The Lunar Return

Astrology can provide many valuable panoramas as you move through this world, from a lifelong overview to the snapshot of the opportunities available in a single instant. The view you get depends upon how far back you pull from the subject and thus how much your eye, so to speak, can encompass. In the words of the Sesame Street song:

That's about the size,
Where you put your eyes,
That's about the size of it.

It's all in how you frame your picture. The closer to the subject you get, the greater the detail - the farther away, the larger the scope. The natal horoscope with its transits and progressions can, for instance, give you a view of all the days of your life, painted with a broad brush. Or, the sweep of the heavens in the instant of the moment can portray where you're at right now. In the middle, the pictures of the coming month or the coming year are available to you in the form of lunar (monthly) and solar (yearly) returns.

What Is A Lunar Return?

Your Lunar return is the monthly chart of the instant the Moon in the sky returns to the exact position it was at your birth. It's kind of a monthly birthday, and the arrangement of planets it displays reflects the patterns of your coming month. Each month, this re-birth-day works out its potential for you and then is renewed once again 27 1/2 days later with a new set of surprises and opportunities.

How Does It Work?

Like your natal chart, or any other kind of horoscope, a Lunar return is a chart of a beginning - in this case, the monthly beginning of the lunar cycle that started at your birth, which is the cycle of your response to your environment, including your emotions, feelings, interactivity, social well-being, and generally how creatively you react to the challenges and opportunities of life. It works on the principle that when you begin something - anything - everything that flows from it is bound up in the initial conditions under which it started. The beginning is your foundation, and you build and rest upon it until you are finished. A Lunar return is the astrological depiction of the new beginning you make each month and what results from it until the next cycle begins.

Well Begun Is Half Done

"The beginning is half of everything," said the ancient Greeks, and so your monthly beginning is something to be taken seriously and honored, if you want your lunar month to have a good start. Thus, give yourself a little time and space to rest and meditate if you can in the few hours surrounding the time of your Lunar return each month. Take the time to think about what lies ahead, plan your strategies, and gather your resources so you can make the best of what's offered. Look over the aspects in your Lunar return chart and the days and times ahead where they individually kick in. Once you've got a calm picture of the challenges and openings to come, you can rise to seize the day, one moment at a time, and make the most of the month.

Changing The Picture

The planetary positions in a Lunar return are locked in at the moment the Moon returns to its natal place. Where these positions fall in relation to the local horizon, and thus the areas of life in which they work, is entirely dependent upon where you are at the time. Thus, if you see that your Lunar return is going to develop a picture you'd like to rearrange, that can be accomplished by placing yourself at the right spot on the globe to fine-tune the event. Many astrologers travel widely in order to adjust both Solar and Lunar returns - I have done so repeatedly over the last 35 years with apparent great success, so I recommend it when necessary. Moving about extensively every month is not easy for everyone, but being aware that it affects the Lunar return is a plus if you normally travel on business and have some say as to where.

Pieces Of The Puzzle

The Lunar return is a large piece of the astrological picture of what happens with your life every month, but it is not the only one. Lunar transits, New and Full Moons, and other factors also weigh in, so they have been included in this report so you can have a more complete picture of what to expect and what you have to work with. You should remember, however, that factors whose timing is as short as a monthly cycle are more like the minute or second hands on your life's clock face. Don't forget to stand back every now and then and refresh yourself with the big picture of where you are and where you're going, which are described by long-term transit and progression cycles. After that, you can get back down to the day-to-day nitty-gritty which the Lunar return offers and know that your focus is tracking and every moment is enjoyed and utilized to its best advantage.

With that in mind, read on and launch yourself into the coming month with the wind at your back and the planets racing by your side...

Your Personal Lunar Return

Your Lunar Return Chart This Month

Your Lunar return can be read in a manner similar to many other types of horoscopes, except that in doing interpretations it must be kept in mind that it has an unusually short life. The chart is only in effect for 27 1/2 days until it is supplanted by the next Lunar return. Thus, where the middle and outer planets are concerned, there is little or no change of sign over literally dozens of Lunar returns. This makes the overall influence of signs more of a long-term, barely changing backdrop and thus negligible in effect. The house placements and the mutual aspects of the planets and Angles thus become where all the action is, fueled mostly by the faster-changing positions of the inner planets. That may be just as well, as trying to stuff too much interpretive information into a description of a single month leads to diminishing returns, and what is important gets lost in the shuffle.

So what is most important in a Lunar return? Certainly the house positions of the Sun and Moon, and the sign of the Ascendant, which represent the main areas of focus for the month, along with the house positions of the planets. After that comes the aspects of the Lights, Angles, and inner planets to each other and to the middle and outer planets, which describes the dynamics of the month. Last comes the aspects of the middle and outer planets to each other, which provide a background dynamic upon which the rest play out. These, taken together with featured elements of your natal chart highlighted by Lunar Return positions, give an overall picture of the coming month.

Daily Events

After a look at the overall picture for the month, daily influences are painted primarily by the transiting Moon as it passes through the natal and Lunar return houses and ticks off its conjunctions to planets in both the natal chart and the Lunar return chart. This accounts for 47 occurrences, each of which happens once, in varying orders, throughout each month. As the Moon transits the houses and planets of the natal chart, it triggers events that are both personal to the moment and yet connect with more long-term issues as well, since the natal chart abides permanently. As the Moon touches the houses and planets of the Lunar return, however, its effects are to highlight and spark off the trends depicted in that chart only, and thus apply only to very short-term developments. These Lunar transits thus give what amounts to inner and outer pictures, short-term and longer-term effects working together, both of which are described in the text.

Personal Void-of-Course Moon

One final, and very useful, addition is the Personal Void-of-Course Moon. The period of time every 2 1/2 days when the transiting Moon has made its last aspect to another body in the sky before changing signs is described as a Void-of-Course Moon period. It can last from a few minutes to over a day, depending how late in signs the planets are at the time. Because the Moon at this time doesn't really have its "feet on the ground," is generally considered a period unfavorable for tangible decisions that require solid support, but an excellent time for insight, relaxation, and reaching outside of confining boundaries. Many astrological calendars include a monthly list of these times.

If you have natal planets late in one or more signs, however, an ordinarily Void-of-Course Moon may still be making aspects to your chart, allowing you a special exception from the rule and giving you a decision-making advantage at this time. Conversely, if your planets are mostly early in signs, then for you the Moon goes Void-of-Course sooner than for the rest of the world, allowing you to check out and party early, while others are still in a more mundane frame of mind. Thus, included here is a list of your own Personal Void-of-Course Moon times unique to you alone, in order to give you a very specific personal advantage. They each begin when the Moon makes its last aspect to your chart and end when the Moon enters the next sign.

Lunar Return: Oct 21, 2003

As in a natal chart, the first thing you look at is the position of the Sun, Moon, and Ascendant. Their positions and aspects form the fundamental dynamic for the month: whether it's coming on like a juggernaut, sneaking up like a cat, stumbling in like a bull in a china shop, or striding in like a hero. Since the Lunar Return Moon is the same as your natal Moon, any aspects to it are also transiting aspects to your natal horoscope, thus uniquely entwining both charts and making the Lunar aspects especially important. The house position of the Sun and Moon tell you where your main action will be all month, and the Ascendant sign show the overall style. Easy aspects of these to the rest of the chart will show a month whizzing by according to plan. Hard aspects will indicate tangles and challenges to overcome. The text relays how to make the most of the former and how to transform the latter to get best results from the month.

