Horoscope of Birth

Your horoscope of birth is the blueprint of your personality and character as indicated by the position of the Sun, the Moon and the eight planets on the date of your birth. This section is devoted to each of these members of the solar system.

The planets are the antennae and arms of the horoscope, of which the body and soul are the Sun and Moon. No planet will ever cause you to act counter to the testimony of the Sun and Moon in their combined influence on you. Remember this when you proceed with the following readings. All planetary vibration must be considered in light of the basic solar-lunar readings, for these are your character, your basic nature, which the planets will help or hinder but cannot materially change.

According to the sign position of your Sun, one planet will be more important than the others and should probably be read first. Your Sun is in Taurus and your dominant planet is Venus. Not only the action of this ruling planet will be very important in your life, but also the attribute over which it rules. Thus Gemini, ruled by Mercury, lives a great deal in the senses; Libra, ruled by Venus, responds most readily to emotional stimuli; and so on. Study your ruler carefully.

Remember in all planetary readings that they work within the pattern of your solar-lunar nature; never against it. The synthesis of your horoscope from the following series of paragraphs to a working unit depends on your keeping this in mind, which will enable you to weld all the readings into a unified and significant whole.

Sun in Taurus and Moon in Gemini

Personal discontent will run away with you and make a muddle of your life if you don't learn to control your critical attitude toward other people. You think yourself loyal, devoted, persistent, and capable, but as a matter of fact, you have a tendency to fly, emotionally, from one thing to another and especially from one person (sweetheart, friend) to another. You start out a personal relationship all fire and love and devotion, and before you know it you're finding something the matter with the loved one. Like as not you think that he (or she) has become unworthy of the great love you have to offer, or you find some flaw in his (her) character, manner of speech, or brand of hair tonic (or lipstick).

You have an aggressive and adventurous spirit, and in both a figurative and geographic sense are likely to wander a good deal during your years on earth. Your emotional and business stability will develop directly in proportion to your intellectual training. Get as much schooling as you can, and if you can't get formal schooling, satisfy that curious mentality of yours with

facts and figures rather than with mere idle talk and speculation. Study will steady you down. You'll find yourself more contented, less restless, more constant in love, and more successful in business in proportion as you occupy your mind with some set course of study. Study by correspondence - learn how to play the piano or draw the plans for a bridge, in seventeen easy lessons - and you'll be surprised how everything straightens out as you give your mind something tangible and concrete to bite on. At the same time that you do this stay in one spot and don't allow yourself to gossip or listen to idle talk.

People are always coming to you with wild yarns about your friends, and you're impressionable and likely to be swayed, though at heart you are loyal. But what you are at heart doesn't make much difference if you don't put it into practice. Study, read, and if you don't create, get into some occupation that keeps your mind busy - secretarial or the like; salesmanship is good - this gives you a chance to express yourself with cash advantages.

You have ardent, impulsive, and disappointing love experiences.

Sun

The Sun indicates the appearance you will present before the world and the psychological bias which will dominate your actions. What you seem, and why, are told in the reading for your Sun. In many ways the Sun is the dominant force in your horoscope and in your life. Other influences, especially that of the Moon, may modify the Sun's influence, but nothing will cause you to depart very far from the basic solar pattern. For this reason a whole literature and a whole business have grown up around Sun-sign astrology; and many people exist who think there is nothing more to the horoscope than knowing what "sign you were born in" and what the Sun in that sign means. This is a mistake, as you will discover when you have read the influence of the other bodies. But throughout your reading, keep in mind always the basic influence of the Sun, and remember that all other influences must be interpreted in terms of it, especially in so far as other influences play a visible role in your life. You may think, dream, imagine, hope to be a thousand things, according to your Moon and your other planets, but the Sun is what you are, and to be your best self in terms of your Sun is to cause your energies to work along the path in which they will have maximum help from planetary vibrations.

Sun in Taurus

"I propose to fight it out on this line if it takes all Summer."

Ulysses S. Grant, born in Taurus, April 27, 1822.

"In all movements, we bring to the front as the leading question in each case, the property question."

*The Communist Manifesto of Karl Marx,
born in Taurus, May 5, 1818.*

"From each according to his abilities, to each according to his needs."

Karl Marx.

The singleness of purpose of the Taurean, his loyalty, his stick-to-it-iveness, spring from one source: his need for security. Self-preservation, the first law animating all assure in some degree, is the hub of the Taurean wheel of life; and the Taurean curls and dies within himself when security - emotional or material - is denied him. Not likely to be grasping, sure to be the embodiment of the idealist form of love, Taurus may himself, or herself, be quite unaware of inner motives, for self-analysis rarely important to this sign. Instincts are powerful and generally right - always right in so far as they serve the perhaps unarticulated motives of the Taurean, who, while not selfish in the ordinary material sense, sees to it that nothing interferes with the gratifying of his instinctual urge, self-preservation and its more abstracted form, self-fulfillment.

The Taurean will not interfere with you if you don't interfere with him in these essentials, but will fight like a bear at bay for his rights to these things. He is the easiest person to live with, if you are willing to live with him and not against him. Anyone who is going to get along with a Taurean must understand that to him or her cooperation doesn't mean doing things together; it means doing things peacefully, in a friendly manner, even if the things are done separately. This kind of cooperation annoys people who are less self-sufficient until they learn that the heart of the Taurean comes home to roost only if you don't try to coerce it, and will break itself against bars of any kind, even if the bars are put up by love itself.

The Taurean is so sure of his need for security that he resents any implication that he needs watching or holding; his instinct is to hold himself to what he needs and wants - and he can't by any force in the world be held to anything else. On the other hand, once he has polarized his instinct on an essential, he will cling to it with hands, teeth and toenails, and no one can tell him that it is unworthy, or wrong, or useless, or low. Once it is his, in that it satisfies his deepest needs, it is his forever, whether it be home, a man, a woman, ambition, love, money or anything. When the Taurean has determined in his deep and sometimes dark subconscious that his emotional or material security lies there, he goes there and stays there forever.

Following are the aspects to your Sun. In a general way, the trines and sextiles to your Sun make ease, contentment, happiness, luck; while squares and oppositions give you energy, drive, success, ambition. Conjunctions bring both energy and luck, and are translatable in terms of whether the Sun receives squares or trines, along with the conjunction. Similarly, squares and trines to the Sun together bring success through work and perseverance, and luck develops in proportion to the work done and the effort extended.

Sun Sextile Mars Orb: 09°42'

You have abundant physical vitality and little hesitancy in using it. You are always on the move. Your aims and purposes, being direct and clear and animated by a good physical equipment, carry you to success. You are forceful, hard-hitting, aggressive, knowing where you stand and where you are going. You wear out less energetic souls by the speed and continuous level of your activities, for you are seemingly tireless and can stand shoulder to shoulder with the strongest when it comes to matters of endurance. Since a good deal of the success of this world in material matters depends on physical vitality, you have an edge on competitors. You are an excellent leader not so much of thought as of action (unless Mercury is powerful) and frequently

choose the army or navy as your field of activity, where you speedily rise to authority; or business, where you won't long stay in a subordinate position. You overwhelm people, and they naturally give way to you.

