The Players: The 10 Planets

Part One: The Lead Roles

The Sun

The Sun is the center of our solar system. It generously shares its radiance with the other planets. In Astrology, the Sun is the heart of the chart. It points to ways that your relationship needs to confidently shine. Keep the fires of your Sun burning brightly and proudly together. Love will follow. Happiness will fill your minds, bodies and souls. The Sun stands for ego needs, will power and creative vitality.

Forget your own Sun signs for the moment, Lisa Marie and Nicholas.

Your shared Sun sign could be different than your individual Sun signs. Remember that we are talking about your combined Sun. It is the fusion of your two hearts.

Sun in Capricorn

A Sign is a psychological process through which a planet operates. As a couple, being solarized through the sign Capricorn points to a durable partnership. The keyword for Capricorn in traditional astrology is "I use". This means you like to put into action what you know. Each of you may enhance the strength of the other. A shared sense of responsibility in dealing with life circumstances emanates from the core of your relationship.

You possess a keen sense of reality. There is a no nonsense tone surrounding you. Each of you wants this relationship to be clearly defined from the beginning. Managing your time efficiently comes easily. There is tremendous follow through from start to finish.

You expect to be supported in the roles you choose to act out, whether this is in the form of career, parent or civic leader. A commitment to the love you cherish encourages intimacy.

Trust will come with the passing of time. Individual self-reliance can combine nicely with shared leadership. Both of you prove trustworthy in each other's eyes. Peers may admire your determination to work through problems.

You may influence each other to delay in taking a risk until it is very safe to do so. When the two of you make a major change, it can be done with tremendous conviction.

Watch out for acting too controlling. It will cause barriers to surface between you. Be harder on the problems than on each other. Your serious sides may need occasional lightning-up! Be careful about letting the feeling side of life become a stranger.

Learn to delegate some responsibility away from the relationship. Make sure there is time for each other. Active and ambitious lives outside of the home are very possible. A hard-working ethic may be a shared value. Be careful that neither one of you is a constant workaholic. Paying some attention to your private life will ensure balance.

A fear of rejection or commitment will create considerable distance. Learn how to make each

other feel comfortable. Each of you may need some solitude to maintain perspective.

Rigidity could be a nemesis. Learn to be flexible even when it is difficult. Leave room for new growth in the relationship. It is okay to enjoy the stability of the past. You probably have a respect for history and tradition. Do not fear change. See it as a new opportunity.

Your creative vitality can guide you to accomplish much together. Your focus on being a successful couple is tremendous. You take responsibility more serious than most. Discipline is likely something worth developing in your eyes. You can be the rock of Gibraltar in each other's lives. Acknowledge your partner's attributes and your days together will blossom.

Sun in the Fourth House

Emotional closeness and home play big parts in your lives. You can enjoy lounging around the house. Doing projects together on the home front can be satisfying. By showing the way you care, you can make each other feel very secure. It is a natural tendency to be protective of one another. A sense of knowing what the other is feeling is possible. You like to know you can really depend on your partner.

Be careful that you don't let people take advantage of your willingness to be helpers. Your generosity needs to be appreciated by others. Friends can like the way you listen to them. Individuals who are going through a personal crisis might see your home as a sanctuary.

Allowing for a few mood swings will keep life in perspective. You can draw out sudden emotional responses from each other. This need not rock the boat. Learn to talk openly about your feelings. It will make for fewer unwanted crises. Have you seen that there are few secrets you can hide for very long? If you play hide and seek with your feelings, you are likely to be found.

Getting away from your city of residence may allow the two of you a refreshing outlook. It may even speed up your processing time in making a key decision.

Operating a business from your residence is a distinct reality. You may even desire to do this together. Keep a balanced private and public life to ensure tranquillity.

The Moon

Countless song lyrics, poems and lofty dreams have been inspired through gazing at the Moon. The Moon's sign and house position represents the intimacy and feelings you share with each other. Establishing a sense of security and a home are other lunar sides of life. The Moon symbolizes the imagination you share from your inner landscapes.