Sun

Creativity and the more enjoyable side of life are going to be a central feature for you for awhile. Let details take care of themselves and take the time to enjoy yourself and stretch out both at work and play. When something feels right, whether it be a new idea or the opportunity to just have a good time, roll with the feeling and don't put on the brakes. Open your heart and move with the innocence of a child and you will be rewarded for it. It is not childish to be childlike, and you have the opportunity right now to learn that it can be its own reward. Save your inhibitions for next lunar month, maybe longer, maybe forever...

Sun in Fifth House

Forceful ideas may be the flavor of the month, but remember that they are a two-edged sword. Well and enthusiastically supported opinions win friends but insisting on one person's opinion does quite the opposite. The danger to watch out for is the inflated ego having more weight than the intellect and also a rush to judgment settling issues before all the relevant information is in. Therefore, gather all your wits before you launch your propositions, and when you meet with resistance, give it a fair hearing before steamrolling over it. It's really easy to be too close to the subject to really see the whole story and find yourself in the pocket of the powerful without realizing it.

Sun Conjunction Mercury

If you portray yourself as a font of discovery, you may not be far off the mark this month. Latching onto new trends is the opportunity of the day, and if you are the first to embrace insight, it will become yours to reap the reward. Your only failure would be to consider it obvious and have another wind up getting the credit. Given the opportunity, you can be the life of the party,

sparkling with wit and wisdom, but you should not cast your pearls before swine but take the opportunity to get them to the bank while they're still brimming with value. The brilliant mind is often a lazy one, and you've got to add perspiration to that inspiration if you are to cash in on it.

Sun Trine Uranus

If you act as if everything is going your way, it will. That's because you're looking good to others and the only way you could spoil it is to show lack of self-confidence. So if you don't know it, don't blow it - proceed as if everything is under control, because for the moment it more than likely is. You can run the show from the background, but don't retreat too far or make the mistake of letting it pass you by. If you want something, ask for it, and you're more likely to get support for getting it. If you don't ask, someone else will who may not do as good a job as you could do with less exertion. It takes some effort to make things look effortless, but not that much.

Sun Trine Ascendant

Moon

You may find yourself rather inclined to stay at home and gladly let the world pass you by this coming lunar month. Certainly it's a time to gather yourself and get in contact with what you really feel and want to stick with. That needn't be carried out by literally sequestering yourself (though it may), but it will certainly be characterized by holding back a bit and not giving away the store. Protecting what is yours will be your first and best reaction, but you may have to learn to do it while carrying on business as usual. You can live in, yet apart from, the world at the same time to preserve your inner integrity.

Moon in Fourth House

Pleasant feelings, smoothly expressed, are the way to go, along with impeccable taste. Don't spring for the latest fashions, but go with a classic that evokes both beauty and familiarity. Getting what you want has a great deal to do with being happy with what you have, so use what's available to create a masterpiece. Cheerfulness and a good attitude succeed even where confrontation is tempting. Furthermore, they are contagious and bring rewards and support back to you to fan the fires of enthusiasm. Don't hesitate to borrow inspiration from others, as imitation is the sincerest form of flattery, and right now it will be appreciated, not resented.

Moon Sextile Venus

This month is part of a year-long trend toward optimism, ebullience, and emotional expansiveness that brings out the positive side of every issue. Not that there aren't things that need fixing, but for once you're likely to find the good in whatever you encounter and thus turn it to your own advantage by having a handle on it. For now, the grass is actually greener on your side of the fence, and if you don't think so, take a second look. It is very much the time to make hay while the Sun shines, as this kind of energy smiles on you only one year out of every twelve. Hoard your happiness, and collect its seeds, so there will be plenty to go around in the future.

Moon Conjunction Jupiter

You may find yourself reaching a plateau of emotional stability such that you can be a first-class shoulder to lean on. When others come to you with troubles, your advice will reflect a calm and steady life example and a refuge from the storms of life. Although you may find comforting platitudes trite, others won't, and you can breathe new life into old maxims by adding fresh

insight and updated applications to them. You'll also find that addressing the problems of others helps you better understand your own character and allows you to rediscover and strengthen those parts of your nature which have particularly well stood the test of time. Self-examination is its own reward.

Moon Sextile Saturn

You may find this month has you rather preferring to stay home and tend your fires rather than joust in the world arena. Issues arise that need personal tending to, fences require mending, any number of matters that involve the home front will likely take precedence and be the focus of your efforts. Matters of the heart beckon and make you realize what your true priorities are and what it takes to give them the rank they deserve. The family front takes the front seat for a while and strong emotions may surface that had been put away, obscured by the common business of the day. It is time to return to the uncommon, what is real, what is most close to you and supports your deepest feelings.

Moon Opposition Midheaven

Ascendant

This is a month to either lay siege to or take by storm. Halfway measures won't do the trick. The tendency to either hole up and avoid confrontation or come out swinging may alternate and thus confuse. At times, you may be best off cajoling your way into the action or inserting yourself by stealth like a Trojan horse. A mixture of caution and impetuosity is the middle road, however, and you'll need to feel your way along while appearing to stride. Paper tigers abound, and the seemingly meek may have the sharpest teeth, but you will meet success if your actions remain consistent with your feelings. That means, if it feels right go for it, if it doesn't, back off until there's a sincere opening. The operant phrase for the month: peace through strength.

Ascendant in Cancer

Your ability to apply your energies to creative new endeavors is, particularly if the efforts are physical and involve your personal touch to make it all come together. You don't need to push or strain at it - whatever comes first and most easily to your hand will be exactly what to go with. And further, your greatest effect will not be in initial contact but in graceful follow-through that allows timing to add a measure of strength you didn't know you had. If you have to struggle or repeat yourself, you're in the wrong game - bow out and try another where that natural rhythm works for you and not only gets the job done in an original fashion, it gains you admirers.

Mars Trine Ascendant

You will find your most inventive moments this month come when you just lay back and let the Muse in. Don't work on it, play with it. Don't try to nail down the details, pick up on the essence of the whole shebang. No matter how odd it might seem at other times, your most independent and original approach will sell without having to sell it. When you are acting as a conduit for the light, the light shines brightest and clearest. Keep an independent eye on the process, however, so you can remember what you did right and can develop it more later. You have the ability to ease the way for others who would otherwise have a rocky time of it. Break the rocks into gravel, and you have a solid road.

Uranus Trine Ascendant

The inner planets change significantly from month to month and indicate the personal permutations your life is going through. Basically, it's the framework of how you play the game, who else is playing, and how they're playing it. Easy aspects mean you win with no contest, hard aspects suggest a more hard-fought game that may put your life skills more to the test and increase your personal growth and talents through experience. The text relays both sides and gives advice on what games to play, what ones to avoid, and the best strategies - whether you want to raise, hold, or walk away.

Mercury

How to have fun? It's time to count the ways. Pick out your pleasures, plan that vacation trip, organize your creative talents so you can better express them. It's a good period to separate out work from play so you don't miss out on the latter by trying to combine them. Also a good time for communicating with your kids, who may actually understand what you're saying for a time. In general, thoughts of love abound and just how, where, and when to express them come into clearer view. This is one time when thoughts and feelings do not get in each other's way, but rather compliment and run that extra mile together. Think it over, play with it, take the time to express it to the fullest.

