...As Above... So Below

Introduction

Astrology is as old as measured time. Although there are many different approaches to astrology, all astrologers appear united in the idea that there is a connection between the heavens and the Earth -- they share one common space. For centuries there has been a misunderstanding concerning the nature of astrology to the effect that the heavens somehow "influence" events here on Earth. This theory of celestial influence has penetrated into the modern world until today it is the main concept or idea of astrology supported by the public -- the lay astrological audience.

Professional astrologers do not hold with theories of celestial influence. Instead, the modern astrologer conceives of the heavens and Earth as united, interpenetrating, and sharing a common space and time. The great cosmic or celestial events happening around and beyond the Earth (eclipses, lineups, and so on) are not seen as CAUSING events to occur on Earth, but as great signatures of events ALSO happening here on Earth. In other words, there is no "cause" in the heavens followed by an "effect" here on Earth. Instead, both planetary and earthly events happen simultaneously and are mutually reflective. Neither is the cause of the other; both are the product of the moment, one acted out in the heavens above, the other here on the Earth below.

While astrologers don't feel that heavenly events are the cause of events here on Earth, they do feel that specific heavenly events are enacted here on the Earth too -- at the same moment. In other words, there is only one grand "play." The great drama enacted in the sky is also acted out (in exact detail) here on Earth in the same instant. Another way to say this is that the Earth is part of the cosmos and shares in that cosmic moment. Scientists have been discovering (for example) that sunspots, solar flares, and solar activity have a very definite (and almost immediate) effect here on Earth. Astrologers tend to feel that all major cosmic events such as eclipses are interactive; they represent an activity also taking place within us and our consciousness.

In summary, astrology is a study of heavenly cycles and cosmic events as they are reflected in our earthly environment and vice-versa -- a vast cosmic clock. Astrologers find the cosmic patterns revealed in the rhythmic motions of the planets a great help in shedding light on the seeming helter-skelter of everyday life. Astrologers may have their heads in the heavens, but only to better guide their feet here on Earth.

We hope you enjoy your profile. It has been calculated using sophisticated astronomical formulae to ensure high accuracy. On the next page you will find a list of the zodiac positions of your natal planets along with the house cusps for your birth moment.

Your Rising Sign

First let's take a quick look at your ascendant, or rising sign. Astrologers want to know what zodiac sign is rising at birth, since this gives a picture of the way you appear or come across to others.

You wear your heart on your sleeve and always manage to come across as confident and sure of yourself (possibly egotistical). You are very free with your emotions, which nevertheless tend to stay under your control. You are warm-hearted and effusive.

Planet Aspects

The Lights: The Sun and Moon

At the time of our birth, the planets (through their configurations and relationships) tell us something about how things were when we were born. Each planet points to special qualities within us. Yet, of all the planets, the two most important planets to astrologers are the "lights," the Sun and the Moon. From where we stand here on Earth, the great shining Sun by day and the reflecting Moon at night are our constant companions. They have much to tell us as to where we have been and where we are headed.

The Sun: Your Self and Future

From the Sun comes light, that which draws us into life. The Sun represents all the changes we have not yet taken, that part of us that we have not yet experienced but are headed toward. The Sun represents our identity, or self, in that it is toward these that we are moving and developing. Thus, it also represents that which we will become: older people, authorities -- those we look toward, or up to. Our essence, or future. Teachers, gurus, and older (more experienced) people are represented by the Sun. The Sun is "hot stuff," those further up the road of life experience.

Here is great patience, able to respond to the world and to build upon what is already there and happening. You are willing to listen to others, take cues, and then reflect and build upon that information. Others find you gentle, steady, and, for the most part, kind. You take things in and provide an environment to bring them forth. You make "fertile" your field. A ready ear.

Sun in Taurus

There is a lack of harmony between your environment and your ambitions. What you need most is not always at hand to make the kind of progress you envision. Or, when the support is there, you can't get the instruction or direction you require. You may have forgotten where it was you wanted to get to, sort of "all dressed up, but which way to go?" It could be historical, too, as simple as being torn between your mother and your father -- a struggle between that which seeks to nurture you (and perhaps baby you) and your ambitions -- a need to succeed and be all that you can be.

Moon Square Sun

Being successful in life is easy, for you have a built-in sense of how to approach and unravel even the most difficult problems. You have an instinct for justice and the law, and you always know how to approach a problem from just the right angle. This ability makes you a natural counselor or guide for others, in particular regarding vocational matters. Working with and helping older persons is also suggested.

Sun Trine Jupiter

Expressing yourself and your relations with others are not always smooth and may tend to get explosive. You could be preoccupied with job and family to the exclusion of a social life. You may have trouble getting your ideas and thoughts across to others.

The Moon: The Support System

Here is information about the kind of environment we create around us, our support system. It is not only the surroundings that we set up today, but the Moon also represents our past, the particular history and social background out of which we grew. Aside from our social background, the Moon governs all of the old habits that we have grown beyond. We tend to look down on, or back on, our Moon. It represents those experiences out of which we have come, all those younger souls who are unconscious, or "sub" conscious to our own level. This is why it is said that the Moon is a mystery planet, for it is both our parent and our child: our parent in that out of it we were born, our child in that we can't but respond to others who are now living as we once did.

You are gregarious, even to the point of bringing out the performer in others. You somehow always manage to find a creative environment or the creative in any environment. You are great with kids and big on animals, sports, and the outdoors. You are an instant umbrella of warmth, friendship, and self-expression.

Moon in Leo

You are sometimes torn between a desire to progress and be all that you can be versus a tendency to dwell in the past, resting on your laurels. Your inner, more domestic side struggles against authority. You could feel caught in the middle.