Moon in Capricorn

With your relationship lunarized through the sign Capricorn, the two of you expect a clear definition of your being together to be determined quickly. This is a solid romance with an inclination to seek commitment early. Don't pressure each other. Time limits don't always yield the results we seek. You are more likely to find happiness with a little flexibility. Longevity is promised when the two of you put your focusing powers together.

Your business instincts are tall enough to leap over the Empire State Building! Mutual support of career goals and serious ambitions makes you trust one another. Helping each other

survive the tough times deepens your love. Celebrating your victories together adds richness to your partnership.

The nurturing energy of this relationship is based on a serious loyalty. Expressing your deepest feelings might not come easy. Listening to the inner motivations for actions will tell you what is really going on in your lover's mind.

Your home may be the true pillar of your emotional strength. Each of you probably takes responsibility quite seriously. Your roles could be well planned out. You expect each other to follow through on your promises. Your residence can be a place of comfort and work. There is a great potential to make money through real estate investments. Remember to allow for some spontaneity in your private life as it aborts dull routines. A little variety in your time together is invigorating.

Encourage your partner to act with confidence. You can't control each other so don't bother trying. Warm up to the intuitive feeling each of you has for life. Stay inspired through an occasional new experience.

Let your imaginations guide you to be stable forces of mutual support. The two of you are at your best when working together to realize a common dream.

Moon in the Third House

Your minds often see eye-to-eye on major issues, though they can travel from different directions. Perceptions are often flavored by your emotions. There can be instant intuitive awareness of situations due to the chemistry of your energies.

A shared curiosity to learn is indicated. Communication is highlighted. You might even teach a subject of mutual interest together. Your ability to inspire others to think about options is impressive. There could be endless new insights that benefit one another. There is a restlessness to be mentally active.

Your friends can enjoy the lively atmosphere of your partnership. People can enjoy exchanging ideas with the two of you. Individuals from diverse backgrounds can become part of your social circles.

Your home is never a dull place. Reading and staying in touch with current events is never far from your minds. You can receive visitors or telephone calls at any time of day. It is probably wise to have more than one phone line computer and television!

The onset of mood swings could disrupt communication. Emotional upheavals can distort your perceptions of each other. Be sure to separate feelings from facts. Listening helps keep emotional reactions balanced.

Let your intuition guide you to listen to each other carefully. Honoring individual ways of establishing mental coolness can be the hidden ally. You can be intrigued with the diverse paths you will walk through life together.

The Ascendant

We are taking a short intermission from the planets to introduce you to an additional key part of your relationship. The Ascendant or Rising Sign is the sign that starts the 1st house of the

chart. The Ascendant is one of the twelve signs with a special role serving as an ambassador. It acts as a persona or mask for an individual or a relationship. The Ascendant is the personality through which we interact with the world.

The Ascendant is the way we appear to others. It is their first impressions of us. You meet someone and he or she seems to be confident, shy, talkative, cheerful, etc. The same can be said for a couple. The two people might seem theatrical, dreamy, or businesslike.

Ascendant in Libra

People could see the two of you as diplomatic and outgoing types. Fairness through carefully weighing opposing viewpoints is a regular occurrence. A flair for dressing colorfully and in the right way for an occasion is typical of you. It is impressive how you manage to fulfill several social obligations and maintain a smooth way of interacting with others. You can feel like soul mates with a shared purpose. Entertainment tastes can be a particularly fun way of spending time together. You can help one another stay cool during all forms of emotional weather. Your calendar can get creative in making time for romantic atmospheres.

The Part of Fortune

Your Sun, Moon and Ascendant can be combined or blended into a cosmic alchemy, known as the Part of Fortune. This is not a planet, but rather a reference point in the chart. The Arabian astrologers of the Middle Ages are given credit for its discovery. The Part of Fortune is said to show where we can expect to find good fortune and even luck. Do we really need to take a look at something from the long ago past, if it will serve as nothing more than a relic to hang on the wall? A translation of this ancient symbol into modern terms makes this symbol worth investigating. Why? Because it can give clues to special paths that lead to harmony and a spirit of feeling united.

