## Introduction

Astrology is as old as measured time. Although there are many different approaches to astrology, all astrologers appear united in the idea that there is a connection between the heavens and the Earth -- they share one common space. For centuries there has been a misunderstanding concerning the nature of astrology to the effect that the heavens somehow "influence" events here on Earth. This theory of celestial influence has penetrated into the modern world until today it is the main concept or idea of astrology supported by the public -- the lay astrological audience.

Professional astrologers do not hold with theories of celestial influence. Instead, the modern astrologer conceives of the heavens and Earth as united, interpenetrating, and sharing a common space and time. The great cosmic or celestial events happening around and beyond the Earth (eclipses, lineups, and so on) are not seen as CAUSING events to occur on Earth, but as great signatures of events ALSO happening here on Earth. In other words, there is no "cause" in the heavens followed by an "effect" here on Earth. Instead, both planetary and earthly events happen simultaneously and are mutually reflective. Neither is the cause of the other; both are the product of the moment, one acted out in the heavens above, the other here on the Earth below.

While astrologers don't feel that heavenly events are the cause of events here on Earth, they do feel that specific heavenly events are enacted here on the Earth too -- at the same moment. In other words, there is only one grand "play." The great drama enacted in the sky is also acted out (in exact detail) here on Earth in the same instant. Another way to say this is that the Earth is part of the cosmos and shares in that cosmic moment. Scientists have been discovering (for example) that sunspots, solar flares, and solar activity have a very definite (and almost immediate) effect here on Earth. Astrologers tend to feel that all major cosmic events such as eclipses are interactive; they represent an activity also taking place within us and our consciousness.

In summary, astrology is a study of heavenly cycles and cosmic events as they are reflected in our earthly environment and vice-versa -- a vast cosmic clock. Astrologers find the cosmic patterns revealed in the rhythmic motions of the planets a great help in shedding light on the seeming helter-skelter of everyday life. Astrologers may have their heads in the heavens, but only to better guide their feet here on Earth.

We hope you enjoy your Comprehensive AstroProfile. It has been calculated using sophisticated astronomical formulae to ensure high accuracy. On the next page you will find a list of the zodiac positions of your natal planets along with the house cusps for your birth moment.

## Your Rising Sign

First let's take a quick look at your ascendant, or rising sign. Astrologers want to know what zodiac sign is rising at birth, since this gives a picture of the way you appear or come across to others.

You are bold and impulsive, tending to act first and ask questions later. You come on strong, and others may experience you as somewhat self-centered and possibly arrogant. You appear to be single-minded and daring -- a leader.

## Planet Aspects

### **The Lights: The Sun and Moon**

At the time of our birth, the planets (through their configurations and relationships) tell us something about how things were when we were born. Each planet points to special qualities within us. Yet, of all the planets, the two most important planets to astrologers are the "lights," the Sun and the Moon. From where we stand here on Earth, the great shining Sun by day and the reflecting Moon at night are our constant companions. They have much to tell us as to where we have been and where we are headed.

### **The Sun: Your Self and Future**

From the Sun comes light, that which draws us into life. The Sun represents all the changes we have not yet taken, that part of us that we have not yet experienced but are headed toward. The Sun represents our identity, or self, in that it is toward these that we are moving and developing. Thus, it also represents that which we will become: older people, authorities -- those we look toward, or up to. Our essence, or future. Teachers, gurus, and older (more experienced) people are represented by the Sun. The Sun is "hot stuff," those further up the road of life experience.

You are long-suffering and able to take a lot for the sake of your beliefs and ideals. In this sense, you are very future-oriented. You are intuitive and at home with the psyche and psychological. A sense of the mystic too. You are able to carry ideas and dreams into reality, to make the spirit matter.

*Sun in Pisces*

You communicate with consummate skill, and it is stimulating just being with you. Your high degree of mental concentration makes you an excellent student, able to excel in speaking, writing, and all types of communication skills. Your ambitions go hand-in-hand with communication and using the mind, and the two should never be far apart.

*Sun Conjunction Mercury*

You find it easy to work with sensitive material, touching upon the more vulnerable areas of the mind or self. You are able to handle these delicate matters without ever breaking stride, for emotional and tender areas of the human psyche don't phase you. You enjoy getting beneath the surface and have an innate savvy for handling touchy subjects. This is perfect for any research investigation or plain old detective work.

*Sun Trine Pluto*

You seem to shine when it comes to practical matters or those involving work and career. You have an easy way with superiors or those in authority and can always manage to get the most out of any skill or ability you have. You like work and career.

*Sun Sextile Midheaven*

## The Moon: The Support System

Here is information about the kind of environment we create around us, our support system. It is not only the surroundings that we set up today, but the Moon also represents our past, the particular history and social background out of which we grew. Aside from our social background, the Moon governs all of the old habits that we have grown beyond. We tend to look down on, or back on, our Moon. It represents those experiences out of which we have come, all those younger souls who are unconscious, or "sub" conscious to our own level. This is why it is said that the Moon is a mystery planet, for it is both our parent and our child: our parent in that out of it we were born, our child in that we can't but respond to others who are now living as we once did.

You have strong, stable emotions and tend to draw around you the perfect environment for your upbringing. The thing you need is always at hand. In addition, you get much support and good fortune from friends and relatives. You value constancy and security in all things and possess a good business sense. You are, by nature, very domestic and enjoy nice surroundings.

