## Introduction

Astrology is as old as measured time. Although there are many different approaches to astrology, all astrologers appear united in the idea that there is a connection between the heavens and the Earth -- they share one common space. For centuries there has been a misunderstanding concerning the nature of astrology to the effect that the heavens somehow "influence" events here on Earth. This theory of celestial influence has penetrated into the modern world until today it is the main concept or idea of astrology supported by the public -- the lay astrological audience.

Professional astrologers do not hold with theories of celestial influence. Instead, the modern astrologer conceives of the heavens and Earth as united, interpenetrating, and sharing a common space and time. The great cosmic or celestial events happening around and beyond the Earth (eclipses, lineups, and so on) are not seen as CAUSING events to occur on Earth, but as great signatures of events ALSO happening here on Earth. In other words, there is no "cause" in the heavens followed by an "effect" here on Earth. Instead, both planetary and earthly events happen simultaneously and are mutually reflective. Neither is the cause of the other; both are the product of the moment, one acted out in the heavens above, the other here on the Earth below.

While astrologers don't feel that heavenly events are the cause of events here on Earth, they do feel that specific heavenly events are enacted here on the Earth too -- at the same moment. In other words, there is only one grand "play." The great drama enacted in the sky is also acted out (in exact detail) here on Earth in the same instant. Another way to say this is that the Earth is part of the cosmos and shares in that cosmic moment. Scientists have been discovering (for example) that sunspots, solar flares, and solar activity have a very definite (and almost immediate) effect here on Earth. Astrologers tend to feel that all major cosmic events such as eclipses are interactive; they represent an activity also taking place within us and our consciousness.

In summary, astrology is a study of heavenly cycles and cosmic events as they are reflected in our earthly environment and vice-versa -- a vast cosmic clock. Astrologers find the cosmic patterns revealed in the rhythmic motions of the planets a great help in shedding light on the seeming helter-skelter of everyday life. Astrologers may have their heads in the heavens, but only to better guide their feet here on Earth.

We hope you enjoy your Comprehensive AstroProfile. It has been calculated using sophisticated astronomical formulae to ensure high accuracy. On the next page you will find a list of the zodiac positions of your natal planets along with the house cusps for your birth moment.

## Your Rising Sign

First let's take a quick look at your ascendant, or rising sign. Astrologers want to know what zodiac sign is rising at birth, since this gives a picture of the way you appear or come across to others.

You are all things to all people, always responding in a way to please and flatter -- a social being. You are so diplomatic and polite that one wonders if you have a viewpoint of your own. You have a natural ability to reflect and mirror others.

## Planet Aspects

### **The Lights: The Sun and Moon**

At the time of our birth, the planets (through their configurations and relationships) tell us something about how things were when we were born. Each planet points to special qualities within us. Yet, of all the planets, the two most important planets to astrologers are the "lights," the Sun and the Moon. From where we stand here on Earth, the great shining Sun by day and the reflecting Moon at night are our constant companions. They have much to tell us as to where we have been and where we are headed.

### **The Sun: Your Self and Future**

From the Sun comes light, that which draws us into life. The Sun represents all the changes we have not yet taken, that part of us that we have not yet experienced but are headed toward. The Sun represents our identity, or self, in that it is toward these that we are moving and developing. Thus, it also represents that which we will become: older people, authorities -- those we look toward, or up to. Our essence, or future. Teachers, gurus, and older (more experienced) people are represented by the Sun. The Sun is "hot stuff," those further up the road of life experience.

You are outgoing, overflowing, and very generous. Always the leader, if not the center of any group, you seldom fail to exhibit strong emotions. You are proud of yourself and of your accomplishments. Dramatic and just plain happy to be here, you are warm of heart, gregarious, outspoken, and independent.

*Sun in Leo*

Responsibilities are easy for you, and you tend to pile on tasks, one after another. You work very hard, with a gritty resolve, and can accomplish much. It takes a lot to overload your willingness to take charge and help out. Organizational skills are good, and a career in one of the physical sciences is quite possible. You find it easy to work with those in authority or those who are more experienced than yourself.

*Sun Trine Saturn*

You are unconventional, independent, and drawn to whatever is different and original in life. You hate being tied down with the drudgery of routine, preferring instead to keep your options open. You may find yourself involved in causes that go against tradition, revolutions of one kind or another -- social or political. Your friends are probably also eccentric, in particular those in authority, older persons, and men who are nonconformist. Communication, computers, electronics, and everything new-wave is what you star in.

*Sun Conjunction Uranus*

You find yourself fighting to realize your ambitions amidst a sea of fuzzy dreams. A fear of letting go (and trusting the more mystical side of yourself) keeps you hard at it. You can't seem

to let yourself dream a little, don't trust your own idealizations, and struggle between your sense of ideals and your more realistic ambitions. Your practical concerns with getting ahead and fulfilling your ambitions tend to ignore your more deep-rooted ideals and dreams. You may not trust those in authority.

*Sun Square Neptune*

Expressing yourself and your relations with others are not always smooth and may tend to get explosive. You could be preoccupied with job and family to the exclusion of a social life. You may have trouble getting your ideas and thoughts across to others.

*Sun Square Ascendant*

You naturally gravitate toward positions of power and authority. Others see in you great practical ability and accept you as a leader or authority figure very easily. Your career may be very important to you, even at the expense of home life.

*Sun Conjunction Midheaven*

### **The Moon: The Support System**

Here is information about the kind of environment we create around us, our support system. It is not only the surroundings that we set up today, but the Moon also represents our past, the particular history and social background out of which we grew. Aside from our social background, the Moon governs all of the old habits that we have grown beyond. We tend to look down on, or back on, our Moon. It represents those experiences out of which we have come, all those younger souls who are unconscious, or "sub" conscious to our own level. This is why it is said that the Moon is a mystery planet, for it is both our parent and our child: our parent in that out of it we were born, our child in that we can't but respond to others who are now living as we once did.