Moon Square Sun

Your ideas and images about the traditional (history in general) and the environment around you make it easy for you to work with and teach others. You understand and perform well with younger people and know what it takes to create a supportive environment. You handle words and tell stories with consummate skill, and others love to hear you speak or entertain. You have a touch of the Blarney Stone about you.

Moon Trine Mercury

Your sense of responsibility is so well developed that you always end up managing any situation you become involved in. You are disciplined, work hard, and are good at getting others to work with and for you. Perhaps a little too serious and frugal, you enjoy getting along on less. Essentials are what count. You like to keep to yourself and tend to avoid too much socializing. Others may prefer keeping some distance too.

Moon Sextile Saturn

You have a built-in sense of what the public wants and can always come up with just the right image. You find it easy to work with the emotions and feelings of others, and with great imagination. Your sense of the ideal springs to life whenever other people are involved. A born arranger of atmospheres, you enjoy working with groups of people. You are also very creative when it comes to your home and surroundings.

Moon Trine Neptune

You have natural psychological ability, in particular when working with the public. You can handle emotional and personal issues (vulnerable areas) where angels fear to tread. People sense

this about you and trust you with sensitive matters, inner worries, and questions of personal identity. You have a real mission and a sense of purpose.

Moon Sextile Pluto

You are never more at home than when entertaining and carrying on in front of a group. You wear your heart on your sleeve, and your emotional life is an open book for all to read. Others sense an interest in their welfare when they meet you.

The Inner Planets: Mercury and Venus

The planets Mercury and Venus have more to do with our internal and personal life than with life outside us. These inner planets are located between the orbit of the Earth and the Sun. We can look to qualities that are inside us. Venus indicates how we appreciate and measure our experience, how we value life. Mercury tells us something about how our mind works, how we think and communicate -- our intrinsic brightness.

Mercury: The Mind and Communication

Mercury is the light in our eyes, the ever-changing consciousness within us that moves from idea to idea. Thus Mercury has always represented thoughts, ideas, and the mental process in general. It governs not only ideas, but communications, too. Communications -- by phone, letter, spoken, or however -- are ruled by Mercury. Also thoughts, connections, phone wires, and everything that connects and conveys -- even conversations.

You have a sharp tongue and a quick wit. You speak first, then think about it. Not subtle or complex, you are direct, simple, and to the point. An independent thinker, you would rather speak than listen. Argumentative too. You are quite impulsive when it comes to communicating, and often use strong words.

Mercury in Aries

A great speaker or entertainer. At the very least, the gift of gab. Working with or teaching others and communicating via the mind in general are indicated. A natural storyteller, you are at home in the world of myths and dreams.

Moon Trine Mercury

You don't spend a lot of time thinking out your problems, considering solutions, and the like. Your thoughts are most often elsewhere, and tend to be impractical much of the time. You can't seem to figure out the right course of action. This is most true when it comes to your career or vocation. Not a good counselor yourself, you are well advised to seek the advice of someone you trust when it comes to matters of your career.

Mercury Square Jupiter

You are a heavy-duty thinker and serious student, always ready to work an idea through, reducing it to what is essential. You enjoy mental effort and discipline, and work long and hard at whatever you put your mind to. You could present or teach religious and philosophical ideas, anything where substance and content are at issue.

Mercury Sextile Saturn

You are expert at working with words that communicate mystical and mythological ideas. You are at home in these realms and can always manage to bring other-worldly ideas into the practical realms. You would make an excellent teacher of philosophy or religion, for you can't help but communicate these subjects and enchant all who come to know you. Your understanding of the unity behind appearances, along with the ability to put these thoughts into words, is a rare and valuable gift. You would make a good director, for you like working with mental images.

Mercury Trine Neptune

You like your conversations and the ideas you communicate to stay somewhere near the surface. You want your privacy. You resent probing analysis and are quick to say so. Your opposition to others' "getting personal" with you is loud and clear and may be the source of more than a little argument. However, you don't mind a tasty bit of gossip when it is someone else who is being discussed. There is more than a little incongruity here.

Mercury Opposition Pluto

Your mind is ever on communication, how you present yourself and come across with others. It is easy for you to express yourself in a crowd, and you are a real smoothie. Everything seems to work out for you when you are talking with others.

Mercury Trine Ascendant

Venus: Values and Discrimination

Venus rules our values and sense of appreciation. When we appraise or appreciate something, whether that be another person or a new car, this is Venus -- the sense of love and compassion we may feel. By the same token, this planet rules enjoyment too. Whether it be self-appreciation or just plain old decadent self-enjoyment by having a good time, this is Venus. When we go shopping or are on a spending spree, it is Venus that allows us to appreciate and value all the good things of life.

You are very friendly indeed, love to communicate and to have deep, searching conversations. You appreciate change, variety, and making local connections. You have many avenues to explore and you love research. You are not too domestic, and loyalty is not a big issue. On the move, you have many different friends and places to go.

Venus in Gemini

You enjoy life yourself and value gusto and enthusiasm in those around you. Feelings are something you express with ease, and you appreciate others doing the same. Emotional drama is valued rather than avoided. Your appetite for action is probably well known, and well noted. Sports, outdoor activities, and everything physical are high on your list of favorites. Sex is, no doubt, also important.

Venus Conjunction Mars

Your ability to discriminate real breakthroughs and to spot new trends makes you able to work in areas at the very fringe of technology. You love all that is new and different and are expert at sharing your feelings with others. Electronics, computers, communications (in fact, everything electrical) are right up your alley. You value independence in partners, friends, and

love. You are what is called a "free spirit".

Venus Trine Uranus

Your love of job and practical skills makes you a fine manager and business person. You bring a great deal of love to your work.

Venus Sextile Midheaven

The External Planets: Mars, Jupiter, Saturn

The major planets outside the Earth's orbit (external to us) are Mars, Jupiter, and Saturn. These are the planets of the outer world -- life as we find it outside ourselves. Mars tells us something about the drive and energy we have, Jupiter shows us how to best channel that energy, and Saturn decrees what sort of material or territory we will be passing through. Again: Saturn tells us about the territory we will be going through, Jupiter the way or path through it, and Mars what kind of push or drive we can count on to keep going.

