...As Above... So Below

Introduction

Astrology is as old as measured time. Although there are many different approaches to astrology, all astrologers appear united in the idea that there is a connection between the heavens and the Earth -- they share one common space. For centuries there has been a misunderstanding concerning the nature of astrology to the effect that the heavens somehow "influence" events here on Earth. This theory of celestial influence has penetrated into the modern world until today it is the main concept or idea of astrology supported by the public -- the lay astrological audience.

Professional astrologers do not hold with theories of celestial influence. Instead, the modern astrologer conceives of the heavens and Earth as united, interpenetrating, and sharing a common space and time. The great cosmic or celestial events happening around and beyond the Earth (eclipses, lineups, and so on) are not seen as CAUSING events to occur on Earth, but as great signatures of events ALSO happening here on Earth. In other words, there is no "cause" in the heavens followed by an "effect" here on Earth. Instead, both planetary and earthly events happen simultaneously and are mutually reflective. Neither is the cause of the other; both are the product of the moment, one acted out in the heavens above, the other here on the Earth below.

While astrologers don't feel that heavenly events are the cause of events here on Earth, they do feel that specific heavenly events are enacted here on the Earth too -- at the same moment. In other words, there is only one grand "play." The great drama enacted in the sky is also acted out (in exact detail) here on Earth in the same instant. Another way to say this is that the Earth is part of the cosmos and shares in that cosmic moment. Scientists have been discovering (for example) that sunspots, solar flares, and solar activity have a very definite (and almost immediate) effect here on Earth. Astrologers tend to feel that all major cosmic events such as eclipses are interactive; they represent an activity also taking place within us and our consciousness.

In summary, astrology is a study of heavenly cycles and cosmic events as they are reflected in our earthly environment and vice-versa -- a vast cosmic clock. Astrologers find the cosmic patterns revealed in the rhythmic motions of the planets a great help in shedding light on the seeming helter-skelter of everyday life. Astrologers may have their heads in the heavens, but only to better guide their feet here on Earth.

We hope you enjoy your Comprehensive AstroProfile. It has been calculated using sophisticated astronomical formulae to ensure high accuracy. On the next page you will find a list of the zodiac positions of your natal planets along with the house cusps for your birth moment.

Your Rising Sign

First let's take a quick look at your ascendant, or rising sign. Astrologers want to know what zodiac sign is rising at birth, since this gives a picture of the way you appear or come across to others.

You are quick, witty, and much given to talk and communicating with others. You come across as intelligent, verbal, and perhaps a little on the nervous side. You tend to be changeable, being all things to all people.

Planet Aspects

The Lights: The Sun and Moon

At the time of our birth, the planets (through their configurations and relationships) tell us something about how things were when we were born. Each planet points to special qualities within us. Yet, of all the planets, the two most important planets to astrologers are the "lights," the Sun and the Moon. From where we stand here on Earth, the great shining Sun by day and the reflecting Moon at night are our constant companions. They have much to tell us as to where we have been and where we are headed.

The Sun: Your Self and Future

From the Sun comes light, that which draws us into life. The Sun represents all the changes we have not yet taken, that part of us that we have not yet experienced but are headed toward. The Sun represents our identity, or self, in that it is toward these that we are moving and developing. Thus, it also represents that which we will become: older people, authorities -- those we look toward, or up to. Our essence, or future. Teachers, gurus, and older (more experienced) people are represented by the Sun. The Sun is "hot stuff," those further up the road of life experience.

Here is great patience, able to respond to the world and to build upon what is already there and happening. You are willing to listen to others, take cues, and then reflect and build upon that information. Others find you gentle, steady, and, for the most part, kind. You take things in and provide an environment to bring them forth. You make "fertile" your field. A ready ear.

Sun in Taurus

There is a lack of harmony between your environment and your ambitions. What you need most is not always at hand to make the kind of progress you envision. Or, when the support is there, you can't get the instruction or direction you require. You may have forgotten where it was you wanted to get to, sort of "all dressed up, but which way to go?" It could be historical, too, as simple as being torn between your mother and your father -- a struggle between that which seeks to nurture you (and perhaps baby you) and your ambitions -- a need to succeed and be all that you can be.

Moon Square Sun

You work well with those in authority who are independent and original. You could find yourself engaged in nonconformist causes, always ready to promote what is independent and innovative. You like radical approaches, and find yourself in support of whatever new-wave product or breakthrough advance is next in line. Communication, computers, electronics, and everything new-wave excites you and you excel here. You discover new ways of working with traditional materials.

Sun Sextile Uranus

Any attempt to avoid confronting life at the personal level is bound to frustration. Your avowed goals and ambitions may tend to ignore questions of vulnerability and great sensitivity, and the two are forever about to meet and "tell all." You would rather skirt your sensitive and vulnerable areas and concentrate on your career, but they always intrude and refuse to be banished. Although you yourself like to avoid personal issues, your interest in probing the secrets of others is very energetic.

Sun Square Pluto

Your preoccupation with your appearance, how you come across to others, and a social life in general may cut into both your job and your family life. A tendency toward surface and social graces can cost you plenty in career and home goals.

Sun Square Midheaven

The Moon: The Support System

Here is information about the kind of environment we create around us, our support system. It is not only the surroundings that we set up today, but the Moon also represents our past, the particular history and social background out of which we grew. Aside from our social background, the Moon governs all of the old habits that we have grown beyond. We tend to look down on, or back on, our Moon. It represents those experiences out of which we have come, all those younger souls who are unconscious, or "sub" conscious to our own level. This is why it is said that the Moon is a mystery planet, for it is both our parent and our child: our parent in that out of it we were born, our child in that we can't but respond to others who are now living as we once did.

