## Introduction

Astrology is as old as measured time. Although there are many different approaches to astrology, all astrologers appear united in the idea that there is a connection between the heavens and the Earth -- they share one common space. For centuries there has been a misunderstanding concerning the nature of astrology to the effect that the heavens somehow "influence" events here on Earth. This theory of celestial influence has penetrated into the modern world until today it is the main concept or idea of astrology supported by the public -- the lay astrological audience.

Professional astrologers do not hold with theories of celestial influence. Instead, the modern astrologer conceives of the heavens and Earth as united, interpenetrating, and sharing a common space and time. The great cosmic or celestial events happening around and beyond the Earth (eclipses, lineups, and so on) are not seen as CAUSING events to occur on Earth, but as great signatures of events ALSO happening here on Earth. In other words, there is no "cause" in the heavens followed by an "effect" here on Earth. Instead, both planetary and earthly events happen simultaneously and are mutually reflective. Neither is the cause of the other; both are the product of the moment, one acted out in the heavens above, the other here on the Earth below.

While astrologers don't feel that heavenly events are the cause of events here on Earth, they do feel that specific heavenly events are enacted here on the Earth too -- at the same moment. In other words, there is only one grand "play." The great drama enacted in the sky is also acted out (in exact detail) here on Earth in the same instant. Another way to say this is that the Earth is part of the cosmos and shares in that cosmic moment. Scientists have been discovering (for example) that sunspots, solar flares, and solar activity have a very definite (and almost immediate) effect here on Earth. Astrologers tend to feel that all major cosmic events such as eclipses are interactive; they represent an activity also taking place within us and our consciousness.

In summary, astrology is a study of heavenly cycles and cosmic events as they are reflected in our earthly environment and vice-versa -- a vast cosmic clock. Astrologers find the cosmic patterns revealed in the rhythmic motions of the planets a great help in shedding light on the seeming helter-skelter of everyday life. Astrologers may have their heads in the heavens, but only to better guide their feet here on Earth.

We hope you enjoy your Comprehensive AstroProfile. It has been calculated using sophisticated astronomical formulae to ensure high accuracy. On the next page you will find a list of the zodiac positions of your natal planets along with the house cusps for your birth moment.

## Your Rising Sign

First let's take a quick look at your ascendant, or rising sign. Astrologers want to know what zodiac sign is rising at birth, since this gives a picture of the way you appear or come across to others.

You wear your heart on your sleeve and always manage to come across as confident and sure of yourself (possibly egotistical). You are very free with your emotions, which nevertheless tend to stay under your control. You are warm-hearted and effusive.

## Planet Aspects

### **The Lights: The Sun and Moon**

At the time of our birth, the planets (through their configurations and relationships) tell us something about how things were when we were born. Each planet points to special qualities within us. Yet, of all the planets, the two most important planets to astrologers are the "lights," the Sun and the Moon. From where we stand here on Earth, the great shining Sun by day and the reflecting Moon at night are our constant companions. They have much to tell us as to where we have been and where we are headed.

### **The Sun: Your Self and Future**

From the Sun comes light, that which draws us into life. The Sun represents all the changes we have not yet taken, that part of us that we have not yet experienced but are headed toward. The Sun represents our identity, or self, in that it is toward these that we are moving and developing. Thus, it also represents that which we will become: older people, authorities -- those we look toward, or up to. Our essence, or future. Teachers, gurus, and older (more experienced) people are represented by the Sun. The Sun is "hot stuff," those further up the road of life experience.

Go for it! Do it now and ask questions later, for you are a born leader, always first and never afraid to go it alone. Your sense of mission makes for impulsive, sometimes rash (but always brave) actions. Your motto is: Don't think about it, let's get the show on the road.

*Sun in Aries*

You naturally gravitate toward positions of power and authority. Others see in you great practical ability and accept you as a leader or authority figure very easily. Your career may be very important to you, even at the expense of home life.

*Sun Conjunction Midheaven*

### **The Moon: The Support System**

Here is information about the kind of environment we create around us, our support system. It is not only the surroundings that we set up today, but the Moon also represents our past, the particular history and social background out of which we grew. Aside from our social background, the Moon governs all of the old habits that we have grown beyond. We tend to look down on, or back on, our Moon. It represents those experiences out of which we have come, all those younger souls who are unconscious, or "sub" conscious to our own level. This is why it is said that the Moon is a mystery planet, for it is both our parent and our child: our parent in that out of it we were born, our child in that we can't but respond to others who are now living as we once did.

You are inspired, for humanity is your family and you are seldom bound by tradition or domestic ties. The big picture is what counts most with you, and large-scale movements and

group work are the idea. You seldom find personalities interesting and are democratic in the real sense of the word. You are an altruist and love freedom.

*Moon in Aquarius*

You have difficulty expressing your emotions and tend to say things that are unrelated to what you may actually be feeling. You blurt out stuff that you don't really feel, and have trouble putting your real feelings into words. Thus you can't find a lot of support from others for what you think. You don't waste a lot of thought on your surroundings, and history or tradition probably are not high on your interest list. You may upset others with things that you say. You could tend to argue with women.

*Moon Square Mercury*

You don't appreciate emotion and sentiment, in particular when in a group. Despite the above, you may feel that your feelings go unappreciated. Your disdain for demonstrations of affection may find you unable to appreciate or show love to someone who supports and provides for you. Your system of values tends to go against group norms, and may, at times, irritate others. Tradition, the past, and history in general have little to offer you.

*Moon Square Venus*

You find it easy to work with other people and tend to pour a lot of energy into those around you. Your home and surroundings reflect this. When it comes to teaching or coaching younger people, you are a natural, always able to motivate and inspire others. With your powerful spirit, you enjoy your strong emotions and have an active social life as well.

*Moon Sextile Mars*

The public loves you, and it may be hard for you to avoid working with and for others. The way for you involves working with people. Everyone sees you as genuine and giving and tends to trust you on sight. Your ability to counsel others is excellent, and you are always sought out for advice. A born leader, others find it easy to take instructions from you and tend to follow your example. You enjoy helping others solve their problems.

