Life Progressions

We are born into an existing progression of change, through which we evolve and grow during our lifetime. Being conscious of our position in this succession of change helps us more clearly define and understand ourselves. An awareness of our current life situation relative to a larger, evolving chain of events helps us negotiate the challenges that confront us in our daily lives.

This Life Progression report (based on the technique of Secondary progressions) describes experiences and understandings relative to particular aspects, thus depicting the effect of these planetary aspects on an individual. The report covers a period of at least one year. The time period covered by the text varies according to the nature of the astrological event associated with each paragraph. A paragraph referring to a progressed Moon will cover a much shorter period than one referring to the zodiacal sign on a progressed house cusp. This report is intended to enhance the natal chart, not to replace it. The two go hand-in-hand. The progressed chart brings to fruition the promises of the natal chart.

<p style="text-align: center;">Report for Ariel Sharon Your Life Progressions for Apr 01, 2002</p>
--

Cancer on the First Cusp

Emotions and feelings will play a major role in your make-up. You may become more protective and sensitive to the needs of family members. Criticism from others, no matter how constructive, will not be taken lightly. A major change has taken place within your immediate environment -- or will soon. Moving, selling, redecorating, or enlarging of your present home is likely. Conditions prevail in which someone may move in or out -- perhaps a roommate, parent, or child. Others may feel smothered by parental influences and decide to leave the nest, seeking a place of their own. The affairs of a parent or parent-in-law has required or may soon require your attention. A strong desire for future security may lead to serious consideration of investment programs. Don't permit emotional outbursts to drive you to eat, thereby gaining weight unnecessarily. The position of your progressed ascendant ruler, Moon, can provide additional insight into new circumstances and motivational influences touching your life at this time.

Pluto in the First House

There is a noticeable change in your personality. You are projecting an air of reserve, solitude, and secrecy. A feeling of personal loneliness may engulf you from time to time. You are becoming obstinate in your views, and developing the principle of a law unto oneself. You may quietly listen to the advice of others, but whether you heed it or not is questionable. There is innate will power to banish undesirable personality traits, correct unpleasant habits, and bring disturbing conditions to a halt. Periodic changes of personal affairs are likely to occur. They open doors to new avenues of experience, while at the same time closing doors to past situations. Should you return to any of these past conditions, the circumstances will not be the same, meriting a different set of rules. Matters connected with alimony, inheritance, consolidation of bills, bankruptcy, taxes, and other forms of joint financial resources will require personal attention.

Cancer on the Second Cusp

Personal contacts with the general public will play an important role in your financial picture. You are very sensitive to what the public wants and needs. Interest in real estate and personal security may inspire you to purchase a home. You have a tendency to attract money to you, and once you acquire it your tenacious nature hangs onto it. Family members, domestic matters, or your spouse will have some influence over your financial decisions and actions. It will not be easy to follow your own inclinations once your emotions are aroused. An inheritance is possible, and a parent can be a source of financial gain or drain.

Leo on the Third Cusp

As you become more ambitious and enterprising, you will alleviate some of your intense

emotionalism. You appear to be less sensitive and more confident, optimistic, and even a bit dramatic in your expressions. There is a certain flair in your actions and speech that will draw admiration and attention from others. There is power in creative thinking, for you think in large and expansive terms. Many of your communications and short travels will be centered around romance, investments, schools, children, and creative outlets. You will have much to do with children of your siblings and neighbors, or through sporting events. This sign is associated with heart, eye, or back problems in connection with a brother or sister.

Neptune in the Third House

Intuition and a capacity for visualization may be highly developed. There is the uncanny knack for reading other people's minds or voicing the thoughts they were about to convey at that time. The unusual in studies and subjects intrigues you. You have an imaginative mind that can be quite successful in the writing of articles or books. To succeed in this area, there is a need for self-discipline and concentration to avoid the tendency for mental drifting and daydreaming. Messages have a way of getting confused or mixed-up. Make it a point to double-check before venturing to a planned meeting place. Always review business agreements, and read the small print to avoid misunderstandings. Keep a map handy in the glove compartment in case of detours and necessary re-routing, to avoid the possibility of getting lost. Others will feel your sensitivity and begin confiding in you. Don't pass on any of the proffered information. Gossip or rumors invariably will come back to you and cause embarrassment. Brothers, sisters, and other close relations may be a source for concern, with health problems that are difficult to diagnose or require medication to control. Be ready to assist those that appear confused, or those that place too much reliance on drugs or alcoholic beverages.