Think of the Part of Fortune as the potential corridor leading to Opportunity. It is a way to read the pulse rate of the partnership, indicating ways to reach a shared sense of fulfillment.

Part of Fortune in Virgo

The pursuit of excellence will lead you down an interesting path or two. Hard work is likely to pay off one day. Career and business longings can find you mastering the skills you enjoy the most. Serving the same causes can bring you a sense of joy and contentment. Health can be an area of avid interest. Living with your choices teaches you to accept life's ups and downs. Good fortune comes when you respond to life's lessons with a spirit of openness and humility.

Part of Fortune in the Twelfth House

The imagination you inspire in each other has a way of magically opening the doors to lucky happenings. You must have the faith to follow through on your convictions. There is a creative intensity that rests greatly on trusting your intuitive awareness. You are a healing force for others. A talent for expressing yourselves artistically is possible. People are uplifted by your belief in them. The higher values you share sustain you in the mild or more turbulent seasons. Balancing your idealism with reality is a key to being happier and feeling a sense of unity.

Part Two: The Supporting Cast

Mercury

Are you curious about the way the two of you communicate? In this section are Mercury's sign and house placements, showing some of your favorite communication tendencies. Mercury is referred to as the winged messenger in mythology, a networker for the gods. This very mental heavenly body represents an important link between your minds. It shows how you interpret what the other is saying. Mercury is connected to Perception. Astrologers consider Mercury the ruler of the conscious mind.

Mercury in Aquarius

Your mental energies travel briskly along futuristic circuits. You accelerate each other's thought processes. Your shared perceptions reflect a unique outlook. A sharp, objective awareness of situations is indicated. There is little you are not aware of in your immediate surroundings.

Your communication has no real patterns. You both like to say what is on your mind. It can be fun to discuss new trends. Learning to make use of new communication-oriented technologies is a delight. Express support for each other's goals and you have a friend for life. There will be more breezy insights in your conversations than deep feelings. Your ideas travel back and forth as quickly as lightning shoots across the sky. Pay attention to the little things each needs to be happy, as well as the big ones. The more you hear, the greater is your closeness.

You are fond of people with innovative ideas. Individuals without mental imagination do not excite you. Progressive trends capture your attention. The two of you can enjoy reinventing yourselves every now and then.

You love to brainstorm new plans together. Your friends can find you stimulating to be around. A group can benefit from your way of looking at things. Shocking others out of their limited beliefs is fun. The two of you don't care to follow in the footsteps of others. You can't really lead one another for too long a distance. Letting each other think as an individual does wonders for your working together.

Find the ways to walk together without stepping on each other's toes. Learn to disagree without discounting your partner's insights. You are two lovers that don't always want your partner to know your next move. This is your way of keeping life a magical journey featuring new discoveries about each other.

Mercury in the Fourth House

Your minds are pulled to the depths of your innermost feelings. Sharing thoughts about home and family can be a regular event. Your perceptions have a way of getting each other to reveal your vulnerabilities. There is a radar-like intuitive way you can reach the deepest levels of your partner's mind. Mutual emotional support is a commodity you hope to receive from one another.

Communication may take a while to establish. Your emotions are way out in front of your ability to express yourselves in words. Intimacy is something you must trust. Don't force the closeness. It is more important that you both have enough time to process the effect you have on each other. You do make one another feel more secure about this relationship through talking.

The home is a subject you probably spend much time discussing. Keeping it organized helps. Your residence can be a busy place for meetings. You can get very involved in community activities. You need to live in a city or town that offers enough mental stimulation for each of you. Nervous tension is not welcome where you live. Both of you can be avid readers when alone. Your growing up years might be of interest to your partner.