*Moon Conjunction Jupiter*

Your sense of responsibility is so well developed that you always end up managing any situation you become involved in. You are disciplined, work hard, and are good at getting others to work with and for you. Perhaps a little too serious and frugal, you enjoy getting along on less. Essentials are what count. You like to keep to yourself and tend to avoid too much socializing. Others may prefer keeping some distance too.

*Moon Sextile Saturn*

Your insistence on being different and the general nonconformity you display often result in your being cut off from those who would otherwise support you. You indulge your cravings for independence, which often creates a lot of emotional tension. Autonomy at the expense of your home and surroundings is nothing new for you. Your attempts to be different often end up in hurt feelings, yours and those of someone who would care for you.

*Moon Square Uranus*

You tend to avoid getting personal when it comes to your own emotions, and would rather

keep sensitive matters at arm's length. You don't mind getting into the personal business of others, producing some heavy confrontations. Those around you don't care for personal probing on your part, and they will let you know it. Your home and surroundings tend to be very traditional.

*Moon Opposition Pluto*

Your love of groups and the social scene may find you less concerned about you as a person and more interested in relationships of all kinds. Others find you very unselfish and open to sharing and cooperation.

*Moon Opposition Ascendant*

### **The Inner Planets: Mercury and Venus**

The planets Mercury and Venus have more to do with our internal and personal life than with life outside us. These inner planets are located between the orbit of the Earth and the Sun. We can look to qualities that are inside us. Venus indicates how we appreciate and measure our experience, how we value life. Mercury tells us something about how our mind works, how we think and communicate -- our intrinsic brightness.

#### **Mercury: The Mind and Communication**

Mercury is the light in our eyes, the ever-changing consciousness within us that moves from idea to idea. Thus Mercury has always represented thoughts, ideas, and the mental process in general. It governs not only ideas, but communications, too. Communications -- by phone, letter, spoken, or however -- are ruled by Mercury. Also thoughts, connections, phone wires, and everything that connects and conveys -- even conversations.

You have a sharp tongue and a quick wit. You speak first, then think about it. Not subtle or complex, you are direct, simple, and to the point. An independent thinker, you would rather speak than listen. Argumentative too. You are quite impulsive when it comes to communicating, and often use strong words.

*Mercury in Aries*

You say things you don't mean, and you don't always mean what you manage to say. Your feelings often run counter to what you think or communicate, and you are not at your best when things get emotional. What you say may evoke emotions from others.

*Moon Square Mercury*

You have a love affair going with the mind and you value all of its offspring: words, ideas, thoughts, and such. And you love to talk. In particular you appreciate good conversation, and you feel that stimulating mental adventures (either alone or with others) are among the most exciting experiences life offers. You have a built-in sense of discrimination when it comes to the intellect -- all mental activities.

*Mercury Conjunction Venus*

You don't spend a lot of time thinking out your problems, considering solutions, and the like. Your thoughts are most often elsewhere, and tend to be impractical much of the time. You can't seem to figure out the right course of action. This is most true when it comes to your career or

vocation. Not a good counselor yourself, you are well advised to seek the advice of someone you trust when it comes to matters of your career.

*Mercury Square Jupiter*

Getting personal with you is a real mistake, for it always manages to plunge you into turmoil. You resent probing on the part of others, yet are fascinated by behind-the-scenes and so-called "secret" information. You may prefer not to think about anything below the surface, but even this is not a constant, and this inner conflict produces more than its share of tension.

*Mercury Square Pluto*

Your mind is ever on career and family, and this may not make you the most communicative and social animal. You may prefer to avoid crowds and all large gatherings. You may not need relationships other than at home and at work.

*Mercury Square Ascendant*

### **Venus: Values and Discrimination**

Venus rules our values and sense of appreciation. When we appraise or appreciate something, whether that be another person or a new car, this is Venus -- the sense of love and compassion we may feel. By the same token, this planet rules enjoyment too. Whether it be self-appreciation or just plain old decadent self-enjoyment by having a good time, this is Venus. When we go shopping or are on a spending spree, it is Venus that allows us to appreciate and value all the good things of life.

Let's get physical! You love to touch and you can be very possessive. You love food and all the creature comforts. Money and what it buys are very important. You are a gentle lover and like a good home life. You are very loyal, loving, and down-to-earth. You may like gardening and gift-giving.

*Venus in Taurus*

Others may not support or feel right about your values. You may be unable to appreciate or show love to someone who supports and provides for you. You may have very little interest in your own past, or history in general. You don't value sentiment.

*Moon Square Venus*

You love words and ideas and sharing them through writing, speaking, and so on. You love to talk. You appreciate and value the intellect and all mental activities, have great taste and an eye for all that is fine. You are sharp when purchasing, a connoisseur.

*Mercury Conjunction Venus*

You cherish whatever is different and out of the ordinary. The commonplace and the humdrum are not for you. Your friends and surroundings -- everything around you -- must be unconventional to the point of being controversial. You could care less what others think, and this independence is your passion. The way you show affection may also be unusual, and your partners are certainly nonconformist. You set a high value on being different.

*Venus Conjunction Uranus*

Your love of family and home and lack of interest in external affairs (be they friends or

work-related) needs to be noted and kept in balance.

*Venus Square Ascendant*

### **The External Planets: Mars, Jupiter, Saturn**

The major planets outside the Earth's orbit (external to us) are Mars, Jupiter, and Saturn. These are the planets of the outer world -- life as we find it outside ourselves. Mars tells us something about the drive and energy we have, Jupiter shows us how to best channel that energy, and Saturn decrees what sort of material or territory we will be passing through. Again: Saturn tells us about the territory we will be going through, Jupiter the way or path through it, and Mars what kind of push or drive we can count on to keep going.

#### **Mars: Drive and Emotions**

Mars is the planet of emotion and inner motivation or drive. When we search for the meaning of something, life or whatever, it is Mars that urges us on, keeps us searching. Mars also drives us against things, too and sends us into war and combat. The urgency of Mars, the search for meaning, is identical to the need for union, yoga, and marriage. Mars is the planet of union, and marriage is the most common form of yoga. When we have questions about the opposite sex, we are looking at the planet Mars.

