Horoscope of Birth

Your horoscope of birth is the blueprint of your personality and character as indicated by the position of the Sun, the Moon and the eight planets on the date of your birth. This section is devoted to each of these members of the solar system.

The planets are the antennae and arms of the horoscope, of which the body and soul are the Sun and Moon. No planet will ever cause you to act counter to the testimony of the Sun and Moon in their combined influence on you. Remember this when you proceed with the following readings. All planetary vibration must be considered in light of the basic solar-lunar readings, for these are your character, your basic nature, which the planets will help or hinder but cannot materially change.

According to the sign position of your Sun, one planet will be more important than the others and should probably be read first. Your Sun is in Gemini and your dominant planet is Mercury. Not only the action of this ruling planet will be very important in your life, but also the attribute over which it rules. Thus Gemini, ruled by Mercury, lives a great deal in the senses; Libra, ruled by Venus, responds most readily to emotional stimuli; and so on. Study your ruler carefully.

Remember in all planetary readings that they work within the pattern of your solar-lunar nature; never against it. The synthesis of your horoscope from the following series of paragraphs to a working unit depends on your keeping this in mind, which will enable you to weld all the readings into a unified and significant whole.

Sun in Gemini and Moon in Capricorn

(You belong to the positive or executive group.)

You hide a world of determination under a very genial and apparently "easy" exterior. You are a source of surprise to friends and associates who may think they can put things over on you. They find out. You are affable, courteous, social, generous, but no one can impose on you, and your business judgment is amazingly shrewd. You are likely to get pretty much what you want in the world by taking people unawares, for you chat gaily, talk volubly, get apparently sidetracked from the business in hand - and before you know it your vis-à-vis has agreed to something that maybe he doesn't want to. You have a fine sense of justice and, despite a show of independence and individuality, are strictly conventional. You bargain shrewdly, but you are fair and utterly honorable. You are intensely ambitious, and when you settle yourself into a career, after early casting around, you go far, for your nervousness and restlessness are well controlled. Your intellectual grasp of matters, including yourself, replaces an early, highly personal attitude, and a

sort of intellectual detachment lends direction and force to your life. Emotionally, though you are a good fellow, you are somewhat cold in personal dealings, though a sense of justice is likely to prevent any overt unkindness. You are highly sensitive and also conscious of other people's sensitive points, though it may suit your purposes to ignore them, when you can be unkind, with a wide-eyed astonishment at the other fellow's bewilderment and harm. You are analytical rather than creative, and rarely go in for the arts; professional and business life are your best media. You are somewhat selfish, especially where your career is concerned, and capable of the utmost in diplomacy where it seems called for. But you don't think it good policy to antagonize people, however insignificant. "Good policy" is your constant aim, and through your capable mentality, your determination to succeed, and your ability to pick your way carefully in human relationships, you can carry yourself a long way up the ladder. A little more of the personal touch, a little more susceptibility to romance, lend warmth to the character. You are a very unusual person, reserved and at the same time warm-hearted and affectionate. A just, dependable, and loyal friend. Without these, you are a little cold, but your very detachment is your strength and your foundation.

Sun

The Sun indicates the appearance you will present before the world and the psychological bias which will dominate your actions. What you seem, and why, are told in the reading for your Sun. In many ways the Sun is the dominant force in your horoscope and in your life. Other influences, especially that of the Moon, may modify the Sun's influence, but nothing will cause you to depart very far from the basic solar pattern. For this reason a whole literature and a whole business have grown up around Sun-sign astrology; and many people exist who think there is nothing more to the horoscope than knowing what "sign you were born in" and what the Sun in that sign means. This is a mistake, as you will discover when you have read the influence of the other bodies. But throughout your reading, keep in mind always the basic influence of the Sun, and remember that all other influences must be interpreted in terms of it, especially in so far as other influences play a visible role in your life. You may think, dream, imagine, hope to be a thousand things, according to your Moon and your other planets, but the Sun is what you are, and to be your best self in terms of your Sun is to cause your energies to work along the path in which they will have maximum help from planetary vibrations.

Sun in Gemini

"I celebrate myself and sing myself."

Walt Whitman, born in Gemini, May 31, 1819.

"Whoso would be a man must be a non-conformist."

Ralph Waldo Emerson, born in Gemini, May 25, 1803.

"Democracy wishes to elevate mankind, to teach it to think, to set it free."

Thomas Mann, born in Gemini, June 6, 1875.

Into strange paths leads the Gemini's desire to be himself, to think for himself, to do for himself, and, ultimately and in its highest form, to become his best self. It takes him a long time to learn that he can't possibly be anything except himself. The self he wants to be is at first not well defined, except that it has to be different from what his father, or his mother, or his brother, is. If the urge remains in the naive be different form, Gemini stays a bad child all his life, breaking rules, rebelling against authority, dashing hither and yon over the geographical, social and emotional world in order to make sure that he doesn't yield his individuality to one place or one wife (or husband). Education or other discipline must come to Gemini through his own volition, and when it does is his salvation; for then the passion to be different turns into creative originality in business or the arts, and Gemini forges ahead. He will generally be found in the camp of liberalism, because it is against the status quo if for no other reason.

Sometimes Gemini rebels against the status quo of his own life, and thus the sign has a reputation for supporting Reno. But if his life gives him sufficient scope to be himself, Gemini stays settled. The more his concept of what it means to be himself diverges from the early, rebellious, sensational, adventurous urges toward intellectual excellence and a sense of social responsibility, the higher Gemini gets in the world, for his sense of what constitutes his best self is not limited. It often starts with free love, breaking school rules and talking back to cops. But here, with any luck at all, the Gemini versatility breaks in; also the Gemini practical good sense. He discovers that his self might just as well be something more stable, sets his self development along another line, and gratifies his desire to be himself in progress rather than in destruction. Everything depends on his subjective reaction to himself; and it therefore becomes his moral obligation to develop to the point where he is innerly satisfied by what is constructive. He will never do anything because someone, or a convention, tells him to; but he may, and often does, grow up to the point where his behavior satisfies himself best when it is going somewhere in a straight line, instead of nowhere in a circle.