Mercury in Fifth House

This is a good time to shine and make hay with the insights and new perceptions that have come on you lately. Just open your mouth and speak and you'll get credit you may think you don't deserve for original thinking, insight, and imaginative approaches. What seems obvious to you may seem quite clever to others, so keep your eyes open for reactions to what you say. You could be in possession of intellectual gold that can be parleyed into new opportunities, but you'll have to test the waters to determine that. In other words, wake up to what you are saying this month and see if it's waking others up, too. Clever does more than invent - it builds on its inventions.

Mercury Trine Uranus

Venus

You should find time to take pleasure in pleasure, exult in creativity, and take the time out for love - whether with a partner or your family. You'll find yourself particularly inclined to let down your inhibitions in favor of a good time, and now's a good time for it. A particular talent to achieve grace and proportion will lend itself for awhile, so pick up the fruits as they fall from the tree. Life is a cabaret, and for awhile you're in the floor show if you'll just follow your nose. Make sure to take a lot of pictures, as this may well be a time you'll want to cherish in days to come. Operant phrase: make hay while the sun shines.

Venus in Fifth House

You have to know what you want before you can expect to get it, and this is a time for consolidating your needs, collecting your desires, and knowing what you have that you can really bank on. Personally, this means leaning on a lover or friend and enjoying every moment of support. Professionally, it means knowing what you realistically have to work with and can depend on to see you through. It can be a period of increase not of wealth but of security, which

is worth far more. When you have earned what you have, you take greater pride in ownership and are more likely to keep it. Now is a time to recognize those things, quietly rejoice in them, and then move on to more.

Venus Trine Saturn

You could probably just lay back and rest on your laurels this month, but that would be a waste, since you're in position to consolidate your gains and earn yourself even more respect. You may find that self-promotion is quite unnecessary and even inappropriate, as others will do the job for you. Your function should be to appear to be as good as anything said about you, yet hardly to have worked at it. Appear to take success for granted (like it were owed to you) but in fact treasure it and take all you can get without appearing greedy. When it's your turn to shine, no sense in hiding your light under a bushel - let your light shine.

Venus Trine Midheaven

Mars

When given the chance to learn something new, latch onto it. You've got the energy now to push yourself into new areas of exploration that you'll use as resources later, so make room for the opportunity. Your inclination will be to follow broad outlines and let details pass, which will enable you to progress in leaps and bounds. You can go back and sweat the small stuff later. Although you may be tempted to get into legal tangles, remember that they always last longer than you think and you could run out of steam before they're over. If you get the opportunity to travel this lunar month, snap it up, it's the perfect time. Avoid the tendency to be preachy, but feel free to broadcast your message.

Mars in Ninth House

This month contains the essence of blitzkrieg or the atom bomb, and as such should be handled with care. The ability to strike suddenly, unexpectedly, and with overwhelming power can be tapped, but should be used sparingly and wisely. In the most mundane sense, it can represent lightning decisions about people or property that could be harmful and cannot be taken back, whether big or small. On the other hand, well-placed moves that are made with precision can be effective beyond all imagination. So, imagine yourself this month with your finger on the trigger - and don't forget, the same goes for half of those around you. If you can do good, act unflinchingly - if not, keep it holstered.

Mars Conjunction Uranus

The positions of the middle and outer Planets - Jupiter, Saturn, Uranus, Neptune, and Pluto, along with the Moon's North and South Nodes - change little from one Lunar Return to the next, so they add more of a backdrop, the stage set on which the monthly play is performed. They are very powerful, however, and their long-running helpful and troublesome aspects are not to be taken lightly. They can be like a rope to swing yourself across the stage or a trap door that will cause a fall if you're not watching. The text on the mutual aspects of these giants to the inner planets and the Lights, and where they fall by house, shows you just where to watch for them, what mood they're in, and how to get them on your side.

Jupiter

It wouldn't hurt to touch base with everyone on your list this lunar month, as the broader a base you draw upon and the more opinions you have, the better things will turn out. Chances are you'll be running about the neighborhood a lot more than usual, so see if you can consolidate what you're doing so you won't have to take so many trips. If you didn't need call waiting before, you might need it now, as the more people you call, the more call back. Expanding your immediate ties to those around you will generally characterize the period, and even if not everybody has something important to say, that's OK. It's the contact itself, and the thought behind it, that counts.

Jupiter in Third House

This year is what might be termed a time of profit-taking and cashing in on positions you have taken morally and financially and of establishing newer and more solid structures on which to base both your income and your moral life. It is a time to dispense with prejudice but not abandon caution, to reach out to others but without selling out to them. This is the overall background on which your personal life is being played, so you will have to roll with it where necessary, though you may not now, or ever, be in the thick of it. If you are aware of the larger picture going on around you, however, you can only benefit from the trends you find yourself immersed in.

Jupiter Sextile Saturn

You are likely to find there is some considerable room for improvement at home and that's probably going to be where you get the greatest satisfaction, taking care of your castle and refilling your inner gas tank. This cannot help but affect what time you can spend pursuing career matters, which will have to be handled on a more sporadic and part-time basis, depending on how much time and concentration you can spare. The result may be that you have to push back finishing dates on some projects and add a little extra open time on your schedule to carry the double, alternating focus of the month. Inner refueling now, however, will maximize your mileage down the road.

Jupiter Opposition Midheaven

Saturn

You may want to pull in your wings a bit for awhile, as restricting forces are in the air that can put pressure on you if you don't carefully mete out your energies. Mainly, your personal energy reserves are easily drained, making situations you might have bounced back from take a greater toll than usual. Concomitantly, you may find more will be put on your shoulders than you would like, so look for others to take a load off. If there is any time to delegate authority, and the responsibilities that go with it, this is it. Nevertheless, you may feel obligated to handle things yourself anyway, in which case take it slow, careful, and avoid wasting time. Less is more this time, really.

Saturn in First House

Hard work pays dividends - or, at least that's the image you'll get this month with only a little effort. The image to portray here is of one who spends less and has higher productivity as a result of filling all the unused spaces in your schedule. Similarly, you'll find you make more and get

more cooperation from compatriots in the workplace if you pursue this image. This doesn't mean turning over a new leaf, just showing off the benefits of how you do things already. Don't expect to cash in overnight on your reputation, but be sure that as you are known for your steadiness you will be rewarded accordingly. The point is not to bust your chops, just pick up every stitch.

Saturn Trine Midheaven

Uranus

Lightning striking again. If you're willing to take the time out for some introspective philosophizing, your world could be turned upside down this lunar month. Don't be surprised if your moral assumptions are suddenly challenged or you find yourself converted to positions you might never before have espoused. An open mind is the key to success right now, so be willing to consider every side of every situation without bias or predeliction. Be equally ready to have your own presumptions shot down, and abandon them with grace. Sometimes it takes a long time to learn, sometimes it all comes in a flash of realization. Right now the latter rules, so make room for it. Truths you embrace now will support you later.

Uranus in Ninth House

Neptune

Don't let your credit cards run away with you this lunar month, or they're likely to run away from you later. Prospective purchases are not all they are made out to be, so don't buy a pig in a poke - make sure you've got a warranty and can return it. Prospects of easy money, great interest rates, fabulous bargains may abound, but read the fine print. If it looks too good to be true, chances are it is. Lose yourself in the past instead, rummage through the attic where fond memories revive, dust off the old and figure ways it can be made new again. If you're tempted to dispose of seemingly useless items, wait a bit. They are not as useless as they seem. What is broken can be repaired, what is old can be made new. Imagine the possibilities.