You are inspired, for humanity is your family and you are seldom bound by tradition or domestic ties. The big picture is what counts most with you, and large-scale movements and group work are the idea. You seldom find personalities interesting and are democratic in the real sense of the word. You are an altruist and love freedom.

Moon in Aquarius

You are sometimes torn between a desire to progress and be all that you can be versus a tendency to dwell in the past, resting on your laurels. Your inner, more domestic side struggles against authority. You could feel caught in the middle.

Moon Square Sun

You have a natural appreciation for the past, personal as well as world history -- all that is traditional. You find it easy to work with music, color, fabric, and the arts -- whatever is beautiful and genial. You would make a superb decorator of homes and, in general, all kinds of environments. You enjoy moods and emotions (whatever is psychological), especially in a group setting. Younger people, the helpless, and the needy can always be found under your umbrella.

Moon Sextile Venus

You tend to avoid getting personal when it comes to your own emotions, and would rather keep sensitive matters at arm's length. You don't mind getting into the personal business of others, producing some heavy confrontations. Those around you don't care for personal probing on your part, and they will let you know it. Your home and surroundings tend to be very traditional.

You are expert at manipulating the public and its many moods. Your practical sense for group psychology may find you in real demand as an organizer and producer of public events. You have real insight into feelings, moods -- what makes people work.

The Inner Planets: Mercury and Venus

The planets Mercury and Venus have more to do with our internal and personal life than with life outside us. These inner planets are located between the orbit of the Earth and the Sun. We can look to qualities that are inside us. Venus indicates how we appreciate and measure our experience, how we value life. Mercury tells us something about how our mind works, how we think and communicate -- our intrinsic brightness.

Mercury: The Mind and Communication

Mercury is the light in our eyes, the ever-changing consciousness within us that moves from idea to idea. Thus Mercury has always represented thoughts, ideas, and the mental process in general. It governs not only ideas, but communications, too. Communications -- by phone, letter, spoken, or however -- are ruled by Mercury. Also thoughts, connections, phone wires, and everything that connects and conveys -- even conversations.

You have a sharp tongue and a quick wit. You speak first, then think about it. Not subtle or complex, you are direct, simple, and to the point. An independent thinker, you would rather speak than listen. Argumentative too. You are quite impulsive when it comes to communicating, and often use strong words.

Your thinking is probably anything but organized, and you could find it hard to study or exercise any real mental discipline. You run on and on in the word department, finding it difficult to limit yourself to the message at hand. Others may end up setting limits for you. Your free-form approach to conversations lacks responsibility and could result in confrontations with authorities. In other words, what you say could get you in trouble. At the very least, others find much of what you say and think impractical.

Mystical and other-worldly thoughts are not for you. You are painstaking in your avoidance of all that is transcendental and smacks of the next world. You find yourself in conversations (and probably arguments) on these subjects more often than not. For yourself, you go out of your way to be clear-headed and practical and have little tolerance for the stuff of imagination and dreams. Your ideal world is right here, and any other thoughts are beside the point.

When it comes to mental work, you have a perfect gift for research and investigation. You enjoy examining and analyzing, in particular when it comes to psychological and sensitive areas of the mind. Your ability to sift through the dross and come up with what is essential every time is exceptional. You like to discuss and communicate, again always at a psychological and very personal level. Others may find you just too intense.

Mercury Trine Pluto

Your mind is ever on communication, how you present yourself and come across with others. It is easy for you to express yourself in a crowd, and you are a real smoothie. Everything seems to work out for you when you are talking with others.

Mercury Sextile Ascendant

Venus: Values and Discrimination

Venus rules our values and sense of appreciation. When we appraise or appreciate something, whether that be another person or a new car, this is Venus -- the sense of love and compassion we may feel. By the same token, this planet rules enjoyment too. Whether it be self-appreciation or just plain old decadent self-enjoyment by having a good time, this is Venus. When we go shopping or are on a spending spree, it is Venus that allows us to appreciate and value all the good things of life. You exhibit great appreciation, intense love, and always wear your heart on your sleeve -- always! Not too sensitive with others, you tend to be rough and ready and can sometimes demand a lot of attention. Shy flowers, stand back! You are independent and single-minded, demonstrative and very loving.

Venus in Aries

A born charmer with an innate love and appreciation for other people, especially children. A sense of color, of music and all of the arts -- the beautiful and the comfortable. Always welcome in a group, you are a connoisseur of things bright and kind.

Moon Sextile Venus

Your conservative values clash with whatever is unconventional and different. You don't value novelty and do your best to ignore changes. You appreciate tradition and regularity, and your value system is dead set against anything new or out of the ordinary. Despite your feigned ignorance to the contrary, you suffer regular infusions of change, which you find very disturbing. New things threaten to overpower you.

Venus Square Uranus

You don't appreciate other-worldly talk. Dreams, imagination, and images are a lot of "hokey," as far as you're concerned. You find it hard to let go, and you stick to a value system that even you know is less than ideal. You compromise your own ideals and values out of fear of being deceived and led astray. "They" are all charlatans, as far as you're concerned, which is one way of showing how important this subject is to you. Confrontations along these lines are easy to come by, and you seldom fail to bite.

Venus Opposition Neptune

You are very skilled at working with psychology, and the hidden recesses of the mind are, to you, no secret. You would make an excellent psychologist and teacher of this subject. These same skills make it possible for you to work with the public, in politics or wherever handling sensitive or "hot" issues is routine. You value change and transformation and have an almost reckless faith in the life process. You love to be touched at the most personal and vulnerable levels.