Patience with each other's reasoning abilities is good to remember. Your problem-solving approaches are likely to travel on different highways. With practice you can learn how to work great together.

Hidden agendas! Don't make a habit of indulging in them. State your plans or goals as honestly as possible. Fatigue really fogs your mental objectivity. Deal with the major decisions when you are alert.

Encourage independent thinking and dependency will stay balanced. A feeling of joint decision-making is the way to your lover's heart.

Venus

Without Venus, life would be lonely and meaningless for all of us. The goddess of love guides our Social Awareness and search for Aesthetic Beauty. The Venus sign and house positions most directly point to your search for a sense of balance, peace, comfort, love and mutual admiration.

Venus in Capricorn

Your relationship is a Symbol of Determination. The social instincts of your relationship are flavored with a drive to meet influential people. There is a focus on fulfilling your ambitions. People could be jealous of the stability the two of you have together. Commitment is something you need, and yet you may fear it. When first meeting, you may have seemed somewhat reserved to each other, until getting to know one another. You are a couple that makes use of a reality-based approach to life.

Reputation is of importance to you. A visible public profile is very possible for one or both of you. Your friends and work peers could respect the capability displayed. There is durability in your partnership that comes with the passage of time.

There is a tendency for your acquisitions to be practical and long lasting. A clear business sense influences how you relate to others. You can show patience in working together toward a goal or purchase. Delayed gratification is in your chemistry together. You know what you want and can create the right plan to get there. The two of you respect people willing to follow through on their promises. Responsibility is a cornerstone of your partnership.

What might need to be balanced? You may be working too much. Make sure you allow enough time in your busy schedules for each other. Talking about responsibility--you two attract it! Rigid expectations make for hard feelings. Lighten up. Flow. You both like to think your own

ideas are worthy of respect. Acknowledge the leadership and creative ability in each other and you are in loving territory.

Venus in the Fourth House

The two of you can enjoy a special closeness. There is a need to really trust one another early on in your relationship. You respond very quickly to your partner when receiving emotional support. A feeling of being equals deepens your connection. There are times when the two of you will choose privacy over socializing. You could need this to recharge your energy. Your tendency is to be nurturing toward others. It may leave you exhausted if you don't get the solitude you need together. People probably rely on your strength a great deal.

You take ownership seriously; especially things that have sentimental memories embedded in them. It shows wisdom to respect what each other is attached to in life. Home is another area that is likely a key focus for you both and will challenge you to find compromises. It can easily become a source of harmony if discussed cooperatively. Your home could be a place others like to visit as it has a relaxed atmosphere. Peace in your private life is greatly valued. You may enjoy creating pretty landscapes.

The two of you can show patience in starting a new business or career. You have a way of helping each other tune into work ambitions. Working out of your home is possible. Each of your family roots can be a subject of interest. A special closeness with relatives is indicated. You could have friends that are more like part of your extended family. It can be hard to please others all of the time. This is a good point to remember.

You need to know you can count on one another when the chips are down. Being there for each other in the good and bad times deepens your commitment.

Mars

The ancients considered Mars the god of war. The warrior planet can translate into heated exchanges with each other. Mars arouses Passion in the form of sex, anger or a desire to forge ahead as a swash buckling couple. Mars is still the ruler of combat. It points to the primal competitive instincts embedded deep within each of us. In modern terms, this fiery red planet's sign and house placement are associated with assertion and acting on impulse.

Mars in Aquarius

The warrior in you is as inventive as unpredictable. You both are turned on by future goals. Impatience with the present is something you may need to watch. Fighting for the underdog and championing your favorite causes is predictable. People may accuse you of being rugged individualists. There is a rebellious spark that can entice you to challenge the politically correct institutions of the world. You may not like arguing with each other as it seldom produces a real winner. Letting each other blow off steam is smart. You then work well together.

You can enjoy moving fast through life. There is a great desire to live in the fast lane. Groups and organizations may not know what to do with you, but enjoy your outspoken truisms. You both can delight in shocking others into a new view of reality. Be careful though in trying this technique on each other--it's hard to kid a kidder!