You are concerned and caring when it comes to the welfare of others. Not dynamic or too emotional, you are attentive, observant, careful, and above all responsible -- able to respond. Always competent, you are in fact quite loving, although others could feel scrutinized or inadequate when in your presence.

*Moon in Virgo*

The public loves you, and it may be hard for you to avoid working with and for others. The way for you involves working with people. Everyone sees you as genuine and giving and tends to trust you on sight. Your ability to counsel others is excellent, and you are always sought out for advice. A born leader, others find it easy to take instructions from you and tend to follow your example. You enjoy helping others solve their problems.

*Moon Conjunction Jupiter*

### **The Inner Planets: Mercury and Venus**

The planets Mercury and Venus have more to do with our internal and personal life than with life outside us. These inner planets are located between the orbit of the Earth and the Sun. We can look to qualities that are inside us. Venus indicates how we appreciate and measure our experience, how we value life. Mercury tells us something about how our mind works, how we think and communicate -- our intrinsic brightness.

## Mercury: The Mind and Communication

Mercury is the light in our eyes, the ever-changing consciousness within us that moves from idea to idea. Thus Mercury has always represented thoughts, ideas, and the mental process in general. It governs not only ideas, but communications, too. Communications -- by phone, letter, spoken, or however -- are ruled by Mercury. Also thoughts, connections, phone wires, and everything that connects and conveys -- even conversations.

You have a fine mind and a great appetite for detail. You appreciate minute differences and distinctions. A craftsman with an innate critical sense, you are always full of suggestions. Your careful, conservative mind wants to salvage every last thing. You possess a love for detail and trivia. Quick-minded.

*Mercury in Virgo*

You have a love affair going with the mind and you value all of its offspring: words, ideas, thoughts, and such. And you love to talk. In particular you appreciate good conversation, and you feel that stimulating mental adventures (either alone or with others) are among the most exciting experiences life offers. You have a built-in sense of discrimination when it comes to the intellect -- all mental activities.

*Mercury Conjunction Venus*

You are a very forceful speaker and communicate with great enthusiasm. Words just flow out and are always followed by an emotional impact that brings them home to your listeners. You have no trouble putting your feelings into words; in fact, you may have to exercise some control over your tongue, for you are quick to say things and everything you communicate packs a wallop. Things you say mean a lot. You have a great mental drive and lavish great energy on mental pursuits of all kinds. Ideas, words, books, and the like are pursued with great gusto.

*Mercury Conjunction Mars*

You are expert at working with words that communicate mystical and mythological ideas. You are at home in these realms and can always manage to bring other-worldly ideas into the practical realms. You would make an excellent teacher of philosophy or religion, for you can't help but communicate these subjects and enchant all who come to know you. Your understanding of the unity behind appearances, along with the ability to put these thoughts into words, is a rare and valuable gift. You would make a good director, for you like working with mental images.

*Mercury Sextile Neptune*

Anyone who tries to get you to play with words is in for a big surprise. Your mind cuts right through all the window dressing and gets right down to the quick. Before anyone knows it, you have the heart of the matter out front for everyone to see. You would make a great investigator, either in scientific research or undercover work. It makes no difference. Your ability to get to the point is all but phenomenal. You can talk and put into words areas of the psychological that others wouldn't touch with a ten-foot pole.

*Mercury Conjunction Pluto*

Your mind is ever on communication, how you present yourself and come across with others.

It is easy for you to express yourself in a crowd, and you are a real smoothie. Everything seems to work out for you when you are talking with others.

*Mercury Sextile Ascendant*

### **Venus: Values and Discrimination**

Venus rules our values and sense of appreciation. When we appraise or appreciate something, whether that be another person or a new car, this is Venus -- the sense of love and compassion we may feel. By the same token, this planet rules enjoyment too. Whether it be self-appreciation or just plain old decadent self-enjoyment by having a good time, this is Venus. When we go shopping or are on a spending spree, it is Venus that allows us to appreciate and value all the good things of life.

Finely wrought or overwrought? You have a fine sense of appreciation and are very attentive. You love to help out and take care of others, expressing a first-rate sense of compassion. You possess an almost infinite ability to respond to the needs and demands of others. Fragile, refined, you are perhaps too prudish.

*Venus in Virgo*

You love words and ideas and sharing them through writing, speaking, and so on. You love to talk. You appreciate and value the intellect and all mental activities, have great taste and an eye for all that is fine. You are sharp when purchasing, a connoisseur.

*Mercury Conjunction Venus*

You have trouble accepting responsibilities. You don't like them. You would rather enjoy yourself at the expense of any obligations, letting them accumulate as they will. This struggle with authority and simple duty makes for great tension and diminished good times. It is hard to have fun when you are ignoring your responsibilities. What we have here is a stalemate.

*Venus Square Saturn*

You have the gift of working with others, helping them to sense and feel the unity of life. Your love of the spiritual and the eternal is clear to all who meet you. You love to solve the problems of the world, at least in words and images, and when you tell it, all are enchanted. Dreams and images are your stock and trade.

*Venus Sextile Neptune*

When you love, you love with energy and passion. You value personal contact, cutting through all the externals and getting to the heart of things. You understand and appreciate vulnerability and have no compunction about presenting your own sensitive spots to others. You enjoy working behind the scenes, getting at secret and hidden areas of the mind and psyche. Changes and transformative experiences are where you like to be most.