Mars: Drive and Emotions

Mars is the planet of emotion and inner motivation or drive. When we search for the meaning of something, life or whatever, it is Mars that urges us on, keeps us searching. Mars also drives us against things, too and sends us into war and combat. The urgency of Mars, the search for meaning, is identical to the need for union, yoga, and marriage. Mars is the planet of union, and marriage is the most common form of yoga. When we have questions about the opposite sex, we are looking at the planet Mars.

You have an inner need for communication of all kinds and may have too many irons in the fire at times. You can be all over the place, always trying to make one more connection. Speaking and writing are naturals. You have a need for lots of variety, a change of pace. Arguments. Mental energy.

Mars in Gemini

You have a natural appreciation for drive and energy, and probably love sports and an active life. Sex is important. You are often moved to appreciate life, and you don't mind emotion and sentiment one bit. You have a strong appetite for almost anything.

Venus Conjunction Mars

You put a lot of thought and energy into being different, avoiding the commonplace with great determination. Your drive to innovate, invent, and find new ways to use things is both well coordinated and intense. You could be an excellent teacher and innovator in areas connected to electronics, computers, and communications. You may love to travel and are quite energetic, even athletic. You have a strong urge to be different, to do something different.

Mars Trine Uranus

You put forth a lot of effort, in particular regarding your career. Your drive and ambitions work well with whatever management skills and practical ability you have, producing a harmonious work environment.

Mars Sextile Midheaven

Jupiter: Career and Life Path

Jupiter is the planet of success and simple survival, the way we have to solve the problems that confront us. Thus Jupiter has to do with the way in which we can be successful, our vocation. The Hindu word for Jupiter is Guru. Jupiter is the guru and guide, the way we go through life, our life path or vocation. Jupiter is the method each of us has for dealing with the laws of life, our Saturn, or limitations. Jupiter is the light or path. Jupiter provides us with our sense of direction, the path we are on, the way we handle life. It affects how we approach life's problems. It has always been an indicator of how successful we may be, our vocation.

The perfect manager: conservative and professional in all things. Your career is all-important. A "doer," you are always practical. Never ruled by emotions, you are cool, capable, and competent. You are quick to get the outline or skeleton of a project, to see how things work.

Jupiter in Capricorn

You have a sense of justice and an innate ability to understand the law, whether natural or manmade. Showing others the way through or beyond the problems in their lives comes easy, for you sense how to manipulate the opportunities of life. Lucky.

Sun Trine Jupiter

Your ideas and plans are not always the most practical or expedient. Fond of grand schemes, verbalization, and the like, these ideas don't often boil down to real solutions. Your main path may involve taking many of your ideas with a grain of salt.

Mercury Square Jupiter

Saturn: Responsibilities

The process of finding out who we are (self-discovery) starts when we come to grips with whatever problems life presents to us and begin to get a handle on them. In other words, if we have not dealt with Saturn, or time (that is, if we don't have some control of time), there is little opportunity for other questions. Saturn rules the laws and limitations of this material world we all live in. Saturn indicates where we are bound to learn, the narrowness that makes our way felt, the walls that make homes possible. Saturn holds us together as much as apart. Saturn is said to be the great teacher, the planet that keeps us from getting carried away in one direction or another. Although it always seeks to limit and determine any thought, word, or action, it also defines and clarifies. Saturn is called the prince of the material world.

You tend to avoid superficiality, hating small talk and communication in general. You may have difficulty making connections and linking up to others. You need to learn how to investigate, search out answers and explore possibilities. Basic communication skills are required.

Saturn in Gemini

A tireless and disciplined worker, you have a tendency to be serious and to prefer being alone over entering the social scene. You can get the most out of others, get them to work under you. A wisdom that comes from simple needs. Conservative. Careful.

Moon Sextile Saturn

A real problem-solver, the more tedious the better. Able to reduce any subject matter to the bare bones. Heavy-duty thinker. Could be very serious or philosophical. Enjoy study and thought. Very methodical and practical in approach.

Mercury Sextile Saturn

Your sense of duty and the responsibilities you may have could cause you to ignore or forego some of your actual ideals, the things you have most dreamed of. A conservative streak sets you against anything that is not realistic, and you have no patience for pie-in-the-sky and things that are not tied down. Mysticism, psychic phenomena, and the imagination in general intrigue you, despite your convictions to the contrary. You could take a vacation from your responsibilities and explore some more imaginative regions.

Saturn Opposition Neptune

When it comes to psychology you have great penetration, and always understand how to get down to the core material. You enjoy working with sensitive and vulnerable areas of the mind, searching out and defining points of transformation, areas for growth. You could teach and instruct others in these areas. You aren't afraid to get into the most sticky situations, and you always come up with the essence of the matter at hand.

Saturn Trine Pluto

You express yourself deliberately and don't waste your words. You have a natural sense of organization and come across as disciplined and careful, perhaps a little too sober.

Saturn Sextile Ascendant

The Outer Planets

In the previous sections, we have dealt with planets that we can see with our naked eyes. In general, these planets refer to life as we know and live it and are the so-called historical or classic planets. Beyond these are three planets that are not visible in the sky and which have cycles longer than the average human life span. Since they are beyond Saturn or time, astrologers call them the trans-personal or transcendental planets -- the planets beyond the physical. One of the ways astrologers learn something about our life beyond time (eternal life) is through these three outer planets: Uranus, Neptune, and Pluto. Here we find information on how we discover ourselves (Uranus), how we understand and accept these discoveries (Neptune), and, in time, how we depend and identify with them (Pluto).

