and philosophy are natural. The world traveler. You enjoy fair, just, frank, and broad-minded persons. You are gregarious and sports-minded. You dare to dream big. You like

new philosophies, long novels.

*Neptune in Sagittarius*

You can be self-defeating, often pushing in directions that go against your own stated ideals and dreams. You have an aversion to foggy mindedness and lack of clarity, a fear of being misled or duped. Your feelings tend to compromise your own self-image.

*Mars Square Neptune*

You work with real imagination and understanding in areas of the mind that are the most personal or private -- depth psychology. You are like a midwife of the spirit, assisting at the birth of each individual going through a spiritual or re-birth process. You accept the natural process of birth, spiritual and physical, and have dedicated yourself to helping it along. You would make a great teacher in these areas.

*Neptune Sextile Pluto*

### **Pluto: Inner Change and Growth**

Pluto is the planet of profound change, starting deep within us and moving toward the surface. It often touches upon the most sensitive psychological areas inside us. Once touched, we have no choice but to change and grow. The most sensitive of experiences, the times of greatest vulnerability, are times of complete identification with an experience, a person, or a thing. We know in these instants that we are looking at our self, what we are. The most personal of experiences is one of complete identification with a person, moment, or idea. Perhaps this is only possible for most of us when we look into our child's eyes, and then only infrequently. Love is not the experience here, but total identification. This is very sensitive stuff. To touch upon this material is to go through deep inner change and transformation -- inner alchemy. Identification and experiencing that life is our own creation and that, in fact, you are I and I am you. This experience breaks us down and humbles. When we touch upon this experience, we cannot but die to what we have been thinking and doing up to now. It reduces us to our most sensitive because -- in a flash -- we see or remember that it all is us, our life.

Change and inner growth tend to come through relationships, both friends and lovers. Marriage or union (yoga) will be very intense and not at all superficial. You get to the heart of a relationship each and every time.

*Pluto in Libra*

You have a tendency to trample on some of your own more sensitive areas and feelings. Your particular path is often at the expense of your inner transformation and growth, a need that keeps building up (again and again) to a crisis and boiling over.

*Jupiter Square Pluto*

A searing vision that cuts through what passes for conventional religion. A vision of the endless process of life ever being born afresh. Great acceptance and faith in the natural process and next generation. Love of children and animals.

*Neptune Sextile Pluto*

## Challenges and Abilities

### Focus

These are areas of life where we show intense focus and activity. For better or worse, these qualities stand out and are obvious to all those who come to know us. They are very clear parts of our character.

You are a personal charmer, as anyone who ever gets into a one-on-one with you can testify. You seem to appreciate everything and everybody, and this shows. Your sense of love and compassion is an open book for all to read.

*Venus Conjunction Ascendant 00°40'*

A born doer, with an incredible drive to accomplish and achieve in life. Your ambitions are backed up by the will to get things done. You can be very emotional, and others might find you a bit too aggressive. You try hard and you always push on toward whatever goals you have in mind. A conservative by nature, you tend to stand up for the status quo, and, if male, are probably a "man's man."

*Sun Conjunction Mars 07°35'*

### Challenges

Life can be challenging, and things are not always easy. The major challenges in a natal chart are where we can expect increased activity and personal involvement -- ready or not. These critical areas of life can be difficult, and the resulting confusion and possible obscuration often makes it hard for us to see and act with normal clarity. Therefore, when it comes to the following factors you may wish to exercise caution and extra patience.

You are very painstaking and deliberate when it comes to partnerships, lovers -- relationships of all kinds. You tend toward long-lasting friendships and are very loyal. sometimes too staid.

*Saturn Square Midheaven 00°07'*

You can get stuck in jobs that go nowhere from the point of view of personal growth and change. You tend to wall yourself into a position until nothing can reach or touch you. You could tend to argue with women.

*Moon Square Mercury 06°04'*

Despite whatever problems we may have, there are areas of life where we have clear insight and real talent -- natural ability. When it comes to these matters, our judgment is sharp and we always manage to take charge. We have the knack. It may be as simple as the ability to work hard and accomplish things without something going wrong. An innate sense of the workings of these parts of life makes it easy for us to learn and accomplish things where they are concerned.