Neptune in Eighth House

Pluto

The workplace offers you a number of opportunities to do battle this lunar month, but if you are aware of it, they are easily avoided. Avoidance is especially the right response, as the issues at hand will die of themselves and another, better, situation arises if you let it. The bottom line is, everyday affairs are not worth going to the mat about, even if they seem so at the time. Further, the pressure that confrontation brings on has its greatest impact on your health, as stress and anxiety bollix up your system and throw beneficial habits to the wind. There are no life-and-death issues at stake, really, so don't opt to make your last stand, or it could be Custer's. When you flex your muscles, do it only for sport.

Pluto in Sixth House

Node

You may find this is just the right time to curry favor with higher-ups and those well-placed to assist or invest in you. To succeed, however, you will have to be ready to commit to obligations in return that you should take a closer look at. What comes easily now may weigh you down in the future, so choose your responsibilities with care. Extra dividends come from

children, and opportunities to enjoy yourself physically turn up unannounced, almost gift-wrapped. Creative thoughts come to mind especially linked to past events, which can come to fruition as you finally put on the finishing touches. Follow your instincts and let the pieces fall together by themselves.

Node in Eleventh House

Featured Planets

When selected Lunar Return positions occupy the same spaces as bodies in your natal chart, this highlights certain natal inclinations for the month. It will mean that certain elements in your fundamental character will be emphasized both internally externally. These will be the areas that most appear to represent you for the moment and that others will seize upon as entry points to your personality. These are the areas in which you can put your best foot forward to make the most effective and gratifying steps ahead, providing your first line of challenges and opportunities to embrace the world.

Saturn Highlighted by Jupiter

Your ability to do less with more and come out with lasting results will be put in the spotlight, as will be your capacity to sustain your efforts and exercise authority within your personal territory. If you appear to have your act together, this month will be remembered as the time you demonstrated it and will enhance your credibility for some time to come. Thus, in a unique way, challenges become opportunities, restrictions become bulwarks, and working with less means being able to travel lighter and faster. Don't be afraid to be seen as a taskmaster, either to yourself or others, as the extra discipline you show now can make the month, and months beyond.

Uranus Highlighted by Ascendant

Broken-field running and unusual and spontaneous reactions to unexpected events can become your calling card and something to be remembered by. This offers the opportunity of praise and admiration for thinking on your feet and responding with original solutions to sudden situations. It also offers plenty of chances to stumble and trip, so tread lightly and watch your footsteps. Be nimble, be quick, make your operations stick. Avoid pushing, insistence, intolerance, impatience, as those are the greatest slipping points. Choose your shots, and don't shoot until you see the whites of their eyes. One strong, well-placed effort will be all you need.

Daily Events: Oct 21, 2003

As the Moon speeds on through the month, the minute hand of your Lunar Return, it moves through all twelve houses of both your natal chart and the Lunar Return chart, as well as hitting both sets of planets. These are the times to look for specific events that activate these parts of your monthly picture and will offer times for making your best moves. There are forty-seven such events, and they repeat every month, but not at the same time or in the same order. Plus, the playing field and basic potentials of each month differ, so each of the basic transits has a different role to play every month, while retaining its core implications. The individual transits begin with the symbolism of the degree at which they occur, followed by an interpretation of their general meaning, and finish with a handful of specific "issues and accents" to address, which they may bring into your life. Finally, your personal Void-of-Course Moon periods will vary widely and are important timing factors in the daily decision-making process, so keep a close eye on them.

Wed Oct 22, 2003 Moon in Virgo

09:43 am **Moon Void Ends: Oct 23, 2003 01:28 am**

12:24 pm **Moon Conjunct Natal Mars**

23° Virgo: *A man clad in gay colors of the circus rushes into the barred arena where unwilling animals await his bidding. MASTERY*

You may find yourself running into brief spells of irritability and/or impatience, when you want to get on with things but your way appears blocked. It's easy to get into a fight, perhaps even easy to win one, but it's not a good time to choose one. Avoid quarrelsome and contentious people who might get your goat and remember that most battles aren't worth fighting. Snap judgments are usually the worst, and you can't regret mistakes you don't make.

Issues and Accents: *combateness, belligerence, anger, stealing, sarcasm*

07:10 pm **Moon Void (Personal) Ends: Oct 23, 2003 01:28 am**

Thu Oct 23, 2003 Moon in Virgo (Enters Libra at 01:28 am)

01:19 pm **Moon Conjunct Moon's South Node**

8° Libra: *In the depths of the woods is an abandoned farm; in the deserted house a fireplace blazes merrily and mysteriously. PROVIDENCE*

07:42 pm **Moon Enters Natal 8th House**

12° Libra: *A worker's shift is finished and the miners emerge from their grimy hole into daylight and life above ground. EXECUTION*

Credit can be looked at creatively and used to maximum effect, with particular attention to raising your limits without overtaxing yourself. Recycling efforts may pay off by repurposing something you would have otherwise disposed of. A glance back to the old ways of doing things can inspire and even pay off as you realize there's nothing really new under the sun. Taking out the trash, once you have decided what it really is, can feel like a fresh, new start.

Issues and Accents: *research, compulsions, sanitation, predictions, repercussions*

Fri Oct 24, 2003 Moon in Libra
02:42 am **Moon Conjunct Natal Neptune**

16° Libra: *The storms of the winter have washed away the boat-landing; some happy souls at the beach resort are building one. DEMAND*

Intuition runs strong for a bit, and chances are that hunch you have is correct, even if you can't put your finger on it or give a reason for your predictions. The same goes for your people-antennae, which are particularly tuned in to the feelings of those around you. It's easy to drift off into a daydream, or simply fog out at a cocktail party. Operating heavy machinery, however, is less than recommended. Don't try to dream and drive at the same time.

Issues and Accents: *misinformation, volatility, uncertainty, self destruction, self-consciousness*

03:17 am **Moon Void (Personal) Ends: Oct 25, 2003 02:09 am**
05:28 am **Moon Enters Return's 5th House**

18° Libra: *Two men are placed under arrest and taken away to give an accounting of their acts before the tribunal of society. CONSEQUENCE*

Making the most of playtime can do as well for you as the most earnest work, and setting time aside for recreation and generally creative pursuits will serve to refuel and reinspire the rest of the month. The works of your life are your children as much as any son or daughter, and when they are conceived and nurtured in love, the result can only bring reward. So, listen to the natural soul inside and take some time now to bring those inner voices into the sunshine.

Issues and Accents: *athletics, charisma, audience, talent, geniality*

08:03 pm **Moon Conjunct Return's Mercury**

27° Libra: *Like a great soaring bird, a single brilliant spot in a bright sky, an airplane far overhead sails about calmly. SUPERIORITY*

This is a time for clearing things up and attempting to be particularly lucid about your current set of plans. New insights can be worked into the picture and details laid out to those who need to be in the know. Bounce ideas off other heads to see a less subjective view of your schemata, then proceed to set things into motion before you lose the freshness of the inspiration. Though feelings may compel, you're best off right now with only what can be expressed clearly in words.

Issues and Accents: *advisors, speed, agreements, speech, precision*

11:33 pm **Moon Conjunct Return's Sun**

29° Libra: *It is a seer's dream; vast masses of humanity push forward in frantic effort to cross the black chasm to knowledge. STUDY*

The heart of the matter and the main focus of the month gets its greatest boost now, even if it may not seem so at the moment, so keep your eyes wide open and be ready to jump to the tune when it starts to play. It's a time to whip up enthusiasm, not necessarily to get down to brass tacks, so put on a happy face and spread good feelings around, even if nothing else seems to get done. By engendering warmth and excitement, you focus the flood in your direction and partake not only of your own energy, but the environmental electricity flowing down your wire.