Following are the aspects to your Sun. In a general way, the trines and sextiles to your Sun make ease, contentment, happiness, luck; while squares and oppositions give you energy, drive, success, ambition. Conjunctions bring both energy and luck, and are translatable in terms of whether the Sun receives squares or trines, along with the conjunction. Similarly, squares and trines to the Sun together bring success through work and perseverance, and luck develops in proportion to the work done and the effort extended.

Sun Sextile Jupiter Orb: 04°04'

The qualities of luck, energy, magnanimity, and good spirits here are pronounced. You have lots of vitality and optimism, together with a broad, tolerant, philosophic viewpoint - a sort of hail-fellow-well-met person making friends readily and generally keeping them. This is an excellent position for business. With your Jupiter sextile Saturn you find a successful career of considerable scope and influence. In a professional or artistic career this insures financial return. No poet with this aspect ever starved in a garret, or anywhere else, for that matter. You spend freely and convivially, and your abundant vitality makes it possible for you to keep going for a long time.

Sun Trine Saturn Orb: 05°02'

You are lucky, coming of good stock and being born into a favorable environment. Elders have done a good deal for you, and no matter how poor your parents may have been or how rich, they have seen to it that responsibility was removed from you as much as possible and that the hardships of life did not touch you. You have a good sound body and mind. You are serious without being dejected or depressed, and are capable of concentrated effort. Look out, there is a tendency to relaxation and absence of direction and purpose - luck helps you out, but you don't seize or create opportunities. The tendency of this aspect is to smugness and self-satisfaction, pride and relaxation of ambition and energies, so that, despite a sound mind in a sound body, you don't seem to get very far.

Sun Square Pluto Orb: 08°25'

Power is important to you but, without introspection, this power is likely to be a "bluff," a show you put on to impress others. With introspection, you can use your clear perspective on your motivations to give a solid sense of purpose and determination to everything you do. Hidden resentments can trip up even your most well-intentioned actions, so self-knowledge is essential for success. Winning is important to you, so you could become a master of tricks and manipulation. The lesson is the proper application of power, so that success comes through the use of your magnetism and inner strength rather than through the use of dirty tricks. Try to be for things as intensely as you are against them.

Moon

While the Sun's position by sign determines what motives and urges dominate your life as it meets the naked eye, the sign position of the Moon tells the desire of your heart which may or may not be expressed or realized in your life. When you "know what you mean but you can't say it," it is your Moon that knows it and your Sun that can't say it. "Thoughts that do often lie too deep for tears" are the thoughts of your Moon's nature. The wordless ecstasy, the mute sorrow, the secret dream, the esoteric picture of yourself that you can't get across to the world, or which the world doesn't comprehend or value - these are the products of the Moon in your horoscope. When you are misunderstood, it is your Moon nature, expressed imperfectly through the Sun sign, that you feel is betrayed. When you know what you ought to do, but can't find the right way to do it, it is your Moon that knows and your Sun that refuses to react in harmony. Also, when you "don't know why I said that," it was your Moon expressing despite your Sun (if you are innerly satisfied with the involuntary speech), or the Sun expressing against the will of the Moon (if you are displeased with what has slipped out). Things you know without thought - intuitions, hunches, instincts - are the products of the Moon. Modes of expression that you feel are truly your deepest self belong to the Moon: art, letters, creative work of any kind; sometimes love; sometimes business. Whatever you feel is most deeply yourself, whether or not you are able to do anything about it in the outer world, is the product of your Moon and of the sign your Moon occupies at birth.

Moon in Capricorn

You conceive yourself as a practical, hardheaded individual who can compete successfully with the world on its own terms and who finds therein his deepest satisfaction and greatest success. The game itself, rather than the stakes, interests you; you aren't likely to be grasping of money, but you will fasten onto all the power in sight. The security of your soul lies in authority. As a result your chances of success are great, because you don't have to do any play-acting in looking for it: the contest is the very breath of your spirit. Some of the greatest leaders of the world have Moon in Capricorn, and owe their success to the image of success that always plays on their mind. Sad are the cases of Moon in Capricorn who get the image inverted: whose great inner need is no less for success, but who feel themselves frustrated and incapable ever of achieving it, and who in consequence become bitter and hard in failure. The free flow of your intuitions, if you don't try too hard, will carry you where you want to go. Your instinct may not be for kindness, charity, fellowship, love, but in your depths you won't miss these when you command authority and respect. Dare to be yourself, to seek what you want by the means that are required, even if being true to yourself means being false to softer things required by softer people. You are cast for a certain role and must play in character if you are to get yourself over the footlights. You can't sway the audience by acting another part: they spot phoniness quickly. But they will recognize the power of your true role when you play it truly. And, as you must never forget, to win recognition as an important and powerful person is the deep desire of your heart.

Following are the aspects to your Moon. Look to the trines and sextiles to give you charm and clear-thinking; and to the squares and oppositions to provide you with concentration and driving force.

Moon Square Jupiter Orb: 00°10'

You are optimistic with respect to financial matters. You have a feeling that the purse will always be full, and the extravagance resulting therefrom may become dangerous to your security. If other aspects show material success and well-being, you have a cavalier attitude toward expenses and love to spend. This is a Falstaffian position - there's a hankering for rich and fancy food, a tendency to eat too much of it, and an accompanying danger of fleshiness, diabetes, gout, blood disorders. This is one of the aspects of indulgence. You are sunny and open-hearted, tolerant of other people and of yourself as well; a kind of happy-go-lucky individual, taking people as you find them, and consequently popular. This expansiveness may be curbed somewhat, but you are genial at heart. You usually have some share of the world's goods, though this doesn't in itself make for security - money comes in and goes out without causing you much worry or trouble, but, it does not get saved very consistently. You are able to manage your finances more successfully.

Moon Sextile Neptune Orb: 00°24'

Charm and grace of manner and speech mark you - a certain fluency to your movements and manner of expression attract attention. You are rather a striking personality, in a quiet and unassuming way. You have a keen sense of other people's feelings and wishes. You put two and

two together instinctively and thus are able to draw conclusions that are lost on less intuitive souls. Beauty in all forms has a strange effect upon you, and conversely discord, strife, and loud noises throw you off. You will give your all for peace and quiet, and for this reason frequently go off by yourself for periods of repose and relaxation, far from the madding crowd. If there are any artistic or creative indications in the horoscope, this will assist them greatly, although by itself it gives the appreciative, receptive artistic qualities. You are a lover of music and really require it, finding comfort and relaxation in the rhythm, tone, and color of what you hear. Your sense perceptions are all acute. and sights, sounds, odors, colors, and the feel of things give you a curious sensuous satisfaction. You should cultivate objectivity, and detachment from your private aesthetic world, which pleasant though it is can interfere with realistic problems.