Sun Trine Saturn Orb: 03°31'

You are lucky, coming of good stock and being born into a favorable environment. Elders have done a good deal for you, and no matter how poor your parents may have been or how rich, they have seen to it that responsibility was removed from you as much as possible and that the hardships of life did not touch you. You have a good sound body and mind. You are serious without being dejected or depressed, and are capable of concentrated effort. You enjoy a large element of luck. Doors open to you, opportunities come, or you create them. The tendency of this aspect is to smugness and self-satisfaction, pride and relaxation of ambition and energies, so that, despite a sound mind in a sound body, you don't seem to get very far. You enjoy high authority and influence - a judicial nature. This aspect is frequently found in horoscopes that show legacy or some circumstance that removes financial worry - and thus also removes the economic impetus to ambition.

Sun Square Uranus Orb: 04°30'

You've sown your wild oats - and how! Your intellectual development was a good deal in advance of your emotional development, and as a result you had ideas, notions, theories, of independence and of human relations which you put into practice, considerably to the despair of your elders. You're a liberal in every way, with advanced social, political, and personal ideas. Individualism is very important to you, and your own ego comes first. As you grow older this outlook broadens from the purely personal to the more general; you turn from egocentric to humanitarian, interested in large ideas, large groups of people, social problems in the large. With your Mercury sextile Venus, your mental outlook is very inclusive, developing out of a strictly selfish rut into a genuine feeling for humanity. This is one of the aspects of idealism but on its way to that state it goes through many ramifications. You have been dejected and depressed and discouraged; probably you've had your share of unconventional and erratic love affairs. You always tend to be something of a romantic; no matter how much you control, or how much you learn to translate the personal into the impersonal, an adventurous spirit keeps gnawing at you. This is the aspect of Ulysses, forever wandering the seas - even when he's sitting by his hearth with Penelope. This adventurous urge, leashed and controlled and directed by a sound mind such as is indicated by your Mercury sextile Venus, will produce works of art, for the creative urge is powerful, with a touch of inspirationalism. Translate your adventuresomeness to intellectual, rather than geographical or personal variety, and the world is at your feet.

In any case, you have a periodically explosive temper and must learn the lessons of cooperation both with the world in general and with individuals. You tend to think that you are right and all the rest of the world is crazy, which may be true but doesn't make much of a hit with the world.

Sun Square Pluto Orb: 09°15'

Power is important to you but, without introspection, this power is likely to be a "bluff," a show you put on to impress others. With introspection, you can use your clear perspective on your motivations to give a solid sense of purpose and determination to everything you do. Hidden resentments can trip up even your most well-intentioned actions, so self-knowledge is essential for success. Winning is important to you, so you could become a master of tricks and manipulation. The lesson is the proper application of power, so that success comes through the use of your magnetism and inner strength rather than through the use of dirty tricks. Try to be for things as intensely as you are against them.

Moon

While the Sun's position by sign determines what motives and urges dominate your life as it meets the naked eye, the sign position of the Moon tells the desire of your heart which may or may not be expressed or realized in your life. When you "know what you mean but you can't say it," it is your Moon that knows it and your Sun that can't say it. "Thoughts that do often lie too deep for tears" are the thoughts of your Moon's nature. The wordless ecstasy, the mute sorrow, the secret dream, the esoteric picture of yourself that you can't get across to the world, or which the world doesn't comprehend or value - these are the products of the Moon in your horoscope. When you are misunderstood, it is your Moon nature, expressed imperfectly through the Sun sign, that you feel is betrayed. When you know what you ought to do, but can't find the right way to do it, it is your Moon that knows and your Sun that refuses to react in harmony. Also, when you "don't know why I said that," it was your Moon expressing despite your Sun (if you are innerly satisfied with the involuntary speech), or the Sun expressing against the will of the Moon (if you are displeased with what has slipped out). Things you know without thought - intuitions, hunches, instincts - are the products of the Moon. Modes of expression that you feel are truly your deepest self belong to the Moon: art, letters, creative work of any kind; sometimes love; sometimes business. Whatever you feel is most deeply yourself, whether or not you are able to do anything about it in the outer world, is the product of your Moon and of the sign your Moon occupies at birth.

Moon in Gemini

Nothing ever loses any fat in the telling when you tell it, and the tales of your own prowess and ability that you tell yourself are tall indeed. The picture of yourself that pleases you best is that you are a great intellect to which the world listens gratefully. To be as intellectual as you would like to be is a big order and may take more application than you are willing to put in on it. Cleverness pleases you better than profundity. You would rather be funny than fair, exciting than stable, provocative than learned. Said George Bernard Shaw, with Moon in Gemini, "My method is to take the utmost trouble to find the right thing to say, and then to say it with the utmost levity." The great wit told the truth in the latter half of this statement, but it is much to be doubted if anyone with the Moon in Gemini ever took "the utmost trouble" over anything. You don't have to. What you want doesn't take trouble: if it did, you wouldn't want it, and you would find excellent, clever, sophisticated reasons why it would be silly to want it. You are a master of chop-logic, of making the worse appear the better cause, and of making yourself appear the best

cause in the world. Being articulate, loving to have your words applauded, you go to the limit of your capacity and will not stop going till you have extracted the maximum from life according to your tastes and your abilities. By spreading yourself thin, you cover a prodigious amount of ground, collect hosts of "friends" (whom another might think of as mere acquaintances), please yourself mightily and appear more dashing, popular and successful than many an honest soul who, with deep integrity, has dug consistently in one spot to strike more valuable, if less flashy, ore.

Your personality is charming, magnetic; you are clear-thinking, but you lack inner concentration drive and force.

Moon Sextile Uranus Orb: 07°01'

There are dash and vitality here, proceeding from an alert, quick mind, eager for knowledge, absorptive, and magnetic. You are able to see all sides of any question, from the other fellow's viewpoint as well as from your own; this makes you tolerant and intelligent, a good listener, a fair opponent in a detached intellectual encounter. You are capable of a good deal of mental objectivity; large ideas appeal to you, and you can think abstractly. Artistic and intellectual matters interest you, as well as social and political ideas and theories; but on these matters there is so much tolerance that you have difficulty making a firm stand for your opinions, and unless some other aspect shows decisiveness, this may be a debating-society position, under which things are talked out and mulled over and few decisions arrived at. Learn to see all sides, and then choose one and stick to it, and remember that too much tolerance and understanding of the other fellow's opinions amounts to having none of your own. You have advanced ideas, in theory, and may talk like a radical straight from Moscow; but you are little likely to put these into practice in your own life. This is one of the positions of the Parlor Pink, who talks a good revolution but doesn't get around to doing very much about it.