Virgo on the Fourth Cusp

Circumstances may open the door to the possibility of working from the home or operating a business within the home base. You want so much to maintain a neat and orderly home but, if cooperation is not forthcoming from the rest of the family, you may decide personal effort is too much and let conditions slide. During this trend, one of your parents may develop a persistent health problem and require your assistance. For those who don't work in the home, it is likely you may work in joint efforts with a parent in some field of operation. If you are not the chronic nagger, then another member of the family starts constant nitpicking that soon gets on your nerves. During this trend it is possible to have an emotional bond stimulated between you and a co-worker.

Libra on the Fifth Cusp

Hobbies that involve color schemes, decorating, art, jewelry, or music may become a part of your daily routine. In romance, you are attracted to people of grace, refinement, and intellectual background. A past disappointment in romance may draw you into the wrong type of relationship. Many social functions will demand much of your time during this trend -- attending weddings, showers, graduations, parties, and class reunions. Children may announce their engagement or wedding plans.

Scorpio on the Sixth Cusp

You are becoming a tireless, conscientious worker. You demand perfection -- not only from yourself, but from those around you. Co-workers are likely to get agitated when you start finding fault with their work. No job is ever too hard to tackle, once you find a system that works best for you. You would like to be in control of people, machinery, or a department. No matter how busy you are, avoid bowel problems by taking time out for proper elimination.

Saturn in the Sixth House

Saturn's progression into your sixth house hints of heavy duties, responsibilities, and restrictions in relation to your vocation. It may curtail some of the enjoyable aspects of your job that an authority figure has undertaken to change or eliminate, while at the same time increasing laborious efforts through other means. Interesting enough, this placement does not withhold advancements. More than likely it can bring you a supervisory position that may create a reserved attitude from former co-workers. In some respect, there may be an isolated condition in which you may have to work in solitude and, at times, during the evening hours. This placement is favored for duties that require precise meticulous accuracy and thoroughness. Success comes through powers of concentration, industriousness, and completion of difficult tasks. A sound dietary and exercise program can aid the circulatory system and increase the energy level. Vitamins may help to prevent colds and strengthen the bony structure of the body. Older people or those of a serious Capricorn nature can be a source of help or hindrance.

Saturn Square Midheaven (Prg-Prg) Feb 19, 2003

You may experience a slow trend affecting business and finances. Obstacles, hindrances, and disappointments are likely to affect progress and advancements in your career. This is not the time to change jobs or shirk responsibilities. You may experience a possible loss or separation from a parent, or disputes with bosses or a figure of authority. This trend can produce a turning point in your career through a complete change of occupation. The action is abrupt, unexpected, and generally reverses present duties. New technical equipment, computers, or machinery may be introduced in your line of work. It may be very difficult for you to maintain normal working hours, for they can fluctuate quite easily. New bosses may be difficult to get along with or may try to impose their will on you. There is a possibility of coming before the public through a personal appearance on radio or television.

Capricorn on the Seventh Cusp

At this point in life, you may conduct a working relationship with your marriage partner -- perhaps a business operating from the home base. It should be to your benefit to attend social functions connected with political parties or your vocation. They can provide excellent contacts for future advancements and opportunities. Authoritative figures and individuals of prestige will touch upon your life during this trend.

Capricorn on the Eighth Cusp

Your marriage, business partner, or close associate could make financial changes that will leave you feeling apprehensive about joint resources. They may consider retiring from their job or seek a different outlet in which the income is lesser. Perhaps they are securing a government position that offers long-range security rather than monetary gain. From time to time you will

worry about your credit rating, but your bills always manage to get paid. A cooling trend surrounds your sexual activities as you become more aloof and reserved in this department of life.