*Moon in Taurus*

You have difficulty expressing your emotions and tend to say things that are unrelated to what you may actually be feeling. You blurt out stuff that you don't really feel, and have trouble putting your real feelings into words. Thus you can't find a lot of support from others for what you think. You don't waste a lot of thought on your surroundings, and history or tradition probably are not high on your interest list. You may upset others with things that you say. You could tend to argue with women.

*Moon Square Mercury*

You find it easy to work with other people and tend to pour a lot of energy into those around you. Your home and surroundings reflect this. When it comes to teaching or coaching younger people, you are a natural, always able to motivate and inspire others. With your powerful spirit, you enjoy your strong emotions and have an active social life as well.

*Moon Trine Mars*

You are very original when it comes to home and surroundings -- the environment you build around you. This could also manifest in unusual ways of supporting yourself. Your mother may have been quite eccentric or your upbringing somehow different. When you have breakthroughs, they often come as insights into your immediate surroundings, home, and environment -- your support system in general. This could also manifest in your finding new and different ways to make a living. You may have new ideas about the past, history, and younger people, find it easy to create an unusual environment, and enjoy surrounding yourself with what is new and different.

*Moon Sextile Uranus*

Your dreams and ideals tend to clash with your reality, the actual surroundings in which you find yourself. You may insist on perfection at the expense of your personal emotions and feelings. Others may see you as unrealistic or downright deceptive. Others may confront you and refuse to go along with your other-worldliness. You labor to find some compromise between dreams and your actual surroundings.

*Moon Square Neptune*

## **The Inner Planets: Mercury and Venus**

The planets Mercury and Venus have more to do with our internal and personal life than with life outside us. These inner planets are located between the orbit of the Earth and the Sun. We can look to qualities that are inside us. Venus indicates how we appreciate and measure our experience, how we value life. Mercury tells us something about how our mind works, how we think and communicate -- our intrinsic brightness.

### **Mercury: The Mind and Communication**

Mercury is the light in our eyes, the ever-changing consciousness within us that moves from idea to idea. Thus Mercury has always represented thoughts, ideas, and the mental process in general. It governs not only ideas, but communications, too. Communications -- by phone, letter, spoken, or however -- are ruled by Mercury. Also thoughts, connections, phone wires, and everything that connects and conveys -- even conversations.

You are an intuitive rather than a rational thinker, and psychological thought (the psyche), mysticism and religion are natural. You love poetry and music, tending to feel or sense with your mind the truth of a situation. You are very sympathetic and understanding and have kind thoughts. Compassionate.

*Mercury in Pisces*

You are very bright, and you may be very proud of your mind and all that it can do. You have a high degree of concentration that makes you an excellent student and able to excel in speaking, writing, and all types of communication skills.

*Sun Conjunction Mercury*

You say things you don't mean, and you don't always mean what you manage to say. Your feelings often run counter to what you think or communicate, and you are not at your best when things get emotional. What you say may evoke emotions from others.

*Moon Square Mercury*

Mystical and other-worldly thoughts are not for you. You are painstaking in your avoidance of all that is transcendental and smacks of the next world. You find yourself in conversations (and probably arguments) on these subjects more often than not. For yourself, you go out of your way to be clear-headed and practical and have little tolerance for the stuff of imagination and dreams. Your ideal world is right here, and any other thoughts are beside the point.

*Mercury Opposition Neptune*

Your mind is full of practical ideas, especially related to your job or skills. Always coming up with new ideas to manage things better, make things work -- practical thoughts.

*Mercury Sextile Midheaven*

### **Venus: Values and Discrimination**

Venus rules our values and sense of appreciation. When we appraise or appreciate something, whether that be another person or a new car, this is Venus -- the sense of love and compassion we may feel. By the same token, this planet rules enjoyment too. Whether it be self-appreciation or just plain old decadent self-enjoyment by having a good time, this is Venus.

When we go shopping or are on a spending spree, it is Venus that allows us to appreciate and value all the good things of life.

Marriage for convention's sake, if at all, is your motto. Let's not get too personal or emotional. A friend's friend. You love to work for a great cause or purpose, and a better world is the place to be. You appreciate what's fair and democratic, and feel most happy in a group or community.

*Venus in Aquarius*

You enjoy life yourself and value gusto and enthusiasm in those around you. Feelings are something you express with ease, and you appreciate others doing the same. Emotional drama is valued rather than avoided. Your appetite for action is probably well known, and well noted. Sports, outdoor activities, and everything physical are high on your list of favorites. Sex is, no doubt, also important.

*Venus Conjunction Mars*

You have an innate love of the law and working things through, and you are not put off by problems and obstacles. On the contrary, you look forward to solving them. You have the ability to work with others, in particular regarding vocation or career guidance. You can advise and guide in matters requiring work-related decisions. Others find you a generous and loving person. You always share what you find and have a lucky streak too.

*Venus Sextile Jupiter*

Your ability to discriminate real breakthroughs and to spot new trends makes you able to work in areas at the very fringe of technology. You love all that is new and different and are expert at sharing your feelings with others. Electronics, computers, communications (in fact, everything electrical) are right up your alley. You value independence in partners, friends, and love. You are what is called a "free spirit".

*Venus Sextile Uranus*

You love appearances and have a way of pleasing others and coming across as loving and kind.