With direct drive, you always head straight to the heart of the matter. You are candid, even blunt or brusque in manner. No bells or whistles needed, for you like simple living and could be an outdoors person. You have an urge to be free, to be challenged and tested, and would rather travel far than be stuck in routine.

*Mars in Sagittarius*

A born coach or teacher, you are at home in the physical and "doing" areas of life. An inspiration and driving force in the lives of others. Quite able to manage a very active and strong emotional life. Strong spirit. Attractive. Direct, perhaps loud.

*Moon Sextile Mars*

You come on very strong. You have great confidence and a "take charge" sort of manner. You are a great doer, and others accept your commanding nature. You are a good team player.

*Mars Trine Ascendant*

#### **Jupiter: Career and Life Path**

Jupiter is the planet of success and simple survival, the way we have to solve the problems that confront us. Thus Jupiter has to do with the way in which we can be successful, our vocation. The Hindu word for Jupiter is Guru. Jupiter is the guru and guide, the way we go through life, our life path or vocation. Jupiter is the method each of us has for dealing with the laws of life, our Saturn, or limitations. Jupiter is the light or path. Jupiter provides us with our sense of direction, the path we are on, the way we handle life. It affects how we approach life's problems. It has always been an indicator of how successful we may be, our vocation.

The perfect manager: conservative and professional in all things. Your career is all-important. A "doer," you are always practical. Never ruled by emotions, you are cool, capable, and competent. You are quick to get the outline or skeleton of a project, to see how things work.

*Jupiter in Capricorn*

A born teacher or group leader, counselor or guide. Others find it easy to take direction from you by example alone. You enjoy immersing yourself in a group, solving problems, raising spirits, and so on. People admire your openness and generosity.

*Moon Conjunction Jupiter*

Your ideas and plans are not always the most practical or expedient. Fond of grand schemes, verbalization, and the like, these ideas don't often boil down to real solutions. Your main path may involve taking many of your ideas with a grain of salt.

*Mercury Square Jupiter*

You are a natural architect and builder, able to use your mind to make decisions in matters of form and function. For you, the goal and the way to get to it are the same thing. You like to build each step and have each decision be an end in itself. Things must be done right. You also have great skill with the law, whether man-made or those of nature, and you can put all of this into words. You could well teach others in these areas. You understand how to handle authorities and have a natural gift at solving problems.

*Jupiter Sextile Saturn*

Your tendency will be to make career moves that restrict or inhibit your opportunities for inner growth and change. You can manage to get yourself installed in a job that, while good for finances, is a dead end for you from the point of view of personal change. The worst part is that you get combative toward any challenge to your right to avoid situations that require grow and change.

*Jupiter Opposition Pluto*

You excel as a social being and should make a career out of your deep-seated interest in other people, partnerships, relationships, and so on. You find yourself through other people.

*Jupiter Opposition Ascendant*

### **Saturn: Responsibilities**

The process of finding out who we are (self-discovery) starts when we come to grips with whatever problems life presents to us and begin to get a handle on them. In other words, if we have not dealt with Saturn, or time (that is, if we don't have some control of time), there is little opportunity for other questions. Saturn rules the laws and limitations of this material world we all live in. Saturn indicates where we are bound to learn, the narrowness that makes our way felt, the walls that make homes possible. Saturn holds us together as much as apart. Saturn is said to be the great teacher, the planet that keeps us from getting carried away in one direction or another. Although it always seeks to limit and determine any thought, word, or action, it also defines and clarifies. Saturn is called the prince of the material world.

There could be problems with selfishness. You tend to ignore or avoid opportunities to help out and give of yourself. You fear the deeper, mystical side of life and need to practice putting others before yourself. Also learn to use intuition and feelings. Lend a helping hand.

*Saturn in Pisces*

A tireless and disciplined worker, you have a tendency to be serious and to prefer being alone over entering the social scene. You can get the most out of others, get them to work under you. A wisdom that comes from simple needs. Conservative. Careful.

*Moon Sextile Saturn*

You possess an architect's vision for what needs to be done and how to do it right to make it last -- an expert or true builder. Knowing what tool to use and just how and when to use it. A sense of the right path or dharma. With you, the means and ends are identical.

*Jupiter Sextile Saturn*

When it comes to psychology you have great penetration, and always understand how to get down to the core material. You enjoy working with sensitive and vulnerable areas of the mind, searching out and defining points of transformation, areas for growth. You could teach and instruct others in these areas. You aren't afraid to get into the most sticky situations, and you always come up with the essence of the matter at hand.

*Saturn Trine Pluto*

You express yourself deliberately and don't waste your words. You have a natural sense of organization and come across as disciplined and careful, perhaps a little too sober.

*Saturn Trine Ascendant*

## **The Outer Planets**

In the previous sections, we have dealt with planets that we can see with our naked eyes. In general, these planets refer to life as we know and live it and are the so-called historical or classic planets. Beyond these are three planets that are not visible in the sky and which have cycles longer than the average human life span. Since they are beyond Saturn or time, astrologers call them the trans-personal or transcendental planets -- the planets beyond the physical. One of the ways astrologers learn something about our life beyond time (eternal life) is through these three outer planets: Uranus, Neptune, and Pluto. Here we find information on how we discover ourselves (Uranus), how we understand and accept these discoveries (Neptune), and, in time, how we depend and identify with them (Pluto).

### **Uranus: Break-Thrus & Insights**

Our responsibilities can tend to weigh us down, and we each have our particular ways of getting around (or breaking through) the mass of obstructions that tends to congeal around us. The planet that has to do with how we get beyond the difficulties and problems life presents us is Uranus. Here is the way insights come to us, how we discover or come to know and understand ourselves. It has to do with finding new uses for old things, and it rules inventions and sudden insights into our life -- everything that is unusual, eccentric, and out of the ordinary. It is the reverse of the status quo and is always unconventional and heretical. Uranus is, in many ways, the opposite, or undoing of Saturn.

You have new insight into home, possessions, and the whole domestic scene. Financial independence and novel ways to earn money and make a living interest you. You get away from it all with gardening, building, and family life. You discover freedom in steady, predictable growth -- like a plant growing.