You are a great doer, an accomplisher. Your outgoing nature, coupled with extremely skillful ways of handling other people, make you a natural for working with or for the public. You would make an excellent teacher or coach, and helping others to make career decisions is a skill you possess. Being successful in life is easy, for you have a built-in sense of how to approach and unravel even the most difficult problems. You have an instinct for justice and the law, and you always know how to approach a problem from just the right angle. This ability makes you a natural counselor or guide for others, in particular regarding vocational matters. Working with and helping older persons is also suggested.

*Sun Trine Jupiter 05°59'*

You have a knack for always finding assistance in whatever career moves you decide to make. In fact, your ability to rally support makes a public career of one kind or another quite probable. Success is indicated in education, politics, or the law. You know how to attack and solve problems, whether personal or public. Chances are, your social skills mean that you are popular with almost everyone.

## **Landscape: Major Life Periods**

What follows amounts to a brief overview of the first thirty years or so of your life -- a road map of the years to come. Since childhood, adolescence, and early adult life are so crucial to each of us, an attempt has been made to describe these formative years. Based on the gradual movement of the planet Saturn, this is one of the most tested of all astrological techniques. It is used by almost every professional astrologer as part of any personal consultation. Provided that your time of birth is more or less accurate, you will find this information both accurate and informative. Here is a general life overview, followed by a close-up on your current changes -- what is happening right now. First the overview:

### **Your Personal Background**

Your early years, until the age of 11-12, may not be very easy. You may be a more inward and insecure youngster than average. The early teens should see the end of this stage and the beginning of a much more outward and self-confident one. You will begin to sense your own strength and discover yourself at this time. What follows will be a time of learning and extending your position until around the age of 18-19, at which time you will really begin to come into your own, both in a social sense and where your career is concerned. The years from 18-26 will be very strong, during which you can do no wrong. You should rise rapidly to a position of success. After that, you will become more inward and turn away from the outer. A time for consolidation.

### **Your Current Situation**

Now for a close-up of recent years: while landscape was quite general, the dates given in this close-up should be much more precise. Life is composed of sections of time, each devoted to one kind of activity or another. We go along for a while in one direction until something changes within (or outside) us and we head off in a new course. Some of our earlier activities dry up and new ones spring up in their place. What follows is an analysis of the time period in which you find yourself now. Don't look here for a day-to-day account of life but rather to get a picture of this stretch of time, "these years."

**Apr 03, 1995 1st Pass D> (Age 22 7m)**

**Oct 30, 1995 2nd Pass R< (Age 23 2m)**

**Dec 13, 1995 3rd Pass D> (Age 23 3m)**

You are riding a high now in terms of taking advantage of the cycles in your life. This may well be a high-water mark; however, this is also the beginning of a series of years during which you should begin to consolidate and tie down the advances you have made in recent years. It may be best to begin to dig in and strengthen your current position rather than expand outward too much. You will find your mind beginning to turn away from the external (the material) and to be concerned with more inward and spiritual ideas. All of this will become clear over the next several years. This time marks a change of direction for you, away from the material and glitter, toward inner needs and security. You will find yourself more concerned with maintaining and [www.AstroProfile.com](http://www.AstroProfile.com)

strengthening your position, rather than pushing outward. In summary, a kind of high-water mark in the outward and social department. These years should be easy and filled with opportunities and friendships. Enjoy them. More demanding and inward years will be forthcoming a little further on down the road.

## **The Elements, Modalities and Angularity**

Elements, modalities, and house quadrants. These are all techniques used by astrologers to gain a general picture of how a person measures up. How do your planets and houses total up? Which do you have in abundance, and which do you lack, if any? Those with high totals show what we can or must do in life. These are qualities we have. However, most people are more interested by what they lack or want -- their lowest totals. They tend to study their "wants," imitate, and even pretend to have them. The old adage is: we become what we want (or lack), while we do what we can (or have to do). Here are your totals:

Your positivism lets you get right to the point, and you have little patience with those who shilly-shally. You've plenty of enthusiasm and warm up to things and people quickly. You have an inner self-confidence which burns with its own light.

*Have Fire*

Common sense and the ability to deal with practical matters may be lacking, and you may wonder at those who spend much time making money, doing life's chores, and attending to basic necessities. You depend on mental activity and confidence.

*Want Earth*

Very communicative, flexible, mental, and other-oriented. Perhaps you can be all things to all people, giving them what they require. Probably a smooth talker with a quick wit and ready tongue.

*Have Mutable*

Circumstances can throw you into positions where you must use your mind and deal with communications, service, or enclosed hidden interests. You may deal with education, psychology, spiritual enlightenment or teaching principles and techniques.