Moon Sextile Pluto Orb: 06°43'

Quality, not quantity, is the hallmark of your emotional make-up. You like having a few close friends rather than spreading your feelings and loyalties thinly over a wide variety of people. You are apt to be fair in your judgments of others, evaluating inner qualities rather than superficial traits. Warmth, loyalty and devotion mark your emotional reactions. You are protective of loved ones without smothering them.

Mercury

Mercury is the sense-impression antennae of your horoscope. His position by sign indicates your reactions to sights, sounds, odors, tastes and touch impressions, affording a key to the attitude you have toward the physical world around you. Mercury is the messenger through which your physical body and brain (the Sun) and your inner nature (the Moon) are kept in contact with the outer world, which will appear to you according to the index of Mercury's position by sign in the horoscope.

Mercury in Gemini

All the senses are keen and alert. The ability to react to shades of difference of light, color and sound makes you sensitive to beauty and needful of gratifying your senses with art (visual) and music (auditory). Too great awareness of everything that goes on around you tires your nerves, and you need solitude and dim lights once in a while to give your senses a vacation. You frequently give the impression of a hound snuffing the air to catch some scent in it - of having all your "feelers" out for whatever is going on. Your sense reactions are impersonal, detached and critical; you have likes and dislikes, but they don't elate or depress you. To you it is joyous to live in a world that continuously gives exercise to your senses; you know that a sight, sound or smell that you don't like isn't going to plague you forever - another that you like better will replace it; and even this, too will go its way and should not be mourned, because something else is tripping over heels to get into the limelight.

Mercury Sextile Venus Orb: 03°39'

Idealism is manifest, and also a leaning to the arts, either on the creative or the appreciative side. With your Sun square Uranus these tendencies may become creative activity. You may have friends among clever and intellectual people. You may marry someone from this group, for your affections are much bound up in your opinion of the loved one's mentality. You have a good deal of charm of manner, wit, and gayety to your speech, and probably have a very pleasant speaking (and perhaps also singing) voice. You don't shout even when you're angry, and you have a persuasive manner that wins people over. This is therefore good for salesmanship or the professions where personal contacts are of paramount importance.

Mercury Sextile Mars Orb: 07°10'

You have a facile quick mind, capable of grasping scientific facts and interested in them. But there's a good deal of a tendency to wasting your mental energies through lack of purpose, direction, and concentrative faculties. If other things show concentration, then this adds to the facility; if not, you'll have to fight against a tendency to skim the surface. A temptation to live by your wits is always present. If you hold yourself to a purpose your road to success is eased by quickness, perception, and ready grasp of details.

Mercury Trine Jupiter Orb: 06°07'

You have had a fine education, and a trained mind makes life easy. You are just, honorable, and somewhat proud of your mental achievements. You are anxious to impress people with your knowledge and very sure of yourself. This doesn't necessarily make you accurate and a tendency to elaborate tinges your giving out of information, though not in a way to make you untruthful. You philosophize a good deal, thinking in general rather than specific terms, and may be hard to pin down to details. You are judicial - this may accompany downright Puritanism and in any case contributes to the puritanical side of your nature. You incline to the professions, your mental bent being somewhat more philosophic and academic than the bent that normally leads to business. If by any chance you get into business, your ability to see things in the large will contribute to your advancement, and your integrity will be appreciated and rewarded. Keep your feet on the ground, for an inclination to go into generalities can destroy your business sense.

Mercury Sextile Uranus Orb: 08°38'

You are quick, inventive, and broad-minded and have advanced views and ideas which you are able to make practically workable and of which you are able to convince the world. You are very likely to be a leader of thought and opinion in whatever sphere of activity you move.

Mercury Square Pluto Orb: 07°37'

You tend to be dogmatic, stubbornly resisting change and other people's ideas. In your early years, you may have rebelled against the discipline of learning; now, you may consider yourself slow or stupid, when your only problems are a lack of openness to new ideas and a lack of concentration. Once you apply your mind to the subjects that are important to you, you can become a self-made person. You should think before you speak, since you can put people off with an unintentional brusqueness. Intentional sharpness or sarcasm when angry can lose you the support you've worked hard to gain. Be as sensitive to other people's feelings as you are to your own. One of the major lessons you must learn is how to accept constructive criticism.

Venus

Venus is the emotional antenna of your horoscope. Through Venus, impressions come to you from the outer world because of which you feel and react emotionally. The position of Venus by sign at the time of your birth gives the key to your attitude toward these emotional experiences. As Mercury is the messenger linking sense impressions (sight, smell, etc.) to the basic nature of your Sun and Moon, so Venus is the messenger linking emotional impressions.

Venus in Aries

Your reaction to emotional stimuli is highly personal. You will do anything for someone you love, and little for anyone or any group that has not won your personal affection. Love, sympathy, human kindness are all related to yourself; you are therefore not a great humanitarian, nor especially interested in group social problems. But you may be much interested in society - that is, social gatherings, social position, social graces. You are warm and even ardent when you feel you are loved, but can also be touchy with friends and easily offended. This is a somewhat narrowing position for Venus, and with it you should make a conscious effort to find sympathy and understanding for people whom you don't love and who never will love you. By universalizing the Venusian vibrations you broaden your whole nature, widen your interests and give greatest scope to your abundant emotional vitality, which benefits you in direct proportion to the number of individuals whose problems you are able to take to your heart.

Venus Sextile Jupiter Orb: 09°46'

You have a gentle nature, sensitive and anxious not to hurt people or to be hurt by them. There is danger of your being imposed on, either personally or financially, through your emotions and sympathies. You have a placid and harmonious emotional life and a degree of financial security. You have a somewhat matter-of-fact attitude toward love and will no doubt make a "good" marriage; you wouldn't be likely to marry beneath your station. This is not an

"all-for-love-and-the-world-well-lost" configuration, but one that achieves satisfaction in love without going far afield from the hereditary and socially set pattern. You love the nice things of life and one way or another will manage to have them around you. This aspect doesn't create much for good or evil in itself, but supports other tendencies. If there are not other aspects to Venus the indications here will be significant, but almost any other aspect will fundamentally absorb this one and submerge its influence.

Venus Trine Uranus Orb: 04°59'

You are magnetic and charming, attractive to the opposite sex, and mildly unconventional in regard to sex matters. You have a broad emotional viewpoint tending to the generally humane rather than to the strictly personal. Eccentric friends are helpful; you gather strange birds around you. You love to help the underdog. An active social nature brings you in contact with strong people and assists your advancement. This adds to the luck in life and suggests a marriage that is happy romantically and financially helpful at the same time. It is a mild aspect in itself and produces little but strengthens the good and mitigates the evil, as shown by the rest of the chart.