*Venus Sextile Ascendant*

### **The External Planets: Mars, Jupiter, Saturn**

The major planets outside the Earth's orbit (external to us) are Mars, Jupiter, and Saturn. These are the planets of the outer world -- life as we find it outside ourselves. Mars tells us something about the drive and energy we have, Jupiter shows us how to best channel that energy, and Saturn decrees what sort of material or territory we will be passing through. Again: Saturn tells us about the territory we will be going through, Jupiter the way or path through it, and Mars what kind of push or drive we can count on to keep going.

#### **Mars: Drive and Emotions**

Mars is the planet of emotion and inner motivation or drive. When we search for the meaning of something, life or whatever, it is Mars that urges us on, keeps us searching. Mars also drives us against things, too and sends us into war and combat. The urgency of Mars, the search for

meaning, is identical to the need for union, yoga, and marriage. Mars is the planet of union, and marriage is the most common form of yoga. When we have questions about the opposite sex, we are looking at the planet Mars.

You are a very hard worker and are driven to accomplish, manage, and be in control. You like to manipulate a situation for its own benefit and would make a natural supervisor. You have an inner urge for order and organization and a great sense of responsibility. You are competent, ambitious, and cool.

*Mars in Capricorn*

A born coach or teacher, you are at home in the physical and "doing" areas of life. An inspiration and driving force in the lives of others. Quite able to manage a very active and strong emotional life. Strong spirit. Attractive. Direct, perhaps loud.

*Moon Trine Mars*

You have a natural appreciation for drive and energy, and probably love sports and an active life. Sex is important. You are often moved to appreciate life, and you don't mind emotion and sentiment one bit. You have a strong appetite for almost anything.

*Venus Conjunction Mars*

You put a lot of thought and energy into being different, avoiding the commonplace with great determination. Your drive to innovate, invent, and find new ways to use things is both well coordinated and intense. You could be an excellent teacher and innovator in areas connected to electronics, computers, and communications. You may love to travel and are quite energetic, even athletic. You have a strong urge to be different, to do something different.

*Mars Sextile Uranus*

### **Jupiter: Career and Life Path**

Jupiter is the planet of success and simple survival, the way we have to solve the problems that confront us. Thus Jupiter has to do with the way in which we can be successful, our vocation. The Hindu word for Jupiter is Guru. Jupiter is the guru and guide, the way we go through life, our life path or vocation. Jupiter is the method each of us has for dealing with the laws of life, our Saturn, or limitations. Jupiter is the light or path. Jupiter provides us with our sense of direction, the path we are on, the way we handle life. It affects how we approach life's problems. It has always been an indicator of how successful we may be, our vocation.

You could pursue a career as a leader or pioneer. You tend to be the one who takes the initiative and are courageous and often fearless to the point of being foolish. Success for you in most things is second nature. Always "walking point," you tend to be a loner, a warrior. Confident, single-minded, you are sometimes rash but are always direct -- straight out.

*Jupiter in Aries*

Born lucky. A natural when it comes to finding the pot of gold at the end of the rainbow. Very generous with others. Love to spread the good things around. A natural talent for finding your way past the pitfalls of life. A love of travel and puzzles.

*Venus Sextile Jupiter*

Unusual vocations. Your career or life path, the way you make your living or get through life, will be very different, perhaps unique. You always take the road less traveled by and, skirting the crowd and the commonplace, head for parts unknown. Your approach to any problem is always original and you could invent things or discover new places or develop new ways of doing things. Communications, computers, and the whole electronic revolution are a perfect career choice for you.

*Jupiter Conjunction Uranus*

You can seem like all things to all people, so able are you to facilitate others. People trust you instantly. You would make a great teacher and counselor.

*Jupiter Conjunction Ascendant*

You excel as a social being, and should make a career out of your deep-seated interest in other people, partnerships, relationships, and so on. You find yourself through other people.

*Jupiter Square Midheaven*

### **Saturn: Responsibilities**

The process of finding out who we are (self-discovery) starts when we come to grips with whatever problems life presents to us and begin to get a handle on them. In other words, if we have not dealt with Saturn, or time (that is, if we don't have some control of time), there is little opportunity for other questions. Saturn rules the laws and limitations of this material world we all live in. Saturn indicates where we are bound to learn, the narrowness that makes our way felt, the walls that make homes possible. Saturn holds us together as much as apart. Saturn is said to be the great teacher, the planet that keeps us from getting carried away in one direction or another. Although it always seeks to limit and determine any thought, word, or action, it also defines and clarifies. Saturn is called the prince of the material world.

There could be difficulty with long-term goals and philosophies. You don't trust them. Nearsighted, with your nose to the grindstone, you need to travel and explore the length and breadth of the mind and world. Open up. Learn to value freedom, frankness, independence. Look up!

*Saturn in Sagittarius*

### **The Outer Planets**

In the previous sections, we have dealt with planets that we can see with our naked eyes. In general, these planets refer to life as we know and live it and are the so-called historical or classic planets. Beyond these are three planets that are not visible in the sky and which have cycles longer than the average human life span. Since they are beyond Saturn or time, astrologers call them the trans-personal or transcendental planets -- the planets beyond the physical. One of the ways astrologers learn something about our life beyond time (eternal life) is through these three outer planets: Uranus, Neptune, and Pluto. Here we find information on how we discover ourselves (Uranus), how we understand and accept these discoveries (Neptune), and, in time, how we depend and identify with them (Pluto).