*Venus Conjunction Pluto*

You love appearances and have a way of pleasing others and coming across as loving and kind.

*Venus Sextile Ascendant*

## **The External Planets: Mars, Jupiter, Saturn**

The major planets outside the Earth's orbit (external to us) are Mars, Jupiter, and Saturn. These are the planets of the outer world -- life as we find it outside ourselves. Mars tells us something about the drive and energy we have, Jupiter shows us how to best channel that energy, and Saturn decrees what sort of material or territory we will be passing through. Again: Saturn tells us about the territory we will be going through, Jupiter the way or path through it, and Mars what kind of push or drive we can count on to keep going.

### **Mars: Drive and Emotions**

Mars is the planet of emotion and inner motivation or drive. When we search for the meaning of something, life or whatever, it is Mars that urges us on, keeps us searching. Mars also drives us against things, too and sends us into war and combat. The urgency of Mars, the search for meaning, is identical to the need for union, yoga, and marriage. Mars is the planet of union, and marriage is the most common form of yoga. When we have questions about the opposite sex, we are looking at the planet Mars.

You are always center-stage and entertaining others. You have an almost fierce sense of pride and are very dramatic and expressive, sometimes forceful. You are a natural at sports, games, anything that "gets it out." Very emotional, you have strong likes and dislikes. You are good with kids, animals -- a teacher or coach. You act it out.

*Mars in Leo*

You think and communicate with great force and in a very direct manner. You are quick with words, quick to anger, and often sorry later for the sharp things you say. You have great mental concentration and perseverance. You can articulate your emotions.

*Mercury Conjunction Mars*

You have an ability to work with the imagination, reaching beyond the mundane to the potential beyond. Your enthusiasm for mystical and religious experience makes you an excellent teacher in artistic and creative matters. Your sense of the unity behind things spiritual and psychological is clear and felt by those around you. You are, no doubt, a romantic, at home in the world of dreams and images. You enjoy working in these areas.

*Mars Sextile Neptune*

You have a relentless drive to get at the heart of things, whatever is under the surface or behind the scenes. Your relentless pursuit of anything hidden or secret makes you a researcher or investigator bar none. Emotionally you are also hot stuff, rushing into areas and handling subject matter that others would never come near. Vulnerable issues, sensitive areas of the self, and psychology are the first places you head. This amounts to a passion with you. Those around you may find you just too intense to be around. It puts them through a great many changes.

*Mars Conjunction Pluto*

You come on very strong. You have great confidence and a "take charge" sort of manner. You are a great doer, and others accept your commanding nature. You are a good team player.

*Mars Sextile Ascendant*

## **Jupiter: Career and Life Path**

Jupiter is the planet of success and simple survival, the way we have to solve the problems that confront us. Thus Jupiter has to do with the way in which we can be successful, our vocation. The Hindu word for Jupiter is Guru. Jupiter is the guru and guide, the way we go through life, our life path or vocation. Jupiter is the method each of us has for dealing with the laws of life, our Saturn, or limitations. Jupiter is the light or path. Jupiter provides us with our sense of direction, the path we are on, the way we handle life. It affects how we approach life's problems. It has always been an indicator of how successful we may be, our vocation.

A service career is a perfect choice, for you want very much to be of use, to be used up. You have a fantastic appetite for detail work, and can take it all in and still look for more. Willing and able to respond to almost any emergency, you are responsible and always ready.

*Jupiter in Virgo*

A born teacher or group leader, counselor or guide. Others find it easy to take direction from you by example alone. You enjoy immersing yourself in a group, solving problems, raising spirits, and so on. People admire your openness and generosity.

*Moon Conjunction Jupiter*

You are gifted and even "lucky" when it comes to career decisions. Things almost always manage to work out for you.

*Jupiter Sextile Midheaven*

## **Saturn: Responsibilities**

The process of finding out who we are (self-discovery) starts when we come to grips with whatever problems life presents to us and begin to get a handle on them. In other words, if we have not dealt with Saturn, or time (that is, if we don't have some control of time), there is little opportunity for other questions. Saturn rules the laws and limitations of this material world we all live in. Saturn indicates where we are bound to learn, the narrowness that makes our way felt, the walls that make homes possible. Saturn holds us together as much as apart. Saturn is said to be the great teacher, the planet that keeps us from getting carried away in one direction or another. Although it always seeks to limit and determine any thought, word, or action, it also defines and clarifies. Saturn is called the prince of the material world.

There could be difficulty with long-term goals and philosophies. You don't trust them. Nearsighted, with your nose to the grindstone, you need to travel and explore the length and breadth of the mind and world. Open up. Learn to value freedom, frankness, independence. Look up!

*Saturn in Sagittarius*

There is a real love of science and natural laws. You are a hard and tireless worker, with absolute determination and the ability to accomplish great projects with ease. You are fiercely loyal to your friends. Also, very integral... perhaps too sober.

*Sun Trine Saturn*

You may have trouble enjoying yourself, appreciating the finer things of life. Your no-nonsense, serious approach may tend to limit and cut off feelings of warmth and compassion. The result could be a struggle between binges and responsibility.

*Venus Square Saturn*

You are very skilled at implementing change and improving existing circumstances. You seek to understand and improve situations, finding new but secure ways to better conditions. Inventions and discoveries, in particular in communications, computers, and electronics, may be possible. You bring order and organization to areas where new development is taking place, also emergency situations. You can teach and help others to understand this as well.