Venus Trine Pluto

Your love of job and practical skills makes you a fine manager and business person. You bring a great deal of love to your work.

Venus Sextile Midheaven

The External Planets: Mars, Jupiter, Saturn

The major planets outside the Earth's orbit (external to us) are Mars, Jupiter, and Saturn. These are the planets of the outer world -- life as we find it outside ourselves. Mars tells us something about the drive and energy we have, Jupiter shows us how to best channel that energy, and Saturn decrees what sort of material or territory we will be passing through. Again: Saturn tells us about the territory we will be going through, Jupiter the way or path through it, and Mars what kind of push or drive we can count on to keep going.

Mars: Drive and Emotions

Mars is the planet of emotion and inner motivation or drive. When we search for the meaning of something, life or whatever, it is Mars that urges us on, keeps us searching. Mars also drives us against things, too and sends us into war and combat. The urgency of Mars, the search for meaning, is identical to the need for union, yoga, and marriage. Mars is the planet of union, and marriage is the most common form of yoga. When we have questions about the opposite sex, we are looking at the planet Mars.

You have an inner need for communication of all kinds and may have too many irons in the fire at times. You can be all over the place, always trying to make one more connection. Speaking and writing are naturals. You have a need for lots of variety, a change of pace. Arguments. Mental energy.

Mars in Gemini

You are driven when it comes to fulfilling your ambitions and carving out a career. There is no lack of energy or drive here, and nothing can stand in your way. Everything is poured into making the right moves, the correct decisions. You are outgoing, enthusiastic, and always diplomatic -- everybody's favorite. You have a natural instinct for making the correct move at the right time. Politics or some public career seem inevitable.

Mars Conjunction Jupiter

Jupiter: Career and Life Path

Jupiter is the planet of success and simple survival, the way we have to solve the problems that confront us. Thus Jupiter has to do with the way in which we can be successful, our vocation. The Hindu word for Jupiter is Guru. Jupiter is the guru and guide, the way we go through life, our life path or vocation. Jupiter is the method each of us has for dealing with the laws of life, our Saturn, or limitations. Jupiter is the light or path. Jupiter provides us with our sense of direction, the path we are on, the way we handle life. It affects how we approach life's problems. It has always been an indicator of how successful we may be, our vocation.

You have a green thumb in many areas, able to cultivate and nurture almost any subject. Making money is second nature, and you are able to field ideas and bring forth growth and success. A steady worker, you could also be a backer or money man. Accumulation.

Jupiter in Taurus

Your career is most important, and your drive and ambitions in that direction are almost unlimited. You have an uncanny intuitive sense of when and how to make the right moves. Success to you is a succession of successes. You move forward.

Mars Conjunction Jupiter

Saturn: Responsibilities

The process of finding out who we are (self-discovery) starts when we come to grips with whatever problems life presents to us and begin to get a handle on them. In other words, if we have not dealt with Saturn, or time (that is, if we don't have some control of time), there is little opportunity for other questions. Saturn rules the laws and limitations of this material world we all live in. Saturn indicates where we are bound to learn, the narrowness that makes our way felt, the walls that make homes possible. Saturn holds us together as much as apart. Saturn is said to be the great teacher, the planet that keeps us from getting carried away in one direction or another. Although it always seeks to limit and determine any thought, word, or action, it also defines and clarifies. Saturn is called the prince of the material world.

You have difficulty with relationships and are very idealistic when it comes to friends. You are inflexible, seldom compromise, and find it hard to give in where other people are involved. You need to develop diplomacy and patience. Learn to give (as in "give in") rather than oppose. Be flexible.

Saturn in Libra

You can at times be unorganized and lack discipline in the idea and mental department. You have difficulty limiting and defining what you say or think and may tend to impractical schemes. It could be hard for you to concentrate and to study.

Mercury Opposition Saturn

You may have difficulty letting go and being imaginative. Your no-nonsense, practical approach makes subjects like the unity of life, ideals, and dreamy stuff hard for you to take. However, your dreams and ideals are very important to you, and you methodically go about putting them into practice. You have little interest in the spirituality and psyches that are rampant today. You see through that and value the essential unity behind all religions. You could bring imagination and religious understanding to physical and scientific studies.

Saturn Conjunction Neptune

When it comes to psychology you have great penetration, and always understand how to get down to the core material. You enjoy working with sensitive and vulnerable areas of the mind, searching out and defining points of transformation, areas for growth. You could teach and instruct others in these areas. You aren't afraid to get into the most sticky situations, and you always come up with the essence of the matter at hand.

Saturn Sextile Pluto

You express yourself deliberately and don't waste your words. You have a natural sense of organization and come across as disciplined and careful, perhaps a little too sober.

Saturn Trine Ascendant

The Outer Planets

In the previous sections, we have dealt with planets that we can see with our naked eyes. In general, these planets refer to life as we know and live it and are the so-called historical or classic planets. Beyond these are three planets that are not visible in the sky and which have cycles longer than the average human life span. Since they are beyond Saturn or time, astrologers

call them the trans-personal or transcendental planets -- the planets beyond the physical. One of the ways astrologers learn something about our life beyond time (eternal life) is through these three outer planets: Uranus, Neptune, and Pluto. Here we find information on how we discover ourselves (Uranus), how we understand and accept these discoveries (Neptune), and, in time, how we depend and identify with them (Pluto).