*Uranus in Taurus*

Your flair for the unusual and the unconventional may not receive as much support as you might wish from those around you. Independence at the expense of your feelings is a struggle you know well, and emotional tension a price you may have to pay.

*Moon Square Uranus*

You love the unconventional and are drawn to all things new and different. You avoid the mundane and treasure the unusual. You may have very eccentric tastes and ways of showing affection. You value a chance to break away from the pack and be different.

*Venus Conjunction Uranus*

### **Neptune: Ideals & Imagination**

Even the most hard-nosed of us have moments of real understanding, when things are seen as linked together and one piece. We stop getting the idea in little flashes and just get the whole thing. It dawns on us. We each have our own way of letting go, having communion, and (as the poet wrote) letting "the dewdrop slip into the shining sea." These moments and this state of mind are, in fact, the source for all our imagination. There are many ways of seeing through the separateness in the world to the unity behind it.

Practical salvation is the idea, saving the physical. You do this via exercise, diet, vitamins, life-extension aids, and such, and right livelihood is as important as right food. Song lyrics. You love to restore and redeem the physical world. A great love of details or trivia.

*Neptune in Virgo*

### **Pluto: Inner Change and Growth**

Pluto is the planet of profound change, starting deep within us and moving toward the surface. It often touches upon the most sensitive psychological areas inside us. Once touched, we have no choice but to change and grow. The most sensitive of experiences, the times of greatest vulnerability, are times of complete identification with an experience, a person, or a thing. We know in these instants that we are looking at our self, what we are. The most personal of experiences is one of complete identification with a person, moment, or idea. Perhaps this is only possible for most of us when we look into our child's eyes, and then only infrequently. Love is not the experience here, but total identification. This is very sensitive stuff. To touch upon this material is to go through deep inner change and transformation -- inner alchemy. Identification and experiencing that life is our own creation and that, in fact, you are I and I am you. This experience breaks us down and humbles. When we touch upon this experience, we cannot but die to what we have been thinking and doing up to now. It reduces us to our most sensitive because -- in a flash -- we see or remember that it all is us, our life.

You may go through a lot of changes that affect your sense of security. Your home and family situation could be a focus for growth and real learning -- an area of great sensitivity or vulnerability.

*Pluto in Cancer*

Your own insistence on analyzing and probing into personal issues may not endear you to the group. Others experience this kind of emotional intensity as unsettling. It goes against how they

feel. Power struggles in relationships can be expected.

*Moon Opposition Pluto*

Your personal life and secret thoughts may be something that you have difficulty speaking about or expressing to others. This can produce tension that gives way to bouts of deep searching and analysis, even gossip. The bigger the front, the more it is hiding.

*Mercury Square Pluto*

You may make career moves that ignore or trample on your own finer feelings and sensitivities. You could find your vocation to be lacking in opportunities for inner growth and transformation. This conflict could result in tension and confrontation.

*Jupiter Opposition Pluto*

Persistent, intense, and serious. Getting at the heart or root of a situation. Great psychological insight into life problems. Perhaps aiding or counseling, helping others understand difficulties. Fiercely tenacious.

*Saturn Trine Pluto*

You are intense in the way you communicate, to the point of sometimes almost scaring people. Your sense of vulnerability is out there for everyone to see, and you are always passionate, insistent, and direct.

*Pluto Conjunction Ascendant*

## Challenges and Abilities

### Focus

These are areas of life where we show intense focus and activity. For better or worse, these qualities stand out and are obvious to all those who come to know us. They are very clear parts of our character.

You naturally gravitate toward positions of power and authority. Others see in you great practical ability and accept you as a leader or authority figure very easily. Your career may be very important to you, even at the expense of home life.

*Sun Conjunction Midheaven 00°20'*

Your friends and surroundings -- everything around you -- must be unconventional to the point of being controversial. You could care less what others think, and this independence is your passion. You have a built-in sense of discrimination when it comes to the intellect -- all mental activities.

The public loves you, and it may be hard for you to avoid working with and for others. The way for you involves working with people. A born leader, others find it easy to take instructions from you and tend to follow your example. You enjoy helping others solve their problems.

*Moon Conjunction Jupiter 08°28'*

### **Challenges**

Life can be challenging, and things are not always easy. The major challenges in a natal chart are where we can expect increased activity and personal involvement -- ready or not. These critical areas of life can be difficult, and the resulting confusion and possible obscuration often makes it hard for us to see and act with normal clarity. Therefore, when it comes to the following factors you may wish to exercise caution and extra patience.

You don't appreciate emotion and sentiment, in particular when in a group. Despite the above, you may feel that your feelings go unappreciated. Your disdain for demonstrations of affection may find you unable to appreciate or show love to someone who supports and provides for you. Your system of values tends to go against group norms, and may, at times, irritate others. Tradition, the past, and history in general have little to offer you.

*Moon Square Venus 00°49'*

Getting personal with you is a real mistake, for it always manages to plunge you into turmoil. *Jupiter Opposition Pluto 01°35'*

You don't spend a lot of time thinking out your problems, considering solutions, and the like. Your thoughts are most often elsewhere, and tend to be impractical much of the time. You can't

seem to figure out the right course of action. This is most true when it comes to your career or vocation. Not a good counselor yourself, you are well advised to seek the advice of someone you trust when it comes to matters of your career.

*Mercury Square Jupiter 02°29'*

Your love of groups and the social scene may find you less concerned about you as a person and more interested in relationships of all kinds. Others find you very unselfish and open to sharing and cooperation.

*Moon Opposition Ascendant 02°45'*

Your mind is ever on career and family, and this may not make you the most communicative and social animal. You may prefer to avoid crowds and all large gatherings. You may not need relationships other than at home and at work.

*Mercury Square Ascendant 03°13'*

Your love of family and home and lack of interest in external affairs (be they friends or work-related) needs to be noted and kept in balance.

*Venus Square Ascendant 03°35'*

Your insistence on being different and the general nonconformity you display often result in your being cut off from those who would otherwise support you. You indulge your cravings for independence, which often creates a lot of emotional tension. Autonomy at the expense of your home and surroundings is nothing new for you. Your attempts to be different often end up in hurt feelings, yours and those of someone who would care for you.