Issues and Accents: *faith, favors, luck, ostentation, vigor*

Sat Oct 25, 2003 **Moon in Libra** (Enters Scorpio at 02:09 am)

00:31 am **Moon Void** **Ends: 02:09 am**

04:51 am **New Moon**

2° Scorpio: *What has been a handsome and valuable bottle lies broken and forgotten; a track of living perfume leads from it. ABSOLUTION*

New Moon in Natal 8th House

You may find turning over a new leaf this month entails tossing out the old and ringing in the new, but you should take a second look before doing that. What you may find much more satisfactory is to simply rework and refurbish what is already there. Sometimes a new paint job makes everything new again, so you don't have to totally start over from scratch. They don't make things like they used to, so preserve what you can. It's also a good time to initiate that new credit card, but avoid impulse buying, as it's easy to go overboard right about now. Ditto for mortgage or other loans - a good starting time, but just take what you need and no more.

New Moon in Return 5th House

Games can be played for the fun of the moment or they can be played seriously, and right now is a good time for the first. Try out new pleasures, new enjoyments, whether physical, mental, or spiritual - anything that looks like it will fuel your creativity and introduce you to something new and fun. Go on adventure with your kids, try taking up a new sport, get artsy-craftsy, or pick up an instrument and play it. Add some variety to your love life, become a connoisseur, be the life of the party. The opportunity to try things out to see if you like them is knocking, so opt for the free trial, no obligation required. But, of course, if you like it, you can subscribe.

Issues and Accents: *credit, mortgages, sex, forebodings, donations*

Sun Oct 26, 2003 **Moon in Scorpio**

02:05 am **Moon Enters Natal 9th House**

16° Scorpio: *A girl's face is revealed of fine, delicate aristocratic features; suddenly these break into a glorious smile. FERVOR*

This can be an ideal time for those long conversations and ambitious exploration of new mental and emotional territories. Your reach feels greater than before and you are only limited for the moment to what you can imagine, leaving the details for later. You can stand back and examine the big picture and chart your way through it. Travel broadens

the mind, whether it be a physical trip or an armchair journey of the mind. Believe in what you conceive, and it will come true.

Issues and Accents: *reverence, intangibles, learning, maturity, omissions*

02:44 am **Moon Conjunct Return's Venus**

16° Scorpio: *A girl's face is revealed of fine, delicate aristocratic features; suddenly these break into a glorious smile. FERVOR*

It's a good time to be presenting things in the best possible light and dressing up your reality in its Sunday best. When you look good, you feel good, and you make others around you feel better as well. By surrounding yourself with the trappings of love, desire, wealth, and beauty, you bring those very same elements closer to you, so indulge yourself in order to attract the future wherewithal of self-indulgence. In other words, consider play to be an investment in the future as one good thing leads to another.

Issues and Accents: *comfort, birth control, shopping, friendship, values*

06:58 pm **Moon Enters Return's 6th House**

26° Scorpio: *A group of American Indians is making camp; as if by magic, the tepees are erected and home comfort established. REGULATION*

The daily structure of your life and work is often taken for granted and so can fall into disrepair. This is a time to reinvent the ordinary and make it special, to see that the habits and methods that make up your daily operations actually serve the purposes for which they were intended. By being a do-it-yourself efficiency expert, you can make this month more productive and less boringly repetitious. If it works, embrace it. If it doesn't, erase it.

Issues and Accents: *stress, climate, frustrations, work, health*

07:53 pm **Moon Void (Personal) Ends: Oct 27, 2003 01:56 am**

Mon Oct 27, 2003 Moon in Scorpio (Enters Sagittarius at 01:56 am)

00:16 am **Moon Void Ends: 01:56 am**

04:54 pm **Moon Enters Natal 10th House**

10° Sagittarius: *In a pageant of progress, a glorious little maid with golden hair enacts the part of a goddess of opportunity. BENEDICTION*

Professional considerations should be looked at and adjustments made to see that your name is recognized and respected among your peers. While your attention is on it, touch up that resume, touch up your image, and take some time to advertise yourself. Make mileage out of compliments and take credit where it is due. Follow up leads and don't be shy about blowing your own horn, as long as you can truly live up to what you promise. Time to wave the flag - yours.

Issues and Accents: *decisiveness, the elderly, economy, honor, notoriety*

Tue Oct 28, 2003 Moon in Sagittarius

06:56 am **Moon Conjunct Return's Pluto**

19° Sagittarius: *The pelicans have been distressed by the intrusion of a man; they are moving their habitat to places unknown. MIGRATION*

You may have to briefly force someone's hand in order to win this round, but that's all part of the game, so don't flinch at the possible necessity. Also don't be surprised if turnabout is fair play and you find yourself the subject of a force play. The bottom line is to remember that it's more than just your game and you can only win if everybody gets to the finish line. Don't try to overwhelm pockets of resistance, however, as a Pyrrhic victory is an empiric defeat.

Issues and Accents: *extremes, rejuvenation, purification, the subconscious, riddles*

01:46 pm **Moon Void (Personal) Ends: Oct 29, 2003 02:37 am**

Wed Oct 29, 2003 **Moon in Sagittarius** (Enters Capricorn at 02:37 am)

00:52 am **Moon Void Ends: 02:37 am**

03:04 am **Moon Enters Natal 11th House**

1° Capricorn: *An Indian chief is standing before the assembled powwow of tribes and demands recognition coldly and regally. CONTEMPLATION*

This is a good time to look to close friends for support, either as backing for endeavors you need help with or just for general emotional support and refueling. It's also a good time to tap into others' creativity when your own inspiration well runs a bit dry, and you'll find yourself refreshed as a result. In a similar vein, you may also want to tap into higher resources, both spiritually and financially, to pick up some of their overflow for yourself.

Issues and Accents: *dissatisfaction, hopes, colleagues, intentions, combinations*

04:34 am **Moon Enters Return's 7th House**

2° Capricorn: *Three stained-glass windows in an old cathedral are seen, and the center one has been damaged by bombardment. DEFIANCE*

There is no greater opportunity in life than another person, and your ability to partner well now can turn this period into a cornucopia of possibilities that would not be available operating solo. Don't expect to luck into a good relationship - the best ones are carefully built and meticulously tended. Creating and maintaining space for both to operate comfortably in is the key to making a partnership more than just two people making do. Tend to each other's houses and hearts.

Issues and Accents: *teammates, equilibrium, opposites, contentiousness, partnerships*

Thu Oct 30, 2003 **Moon in Capricorn**

04:39 pm **Moon Enters Natal 12th House**

23° Capricorn: *The army is erect in a long faultless line as resplendent officers confer upon a private two awards for bravery. RECOMPENSE*

This is likely the quiet time of the month, a lull in traffic, the calm before the storm of renewed energy that will follow. Retreat and contemplation, with resultant renewal and regrouping, are favored pursuits. Use down time to reconsider your options and make sure you are really on the right course. Inner challenges you grapple with and resolve now will result in more focused and effective action when the time comes for it, which will be shortly.

Issues and Accents: *retrospection, disillusionment, apprehension, isolation, sleep*

05:04 pm **Moon Enters Return's 8th House**

23° Capricorn: *The army is erect in a long faultless line as resplendent officers confer upon a private two awards for bravery. RECOMPENSE*

Financial self-reliance is a goal, but sometimes it's better to gamble with other people's money than your own. A carefully-wrought juggling act of balancing borrowed stakes with retooling and refitting your own personal resources can serve you as well as gold in a safe deposit box. Extra baggage that you eliminate right now will make that whole process work more efficiently, so what you can't reclaim for reuse, spin off as gifts or collateral.