Uranus: Break-Thrus & Insights

Our responsibilities can tend to weigh us down, and we each have our particular ways of getting around (or breaking through) the mass of obstructions that tends to congeal around us. The planet that has to do with how we get beyond the difficulties and problems life presents us is Uranus. Here is the way insights come to us, how we discover or come to know and understand ourselves. It has to do with finding new uses for old things, and it rules inventions and sudden insights into our life -- everything that is unusual, eccentric, and out of the ordinary. It is the reverse of the status quo and is always unconventional and heretical. Uranus is, in many ways, the opposite, or undoing of Saturn.

You can find new ways to relate and may be innovative in marriage and social conventions.

Very tolerant and accepting of differences, you have good insights into all social values. Independent. You like to facilitate, compromise, and otherwise show your breadth of scope -- like a coat of many colors.

Uranus in Libra

A love of the new and unusual. Able to grasp and appreciate new trends and concepts at the very forefront of technology. A very free spirit when it comes to friends, lovers, and tastes. In love with what's original. Breaking through.

Venus Trine Uranus

Powerful urge to be an innovator. Sudden breakthroughs, flashes, or insights. Avoid the common and seek out the unusual, exotic, and unique. Travel to far-off or out-of-the-way places. Energetic/athletic. Inventions with computers and electronics.

Mars Trine Uranus

You are most original when concentrating on areas of home and family where you feel secure. You are a private person and find all the pomp and circumstance of public life repressive and boring.

Uranus Opposition Midheaven

Neptune: Ideals & Imagination

Even the most hard-nosed of us have moments of real understanding, when things are seen as linked together and one piece. We stop getting the idea in little flashes and just get the whole thing. It dawns on us. We each have our own way of letting go, having communion, and (as the poet wrote) letting "the dewdrop slip into the shining sea." These moments and this state of mind are, in fact, the source for all our imagination. There are many ways of seeing through the separateness in the world to the unity behind it.

Idealism is an innate talent, and you are in love with grand gestures and long thoughts. Religion, politics and philosophy are natural. The world traveler. You enjoy fair, just, frank, and broad-minded persons. You are gregarious and sports-minded. You dare to dream big. You like new philosophies, long novels.

Neptune in Sagittarius

A born director and orchestrator of the moods and emotions of a group. A sharp sense of drama and a feeling for spiritual ideas and for art in general. Dreamy. Able to understand the public's mood and what is required to please. Could be deceptive.

Moon Trine Neptune

Great psychological talent. Able to sense and feel in the more abstract mental areas and to bring far-out ideas down to earth. Always at the leading edge of social understanding. Great sense of compassion and a real understanding of others.

Mercury Trine Neptune

Your more conservative tendencies tend to put a damper on your dreams and deep-seated ideals. You may tend to escape your responsibilities via friends and excursions, mental or otherwise, into the realms of imagination, films, poetry, and the like.

Saturn Opposition Neptune

You work with real imagination and understanding in areas of the mind that are the most personal or private -- depth psychology. You are like a midwife of the spirit, assisting at the birth of each individual going through a spiritual or re-birth process. You accept the natural process of birth, spiritual and physical, and have dedicated yourself to helping it along. You would make a great teacher in these areas.

Neptune Sextile Pluto

You are charming and always manage to enchant others with your words and manner. You bring a sense of the beyond and mystical to any conversation.

Neptune Trine Ascendant

Pluto: Inner Change and Growth

Pluto is the planet of profound change, starting deep within us and moving toward the surface. It often touches upon the most sensitive psychological areas inside us. Once touched, we have no choice but to change and grow. The most sensitive of experiences, the times of greatest vulnerability, are times of complete identification with an experience, a person, or a thing. We know in these instants that we are looking at our self, what we are. The most personal of experiences is one of complete identification with a person, moment, or idea. Perhaps this is only possible for most of us when we look into our child's eyes, and then only infrequently. Love is not the experience here, but total identification. This is very sensitive stuff. To touch upon this material is to go through deep inner change and transformation -- inner alchemy. Identification and experiencing that life is our own creation and that, in fact, you are I and I am you. This experience breaks us down and humbles. When we touch upon this experience, we cannot but die to what we have been thinking and doing up to now. It reduces us to our most sensitive because -- in a flash -- we see or remember that it all is us, our life.

You tend to be radical when it comes to self-analysis, which means health care, food, physical well-being, and so on. Serving and caring for yourself and others are primary sources of inner growth and changes. You are sensitive to criticism.

Pluto in Virgo

A born psychologist. Able to understand and handle a crowd and the public in general. Devoted to children and the idea of future changes. Not much given to a misuse of personal power. Always this sense of vision and purpose. Intense. The long haul.

Moon Sextile Pluto

You try hard to be clear-headed and stay away from gossip and a tendency to probe and analyze. However, your inner psychology and that of others (everything secret) challenges and fascinates you. This could be a lifelong friendship/confrontation.

Mercury Opposition Pluto

Persistent, intense, and serious. Getting at the heart or root of a situation. Great psychological insight into life problems. Perhaps aiding or counseling, helping others understand difficulties. Fiercely tenacious.

Saturn Trine Pluto

A searing vision that cuts through what passes for conventional religion. A vision of the endless process of life ever being born afresh. Great acceptance and faith in the natural process and next generation. Love of children and animals.

Neptune Sextile Pluto

You always manage to come across as intense and personal when communicating and presenting yourself to others. Others can be fascinated by the way you come on.

Challenges and Abilities

Focus

These are areas of life where we show intense focus and activity. For better or worse, these qualities stand out and are obvious to all those who come to know us. They are very clear parts of our character.

You enjoy life yourself and value gusto and enthusiasm in those around you. Feelings are something you express with ease, and you appreciate others doing the same. Emotional drama is valued rather than avoided. Your appetite for action is probably well known, and well noted. Sports, outdoor activities, and everything physical are high on your list of favorites. Sex is, no doubt, also important.