Mars

Mars is the energy principle in the horoscope. His position by sign indicates the channels into which energy will naturally flow, and the uses to which energy will most easily be directed. It is the planet through which the activities of the Sun and the desires of the Moon express in action - through which your body and your mind react to the sense impressions of Mercury and the emotional impressions of Venus.

Mars in Leo

Energy flows normally in self-centered channels, serving the main bent of your nature by insuring that you will always, as if by instinct, put your best foot forward. You have abundant animal magnetism and charm, and can "get away with murder": people take things from you that they'd be angry at another about, and you like to "make 'em take it and like it." You are probably easy to look at, and make the most of your natural graces. Your energies are the willing servant of your ego, enabling you to dramatize whatever life task you set yourself. Energy may or may not be abundant, but in any case you make the most of what you have: this is the position of someone who "dies with his boots on" and can always be counted on to do his duty, provided the duty is one that he can relate to his deep ego centers. This is not a genuinely unselfish position for Mars, though if the total personality requires unselfishness, the energies will work toward this end as readily as toward another. This position of Mars in itself tells little about the character or personality, except that whatever the ego demands, Mars will serve with stability and a good deal of self-dramatization.

Mars Opposite Jupiter Orb: 01°03'

You are a gambler and you gamble in large sums - no penny ante for you. But gambles are dangerous, and in the end you'll win less than you lose. In both financial and other matters you don't know when you've had enough. Enthusiasm and high vitality carry you optimistically

onward till your luck vanishes and you're back behind the starting line again. This makes you a partner to be looked out for in business matters for you'll ride a willing horse to death.... You have to learn moderation in all things. Control and direction of your energies and enthusiasms is what you chiefly need, for your capabilities and vision are great .

In a woman's horoscope this shows difficulties through men. Employers don't benefit you despite your capabilities, and men are likely as not to cause you losses or difficulties. If you are not extravagant yourself, then your men-folks are. Emotionally, this is a somewhat hectic position inclining to an extravagance and daring of emotions similar to the financial and business extravagance and daring.

Mars Opposite Saturn Orb: 06°12'

This is an aspect of bad judgment and of that peculiarly insidious form of bad judgment which for years may appear to be "getting away with it" until the accumulated flaws in your life topple over the structure of your existence. If you have this aspect in your chart you will do well to sit down right now and make a thorough analysis of your life, your position, and your security, to see whether you are not operating on a major fallacy - a fallacy concerning either your own capabilities or the nature of the world in which you are working. Somewhere along the line you are making a fundamental mistake in estimating your own capacity, or the extent of your security.

This aspect will give you some sort of an inferiority complex to bring you under the dominance of older people. In general it will retard your development, making you indecisive and too willing to take advice and guidance. You are likely to be imposed upon - with periodic and depressing bursts of rebellious temperament which serve to wear you out without accomplishing anything else. You struggle for a decision, letting things mill around in your mind for a long time indeterminately without really concentrating on the facts and figures; and finally, out of sheer impatience you jump to a conclusion which may not have any relationship with the facts or with your mullings. The dominance of others, early responsibilities, and a sort of nervous rebellion toward them cause you difficulty in orienting yourself to the world. None of these things, of course, is fated, and the difficulty may be overcome by the assumption of independence in youth; by a philosophic attitude toward obligations which cannot be avoided, and an accompanying determination not to be imposed upon, or by a strict course of self-analysis, to get at the roots of your indecision - if necessary, to change your environment and your occupation in order to rout out those factors which are psychologically distressing.

Finances will bear watching especially with respect to sudden losses due to bad judgment in business matters, and the emotional nature must be carefully guarded against the incursion of factors that make for psychic biases in human relations. In a woman's horoscope this usually means disagreement between husband and father, or husband and brother, or husband and sons - or all of them. You had to defy your father to get married at all, or throw off some obligation or tie which someone is trying to foist on you. Whether other factors do or do not exist, however, the Nemesis of erroneous judgment very temptingly presented, must be watched, and you must make every effort to analyze strictly what you do from a purely rational, logical, and unemotional viewpoint. Fortunes are made and lost, either by the native, or by someone who would have left it to him.

Mars Square Neptune Orb: 03°30'

This aspect accompanies spiritual thought and spiritual leadership and is found in the executives of the Church and of spiritual and occult organizations as well as occasionally among great military leaders who have an unusually magnetic personal hold over their men. It gives you a spiritual insight into the affairs of earth, and a practical viewpoint about ideas of heaven. You are conscious of the two worlds which are not separate entities to you but related and integrated parts of the same whole. Thus, in strong executive horoscopes, this spiritual-practical approach gives your personality the ring of authenticity and divine right. You speak "not as the Scribes and Pharisees, but as one having authority," and you somewhat overawe those who come in contact with you. Whatever possibilities your horoscope shows, this will lend subtle but powerful force to it and give you a grip on the minds and hearts of men that is invaluable.

Jupiter

Jupiter is the feeler you have out in the world for opportunity. Through it the chances of a lifetime are passed along for consideration according to the basic nature of Sun and Moon. Jupiter's sign position indicates the places in which you will look for opportunity, the uses to which you wish to put it, and the capacity you have to react to and profit by it. Jupiter is ordinarily, and erroneously, called the Planet of Luck. It is "luck" in so far as it is the index of opportunity; but your luck depends less on what comes to you (Jupiter) than on what you do with it (the total personality). Opportunity appeals to you along lines laid down by your Jupiter.

Jupiter in Aquarius

This position causes you to see opportunity in very broad social, artistic, political matters. If your aim gets broader than your capacities - and it may! - you can be a drifter with high principles and little to show for them. If your abilities are up to your aims, you go far, for then you will see opportunity in all manner of big public things, and the free flow of your energies in these directions will lead effortlessly to success. Nothing is too big for you to envision, and even if it's too big for you to tackle or master, you dare to think about it. Air castles can be your downfall; you have to strive continuously to find the practical if rough methods by which they may be constructed into houses of earth. You are capable of passing up financial chances if they interfere with your larger aims. You have to learn the value of security because this position doesn't give it to you. Your tendency is to see life through the wrong end of the opera glasses; realities recede in favor of other things, and a liberal dose of the earth is necessary somewhere else in the chart if this position is to contribute to success.

Jupiter Conjunct Saturn Orb: 07°14'

This aspect occurs about every nineteen years, lasts for a considerable period, and thus affects large numbers of people born during these times. In general, it indicates a period of law and order, and people born under it are pillars of society, quietly and nobly ambitious to succeed, but willing to do so only in orthodox and utterly honorable fashion. If you have this aspect you are conventional, orderly, proud, aspiring, with a quiet dignity about you that impresses your

friends. In whatever sphere you may be you are supported and made prosperous and secure to some extent. You are eager for recognition but hate notoriety, so your recognition when it comes will rest on secure foundations. You have a swifter rise, more aggressive nature, and less certain tenure of public approval. This position is somewhat late in bringing its benefits, generally not being felt until after the thirtieth year, except in setting the mold of your personality and your ambitions; but after this it works steadily on your side, Positions of influence are most likely - government, army, ministry, the law. You may be an author, leaving your imprint on literature for generations.