*Moon Square Uranus 04°48'*

You don't waste a lot of thought on your surroundings, and history or tradition probably are not high on your interest list. You may upset others with things that you say. You could tend to argue with women.

*Moon Square Mercury 05°58'*

You tend to avoid getting personal when it comes to your own emotions, and would rather keep sensitive matters at arm's length. You don't mind getting into the personal business of others, producing some heavy confrontations. Those around you don't care for personal probing on your part, and they will let you know it. Your home and surroundings tend to be very traditional.

*Moon Opposition Pluto 06°53'*

## **Talents and Abilities**

Despite whatever problems we may have, there are areas of life where we have clear insight and real talent -- natural ability. When it comes to these matters, our judgment is sharp and we always manage to take charge. We have the knack. It may be as simple as the ability to work hard and accomplish things without something going wrong. An innate sense of the workings of these parts of life makes it easy for us to learn and accomplish things where they are concerned.

When it comes to psychology you have great penetration, and always understand how to get down to the core material. You enjoy working with sensitive and vulnerable areas of the mind, searching out and defining points of transformation, areas for growth. You could teach and instruct others in these areas. You aren't afraid to get into the most sticky situations, and you always come up with the essence of the matter at hand.

*Saturn Trine Pluto 01°15'*

You find it easy to work with other people and tend to pour a lot of energy into those around you. Your home and surroundings reflect this. When it comes to teaching or coaching younger people, you are a natural, always able to motivate and inspire others. With your powerful spirit, you enjoy your strong emotions and have an active social life as well.

*Moon Sextile Mars 01°41'*

You are a natural architect and builder, able to use your mind to make decisions in matters of form and function. For you, the goal and the way to get to it are the same thing. You like to build each step and have each decision be an end in itself. Things must be done right. You also have great skill with the law, whether man-made or those of nature, and you can put all of this into words. You could well teach others in these areas. You understand how to handle authorities and have a natural gift at solving problems.

*Jupiter Sextile Saturn 02°49'*

You express yourself deliberately and don't waste your words. You have a natural sense of organization and come across as disciplined and careful, perhaps a little too sober.

*Saturn Trine Ascendant 02°53'*

You come on very strong. You have great confidence and a "take charge" sort of manner. You are a great doer, and others accept your commanding nature. You are a good team player.

*Mars Trine Ascendant 04°26'*

Your sense of responsibility is so well developed that you always end up managing any situation you become involved in. You are disciplined, work hard, and are good at getting others to work with and for you. Perhaps a little too serious and frugal, you enjoy getting along on less. Essentials are what count. You like to keep to yourself and tend to avoid too much socializing. Others may prefer keeping some distance too.

*Moon Sextile Saturn 05°38'*

## **Landscape: Major Life Periods**

What follows amounts to a brief overview of the first thirty years or so of your life -- a road map of the years to come. Since childhood, adolescence, and early adult life are so crucial to each of us, an attempt has been made to describe these formative years. Based on the gradual movement of the planet Saturn, this is one of the most tested of all astrological techniques. It is used by almost every professional astrologer as part of any personal consultation. Provided that your time of birth is more or less accurate, you will find this information both accurate and informative. Here is a general life overview, followed by a close-up on your current changes -- what is happening right now. First the overview:

### **Your Personal Background**

A fairly easy childhood up until around the 11-12th year, at which time you will begin to become more subjective and inner-directed. This could mean that your adolescence is somewhat more lonely and less socially oriented than the average. This inner time of exploration lasts until you are about 18-19 years of age. At that time, you will proceed to take hold, discover yourself, and become more outward -- in a rather short time. Your sense of confidence will take hold and build, and the years of introspection will pay off as you begin to reach out. The years from 18 through 25 or 26 will be ones of hard work and continued gains in self-confidence. From the 26th year, your real climb to fame and fortune will commence. Your 30s and 40s will be very good and successful years.

### **Your Current Situation**

Now for a close-up of recent years: while landscape was quite general, the dates given in this close-up should be much more precise. Life is composed of sections of time, each devoted to one kind of activity or another. We go along for a while in one direction until something changes within (or outside) us and we head off in a new course. Some of our earlier activities dry up and new ones spring up in their place. What follows is an analysis of the time period in which you find yourself now. Don't look here for a day-to-day account of life but rather to get a picture of this stretch of time, "these years."

**May 17, 1997 1st Pass D> (Age 60 1m)**

**Oct 24, 1997 2nd Pass R< (Age 60 6m)**

**Feb 02, 1998 3rd Pass D> (Age 60 9m)**

You are riding a high now in terms of taking advantage of the cycles in your life. This may well be a high-water mark; however, this is also the beginning of a series of years during which you should begin to consolidate and tie down the advances you have made in recent years. It may be best to begin to dig in and strengthen your current position rather than expand outward too much. You will find your mind beginning to turn away from the external (the material) and to be concerned with more inward and spiritual ideas. All of this will become clear over the next several years. This time marks a change of direction for you, away from the material and glitter,

toward inner needs and security. You will find yourself more concerned with maintaining and strengthening your position, rather than pushing outward. In summary, a kind of high-water mark in the outward and social department. These years should be easy and filled with opportunities and friendships. Enjoy them. More demanding and inward years will be forthcoming a little further on down the road.

*Saturn in 04th Quadrant*

### **The Elements, Modalities and Angularity**

Elements, modalities, and house quadrants. These are all techniques used by astrologers to gain a general picture of how a person measures up. How do your planets and houses total up? Which do you have in abundance, and which do you lack, if any? Those with high totals show what we can or must do in life. These are qualities we have. However, most people are more interested by what they lack or want -- their lowest totals. They tend to study their "wants," imitate, and even pretend to have them. The old adage is: we become what we want (or lack), while we do what we can (or have to do). Here are your totals:

You're concerned with preserving the status quo and are stable and methodical in your ways of going on. You resist change and may have trouble getting started, but once on the move are indomitable. You mistrust that which is new or untried.

*Have Earth*

You could have difficulty getting your ideas across to others, sometimes feeling inadequate in matters that require logic or the use of your mental powers. You may have doubts about those who talk too much and seem "long" on ideas.