Moon in Aquarius

You may find yourself expressing deep concern for other people's problems and a readiness to assist them, if necessary. Your understanding and sympathetic nature has a humanitarian overtone. There is an eagerness to develop new friendships and participate in group-related activities. You may decide at this time to start or join an organization. You may feel there is a need for new outlets in your life or a complete change of direction -- a surge of personal independence to do something unique and different. If your activities have been suppressed or restricted, you may have to guard against going to the extreme and seeking the unconventional, perhaps later regretting this break from concrete ties. It will be difficult to maintain a normal, routine existence for many unexpected events and happenings will break up the usual pattern of your life. Friends, daughter- or son-in-laws, and other people's children will either assist you or create emotional disturbances. The most vulnerable health areas are the circulatory system and muscle spasm in the calf. Note the house position of your progressed Moon to determine the area of life in which the element of the unexpected is likely to occur.

Moon in the Eighth House

This is an excellent time to take stock of your savings or investment program. Seek the aid of an expert who can help you increase your assets and, at the same time, defer income tax payments. Contact your insurance agent and (if necessary) update your car, home, or life insurance policies. Draw up a new will if the old one is outdated. This can be an emotionally trying time for joint finances. Best to avoid overspending or abusing your charge account. You will want to pave the way for a good credit rating in case of a major purchase such as a car or home. Depending upon your age factor, this may be the time when you decide to retire and collect social security or a retirement fund. Others may have to collect unemployment benefits or workers' compensation. There may be an increase in psychic awareness or an interest in the occult and life hereafter. There is the possibility of communicating with the dead, having a seance, or experiencing prophetic dreams. This placement is associated with an emotional experience in connection with the loss of an older member of the family such as a grandparent or, in some cases, an old beloved pet.

Moon Trine Mercury (Prg-Prg) Jan 7, 2002

Your mental energy is stimulated and flows with a positive influence. It should be easy at this time to learn and grasp more knowledge than usual -- to undertake, and pass, driving or written tests. This is a fortunate and successful period for all mental applications. Excellent for writing, handling of correspondence, and negotiations -- buying or selling of property and real estate. Be alert for new business opportunities. Favorable trends for traveling, and for affairs of siblings and other close relationships.

Moon Conjunction Mars (Prg-Nat) Jan 9, 2002

There will be an additional flow of physical and mental energy during the next three months. Be aware of this tendency, so that you can exercise caution and yet accomplish much by

carefully directing this energetic activity toward the handling of difficult tasks. Find a constructive outlet, and yet at the same time be constantly aware that accidents can lurk around the corner. Use caution in all matters, especially in travels. This is not the time for rash actions and impulsive behavior that you may later regret. Avoid hasty or careless decisions, losing your temper, and going to extremes. Caution, moderation, and tolerance can help to prevent abrupt speech and serious quarrels. See your physician if fevers or infections persist.

Moon Semisquare Midheaven (Prg-Prg) Mar 21, 2002

There is a possibility of undesirable changes in the domestic circle or through one's career. Emotional instability can push you into seeking an ultimatum from those you love the most. A new boss with whom you do not get along can cause emotional upsets. Affairs of grandparents or a parent may require your personal attention and concern. You may find yourself being drawn into the unpleasant task of resolving a family crisis. Parents can be quite demanding of your time and attention during this trend.

Moon Sextile Uranus (Prg-Nat) Mar 28, 2002

You may be highly intuitive, inspirational, and inventive during this trend. Make the most of all unexpected opportunities that may come your way. Expand your horizons through new interest or studies, especially the technical or unusual kind such as electronics, computers, or astrology. New, magnetic, stimulating, and unconventional friends and associations will be made. Enlarge social contact by joining clubs and organizations. Expect sudden and drastic changes which may be disturbing at first, yet beneficial in many ways.

Moon Semisquare Saturn (Prg-Prg) Apr 20, 2002

Aching knees, colds, chills, teeth problems, or low vitality are likely to make the next three months rather depressing. Everything appears to be on hold, where nothing goes right. Finances or business may be a source for concern. This is not the time for making changes of a personal nature or seeking favors from those in authority.

Moon Semisquare Saturn (Prg-Nat) May 9, 2002

Aching knees, colds, chills, teeth problems, or low vitality are likely to make the next three months rather depressing. Everything appears to be on hold, where nothing goes right. Finances or business may be a source for concern. This is not the time for making changes of a personal nature or seeking favors from those in authority.