Jupiter Square Neptune Orb: 02°27'

You are a good deal of a visionary, idealistic in matters of philosophy and religion, with a kind of nebulous and unsound approach to abstract matters. You are capable of believing in things that never were on land or sea. A strata of mysticism underlies your thinking, a mist of unreality gets between your eyes and the outer world. Concrete evidence should be your constant aim, and you should forget the Pauline definition of faith as "the evidence of things unseen," for you are all too prone to believe and must cultivate skepticism. In material and personal matters this makes you pretty gullible, and, unless other indications show a marked degree of suspicion and shrewdness, this will get you into trouble and cause losses. Even with the most practical of indications you will have periodic fits of playing hunches or inspirations that will be costly. Stay away from seances, spiritualism, abstract philosophy, and religion, and pin your thinking, your emotions, and your business strictly down to earth.

Saturn

Saturn indicates the direction that will be taken in life by the self-preservative principle which, in its highest manifestation, ceases to be purely defensive and becomes ambitious and aspirational. Your defense, or attack, against the world is shown by the sign position of Saturn in the horoscope of birth.

Saturn in Capricorn

This position requires success in the materialistic, financial or fame sense of the word, and will not long be satisfied with unrecognized worth. Some subtlety attaches to your mentality; you may work long and hard for little pay and little acclaim, but your aim is to get more, and you never forget it. In this way, you are hardheaded, if not hardhearted, and can very well be both. Your deep ego urge is to defend yourself against the world by conquering it and by forcing it to recognize you; and since this urge is deeply ingrained in the subconscious and demands recognition, you are never likely to lose sight of it. This leads to heights of success or to embittered failure if it operates in its simple form. Your aim should be to become less materialistic, to discover wells of power within yourself. You can have no control over the world till you have control over yourself; and in gaining this essential to your success, you should discover also that "your mind to you a kingdom is" in which it is as gratifying to rule as in any temporal empire. It is possible for you to learn that there are all kinds of power over the world, and that wealth and fame are not the only ways of achieving it. There is the sense of power you get from giving, from serving, from helping. To transmute the power urge from its primitive,

materialistic, strong arm form to its more esoteric and refined uses is to insure that your powerful subconscious drive to success shall be vindicated along the most civilized lines, which are in the end most gratifying.

Saturn Square Neptune Orb: 09°42'

Ambition has a way of going to sleep on you. A sense of your own power works subtly inward giving you a peculiar brand of good opinion of yourself, which likely as not you don't get around to doing anything about. A sort of mystic faith in your own worth pervades your thinking - you know you could do it if you wanted to, but you have to fight to want to. This will prop self-confidence if other things show aggression, but it will forestall accomplishment if you do not integrate your purposes and translate them by will power and a set goal, into action.

Uranus

Uranus in a general way relates to the neuro-mentality, creative originality or individuality, and his position by sign in the horoscope tells the direction along which you will seek to express your most characteristic self in creative and original effort. With Uranus in the same sign with Mars, Uranus indicates high speed activity, love of swift motion and perhaps of danger.

Uranus in Leo

This position represents an extraordinary confidence in the dramatization of the total personality. Because of Uranus' position in the self-conscious and dramatic Leo, you are impressionable to the prowess of great people. A kind of hero worship is natural to you; and the individualistic creative expression which will suit you best is the sort which will allow you to stand in the limelight and hear applause for your originality, your daring, your cleverness, your genius. The aim of your mental, creative originality is recognition, acclaim, applause, and you exert your deepest originality in its most characteristic form and to its best advantage when this goal is in sight.

Neptune

Neptune relates to the deepest wells of the subconscious, inherited mentality and spirituality, indicating what you take deeply for granted in life.

Neptune in Scorpio

The people and nations of the world are aware of the awesome, death-dealing possibilities of nuclear war. Atomic-powered submarines in the depths of the seas play their role in the struggle for power. Those born under this influence want to plumb the secrets of the Universe. The mystery of life and death is theirs to fathom. They are enthralled by occult studies, chemistry, invention. Neptune in this position intensifies the emotional nature. There is a tendency to be secretive and mystical. Gain through inheritance is possible, as well as financial ties with others; partnership, and marriage. There is a great possibility of possessing marked extra-sensory perception. Caution must be exercised regarding drugs and strong beverages, and dabbling in spiritualism. The sex instincts must be channeled in the right direction since the craving for

sensation is very strong. You have recuperative powers and a desire for reforms.

Neptune Sextile Pluto Orb: 03°58'

The ideas that were instilled in you by your parents, church and society will undergo changes throughout your life until your religious and philosophical views are distinctly your own. This type of creative adaptability makes you able to forgo selfish concerns and direct your efforts toward the betterment of all. Artistic and/or psychic talents are possible.

Pluto

Pluto relates to the ability to let go of things, to get rid of irrelevant prejudices and outdated habit patterns. It relates to subconscious feelings, inner urges and repressed emotions. A strong Pluto gives the ability to see the hidden side of life, and thus bestows power on the native - power which can be used for good or ill.

Pluto in Virgo

Your ability to bring order out of chaos is your strongest talent, and it allows you to find ultimate meaning in conditions and ideas which others consider hopeless. Your approach is initially intellectual - your curiosity spurs you on to gain as much knowledge as possible - but your main concern is the application of this knowledge. Ideas have value only insofar as they can be used to improve the quality of life. Your forte is the development of a concept, its practical application and its assimilation into everyday affairs.

Current Transits

The current transits are calculated exactly for the date shown. Lewi wrote text only for the aspects that he considered to be the most significant and only those are shown in this report. The dates shown only represent the times when the aspect is exact; its influence is felt for weeks, months, and sometimes even years around this time. A planet will often make the same aspect several times in one year before it leaves that area of the zodiac and moves on. This is due to the planet appearing to go backward or retrograde for a period of time and crossing and recrossing the aspect point. When this happens the effect of the aspect can be spread out over a considerable time and in this report the aspect and text will be printed for each time it becomes exact, although this series of aspects represents only one pass through this phase of its cycle. Remember that each transiting aspect is part of its over-all cycle and indicates a change of direction as well as an event. The cycle for a planet is the time it takes that planet to travel the entire 360° of the zodiac, beginning at the point where the planet is found at birth (the conjunction point), moving to the 90° point which Lewi calls the "lower square", then moving to the opposition or 180° point. Then it begins to move back towards the starting point, at the 270° point, or 90° away from the starting point, the planet is at its "upper square", and then it returns to the conjunction point where a new cycle is begun. Lewi will occasionally refer to these points in his text by name. In general all transits, whether of a planet to its own place or of one planet to another, mark cycles of growth beginning at the conjunction point, growing through the first square, fully grown at the opposition point, beginning to recede at the second or upper square, and finally starting a new cycle as it reaches the conjunction point again.