*Saturn Trine Uranus*

### **The Outer Planets**

In the previous sections, we have dealt with planets that we can see with our naked eyes. In general, these planets refer to life as we know and live it and are the so-called historical or classic planets. Beyond these are three planets that are not visible in the sky and which have cycles longer than the average human life span. Since they are beyond Saturn or time, astrologers call them the trans-personal or transcendental planets -- the planets beyond the physical. One of the ways astrologers learn something about our life beyond time (eternal life) is through these three outer planets: Uranus, Neptune, and Pluto. Here we find information on how we discover ourselves (Uranus), how we understand and accept these discoveries (Neptune), and, in time, how we depend and identify with them (Pluto).

#### **Uranus: Break-Thrus & Insights**

Our responsibilities can tend to weigh us down, and we each have our particular ways of getting around (or breaking through) the mass of obstructions that tends to congeal around us. The planet that has to do with how we get beyond the difficulties and problems life presents us is Uranus. Here is the way insights come to us, how we discover or come to know and understand ourselves. It has to do with finding new uses for old things, and it rules inventions and sudden insights into our life -- everything that is unusual, eccentric, and out of the ordinary. It is the reverse of the status quo and is always unconventional and heretical. Uranus is, in many ways, the opposite, or undoing of Saturn.

You have great insight into matters of personal freedom. You come up with brilliant ways to express, emote or act things out. New methods of lovemaking, raising kids, caring for animals are yours. You are outspoken, very dramatic, impressive, and even regal. You relax with children, sports, acting, singing, and such. You really like yourself.

*Uranus in Leo*

You are independent and value freedom and the ability to move around and avoid routine. You admire the unconventional and different, and your friends could be eccentric authority figures. Inventions, electronics, computers, and the like would appeal.

*Sun Conjunction Uranus*

Improvement of existing circumstances. Insights into the status quo, ways to make use of a situation to serve new needs. Making a "silk purse out of a sow's ear" sort of thing. Invention, electronics, computers.

*Saturn Trine Uranus*

### **Neptune: Ideals & Imagination**

Even the most hard-nosed of us have moments of real understanding, when things are seen as linked together and one piece. We stop getting the idea in little flashes and just get the whole thing. It dawns on us. We each have our own way of letting go, having communion, and (as the poet wrote) letting "the dewdrop slip into the shining sea." These moments and this state of mind are, in fact, the source for all our imagination. There are many ways of seeing through the separateness in the world to the unity behind it.

Relationships are the ideal. Non-discriminating and impersonal in scope, to you all are equal. You are seldom bound by tradition or personal ties and are not domestic. You hold the ideal vision up to the real. You open up in response to others and accept others as yourself.

*Neptune in Libra*

You struggle between your sense of ideals and your more practical ambitions. Your self-image and dreams are kept apart from the day-to-day practical concerns. They continue to confront one another. Authorities may not trust you, and vice versa.

*Sun Square Neptune*

Great psychological talent. Able to sense and feel in the more abstract mental areas and to bring far-out ideas down to earth. Always at the leading edge of social understanding. Great sense of compassion and a real understanding of others.

*Mercury Sextile Neptune*

A mother to every animal, child, or needy person. Generous to the extreme with others. Always sensing the unity in life, as in the phrase "the dewdrop slips into the shining sea." You love movies, myths, and long thoughts. No doubt a dreamer... a lover.

*Venus Sextile Neptune*

Driven towards the communal, to what unifies us all. Always seeing what we hold in common, rather than our differences. Idealism of a high order. Religious themes. Romantic. At home in psychic or psychological realms. The common denominator.

*Mars Sextile Neptune*

You work with real imagination and understanding in areas of the mind that are the most personal or private -- depth psychology. You are like a midwife of the spirit, assisting at the birth of each individual going through a spiritual or re-birth process. You accept the natural process of birth, spiritual and physical, and have dedicated yourself to helping it along. You would make a great teacher in these areas.

*Neptune Sextile Pluto*

You have a way of entrancing others and bringing them under the spell that you weave so well with your imagination and sense of communion.

*Neptune Conjunction Ascendant*

You are an idealist when it comes to partners and relationships, always holding out for what your imagination tells you could be. This could result in disappointment when others fail to measure up to your expectations.

*Neptune Square Midheaven*

### **Pluto: Inner Change and Growth**

Pluto is the planet of profound change, starting deep within us and moving toward the surface. It often touches upon the most sensitive psychological areas inside us. Once touched, we have no choice but to change and grow. The most sensitive of experiences, the times of greatest vulnerability, are times of complete identification with an experience, a person, or a thing. We know in these instants that we are looking at our self, what we are. The most personal of experiences is one of complete identification with a person, moment, or idea. Perhaps this is only possible for most of us when we look into our child's eyes, and then only infrequently. Love is not the experience here, but total identification. This is very sensitive stuff. To touch upon this material is to go through deep inner change and transformation -- inner alchemy. Identification and experiencing that life is our own creation and that, in fact, you are I and I am you. This experience breaks us down and humbles. When we touch upon this experience, we cannot but die to what we have been thinking and doing up to now. It reduces us to our most sensitive because -- in a flash -- we see or remember that it all is us, our life.

You are very sensitive (even vulnerable) when it comes to expressing yourself, getting it out. Periods of intense creativity enable you to go through changes and inner growth. This creative intensity is good for music, poetry, art, and such.

*Pluto in Leo*

Your intense and probing mind has no trouble getting at the heart of any question. Woe to anyone who tries to argue with you or hide things from you. A natural mind for research, detective work, and any undercover operations. Always curious.

*Mercury Conjunction Pluto*

You love all that is personal, secret, and esoteric. Vulnerability is something you appreciate and value, and you love to sift and analyze what you find within the human psyche. You show affection with passion and intensity.