Moon Trine Pluto Orb: 04°11'

Quality, not quantity, is the hallmark of your emotional make-up. You like having a few close friends rather than spreading your feelings and loyalties thinly over a wide variety of people. You are apt to be fair in your judgments of others, evaluating inner qualities rather than superficial traits. Warmth, loyalty and devotion mark your emotional reactions. You are protective of loved ones without smothering them.

Mercury

Mercury is the sense-impression antennae of your horoscope. His position by sign indicates your reactions to sights, sounds, odors, tastes and touch impressions, affording a key to the attitude you have toward the physical world around you. Mercury is the messenger through which your physical body and brain (the Sun) and your inner nature (the Moon) are kept in contact with the outer world, which will appear to you according to the index of Mercury's position by sign in the horoscope.

Mercury in Taurus

You are eye-minded; that is, you get your maximum sense contact with the world through sight rather than through sound. You get more from reading a book than from hearing a lecture. Silent movies are almost as good for you as talkies. Since what you see is important, you will always strive to make your surroundings as attractive as possible, and for this reason your home, or your office, will have some beauty about it even when it gets disorderly. Touch is well developed, and you visualize through your fingers - get an image in the dark of something touched, know how a fabric will look by feeling it - and conversely, how it will feel by looking at it. Taste and smell are fairly well marked, and hearing worst of all. You can shut out sound from your life and live calmly through a hurricane or the squawking of children that would drive others to distraction. You don't hear the sound of your voice accurately, and sometimes sound like you don't feel for this reason. Study elocution, and learn to pay attention to what meets your ears.

Mercury Conjunct Venus Orb: 00°49'

This aspect gives perhaps the most idealistic mental outlook possible. It shows strong

leanings to the artistic and beautiful things of life. Even though creative powers are limited, there is a good deal of appreciation of fine things, and innate discrimination. The champagne taste that so often has to get along on the beer pocketbook. You will have friends among clever and intellectual people. You will no doubt marry someone from this group, for your affections are much bound up in your opinion of the loved one's mentality. You have a good deal of charm of manner, wit, and gayety to your speech, and probably have a very pleasant speaking (and perhaps also singing) voice. You don't shout even when you're angry, and you have a persuasive manner that wins people over. This is therefore good for salesmanship or the professions where personal contacts are of paramount importance. The intellectual life replaces the romantic to some extent; your mind is deep, studious, serious, and critical, and well fitted for an academic or professional career.

Mercury Square Mars Orb: 07°56'

You have a keen, scientifically sharp mind and a tongue of rapier-like speed - and edge. You can, and do, say cutting things. You don't mince words. Despite your excellent mental equipment, you may not develop intellectual gifts, for you are prone to jump to conclusions. Where intuitive grasp and shrewdness are called for you get to the heart of things in a second. Your judgment is not sound. In business you are someone to be watched and need a strong and cautious person around you to keep you from flying up meaningless alleys. You are always jumping into holes feet first and finding out later how deep they are. Depth is aided, subtlety is increased - which subtlety may some day prove a boomerang. The mind has more balance and poise, but periodic indiscretions cause trouble. You have a rather hard and calculating emotional nature, intense but wary. A sharp suspiciousness attaches to this position. You know your own mental processes, and suspect them in others. You'd make a good detective, sensing all the tricks of evasion that might be used against you.

Mercury Square Saturn Orb: 02°12'

You are liable to fits of depression, for your deep and subtle mind feels the woes of the world, and your own woes, very keenly. You are sensitive in a peculiarly brooding sort of way, not striking back when hurt, but nursing your grief and feeling sorry for yourself. You have a profound mind. Shallowness, stupidity, and deceit throw you off balance - though you yourself are capable of subtleties that others may think deceit. But knowing your purposes you can justify yourself with a sort of pragmatic philosophy - the ends justify the means. You are selfish, and capable of what is known in the divorce courts as "mental cruelty" especially with your Mercury square Mars. You are a prober and a pryer and can get inside people even when they try to keep you out - this is a detective-like position. You are a subtle opponent in argument, having facts and figures at your command, and there's nothing flimsy about the logical structure you build. You thus make a good lawyer and a just, if stern, judge. You have a tricky mind.

Mercury Square Uranus Orb: 06°18'

Quickness and mental facility are your gifts, with a periodic insight of great swiftness and accuracy but no great stability. Your mental control is not good, and your energies are wasted in temperament. You are independent in thought and action and your own mentor of opinion, frequently differing violently from established authority - and more likely than not to get into

trouble through tactlessness. You like to talk back to policemen. The revolutionary spirit is strong in you with a "whatever it is, I'm against it" attitude. You like a battle of wits and will take the other side of the argument just for the fun of it or to help out the underdog. Your great independence and vigor of mind can make you a leader of thought when you have learned to get the chip off your shoulder. You learn tact slowly, but steadily, and your influence rises.

Venus

Venus is the emotional antenna of your horoscope. Through Venus, impressions come to you from the outer world because of which you feel and react emotionally. The position of Venus by sign at the time of your birth gives the key to your attitude toward these emotional experiences. As Mercury is the messenger linking sense impressions (sight, smell, etc.) to the basic nature of your Sun and Moon, so Venus is the messenger linking emotional impressions. Venus is in the same sign with Mercury, emotion impressions and sense impressions work together; you tend to idealize the world of the senses and to sensualize the world of the emotions, to interpret emotionally what you see and hear, and perhaps through this to become proficient in one of the arts.