You grow weary of routine and might have distaste for stability. You are wise in being careful when and where you display your love of being agents of change. There is a boldness to move forward in new directions. Make sure you are not being different, just to be different. Know the purpose behind your actions. Treat each other as equals and you will be long-term lovers.

Your relationship is energized by the unpredictability you add to each other's lives. The promise of a tomorrow more interesting than today makes life together exhilarating. You can be a stabilizing force in your partner's life when the two of you are clear what it is you want to build together.

Mars in the Fourth House

The home is a lively topic of interest. The two of you may have quite different views regarding the domestic life. When each of your needs are satisfied on the home front, life does stabilize. Neither of you likes wars to occur in your abode. Angry outbursts will sometimes be traced to hidden feelings. Privacy is a probable need in your relationship. You can be accused of guarding your time alone.

You are protective of each other and family members. You need to know you can count on one another whether the chips are up or down. Helping your partner find the confidence to respond to a challenge will make you popular. With practice, you will learn the times it is acceptable to be a little pushy. You can be wonderful advocates for each other.

The two of you can work tirelessly to finish a project. You expect one another to pitch in with equal effort to make your relationship run smoothly. There is a special emotional closeness that can develop with the passage of time.

You both get motivated through facing situations that cast ominous clouds on your feelings of security. It gives you a sense of renewed purpose to stand tall together when riding out emotional storms. Your trust deepens when supporting your partner through a personal struggle.

Jupiter

The largest planet in the sky is Jupiter. This happy-go-lucky cosmic giant is more than twice the size of all the other planets put together. Jupiter spins on its axis with great enthusiasm, doing this faster than any other planet. Jupiter's sign and house denote themes related to learning, optimism, travel, philosophical beliefs, luck and generosity. Inspiration that flows between two people can be traced to our good-natured friend in the sky.

Jupiter in Gemini

You seek inspiration through learning in any way, shape or form. There is a joy in exchanging ideas. Your views about morals and principles make for lively conversation. Restlessness is part of your being together. Staying mentally stimulated is a constant need. Travel lifts your imagination to new heights. One or both of you might display writing or speaking skills. The two of you can easily teach a class together. Nothing will stop either one of you from furthering your education. Correspondence courses may be possible. You influence each other to think more positively.

People will find you an upbeat pair. You may even be perceived as bringing others luck.

Your eyes will always be looking for paths that lead to greater growth. Through brainstorming with each other or friends, you may think of ways to increase your finances.

It all sounds wonderful. What is the challenge? To follow through on what you set out to do! There is an immense wandering nature that you bring out in your partner. Your minds can suddenly grow weary of current projects. An "all roads lead to Rome" philosophy might keep you from never choosing one that will get you to your destination. The up side to this is that life together will never be boring! You have a way of making one another think young.

A sense of happiness and expansive growth is what you live and breathe when filling your minds with new insights. This is a relationship that is never down for long. A lively sense of humor is probably a close companion.

Jupiter in the Ninth House

A love of learning, and expanding your mental worlds. Does this sound like you? The two of you have an endless need to drink from the waters of various branches of knowledge. You might view life as a journey through which you can find greater self-discovery. You will not always see eye to eye on what direction to explore. There is a chance you will be comfortable going it alone, and meeting up at various places. You both want to see and do more than most. It may feel like a sacrifice to compromise your individual passions for the good of being together. You could create the best of both worlds. Having your partner in one, and your most unique goals in the other. There are mutual paths that can be of benefit to you as a couple. Some open communication can help you plot a course of action together.

Your value systems are more than likely quite compatible. A sense of humor keeps life between you relaxed. Your opinions can clash but don't necessarily interfere with the ecstasy you seek in this adventurous relationship.

Imagination is constantly pumping through your restless minds. You have a forceful, positive approach that can move problems out of your way. Don't let your judgment of each other grow unreasonable. Be fair. You can love the way your partner understands you no matter what you are going through.