Uranus: Break-Thrus & Insights

Our responsibilities can tend to weigh us down, and we each have our particular ways of getting around (or breaking through) the mass of obstructions that tends to congeal around us. The planet that has to do with how we get beyond the difficulties and problems life presents us is Uranus. Here is the way insights come to us, how we discover or come to know and understand ourselves. It has to do with finding new uses for old things, and it rules inventions and sudden insights into our life -- everything that is unusual, eccentric, and out of the ordinary. It is the reverse of the status quo and is always unconventional and heretical. Uranus is, in many ways, the opposite, or undoing of Saturn.

You are very innovative in your approach to home, family, and the domestic scene and can really see how to get into traditional values. You have natural insight into sensations, feelings, and just living life. You like to relax by gardening, cooking, and being with family. You get off on the humdrum.

Uranus in Cancer

Breakthrough flashes of insight with tremendous originality and independence are typical. A natural sense of invention and a love of all things electrical and of communication in general. A born traveler, not afraid to be alone. You go your own way.

Sun Sextile Uranus

You may not be able to let yourself appreciate much that is not conventional for fear of going on some kind of a binge. A strong sense of the novel and unusual rears its head every so often and upsets your whole value system.

Venus Square Uranus

The rebel in you likes to ignore your dreams and ideals and just let come what may. You relish your freedom and independence and pursue it even at the expense of what you know you really want. You can take delight in ruining your own deep-rooted dreams. The romantic in you struggles against the frontier spirit that often moves you to action.

Uranus Square Neptune

Neptune: Ideals & Imagination

Even the most hard-nosed of us have moments of real understanding, when things are seen as linked together and one piece. We stop getting the idea in little flashes and just get the whole thing. It dawns on us. We each have our own way of letting go, having communion, and (as the poet wrote) letting "the dewdrop slip into the shining sea." These moments and this state of mind are, in fact, the source for all our imagination. There are many ways of seeing through the separateness in the world to the unity behind it.

Relationships are the ideal. Non-discriminating and impersonal in scope, to you all are equal.

You are seldom bound by tradition or personal ties and are not domestic. You hold the ideal vision up to the real. You open up in response to others and accept others as yourself.

Neptune in Libra

You can go out of your way to be clear-minded and practical, taking care to remove every vestige of imagination and dreaminess. This is an attempt to ignore your more spiritual and mystical side, which seems to spring up and challenge you at every turn.

Mercury Opposition Neptune

Your value system may be less than ideal, even according to your own standards. A tendency to compromise and accept things that don't do much for your self-image is present. There is a basic struggle between dreams or ideals and day-to-day reality.

Venus Opposition Neptune

You steadfastly go about making your dreams real, putting your ideals into practice. Your imagination excels when it comes to physical reality (physics) and working with time. Your flare for mysticism is never superficial or trivial.

Saturn Conjunction Neptune

Your independence and unconventional manner may be at the expense of ideals and dreams. You may alternate between following your more traditional ideals and shattering your self-image via some very erratic and unusual behavior.

Uranus Square Neptune

You work with real imagination and understanding in areas of the mind that are the most personal or private -- depth psychology. You are like a midwife of the spirit, assisting at the birth of each individual going through a spiritual or re-birth process. You accept the natural process of birth, spiritual and physical, and have dedicated yourself to helping it along. You would make a great teacher in these areas.

Neptune Sextile Pluto

You are charming and always manage to enchant others with your words and manner. You bring a sense of the beyond and mystical to any conversation.

Neptune Trine Ascendant

Pluto: Inner Change and Growth

Pluto is the planet of profound change, starting deep within us and moving toward the surface. It often touches upon the most sensitive psychological areas inside us. Once touched, we have no choice but to change and grow. The most sensitive of experiences, the times of greatest vulnerability, are times of complete identification with an experience, a person, or a thing. We know in these instants that we are looking at our self, what we are. The most personal of experiences is one of complete identification with a person, moment, or idea. Perhaps this is only possible for most of us when we look into our child's eyes, and then only infrequently. Love is not the experience here, but total identification. This is very sensitive stuff. To touch upon this material is to go through deep inner change and transformation -- inner alchemy. Identification and experiencing that life is our own creation and that, in fact, you are I and I am you. This

experience breaks us down and humbles. When we touch upon this experience, we cannot but die to what we have been thinking and doing up to now. It reduces us to our most sensitive because -- in a flash -- we see or remember that it all is us, our life.

You are very sensitive (even vulnerable) when it comes to expressing yourself, getting it out. Periods of intense creativity enable you to go through changes and inner growth. This creative intensity is good for music, poetry, art, and such.

Pluto in Leo

You may have a secret life aside from your more public ambitions. Your need for analysis and in-depth probing of every aspect of your life may run counter to your best interests. Power struggles with authorities (and within yourself) can result.

Sun Square Pluto

Your own insistence on analyzing and probing into personal issues may not endear you to the group. Others experience this kind of emotional intensity as unsettling. It goes against how they feel. Power struggles in relationships can be expected.

Moon Opposition Pluto

Penetrating, probing mind that is good for research. Can see far beyond normal concepts in areas of religion and psychology. Always want to get to the bottom of things, get under or beyond the superficial. A sense of the eternal.

Mercury Trine Pluto

An almost reckless faith in the life process. A natural revolutionary and supporter of change. Fervent feelings for others and deep running emotions mark all relationships. Great personal intensity, even power. Love animals, children, and change.

Venus Trine Pluto

Persistent, intense, and serious. Getting at the heart or root of a situation. Great psychological insight into life problems. Perhaps aiding or counseling, helping others understand difficulties. Fiercely tenacious.

Saturn Sextile Pluto

A searing vision that cuts through what passes for conventional religion. A vision of the endless process of life ever being born afresh. Great acceptance and faith in the natural process and next generation. Love of children and animals.