Venus in Taurus

You have a robust, physical, sensuous (or sensual) response to emotional vibrations. You are demonstrative, affectionate and passionate. You love to touch, to hold and be held by, the loved one. You are both sensational and passional; to know the difference, and to let the true instinct replace the false one is to achieve mastery of yourself and of others. Plenty of love addicts have this position, to whom love means physical enjoyment and little more. Raised to its best, this position of Venus enables you to elevate physical earthly love to a high spiritual plane and to understand the beauty of true union in a union of true beauty. You understand love deeply, accept it with your whole being, are content to express it wordlessly, value love's silences more than its speeches. You know both ecstasy and despair of love and you cling to a love once given and received with unbelievable tenacity, even in the face of great obstacles. You believe in love, in its earthly as well as its spiritual form, and will not be content till you have found both in one individual. Your emotional responses color your whole life; all sense reactions are intensified by this position, and your love of color, art, music and beauty in any form relates directly to the creative impulse which draws on, and interprets to you, all the experiences that earth has to offer.

Venus Square Mars Orb: 07°07'

This strengthens your emotions and passions and will bring you some turbulent experience through love and sex at some time during your life. It adds a note of inharmony and strangeness to the love-life, making you extremely self-willed and independent. There is danger of psychopathic independence in sex matters, due to some distressing experience. You have a highly unconventional and stormy sex-life. You are temperamental, and if the intellectual qualities are not markedly strong, you may be led to serious involvements through the misdirection of the passional and sensational nature. If the mental qualities are strong, this increases romanticism and intrudes a sensual note into the nature. It also inclines to financial extravagance in the matters of pleasure, dress, personal and domestic finery. There is a good deal

of spice to your personality. You are magnetic, love company and a good time, and there is very little prudery about you. You'll swap yarns with the best of 'em, and maybe not always Sunday-school stories either.

Venus Square Saturn Orb: 03°01'

With respect to financial and economic conditions this does not indicate inheritance, in fact takes it away. Even if you were born into a family of wealth, it is likely to disappear before it gets to you or to be less than you had thought it would be. You receive little help from your parents and should not live around them any longer than you can help. You do best when you are on your own. Work for and live among strangers. You are careful of money but never seem to have enough. You should make a budget and stick to it. You have good business sense of a temperamental sort. You don't plan things out too well, but your instincts are pretty good because conservative. On the other hand, you are capable of scrimping for a long time and then spending your savings foolishly. You're the fellow Benjamin Franklin was aiming at when he wrote, "Never buy what you do not need because it is cheap." You have a fear and dread of poverty which may not be at all justified, but which you should guard against by always keeping something laid up for a rainy day. Property rights are sacred to you, and you love to own things, especially land and your own house. You will make no end of sacrifices to have a place of your own.

Venus Square Uranus Orb: 05°29'

This gives an emotional nature alternately repressed and explosive, apparently somewhat conventional and cold but actually very independent and erratic in the love-life. A highly nervous quality accompanies all of your emotional dealings. You are an idealist in the realms of love, full of theories about sex and human relations in general, which complicate relationships that to other people are much more simple. You think much on emotional matters and are capable of hasty and jumpy action with respect to them; the motivating force behind your impulses is rational rather than physical - you can be swept off your feet by an idea, an ideal, a theory, more quickly than by the physical beauty of an individual. This ideology of yours is likely to take quite unusual forms, and to lead to strange relationships among strange and out-of-the-way people, because of whom you gain the reputation for being an eccentric. The square aspect will bring an additional somberness and sobriety to your outlook on human relations and will cause you at some time some considerable disappointment through misplaced or frustrated affections. You tend strongly to the unconventional in love matters, making a fetish of independence in your love life. A certain austerity attaches to you, and you can be unyielding when it does not suit your purpose to yield, at which time your detachment and objectivity can amount to cruelty. But at other times look out for impulse and temperament, for this is an erratic and unreliable position and makes you liable to periodic destructive impulses.

Mars

Mars is the energy principle in the horoscope. His position by sign indicates the channels into which energy will naturally flow, and the uses to which energy will most easily be directed. It is the planet through which the activities of the Sun and the desires of the Moon express in action -

through which your body and your mind react to the sense impressions of Mercury and the emotional impressions of Venus.

Mars in Virgo

Your energies are directed to system, or, in the negative manifestation, to no-system. "When it's good it's very very good, and when it's bad, it's horrid." One way or another, your effort is related to the order of your life. You will be the most systematic, logical, orderly, precise person in the world. Or else you will live from hand to mouth, your rooms in disorder, in constant rebellion against putting things where they belong. To get anywhere with this position of Mars you must learn how to accept the details of life, to take them for granted, so as to release your excellent mental energies into progressive channels. Until you have put your house in order, there is no place for you in the outer world. Once you have achieved order, you must progress to the point where you take it for granted; because to spend all your time dusting and straightening up is as wasteful as to spend all your time looking for things. Master detail, forget it, and then let your cleverness - of which you have plenty! - go to work on more essential things. The danger of this position is narrowness of effort through inability to see the forest for the trees; its great virtue can be mastery of detail, and the ability to bring large ventures into being from small, sound beginnings.

Mars Conjunct Uranus Orb: 01°39'

You have a strong personality and are a little cold and impersonal. You are mental rather than emotional in your bias toward life; capable, and quick in your perceptions. You are best when working in impersonal matters for your emotions are inaccurate and unreliable and (as the palmists say) you should let the head rule the heart. This makes good leaders, teachers, and government officials. Personal considerations don't interfere with what you have to do. You can be hard and even cruel if it suits your purposes. While you can be kind in theory and to groups, you are capable of being unkind in personal dealings and of hurting those who love you. A sort of rigidity pervades your emotions, and you have difficulty in unbending. There is something a little forbidding about you. You are especially prone to have a periodically high temper.

Mars Conjunct Pluto Orb: 06°25'

Your natural fortitude makes you a tower of strength in bad times as well as good. Your ability to face the truth about yourself, life and the situations you encounter helps you to adapt, and thus progress, with relative ease, making changes when and where needed. One problem has to be overcome, however: You range between extremes of action and inaction, energy and inertia. You can push yourself long past the point at which others give up, and this helps you accomplish much. On the other hand, you do nothing at all if you doubt your ability to cope with a situation or problem. Self-control and discipline are exercised only when you see the need for them but, when this happens, you progress quickly and surely, directing your abundant energy toward important goals.