*Have Cadent*

You could have difficulty getting outer recognition for your efforts or accomplishments. This doesn't mean they're worthless. It does mean you should throw your efforts into work or ventures you really love doing, not for others.

*Want Angular*

## Your Burn Rate

We all change, but the question is: At what rate? Some of us tear through change after change, one phase following another, year after year, while others move at a more serene pace. Or, one area of our lives may be hectic and forever changing, while other areas are quite tranquil. Why do some people seem to live lifetimes within lifetimes? Here is an analysis of your particular rate of change or "burn rate," including the particular areas of your life (planets) where you can expect continued change and growth. Areas where there is a very low index of change (indicating clear and easy use of the qualities involved) will also be pointed out. If you have sometimes wondered about the areas of your life where the candles burn at both ends, here are the details.

You have a very high burn rate (index of change) and tend to run hot and fast. It is almost like having many lifetimes within this single one. Things are always fast and furious with you, and you seldom remain calm for long. Your thirst for experience and growth keeps you always on the move. You work through an enormous amount of change compared to an average person. In particular, the following qualities are areas where you have experienced and will continue to experience much change. These areas of life persist in presenting themselves to you, so you may already have become very experienced in them. On the other hand, they could be arenas in which you struggle but have not yet attained mastery.

A majority of planets in the PAST suggests that you are comfortable with established values. You know and understand more than you let on, and life changes seldom take you by surprise. You have a great deal of control over your actions.

### **Planets in High Focus**

The mind, and all that is mental, will be the source of continued change and adjustment. Letters, writing, speaking, and all things having to do with communication and cognitive work assume great importance. Your mind tends to be engrossed with thoughts, ideas, and concepts and remains in almost constant flux. Mental learning is an area of preoccupation.

*Mercury*

Your drive and emotions are very pure and clear. They will tend to be tranquil and not subject to continual adjustment and change. This is a special gift -- clear-seeing in emotional matters.

*Mars*

Questions of attitude, approaches to problem-solving, and the methods for handling authorities and the law are in high focus and are indicated by a high burn rate regarding your career and making your way through life. Perhaps you will have many jobs or be forever going through changes and adjustments that affect your career. It could be difficult finding lasting success or prosperity, and the path to it may be areas where you have real experience and

particular expertise.

*Jupiter*

You have a high rate of change when it comes to what you believe in -- your ideals and dreams. You adjust and change your ideals often and struggle not to get carried away with each new vision. The world of your imagination is a major focus of change.

*Neptune*

### **Patterns: Your Inner and Outer Self**

Here we are examining your basic attitude or approach to life, what is called by some the archetype or soul-type. If you know something about your particular soul-type, this can provide valuable information as to the general direction and purpose of your life. In particular, it is important to note the difference, if any, between our outer personality (the way we appear to others) and our real inner self; how are we, in fact, as people get to know us? Not all people are as they seem.

You are no secret. Outside or inside, there is not much difference. You are just as you appear.

*Geo: Square Helio: Square*

### **Your Soul Type**

You are very gifted, having great magnetism and warmth and also a keen and powerful mind. You can do anything you want to do in this life, if you can manage to get moving in one direction and keep at it. This is a very fortunate chart, but one that may result in laziness. You may find it more convenient to neglect your mental, conceptual, and organizational abilities in favor of your social agility and animal warmth. People will value you for your warmth and dynamic qualities as much as for your ideas, and you may find it easier to acquiesce with your animal warmth than to develop your mind. You can relate to almost all types of people with equal ease.

*Square Type*

### **The Key to your Inner Life**

Each person has one or more key qualities. Here we are not referring to our appearance or personality, but rather to our inner nature, how we are when someone really gets to know us.

At heart, you have a deep sense of responsibility and purpose, and this seriousness is genuine and felt by others. You seem to gravitate to those things which last and hold true, and are always separating the wheat from the chaff. You manage to get down to the bare bones. Matters of law, religion, and philosophy of the most resolute kind hold your interest.

*Saturn*

## **The Key to your Personality**

Your sense of direction (handling a person or a problem) is perhaps the key element in your personality make-up. How you manage difficulties, find that diplomatic solution, or come up with the right approach all are built around your talent. Your outward charm and ability to be all things to all people is what is most central to your personality. This ability to solve problems, to counsel and always to put others at ease is the key to meeting and coming to know you.

*Jupiter*

## **The Personal Hot Spot**

Your inner self and your goals are the most active facets of your personality. They receive more stress and attention than other areas of your life.