Saturn

Astronomers say that if Saturn fell from the sky it is light enough to float on an ocean. Some people dread hearing about where Saturn is in their chart more than they do going to the dentist! The fortune tellers of old always painted this planet with "heavy" interpretations. They presented this planet as being a god of doom and gloom. In modern astrology, this motif denotes endurance and ambition. In mythology, Saturn was Chronos, the god of time, reflecting the wisdom that can be learned from past experiences. You could say Saturn is a "Cosmic Chiropractor", showing adjustments needing to be made along life's way. There can be frustration in repeating the same mistakes. Saturn's sign and house themes are associated with Commitment and Reality-Testing. The two of you may find clues here about how you define your relationship roles. Career drive is a Saturn hallmark. Saturn shadows are fear, rigidity and a need to be compulsively controlling. There is no longevity without partners dealing with the symbolism of this particular celestial wanderer. With a lot of practice and patience the two of you can get good in making this side of your relationship flow--honest! Saturn can become more a god of Success!

Saturn in Pisces

Your relationship almost sidesteps definition. It isn't easy to label the two of you as being any certain types of people. You bring out in your partner the need to have dreams. Yet, there is an underlying sobering presence that guides you to be cautious. Does this sound like an interesting dilemma? It is! There is a need to take a leap of faith when the two of you decide to pursue what you want. If you grow too idealistic, sound reasoning is necessary. Your intuition will often be a length or two out in front of your reality. Watch those expectations. You will feel disappointment or disillusionment, if life is no match for your idealism.

Your careers can be multifaceted. An interest in the arts, psychology, fashion and possibly medicine could lead you into these fields. You can inspire each other to go beyond taking the easy way out. Associating with one another influences you to reach for the stars. You will not always be examples of discipline. Stay focused on what it is you are trying to achieve. Taking small steps toward your goals will eventually lead to bigger ones. Believe in yourselves.

Religious or spiritual beliefs can be of mutual importance. You need to allow for individual values to be respected. Your successes spark faith. People will likely find you a fun couple that sometimes looks at the world through rose colored glasses. Life together is stimulating through escape to your favorite romantic places.

Saturn in the Fifth House

The two of you are a catalyst to ignite ambition in each other's lives. You are doers. People can be impressed with your stamina in getting major plans accomplished. Pace yourselves on big projects, as it will give you even more follow through. The two of you might feel like you have something to prove to others. Make sure you enjoy the paths to success as much as the end result. Playful experiences balance your impulses to work hard.

Advertising and promoting could be shared abilities. You certainly have investment instincts that others may envy. A fear of failure is not likely to stop you from taking a risk now and then. Your partner might encourage you to go for it! There will be occasions where one of you will play the devil's advocate, thinking maybe too big of a risk is in front of you. In any event, business enterprises will be a fun arena you share.

You are a couple who can be really attached to what you create. Having control over your decisions is a heartfelt need. Working for others may not be easy as you probably feel you know the best way to get a job done. Treat each other as equals and greater cooperation will be the result.

You take promises seriously. There can be a proud sense of commitment between you. Your confidence levels rise when you show your approval openly. You love receiving attention from one another, and through people admiring your accomplishments.

Uranus

Try to visualize a maverick planet orbiting on its side, whereas the other planets sit straight up and down. Uranus! This planet was discovered in the eighteenth century, sandwiched in between the American and French Revolutions. Is it any great wonder that this planet's sign and

house occupations show our individuality and innovative ideas? Experimentation. Inventiveness. These are two more themes of this exciting and trend-setting entity. What is the down side to this rebel? A tendency in exhibiting a sarcastic tongue in your everyday communication. Launching sudden irresponsible actions will not make you feel like friends. Pluto

Last, but not least, is a planet of mystery and intrigue, Pluto. You may get a message or two in this section about your shared psychological intensity. Pluto's sign and house point to our drives for power, passion and financial gain. A desire to get to know each other on the deepest of levels can be a Pluto theme. We must let go of a part of ourselves to be in a relationship. This scares some people and seems like a fair deal to others. What we cannot face as individuals sometimes will be brought to the surface in our interactions with a partner. Pluto's shadows center around jealousy and possessiveness. This planet teaches us that letting go and trusting one another are rewarding paths. Facing the tests of Pluto together is the breakfast of champions.