Issues and Accents: *refuse, pressure, discounts, love, self-transformation*

11:05 pm **Moon Void (Personal) Ends: Oct 31, 2003 05:42 am**

Fri Oct 31, 2003 **Moon in Capricorn** (Enters Aquarius at 05:42 am)

00:07 am **Moon Void Ends: 05:42 am**

Sat Nov 1, 2003 **Moon in Aquarius**

00:07 am **Moon Conjunct Return's Neptune**

11° Aquarius: *An artist has withdrawn from friends and all accustomed haunts to be alone with a new inspiration just forming. POWER*

Trust your feelings and try to harness your intuition, which is favored. Although goals are different from dreams, you must dream to have goals, and it's at times like this they are born. The seeds of the future are borne on the wind, and when reveries come to roost, the fantasies of tomorrow become the accomplishments of today. But like a hall of mirrors, only one of the images is you, and you will have to find out which one that is, in order to make it come true.

Issues and Accents: *temptation, inspiration, fantasy, expectations, betrayal*

09:23 am **Moon Enters Return's 9th House**

16° Aquarius: *The active executive of a large corporation sits at his desk immersed in the details of some business project. MANAGEMENT*

Is your life cinema verite, or is there a plan? Now's the time to invent the latter or improve on what you've got. Dead reckoning can get you where you're going, but why not have a map? This is a good time for establishing the lay of the land, getting that aerial overview that confirms where you've been, where you are, and where you're going. You needn't rush off on the journey, just turn it around in your mind until you have a good grip on the possibilities it offers.

Issues and Accents: *extremes, stories, generalizations, decisions, ideas*

10:51 pm **Moon Enters Natal 1st House**

23° Aquarius: *A big trained bear, sitting on a chair especially built for him, is waving all four paws in grotesque fashion. EQUATION*

This is likely your most interesting and active time of the month, when you can project yourself more convincingly and with greater force than at any other time. It's the time to get things done in person, face-to-face, rather than by mail or phone, as your ability to

project yourself is at a peak, as is the inclination of others to accept you at face value. It's a period to make extra space in your schedule, as you're likely to have more to do than you expect.

Issues and Accents: *envy, demonstration, achievement, compassion, choices*

Sun Nov 2, 2003 **Moon in Aquarius** (Enters Pisces at 11:52 am)

04:51 am **Moon Void (Personal) Ends: 11:52 am**

10:03 am **Moon Conjunct Return's Uranus**

30° Aquarius: *A mystic moonlit field near the site of a mystic and traditional Babylon has sprung into delicate white bloom. RETROSPECT*

Taking risks on sudden, far-out ideas may generally be inadvisable, but this may be just the time to do it. Sudden flashes of insight may cut through the normal, humdrum solutions and start you thinking out of the box. Don't just throw caution to the winds, but don't hesitate to try something new and different this month if it seems appropriate to the occasion. Remember, however, that doing so may change more than you think and could have you off balance unless you take a flexible stance.

Issues and Accents: *television, deviation, contradictions, outlets, promotion*

11:41 am **Moon Void Ends: 11:52 am**

04:02 pm **Moon Conjunct Natal Jupiter**

3° Pisces: *A dull expanse of rocky formations turns out to be a petrified forest or an eternal record of life lived long ago. SURVIVAL*

Look for circumstances to further your good fortune and new ways to develop that further your agenda. This is aided by a generally positive, can-do attitude and a feeling that it's all going to work out for the best. And that's an approach that can make for excellent self-fulfilling prophecies. Generosity is the first option, which tends to be returned in kind, and a feeling of being in touch with the general operating system of life gives insight to the heart as well as the head.

Issues and Accents: *formality, luck, budgets, education, indolence*

07:20 pm **Moon Conjunct Return's Mars**

5° Pisces: *Through the spacious grounds of the church are strung Japanese lanterns for a bazaar of merry hearts and faces. COMMERCE*

A quick, deft thrust can slay your quarry, but shooting from the hip risks overwhelming return fire. Rash actions seated in annoyance or anger can do a lot more damage than just sitting on your hands and waiting it out. Forceful action can carry the day, but only if it's well thought out and comes from a cool head, not a hot heart. The opportunity here lies in knowing when to pass and let someone else make the mistake, after which you may capitalize upon it.

Issues and Accents: *passion, armaments, armament makers and workers, harm, conflict, endurance*

Mon Nov 3, 2003 Moon in Pisces

12:09 pm **Moon Enters Return's 10th House**

13° Pisces: *In a still corner of the museum are weapons of long ago, and in a glass case by itself is a single venerable sword. ENSHRINEMENT*

What people believe you are often seems more important than what you really are, so crafting your public image is critical for success. This is always a mix of real achievements mixed with what's in the eye of the beholder, so make sure that you have both working for you. Find out now what other people, especially your peers, are saying about you and provide information to turn the opinion polls your way. Sometimes a spin doctor is more valuable than an M.D.

Tue Nov 4, 2003 Moon in Pisces (Enters Aries at 09:03 pm)

02:31 am **Moon Void Ends: 09:03 pm**

05:23 am **Moon Conjunct Natal Venus**

22° Pisces: *Down the man-made mountain of industry in allegorical representation comes a prophet with tablets of a new law. EXACTION*

Take the opportunity to express the warmth you feel and don't hesitate to display your social charms in a fertile, group context. Flattery will get you everywhere, so you can safely lay it on thick. Self-improvement and beautification are the way to go, but self-indulgence can slip into the middle, so watch that you don't overdo things because you just can't help yourself. Impulse buying is easy to do - be kind to yourself, but watch your wallet.

01:41 pm **Moon Void (Personal) Ends: 09:03 pm**

Wed Nov 5, 2003 Moon in Aries

11:06 am **Moon Conjunct Natal Moon's Node**

8° Aries: *A large old-fashioned woman's hat is revealed, with streamers flying in a stiff breeze from the east. INGENUOUSNESS*

Commitments undertaken at this time may last longer and require more of you than you now anticipate, so don't sign on the dotted line until you have read the fine print. And, don't casually say yes to something you don't really mean, because you may be held emotionally or financially accountable for it. This is a time to fine-tune your honor and become more closely aware of your emotional responsibilities, and realize just how much your behavior affects others.

06:48 pm **Moon Enters Natal 2nd House**

12° Aries: *A flock of white geese is seen in flight overhead. EXPERIMENTATION*

Attention to cash flow and how to improve its balance in your favor catches your focus, and you'll find yourself basing both attitude and decisions on how much it costs, what it's worth, who wants to buy it. Your innate possessiveness is at its maximum and it may be hard to part with belongings, even ones you need to get rid of. It's also a time for reevaluation of what you think is important to you and why you consider it so, getting your ducks in a row and making critical choices.

Issues and Accents: *rights, magnitude, seclusion, cash, assets*

Thu Nov 6, 2003 **Moon in Aries**
04:04 am **Moon Void (Personal) Ends: Nov 07, 2003 08:29 am**
06:44 am **Moon Enters Return's 11th House**

18° Aries: *An empty hammock hangs between two lovely trees. DETACHMENT*

What you can't do for yourself, maybe your friends can do for you, and a friend in need is a friend, indeed. You don't want to tap your nearest and dearest too often, but asking for help and support occasionally is part of what makes friendship, and you might do that now, even if you're not terribly in need, just to keep relations from getting rusty. A little mutual admiration can go a long way towards lifting your esprit de corps, and a heartfelt hug beats a handshake.