Jupiter

Jupiter is the feeler you have out in the world for opportunity. Through it the chances of a lifetime are passed along for consideration according to the basic nature of Sun and Moon. Jupiter's sign position indicates the places in which you will look for opportunity, the uses to which you wish to put it, and the capacity you have to react to and profit by it. Jupiter is ordinarily, and erroneously, called the Planet of Luck. It is "luck" in so far as it is the index of opportunity; but your luck depends less on what comes to you (Jupiter) than on what you do with it (the total personality). Opportunity appeals to you along lines laid down by your Jupiter.

Jupiter in Aries

Opportunity appeals to you along lines related directly to ego justification. This can take the aggressive "I-can-do-anything" form or the passive, timid "Am-I-fitted-for-that-am-I-capable-of-doing-that?" Opportunity isn't primarily a chance to make money, to achieve glory, or to serve, but is something more, and personal. Depending on the biases of your ego, this will be a broad or a narrow influence. It tends to add fire to an already self-assured nature and to give some self-assurance to the timid soul. One of two dangers besets you: (1) over optimism about your own talents, and a consequent eagerness to try anything once, resulting from the feeling that nothing is too big for you; (2) limitation of opportunity to a narrow ego demand, the result of a limitation in self confidence, and a resultant refusal to step outside the confining areas you have set up for yourself. In any case, you're likely to be happy in your work, because you naturally gravitate to a work that satisfies you, and you cannot see opportunity along any other line. You must stand aside from yourself, examine your inner career motives carefully, and discover whether, by following your deepest desires, you are not limiting unnecessarily your field.

Jupiter Sextile Saturn Orb: 09°06'

You have in this aspect the best possible insurance against want and poverty for no matter how bad things may be, you always seem to get what you need. When everyone else is broke you can fish a dollar out of acme place. In a similar way, when you're broke, someone or some thing will come to your rescue. Even in an otherwise weak horoscope this aspect is so strong that it takes the edge from the worst cuts of life, holding up your head and your fortunes, and giving you, in varying degrees, dignity and security which by careful and conservative expenditures you can make into wealth. You are an excellent manager of funds and can stretch a dollar to the limit without being penurious or petty. You simply know how to get your money's worth, and, being utterly fair and honorable, are just as willing to give fair value when you're on the selling end. You won't fleece others, and you won't be fleeced yourself. You can deal with large numbers of people and, having an eminent sense of justice in abstract as well as practical matters, you make a fine judge, minister, social worker, or executive. Whether you are prominent and powerful or quiet and reserved, your character wins you respect and a certain prestige and authority in whatever sphere you move. This is an aspect of maturity and may not be felt before the thirtieth year in any except the security sense. Under it you will develop steadily and forcefully as you grow older and in middle and later life feel the stability that you derive from these two most powerful of the planets.

Saturn

Saturn indicates the direction that will be taken in life by the self-preservative principle which, in its highest manifestation, ceases to be purely defensive and becomes ambitious and aspirational. Your defense, or attack, against the world is shown by the sign position of Saturn in the horoscope of birth.

Saturn in Aquarius

You seek self-justification and acclaim and material success very much as Saturn in Capricorn, but aren't likely to be so hard boiled about it. Saturn in Aquarius wants fame, recognition and power, but is more concerned with keeping the good opinion of other people in getting it and will rarely if ever hurt them. This position adds gentleness and strength to any chart: the ego requires the approval of society for its own justification - requires the good opinion of men more than their obedience, and is willing to trade respect for love. The social urge in this way is strong, and Saturn in Aquarius will spend a lot of time justifying its transgressions (which may be numerous) and making explanations and excuses for shortcomings. Since society is important to you, you tend to assume that you are important to society, and if your whole chart is very passive, you may come to think that it owes you a living and that your existence is best justified when you are collecting unearned increment. This is an inversion of the urge to serve society which is the best Saturn-in-Aquarius type of self-vindication. If this goes into reverse, you're vindicated when you enable society to demonstrate its goodness with you as the recipient. To cultivate the social urges on their positive side, to seek the approval of men for progressive and constructive works, to accept responsibility to society as your true means of self-justification, is to live up to the best of this idealistic position of Saturn.

Saturn Opposite Uranus Orb: 08°30'

You are a pioneer and in some way an eccentric, independent in thought and action. Your independence doesn't work very strongly for your success, and you have to learn cooperation, tact, and diplomacy. In a horoscope that shows inventiveness, originality, and executive force, this increases those traits adding a note of quarrelsomeness, but none the less making you a strong and influential character. You are forceful in an electric sort of way and impress people even when they don't like your manner or your methods. You have a peculiarly destructive temper - destructive to yourself chiefly - and must guard against the temperament that underlies your disposition.

Saturn Square Neptune Orb: 09°40'

Ambition has a way of going to sleep on you. A sense of your own power works subtly inward giving you a peculiar brand of good opinion of yourself, which likely as not you don't get around to doing anything about. A sort of mystic faith in your own worth pervades your thinking - you know you could do it if you wanted to, but you have to fight to want to. This will prop self-confidence if other things show aggression, but it will forestall accomplishment if you do not integrate your purposes and translate them by will power and a set goal, into action.

Uranus

Uranus in a general way relates to the neuro-mentality, creative originality or individuality, and his position by sign in the horoscope tells the direction along which you will seek to express your most characteristic self in creative and original effort. With Uranus in the same sign with Mars, Uranus indicates high speed activity, love of swift motion and perhaps of danger.

Uranus in Virgo

Your originality is most likely to assert itself along lines of organization, routine, or social welfare. If you work along your most characteristic lines, it will be to make some contribution to social or business systems. You can be an efficiency expert in the service of capitalist industry and make your genius valuable along that line. Or your desire to serve may take a broader and more humanitarian form, and you may become a leader of social thought, applying your systematic genius to large problems of labor and social welfare. Your most characteristic expression will be found in connection with work, its methods and its efficiency; or in connection with social service and progress. You are more likely than not to be on the side of social change aiming at division of labor and the general good of society, and probably feel at home with the changes and even turbulence.

Uranus Conjunct Pluto Orb: 08°03'

You will bring about important changes in your immediate surroundings or in the world at large. Depending on other aspects within the horoscope, this revolutionary spirit will either bring good to more people or will hurl them into turmoil. You can be difficult to live with, because your convictions are so strong that you don't like to listen to the opinions and advice of others.

Neptune

Neptune relates to the deepest wells of the subconscious, inherited mentality and spirituality, indicating what you take deeply for granted in life.

