Life Progressions

We are born into an existing progression of change, through which we evolve and grow during our lifetime. Being conscious of our position in this succession of change helps us more clearly define and understand ourselves. An awareness of our current life situation relative to a larger, evolving chain of events helps us negotiate the challenges that confront us in our daily lives.

This Life Progression report (based on the technique of Secondary progressions) describes experiences and understandings relative to particular aspects, thus depicting the effect of these planetary aspects on an individual. The report covers a period of at least one year. The time period covered by the text varies according to the nature of the astrological event associated with each paragraph. A paragraph referring to a progressed Moon will cover a much shorter period than one referring to the zodiacal sign on a progressed house cusp. This report is intended to enhance the natal chart, not to replace it. The two go hand-in-hand. The progressed chart brings to fruition the promises of the natal chart.

<p style="text-align: center;">Report for Saddam Hussein Your Life Progressions for Apr 01, 2002</p>
--

Libra on the First Cusp

A strong desire for companionship and sociability prevails. You are desirous of maintaining peace and harmony at all costs. You try to be just and fair when making decisions, as you attempt to see both sides of an issue. Women are likely to enter your life, helping or hindering personal or business affairs. You may be called upon to attend social functions or group-related activities (conventions or business meetings) in connection with your vocation. You prefer working in collaboration with others, rather than alone. As a result you may be drawn into a partnership or work in close association with groups of people. There is the possibility of entering marriage. For those already married, issues surrounding your partner will require your undivided attention. Be sure to maintain balance in your system by drinking plenty of water, which may help prevent possible kidney problems. The position of your progressed ascendant ruler, Venus, will provide additional insight into circumstances and motivational influences touching your life at this time.

Ascendant Sextile Moon (Prg-Nat) May 16, 2002

Emotional stability and good judgment can open the door to new opportunities for advancement. Seek positive changes in all directions of life, whether vocational, domestic, or personal. You exude great rapport at this time. Social contacts with women, and the general public, can produce beneficial results. Family matters should be on even keel, with a general feeling of contentment.

Scorpio on the Second Cusp

You are becoming more energetic and resourceful in your ability to increase personal finances. Greater secrecy surrounds your monetary affairs. You have learned from the past that family and certain other people may try to borrow funds from you. You have become more astute in requesting papers to be signed with definite rules for repayment, if and when you do make loans. Your monetary situation will undergo periodic changes. Your partner may retire or seek disability compensation. You may gain through inheritance, alimony, or insurance benefits. From time to time, you will have to contact your insurance agent for weather damages to your home or accidents with your car. Be sure to keep records intact in case of IRS auditing. This is an excellent placement for gain from the resources of others.

Mars in Scorpio

There is an increase in magnetism with Mars' progressed position in Scorpio. You will, at times, have to guard against impulsive tendencies involving joint ventures. You may, out of anger or spite, sign or do something foolish that can heavily burden your monetary resources. Issues involving credit cards, mortgages, alimony, insurance benefits, loans, internal revenue, or

taxes can be a source of gain or strain. Guard against destructive instincts of jealousy and suspicion. Learn to have complete faith in yourself and those in your immediate environment. This is an excellent placement for the study of mind-control, yoga, and other subjects concerned with self-discipline or research. The men who enter your life during this trend are likely to be secretive, difficult to know and understand, and may be overly jealous or possessive.

Mars in the Second House

Financial success depends upon the type of personal effort you apply to the accumulation of monetary gains. On the whole you should prosper, as you have the ability for innovative ideas in new lines of endeavor. When extravagant tendencies hit you from time to time (creating difficulties with finances) you can come up with enterprising methods for new avenues of monetary increase. Circumstances in life are likely to create a situation where you may have to take the lead in handling personal finances. You may be placed in a position where you may have to make important monetary decisions yourself. If you have a business, it will be difficult to avoid spending lavishly on equipment and office supplies. A young man or an assertive type of individual may come up with challenging offers and new suggestions.