*Want Air*

You are an aggressive prime mover, a starter, able to initiate and get things moving. Not always hot on the follow-up, you may tend to get the ball rolling and get out to move on to other things.

*Have Cardinal*

Circumstances can throw you into positions where you must use your mind and deal with communications, service, or enclosed hidden interests. You may deal with education, psychology, spiritual enlightenment or teaching principles and techniques.

*Have Cadent*

You are inclined to do things from outer necessity rather than for emotional or idealistic reasons. Your theories and mental activities may be fine, but you may lack heart or the fixedness (or the necessary time) to let things ripen.

*Want Succedent*

## Your Burn Rate

We all change, but the question is: At what rate? Some of us tear through change after change, one phase following another, year after year, while others move at a more serene pace. Or, one area of our lives may be hectic and forever changing, while other areas are quite tranquil. Why do some people seem to live lifetimes within lifetimes? Here is an analysis of your particular rate of change or "burn rate," including the particular areas of your life (planets) where you can expect continued change and growth. Areas where there is a very low index of change (indicating clear and easy use of the qualities involved) will also be pointed out. If you have sometimes wondered about the areas of your life where the candles burn at both ends, here are the details.

You have a very high burn rate (index of change) and tend to run hot and fast. It is almost like having many lifetimes within this single one. Things are always fast and furious with you, and you seldom remain calm for long. Your thirst for experience and growth keeps you always on the move. You work through an enormous amount of change compared to an average person. In particular, the following qualities are areas where you have experienced and will continue to experience much change. These areas of life persist in presenting themselves to you, so you may already have become very experienced in them. On the other hand, they could be arenas in which you struggle but have not yet attained mastery.

A majority of planets in the PAST suggests that you are comfortable with established values. You know and understand more than you let on, and life changes seldom take you by surprise. You have a great deal of control over your actions.

### Planets in High Focus

Emotional change and growth will be in high focus and amount to a constant in your life. A high burn rate here suggests that feelings, motivation, and sheer drive will be a trademark as well as a source of continual experience and learning. You find yourself in constant change in matters of feelings, and emotional scenes are part of your stock and trade. Experience in these realms will be extensive.

*Mars*

Questions of attitude, approaches to problem-solving, and the methods for handling authorities and the law are in high focus and are indicated by a high burn rate regarding your career and making your way through life. Perhaps you will have many jobs or be forever going through changes and adjustments that affect your career. It could be difficult finding lasting success or prosperity, and the path to it may be areas where you have real experience and particular expertise.

*Jupiter*

You have a high burn rate (go through a lot of changes) when it comes to sensitive, psychological areas of your life or times when you are feeling vulnerable. Direct confrontation tends to put you through a lot. You prefer diplomacy but find yourself in the midst of sticky situations on a regular basis.

*Pluto*

## **Patterns: Your Inner and Outer Self**

Here we are examining your basic attitude or approach to life, what is called by some the archetype or soul-type. If you know something about your particular soul-type, this can provide valuable information as to the general direction and purpose of your life. In particular, it is important to note the difference, if any, between our outer personality (the way we appear to others) and our real inner self; how are we, in fact, as people get to know us? Not all people are as they seem.

You are no secret. Outside or inside, there is not much difference. You are just as you appear.

*Geo: Square Helio: Square*

### **Your Soul Type**

You are very gifted, having great magnetism and warmth and also a keen and powerful mind. You can do anything you want to do in this life, if you can manage to get moving in one direction and keep at it. This is a very fortunate chart, but one that may result in laziness. You may find it more convenient to neglect your mental, conceptual, and organizational abilities in favor of your social agility and animal warmth. People will value you for your warmth and dynamic qualities as much as for your ideas, and you may find it easier to acquiesce with your animal warmth than to develop your mind. You can relate to almost all types of people with equal ease.

*Square Type*

### **The Key to your Inner Life**

Each person has one or more key qualities. Here we are not referring to our appearance or personality, but rather to our inner nature, how we are when someone really gets to know us.

You have an uncanny ability to get beyond the status quo, always coming up with new ways of doing things. You can take the most mundane stuff and find that new angle. Unpredictable and spontaneous, you seldom lean on precedent, preferring to create as you go. All will agree that you are indeed very original, unconventional, and possess deep and accurate insights. Much of what makes you "you" depends on this independence and love of freedom. You discover inner ways that are fresh and vital.

*Uranus*

### **The Key to your Personality**

Outwardly you are intense and passionate, and this quality is so essential to your character that all else revolves around it. Your ability to cut through the superficial and get to the real heart of things comes through loud and clear. There are no secrets with you. You always get right down to the nitty-gritty and lay things bare. Your lifestyle may find you burning through a lot of changes.

*Pluto*

## The Personal Hot Spot

The main focus of change and high activity is your value system, your likes and dislikes, the way you feel about things.

*Venus*

Your surroundings, circumstances, and support system are the crucial spot, key link, or what-have-you in the chain of your life. When things get hectic, it is in these areas that you can expect pressure and greatest activity.

*Moon*

### Interface: Innermost qualities

This feature is based on an intricate analysis of the position of a particular planet in relation to the orbital planes of the other planets. The resulting series of crossings, or nodes, tells us something about the nature of our innermost inclinations (Inc) and disinclinations (Dis). These indicators are not to be considered at the level of our personality, but rather are deep-seated parts of our innermost character -- our internal biases. These pros and cons are not apt to change in the course of our lifetime.

What you don't love is the parade of emotions -- directness from others. What you do love and appreciate may not be as clear to you as what you do not love. You are troubled by all that gets too pushy, physical, and gushy. About this you are clear. Sports, ordeals of bravery, and all that is too physical is objectionable. Given the world as it is and your predisposition, a certain amount of emotional tension is unavoidable.

*Venus Dis Mars*

You are probably hard to control and very unpredictable. Your drive for independence is obvious, and it is clear that the common and the traditional are not for you. Anything else but that! You pursue alternate or nonconformist solutions to life with great energy. Your temper is hot and sharp and tends to snap out like a lightning bolt. You are aggressive in the pursuit of gaining insight into all that is new, different, and out of the ordinary. Electronics, computers, and communications could be a big part of your life.