Neptune Sextile Pluto

You always manage to come across as intense and personal when communicating and presenting yourself to others. Others can be fascinated by the way you come on.

Pluto Sextile Ascendant

Challenges and Abilities

Focus

These are areas of life where we show intense focus and activity. For better or worse, these qualities stand out and are obvious to all those who come to know us. They are very clear parts of our character.

You may have difficulty letting go and being imaginative. Your no-nonsense, practical approach makes subjects like the unity of life, ideals, and dreamy stuff hard for you to take. However, your dreams and ideals are very important to you, and you methodically go about putting them into practice. You have little interest in the spirituality and psyches that are rampant today. You see through that and value the essential unity behind all religions. You could bring imagination and religious understanding to physical and scientific studies.

Saturn Conjunction Neptune 00°27'

Moon Conjunction Midheaven 01°26'

You are driven when it comes to fulfilling your ambitions and carving out a career. There is no lack of energy or drive here, and nothing can stand in your way. Everything is poured into making the right moves, the correct decisions. You are outgoing, enthusiastic, and always diplomatic -- everybody's favorite. You have a natural instinct for making the correct move at the right time. Politics or some public career seem inevitable.

Mars Conjunction Jupiter 04°16'

Challenges

Life can be challenging, and things are not always easy. The major challenges in a natal chart are where we can expect increased activity and personal involvement -- ready or not. These critical areas of life can be difficult, and the resulting confusion and possible obscuration often makes it hard for us to see and act with normal clarity. Therefore, when it comes to the following factors you may wish to exercise caution and extra patience.

Your conservative values clash with whatever is unconventional and different. You don't value novelty and do your best to ignore changes. You appreciate tradition and regularity, and your value system is dead set against anything new or out of the ordinary. Despite your feigned ignorance to the contrary, you suffer regular infusions of change, which you find very disturbing. New things threaten to overpower you.

Venus Square Uranus 00°15'

Sun Square Pluto 05°23'

The rebel in you likes to ignore your dreams and ideals and just let come what may. You relish your freedom and independence and pursue it even at the expense of what you know you really want. You can take delight in ruining your own deep-rooted dreams. The romantic in you struggles against the frontier spirit that often moves you to action.

Uranus Square Neptune 06°37'

You don't appreciate other-worldly talk. Dreams, imagination, and images are a lot of "hooley," as far as you're concerned. You find it hard to let go, and you stick to a value system that even you know is less than ideal. You compromise your own ideals and values out of fear of being deceived and led astray. "They" are all charlatans, as far as you're concerned, which is one way of showing how important this subject is to you. Confrontations along these lines are easy to come by, and you seldom fail to bite.

Venus Opposition Neptune 06°52'

You tend to avoid getting personal when it comes to your own emotions, and would rather keep sensitive matters at arm's length. You don't mind getting into the personal business of others, producing some heavy confrontations. Those around you don't care for personal probing on your part, and they will let you know it. Your home and surroundings tend to be very traditional.

Moon Opposition Pluto 08°44'

Talents and Abilities

Despite whatever problems we may have, there are areas of life where we have clear insight and real talent -- natural ability. When it comes to these matters, our judgment is sharp and we always manage to take charge. We have the knack. It may be as simple as the ability to work hard and accomplish things without something going wrong. An innate sense of the workings of these parts of life makes it easy for us to learn and accomplish things where they are concerned.

You work well with those in authority who are independent and original. You could find yourself engaged in nonconformist causes, always ready to promote what is independent and innovative. You like radical approaches, and find yourself in support of whatever new-wave product or breakthrough advance is next in line. Communication, computers, electronics, and everything new-wave excites you and you excel here. You discover new ways of working with traditional materials.

Sun Sextile Uranus 00°08'

You express yourself deliberately and don't waste your words. You have a natural sense of organization and come across as disciplined and careful, perhaps a little too sober.

Saturn Trine Ascendant 00°53'

You work with real imagination and understanding in areas of the mind that are the most personal or private -- depth psychology. You are like a midwife of the spirit, assisting at the birth of each individual going through a spiritual or re-birth process. You accept the natural process of birth, spiritual and physical, and have dedicated yourself to helping it along. You would make a great teacher in these areas.

Neptune Sextile Pluto 01°06'

You are charming and always manage to enchant others with your words and manner. You bring a sense of the beyond and mystical to any conversation.

Neptune Trine Ascendant 01°19'

When it comes to psychology you have great penetration, and always understand how to get down to the core material. You enjoy working with sensitive and vulnerable areas of the mind,

searching out and defining points of transformation, areas for growth. You could teach and instruct others in these areas. You aren't afraid to get into the most sticky situations, and you always come up with the essence of the matter at hand.

Saturn Sextile Pluto 01°33'

You always manage to come across as intense and personal when communicating and presenting yourself to others. Others can be fascinated by the way you come on.

Pluto Sextile Ascendant 02°25'

You have a natural appreciation for the past, personal as well as world history -- all that is traditional. You find it easy to work with music, color, fabric, and the arts -- whatever is beautiful and genial. You would make a superb decorator of homes and, in general, all kinds of environments. You enjoy moods and emotions (whatever is psychological), especially in a group setting. Younger people, the helpless, and the needy can always be found under your umbrella.

Moon Sextile Venus 02°57'

Your mind is ever on communication, how you present yourself and come across with others. It is easy for you to express yourself in a crowd, and you are a real smoothie. Everything seems to work out for you when you are talking with others.

Mercury Sextile Ascendant 03°14'

Your love of job and practical skills makes you a fine manager and business person. You bring a great deal of love to your work.