### **Uranus: Break-Thrus & Insights**

Our responsibilities can tend to weigh us down, and we each have our particular ways of

getting around (or breaking through) the mass of obstructions that tends to congeal around us. The planet that has to do with how we get beyond the difficulties and problems life presents us is Uranus. Here is the way insights come to us, how we discover or come to know and understand ourselves. It has to do with finding new uses for old things, and it rules inventions and sudden insights into our life -- everything that is unusual, eccentric, and out of the ordinary. It is the reverse of the status quo and is always unconventional and heretical. Uranus is, in many ways, the opposite, or undoing of Saturn.

You are innovative when it comes to leadership, new starts, pioneer-type projects. You have bold and startling insights and tend to break away from tradition. You find freedom in sports, exploration, impulse-buying, and getting out. A standard bearer. You have insights into energy and action.

*Uranus in Aries*

The life of the party, able to loosen up even the most sober. Great at bringing out the best qualities of others, discovering hidden talents. New and innovative ideas regarding the social scene. Spontaneous, on the move. Independent.

*Moon Sextile Uranus*

A love of the new and unusual. Able to grasp and appreciate new trends and concepts at the very forefront of technology. A very free spirit when it comes to friends, lovers, and tastes. In love with what's original. Breaking through.

*Venus Sextile Uranus*

Powerful urge to be an innovator. Sudden breakthroughs, flashes, or insights. Avoid the common and seek out the unusual, exotic, and unique. Travel to far-off or out-of-the-way places. Energetic/athletic. Inventions with computers and electronics.

*Mars Sextile Uranus*

Yours is an unconventional path that may take you into unknown and uncharted waters. Inventive and original, you may come up with new and different solutions. Electronics, computers, and the like may be to the fore.

*Jupiter Conjunction Uranus*

Very independent in appearance and communication -- the way you come across to others. Your spontaneity and unpredictability make you interesting to any group.

*Uranus Conjunction Ascendant*

You have unusual relationships, perhaps a number of them, and not always of long duration. You are creative when it comes to partnerships or lovers; you seem to establish unusual and different relationships.

*Uranus Square Midheaven*

### **Neptune: Ideals & Imagination**

Even the most hard-nosed of us have moments of real understanding, when things are seen as linked together and one piece. We stop getting the idea in little flashes and just get the whole thing. It dawns on us. We each have our own way of letting go, having communion, and (as the

poet wrote) letting "the dewdrop slip into the shining sea." These moments and this state of mind are, in fact, the source for all our imagination. There are many ways of seeing through the separateness in the world to the unity behind it.

Romance. You are in love with the drama and glamour of the movie star. Forever on stage and always the center of attention. Life is handsome, dramatic. You idolize children, creative artists, and animals. Nature films. Courtship and romance forever.

*Neptune in Leo*

The pursuit of your ideals and self-image is often at the expense of your feelings and emotional life. Others may not go along with your sense of mystery and other-worldliness. You struggle to find a balance between dreams and reality as you know it.

*Moon Square Neptune*

You can go out of your way to be clear-minded and practical, taking care to remove every vestige of imagination and dreaminess. This is an attempt to ignore your more spiritual and mystical side, which seems to spring up and challenge you at every turn.

*Mercury Opposition Neptune*

You prefer a career that accents your own devotion to the dreams and ideals you stand for. Working with groups in a spirit of cooperation and communion is a natural.

*Neptune Trine Midheaven*

### **Pluto: Inner Change and Growth**

Pluto is the planet of profound change, starting deep within us and moving toward the surface. It often touches upon the most sensitive psychological areas inside us. Once touched, we have no choice but to change and grow. The most sensitive of experiences, the times of greatest vulnerability, are times of complete identification with an experience, a person, or a thing. We know in these instants that we are looking at our self, what we are. The most personal of experiences is one of complete identification with a person, moment, or idea. Perhaps this is only possible for most of us when we look into our child's eyes, and then only infrequently. Love is not the experience here, but total identification. This is very sensitive stuff. To touch upon this material is to go through deep inner change and transformation -- inner alchemy. Identification and experiencing that life is our own creation and that, in fact, you are I and I am you. This experience breaks us down and humbles. When we touch upon this experience, we cannot but die to what we have been thinking and doing up to now. It reduces us to our most sensitive because -- in a flash -- we see or remember that it all is us, our life.

You may go through a lot of changes that affect your sense of security. Your home and family situation could be a focus for growth and real learning -- an area of great sensitivity or vulnerability.

*Pluto in Cancer*

Innate intensity and seriousness are visible to all. A sense of the eternal aspects of life makes authority and leadership positions natural and unavoidable. A gut sense of how to act in stress situations. Lots of charisma. Power.

*Sun Trine Pluto*

## Challenges and Abilities

### Focus

These are areas of life where we show intense focus and activity. For better or worse, these qualities stand out and are obvious to all those who come to know us. They are very clear parts of our character.

Sex is, no doubt, also important.

*Venus Conjunction Mars 06°22'*

### Challenges

Life can be challenging, and things are not always easy. The major challenges in a natal chart are where we can expect increased activity and personal involvement -- ready or not. These critical areas of life can be difficult, and the resulting confusion and possible obscuration often makes it hard for us to see and act with normal clarity. Therefore, when it comes to the following factors you may wish to exercise caution and extra patience.

Your dreams and ideals tend to clash with your reality, the actual surroundings in which you find yourself. You may insist on perfection at the expense of your personal emotions and feelings. Others may see you as unrealistic or downright deceptive. Others may confront you and refuse to go along with your other-worldliness. You labor to find some compromise between dreams and your actual surroundings.