How long any aspect will be in effect is determined by the speed of the planet making the aspect (the first planet, i.e. Mars in Mars Opposite Sun). One Mars cycle is about two or two and one-half years and so a Mars aspect will last about 20 to 30 days. Jupiter takes about 12 years for its cycle and so its aspects could last around 4 months, while Saturn with a 29 year cycle will last 9 months or even more if it turns retrograde. Uranus, Neptune, and Pluto are all long range aspects and usually represent a time of 2 or more years. While Saturn and the outer planets indicate long range influences in your life, Mars aspects will identify important months and Jupiter will identify important years. Not every occurrence of these will be of striking importance. But within a larger Saturn cycle or Uranus period of great importance, these briefer influences will be found to act as the second or minute hand of the clock of destiny, as Saturn, or Uranus, or both, act as the hour hand.

Mar 10, 2002 - Mars Square Mars

This transit indicates a period of hard work and abundant energies, which causes no trouble unless major disruptive influences are in force. There is a slight tendency to talk too much, boast

and be arrogant, but the swiftness of the pace generally carries you through without major trouble. Look ahead, work toward and plan for some major development to take place coincident with the conjunction of the transiting Mars with your birth Mars which will occur around Jul 22, 2002. Frequently this transit marks the busy start of something that matures at the next Mars conjunction to Mars and should be viewed with that in mind. Protect health and nerves from excess; be objective and detached; and let reason rule the emotions.

Mar 11, 2002 - Mars Square Jupiter

This will generally not amount to much, but periods of loss through risks or gambles or through over-enthusiasm or bad business judgment are frequently marked by it. The outlook is too enthusiastic to let sober reason dominate; but this generally brings nothing but minor extravagance. This transit might mark some major material setback due to a combination of bad judgment and bad luck.

Mar 11, 2002 - Uranus Square Sun

Expect a sudden shift in your worldly status. A change of job has far reaching results, perhaps setting you to work at something new and different. Under best conditions the new occupation will be more in line with your true aims and desires than what you leave behind. A sudden event, looking like a setback, turns out well - "every knock is a boost." By making the most of fast developing opportunity, and by taking this chance to stress what you really want in the world, you are able to better yourself. You garner the fruits of creative work, of ideas held and ideals adhered to in the past, and may be able to shake off a lot of drudgery as a result. Temperament works for you instead of against you, especially if you are self controlled. If you aren't, self-indulgence makes trouble here and denies the best results of this transit.

Apr 1, 2002 - Mars Square Uranus

This transit is not usually important except as a marker of temperament and minor strife. But at one of these periods some major break due to temperament - some sudden shift in the pace and direction of the life - is likely to occur. The individuality is suddenly awakened to broader horizons, greater worlds to conquer, and determined to shake off the shackles of restraint. In undisciplined persons this will mark periodic temperament, rages, rebellion and strife; also accidents and setbacks due to lack of nervous coordination. In normally disciplined individuals all but one or two of these periods should be comparatively inconspicuous. But the one or two may be memorable and probably nothing to be proud of.

Apr 8, 2002 - Mars Conjunct Sun

The new starts of your Mars conjunct Mars are helped greatly with this aspect; your energies work smoothly, starting with this aspect and gaining momentum as Mars conjunct Mars on Jul 22, 2002 is reached.

Your danger at this time is temperament, temper, a tendency to feel your own importance too strongly and to get into trouble because of it. Also, unless you have the endurance of an ox, you will tire yourself as Mars transits your Sun, and fatigue is likely to lead to strife, breaks and separations. Translate your energies to work, activity, detached application to a job or task; and

don't get touchy or allow personal reactions to interfere with efficiency. This can be a romantic period; your magnetism is high, and you are likely to get what you want if you moderate your demands and use more persuasion and less insistence than you want to. Intuitions can go wrong, and you need the balance of strict mental discipline to bring out the best of your energies. However, it is an excellent time to go after what you want, and marks periods of important decisions and moves.

Apr 21, 2002 - Mars Square Pluto

This transit represents a strong alliance of similar energies. A sense of mystery pervades otherwise mundane events. Agressiveness peaks. Care should be taken to secure your holding, protect your possessions and yourself, for this transit includes some vulnerability to the principle of redistribution. You might be knocked off your throne for no apparent reason. You could emerge from this period thinking the universe is a quixotic, capricious place, or you could take events as keynotes of respect for structure and self-care.

Sexual energy will be high. You could find yourself surrounded by irresistible people, and the tendency is to think that the veil between you and them is much thinner than it really is. Take time to treat people respectfully. Take this opportunity to de-objectify your world view and adopt a more service-oriented demeanor. Depending on how successfully you have mastered life's trials, this could be a time of "icing on the cake". Just make sure the recipients of your "death blows" are the nasty loitering ghosts in your own psyche, not the people on the street whom these ghosts resemble.

Apr 28, 2002 - Saturn Conjunct Mercury

Mental activity is deepened and stimulated. You take life and yourself very seriously. A philosophic attitude results, more or less profound according to your own nature. This is an excellent period for study and hard mental work, especially in science or business routine. Creative effort can be made to go well if you are thoroughly disciplined and depend less on inspiration than on perspiration. Finances are somewhat restricted; there is a chance to get things in line through self-discipline and budgets. You gain through steady routine effort and the promotion of efficiency.

May 3, 2002 - Mars Conjunct Mercury

Sharp wits help if you use them right, hinder if you get smart-alecky with them. Snap judgments, quick speech, sharp retorts and anger make trouble. On the other hand, keen perceptions give you the edge on others; you express yourself readily and to good effect if you keep emotions and personalities out. Sensory perceptions and powers of observation are increased. Creative powers mount; rapidity of mental processes enables you to do more than usual. Mental fatigue can result; budget time for relaxation and sleep. Any tendency to insomnia is emphasized; also to temperament, temper and self-will. This is a good time to sell, bad time to buy. Business is active, judgment shrewd. Sign no papers, don't commit yourself permanently; the picture changes too rapidly. Avoid strife, especially over trifles. Distrust intuitions; put deep trust in hard work and pure reason.

May 26, 2002 - Mars Conjunct Moon

The urge to express yourself induces you to express your most temperamental self. In emotional people this marks, as it recurs every two years, some tension and inner turmoil directly related to the inner self that they are trying to express in the world. It leads to strife, unconventionality, inner discord which transfers itself to the outer world. It is an excellent time for a vacation or for lying low and forcing no issues. Frequently the transit marks ill health for yourself or your mate. The worst of the ego nature comes out; all the complexes and suppressed desires rush to the surface and need to be put back in their place. The best result of this transit is awakened and increased self-knowledge. One of these periods in the life check-up will frequently mark a major emotional experience that you have never forgotten. The inner nature is brought rudely into contact with realities, and false notions are stripped away, frequently with great personal upheaval.