*Venus Conjunction Pluto*

Intense and passionate emotions are your trademark, and you have a sense of mission when it comes to pursuing psychological issues and anything that is esoteric, hidden, secret. You search things out and are at home with change and transformation.

*Mars Conjunction Pluto*

A searing vision that cuts through what passes for conventional religion. A vision of the endless process of life ever being born afresh. Great acceptance and faith in the natural process and next generation. Love of children and animals.

*Neptune Sextile Pluto*

You always manage to come across as intense and personal when communicating and presenting yourself to others. Others can be fascinated by the way you come on.

*Pluto Sextile Ascendant*

## Challenges and Abilities

### Focus

These are areas of life where we show intense focus and activity. For better or worse, these qualities stand out and are obvious to all those who come to know us. They are very clear parts of our character.

You may find yourself involved in causes that go against tradition, revolutions of one kind or another -- social or political. *Sun Conjunction Midheaven 07°24'*

## **Challenges**

Life can be challenging, and things are not always easy. The major challenges in a natal chart are where we can expect increased activity and personal involvement -- ready or not. These critical areas of life can be difficult, and the resulting confusion and possible obscuration often makes it hard for us to see and act with normal clarity. Therefore, when it comes to the following factors you may wish to exercise caution and extra patience.

You are an idealist when it comes to partners and relationships, always holding out for what your imagination tells you could be. This could result in disappointment when others fail to measure up to your expectations.

*Neptune Square Midheaven 00°24'*

You have trouble accepting responsibilities. You don't like them. You would rather enjoy yourself at the expense of any obligations, letting them accumulate as they will. This struggle with authority and simple duty makes for great tension and diminished good times. It is hard to

have fun when you are ignoring your responsibilities. What we have here is a stalemate.

*Venus Square Saturn 02°40'*

You find yourself fighting to realize your ambitions amidst a sea of fuzzy dreams. A fear of letting go (and trusting the more mystical side of yourself) keeps you hard at it. You can't seem to let yourself dream a little, don't trust your own idealizations, and struggle between your sense of ideals and your more realistic ambitions. Your practical concerns with getting ahead and fulfilling your ambitions tend to ignore your more deep-rooted ideals and dreams. You may not trust those in authority.

*Sun Square Neptune 07°00'*

Expressing yourself and your relations with others are not always smooth and may tend to get explosive. You could be preoccupied with job and family to the exclusion of a social life. You may have trouble getting your ideas and thoughts across to others.

*Sun Square Ascendant 07°40'*

### **Talents and Abilities**

Despite whatever problems we may have, there are areas of life where we have clear insight and real talent -- natural ability. When it comes to these matters, our judgment is sharp and we always manage to take charge. We have the knack. It may be as simple as the ability to work hard and accomplish things without something going wrong. An innate sense of the workings of these parts of life makes it easy for us to learn and accomplish things where they are concerned.

You always manage to come across as intense and personal when communicating and presenting yourself to others. Others can be fascinated by the way you come on.

*Pluto Sextile Ascendant 00°06'*

You are expert at working with words that communicate mystical and mythological ideas. You are at home in these realms and can always manage to bring other-worldly ideas into the practical realms. You would make an excellent teacher of philosophy or religion, for you can't help but communicate these subjects and enchant all who come to know you. Your understanding of the unity behind appearances, along with the ability to put these thoughts into words, is a rare and valuable gift. You would make a good director, for you like working with mental images.

*Mercury Sextile Neptune 00°32'*

You are very skilled at implementing change and improving existing circumstances. You seek to understand and improve situations, finding new but secure ways to better conditions. Inventions and discoveries, in particular in communications, computers, and electronics, may be possible. You bring order and organization to areas where new development is taking place, also emergency situations. You can teach and help others to understand this as well.

*Saturn Trine Uranus 00°33'*

You work with real imagination and understanding in areas of the mind that are the most personal or private -- depth psychology. You are like a midwife of the spirit, assisting at the birth of each individual going through a spiritual or re-birth process. You accept the natural process of birth, spiritual and physical, and have dedicated yourself to helping it along. You would make a

great teacher in these areas.

*Neptune Sextile Pluto 00°33'*

You are gifted and even "lucky" when it comes to career decisions. Things almost always manage to work out for you.

*Jupiter Sextile Midheaven 00°52'*

Responsibilities are easy for you, and you tend to pile on tasks, one after another. You work very hard, with a gritty resolve, and can accomplish much. It takes a lot to overload your willingness to take charge and help out. Organizational skills are good, and a career in one of the physical sciences is quite possible. You find it easy to work with those in authority or those who are more experienced than yourself.

*Sun Trine Saturn 00°53'*

Your mind is ever on communication, how you present yourself and come across with others. It is easy for you to express yourself in a crowd, and you are a real smoothie. Everything seems to work out for you when you are talking with others.

*Mercury Sextile Ascendant 01°11'*

You come on very strong. You have great confidence and a "take charge" sort of manner. You are a great doer, and others accept your commanding nature. You are a good team player.

*Mars Sextile Ascendant 04°51'*

You have the gift of working with others, helping them to sense and feel the unity of life. Your love of the spiritual and the eternal is clear to all who meet you. You love to solve the problems of the world, at least in words and images, and when you tell it, all are enchanted. Dreams and images are your stock and trade.

*Venus Sextile Neptune 05°13'*

You have an ability to work with the imagination, reaching beyond the mundane to the potential beyond. Your enthusiasm for mystical and religious experience makes you an excellent teacher in artistic and creative matters. Your sense of the unity behind things spiritual and psychological is clear and felt by those around you. You are, no doubt, a romantic, at home in the world of dreams and images. You enjoy working in these areas.