*Moon Square Neptune 01°58'*

You don't waste a lot of thought on your surroundings, and history or tradition probably are not high on your interest list. You may upset others with things that you say. You could tend to argue with women.

*Moon Square Mercury 06°25'*

### **Talents and Abilities**

Despite whatever problems we may have, there are areas of life where we have clear insight and real talent -- natural ability. When it comes to these matters, our judgment is sharp and we always manage to take charge. We have the knack. It may be as simple as the ability to work hard and accomplish things without something going wrong. An innate sense of the workings of these parts of life makes it easy for us to learn and accomplish things where they are concerned.

You love appearances and have a way of pleasing others and coming across as loving and kind.

*Venus Sextile Ascendant 01°29'*

You have an innate love of the law and working things through, and you are not put off by problems and obstacles. On the contrary, you look forward to solving them. You seem to shine when it comes to practical matters or those involving work and career. You have an easy way with superiors or those in authority and can always manage to get the most out of any skill or ability you have. You like work and career.

*Sun Sextile Midheaven 03°04'*

You find it easy to work with other people and tend to pour a lot of energy into those around you. Your home and surroundings reflect this. When you have breakthroughs, they often come as insights into your immediate surroundings, home, and environment -- your support system in general. This could also manifest in your finding new and different ways to make a living. You may have new ideas about the past, history, and younger people, find it easy to create an unusual environment, and enjoy surrounding yourself with what is new and different.

*Moon Sextile Uranus 06°20'*

You prefer a career that accents your own devotion to the dreams and ideals you stand for. Working with groups in a spirit of cooperation and communion is a natural.

*Neptune Trine Midheaven 06°47'*

You find it easy to work with sensitive material, touching upon the more vulnerable areas of the mind or self. You are able to handle these delicate matters without ever breaking stride, for emotional and tender areas of the human psyche don't phase you. You enjoy getting beneath the

surface and have an innate savvy for handling touchy subjects. This is perfect for any research investigation or plain old detective work.

## Landscape: Major Life Periods

What follows amounts to a brief overview of the first thirty years or so of your life -- a road map of the years to come. Since childhood, adolescence, and early adult life are so crucial to each of us, an attempt has been made to describe these formative years. Based on the gradual movement of the planet Saturn, this is one of the most tested of all astrological techniques. It is used by almost every professional astrologer as part of any personal consultation. Provided that your time of birth is more or less accurate, you will find this information both accurate and informative. Here is a general life overview, followed by a close-up on your current changes -- what is happening right now. First the overview:

### **Your Personal Background**

A fairly easy childhood up until around the 11-12th year, at which time you will begin to become more subjective and inner-directed. This could mean that your adolescence is somewhat more lonely and less socially oriented than the average. This inner time of exploration lasts until you are about 18-19 years of age. At that time, you will proceed to take hold, discover yourself, and become more outward -- in a rather short time. Your sense of confidence will take hold and build, and the years of introspection will pay off as you begin to reach out. The years from 18 through 25 or 26 will be ones of hard work and continued gains in self-confidence. From the 26th year, your real climb to fame and fortune will commence. Your 30s and 40s will be very good and successful years.

### **Your Current Situation**

Now for a close-up of recent years: while landscape was quite general, the dates given in this close-up should be much more precise. Life is composed of sections of time, each devoted to one kind of activity or another. We go along for a while in one direction until something changes within (or outside) us and we head off in a new course. Some of our earlier activities dry up and new ones spring up in their place. What follows is an analysis of the time period in which you find yourself now. Don't look here for a day-to-day account of life but rather to get a picture of this stretch of time, "these years."

**Jun 29, 1996 1st Pass D> (Age 68 4m)**

**Aug 06, 1996 2nd Pass R< (Age 68 5m)**

**Mar 04, 1997 3rd Pass D> (Age 69 0m)**

The date(s) (above) indicate the end of a very outward and perhaps successful period of years for you, during which you may have had an opportunity to establish yourself both in career and reputation. You may find yourself becoming less interested in the outer and social world and

more interested in your own inner changes. There will be less of an impulse for recognition along with a growing sense of being by yourself and enjoying it. This coming time will be less outward and may call for a change of approach and perhaps life style. This is not a time of outreach, not the best point to start any great projects. Instead you may wish to consolidate what you now have, pull back a bit, and prepare for a number of years of a more inward and personal nature. This will be a time of introspection, and you may find yourself letting go of plans and projects started in a more outward phase but as yet uncompleted. You may take an interest in your own psyche, religion, and spiritual ideas. This is a time to absorb and take in new impressions and information. In summary, here is a natural breaking-point in life, a time to let go of what has been occupying you for the last years and assume a new attitude. Many people find themselves withdrawing socially and enjoying their own company. In summary: This marks a more inward period that will last 6-7 years, during which you may feel insecure and on your own. Don't expect to make great headway in the outer, social world. Bide your time and prepare for your "coming out" a few years down the road.

### **The Elements, Modalities and Angularity**

Elements, modalities, and house quadrants. These are all techniques used by astrologers to gain a general picture of how a person measures up. How do your planets and houses total up? Which do you have in abundance, and which do you lack, if any? Those with high totals show what we can or must do in life. These are qualities we have. However, most people are more interested by what they lack or want -- their lowest totals. They tend to study their "wants," imitate, and even pretend to have them. The old adage is: we become what we want (or lack), while we do what we can (or have to do). Here are your totals:

Your positivism lets you get right to the point, and you have little patience with those who shilly-shally. You've plenty of enthusiasm and warm up to things and people quickly. You have an inner self-confidence which burns with its own light.