Venus Conjunction Mars 00°09'

You are never more at home than when entertaining and carrying on in front of a group. You wear your heart on your sleeve, and your emotional life is an open book for all to read. Others sense an interest in their welfare when they meet you.

Moon Conjunction Ascendant 00°52'

Challenges

Life can be challenging, and things are not always easy. The major challenges in a natal chart are where we can expect increased activity and personal involvement -- ready or not. These critical areas of life can be difficult, and the resulting confusion and possible obscuration often makes it hard for us to see and act with normal clarity. Therefore, when it comes to the following factors you may wish to exercise caution and extra patience.

Your sense of duty and the responsibilities you may have could cause you to ignore or forego some of your actual ideals, the things you have most dreamed of. A conservative streak sets you against anything that is not realistic, and you have no patience for pie-in-the-sky and things that are not tied down. Mysticism, psychic phenomena, and the imagination in general intrigue you, despite your convictions to the contrary. You could take a vacation from your responsibilities and explore some more imaginative regions.

Saturn Opposition Neptune 00°08'

Talents and Abilities

Despite whatever problems we may have, there are areas of life where we have clear insight and real talent -- natural ability. When it comes to these matters, our judgment is sharp and we always manage to take charge. We have the knack. It may be as simple as the ability to work

hard and accomplish things without something going wrong. An innate sense of the workings of these parts of life makes it easy for us to learn and accomplish things where they are concerned.

Your ability to discriminate real breakthroughs and to spot new trends makes you able to work in areas at the very fringe of technology. You love all that is new and different and are expert at sharing your feelings with others. Electronics, computers, communications (in fact, everything electrical) are right up your alley. Landscape: Major Life Periods

What follows amounts to a brief overview of the first thirty years or so of your life -- a road map of the years to come. Since childhood, adolescence, and early adult life are so crucial to each of us, an attempt has been made to describe these formative years. Based on the gradual movement of the planet Saturn, this is one of the most tested of all astrological techniques. It is used by almost every professional astrologer as part of any personal consultation. Provided that your time of birth is more or less accurate, you will find this information both accurate and informative. Here is a general life overview, followed by a close-up on your current changes -- what is happening right now. First the overview:

Your Personal Background

Your early years, until the age of 11-12, may not be very easy. You may be a more inward and insecure youngster than average. The early teens should see the end of this stage and the beginning of a much more outward and self-confident one. You will begin to sense your own strength and discover yourself at this time. What follows will be a time of learning and extending your position until around the age of 18-19, at which time you will really begin to come into your own, both in a social sense and where your career is concerned. The years from 18-26 will be very strong, during which you can do no wrong. You should rise rapidly to a position of success. After that, you will become more inward and turn away from the outer. A time for consolidation.

Your Current Situation

Now for a close-up of recent years: while landscape was quite general, the dates given in this close-up should be much more precise. Life is composed of sections of time, each devoted to one kind of activity or another. We go along for a while in one direction until something changes within (or outside) us and we head off in a new course. Some of our earlier activities dry up and new ones spring up in their place. What follows is an analysis of the time period in which you find yourself now. Don't look here for a day-to-day account of life but rather to get a picture of this stretch of time, "these years."

Mar 25, 1998 3rd Pass D> (Age 25 11m)

You are riding a high now in terms of taking advantage of the cycles in your life. This may well be a high-water mark; however, this is also the beginning of a series of years during which you should begin to consolidate and tie down the advances you have made in recent years. It may be best to begin to dig in and strengthen your current position rather than expand outward too much. You will find your mind beginning to turn away from the external (the material) and to be concerned with more inward and spiritual ideas. All of this will become clear over the next several years. This time marks a change of direction for you, away from the material and glitter, toward inner needs and security. You will find yourself more concerned with maintaining and strengthening your position, rather than pushing outward. In summary, a kind of high-water mark in the outward and social department. These years should be easy and filled with opportunities and friendships. Enjoy them. More demanding and inward years will be forthcoming a little further on down the road.

The Elements, Modalities and Angularity

Elements, modalities, and house quadrants. These are all techniques used by astrologers to gain a general picture of how a person measures up. How do your planets and houses total up? Which do you have in abundance, and which do you lack, if any? Those with high totals show what we can or must do in life. These are qualities we have. However, most people are more interested by what they lack or want -- their lowest totals. They tend to study their "wants," imitate, and even pretend to have them. The old adage is: we become what we want (or lack), while we do what we can (or have to do). Here are your totals:

There is an emphasis on communication, expression of ideas, and the connections between things, places, and people. What goes on in your mind is the all-important motivation in your life. You tend towards mental pursuits and admire intelligence.

Have Air

You may have trouble understanding those who seem emotional or sentimental, yet your own practicality and factuality may attract just such types into your life. You may try to balance your lack of intuitiveness with logic and common sense.

Want Water

Very communicative, flexible, mental, and other-oriented. Perhaps you can be all things to all people, giving them what they require. Probably a smooth talker with a quick wit and ready tongue.

Have Mutable

Not too centered, perhaps not always able to hang in there for the long haul. You might not make a good linebacker. You may tend to be all over the place rather than front and center.

Want Fixed

Circumstances can throw you into positions where you must use your mind and deal with communications, service, or enclosed hidden interests. You may deal with education, psychology, spiritual enlightenment or teaching principles and techniques.

Have Cadent

You could have difficulty getting outer recognition for your efforts or accomplishments. This doesn't mean they're worthless. It does mean you should throw your efforts into work or ventures you really love doing, not for others.