Issues and Accents: *inclusion, ingenuity, plans, machinery, friction*

Fri Nov 7, 2003 **Moon in Aries** (Enters Taurus at 08:29 am)
06:16 am **Moon Void Ends: 08:29 am**
11:27 pm **Moon Conjunct Natal Sun**

8° Taurus: *A sleigh with all the suggestive warmth of the winter season speeds over ground on which the snow has yet to fall. FOUNDATION*

This is likely your second most active time of the month, as your inner energies get a boost and you are more likely to be in for some ego-stroking. As greater energy and enthusiasm flow, so do the opportunities to expend them, so you might take care not to overdo things or you'll drain yourself. This has a "launch-pad" feel to it, so make sure new endeavors begun now are birthed with a steady hand, as well begun is half done and you don't want slips at the starting gate.

Issues and Accents: *fire, supremacy, illumination, employment, foremen*

Sat Nov 8, 2003 **Moon in Taurus**
02:50 pm **Moon Enters Natal 3rd House**

16° Taurus: *An old man is attempting, with a degree of success unsuspected b him, to reveal the Mysteries to a motley group. ANTICIPATION*

Getting the word out, making connections, tying people and things together are the focus, and you can expect more phone and mail activity than usual, so adjust your schedule accordingly. It's a good time for touching base, but not ideal for in-depth conversations which may be put off until you have more time to get into them. Technical matters, networking, and anything that involves media are on the front burner, and machines can take on a life of their own, albeit briefly.

Issues and Accents: *statements, proportions, mail, duplicity, witnesses*

05:14 pm **Full Moon**

17° Taurus: *An imaginative battle is under way between swords, the disciples of might, and torches, the disciples of enlightenment. RESOLVE*

Full Moon in Natal 3rd House

Don't everybody talk at once! That's what you're likely to be saying as the volume level around you peaks and everybody is trying to get a message through, including yourself.

Full Moon is like that in general, but this time it can be especially wordy as you try to finish up a lot of correspondence and tie up loose ends as the links you have established begin to really amount to something. That means crowding a lot of important last-minute things into the space of a few days, so don't overschedule yourself in advance. Leave plenty of room open for last-minute situations that come rushing in and demand equal attention. Concentrate on matters that require conclusion and closure right now, save your new ideas for later when they can get proper attention.

Full Moon in Return 11th House

If you have been embarked on opening new doors and currying favor with those especially situated where they can help you, make your move now to see if you have succeeded. Get them to come across with what they seem to have been promising, or get on with it elsewhere. If you score, so much the better - if not, there are lots of good fish in the sea. You've got time to find the right people, but not time to waste with the wrong ones. Do not, however, burn bridges, as you could need them later. In any case, remember who your real, close friends are and take the time to re-seal your affection and loyalty with the ones you know you can count on.

Lunar Eclipse

This Full Moon is also a Lunar Eclipse, which makes its impact twice as important. Expect sudden turnarounds, unexpected new directions, serious paradigm shifts in this house area's developments (see New Moon paragraph) along with the planets the Moon touches today (q.v.) that has been building for the last month and will have effects running into the next five months. Because of its intensity, this particular part of your Lunar Return may quite literally eclipse much of the rest of the month's goings-on. Its effects fall mainly on the emotional side and ripple outward from there. Expect to make room for resultant happenings for some time to come.

Issues and Accents: *school, advertising, cousins, mail, duplicity*

Sun Nov 9, 2003 **Moon in Taurus** (Enters Gemini at 09:15 pm)

02:12 am **Moon Conjunct Return's Moon's Node**

21° Taurus: *A moving finger points to the significant passages in a large open book.*

ANALYSIS

This is a time when the fox comes into view and the chase is begun, but you may not want to participate in the hunt, so take stock before you go galloping off. The opportunity for emotional or financial attachments and the responsibilities they entail may be something you want to pass on for the moment. Today's blithe commitment all too often becomes tomorrow's burden, so be sure that you really want it before you saddle yourself with more than you may want to carry. This does not mean avoid commitment altogether, but that many call and only a few should be chosen.

12:23 pm **Moon Enters Return's 12th House**

26° Taurus: *A Spanish gallant stands at the window grill of his love, serenading her with the softer melodies of night.* **PERSISTENCE**

Behind-the-scenes maneuvering can go a long way toward setting you up for the main event, so don't feel you have to tell all right now to get things done. What you don't know can hurt you, so some non-invasive information-gathering on the sly may be just what

you need to take some time for right now. Honesty is the best policy, but do no harm is the bottom line. The less said the better right now, and actions will speak louder than words when the time comes.

Issues and Accents: *dreams, envy, blunders, abandonment, enemies*

01:33 pm **Moon Void (Personal) Ends: 09:15 pm**

01:33 pm **Moon Conjunct Natal Mercury**

27° Taurus: *A hopelessly withered old Indian squaw, with a clear light persisting in beady eyes, is selling trinkets. INTERCHANGE*

Sudden inclinations to figure things out and think things through are definitely the way to go, and it's a good time to put it down in writing lest you forget it. That's also a good idea because schemes hatched now may be somewhat colored by feelings of the moment that can be wisely edited out after a second look. Keep it simple and don't get bogged down in details for the time being and you can cover multiple topics and issues, solve multiple problems while the inspiration lasts.

Issues and Accents: *advertising, endorsement, withdrawals, contracts, files*

07:00 pm **Moon Void Ends: 09:15 pm**

Mon Nov 10, 2003 Moon in Gemini

04:15 pm **Moon Enters Natal 4th House**

10° Gemini: *An airplane dives towards the Earth as though falling, but rights and recovers itself with smooth gracefulness. LINEAGE*

A general inclination to hold back and go inside for inspiration holds sway, which can lead you to tend home affairs or simply to withdraw a safe distance to consider what's important and what your next move will be. Similarly, it's a good time to refine defense strategies and patch up those fences that separate you from the neighbors and the outside world, literally and figuratively. When you are sure of your boundaries, you can more safely go beyond them.

Issues and Accents: *archives, cooking, emotional problems, emotional needs, resources*

Tue Nov 11, 2003 Moon in Gemini

06:23 pm **Moon Void (Personal) Ends: Nov 12, 2003 10:11 am**

Wed Nov 12, 2003 Moon in Gemini (Enters Cancer at 10:11 am)

07:58 am **Moon Void Ends: 10:11 am**

10:43 am **Moon Enters Natal 5th House**

1° Cancer: *A man upon a ship stands impatiently with a flag in his hands, ready to run it up in place of the one now flown. DISCLOSURE*

This is a very open time of month, when spontaneity and warm feelings can flow more easily, and the creative and romantic urges compete to hold sway. A good time for connecting with children or for taking a little time off for fun and frolic. Risk-taking is easier, and you're likely better at it now, though don't go out on a limb unless you're sure. Don't push for concrete steps, but go with the flow and let things happen and the results will surprise and delight.

Issues and Accents: *self-discovery, gaiety, coincidence, affairs, flirtation*

12:33 pm **Moon Enters Return's 1st House**

2° Cancer: *An alert and eager individual rests upon a magic carpet, observing a vast level vista over which he hovers motionless. THOUGHT*

This marks a period when it will benefit you most to use your personality as the winning card in any game you are playing. It's the time to make that sale, impress that client, charm that lover, play to the audience. Don't try to impress them with statistics or your track record, just wow 'em with the way you come on, with the conviction you have in what you present. This is the month's window for being on-stage, so take the opportunity to light up when it's presented.