*Mars Inc Uranus*

Your career is smooth until the question of personal freedom comes up. Successful career moves may demand conformity and cost you personal freedom, perhaps toning down your unconventional habits. You may have to conform and go along in order to get the right job. This is a source of some tension, and your tendency to rebel can get you in hot water every time.

*Uranus Dis Jupiter*

You have trouble controlling yourself and tend to fluctuate between uninspired routine and crazy binges. Your sense of responsibility and the way you go about organizing your life seem like a prison sentence. You rule out any possibility of change, all spontaneity. You get so set in

your ways that you can't help but revolt and break out. Your flings have a total lack of caution. When they die down, you find yourself seeking refuge in the same old routine, and we begin again.

*Uranus Dis Saturn*

The more disciplined side of you has no time for dreams, visions, and other-worldly stuff. You ignore anything that is not tied down and practical. And yet, all this spiritual stuff has a way of intruding into your real world. You come up against it again and again. You can't live with it, and you can't live without it. It seems you feel that dreams and a more "ideal" life must take a back seat to reality and the (sometimes) drudgery of routine. You keep finding yourself looking out the window.

*Neptune Dis Saturn*

You have a relentless drive to get at the heart of things, whatever is under the surface or behind the scenes. Your relentless pursuit of anything hidden or secret makes you a researcher or investigator bar none. Emotionally you are also hot stuff, rushing into areas and handling subject matter that others would never come near. Vulnerable issues, sensitive areas of the self, and psychology are the first places you head. This amounts to a passion with you. Those around you may find you just too intense to be around. It puts them through a great many changes.

*Pluto Inc Mars*

When you love, you love with energy and passion. You value personal contact, cutting through all the externals and getting to the heart of things. You understand and appreciate vulnerability and have no compunction about presenting your own sensitive spots to others. You enjoy working behind the scenes, getting at secret and hidden areas of the mind and psyche. Changes and transformative experiences are where you like to be most.

*Pluto Inc Venus*

## Major Transits Happening Now

Astrologers use the term "transits" to mean the positions of the major planets that are overhead (in the sky) right now and their relationship to our birth chart. Transits are very important indicators of the current situation in which we find ourselves. They can provide insight into what we are now going through. Here are the dates when the next major transits for the planets Jupiter, Saturn, Uranus, Neptune, and Pluto are exact in your chart. Some dates will have already passed and some are still to come. Remember, with these large planets transits don't just happen on the day when they are exact. They cover a wide span of days, weeks, months, and sometimes years, depending on which planet is involved.

In general, transits of Jupiter take from several days to a week or two to complete, while those of Saturn take from two weeks to a month to play themselves out. With the outer planets, the period of activity is even longer: transits of Uranus take about two months, Neptune three or four months, and Pluto takes about a year. Uranus, Neptune, and Pluto move so slowly that the complete transit experience may take a year or two to complete itself. So be prepared to work with these situations.

### **House Activity and Emphasis**

The twelve houses of the horoscope, particularly when they are occupied by a planet, provide a clue to areas of special activity and use. Here is an analysis of house activity based on planet emphasis:

#### **First House: Appearance, Approach**

The first house has to do with how we appear or the way we come across, thus our appearance and personality. This is the essential stuff that bubbles up in us spontaneously and that is obvious to others as our trademark or activity. It is what makes us each so personally different. This house rules our personal self and everything about us that draws a reaction from our surroundings or others.

*First House*

Leo energy is expressive, emotive, and concerned with awareness and a sense of pride and ownership. Here is always a sense of home base or confidence from which the aggressive and outgoing Leo energy operates. Often very artistic, and always theatrical and expressive, this sign is good for creativity and the arts. Warm and big-hearted, this sign belongs to love of animals, sports, children.

*Leo*

#### **Second House: Possessions, Reactions**

The second house is concerned with how we respond to or field whatever impulses or unique and personal qualities we manifest via our first house. This is how we hold or "have" things (possessions, material goods, money, and the like). The second house always refers to how we secure ourselves, the kind of response we get from life and those around us.

*Second House*

Leo energy is expressive, emotive, and concerned with awareness and a sense of pride and ownership. Here is always a sense of home base or confidence from which the aggressive and outgoing Leo energy operates. Often very artistic, and always theatrical and expressive, this sign is good for creativity and the arts. Warm and big-hearted, this sign belongs to love of animals, sports, children.

*Leo*

### **Third House: Inquiries, Communications**

The third house is concerned with explorations, investigations, and inquiry and research of all kinds. It also rules connections, communications, wires, tubes -- anything that we can get through with our body, mind, voice, letters, what-have-you. It is here that we explore and search for the limits of our life, whatever we are working with at the moment. A very mental house, concerned with finding, furthering, peering, and all manner of questioning. Traditionally rules short journeys, siblings.

*Third House*

Virgo energy is analytical and precise, always separating what is worthwhile and worth supporting from that which is outmoded and of no further use. A mental sign, where thinking and examining are in high focus. Also, a different kind of mother, here an endless caring and worrying (fussing) about just about everything. Always compassionate and responsive, Virgo energy is service-oriented above all, often thinking and caring more about what others are doing and thinking than for self.

*Virgo*

Your mind tends to be very imaginative and not concerned with facts and figures. Instead, ideas and writing of a mystical or poetic nature appeal. Research into religious or very idealistic subjects is indicated.

*Neptune in Third House*

### **Fourth House: Home, Family, Security**

The fourth house is where we send down roots, find our limits, and generally secure ourselves. It is the end of any searching we might have done in the third house. Here we find or end our search, settle down, and manage to get in possession of the whole situation. This is our home and the base from which we can work, feel, and experience. This is the root of our experience, the core or thick of it.

*Fourth House*

Libra energy is always facilitating and responsive, assuming the appropriate reaction or response to any question or statement. What is sometimes seen as two-faced is only Libra's facility at responding to each in kind. This is certainly the social sign, par excellence. Impersonal and impartial, this sign doles out only what is demanded, never overdoing things.