*Mars Sextile Neptune 05°30'*

You love appearances and have a way of pleasing others and coming across as loving and kind.

*Venus Sextile Ascendant 05°52'*

## **Landscape: Major Life Periods**

What follows amounts to a brief overview of the first thirty years or so of your life -- a road map of the years to come. Since childhood, adolescence, and early adult life are so crucial to each of us, an attempt has been made to describe these formative years. Based on the gradual movement of the planet Saturn, this is one of the most tested of all astrological techniques. It is used by almost every professional astrologer as part of any personal consultation. Provided that your time of birth is more or less accurate, you will find this information both accurate and informative. Here is a general life overview, followed by a close-up on your current changes -- what is happening right now. First the overview:

### **Your Personal Background**

A very active and outgoing youngster, you show an interest in the outside world and social life very early, say around 11-12 years of age. You may at this time move very rapidly into the limelight and find yourself a leader and quite successful in all social activities. Things will just work out for you. This trend will continue and reach a peak when you are about 18-19 years of age, after which time you will lose interest in the social and external and turn more inward. This could result in your being somewhat of a prodigy and achieving a very early career success, only to find yourself less and less involved in it. You may even turn away from everything and choose to start over again to find a new vocation. You may discover yourself spending many years pursuing a more inward and subjective path that could last until you are 30 years of age (or more) at which time you will turn outward once again and take a new direction.

### **Your Current Situation**

Now for a close-up of recent years: while landscape was quite general, the dates given in this close-up should be much more precise. Life is composed of sections of time, each devoted to one kind of activity or another. We go along for a while in one direction until something changes within (or outside) us and we head off in a new course. Some of our earlier activities dry up and new ones spring up in their place. What follows is an analysis of the time period in which you find yourself now. Don't look here for a day-to-day account of life but rather to get a picture of this stretch of time, "these years."

**Jun 10, 1998 1st Pass D> (Age 40 10m)**

**Nov 04, 1998 2nd Pass R< (Age 41 3m)**

**Feb 20, 1999 3rd Pass D> (Age 41 6m)**

The above dates mark the end of a number of years of hard work on your part, sort of an apprenticeship. Now you will begin to come into your own. Opportunities will present themselves. Now is the time to make that outward push and ride the crest of the wave into fame and fortune. This is the best time you will have (for many years) to make progress, push forward, and rise to prominence. It will be hard for you to do wrong, for all the cycles are working in your favor. This is also a time when you may marry or take on a new role in the community or with other people. You will be in demand, and recognition will be forthcoming. Go for it. These next 6-7 years will find circumstances working to help you and raise you up, push you forward. In summary, this marks a more outward and enjoyable series of years, during which things will

come to you easily. Friends and a social life are in order and, in general, an easy and untroubled life. These are good years to grow up, be social, recognized, and so on.

*Saturn in 03rd Quadrant*

### **The Elements, Modalities and Angularity**

Elements, modalities, and house quadrants. These are all techniques used by astrologers to gain a general picture of how a person measures up. How do your planets and houses total up? Which do you have in abundance, and which do you lack, if any? Those with high totals show what we can or must do in life. These are qualities we have. However, most people are more interested by what they lack or want -- their lowest totals. They tend to study their "wants," imitate, and even pretend to have them. The old adage is: we become what we want (or lack), while we do what we can (or have to do). Here are your totals:

Your positivism lets you get right to the point, and you have little patience with those who shilly-shally. You've plenty of enthusiasm and warm up to things and people quickly. You have an inner self-confidence which burns with its own light.

*Have Fire*

You may have trouble understanding those who seem emotional or sentimental, yet your own practicality and factuality may attract just such types into your life. You may try to balance your lack of intuitiveness with logic and common sense.

*Want Water*

Very communicative, flexible, mental, and other-oriented. Perhaps you can be all things to all people, giving them what they require. Probably a smooth talker with a quick wit and ready tongue.

*Have Mutable*

Not a great starter, you may have trouble initiating things and getting them moving. You may need help from friends or others in learning how to be more aggressive and outgoing.

*Want Cardinal*

Your energies run effectively toward making yourself felt in the material, tangible outer world. You are an "action" person who gains the attention of others and seems to get things moving. The circumstances of your life suggest extroversion.

*Have Angular*

You may complain of never having any privacy or time to think -- your pattern seems to throw you much in contact with people and the outer world. Being an extrovert, you may have difficulty understanding reclusive types.

*Want Cadent*

## Your Burn Rate

We all change, but the question is: At what rate? Some of us tear through change after change, one phase following another, year after year, while others move at a more serene pace. Or, one area of our lives may be hectic and forever changing, while other areas are quite tranquil. Why do some people seem to live lifetimes within lifetimes? Here is an analysis of your particular rate of change or "burn rate," including the particular areas of your life (planets) where you can expect continued change and growth. Areas where there is a very low index of change (indicating clear and easy use of the qualities involved) will also be pointed out. If you have sometimes wondered about the areas of your life where the candles burn at both ends, here are the details.

You have a high burn rate (index of change) and tend to run hot and fast. It is almost like having many lifetimes within this single one. Things are always fast and furious with you, and you seldom remain calm for long. Your thirst for experience and growth keeps you always on the move. You work through an enormous amount of change compared to an average person. In particular, the following qualities are areas where you have experienced and will continue to experience much change. These areas of life persist in presenting themselves to you, so you may already have become very experienced in them. On the other hand, they could be arenas in which you struggle but have not yet attained mastery.

A majority of planets in the FUTURE suggests that you tend to run ahead of the pack, taking changes and acting things out before they become accepted and a part of the status quo. Things happen to you that you come to understand over time.