Issues and Accents: *effort, leadership, distance, self-examination, self undoing*

02:11 pm **Moon Conjunct Natal Uranus**

2° Cancer: *An alert and eager individual rests upon a magic carpet, observing a vast level vista over which he hovers motionless. THOUGHT*

The urge to think or act impetuously offers both risk and opportunity. A sudden change of direction or a new direction entirely can put you way ahead of the game, or get you thrown out of it. But, if it's within reason, fly with it and see what happens - nothing ventured, nothing gained. The best maneuvers often burst out full-blown like Athena from Zeus's brow. Don't be impatient with others who may not go along, and be ready to accept consequences, for good or ill.

Issues and Accents: *quotas, transportation, dissatisfaction, growth, separations*

12:44 pm **Moon Conjunct Return's Saturn**

14° Cancer: *A very old man, whose feebleness adds strangely to his dignity, stands alone, facing the darkness in the northeast. TRADITION*

Setting limits and downsizing some of your operations may be just what you need to get a tighter focus and better utilize limited resources. This may at first seem a downer, but it's really a matter of putting quality over quantity. You cannot be all things to all people, so you have to select what role you can effectively play and divert your assets to support it. Carefully-chosen sacrifices allow all your guns to bear on the target you can't afford to miss.

Issues and Accents: *fatigue, confinement, constipation, decay, attainment*

Fri Nov 14, 2003 Moon in Cancer (Enters Leo at 09:49 pm)

05:40 am **Moon Void Ends: 09:49 pm**

07:07 am **Moon Enters Natal 6th House**

23° Cancer: *A serious little study group, a literary club, has met for social and intellectual fellowship in some member's home. ACQUAINT*

This period has a bit of a "back to work" flavor, where picking up stitches and buttoning down projects is the flavor of the day. Where you have gotten off schedule, either at work or in your personal habits or health regiment, now is the time to make the correction and

get back on track. By strengthening routine so it runs by itself, you free your hands for more important things down the line and prevent untimely trip-ups from overlooked details at the last minute.

Issues and Accents: *specialization, assistance, comforts, telephone, criticism*

07:36 am **Moon Enters Return's 2nd House**

23° Cancer: *A serious little study group, a literary club, has met for social and intellectual fellowship in some member's home. ACQUAINT*

This month's finances are best dealt with, or at least planned for, during this two-day stretch. Make decisions, allocate funds, plan a budget, write checks, anything that can go towards wrapping up your money issues for the month. Once these issues are out of the way, you can move on to networking on your next set of issues. This is the time to count your recent winnings, impact any losses, and see what your bottom line is going to fund for you in the near future.

Issues and Accents: *solitude, equity, order, penalties, bargains*

02:25 pm **Moon Void (Personal) Ends: 09:49 pm**

Sat Nov 15, 2003 Moon in Leo

Sun Nov 16, 2003 Moon in Leo

03:42 am **Moon Enters Return's 3rd House**

16° Leo: *The sunshine floods the sleepy village street; a storm has left everything drenched and wondrously refreshed. LIBERATION*

It takes a village to get anything done, which means to get things moving you've got to talk to everybody in town. If you take this time to be the great communicator and unify your social network you will find there are plenty of hands to go around to get it all done. Open new avenues of discussion that focus not on theory but on everyday nitty-gritty, things that grease the skids for all concerned and avoid wasted time by getting rid of repetition, misunderstandings.

Issues and Accents: *repetition, maneuverability, diversification, transportation, misconceptions*

04:07 am **Moon Conjunct Natal Pluto**

16° Leo: *The sunshine floods the sleepy village street; a storm has left everything drenched and wondrously refreshed. LIBERATION*

The inclination may be to push through to get your way, that for the moment the end justifies the means. Stand back and take another look, however, and you might decide otherwise. When you simply "must" do or have something, you probably shouldn't - at least not to the degree you are contemplating. Such feelings are signals that can get you in better touch with deeper emotions and are better used in that cause rather than in the service of a quick ego boost.

Issues and Accents: *upheaval, force, decay, betrayal, untruths*

05:36 pm **Moon Enters Natal 7th House**

23° Leo: *The scene is a circus crowded with spectators, and in a moment of hush a*

bareback rider performs extraordinarily. AUDACITY

Personal relationships can be put into focus now, and you may find that you can share your emotions and responsibilities with a partner who will take a load off your back. By giving credit where it's due and avoiding competition or jealousy you will find you often receive more than you give, but then that is what usually results from an open hand and heart. Fairness is at a premium right now, so go out of your way to see that everyone is on an equal playing field.

Issues and Accents: *lovers, alliances, lawyers, rebuffs, inequity*

11:39 pm **Moon Void (Personal) Ends: Nov 17, 2003 06:37 am**

Mon Nov 17, 2003 Moon in Leo (Enters Virgo at 06:37 am)

04:40 am **Moon Void Ends: 06:37 am**

Tue Nov 18, 2003 Moon in Virgo

03:15 am **Moon Conjunct Return's Jupiter**

12° Virgo: *A bride rises laughing, truly radiant in her white, wishing to scold the groom, who has snatched away her veil. PRESSURE*

Positive thinking and a generous imagination can now set the stage for increased opportunity and a bigger piece of the pie. The only limits you have are those you impose upon yourself, and now is not the time to do that. Think big, not only for yourself but for those involved with you, so that win-win situations can blossom and lead to ever-expanding possibilities for all concerned. When you invest in others, you invest in yourself, paying dividends to your posterity.

Issues and Accents: *luck, indolence, punctuality, acquisition, Thursday*

05:48 am **Moon Conjunct Natal Saturn**

13° Virgo: *A statesman stands before the mob; his strong hand can be seen in a transforming of hysteria into new enthusiasm. PACIFICATION*

If you are tempted to highlight your insufficiencies, do so in the interest of a better and less wasteful existence. When things suddenly stall, it's usually for a reason, and now's the time to find out why. Don't bash yourself, do improve yourself, you can't overcome your limitations until you truly know what they are. Similarly, limitations are often imposed because you haven't made sufficient use of what's already on your plate. Say grace, and you'll receive grace.

Issues and Accents: *fortitude, fear, malice, cramps, boundaries*

05:56 am **Moon Enters Return's 4th House**

13° Virgo: *A statesman stands before the mob; his strong hand can be seen in a transforming of hysteria into new enthusiasm. PACIFICATION*

Attention to laying the foundations of what you are going to do and be for the month is the order of the day. Build from the ground up and don't start on the first floor until the basement is done. You don't have to complete it all right now, but have the order determined and your materials ordered so you don't have to go back and draw up altered plans later. Where you've already put it all together (or mostly), tidy up the joint, set your house in order.

Issues and Accents: *emotions, domesticity, occupancy, possessions, fertility*

10:15 pm **Moon Conjunct Natal Mars**

23° Virgo: *A man clad in gay colors of the circus rushes into the barred arena where unwilling animals await his bidding. MASTERY*

You may find yourself running into brief spells of irritability and/or impatience, when you want to get on with things but your way appears blocked. It's easy to get into a fight, perhaps even easy to win one, but it's not a good time to choose one. Avoid quarrelsome and contentious people who might get your goat and remember that most battles aren't worth fighting. Snap judgments are usually the worst, and you can't regret mistakes you don't make.

Issues and Accents: *combateness, anger, sarcasm, Tuesday, discord*