*Have Fire*

You could have difficulty getting your ideas across to others, sometimes feeling inadequate in matters that require logic or the use of your mental powers. You may have doubts about those who talk too much and seem "long" on ideas.

*Want Air*

You are an aggressive prime mover, a starter, able to initiate and get things moving. Not always hot on the follow-up, you may tend to get the ball rolling and get out to move on to other things.

*Have Cardinal*

Circumstances can throw you into positions where you must use your mind and deal with communications, service, or enclosed hidden interests. You may deal with education, psychology, spiritual enlightenment or teaching principles and techniques.

*Have Cadent*

You could have difficulty getting outer recognition for your efforts or accomplishments. This doesn't mean they're worthless. It does mean you should throw your efforts into work or ventures you really love doing, not for others.

*Want Angular*

## Your Burn Rate

We all change, but the question is: At what rate? Some of us tear through change after change, one phase following another, year after year, while others move at a more serene pace. Or, one area of our lives may be hectic and forever changing, while other areas are quite tranquil. Why do some people seem to live lifetimes within lifetimes? Here is an analysis of your particular rate of change or "burn rate," including the particular areas of your life (planets) where you can expect continued change and growth. Areas where there is a very low index of change (indicating clear and easy use of the qualities involved) will also be pointed out. If you have sometimes wondered about the areas of your life where the candles burn at both ends, here are the details.

You have an average amount of change present in life, neither too much nor very little. Specific planets, either high or low, will be presented after this (if any exist).

A majority of planets in the FUTURE suggests that you tend to run ahead of the pack, taking changes and acting things out before they become accepted and a part of the status quo. Things happen to you that you come to understand over time.

### **Planets in High Focus**

There are big changes (high burn rate) throughout your life in matters of organization and responsibility. It may be difficult for you to learn to be thorough, to finish things, and take care of all the loose ends. You may have a lot to learn regarding what is and what is not essential in life -- separating the wheat from the chaff. Getting down to the nitty-gritty, the bare bones of the matter, could well be a major lesson.

*Saturn*

## **Patterns: Your Inner and Outer Self**

Here we are examining your basic attitude or approach to life, what is called by some the archetype or soul-type. If you know something about your particular soul-type, this can provide valuable information as to the general direction and purpose of your life. In particular, it is important to note the difference, if any, between our outer personality (the way we appear to others) and our real inner self; how are we, in fact, as people get to know us? Not all people are as they seem.

You are no secret. Outside or inside, there is not much difference. You are just as you appear.

*Geo: Square Helio: Square*

### **Your Soul Type**

You are very gifted, having great magnetism and warmth and also a keen and powerful mind. You can do anything you want to do in this life, if you can manage to get moving in one direction and keep at it. This is a very fortunate chart, but one that may result in laziness. You may find it more convenient to neglect your mental, conceptual, and organizational abilities in favor of your social agility and animal warmth. People will value you for your warmth and dynamic qualities as much as for your ideas, and you may find it easier to acquiesce with your animal warmth than to develop your mind. You can relate to almost all types of people with equal ease.

*Square Type*

### **The Key to your Inner Life**

Each person has one or more key qualities. Here we are not referring to our appearance or personality, but rather to our inner nature, how we are when someone really gets to know us.

In a word, it is your emotions and gusto that hold your innermost self together. Your feelings are not just important, they are central to getting to really know you. A strong devotional nature becomes apparent to anyone who takes time to know the real you. All else follows upon this inner drive and energy. The search for a mate, and marriage in particular, are crucial for you. You are driven to unite and find out what togetherness means.

*Mars*

Your sense of direction and guidance are the key to understanding you at any in-depth level. You are a natural problem-solver, always managing to come up with the correct approach. There is an innate capacity to negotiate with the law and authorities, plus an ability to find your way (the correct way) when it comes to inner and spiritual matters. Others sense this gift, and accept guidance and council.

*Jupiter*

### **The Key to your Personality**

Your personality hangs on your mind, mental activity, and the world of communication. This is the keystone that binds the rest of you together. Ideas, mental things, information exchange, and the interrelating of all these is central to your outer makeup. Communication is the interface

that holds the rest of you together.

*Mercury*

Your idealism and ability to be spellbinding are central to your personality, the way you appear to others. You have an almost other-worldly quality that more or less dominates or coordinates the rest of your character. Your imagination always reaches beyond differences and manages to solve them. At your best you are enchanting, able to point to the unity that binds all things together. At other times, your ability to mesmerize may only fog up the mind.

*Neptune*

### **The Personal Hot Spot**

When you get stress, it will tend to affect your sense of independence and originality -- for better or worse.

*Uranus*

Your career, sense of judgment, and problem-solving ability are at the top of the list as the key components to look out for whenever you are stroked or stressed.

*Jupiter*

### **Interface: Innermost qualities**

This feature is based on an intricate analysis of the position of a particular planet in relation to the orbital planes of the other planets. The resulting series of crossings, or nodes, tells us something about the nature of our innermost inclinations (Inc) and disinclinations (Dis). These indicators are not to be considered at the level of our personality, but rather are deep-seated parts of our innermost character -- our internal biases. These pros and cons are not apt to change in the course of our lifetime.

You cherish whatever is different and out of the ordinary. The commonplace and the humdrum are not for you. Your friends and surroundings -- everything around you -- must be unconventional to the point of being controversial. You could care less what others think, and this independence is your passion. The way you show affection may also be unusual, and your partners are certainly nonconformist. You set a high value on being different.