Your Burn Rate

We all change, but the question is: At what rate? Some of us tear through change after change, one phase following another, year after year, while others move at a more serene pace. Or, one area of our lives may be hectic and forever changing, while other areas are quite tranquil. Why do some people seem to live lifetimes within lifetimes? Here is an analysis of your particular rate of change or "burn rate," including the particular areas of your life (planets) where you can expect continued change and growth. Areas where there is a very low index of change (indicating clear and easy use of the qualities involved) will also be pointed out. If you have sometimes wondered about the areas of your life where the candles burn at both ends, here are the details.

You have a very high burn rate (index of change) and tend to run hot and fast. It is almost like having many lifetimes within this single one. Things are always fast and furious with you, and you seldom remain calm for long. Your thirst for experience and growth keeps you always on the move. You work through an enormous amount of change compared to an average person. In particular, the following qualities are areas where you have experienced and will continue to experience much change. These areas of life persist in presenting themselves to you, so you may already have become very experienced in them. On the other hand, they could be arenas in which you struggle but have not yet attained mastery.

A majority of planets in the FUTURE suggests that you tend to run ahead of the pack, taking changes and acting things out before they become accepted and a part of the status quo. Things happen to you that you come to understand over time.

Planets in High Focus

The mind, and all that is mental, will be the source of continued change and adjustment. Letters, writing, speaking, and all things having to do with communication and cognitive work assume great importance. Your mind tends to be engrossed with thoughts, ideas, and concepts

and remains in almost constant flux. Mental learning is an area of preoccupation.

Mercury

You will go through a lot of change regarding personal values -- your ability to appreciate, measure, and appraise things. You may find yourself preoccupied with possessions and the way you feel about them. All matters of value, valuing, and ownership will be the source of continuous learning. Issues of compassion, love, and care are areas that will require learning.

Venus

Questions of attitude, approaches to problem-solving, and the methods for handling authorities and the law are in high focus and are indicated by a high burn rate regarding your career and making your way through life. Perhaps you will have many jobs or be forever going through changes and adjustments that affect your career. It could be difficult finding lasting success or prosperity, and the path to it may be areas where you have real experience and particular expertise.

Patterns: Your Inner and Outer Self

Here we are examining your basic attitude or approach to life, what is called by some the archetype or soul-type. If you know something about your particular soul-type, this can provide valuable information as to the general direction and purpose of your life. In particular, it is important to note the difference, if any, between our outer personality (the way we appear to others) and our real inner self; how are we, in fact, as people get to know us? Not all people are as they seem.

You are not what you appear to be. Your personality, the way the world sees you, appears more independent and outgoing than is the case when people get to know you. An extroverted manner screens a more inward and quiet-seeking self. In other words, you are much more sensitive and concerned about what others think than meets the eye. Although your outer personality may look tough and self-centered, you are more sensitive to the needs and feelings of others than you let on. Whereas your appearance and personality may bring you unwanted attention, the real you prefers to stay out of the limelight. Appearances aside, let's take a look at the real or inner you.

Geo: Square Helio: Trine

Your Soul Type

You are the eternal patron of just about anyone who will let you look after them -- the original mother hen. You need to feel useful and wanted and are never happy unless you are active and involved. Always the host, you find yourself (in most situations) caring for and taking care of others. In fact, you may tend to worry about others -- making a good impression -- too much. Not content to let others judge you on appearance alone, you would rather be judged by

your actions, by what you have done or can do. You are most happy when you can do something for someone and aren't above keeping others in your debt. Your general sense of concern for everything makes you invaluable when anything needs doing and, if left unoccupied, you have been known to even worry for worry's sake. Given only a few facts, you are able to take in a situation and come up with a real picture of what is happening. Never happier than when fully engaged. You will tend to find yourself in responding to others. You can always put your ideas into words and describe or analyze situations for yourself and others. Chances are you will work in one of the many service occupations, taking care of and looking after people. You may feel empty or that there is not much to you, particularly in a group situation where you will not tend to be the center of attention or a great entertainer. Your mind and caring attitude are what others find attractive in you.

You are born to love and care for others and may tend to worry overmuch. Your fear of being left out or not being fully used up in this life can be alleviated by much hard work, by jumping in with both feet and putting your thoughts into action.

The Key to your Inner Life

Each person has one or more key qualities. Here we are not referring to our appearance or personality, but rather to our inner nature, how we are when someone really gets to know us.

At heart, you have a deep sense of responsibility and purpose, and this seriousness is genuine and felt by others. You seem to gravitate to those things which last and hold true, and are always separating the wheat from the chaff. You manage to get down to the bare bones. Matters of law, religion, and philosophy of the most resolute kind hold your interest.

Saturn

The Key to your Personality

Your personality hangs on your mind, mental activity, and the world of communication. This is the keystone that binds the rest of you together. Ideas, mental things, information exchange, and the interrelating of all these is central to your outer makeup. Communication is the interface that holds the rest of you together.

Mercury

The Personal Hot Spot

Your surroundings, circumstances, and support system are the crucial spot, key link, or what-have-you in the chain of your life. When things get hectic, it is in these areas that you can expect pressure and greatest activity.

Moon

Interface: Innermost qualities

This feature is based on an intricate analysis of the position of a particular planet in relation to the orbital planes of the other planets. The resulting series of crossings, or nodes, tells us something about the nature of our innermost inclinations (Inc) and disinclinations (Dis). These indicators are not to be considered at the level of our personality, but rather are deep-seated parts of our innermost character -- our internal biases. These pros and cons are not apt to change in the course of our lifetime.

You enjoy life yourself and value gusto and enthusiasm in those around you. Feelings are something you express with ease, and you appreciate others doing the same. Emotional drama is valued rather than avoided. Your appetite for action is probably well known, and well noted. Sports, outdoor activities, and everything physical are high on your list of favorites. Sex is, no doubt, also important.