Sagittarius on the Third Cusp

Bitter resentments of past hurts are slowly diminishing as you develop a strong sense of justice and optimism. Religion, social values, and philosophical subjects become pronounced. Your good natured-attitude may find you promising more than you can actually deliver. As a result, you may find yourself backed up against the wall, wondering how you got yourself in such a predicament. You are more apt to have communications with people in faraway places, foreigners, or those of a different race. During this trend it is possible a brother or sister may move to a distant city. You are likely to have more contact with relatives of your marriage partner. You have to be careful that differences in opinions do not lead to quarrels and misunderstandings with close kin.

Capricorn on the Fourth Cusp

This is the sign of culmination, where matters come to a head. Old stagnant conditions involving personal projects, a family member, or a parent will be finalized. This is the time to establish good relationships between yourself and a parent. Don't continue to handle those difficult tasks alone. It is time for others to take some of the burdens and responsibilities off your shoulders. If you are thinking of purchasing property, no doubt you will want one surrounded by woods and in an isolated area. During this trend, there will be times when you will feel emotionally drained, lonely, and perhaps personally restricted by parents or small children who demand constant attention.

Jupiter in the Fourth House

Beneficial influences prevail in the acquisition of property. Circumstances of a legal nature, in-laws, or assistance from a family member may help you achieve the home you desire. A home that is large and comfortable, with land surrounding it, providing an air of spaciousness. In some cases, published material, writing, or instructing classes may be conducted from the home. In-laws may impose upon your generosity and come to live with you for a short time. You may travel to visit family members who have moved to a distant city, and they are likely to reside in

your home during their visits. Religion or religious items may provide a basis for inner security, peace, and serenity within the home base.

Aquarius on the Fifth Cusp

You may feel a profound interest in working with groups of people. They can provide the backdrop for such hobbies as astrology, computer clubs, or building model airplanes. Convention is going out the door as the romance department takes on a new coloring. You appear to be seeking the unconventional and different in style and appearance. Willingness on the part of others to do the unexpected is exciting to you. Working with groups of children may be in your near future. Expect the unexpected in actions and decisions concerned with the affairs of your children. Should investments interest you, try products dealing with aeronautics, computers, video, radio, television, or electronics.

Pisces on the Sixth Cusp

You feel intuitively that your future calls for a change in your vocation. If in the past you have worked in the medical or institutional field, you may consider returning to that profession. Others may go for psychiatry, photography, or merely operating a beverage store or a bar. Environmental conditions appear to have a strong influence on your state of mind and ability to handle your work-related tasks. Arguments, confusion, and frequent upheavals at work can play havoc with your nervous system. Try to avoid those that upset you emotionally, mentally, or physically to prevent any reaction on your health.

Saturn in the Sixth House

Saturn's progression into your sixth house hints of heavy duties, responsibilities, and restrictions in relation to your vocation. It may curtail some of the enjoyable aspects of your job that an authority figure has undertaken to change or eliminate, while at the same time increasing laborious efforts through other means. Interesting enough, this placement does not withhold advancements. More than likely it can bring you a supervisory position that may create a reserved attitude from former co-workers. In some respect, there may be an isolated condition in which you may have to work in solitude and, at times, during the evening hours. This placement is favored for duties that require precise meticulous accuracy and thoroughness. Success comes through powers of concentration, industriousness, and completion of difficult tasks. A sound dietary and exercise program can aid the circulatory system and increase the energy level. Vitamins may help to prevent colds and strengthen the bony structure of the body. Older people or those of a serious Capricorn nature can be a source of help or hindrance.

Aries on the Seventh Cusp

New individuals and associates of the aggressive, independent, and decisive type are likely to enter your life during this trend. You may see a changing situation developing in partnerships, marriage, or business. They are starting to take the lead in personal actions and enterprise. Compromise will be the theme word to avoid confrontations when you feel they are getting too bossy. Your social life should take an active upward trend.

Moon in Aries

Your behavior pattern leans toward aggressive, impulsive, and impetuous tendencies. Basic knowledge is more readily acquired. You may lack patience with those who do not immediately grasp the subject matter or the ideas that you are trying to convey. Anything that hints of a challenge both intrigues and inspires you. There is a desire for personal independence, both in thought and action. This may open the door to new opportunities, in fields you have never encountered before. At times you are likely to be too blunt in your manner of speech; at other times, overly sensitive to remarks made by others. This sign is associated with migraine headaches, cuts, burns, scalds, high fevers, infections, accidents, and surgery. Note the house position of your progressed Moon to determine the area of life this sign is likely to influence.