*Libra*

### **Fifth House: Expression, Creativity**

The fifth house has to do with awareness, emotion (to move out), and expression (to press

out). Here there is always a growing sense of self-confidence and even a pride of ownership, since we begin to recognize and own our experience. We know that we have had or are having an experience. All forms of expression and offspring are connected to this house -- children, animals, creative expression, and so on. A sense of direction and ownership takes hold at this point in our experience.

*Fifth House*

Scorpio is the most famous sign. Intense, passionate, and very personal, Scorpio rushes past superficialities and right to the heart of any matter. A loyal friend but a fanatic foe, this sign does well in politics and all areas where someone who dares is rewarded. Often associated with sexual energy, perhaps due to its tendency to strip away veneer, laying bare anything that is there.

*Scorpio*

You are driven to excel in any form of physical and creative expression--sports, theatrics, arts and crafts, whatever. This urge to express yourself, to speak out and be heard, propels you into many an interesting situation.

*Mars in Fifth House*

### **Sixth House: Responsibility, Work, Health**

The sixth house has to do with salvaging and preserving what is good and healthy in our experience. Here we separate the wheat from the chaff. We begin to care for ourselves and our experience and thus health, nutrition. The idea here is that we are able to analyze our experience and have thoughts about what is pure and what is not. The sixth house is an attempt to save the heart of an experience, one that already by that attempt is beginning to pass or not cohere.

*Sixth House*

Sagittarius is nothing if not direct, candid, and to the point. Sometimes harsh, this energy always is concerned with the absolute truth of the subject at hand. Associated with philosophy, religion, and all things that last, Sagittarius energy is always welcome in politics as well as social and community endeavors, where its basic fairness and evenhandedness is helpful.

*Sagittarius*

A career in one of the service or health occupations is possible, for you may find yourself automatically taking care of the needs of others. Your occupation involves health, food, and all attempts to restore, salvage, and make the best out of things.

*Jupiter in Sixth House*

### **Seventh House: Relationships, Other People**

The seventh house is the house of partnerships, relationships, social life, and all that carries us beyond our personal self into an awareness of other people, community, and the like. This includes spiritual awakening and the discovery that we are more than just our personality. Here we begin to respond to our personal needs (and those of others) for the first time. We can see what is going on and are committed to it; thus, marriage and yoga, or union, is indicated in this house.

*Seventh House*

Aquarius, the sign of humanitarian goals and altruism. Always impartial and nonsectarian, Aquarian energy is communal (even global). The focus is on the goal, and the goal is always one that is for the many and not the few. Thus this sign is connected to far-seeing visions, world views, and group work of all kinds. This sign tends towards coolness, independence.

*Aquarius*

Your friends, partners, and relationships mean a lot to you. They are a primary source of strength, and you always look to them for support and encouragement. You are indeed a social being and will no doubt weave this fact into your lifestyle.

*Moon in Seventh House*

### **Eighth House: Business Savvy, Elimination**

The eighth house, traditionally the house of death, is concerned with getting rid of excess parts of ourselves that we see we no longer need. Thus this house also covers initiation and any activities where we are transforming toward a more integral position, getting to the heart of things. The no-nonsense quality of the eighth house makes it good for business ventures since here we are stripping away the dross to reveal the truth or essence of the subject.

*Eighth House*

Aquarius, the sign of humanitarian goals and altruism. Always impartial and nonsectarian, Aquarian energy is communal (even global). The focus is on the goal, and the goal is always one that is for the many and not the few. Thus this sign is connected to far-seeing visions, world views, and group work of all kinds. This sign tends towards coolness, independence.

*Aquarius*

### **Ninth House: Religions, Philosophy, Ideas**

The ninth house covers long journeys and religion (the longest journey of all). Here is what remains of the purification that takes place in the eighth house -- the seed, or essence, of an entire cycle of experience. Religion comes from a Latin word that means to bind back, and thus refers to all things that last or endure, such as the truth. Essential ideas, philosophy, and all that is the very heart of things belong here.

*Ninth House*

Pisces energy runs deep and toward the psychological -- whatever is beneath the surface. This sign is understanding, patient, and long-suffering. Pisces tend to absorb all the little barbs and digs coming from outside. They always have their mind on an inner goal, something more important. They are very forgiving and accepting -- giving of themselves for the sake of more important issues.

*Pisces*

You are direct and candid and tend to brush past appearances and settle on the truth within. Ideas -- philosophy and religion -- are what life is all about. You may travel, counsel, and be a teacher to others.

*Sun in Ninth House*

Religion, philosophy, and truth are essential to your life. You are painstaking and deliberate

when it comes to sorting through ideas and values for what is lasting and solid. You may appear to others as too sober or religious.

*Saturn in Ninth House*

### **Tenth House: Practical Vision, Vocation**

The 10th house is a house of practical vision and clairvoyance, for here we can see clearly what is. Reputation and career are often connected to this house, since the areas where we can see with greatest clarity are those we most often can put to use to make a living. In summary, this house is where we have real vision and can see to do and work. Planets transiting this house may provide moments of insight and clear-seeing as well.

*Tenth House*

Aries is the sign of the pioneer and leader. It is always impulsive, concentrated, and spontaneous. Act first and think about what you have done later. Rushing in where others fear to tread, the Aries energy is attention-getting. It always provokes a response from the surroundings, from others. There is something essential and instigative that starts or causes something else to happen -- a reaction or response.

*Aries*

When it comes to business and career, you have a mind that just can't help but taking care of business. Your thoughts and ideas are nothing if not practical, and your clear-sightedness makes some form of management or supervision almost unavoidable.

*Mercury in Tenth House*

### **Eleventh House: Dreams & Visions, Community**

The 11th house has to do with putting our visions and dreams to work. We have been on the mountain and had a vision (10th house). Here we take our vows never to forget what we have seen and to work hard to make these dreams into reality. Thus this house has always been connected with altruistic and humanitarian goals and trying to set them in motion. It is the house of friends and community, because when we are powered by a real insight or vision we share with all -- irrespective of differences.

It covers what we are willing to put up with, the sacrifices we will make in order to bring across what is really important. This is connected to prisons, institutions, betrayal, self-undoing, and the like, because it is here that we must choose to take some possible abuse for the sake of the message we are carrying, or blow it all away with a negative reaction.