Mars Inc Venus

Your tendency to compromise and settle for less than you dreamed can be a problem. Given the opportunity, you may choose the path of least resistance, willing to bypass some of the things you always wanted in favor of expediency. Career moves must be given special attention. Tension results when you ignore your own desires (the things you need and want) and take a course of action, job, career, or whatever that can never satisfy. Or worse, you may find yourself in a job that is compromising.

Jupiter Dis Neptune

You waste a lot of energy sailing into the wind and clashing against authority or reality for no good reason. You resent having to get serious, go to work, and take on responsibilities. Your efforts tend to lack the determination and organization necessary for real accomplishment. Very little can be accomplished without some sort of discipline and training, and you resist these like the devil. You avoid work.

Saturn Dis Mars

The rebel in you likes to ignore your dreams and ideals and just let come what may. You relish your freedom and independence and pursue it even at the expense of what you know you really want. You can take delight in ruining your own deep-rooted dreams. The romantic in you struggles against the frontier spirit that often moves you to action.

Major Transits Happening Now

Astrologers use the term "transits" to mean the positions of the major planets that are overhead (in the sky) right now and their relationship to our birth chart. Transits are very important indicators of the current situation in which we find ourselves. They can provide insight into what we are now going through. Here are the dates when the next major transits for the planets Jupiter, Saturn, Uranus, Neptune, and Pluto are exact in your chart. Some dates will have already passed and some are still to come. Remember, with these large planets transits don't just

happen on the day when they are exact. They cover a wide span of days, weeks, months, and sometimes years, depending on which planet is involved.

In general, transits of Jupiter take from several days to a week or two to complete, while those of Saturn take from two weeks to a month to play themselves out. With the outer planets, the period of activity is even longer: transits of Uranus take about two months, Neptune three or four months, and Pluto takes about a year. Uranus, Neptune, and Pluto move so slowly that the complete transit experience may take a year or two to complete itself. So be prepared to work with these situations.

House Activity and Emphasis

The twelve houses of the horoscope, particularly when they are occupied by a planet, provide a clue to areas of special activity and use. Here is an analysis of house activity based on planet emphasis:

First House: Appearance, Approach

The first house has to do with how we appear or the way we come across, thus our appearance and personality. This is the essential stuff that bubbles up in us spontaneously and that is obvious to others as our trademark or activity. It is what makes us each so personally different. This house rules our personal self and everything about us that draws a reaction from our surroundings or others.

First House

Leo energy is expressive, emotive, and concerned with awareness and a sense of pride and ownership. Here is always a sense of home base or confidence from which the aggressive and outgoing Leo energy operates. Often very artistic, and always theatrical and expressive, this sign is good for creativity and the arts. Warm and big-hearted, this sign belongs to love of animals, sports, children.

Leo

Second House: Possessions, Reactions

The second house is concerned with how we respond to or field whatever impulses or unique and personal qualities we manifest via our first house. This is how we hold or "have" things (possessions, material goods, money, and the like). The second house always refers to how we secure ourselves, the kind of response we get from life and those around us.

Second House

Leo energy is expressive, emotive, and concerned with awareness and a sense of pride and ownership. Here is always a sense of home base or confidence from which the aggressive and outgoing Leo energy operates. Often very artistic, and always theatrical and expressive, this sign is good for creativity and the arts. Warm and big-hearted, this sign belongs to love of animals, sports, children.

Leo

Third House: Inquiries, Communications

The third house is concerned with explorations, investigations, and inquiry and research of all kinds. It also rules connections, communications, wires, tubes -- anything that we can get through with our body, mind, voice, letters, what-have-you. It is here that we explore and search for the limits of our life, whatever we are working with at the moment. A very mental house, concerned with finding, furthering, peering, and all manner of questioning. Traditionally rules short journeys, siblings.

Third House

Virgo energy is analytical and precise, always separating what is worthwhile and worth supporting from that which is outmoded and of no further use. A mental sign, where thinking and examining are in high focus. Also, a different kind of mother, here an endless caring and

worrying (fussing) about just about everything. Always compassionate and responsive, Virgo energy is service-oriented above all, often thinking and caring more about what others are doing and thinking than for self.

Virgo

You have real insight when it comes to anything connected to research, study, and the world of ideas. Your independent mental approach to problem-solving and communication finds you coming up with connections that are new and different.

Uranus in Third House

A good detective or research person. You can't help but get past all that is superficial. A passion for inquiry, questioning and searching finds you always in pursuit of some piece of information... communicating, writing, speaking.

Pluto in Third House

Fourth House: Home, Family, Security

The fourth house is where we send down roots, find our limits, and generally secure ourselves. It is the end of any searching we might have done in the third house. Here we find or end our search, settle down, and manage to get in possession of the whole situation. This is our home and the base from which we can work, feel, and experience. This is the root of our experience, the core or thick of it.

Fourth House

Libra energy is always facilitating and responsive, assuming the appropriate reaction or response to any question or statement. What is sometimes seen as two-faced is only Libra's facility at responding to each in kind. This is certainly the social sign, par excellence. Impersonal and impartial, this sign doles out only what is demanded, never overdoing things.

Libra

Fifth House: Expression, Creativity

The fifth house has to do with awareness, emotion (to move out), and expression (to press out). Here there is always a growing sense of self-confidence and even a pride of ownership, since we begin to recognize and own our experience. We know that we have had or are having an experience. All forms of expression and offspring are connected to this house -- children, animals, creative expression, and so on. A sense of direction and ownership takes hold at this point in our experience.

Fifth House

Scorpio is the most famous sign. Intense, passionate, and very personal, Scorpio rushes past superficialities and right to the heart of any matter. A loyal friend but a fanatic foe, this sign does well in politics and all areas where someone who dares is rewarded. Often associated with sexual energy, perhaps due to its tendency to strip away veneer, laying bare anything that is there.

Scorpio

You have great creative imagination, perhaps a strong sense for the dramatic and the ability to express ideas of a mystical or other-worldly flavor. Entertaining children (and adults) with

enchanting stories and the like is indicated.