Moon Conjunction Venus (Prg-Nat) Jul 12, 2002

This should be a pleasurable three-month period in which everything goes well. You may be feeling rather content, peaceful, and happy. Social affairs are activated with baby showers, weddings, the theater, or just dining out with close friends. Your emotions and feelings are aroused and eager for new and lasting attachments. Opportunities are favored for meeting someone special, getting engaged, married, or receiving gifts and invitations. This type of energy is especially helpful for those in the mood for interior decorating, entertaining, having their hair styled, or purchasing new clothes. A fairly good period for finances, investments, and purchases in general.

Moon Sextile Uranus (Prg-Prg) Jul 22, 2002

You may be highly intuitive, inspirational, and inventive during this trend. Make the most of all unexpected opportunities that may come your way. Expand your horizons through new interest or studies, especially the technical or unusual kind such as electronics, computers, or astrology. New, magnetic, stimulating, and unconventional friends and associations will be made. Enlarge social contact by joining clubs and organizations. Expect sudden and drastic changes which may be disturbing at first, yet beneficial in many ways.

Moon Square Venus (Prg-Prg) Aug 22, 2002

During the next three months, more than any other time, you are likely to be misunderstood and easily hurt. You may be too sensitive, permitting personal feelings to dominate over reason. Matters concerned with close ties, romance, or associations may not be going as well as you would like. This is not the time to push for an ultimatum; it more than likely will end in a disagreement or separation. This is not the best time for dealing with the opposite sex, or with social or domestic affairs. Temporary financial setbacks may also pose a problem.

Moon Sextile Ascendant (Prg-Nat) Aug 24, 2002

Emotional stability and good judgment can open the door to new opportunities for advancement. Seek positive changes in all directions of life, whether vocational, domestic, or personal. You exude great rapport at this time. Social contacts with women, and the general public, can produce beneficial results. Family matters should be on even keel, with a general feeling of contentment.

Moon Sextile Jupiter (Prg-Nat) Aug 29, 2002

Good fortune smiles at you through general prosperity or material gain. It is a good time to push personal and business affairs, and take advantage of new opportunities for future expansion. You may get a chance to travel or experience pleasurable contacts from those living in distant cities. Your positive outlook during this trend should bring you in touch with new friends or acquaintances and increase social contacts.

Moon Semisquare Mars (Prg-Prg) Dec 24, 2002

Excitement and increased acceleration of energy flow can create hasty or impulsive behavior. You should consider the consequences before giving vent to outbursts of feelings and temper, which can lead to disputes and possible separation. Avoid accepting new and challenging situations, without adequate knowledge of what it entails. Being too aggressive and sure of yourself can lead to difficulties and trouble. Find a constructive outlet for this new flow of energy, and act discreetly and in moderation.

Moon Semisquare Uranus (Prg-Nat) May 31, 2003

Mental irritability and an erratic state of mind may lean toward abrupt actions without proper forethought. Rash and hasty decisions at this time may be cause for regret later when this trend has passed. Be prepared for changes that you may not like, but that may be necessary in the scheme of things. Be selective of new relationships, friends, and the opposite sex. You may be drawn to the bohemian or peculiar types that will not be conducive to your well-being. This is a time in life when one becomes bored with daily routines and desires to run off into new horizons.

Moon Sextile Saturn (Prg-Prg) Jun 19, 2003

Personal affairs appear to be more secured and stable than they have in the past. You are developing a thoughtful, considerate, sincere, and persevering attitude. Those in authority may recognize your earnest persistence and decide to advance you to a position of authority. Make the most of this trend and be ready to accept added responsibilities that promise worthwhile accomplishments and long-range benefits. New friends that enter your life during these three months are likely to be faithful, loyal, and possibly of benefit.

Moon Sesquiquadrate Ascendant (Prg-Prg) Aug 11, 2003

Emotional and domestic difficulties, especially where women are concerned. They are likely to be a source of irritation or interference with personal plans. This could result in a break-up of close emotional ties -- perhaps a separation from a loved one or parent. If running for public office, it would be wise to seek the counsel of someone experienced in public relations. Your own image will not project as well as you would prefer. A PR person can help to smooth the rough edges.