Moon in the Seventh House

This is an active time for social invitations -- attending engagement parties, weddings, and other functions. If single, this placement can provide the opportunity for an engagement and possibly marriage. But, married or not, someone will enter your life and create a situation through which an emotional bond and a close attachment may develop. The affairs of partners and nieces or nephews may play an important role in your life. Circumstances may arise requiring the services of an attorney or other type of counselor. Women (especially your mother) may not approve of your actions and try to dominate the situation or alter the course you are taking. Note the sign position of your progressed Moon for the motivational influence affecting partnerships and close ties.

Moon Quincunx Neptune (Prg-Nat) Jan 2, 2002

You may come in touch with undesirable people who may try to engulf you in a sticky or intriguing situation. They are not likely to have your best interests at heart. Guard against possible deception and deceit through the opposite sex. Be alert to conditions surrounding your environment or place of work. You may be sensitive to hidden elements that are difficult to detect (such as paints, gases, oils, fumes, or toxic waste material). If you feel "out of sorts," so to speak, and can't place your finger on the problem, get a physical check-up. Then get a second opinion to make sure there has not been an oversight with the first one.

Moon Sesquiquadrate Mars (Prg-Nat) Mar 20, 2002

Impulsive decisions or hasty actions can lead to possible accidents or quarrels with loved ones. Abrupt statements made at this time are likely to be cause for regret later. Don't push for important changes or take unnecessary risks. Work out this excessive energy through repairing, painting, or completion of difficult tasks. Be aware that certain risks are involved. Use caution in

new undertakings or ventures.

Moon Quincunx Mars (Prg-Prg) Mar 29, 2002

These three months can yield constructive energy if applied wisely. You will be able to accomplish much in the way of hard work or the handling of difficult tasks. Be discreet with the opposite sex, and forego new attachments until this trend has passed. This is not the best time for travel, working with mechanical equipment, or machinery. Avoid excitement and overactivity, especially if you exercise.

Moon Conjunction Venus (Prg-Nat) May 23, 2002

This should be a pleasurable three-month period in which everything goes well. You may be feeling rather content, peaceful, and happy. Social affairs are activated with baby showers, weddings, the theater, or just dining out with close friends. Your emotions and feelings are aroused and eager for new and lasting attachments. Opportunities are favored for meeting someone special, getting engaged, married, or receiving gifts and invitations. This type of energy is especially helpful for those in the mood for interior decorating, entertaining, having their hair styled, or purchasing new clothes. A fairly good period for finances, investments, and purchases in general.

Moon Sesquiquadrate Moon (Prg-Nat) Jun 6, 2002

A frustrating period of undesirable changes on a personal level. Grievances, misunderstandings, and disputes can lead to trouble with close family ties and with women in general. Feelings are easily hurt through misguided emotions. Don't try to make more out of a statement or an issue than is really there.

Moon Square Jupiter (Prg-Prg) Jul 20, 2002

Self-control is the theme word during these three months. You are likely to exude an air of overconfidence and expansiveness. There is the possibility of exceeding expenditures through extravagant purchases. This short trend is not conducive for legal matters, signing important papers or contracts, travel, higher education, religious disputes, or negotiations. Apply moderation in all things. Avoid making unnecessary changes and take care of your health. Don't overeat or drink too much, and guard against strenuous exercises.

Moon Square Pluto (Prg-Nat) Sep 23, 2002

Emotional outbursts may be unleashed against those whom you feel are trying either to dominate you or to create changes that are upsetting to your environment. Although these changes may be necessary in the scheme of things, you may find it difficult adjusting to them. The altering of these conditions may result in separation from loved ones, and finding it hard to let go. It may be parents moving to a distant city, a child getting married, loss of an older member of the family, or a divorce. Whatever the circumstances, your domestic and emotional feelings will undergo an intense change.