Neptune in Scorpio

The people and nations of the world are aware of the awesome, death-dealing possibilities of nuclear war. Atomic-powered submarines in the depths of the seas play their role in the struggle for power. Those born under this influence want to plumb the secrets of the Universe. The mystery of life and death is theirs to fathom. They are enthralled by occult studies, chemistry, invention. Neptune in this position intensifies the emotional nature. There is a tendency to be secretive and mystical. Gain through inheritance is possible, as well as financial ties with others; partnership, and marriage. There is a great possibility of possessing marked extra-sensory perception. Caution must be exercised regarding drugs and strong beverages, and dabbling in spiritualism. The sex instincts must be channeled in the right direction since the craving for sensation is very strong. You have recuperative powers and a desire for reforms.

Neptune Sextile Pluto Orb: 03°47'

The ideas that were instilled in you by your parents, church and society will undergo changes throughout your life until your religious and philosophical views are distinctly your own. This type of creative adaptability makes you able to forgo selfish concerns and direct your efforts toward the betterment of all. Artistic and/or psychic talents are possible.

Pluto

Pluto relates to the ability to let go of things, to get rid of irrelevant prejudices and outdated habit patterns. It relates to subconscious feelings, inner urges and repressed emotions. A strong Pluto gives the ability to see the hidden side of life, and thus bestows power on the native - power which can be used for good or ill. In the same sign as Mars, Pluto increases the independence and ego strength, and gives power over others. Courage and cruelty can both be present.

Pluto in Virgo

Your ability to bring order out of chaos is your strongest talent, and it allows you to find ultimate meaning in conditions and ideas which others consider hopeless. Your approach is initially intellectual - your curiosity spurs you on to gain as much knowledge as possible - but your main concern is the application of this knowledge. Ideas have value only insofar as they can be used to improve the quality of life. Your forte is the development of a concept, its practical application and its assimilation into everyday affairs.

Current Transits

The current transits are calculated exactly for the date shown. Lewi wrote text only for the aspects that he considered to be the most significant and only those are shown in this report. The dates shown only represent the times when the aspect is exact; its influence is felt for weeks, months, and sometimes even years around this time. A planet will often make the same aspect several times in one year before it leaves that area of the zodiac and moves on. This is due to the planet appearing to go backward or retrograde for a period of time and crossing and recrossing the aspect point. When this happens the effect of the aspect can be spread out over a considerable time and in this report the aspect and text will be printed for each time it becomes exact, although this series of aspects represents only one pass through this phase of its cycle. Remember that each transiting aspect is part of its over-all cycle and indicates a change of direction as well as an event. The cycle for a planet is the time it takes that planet to travel the entire 360° of the zodiac, beginning at the point where the planet is found at birth (the conjunction point), moving to the 90° point which Lewi calls the "lower square", then moving to the opposition or 180° point. Then it begins to move back towards the starting point, at the 270° point, or 90° away from the starting point, the planet is at its "upper square", and then it returns to the conjunction point where a new cycle is begun. Lewi will occasionally refer to these points in his text by name. In general all transits, whether of a planet to its own place or of one planet to another, mark cycles of growth beginning at the conjunction point, growing through the first square, fully grown at the opposition point, beginning to recede at the second or upper square, and finally starting a new cycle as it reaches the conjunction point again.

How long any aspect will be in effect is determined by the speed of the planet making the aspect (the first planet, i.e. Mars in Mars Opposite Sun). One Mars cycle is about two or two and one-half years and so a Mars aspect will last about 20 to 30 days. Jupiter takes about 12 years for its cycle and so its aspects could last around 4 months, while Saturn with a 29 year cycle will last 9 months or even more if it turns retrograde. Uranus, Neptune, and Pluto are all long range aspects and usually represent a time of 2 or more years. While Saturn and the outer planets indicate long range influences in your life, Mars aspects will identify important months and Jupiter will identify important years. Not every occurrence of these will be of striking importance. But within a larger Saturn cycle or Uranus period of great importance, these briefer influences will be found to act as the second or minute hand of the clock of destiny, as Saturn, or Uranus, or both, act as the hour hand.

May 26, 2004 - Jupiter Conjunct Pluto

This is a meeting of the Mentor and Transformation principles - perhaps a collision. Jupiter can inflate optimism to a bursting point. You are closer to walking on water - or at least trying -

than ever before. You are also closer to the meaning of death. Take care you don't seek out death or becoming overly controlling of your destiny. This is a time to let things unfold somewhat at a distance. Jupiter is opportunity, and chances will come to you during this transit. This is a great time for study. You will have powers of concentration; use them to reach deeply into the ante-chamber of your soul. You will seek out knowledge above and beyond the call of duty of the class curriculum and ally yourself with people and books that will transform your attitudes forever.

May 28, 2004 - Mars Opposite Moon

Fatigue leads to strife, so relax. There may be illness and you may lose your grip on things. Refuse to take yourself too seriously. Go to bed and rest instead of brooding; you'll avoid strife and trouble thereby. Force no issues. Energy may find its expression in some glamorous romance which may or may not be important, depending on other long-range transits in force at the same time with this.

May 29, 2004 - Mars Square Jupiter

This will generally not amount to much, but periods of loss through risks or gambles or through over-enthusiasm or bad business judgment are frequently marked by it. The outlook is too enthusiastic to let sober reason dominate; but this generally brings nothing but minor extravagance. This transit might mark some major material setback due to a combination of bad judgment and bad luck.

Jun 14, 2004 - Saturn Opposite Moon

You experience emotional stress, perhaps a physical or material setback. Your personality has worked toward objectifying itself, and you are now finding that you have lost something in the process. Not to feel sorry for yourself is the chief prescription for this period. What you have lost is mainly sentimentality - an attitude toward yourself better forgotten. What you gain is re-evaluation of your personal qualities, an ability to stand outside yourself, and to marshal your mental and emotional energies so that you will continuously master them in the future. You gain a certain hardness, which need not destroy your human qualities, but which will enable you to use mental, emotional and creative powers more effectively in the future. The beneficial result of this period is self-mastery through objectivity and detachment. In lovematters you may have a difficult period. In material matters you are likely to mark a low point. The ego is too much occupied with itself to be materially effective in the world, but learns the need of effectiveness as a result of this experience.