Venus Sextile Midheaven 04°23'

When it comes to mental work, you have a perfect gift for research and investigation. You enjoy examining and analyzing, in particular when it comes to psychological and sensitive areas of the mind. Your ability to sift through the dross and come up with what is essential every time is exceptional. You like to discuss and communicate, again always at a psychological and very personal level. Others may find you just too intense.

Mercury Trine Pluto 05°40'

You are very skilled at working with psychology, and the hidden recesses of the mind are, to you, no secret. You would make an excellent psychologist and teacher of this subject. These same skills make it possible for you to work with the public, in politics or wherever handling sensitive or "hot" issues is routine. You value change and transformation and have an almost reckless faith in the life process. You love to be touched at the most personal and vulnerable levels.

Landscape: Major Life Periods

What follows amounts to a brief overview of the first thirty years or so of your life -- a road map of the years to come. Since childhood, adolescence, and early adult life are so crucial to each of us, an attempt has been made to describe these formative years. Based on the gradual movement of the planet Saturn, this is one of the most tested of all astrological techniques. It is used by almost every professional astrologer as part of any personal consultation. Provided that your time of birth is more or less accurate, you will find this information both accurate and informative. Here is a general life overview, followed by a close-up on your current changes -- what is happening right now. First the overview:

Your Personal Background

You are somewhat of a late bloomer, spending your childhood up until the age of 11-12 in a pleasant and more social frame of mind. At that time you will turn away from the more outward scene and begin to take a greater interest in your inner, subjective life. From the age of 11-12 until perhaps 18-19, you will find yourself ever more on your own, quite inner-directed and always independent. From the age of 19 until 25-26, this will intensify even further and you will examine and explore deep within you. Those who love you may well worry and feel that you are hard to reach and understand. You yourself could feel too much on your own, even alone. This solitary period will end shortly after your 25th year, at which time you will begin to emerge and to build and move outward. Your rise to social and material success will be quite remarkable from that point forward. Your early thirties are years of great success.

Your Current Situation

Now for a close-up of recent years: while landscape was quite general, the dates given in this close-up should be much more precise. Life is composed of sections of time, each devoted to one kind of activity or another. We go along for a while in one direction until something changes within (or outside) us and we head off in a new course. Some of our earlier activities dry up and new ones spring up in their place. What follows is an analysis of the time period in which you find yourself now. Don't look here for a day-to-day account of life but rather to get a picture of this stretch of time, "these years."

Feb 10, 1992 1st Pass D> (Age 38 9m)

You are riding a high now in terms of taking advantage of the cycles in your life. This may well be a high-water mark; however, this is also the beginning of a series of years during which you should begin to consolidate and tie down the advances you have made in recent years. It may be best to begin to dig in and strengthen your current position rather than expand outward too much. You will find your mind beginning to turn away from the external (the material) and to be concerned with more inward and spiritual ideas. All of this will become clear over the next several years. This time marks a change of direction for you, away from the material and glitter,

toward inner needs and security. You will find yourself more concerned with maintaining and strengthening your position, rather than pushing outward. In summary, a kind of high-water mark in the outward and social department. These years should be easy and filled with opportunities and friendships. Enjoy them. More demanding and inward years will be forthcoming a little further on down the road.

The Elements, Modalities and Angularity

Elements, modalities, and house quadrants. These are all techniques used by astrologers to gain a general picture of how a person measures up. How do your planets and houses total up? Which do you have in abundance, and which do you lack, if any? Those with high totals show what we can or must do in life. These are qualities we have. However, most people are more interested by what they lack or want -- their lowest totals. They tend to study their "wants," imitate, and even pretend to have them. The old adage is: we become what we want (or lack), while we do what we can (or have to do). Here are your totals:

There is an emphasis on communication, expression of ideas, and the connections between things, places, and people. What goes on in your mind is the all-important motivation in your life. You tend towards mental pursuits and admire intelligence.

Have Air

You may have trouble understanding those who seem emotional or sentimental, yet your own practicality and factuality may attract just such types into your life. You may try to balance your lack of intuitiveness with logic and common sense.

Want Water

You are an aggressive prime mover, a starter, able to initiate and get things moving. Not always hot on the follow-up, you may tend to get the ball rolling and get out to move on to other things.

Have Cardinal

You may lack flexibility, managing a foot-in-the-mouth when you least need it. You could have trouble adapting to situations or to the demands of those around you. Perhaps it is not easy for you to communicate or smooth over things.

Want Mutable

You could have difficulty getting outer recognition for your efforts or accomplishments. This doesn't mean they're worthless. It does mean you should throw your efforts into work or ventures you really love doing, not for others.

Want Angular

Your Burn Rate

We all change, but the question is: At what rate? Some of us tear through change after change, one phase following another, year after year, while others move at a more serene pace. Or, one area of our lives may be hectic and forever changing, while other areas are quite tranquil. Why do some people seem to live lifetimes within lifetimes? Here is an analysis of your particular rate of change or "burn rate," including the particular areas of your life (planets) where you can expect continued change and growth. Areas where there is a very low index of change (indicating clear and easy use of the qualities involved) will also be pointed out. If you have sometimes wondered about the areas of your life where the candles burn at both ends, here are the details.

You have an average amount of change present in life, neither too much nor very little. Specific planets, either high or low, will be presented after this (if any exist).

A majority of your planets in the PRESENT suggests that right here and now is where you like to be and operate, tending neither to spend much time in procrastinating about the future or reminiscing about the past. You like to BE in the moment, of the day.

Planets in High Focus

You have a high burn rate (go through a lot of changes) when it comes to sensitive, psychological areas of your life or times when you are feeling vulnerable. Direct confrontation tends to put you through a lot. You prefer diplomacy but find yourself in the midst of sticky situations on a regular basis.