*Sun*

Emotions and drive take the heat as far as being a prime focus for action in your personal sphere.

*Mars*

## **Interface: Innermost qualities**

This feature is based on an intricate analysis of the position of a particular planet in relation to the orbital planes of the other planets. The resulting series of crossings, or nodes, tells us something about the nature of our innermost inclinations (Inc) and disinclinations (Dis). These indicators are not to be considered at the level of our personality, but rather are deep-seated parts of our innermost character -- our internal biases. These pros and cons are not apt to change in the course of our lifetime.

You are responsible to the extreme, always taking on obligations and pushing yourself to the limit. You pursue your obligations with much emotion and obvious enthusiasm. You are Spartan when it comes to your needs and surroundings. Small and less are beautiful for you. If anything, you try too hard and tend to force things. Others may find your approach severe and hurtful at times. You can be too sober and frugal.

*Mars Inc Saturn*

You may lack coordination, in particular in relation to making career moves. Your emotions, led by your temper, can send you off in a direction that is anything but where you really want to go. There is a basic struggle between your feelings and your livelihood; therefore, it is important to find work that does not deny your feelings, or they will explode. Acting only on your feelings and doing "whatever you want" with no thought for a plan is also not helpful. Advice from a trusted friend is in order to help coordinate your job and your emotional life.

*Jupiter Dis Mars*

You waste a lot of energy sailing into the wind and clashing against authority or reality for [www.AstroProfile.com](http://www.AstroProfile.com)

no good reason. You resent having to get serious, go to work, and take on responsibilities. Your efforts tend to lack the determination and organization necessary for real accomplishment. Very little can be accomplished without some sort of discipline and training, and you resist these like the devil. You avoid work.

*Saturn Dis Mars*

Your passion for freedom and independence stops short of the personal and private areas of your life. You don't feel so free when things get psychological and analytical. You tend to rebel against all interaction that gets close and personal. Feeling vulnerable or exposed causes you to freak out and break away.

*Uranus Dis Pluto*

The rebel in you likes to ignore your dreams and ideals and just let come what may. You relish your freedom and independence and pursue it even at the expense of what you know you really want. You can take delight in ruining your own deep-rooted dreams. The romantic in you struggles against the frontier spirit that often moves you to action.

*Neptune Dis Uranus*

## Major Transits Happening Now

Astrologers use the term "transits" to mean the positions of the major planets that are overhead (in the sky) right now and their relationship to our birth chart. Transits are very important indicators of the current situation in which we find ourselves. They can provide insight into what we are now going through. Here are the dates when the next major transits for the planets Jupiter, Saturn, Uranus, Neptune, and Pluto are exact in your chart. Some dates will have already passed and some are still to come. Remember, with these large planets transits don't just happen on the day when they are exact. They cover a wide span of days, weeks, months, and sometimes years, depending on which planet is involved.

In general, transits of Jupiter take from several days to a week or two to complete, while those of Saturn take from two weeks to a month to play themselves out. With the outer planets, the period of activity is even longer: transits of Uranus take about two months, Neptune three or four months, and Pluto takes about a year. Uranus, Neptune, and Pluto move so slowly that the complete transit experience may take a year or two to complete itself. So be prepared to work with these situations.

## House Activity and Emphasis

The twelve houses of the horoscope, particularly when they are occupied by a planet, provide a clue to areas of special activity and use. Here is an analysis of house activity based on planet emphasis:

### **First House: Appearance, Approach**

The first house has to do with how we appear or the way we come across, thus our appearance and personality. This is the essential stuff that bubbles up in us spontaneously and that is obvious to others as our trademark or activity. It is what makes us each so personally different. This house rules our personal self and everything about us that draws a reaction from our surroundings or others.

*First House*

Cancer is the mother of the zodiac, always making a home, protecting and providing for others. A sensitive sign where feelings and real experience count more than cold logic. It doesn't get any more physical and emotional than here. This sign has a sense of substance, a home base or foundation. Cancer energy is always limiting, bringing us down to Earth, grounding our every thought in experience, in substance.

*Cancer*

## **Second House: Possessions, Reactions**

The second house is concerned with how we respond to or field whatever impulses or unique and personal qualities we manifest via our first house. This is how we hold or "have" things (possessions, material goods, money, and the like). The second house always refers to how we secure ourselves, the kind of response we get from life and those around us.