You could grow apart without really knowing it. Don't worry! It isn't as far back to feeling at home with each other as it may appear. Act like you want to be a vivacious partner, and you can draw each other close very quickly.

You will tend to resist change if it means learning new time-consuming tricks. Generally speaking, new experiences will be more received if they fit into the reality you have already created. Surprising one another in ways that show you have been paying attention always seems to be a winner--doesn't it?

Midheaven

Just as the Ascendant was described as a sign serving a special purpose, there is a sign referred to as the Midheaven, with a special mission of its own. This is the sign at the beginning of the 10th house of a chart. A palm reader can interpret the career line embedded in your hand. Think of the Midheaven or 10th house sign as a type of career line in your chart. How you two conduct business in the world and your work interests are shown here.

Part Three: Planetary Aspects

It's time now to mention another technical side of your report. (If you don't like technical explanations, skip right to the Aspect Interpretations). You have already been introduced to the ten planets. Certain planetary pairs in your chart have a special relationship to one another due to particular angular distances separating them, known as aspects. You could almost say the two planets in an aspect travel and interact together along the same circuit. The following aspect interpretations or descriptions will be listed under five types. Two are known as the soft aspects: the sextile (60 degrees) and trine (120 degrees). These two aspects generally point to more gentle themes found in your relationship. They indicate a lower voltage of electricity and produce less friction. The planets involved in a trine or sextile are more likely to be areas where you flow together without much effort.

The more hard or intense aspects are the conjunction (0 degrees), square (90 degrees) and opposition (180 degrees). They require our understanding and will point to key ways the two of you must communicate and negotiate. Planets that are part of an intense aspect will show how you energize one another. These higher voltage aspects don't mean you want to avoid them, but more so to develop a true understanding of how to use this energy constructively. "Soft" does not mean good and "intense" does not imply bad. It is often the more intense aspects that deepen the bond of a partnership. The interpretation of any planetary aspect depends greatly on the symbolism of the two planets forming an aspect.

It might be helpful to keep some key words in mind for the aspects. The sextile is a promise of Excitement and Eagerness. The planets in this aspect give clues how your energies support one another. The trine is a special Harmony shown by two planets. There is often positive regard for one another that comes spontaneously. We expect good things to be delivered in the trine.

The conjunction is where two planets are joined at the hip. There is a Fusion or powerful blending of these two energies. The square can reveal where you will encounter Friction in your relationship. Pay special attention to these aspects, as they are opportunities for growth as much as discord. The opposition requires a Balancing act. It is similar to a seesaw. Each of you may find yourselves taking turns in acting out one planet or the other.

It might be helpful to refer to Parts One and Two to refresh your memory about the meaning of the Planets, Ascendant and Midheaven, as you read the aspects that follow. Remember that it is usually the more intense aspects that stretch us the most. The more positively you use these challenging planetary combinations the greater will be your understanding of each other.

Note that a planet might be involved in several different aspects. In other words, the planet is interfacing its energies with numerous other planets (or even with the Ascendant or Midheaven). A "heavily aspected planet" plays a key role in your relating to each other.

The Nodes of the Moon are not planets. They are a celestial polarity offering clues to your connection on the soul level. Think of it as your own "psychic friends network." If this sounds too mystical or corny, just think of the Nodes as a shared frequency level in your partnership. It doesn't mean you get psychic flashes about each other. Much of this link between your minds is probably on a subconscious level. The Nodes usually play an active part in our closest relationships. The longer we are in a relationship with a particular person, the more these two energies come into our conscious awareness.