Patterns: Your Inner and Outer Self

Here we are examining your basic attitude or approach to life, what is called by some the archetype or soul-type. If you know something about your particular soul-type, this can provide valuable information as to the general direction and purpose of your life. In particular, it is important to note the difference, if any, between our outer personality (the way we appear to others) and our real inner self; how are we, in fact, as people get to know us? Not all people are as they seem.

You are no secret. Outside or inside, there is not much difference. You are just as you appear.

Geo: Square Helio: Square

Your Soul Type

You are very gifted, having great magnetism and warmth and also a keen and powerful mind. You can do anything you want to do in this life, if you can manage to get moving in one direction and keep at it. This is a very fortunate chart, but one that may result in laziness. You may find it more convenient to neglect your mental, conceptual, and organizational abilities in favor of your social agility and animal warmth. People will value you for your warmth and dynamic qualities as much as for your ideas, and you may find it easier to acquiesce with your animal warmth than to develop your mind. You can relate to almost all types of people with equal ease.

The Key to your Inner Life

Each person has one or more key qualities. Here we are not referring to our appearance or personality, but rather to our inner nature, how we are when someone really gets to know us.

The light in your eyes says it all: your mind and ideas are central to your inner and philosophical life. Communications on an inner and spiritual level are not just important for you, they are indispensable. Mentality is the focus and conduit through which all the other parts of you function and relate.

Mercury

The Key to your Personality

Your idealism and ability to be spellbinding are central to your personality, the way you appear to others. You have an almost other-worldly quality that more or less dominates or coordinates the rest of your character. Your imagination always reaches beyond differences and manages to solve them. At your best you are enchanting, able to point to the unity that binds all things together. At other times, your ability to mesmerize may only fog up the mind.

Neptune

The Personal Hot Spot

You tend to take everything with great intensity. Your drive to get at the heart and truth of things is constantly invoked, and serves as a common theme in your life.

Pluto

Interface: Innermost qualities

This feature is based on an intricate analysis of the position of a particular planet in relation to the orbital planes of the other planets. The resulting series of crossings, or nodes, tells us something about the nature of our innermost inclinations (Inc) and disinclinations (Dis). These indicators are not to be considered at the level of our personality, but rather are deep-seated parts of our innermost character -- our internal biases. These pros and cons are not apt to change in the course of our lifetime.

You value fairness in all things and go out of your way to be just. You appreciate others who have been successful and may surround yourself with those in power, be they politicians, officials, what-have-you. Your sense of quality and discrimination may amount to some sort of livelihood for you. You could make your living with your good taste. In addition, you have an innate sense of how to work with and guide others in making decisions. You understand the choices and can spot the right ones.

You are very deliberate when it comes to words, to what you say and think. When you concentrate, you always come up with what is essential to the matter at hand, ignoring all else. You're anything but "flip," and your more serious approach to ideas, while welcome when there is mental work to do, may not always be appreciated when others are in more social moods. You are so serious. Philosophy, religion, and the like are natural for you.

Saturn Inc Mercury

You value the simple life and have little use for pomp and circumstance. Your appreciation for hard work and discipline is natural and lifelong. You actually love responsibility and tend to pile on the work. Others may find you frugal or unnecessarily Spartan, but you love simplicity as much as they love opulence. You can discriminate the wheat from the chaff and put great value on organization.

Saturn Inc Venus

Secrets have a short half-life around you, for you have them out in a wink of an eye. You are brilliant when it comes to insights into the mind, psychology, and motivation -- yours or others'. Your intensity is obvious, and some may prefer to keep their distance rather than subject themselves to your laser eye. Nothing is passed over without being turned inside and out. Your analytical powers are superb, and you enjoy finding new avenues of inner growth.

Major Transits Happening Now

Astrologers use the term "transits" to mean the positions of the major planets that are overhead (in the sky) right now and their relationship to our birth chart. Transits are very important indicators of the current situation in which we find ourselves. They can provide insight into what we are now going through. Here are the dates when the next major transits for the

planets Jupiter, Saturn, Uranus, Neptune, and Pluto are exact in your chart. Some dates will have already passed and some are still to come. Remember, with these large planets transits don't just happen on the day when they are exact. They cover a wide span of days, weeks, months, and sometimes years, depending on which planet is involved.

In general, transits of Jupiter take from several days to a week or two to complete, while those of Saturn take from two weeks to a month to play themselves out. With the outer planets, the period of activity is even longer: transits of Uranus take about two months, Neptune three or four months, and Pluto takes about a year. Uranus, Neptune, and Pluto move so slowly that the complete transit experience may take a year or two to complete itself. So be prepared to work with these situations.

House Activity and Emphasis

The twelve houses of the horoscope, particularly when they are occupied by a planet, provide a clue to areas of special activity and use. Here is an analysis of house activity based on planet emphasis:

First House: Appearance, Approach

The first house has to do with how we appear or the way we come across, thus our appearance and personality. This is the essential stuff that bubbles up in us spontaneously and that is obvious to others as our trademark or activity. It is what makes us each so personally different. This house rules our personal self and everything about us that draws a reaction from our surroundings or others.

First House

Gemini is concerned with connections and communication of all kinds -- letters, wires, telephones, voice, thoughts, writing, and mental processes in general. Gemini is the gadfly, the communicator, the gossip of the zodiac. Searching conversations, scientific inquiry, research, and so on belong here. Gemini energy is unattached, independent, and inquisitive.