Jun 23, 2002 - Mars Square Venus

Social and romantic glamour leads to excesses, sometimes to strife, quarrels, separations. Minor loves and friendships break up, but important relations are merely strained; and indeed this frequently adds glamour to a deep love, intensifying its beauty. A break here, unless contributed to by some more important transit, is a sure index that the feeling wasn't very deep or important anyway. Avoid excess spending and stay away from temptation if you're interested in sticking to the conventions.

Jul 23, 2002 - Mars Conjunct Mars

This is a period when new starts should be made, new plans put into execution, new ideas promoted. Energies work along their most characteristic line and can be utilized to excellent advantage. Control natural impulses if you have any that get you into trouble, because now is the time when you are "being yourself" and it is your business to be your best self, not your worst. You are starting a two year cycle and should establish the line you want to continue on for the next twenty four months. Seek new contacts, new avenues of self-expression, new channels into which to direct talents and energies. Beware lest anger and temper - letting go because you're feeling your oats - interfere with your best development. In your life check-up you will find that these recurrent two year periods marked with great consistency periods of important decisions, developments, activity and changes.

Jul 24, 2002 - Mars Opposite Jupiter

This will generally not amount to much, but periods of loss through risks or gambles or through over-enthusiasm or bad business judgment are frequently marked by it. The outlook is too enthusiastic to let sober reason dominate; but this generally brings nothing but minor extravagance. This transit might mark some major material setback due to a combination of bad judgment and bad luck.

Aug 16, 2002 - Mars Conjunct Uranus

Expect temperament, haste and anxiety. Your nerves require watching. These problems can lead to illness from fatigue and nervous exhaustion. You risk accidents (literal and figurative!)

from excess speed and lack of care over details. Watch temperament. Accidents in the realm of human relations result from overemphasizing the ego and minimizing the other fellow's viewpoint. Inventiveness abounds; originality is in the saddle; but you can't get your best and truest ideas over to any good advantage, and simply make trouble if you "try too hard." Store them up for a later time when you express them better and when other people listen to you more readily. Look out for machinery, travel, electricity; avoid danger, be careful getting on and off trains and crossing streets.

Aug 23, 2002 - Mars Square Sun

Domestic matters are important. This transit frequently times a move from one house (or town or locality) to another, or some important decision in the private life. New starts work out if well considered and unmotivated by temperament. Social activity is increased; you have lots of friends around you. This is a good time to begin new ventures for quick completion, ventures which have a bearing on your longer-range plans. This is a good time to clean house, redecorate, etc. The home is likely to be upset, and it's wise to make the upsetting literal and to some good purpose, instead of figurative and quarrelsome.

Aug 29, 2002 - Jupiter Conjunction Mars

This combination increases opportunity and self-confidence and contributes to business success, popularity, earning power; but holds the danger of arrogance and personal excesses. There is a strong tendency to waste energy and to ride roughshod over obstacles and opportunity alike. You show little inclination to compromise with reality, and waste time looking for the ideal job, mate, friend, etc., while excellent contacts are passed up because not exactly in line with what you think you require. Self-will makes trouble and incurs losses. The great-I-am in you is dominant. This is a period of swift movement and considerable ego. You have a chance for success through ability to do things on the fly - or through sufficient self-discipline to slow down when a real opportunity comes your way. Self-indulgence dissipates benefits and is the chief thing to watch out for.

Sep 3, 2002 - Uranus Square Sun

Expect a sudden shift in your worldly status. A change of job has far reaching results, perhaps setting you to work at something new and different. Under best conditions the new occupation will be more in line with your true aims and desires than what you leave behind. A sudden event, looking like a setback, turns out well - "every knock is a boost." By making the most of fast developing opportunity, and by taking this chance to stress what you really want in the world, you are able to better yourself. You garner the fruits of creative work, of ideas held and ideals adhered to in the past, and may be able to shake off a lot of drudgery as a result. Temperament works for you instead of against you, especially if you are self controlled. If you aren't, self-indulgence makes trouble here and denies the best results of this transit.

Sep 3, 2002 - Jupiter Opposite Jupiter

This aspect occurs six years before and after the conjunction and marks a turning point in your career, when things begun then take a new twist and plans are revised accordingly. There

can be a minor peak of accomplishment in which you finally receive the encouragement to continue the line you have been following. Changes in pace and direction should be adopted only after sober thought, for what happens here is of more far-reaching significance than you are likely to realize at the moment. This influence of itself seems innocent enough, but really marks a period that you will later look back on as having indicated the course of your life for a long time to come.

Sep 7, 2002 - Mars Conjunct Pluto

This transit represents a strong alliance of similar energies. A sense of mystery pervades otherwise mundane events. Agressiveness peaks. Care should be taken to secure your holding, protect your possessions and yourself, for this transit includes some vulnerability to the principle of redistribution. You might be knocked off your throne for no apparent reason. You could emerge from this period thinking the universe is a quixotic, capricious place, or you could take events as keynotes of respect for structure and self-care.

Sexual energy will be high. You could find yourself surrounded by irresistible people, and the tendency is to think that the veil between you and them is much thinner than it really is. Depending on how successfully you have mastered life's trials, this could be a time of "icing on the cake". Just make sure the recipients of your "death blows" are the nasty loitering ghosts in your own psyche, not the people on the street whom these ghosts resemble.

Sep 19, 2002 - Mars Square Mercury

Quick speech, thought and actions make strife and trouble. Be silent, cagey, noncommittal. The quick retort makes trouble. Wrong decisions often come in one of these periods, which recur about every six months and need careful watching. Sometimes the most casual remark results in a lasting grudge. Mountains (of trouble) grow out of molehills (of speech). It is best to be silent.