Moon Square Sun (Prg-Prg) Oct 16, 2003

This is a good time to get a medical check-up as a preventive measure. Guard yourself against any potential health risks, and encourage your immediate family and close ties to do the same. You may be somewhat sluggish, with lack of energy which tends to decrease your physical constitution and stamina. Consider a vacation during this period, for a well-deserved

rest and a bit of relaxation. Get away from business or vocational duties that are less likely to be productive and beneficial. This is not a good time to begin new projects or undertake risky ventures. Tread carefully when dealing with close relationships. Aggravation with your job or lack of business acumen can easily spill over onto close ties, resulting in arguments and possible separation if pushed in the wrong direction. These three months can be a trying time, with low vitality and disappointments.

Moon Semisquare Ascendant (Prg-Nat) Oct 22, 2003

Emotional and domestic difficulties, especially where women are concerned. They are likely to be a source of irritation or interference with personal plans. A PR person can help to smooth the rough edges.

Moon Semisquare Jupiter (Prg-Nat) Oct 26, 2003

Not a favorable period for pushing financial or business affairs, due to possible loss or setbacks. These three months are of such short duration that it would be wise to temporarily postpone new undertakings, travel, educational pursuits, litigations, and negotiations. It may be difficult to form new friends or acquaintances, and your social life seldom works out as planned.

Aquarius on the Ninth Cusp

Computers, television, radio, and technology appear to have a big impact on your future during this trend. Take advantage of mass advertising and public exposure. Further education may enhance abilities with computers or start you off on the study of astrology. Travel is more likely to be with groups, as with a tour or with friends. On occasion, you may attend conventions or seminars to further your studies for advancement of your job. In some instances you may have to travel on the spur of the moment, so be sure to have a small suitcase packed and ready with necessities.

Pisces on the Tenth Cusp

Learn to exert yourself with superiors and others you work with when they try to take unfair advantage of your good nature. You are inclined to go by the way of least resistance when friction arises in career matters. Authoritative figures notice this, so you are generally the target when the time comes to pass out extra work without extra benefits. To compensate for this additional burden and your inadequate salary, you may feel justified in borrowing or using certain company products (such as personal use of their copy machine, paper, and other materials). It is possible that you may change the name of your company or adopt a nom de plume. Sometime during this trend, you can expect to see your photo in a newsletter or the local newspaper.

Mars in Pisces

There appears to be a personal sacrifice that may have to be made as Mars enters into the sign of Pisces. You are going to be more easily led, influenced, and manipulated. Endeavor to be more discriminative in your choice of friends and male companions. Impulsive actions can lead

to indiscretions regarding affectional matters and the forming of close attachments. Avoid the tendency to seek escapism from personal hurts or physical impairments through abuse of alcohol or drugs. Project your excessive energy into new outlets such as art, music, dancing, or photography. This is an excellent position for those seeking employment in medicine, pharmacy, hospital work, or a police department. Men who may touch on your life during this trend are likely to be musicians, artists, psychologists, physicians, or investigators. Try to avoid those of questionable background, who may be deceptive and perhaps abuse the use of alcoholic beverages or drugs.

Mars in the Tenth House

You are quite ambitious and independent, with boundless energy. You "chafe at the bit" when bosses try to restrict your freedom of movement, speech, or actions. For this reason, your career interests may be shifting, seeking new and challenging career opportunities that offer more flexibility in self-expression and personal decisions. In all likelihood you will be entering into a vocation that you have not encountered before. Working with mechanical objects, machinery, or tools may become part of your trade. There is the tendency to "overreact" toward rules, regulations, or demands made by your supervisor. Arguments, rifts, or misunderstandings can occur if you do not learn to control your actions. Men will play an important role in your vocational career, either assisting or hindering it.

Mars Quincunx Neptune (Prg-Prg) Jan 25, 2003

Disagreeable and chaotic conditions in your immediate environment can throw you off balance and leave you in a state of mental confusion. You will have to guard against unaccountable attractions toward situations or individuals involved with hidden or secret intrigues. Deceptive alliances or disreputable transactions can interfere with the normal flow of plans. This is not the time to undertake new projects or enter into business. Matters are not as they appear on the surface. Obscure sources of ill health can result through surrounding conditions. Check all areas for possible escape of gas, fumes or toxic material, and exercise caution around flammable fluids and gases. Avoid the abuse of drugs, alcoholic beverages, and prescribed medication.