*Second House*

Cancer is the mother of the zodiac, always making a home, protecting and providing for others. A sensitive sign where feelings and real experience count more than cold logic. It doesn't get any more physical and emotional than here. This sign has a sense of substance, a home base or foundation. Cancer energy is always limiting, bringing us down to Earth, grounding our every thought in experience, in substance.

*Cancer*

You have a good mind for business. You tend to think along lines that are practical and conservative, always coming up with sound and productive ideas.

*Mercury in Second House*

## **Third House: Inquiries, Communications**

The third house is concerned with explorations, investigations, and inquiry and research of all kinds. It also rules connections, communications, wires, tubes -- anything that we can get through with our body, mind, voice, letters, what-have-you. It is here that we explore and search for the limits of our life, whatever we are working with at the moment. A very mental house, concerned with finding, furthering, peering, and all manner of questioning. Traditionally rules short journeys, siblings.

*Third House*

Leo energy is expressive, emotive, and concerned with awareness and a sense of pride and ownership. Here is always a sense of home base or confidence from which the aggressive and outgoing Leo energy operates. Often very artistic, and always theatrical and expressive, this sign is good for creativity and the arts. Warm and big-hearted, this sign belongs to love of animals, sports, children.

*Leo*

You are very communicative, not a little curious, and like to talk, speak, write, and so on. Study, research, and investigations of all kinds appeal to you. You are always searching out some answer or another. Siblings are important too.

*Sun in Third House*

A relentless drive to pursue knowledge, to search, research, and follow out leads and pointers. You are very motivated when it comes to communications of all forms -- phone, voice, letters, computers, and the like.

*Mars in Third House*

## **Fourth House: Home, Family, Security**

The fourth house is where we send down roots, find our limits, and generally secure ourselves. It is the end of any searching we might have done in the third house. Here we find or end our search, settle down, and manage to get in possession of the whole situation. This is our home and the base from which we can work, feel, and experience. This is the root of our experience, the core or thick of it.

*Fourth House*

Virgo energy is analytical and precise, always separating what is worthwhile and worth supporting from that which is outmoded and of no further use. A mental sign, where thinking and examining are in high focus. Also, a different kind of mother, here an endless caring and worrying (fussing) about just about everything. Always compassionate and responsive, Virgo energy is service-oriented above all, often thinking and caring more about what others are doing and thinking than for self.

*Virgo*

You are very independent when it comes to your own security and family. This could mean an unconventional-style home or furnishings, or a different approach to sentiment, nostalgia, and history.

*Uranus in Fourth House*

You may go through a lot of changes that affect your sense of security. Your home and family situation could be a focus for growth and real learning -- an area of great sensitivity and vulnerability.

*Pluto in Fourth House*

## **Fifth House: Expression, Creativity**

The fifth house has to do with awareness, emotion (to move out), and expression (to press out). Here there is always a growing sense of self-confidence and even a pride of ownership, since we begin to recognize and own our experience. We know that we have had or are having an experience. All forms of expression and offspring are connected to this house -- children, animals, creative expression, and so on. A sense of direction and ownership takes hold at this point in our experience.

*Fifth House*

Libra energy is always facilitating and responsive, assuming the appropriate reaction or response to any question or statement. What is sometimes seen as two-faced is only Libra's facility at responding to each in kind. This is certainly the social sign, par excellence. Impersonal and impartial, this sign doles out only what is demanded, never overdoing things.

*Libra*

You are at your most expressive when urged on by a group or in an environment that you feel is supportive. You may enjoy group sports or working with children or animals. Creativity and its expression are very important in your life.

*Moon in Fifth House*

You have great creative imagination, perhaps a strong sense for the dramatic and the ability to express ideas of a mystical or other-worldly flavor. Entertaining children (and adults) with enchanting stories and the like is indicated.

*Neptune in Fifth House*

### **Sixth House: Responsibility, Work, Health**

The sixth house has to do with salvaging and preserving what is good and healthy in our experience. Here we separate the wheat from the chaff. We begin to care for ourselves and our experience and thus health, nutrition. The idea here is that we are able to analyze our experience and have thoughts about what is pure and what is not. The sixth house is an attempt to save the heart of an experience, one that already by that attempt is beginning to pass or not cohere.

*Sixth House*

Sagittarius is nothing if not direct, candid, and to the point. Sometimes harsh, this energy always is concerned with the absolute truth of the subject at hand. Associated with philosophy, religion, and all things that last, Sagittarius energy is always welcome in politics as well as social and community endeavors, where its basic fairness and evenhandedness is helpful.