Moon Sesquiquadrate Neptune (Prg-Nat) Jan 26, 2003

Petty annoyances are likely from meeting unpleasant people such as drug abusers, con artists, and those who drink too much alcohol. Be aware that you are at your most vulnerable peak, which makes it easier for others to take unfair advantage of you. Don't permit another person to corner you into a situation which you are likely to regret later. Don't permit others to unleash their problems onto your shoulders, leaving you to feel mentally and emotionally drained. You can deal effectively with matters. You require an isolated condition, working alone, where you can psychically detect the solution to problems confronting you at this time.

Moon Sextile Mercury (Prg-Prg) Apr 23, 2003

A very fortunate and successful trend under which to study and learn new subjects. Concentrate on improving your mentality in all directions. Favorable for expansion of business and negotiation of contracts. Write books, handle neglected correspondence, and travel. Plan pleasurable outings with brothers and sisters and other close relatives. You have good, sound judgment at this time, and should be successful in reaching satisfactory decisions concerning

future gains and expansion.

Moon Conjunction Midheaven (Prg-Nat) Jun 16, 2003

This is an ideal time for considering career changes. This does not have to be with a new company. It may be a new department -- possibly with vocational duties. There is the possibility of coming before the public or having your photo appear in the company newsletter for past contributions. Some likelihood of appearing on television or radio. A grandparent or parent will be of prime concern.

Moon Conjunction Sun (Prg-Nat) Jul 4, 2003

A new cycle of experience is being introduced into your life. For preventive measures, it might be a good idea to get a health check-up and encourage others with whom you have a close bond to do the same. You will want to be in the best of health and mental frame of mind to tackle the new activities or directions that lie in the near future. You can expect these changes to affect business, personal affairs, close relationships, or environmental conditions. You may feel a restless urging to seek new associations or discard old and outmoded ones. There is the possibility of relocating, moving, or establishing new business techniques. An inner feeling of self-confidence will help you in determining your goals and objectives.

Moon Sextile Midheaven (Prg-Prg) Aug 11, 2003

This is a three-month period in which one should take advantage of all opportunities for advancement and positive career changes. You have great rapport with bosses, those in authority, and the general public. This is a good time to contact those who can help you rise to a higher social status. You may receive an award or recognition for a personal achievement, possibly get your name or photo in the local newspaper, or appear on television or radio.

Moon Conjunction Uranus (Prg-Nat) Aug 19, 2003

Expect the unexpected; unusual circumstances and surprising experiences to occur in the months ahead. All kinds of advantages and disadvantages may produce sudden and unforeseen changes in personal and domestic affairs. Magnetic conditions may form sudden and sometimes unconventional attachments -- not the conventional relationship that one would normally expect. These sudden changes may introduce an entirely new condition or event that will have a noticeable influence upon your life. Your general disposition may be somewhat irritable or belligerent. Caution is advised against hasty or rash behavior.

Moon Sextile Sun (Prg-Prg) Oct 8, 2003

You are in a positive state of mind, filled with optimism and a hopeful outlook. Your inspirational attitude is likely to draw admiration from others and increase your chances for social contacts, business advancement, or a new romance. Take advantage of all opportunities and channel them into constructive possibilities. You are on a roll, and should make the most of these three opportune months.

Moon Conjunction Uranus (Prg-Prg) Nov 12, 2003

Expect the unexpected; unusual circumstances and surprising experiences to occur in the months ahead. All kinds of advantages and disadvantages may produce sudden and unforeseen

These sudden changes may introduce an entirely new condition or event that will have a noticeable influence upon your life. Your general disposition may be somewhat irritable or belligerent. Caution is advised against hasty or rash behavior.

Moon Square Ascendant (Prg-Nat) Dec 13, 2003

Emotional and domestic difficulties, especially where women are concerned. They are likely to be a source of irritation or interference with personal plans. This could result in a break-up of close emotional ties -- perhaps a separation from a loved one or parent. If running for public office, it would be wise to seek the counsel of someone experienced in public relations. Your own image will not project as well as you would prefer. A PR person can help to smooth the rough edges.