*Venus Inc Uranus*

You may lack coordination, in particular in relation to making career moves. Your emotions, led by your temper, can send you off in a direction that is anything but where you really want to go. There is a basic struggle between your feelings and your livelihood; therefore, it is important to find work that does not deny your feelings, or they will explode. Acting only on your feelings and doing "whatever you want" with no thought for a plan is also not helpful. Advice from a trusted friend is in order to help coordinate your job and your emotional life.

*Mars Dis Jupiter*

You hate a lack of clarity, especially when it comes to your feelings and emotions. This is a less than ideal world as far as you are concerned, and you are for making the best of it. Whatever dreams and ideals you may have had are somehow shut off from the day-to-day realities you face. You would rather ignore your dreams than be tortured by their remoteness. You are suspicious of pie-in-the-sky and have an abnormal fear of being deceived, in particular in matters of love and feelings. A sign of emotional tension.

*Mars Dis Neptune*

Secrets have a short half-life around you, for you have them out in a wink of an eye. You are brilliant when it comes to insights into the mind, psychology, and motivation -- yours or others'. Your intensity is obvious, and some may prefer to keep their distance rather than subject themselves to your laser eye. Nothing is passed over without being turned inside and out. Your analytical powers are superb, and you enjoy finding new avenues of inner growth.

*Pluto Inc Uranus*

A career in psychology, areas of the mind and self that are vulnerable and sensitive, is indicated. You not only like change and transforming experiences, you pursue them for their own sake. You head straight for whatever challenges your sense of identity and puts you through changes. This life path could also carry you into subjects like reincarnation, psychic experiences, and all that is occult or hidden from common view. You plunge right in, dig through the whole mess, and leave not a secret unturned. Yours is a career deep in change, transformation, and metamorphosis.

*Pluto Inc Jupiter*

You may have a tendency to avoid sensitive subjects and to take refuge in duties and responsibilities rather than face issues that might disturb you or put you through some changes. You are a stern pragmatist in all that is psychological -- whatever wells up from inside us. Your need for psychological security and absolute truth in all matters cuts through most chit-chat and settles on core material. You concentrate on deep, inner changes in you and in others -- depth psychology.

*Pluto Inc Saturn*

Your interest in religion, spiritual matters, and things that stretch beyond the course of a single human lifetime is quite unique. Others may not be able to share your vision into the spiritual and psychological, seeing you as something of a weirdo. To get to know you is to catch a glimpse, however brief, into some of the eternal thoughts and realms. You are very devotional when it comes to anything connected to spiritual and inner growth, and the process of personal introspection and analysis is also sacrosanct.

*Pluto Inc Neptune*

## Major Transits Happening Now

Astrologers use the term "transits" to mean the positions of the major planets that are overhead (in the sky) right now and their relationship to our birth chart. Transits are very important indicators of the current situation in which we find ourselves. They can provide insight into what we are now going through. Here are the dates when the next major transits for the planets Jupiter, Saturn, Uranus, Neptune, and Pluto are exact in your chart. Some dates will have already passed and some are still to come. Remember, with these large planets transits don't just happen on the day when they are exact. They cover a wide span of days, weeks, months, and sometimes years, depending on which planet is involved.

In general, transits of Jupiter take from several days to a week or two to complete, while those of Saturn take from two weeks to a month to play themselves out. With the outer planets, the period of activity is even longer: transits of Uranus take about two months, Neptune three or four months, and Pluto takes about a year. Uranus, Neptune, and Pluto move so slowly that the complete transit experience may take a year or two to complete itself. So be prepared to work with these situations.

## **House Activity and Emphasis**

The twelve houses of the horoscope, particularly when they are occupied by a planet, provide a clue to areas of special activity and use. Here is an analysis of house activity based on planet emphasis:

### **First House: Appearance, Approach**

The first house has to do with how we appear or the way we come across, thus our appearance and personality. This is the essential stuff that bubbles up in us spontaneously and that is obvious to others as our trademark or activity. It is what makes us each so personally different. This house rules our personal self and everything about us that draws a reaction from

our surroundings or others.

*First House*

Aries is the sign of the pioneer and leader. It is always impulsive, concentrated, and spontaneous. Act first and think about what you have done later. Rushing in where others fear to tread, the Aries energy is attention-getting. It always provokes a response from the surroundings, from others. There is something essential and instigative that starts or causes something else to happen -- a reaction or response.

*Aries*

Your career may be built around the way you appear or present yourself -- the way you come across to others. Your spontaneous personality and ability to fascinate others are key elements in being successful.

*Jupiter in First House*

### **Second House: Possessions, Reactions**

The second house is concerned with how we respond to or field whatever impulses or unique and personal qualities we manifest via our first house. This is how we hold or "have" things (possessions, material goods, money, and the like). The second house always refers to how we secure ourselves, the kind of response we get from life and those around us.

*Second House*

Taurus manages to respond, possess, and "have" just about everything possible. This is a nurturing and fertile sign in that any seed or impulse is cradled, bringing forth growth and development. Taurus is the way we "have" things, how we possess and acquire things. There is something gentle, regular, steadfast, and determined about Taurus. Always accepting, mothering, providing a base for... a matrix or womb where growth takes place.

*Taurus*

Good things (the support you need) always seem to come to you. Friends, co-workers, and plain old lucky circumstances offer encouragement and backing. You often get what you need, when you need it.