Neptune in Fifth House

Sixth House: Responsibility, Work, Health

The sixth house has to do with salvaging and preserving what is good and healthy in our experience. Here we separate the wheat from the chaff. We begin to care for ourselves and our experience and thus health, nutrition. The idea here is that we are able to analyze our experience and have thoughts about what is pure and what is not. The sixth house is an attempt to save the heart of an experience, one that already by that attempt is beginning to pass or not cohere.

Sixth House

Capricorn is the business energy of the zodiac, for it is the very opposite of the emotional Cancer. Given to clear-headedness and practical insight and vision, this sign always takes a distanced perspective, a cool appraisal. Logical and painstaking, Capricorns love hard work and earned results. Money and things in general are very important.

Capricorn

A career in one of the service or health occupations is possible, for you may find yourself automatically taking care of the needs of others. Your occupation involves health, food, and all attempts to restore, salvage, and make the best out of things.

Jupiter in Sixth House

Seventh House: Relationships, Other People

The seventh house is the house of partnerships, relationships, social life, and all that carries us beyond our personal self into an awareness of other people, community, and the like. This includes spiritual awakening and the discovery that we are more than just our personality. Here we begin to respond to our personal needs (and those of others) for the first time. We can see what is going on and are committed to it; thus, marriage and yoga, or union, is indicated in this house.

Seventh House

Aquarius, the sign of humanitarian goals and altruism. Always impartial and nonsectarian, Aquarian energy is communal (even global). The focus is on the goal, and the goal is always one that is for the many and not the few. Thus this sign is connected to far-seeing visions, world views, and group work of all kinds. This sign tends towards coolness, independence.

Aquarius

Eighth House: Business Savvy, Elimination

The eighth house, traditionally the house of death, is concerned with getting rid of excess parts of ourselves that we see we no longer need. Thus this house also covers initiation and any activities where we are transforming toward a more integral position, getting to the heart of things. The no-nonsense quality of the eighth house makes it good for business ventures since here we are stripping away the dross to reveal the truth or essence of the subject.

Eighth House

Aquarius, the sign of humanitarian goals and altruism. Always impartial and nonsectarian, Aquarian energy is communal (even global). The focus is on the goal, and the goal is always one that is for the many and not the few. Thus this sign is connected to far-seeing visions, world views, and group work of all kinds. This sign tends towards coolness, independence.

Aquarius

Ninth House: Religions, Philosophy, Ideas

The ninth house covers long journeys and religion (the longest journey of all). Here is what remains of the purification that takes place in the eighth house -- the seed, or essence, of an entire cycle of experience. Religion comes from a Latin word that means to bind back, and thus refers to all things that last or endure, such as the truth. Essential ideas, philosophy, and all that is the very heart of things belong here.

Ninth House

Pisces energy runs deep and toward the psychological -- whatever is beneath the surface. This sign is understanding, patient, and long-suffering. Pisces tend to absorb all the little barbs and digs coming from outside. They always have their mind on an inner goal, something more important. They are very forgiving and accepting -- giving of themselves for the sake of more important issues.

Pisces

Your mind and thoughts always gravitate to what is lasting, true, or of the essence. Philosophy and religion are subjects that often occupy you. Your ideas are always to the point and candid, never florid or superficial.

Tenth House: Practical Vision, Vocation

The 10th house is a house of practical vision and clairvoyance, for here we can see clearly what is. Reputation and career are often connected to this house, since the areas where we can see with greatest clarity are those we most often can put to use to make a living. In summary, this house is where we have real vision and can see to do and work. Planets transiting this house may provide moments of insight and clear-seeing as well.

Tenth House

Aries is the sign of the pioneer and leader. It is always impulsive, concentrated, and spontaneous. Act first and think about what you have done later. Rushing in where others fear to tread, the Aries energy is attention-getting. It always provokes a response from the surroundings, from others. There is something essential and instigative that starts or causes something else to happen -- a reaction or response.

Aries

You are very career-oriented, and your personal reputation and honor are of the utmost importance. You possess a natural sense of organization and practical insight and may excel at managing or supervising others..

Eleventh House: Dreams & Visions, Community

The 11th house has to do with putting our visions and dreams to work. We have been on the mountain and had a vision (10th house). Here we take our vows never to forget what we have seen and to work hard to make these dreams into reality. Thus this house has always been connected with altruistic and humanitarian goals and trying to set them in motion. It is the house of friends and community, because when we are powered by a real insight or vision we share with all -- irrespective of differences.

Eleventh House

Taurus manages to respond, possess, and "have" just about everything possible. This is a nurturing and fertile sign in that any seed or impulse is cradled, bringing forth growth and development. Taurus is the way we "have" things, how we possess and acquire things. There is something gentle, regular, steadfast, and determined about Taurus. Always accepting, mothering, providing a base for... a matrix or womb where growth takes place.

Twelfth House: Sacrifice, Psychology, Acceptance

The 12th house is about all that we go through in order to make our dreams into reality and manifest them in the world around us. It covers what we are willing to put up with, the sacrifices we will make in order to bring across what is really important. This is connected to prisons, institutions, betrayal, self-undoing, and the like, because it is here that we must choose to take some possible abuse for the sake of the message we are carrying, or blow it all away with a negative reaction.

Twelfth House

Cancer is the mother of the zodiac, always making a home, protecting and providing for others. A sensitive sign where feelings and real experience count more than cold logic. It doesn't get any more physical and emotional than here. This sign has a sense of substance, a home base or foundation. Cancer energy is always limiting, bringing us down to Earth, grounding our every thought in experience, in substance.

Cancer

Psychology -- in particular group work -- is one area that you can always look to for support and encouragement. You may find yourself counseling or ministering to others, helping them to understand and accept their lives.