Gemini

Second House: Possessions, Reactions

The second house is concerned with how we respond to or field whatever impulses or unique and personal qualities we manifest via our first house. This is how we hold or "have" things (possessions, material goods, money, and the like). The second house always refers to how we secure ourselves, the kind of response we get from life and those around us.

Second House

Cancer is the mother of the zodiac, always making a home, protecting and providing for others. A sensitive sign where feelings and real experience count more than cold logic. It doesn't get any more physical and emotional than here. This sign has a sense of substance, a home base or foundation. Cancer energy is always limiting, bringing us down to Earth, grounding our every thought in experience, in substance.

Cancer

You may have unusual ways of responding to what life offers you, with the result that the way you make your living is somewhat eccentric. Your means of support may be individualistic and different from the group.

Third House: Inquiries, Communications

The third house is concerned with explorations, investigations, and inquiry and research of all kinds. It also rules connections, communications, wires, tubes -- anything that we can get through with our body, mind, voice, letters, what-have-you. It is here that we explore and search for the limits of our life, whatever we are working with at the moment. A very mental house, concerned with finding, furthering, peering, and all manner of questioning. Traditionally rules short journeys, siblings.

Third House

Cancer is the mother of the zodiac, always making a home, protecting and providing for others. A sensitive sign where feelings and real experience count more than cold logic. It doesn't get any more physical and emotional than here. This sign has a sense of substance, a home base or foundation. Cancer energy is always limiting, bringing us down to Earth, grounding our every thought in experience, in substance.

Cancer

Fourth House: Home, Family, Security

The fourth house is where we send down roots, find our limits, and generally secure ourselves. It is the end of any searching we might have done in the third house. Here we find or end our search, settle down, and manage to get in possession of the whole situation. This is our home and the base from which we can work, feel, and experience. This is the root of our experience, the core or thick of it.

Fourth House

Leo energy is expressive, emotive, and concerned with awareness and a sense of pride and ownership. Here is always a sense of home base or confidence from which the aggressive and outgoing Leo energy operates. Often very artistic, and always theatrical and expressive, this sign is good for creativity and the arts. Warm and big-hearted, this sign belongs to love of animals, sports, children.

Leo

You may go through a lot of changes that affect your sense of security. Your home and family situation could be a focus for growth and real learning -- an area of great sensitivity and vulnerability.

Pluto in Fourth House

Fifth House: Expression, Creativity

The fifth house has to do with awareness, emotion (to move out), and expression (to press out). Here there is always a growing sense of self-confidence and even a pride of ownership, since we begin to recognize and own our experience. We know that we have had or are having an experience. All forms of expression and offspring are connected to this house -- children, animals, creative expression, and so on. A sense of direction and ownership takes hold at this point in our experience.

Virgo energy is analytical and precise, always separating what is worthwhile and worth supporting from that which is outmoded and of no further use. A mental sign, where thinking and examining are in high focus. Also, a different kind of mother, here an endless caring and worrying (fussing) about just about everything. Always compassionate and responsive, Virgo energy is service-oriented above all, often thinking and caring more about what others are doing and thinking than for self.

Virgo

You find it difficult to let go, emote, and express your feelings, and tend to be cautious and restrained. Feeling creative may be difficult, for you are very hard on yourself in this area. You may have approach/avoidance reactions with children, animals.

Saturn in Fifth House

You have great creative imagination, perhaps a strong sense for the dramatic and the ability to express ideas of a mystical or other-worldly flavor. Entertaining children (and adults) with enchanting stories and the like is indicated.

Neptune in Fifth House

Sixth House: Responsibility, Work, Health

The sixth house has to do with salvaging and preserving what is good and healthy in our experience. Here we separate the wheat from the chaff. We begin to care for ourselves and our experience and thus health, nutrition. The idea here is that we are able to analyze our experience and have thoughts about what is pure and what is not. The sixth house is an attempt to save the heart of an experience, one that already by that attempt is beginning to pass or not cohere.

Sixth House

Libra energy is always facilitating and responsive, assuming the appropriate reaction or response to any question or statement. What is sometimes seen as two-faced is only Libra's facility at responding to each in kind. This is certainly the social sign, par excellence. Impersonal and impartial, this sign doles out only what is demanded, never overdoing things.

Libra

Seventh House: Relationships, Other People

The seventh house is the house of partnerships, relationships, social life, and all that carries us beyond our personal self into an awareness of other people, community, and the like. This includes spiritual awakening and the discovery that we are more than just our personality. Here we begin to respond to our personal needs (and those of others) for the first time. We can see what is going on and are committed to it; thus, marriage and yoga, or union, is indicated in this house.

Seventh House

Sagittarius is nothing if not direct, candid, and to the point. Sometimes harsh, this energy always is concerned with the absolute truth of the subject at hand. Associated with philosophy, religion, and all things that last, Sagittarius energy is always welcome in politics as well as social

and community endeavors, where its basic fairness and evenhandedness is helpful.

Sagittarius

Eighth House: Business Savvy, Elimination

The eighth house, traditionally the house of death, is concerned with getting rid of excess parts of ourselves that we see we no longer need. Thus this house also covers initiation and any activities where we are transforming toward a more integral position, getting to the heart of things. The no-nonsense quality of the eighth house makes it good for business ventures since here we are stripping away the dross to reveal the truth or essence of the subject.

Ninth House: Religions, Philosophy, Ideas

The ninth house covers long journeys and religion (the longest journey of all). Here is what remains of the purification that takes place in the eighth house -- the seed, or essence, of an entire cycle of experience. Religion comes from a Latin word that means to bind back, and thus refers to all things that last or endure, such as the truth. Essential ideas, philosophy, and all that is the very heart of things belong here.