Jul 28, 2004 - Jupiter Square Sun

Publicity and public affairs favor you and tend to go to your head. You may get careless with money, extend credit too far, and thus lay the basis for later regrets. Restraint brings you gain through important people. You profit by pull, if you are willing to use it as a stepping stone to work and honest effort. Avoid over-extension of ego and authority; be content to take a back seat. Use opportunities, not to promote fame or prestige, but to build foundations on which these

may rest in the future. Protect health from excess; some danger of physical setback through self indulgence or overwork. Raises of salary come automatically, if at all, and you gain little by demanding. Rest assured that you will get no more and no less than you deserve, and that the intrusion of the ego is more likely to bring disappointment than favors.

Aug 2, 2004 - Mars Square Mercury

Quick speech, thought and actions make strife and trouble. Be silent, cagey, noncommittal. The quick retort makes trouble. Wrong decisions often come in one of these periods, which recur about every six months and need careful watching. Sometimes the most casual remark results in a lasting grudge. Mountains (of trouble) grow out of molehills (of speech). It is best to be silent.

Aug 3, 2004 - Mars Square Venus

Social and romantic glamour leads to excesses, sometimes to strife, quarrels, separations. Minor loves and friendships break up, but important relations are merely strained; and indeed this frequently adds glamour to a deep love, intensifying its beauty. A break here, unless contributed to by some more important transit, is a sure index that the feeling wasn't very deep or important anyway. Avoid excess spending and stay away from temptation if you're interested in sticking to the conventions.

Aug 12, 2004 - Mars Conjunct Uranus

Expect temperament, haste and anxiety. Your nerves require watching. These problems can lead to illness from fatigue and nervous exhaustion. You risk accidents (literal and figurative!) from excess speed and lack of care over details. Watch temperament. Accidents in the realm of human relations result from overemphasizing the ego and minimizing the other fellow's viewpoint. Inventiveness abounds; originality is in the saddle; but you can't get your best and truest ideas over to any good advantage, and simply make trouble if you "try too hard." Store them up for a later time when you express them better and when other people listen to you more readily. Look out for machinery, travel, electricity; avoid danger, be careful getting on and off trains and crossing streets.

Aug 15, 2004 - Mars Conjunct Mars

This is a period when new starts should be made, new plans put into execution, new ideas promoted. Energies work along their most characteristic line and can be utilized to excellent advantage. Control natural impulses if you have any that get you into trouble, because now is the time when you are "being yourself" and it is your business to be your best self, not your worst. You are starting a two year cycle and should establish the line you want to continue on for the next twenty four months. Seek new contacts, new avenues of self-expression, new channels into which to direct talents and energies. Beware lest anger and temper - letting go because you're feeling your oats - interfere with your best development. In your life check-up you will find that these recurrent two year periods marked with great consistency periods of important decisions, developments, activity and changes.

Aug 25, 2004 - Mars Conjunct Pluto

This transit represents a strong alliance of similar energies. A sense of mystery pervades otherwise mundane events. Agressiveness peaks. Care should be taken to secure your holding, protect your possessions and yourself, for this transit includes some vulnerability to the principle of redistribution. You might be knocked off your throne for no apparent reason. You could emerge from this period thinking the universe is a quixotic, capricious place, or you could take events as keynotes of respect for structure and self-care.

Sexual energy will be high. You could find yourself surrounded by irresistible people, and the tendency is to think that the veil between you and them is much thinner than it really is. Take time to treat people respectfully. Take this opportunity to de-objectify your world view and adopt a more service-oriented demeanor. Depending on how successfully you have mastered life's trials, this could be a time of "icing on the cake". Just make sure the recipients of your "death blows" are the nasty loitering ghosts in your own psyche, not the people on the street whom these ghosts resemble.

Sep 7, 2004 - Mars Square Sun

Domestic matters are important. This transit frequently times a move from one house (or town or locality) to another, or some important decision in the private life. New starts work out if well considered and unmotivated by temperame nt. Social activity is increased; you have lots of friends around you. This is a good time to begin new ventures for quick completion, ventures which have a bearing on your longer-range plans. This is a good time to clean house, redecorate, etc. The home is likely to be upset, and it's wise to make the upsetting literal and to some good purpose, instead of figurative and quarrelsome.

Oct 13, 2004 - Uranus Opposite Mars

Erroneous methods in contacting the world lead to loss of self confidence. You stand in your own light. Fear supplants assurance, and when you try to assert yourself, you tend to arrogance. You know what you mean, but you can't say it and when you try, you are misunderstood. Quarrels, setbacks, stoppage of progress and a sense of frustration result; you emerge shaken and in need of rest. Few go through this period without being put in their place. It is unfortunate to have this aspect coincide with one indicating opportunity, for this will probably cause you to muff it. Lie as low as possible and make self-effacement your credo. You win by retreating. This is a time of passive resistance to circumstances, not for pitched battle with them. You may experience accidents - both literal and figurative. Trace out carefully the part you have played in your own failure in this period; to learn this is to understand yourself better.

Nov 30, 2004 - Mars Conjunct Neptune

Super intuition gives you uncanny insight into motives and methods of other people, but not always into your own. Practice self-analysis. You swiftly feel your creative power, of which you can make good use. Beware sensationalism, sentimentality, self-indulgence; fight subconscious urges, suppressed desires, and make your inner ego work for you along constructive lines. This is an excellent period for creative work, for impersonal use of magnetism for business ends and aims and for social popularity. You have glamour that attracts others: be sure it attracts the right kind of people and for the right reasons. The Old Adam rears his head and may require discipline.

Dec 4, 2004 - Jupiter Square Moon

These are periods of physical and mental excess, generally resulting in fatigue and a necessity to take time off and rest. Self-indulgence wears you out and requires a holiday. This is a good time for a vacation. If you can afford to relax (and you really can't afford not to), you can enjoy life here. Be careful of excesses with money and emotions, protect your diet. The pleasures of food and drink are very alluring and make plenty of trouble if indulged in.

Dec 5, 2004 - Jupiter Opposite Jupiter

This aspect occurs six years before and after the conjunction and marks a turning point in your career, when things begun then take a new twist and plans are revised accordingly. There can be a minor peak of accomplishment in which you finally receive the encouragement to continue the line you have been following. Changes in pace and direction should be adopted only after sober thought, for what happens here is of more far-reaching significance than you are likely to realize at the moment. This influence of itself seems innocent enough, but really marks a period that you will later look back on as having indicated the course of your life for a long time to come.