### **Planets in High Focus**

There are big changes (high burn rate) throughout your life in matters of organization and responsibility. It may be difficult for you to learn to be thorough, to finish things, and take care of all the loose ends. You may have a lot to learn regarding what is and what is not essential in life -- separating the wheat from the chaff. Getting down to the nitty-gritty, the bare bones of the matter, could well be a major lesson.

*Saturn*

Very clear insight, even genius, when it comes to discovering or inventing things. You were born with this fully operational. It requires no teaching. Your low burn rate in this area indicates an ability in electronics, computers, and so on.

*Uranus*

You have a high rate of change when it comes to what you believe in -- your ideals and dreams. You adjust and change your ideals often and struggle not to get carried away with each new vision. The world of your imagination is a major focus of change.

*Neptune*

## **Patterns: Your Inner and Outer Self**

Here we are examining your basic attitude or approach to life, what is called by some the archetype or soul-type. If you know something about your particular soul-type, this can provide valuable information as to the general direction and purpose of your life. In particular, it is important to note the difference, if any, between our outer personality (the way we appear to others) and our real inner self; how are we, in fact, as people get to know us? Not all people are as they seem.

Appearances can be deceiving, and here is a case in point. Your appearance (the way you come on) and personality suggest that you may be inward, quiet, and concerned about what other people think. This, in truth, is not the case. Although gentle-mannered, conservative, and sensitive on the outside, you are tough as nails on the inside -- as anyone can testify who gets to know you very well. The fact is that you like attention and have a real need to be at the center of any group. Your more sensitive style hides a strong, aggressive, and quite confident nature. You are at home in a crowd and enjoy the attentions of others. You expect them to come to you. Your mild mannered smoke-screen hides a real tiger. Appearances aside, let's take a look at the real or inner you.

*Geo: Trine Helio: Square*

### **Your Soul Type**

You are independent, confident, and more than likely more than a little self-centered. You love attention and somehow manage to gravitate to the center of almost any group or happening. Others accept you, for they sense you are a leader and admire your almost regal manner. Yet they may have to keep their distance, for as much as you love attention and the crowd, you are also fiercely protective of your independence, sense of freedom, and -- above all -- your privacy. There is a kind of contradiction here. When in the mood, you love to express yourself, entertain and perform for others, and enjoy being surrounded by an audience. You are very magnetic and dynamic. Others love to be with you. There is something about you that others can't seem to get enough of; yet for all your confidence, you tend to depend on others for advice and counsel. Your grasp of the moment is unquestioned. You're it, or at least always in the midst of it. Yet you find yourself needing the advice of someone who is not as involved, someone to give you directions from time to time. In a sense, you are all dressed up but are not sure where to go or where you are headed. And because of this, you depend on those around you for direction and guidance during the times when you lose sight of the bigger picture.

You are a very feeling person and can sense the drift of a situation without a lot of analysis. This immediate "hands-on" approach might be contrasted with one that is more deliberate and cerebral. You could be left with a bit of an inferiority complex when it comes to matters of education, philosophy, and conceptual ability. In a word, you revere this kind of stuff, not because it is natural to you but rather because it does not come easy for you. You have to work for it. There may be a tendency on your part to puff up your intellectual powers.

It is said that there are just two kinds of people in the world, those who are born to love and those who are born to be loved. You are the second type, one who is born to be loved and cared for by others. Don't feel bad about attracting attention in a group. People love to be with you and find you very easy to love. Everyone wants a piece of you, and this can result in your needing more space, a chance to be alone. Your type is not famous for being attentive to the needs of others or being very demonstrative in a love relationship. You are the immovable object that others find irresistible and sometimes selfish. You love to express yourself and are a born entertainer. You are very stubborn and have great stamina. You may tend to fear that others find you a little dense or too sense-oriented. You radiate energy and information and have to just accept the fact that people like to feel your warmth. Let them take care of you. You sit on the throne.

*Square Type*

### **The Key to your Inner Life**

Each person has one or more key qualities. Here we are not referring to our appearance or personality, but rather to our inner nature, how we are when someone really gets to know us.

Just being yourself, living your life for the moment, being here now. In some sense, just being yourself is both the goal itself and the means of traveling to that goal. Others sense that your life is important. You are your own reason for being. You are yourself both the end that you are heading for and the way, or vehicle, that gets you there. You, as a being, are yourself the heart and center of all your inner activity. Your dreams, visions, and ideals propel you, but always from within. You follow the inner guide, and your ambitions are true and serve to show the way.

*Sun*

You have an uncanny ability to get beyond the status quo, always coming up with new ways of doing things. You can take the most mundane stuff and find that new angle. Unpredictable and spontaneous, you seldom lean on precedent, preferring to create as you go. All will agree that you are indeed very original, unconventional, and possess deep and accurate insights. Much of what makes you "you" depends on this independence and love of freedom. You discover inner ways that are fresh and vital.

*Uranus*

### **The Key to your Personality**

You are driven and passionate in your pursuit of change and inner growth. You possess, at the core, an intensity that burns through superficialities, searching for opportunities to face the truth and render the evident to view. This ceaseless analytical activity, while central to your nature, may be the source of discomfort to others.

### **The Personal Hot Spot**

You tend to take everything with great intensity. Your drive to get at the heart and truth of things is constantly invoked, and serves as a common theme in your life.

*Pluto*

Your mind (all that is mental) mark the single most active factor in your make-up. The key

spot in your personality and circumstances is your mind (the world of ideas and communication).