*Sagittarius*

A career in one of the service or health occupations is possible, for you may find yourself automatically taking care of the needs of others. Your occupation involves health, food, and all attempts to restore, salvage, and make the best out of things.

*Jupiter in Sixth House*

### **Seventh House: Relationships, Other People**

The seventh house is the house of partnerships, relationships, social life, and all that carries us beyond our personal self into an awareness of other people, community, and the like. This includes spiritual awakening and the discovery that we are more than just our personality. Here we begin to respond to our personal needs (and those of others) for the first time. We can see what is going on and are committed to it; thus, marriage and yoga, or union, is indicated in this house.

*Seventh House*

Capricorn is the business energy of the zodiac, for it is the very opposite of the emotional Cancer. Given to clear-headedness and practical insight and vision, this sign always takes a distanced perspective, a cool appraisal. Logical and painstaking, Capricorns love hard work and earned results. Money and things in general are very important.

*Capricorn*

### **Eighth House: Business Savvy, Elimination**

The eighth house, traditionally the house of death, is concerned with getting rid of excess parts of ourselves that we see we no longer need. Thus this house also covers initiation and any activities where we are transforming toward a more integral position, getting to the heart of things. The no-nonsense quality of the eighth house makes it good for business ventures since here we are stripping away the dross to reveal the truth or essence of the subject.

Money and things in general are very important.

*Capricorn*

### **Ninth House: Religions, Philosophy, Ideas**

The ninth house covers long journeys and religion (the longest journey of all). Here is what remains of the purification that takes place in the eighth house -- the seed, or essence, of an entire cycle of experience. Religion comes from a Latin word that means to bind back, and thus refers to all things that last or endure, such as the truth. Essential ideas, philosophy, and all that is the very heart of things belong here.

*Ninth House*

Aquarius, the sign of humanitarian goals and altruism. Always impartial and nonsectarian, Aquarian energy is communal (even global). The focus is on the goal, and the goal is always one that is for the many and not the few. Thus this sign is connected to far-seeing visions, world views, and group work of all kinds. This sign tends towards coolness, independence.

*Aquarius*

### **Tenth House: Practical Vision, Vocation**

The 10th house is a house of practical vision and clairvoyance, for here we can see clearly what is. Reputation and career are often connected to this house, since the areas where we can see with greatest clarity are those we most often can put to use to make a living. In summary, this house is where we have real vision and can see to do and work. Planets transiting this house may provide moments of insight and clear-seeing as well.

*Tenth House*

Pisces energy runs deep and toward the psychological -- whatever is beneath the surface. This sign is understanding, patient, and long-suffering. Pisces tend to absorb all the little barbs and digs coming from outside. They always have their mind on an inner goal, something more important. They are very forgiving and accepting -- giving of themselves for the sake of more important issues.

*Pisces*

### **Eleventh House: Dreams & Visions, Community**

The 11th house has to do with putting our visions and dreams to work. We have been on the mountain and had a vision (10th house). Here we take our vows never to forget what we have seen and to work hard to make these dreams into reality. Thus this house has always been connected with altruistic and humanitarian goals and trying to set them in motion. It is the house of friends and community, because when we are powered by a real insight or vision we share with all -- irrespective of differences.

*Eleventh House*

Aries is the sign of the pioneer and leader. It is always impulsive, concentrated, and spontaneous. Act first and think about what you have done later. Rushing in where others fear to tread, the Aries energy is attention-getting. It always provokes a response from the surroundings, from others. There is something essential and instigative that starts or causes something else to happen -- a reaction or response.

*Aries*

### **Twelfth House: Sacrifice, Psychology, Acceptance**

The 12th house is about all that we go through in order to make our dreams into reality and manifest them in the world around us. It covers what we are willing to put up with, the sacrifices we will make in order to bring across what is really important. This is connected to prisons, institutions, betrayal, self-undoing, and the like, because it is here that we must choose to take some possible abuse for the sake of the message we are carrying, or blow it all away with a negative reaction.

*Twelfth House*

Gemini is concerned with connections and communication of all kinds -- letters, wires, telephones, voice, thoughts, writing, and mental processes in general. Gemini is the gadfly, the communicator, the gossip of the zodiac. Searching conversations, scientific inquiry, research, and so on belong here. Gemini energy is unattached, independent, and inquisitive.

*Gemini*