Dec 19, 2004 - Mars Opposite Venus

Heightened emotions make romance, which is favored if you keep it within the bounds of reason and convention. Impulsive acts, with or without a future, are frequently found in these recurrent periods. Glamour surrounds your approach to life; you are susceptible to the opposite sex and they to you. This transit frequently indicates the time of marriage within the period of a longer transit that favors it. If the era of romance is past, this indicates an active and on the whole satisfactory social period; business progress; extravagance with money; a sudden urge to go places and do things - and perhaps a chafing at the marital bit which should not be taken too seriously. Energies work through emotions and passions, which in turn work overtime and should be gently disciplined though not entirely submerged. Often, for obvious reasons, this transit indicates the conception of children, especially if it occurs while Mars is conjunct your sun or conjunct your Mars.

Dec 27, 2004 - Mars Square Uranus

This transit is not usually important except as a marker of temperament and minor strife. But at one of these periods some major break due to temperament - some sudden shift in the pace and direction of the life - is likely to occur. The individuality is suddenly awakened to broader horizons, greater worlds to conquer, and determined to shake off the shackles of restraint. In undisciplined persons this will mark periodic temperament, rages, rebellion and strife; also accidents and setbacks due to lack of nervous coordination. In normally disciplined individuals all but one or two of these periods should be comparatively inconspicuous. But the one or two may be memorable and probably nothing to be proud of.

Dec 30, 2004 - Mars Square Mars

This transit indicates a period of hard work and abundant energies, which causes no trouble unless major disruptive influences are in force. There is a slight tendency to talk too much, boast and be arrogant, but the swiftness of the pace generally carries you through without major trouble. You should not let distractions interfere with plans you started when Mars was conjunct Mars on Aug 15, 2004. Protect health and nerves from excess; be objective and detached; and let reason rule the emotions.

Jan 8, 2005 - Mars Square Pluto

This transit represents a strong alliance of similar energies. A sense of mystery pervades otherwise mundane events. Agressiveness peaks. Care should be taken to secure your holding, protect your possessions and yourself, for this transit includes some vulnerability to the principle of redistribution. Jan 20, 2005 - Mars Opposite Sun

This transit is likely to mark periods of quarrels, strife, disagreements, difficulty in getting along with people. It is therefore a good time to lie low and be silent; to observe and do your duty without argument or fuss. Conserve strength: there is a tendency to go to extremes. Adventurousness and romance run riot and kick up a lot of trouble. New contacts are exciting but not necessarily of any permanent worth. If other transits indicate a generally good period, increased energy here can bring good results; under negative transits you should lie as low as possible and avoid getting into trouble. There may be accidents or illness.

Feb 25, 2005 - Mars Conjunct Moon

The urge to express yourself induces you to express your most temperamental self. In emotional people this marks, as it recurs every two years, some tension and inner turmoil directly related to the inner self that they are trying to express in the world. It leads to strife, unconventionality, inner discord which transfers itself to the outer world. It is an excellent time for a vacation or for lying low and forcing no issues. Frequently the transit marks ill health for yourself or your mate. The worst of the ego nature comes out; all the complexes and suppressed desires rush to the surface and need to be put back in their place. The best result of this transit is awakened and increased self-knowledge. One of these periods in the life check-up will frequently mark a major emotional experience that you have never forgotten. The inner nature is brought rudely into contact with realities, and false notions are stripped away, frequently with great personal upheaval.

Feb 26, 2005 - Mars Square Jupiter

This will generally not amount to much, but periods of loss through risks or gambles or through over-enthusiasm or bad business judgment are frequently marked by it. The outlook is too enthusiastic to let sober reason dominate; but this generally brings nothing but minor extravagance. This transit might mark some major material setback due to a combination of bad judgment and bad luck.

Apr 21, 2005 - Mars Conjunction Saturn

This is a good time to slow down and if you don't do so voluntarily, you may be forced to do so by a cold or some other type of illness. Do your duties quietly and solidify the existing position in which you find yourself. Superiors need kid-glove handling; you may feel hampered and restrained in your work; your energies may be forced into a yoke that chafes. Be philosophical about taking what comes; passivity and acceptance rather than activity and aggression serve you best. You build good, substantial foundations, despite limitations; or else you kick over the traces and probably regret it later. You may experience colds, low vitality, fatigue, nerves, or your system may become run down. Take a rest cure if you can. If you stay well, those around you may be ill, increasing your responsibilities.

Apr 24, 2005 - Mars Square Mercury

Quick speech, thought and actions make strife and trouble. Be silent, cagey, noncommittal. The quick retort makes trouble. May 5, 2005 - Mars Opposite Mars

Ideas are numerous but likely to prove more bother than they are worth; this not a good time for starting new ventures. Aim to quell restlessness, and stick to the line established about a year before, giving it perhaps some new twist, but not deviating from it in any radical particular. Temperament runs high; emotions are likely to be troublesome; self-will is an obstacle. It is a good time to go away on a vacation. But it is a bad time to try to get away from any established thing permanently. In the life check-up, these periods, recurring about every two years, mark tension, stress, new obligations connected with established things - sometimes a break or change which, in all probability, did not work out as well as it was expected to and forced a new start again a year or less later.

May 14, 2005 - Mars Opposite Pluto

This transit represents a strong alliance of similar energies. A sense of mystery pervades otherwise mundane events. Agressiveness peaks. Care should be taken to secure your holding, protect your possessions and yourself, for this transit includes some vulnerability to the principle of redistribution. May 25, 2005 - Mars Square Sun

This combination increases the importance of worldly position and brings shifts in prestige, credit, standing and publicity. Handle contacts with superiors carefully. Can be a peak of accomplishment or the collapse of hopes: it is in any case a climax, for good or bad, of career matters. You should not force issues but should rather "relax in the saddle of fate" and take what comes. Making demands, insisting, becoming arrogant or stressing your "rights" will only make trouble. Luck is with you, if you let it flow in its own channels and at its own pace; it deserts you if you try to hurry it or to force it beyond its normal bounds.