*Mercury*

### **Interface: Innermost qualities**

This feature is based on an intricate analysis of the position of a particular planet in relation to the orbital planes of the other planets. The resulting series of crossings, or nodes, tells us something about the nature of our innermost inclinations (Inc) and disinclinations (Dis). These indicators are not to be considered at the level of our personality, but rather are deep-seated parts of our innermost character -- our internal biases. These pros and cons are not apt to change in the course of our lifetime.

You have the mind of a lawyer, always able to size up a problem and come up with a solution. Using your mind to negotiate obstacles and handle dilemmas (your own or those of others), is a great talent. You have an innate ability to guide and lead others through the hurdles and hassles of life. You could be very much in demand as a counselor. You are a problem-solver.

*Mercury Inc Jupiter*

You have more than just the gift of gab. Your words and ideas can transport and enchant listeners, carrying them beyond the world as they know it into the world as they wish it could be. Your imagination and sense of what connects all of life is felt in your speech and in the way you communicate. You love a good story, and a sense of the mystical pervades every one you tell. You are at home in the world of myths and dreams, for your mind soars on wings of the imagination.

*Mercury Inc Neptune*

What you don't love is the parade of emotions -- directness from others. What you do love and appreciate may not be as clear to you as what you do not love. You are troubled by all that gets too pushy, physical, and gushy. About this you are clear. Sports, ordeals of bravery, and all that is too physical is objectionable. Given the world as it is and your predisposition, a certain amount of emotional tension is unavoidable.

*Venus Dis Mars*

You are responsible to the extreme, always taking on obligations and pushing yourself to the limit. You pursue your obligations with much emotion and obvious enthusiasm. You are Spartan when it comes to your needs and surroundings. Small and less are beautiful for you. If anything, you try too hard and tend to force things. Others may find your approach severe and hurtful at times. You can be too sober and frugal.

*Mars Inc Saturn*

You are driven when it comes to fulfilling your ambitions and carving out a career. There is no lack of energy or drive here, and nothing can stand in your way. Everything is poured into making the right moves, the correct decisions. You are outgoing, enthusiastic, and always diplomatic -- everybody's favorite. You have a natural instinct for making the correct move at the

right time. Politics or some public career seem inevitable.

*Jupiter Inc Mars*

You waste a lot of energy sailing into the wind and clashing against authority or reality for no good reason. You resent having to get serious, go to work, and take on responsibilities. Your efforts tend to lack the determination and organization necessary for real accomplishment. Very little can be accomplished without some sort of discipline and training, and you resist these like the devil. You avoid work.

*Saturn Dis Mars*

Your insistence on the traditional clashes with everything in the world that is innovative and changing. You come up against this again and again. Your drive and emotions take conservative, well-traveled paths, carefully avoiding the new and different. You may have trouble feeling spontaneous and become overly dependent on others. All of this erupts in sudden fits of temper from time to time.

*Uranus Dis Mars*

Unusual vocations. Your career or life path, the way you make your living or get through life, will be very different, perhaps unique. You always take the road less traveled by and, skirting the crowd and the commonplace, head for parts unknown. Your approach to any problem is always original and you could invent things or discover new places or develop new ways of doing things. Communications, computers, and the whole electronic revolution are a perfect career choice for you.

*Uranus Inc Jupiter*

You find it difficult to be spontaneous, to get away from routine and do something different. Others see in you a creature of routine. Travel may also be hard for you. It is not easy for you to change or to accept changes. When you do enact a change, it is always at the deepest or core level and affects everything else in your life. Once a change is made, it at once becomes a part of you, solid and immovable. Those near you may feel that you inhibit the proverbial "life of the party." Code, computer programming, and the like should interest you.

*Uranus Inc Saturn*

You have more than just the gift of gab. Your words and ideas can transport and enchant listeners, carrying them beyond the world as they know it into the world as they wish it could be. Your imagination and sense of what connects all of life is felt in your speech and in the way you communicate. You love a good story, and a sense of the mystical pervades every one you tell. You are at home in the world of myths and dreams, for your mind soars on wings of the imagination.

## Major Transits Happening Now

Astrologers use the term "transits" to mean the positions of the major planets that are overhead (in the sky) right now and their relationship to our birth chart. Transits are very important indicators of the current situation in which we find ourselves. They can provide insight into what we are now going through. Here are the dates when the next major transits for the planets Jupiter, Saturn, Uranus, Neptune, and Pluto are exact in your chart. Some dates will have already passed and some are still to come. Remember, with these large planets transits don't just happen on the day when they are exact. They cover a wide span of days, weeks, months, and sometimes years, depending on which planet is involved.

In general, transits of Jupiter take from several days to a week or two to complete, while those of Saturn take from two weeks to a month to play themselves out. With the outer planets, the period of activity is even longer: transits of Uranus take about two months, Neptune three or four months, and Pluto takes about a year. Uranus, Neptune, and Pluto move so slowly that the complete transit experience may take a year or two to complete itself. So be prepared to work with these situations.

## House Activity and Emphasis

The twelve houses of the horoscope, particularly when they are occupied by a planet, provide a clue to areas of special activity and use. Here is an analysis of house activity based on planet emphasis:

### **First House: Appearance, Approach**

The first house has to do with how we appear or the way we come across, thus our appearance and personality. This is the essential stuff that bubbles up in us spontaneously and that is obvious to others as our trademark or activity. It is what makes us each so personally different. This house rules our personal self and everything about us that draws a reaction from our surroundings or others.

*First House*

Libra energy is always facilitating and responsive, assuming the appropriate reaction or response to any question or statement. What is sometimes seen as two-faced is only Libra's facility at responding to each in kind. This is certainly the social sign, par excellence. Impersonal and impartial, this sign doles out only what is demanded, never overdoing things.