Sep 24, 2002 - Saturn Conjunct Moon

In this period you are highly sensitive to circumstances, and plenty goes on to make you sensitive. Your concept of yourself is assailed by events and by other people; and you are forced to see yourself, not as you fondly imagine yourself to be, but as you appear; when stripped of your defenses, you stand amid the rush and turmoil of things. The result is likely to be at first elating, then depressing, as your private, inner notions of yourself are one by one torn away. It is not a kind or easy period. Much of what comes to you seems unjust and ill deserved. Perhaps you think yourself misunderstood. In a sense you are misunderstood; or, to put it another way, you find, perhaps suddenly, that you are unable to project yourself as you want to. A wide gulf exists between intention and performance - between what you believe you are doing and what you actually accomplish. The result is frustration and bafflement. Yet through it all you learn deeply that, to appear as you wish to, you must take into account more than your own ideas of yourself. You must take into account the ways of the world, which may not be your ways, but which you must interpret so that, through their channels, the self you like best may truly express itself for all to see. You struggle here for comprehension, for the seal of external approval on the personality

you think most truly your own; and in the disappointment and frustration you learn how to accomplish this, if not in the present, at least more satisfyingly in the future. This period is frequently accompanied by, or followed by, some physical or nervous trouble, probably resulting from a psychic factor, as the physical body reflects the dissatisfaction of the mind and spirit. Be suspicious of your ailments: there's a good chance that they are methods of getting sympathy which you fall back on when all other efforts fail to get it. This is not necessarily true, for genuine illness can come at this time and often does. Seek medical advice if you feel the need, but be ready to take the doctor's word for it if he tells you there's nothing the matter that you can't cure by yourself.

Oct 13, 2002 - Mars Square Moon

Fatigue leads to strife, so relax. There may be illness and you may lose your grip on things. Refuse to take yourself too seriously. Go to bed and rest instead of brooding; you'll avoid strife and trouble thereby. Force no issues. Energy may find its expression in some glamorous romance which may or may not be important, depending on other long-range transits in force at the same time with this.

Oct 28, 2002 - Saturn Conjunct Moon

Nov 11, 2002 - Mars Opposite Venus

Heightened emotions make romance, which is favored if you keep it within the bounds of

reason and convention. Impulsive acts, with or without a future, are frequently found in these recurrent periods. Glamour surrounds your approach to life; you are susceptible to the opposite sex and they to you. This transit frequently indicates the time of marriage within the period of a longer transit that favors it. If the era of romance is past, this indicates an active and on the whole satisfactory social period; business progress; extravagance with money; a sudden urge to go places and do things - and perhaps a chafing at the marital bit which should not be taken too seriously. Energies work through emotions and passions, which in turn work overtime and should be gently disciplined though not entirely submerged. Often, for obvious reasons, this transit indicates the conception of children, especially if it occurs while Mars is conjunct your sun or conjunct your Mars.

Dec 10, 2002 - Mars Square Mars

This transit indicates a period of hard work and abundant energies, which causes no trouble unless major disruptive influences are in force. There is a slight tendency to talk too much, boast and be arrogant, but the swiftness of the pace generally carries you through without major trouble. You should not let distractions interfere with plans you started when Mars was conjunct Mars on Jul 22, 2002. Protect health and nerves from excess; be objective and detached; and let reason rule the emotions.

Dec 12, 2002 - Mars Square Jupiter

This will generally not amount to much, but periods of loss through risks or gambles or through over-enthusiasm or bad business judgment are frequently marked by it. The outlook is too enthusiastic to let sober reason dominate; but this generally brings nothing but minor extravagance. This transit might mark some major material setback due to a combination of bad judgment and bad luck.

Dec 16, 2002 - Mars Conjunct Neptune

Super intuition gives you uncanny insight into motives and methods of other people, but not always into your own. Practice self-analysis. You swiftly feel your creative power, of which you can make good use. Beware sensationalism, sentimentality, self-indulgence; fight subconscious urges, suppressed desires, and make your inner ego work for you along constructive lines. This is an excellent period for creative work, for impersonal use of magnetism for business ends and aims and for social popularity. You have glamour that attracts others: be sure it attracts the right kind of people and for the right reasons. The Old Adam rears his head and may require discipline.

Jan 1, 2003 - Uranus Square Sun

Expect a sudden shift in your worldly status. A change of job has far reaching results, perhaps setting you to work at something new and different. Under best conditions the new occupation will be more in line with your true aims and desires than what you leave behind. A sudden event, looking like a setback, turns out well - "every knock is a boost." By making the most of fast developing opportunity, and by taking this chance to stress what you really want in the world, you are able to better yourself. Jan 4, 2003 - Mars Square Uranus

This transit is not usually important except as a marker of temperament and minor strife. But at one of these periods some major break due to temperament - some sudden shift in the pace and direction of the life - is likely to occur. The individuality is suddenly awakened to broader horizons, greater worlds to conquer, and determined to shake off the shackles of restraint. In undisciplined persons this will mark periodic temperament, rages, rebellion and strife; also accidents and setbacks due to lack of nervous coordination. In normally disciplined individuals all but one or two of these periods should be comparatively inconspicuous. But the one or two may be memorable and probably nothing to be proud of.

Jan 11, 2003 - Mars Opposite Sun

This transit is likely to mark periods of quarrels, strife, disagreements, difficulty in getting along with people. It is therefore a good time to lie low and be silent; to observe and do your duty without argument or fuss. Conserve strength: there is a tendency to go to extremes. Adventurousness and romance run riot and kick up a lot of trouble. New contacts are exciting but not necessarily of any permanent worth. If other transits indicate a generally good period, increased energy here can bring good results; under negative transits you should lie as low as possible and avoid getting into trouble. There may be accidents or illness.

Jan 25, 2003 - Mars Square Pluto

This transit represents a strong alliance of similar energies. A sense of mystery pervades otherwise mundane events. Agressiveness peaks. Care should be taken to secure your holding, protect your possessions and yourself, for this transit includes some vulnerability to the principle of redistribution. You might be knocked off your throne for no apparent reason. You could emerge from this period thinking the universe is a quixotic, capricious place, or you could take events as keynotes of respect for structure and self-care.

Sexual energy will be high. You could find yourself surrounded by irresistible people, and the tendency is to think that the veil between you and them is much thinner than it really is. Take time to treat people respectfully. Take this opportunity to de-objectify your world view and adopt a more service-oriented demeanor. Depending on how successfully you have mastered life's trials, this could be a time of "icing on the cake". Just make sure the recipients of your "death blows" are the nasty loitering ghosts in your own psyche, not the people on the street whom these ghosts resemble.

Quick speech, thought and actions make strife and trouble. Be silent, cagey, noncommittal. The quick retort makes trouble. Wrong decisions often come in one of these periods, which recur about every six months and need careful watching. Sometimes the most casual remark results in a lasting grudge. Mountains (of trouble) grow out of molehills (of speech). It is best to be silent.

Fatigue leads to strife, so relax. There may be illness and you may lose your grip on things. Refuse to take yourself too seriously. Go to bed and rest instead of brooding; you'll avoid strife and trouble thereby. Force no issues. Energy may find its expression in some glamorous romance which may or may not be important, depending on other long-range transits in force at the same time with this.

Social and romantic glamour leads to excesses, sometimes to strife, quarrels, separations. Minor loves and friendships break up, but important relations are merely strained; and indeed this frequently adds glamour to a deep love, intensifying its beauty. A break here, unless contributed to by some more important transit, is a sure index that the feeling wasn't very deep or important anyway. Avoid excess spending and stay away from temptation if you're interested in sticking to the conventions.