Taurus on the Eighth Cusp

Money and valued possessions will come your way from time to time, through the resources of others. Insurance claims are likely to be settled in your behalf. There is the possibility of an inheritance or expensive gifts from others. Because you give of yourself freely and completely in sexual relationships, you see nothing wrong in receiving monetary compensation in exchange. In fact, if a gift is not given or if you are not taken out to dinner, you may feel as though the other person doesn't care enough.

Venus in Taurus

This is one of the best signs for progressed Venus. She not only represents peace, harmony, and affection, but in Taurus she instills greater opportunity for financial gain. This is a favorable position for making money and gaining possessions through one's own effort. Your overly generous habits and impulsive spending will be curbed somewhat. You are likely to spend more freely for the pleasures derived from personal comforts which take precedence now. Emotional feelings are stronger, faithful, and lasting. You will be more precise, selective, and give more thought in your choice of a partner, whether for business or in marriage.

Venus in the Eighth House

There appears to be a sensual quality about your appearance, coloring you with a fascinating personality. You can create quite a stir among the opposite sex. Take stock of your creative forces. You may have a specialized artistic talent that could provide a source for monetary gain. This is a good time to review and revise your insurance policy. Discover new ways to enhance and increase investment programs or add to your savings account. This placement is associated with financial gain through your marriage, business partner, or any cooperative monetary venture involving others. You will receive frequent gifts as well as social invitations for which your expenses are paid. A female may be a source of financial gain or drain in connection with mutual funds.

Venus Conjunction Mercury (Prg-Nat) Feb 6, 2002

Your mental attitude is more cheerful, genial, and well-balanced, during this trend. Tact, diplomacy, and a gracious manner color your speech and the written word. You may decide to

enhance your surroundings with new color schemes that will produce a relaxing and harmonious effect upon the mentality. If you are employed, this influence may reveal itself at your place of business, perhaps color-coding your file cabinets or file folders, or adding new artistic touches such as art objects, pictures, or vases of flowers. This trend generally activates social affairs, with the introduction of new friends and romantic partners. Avoid the tendency to listen to or spread gossip and rumors that can damage social contacts, friendships, and romance. A sister, other female relative may play an important role in your life or be cause for concern during this period.

Uranus in the Eighth House

New and revolutionary ideas may create the process of transformation of old projects toward the construction of something different. Many upheavals and drastic changes are to be expected in connection with joint finances. There may be sudden and unexpected gains or losses through your spouse, business partner, or associates connected with mutual funds. Repairs for computers, machinery, electrical appliances, or auto parts occur at the most inopportune time financially. Clubs and organizations that require long-term payments for membership should be given careful consideration. This placement is associated with unusual psychic phenomena, dreams, or astral experiences.

Gemini on the Ninth Cusp

If you are in higher education at this time, in all likelihood you will change your major and even your college in mid-term. You may be doing a great deal of letter writing or phone calling to a brother or sister in a distant city. Legal action is likely regarding a bus, car, motorcycle, or a neighbor.

Mercury in Cancer

You've developed good reasoning powers in the past. Now, you will have to be careful that your emotions do not over-rule your good common sense. Your Mercury, planet of the mind, has progressed into the sign of Cancer. You may become more mentally sympathetic and sensitive to the needs of others. Family affairs, a parent, or domestic matters will, in some way, influence or reflect upon your state of mind. This is an excellent position for those who must deal directly with the general public. Through teaching, lecturing, or salesmanship, you will have the ability to sway others effectively. There is the possibility that paperwork, phone calls, or mental pursuits will be carried on within the home base. You may have contacts with siblings in connection with parental affairs or the settlement of property.

Mercury in the Ninth House

You have a good, sound, constructive intellect -- an active mind that is constantly evaluating new ideas. This unique ability can open the door to public speaking, journalism, or instructing. You have to be careful not to scatter your energy by engaging in more activities than you can possibly handle. Legal documents should never be signed while you are under stress or nervous tension. You can fly off the handle in a burst of temper to innocent remarks made by others. This is not the best time for making important decisions, signing documents, or traveling. Use caution with personal and business affairs to avoid fraudulent circumstances. Make sure the brakes and other mechanical parts of your car are in good shape to avoid the possibility of accidents, and drive defensively.