*Moon in Second House*

### **Third House: Inquiries, Communications**

The third house is concerned with explorations, investigations, and inquiry and research of all kinds. It also rules connections, communications, wires, tubes -- anything that we can get through with our body, mind, voice, letters, what-have-you. It is here that we explore and search for the limits of our life, whatever we are working with at the moment. A very mental house, concerned with finding, furthering, peering, and all manner of questioning. Traditionally rules short journeys, siblings.

*Third House*

Gemini is concerned with connections and communication of all kinds -- letters, wires, telephones, voice, thoughts, writing, and mental processes in general. Gemini is the gadfly, the communicator, the gossip of the zodiac. Searching conversations, scientific inquiry, research,

and so on belong here. Gemini energy is unattached, independent, and inquisitive.

*Gemini*

### **Fourth House: Home, Family, Security**

The fourth house is where we send down roots, find our limits, and generally secure ourselves. It is the end of any searching we might have done in the third house. Here we find or end our search, settle down, and manage to get in possession of the whole situation. This is our home and the base from which we can work, feel, and experience. This is the root of our experience, the core or thick of it.

*Fourth House*

Cancer is the mother of the zodiac, always making a home, protecting and providing for others. A sensitive sign where feelings and real experience count more than cold logic. It doesn't get any more physical and emotional than here. This sign has a sense of substance, a home base or foundation. Cancer energy is always limiting, bringing us down to Earth, grounding our every thought in experience, in substance.

*Cancer*

You may go through a lot of changes that affect your sense of security. Your home and family situation could be a focus for growth and real learning -- an area of great sensitivity and vulnerability.

*Pluto in Fourth House*

### **Fifth House: Expression, Creativity**

The fifth house has to do with awareness, emotion (to move out), and expression (to press out). Here there is always a growing sense of self-confidence and even a pride of ownership, since we begin to recognize and own our experience. We know that we have had or are having an experience. All forms of expression and offspring are connected to this house -- children, animals, creative expression, and so on. A sense of direction and ownership takes hold at this point in our experience.

*Fifth House*

Cancer is the mother of the zodiac, always making a home, protecting and providing for others. A sensitive sign where feelings and real experience count more than cold logic. It doesn't get any more physical and emotional than here. This sign has a sense of substance, a home base or foundation. Cancer energy is always limiting, bringing us down to Earth, grounding our every thought in experience, in substance.

*Cancer*

### **Sixth House: Responsibility, Work, Health**

The sixth house has to do with salvaging and preserving what is good and healthy in our experience. Here we separate the wheat from the chaff. We begin to care for ourselves and our experience and thus health, nutrition. The idea here is that we are able to analyze our experience and have thoughts about what is pure and what is not. The sixth house is an attempt to save the heart of an experience, one that already by that attempt is beginning to pass or not cohere.

Leo energy is expressive, emotive, and concerned with awareness and a sense of pride and ownership. Here is always a sense of home base or confidence from which the aggressive and outgoing Leo energy operates. Often very artistic, and always theatrical and expressive, this sign is good for creativity and the arts. Warm and big-hearted, this sign belongs to love of animals, sports, children.

*Leo*

You are very imaginative when it comes to your health, the food you eat, and how you take care of yourself. Quick to get the picture, you may find yourself helping others see the benefits that proper care (mental, physical, and such) can bring.

*Neptune in Sixth House*

### **Seventh House: Relationships, Other People**

The seventh house is the house of partnerships, relationships, social life, and all that carries us beyond our personal self into an awareness of other people, community, and the like. This includes spiritual awakening and the discovery that we are more than just our personality. Here we begin to respond to our personal needs (and those of others) for the first time. We can see what is going on and are committed to it; thus, marriage and yoga, or union, is indicated in this house.

*Seventh House*

Libra energy is always facilitating and responsive, assuming the appropriate reaction or response to any question or statement. What is sometimes seen as two-faced is only Libra's facility at responding to each in kind. This is certainly the social sign, par excellence. Impersonal and impartial, this sign doles out only what is demanded, never overdoing things.

*Libra*

### **Eighth House: Business Savvy, Elimination**

The eighth house, traditionally the house of death, is concerned with getting rid of excess parts of ourselves that we see we no longer need. Thus this house also covers initiation and any activities where we are transforming toward a more integral position, getting to the heart of things. The no-nonsense quality of the eighth house makes it good for business ventures since here we are stripping away the dross to reveal the truth or essence of the subject.

*Eighth House*

Scorpio is the most famous sign. Intense, passionate, and very personal, Scorpio rushes past superficialities and right to the heart of any matter. A loyal friend but a fanatic foe, this sign does well in politics and all areas where someone who dares is rewarded. Often associated with sexual energy, perhaps due to its tendency to strip away veneer, laying bare anything that is there.

*Scorpio*

### **Ninth House: Religions, Philosophy, Ideas**

The ninth house covers long journeys and religion (the longest journey of all). Here is what remains of the purification that takes place in the eighth house -- the seed, or essence, of an entire

cycle of experience. Religion comes from a Latin word that means to bind back, and thus refers to all things that last or endure, such as the truth. Essential ideas, philosophy, and all that is the very heart of things belong here.

*Ninth House*

Sagittarius is nothing if not direct, candid, and to the point. Sometimes harsh, this energy always is concerned with the absolute truth of the subject at hand. Associated with philosophy, religion, and all things that last, Sagittarius energy is always welcome in politics as well as social and community endeavors, where its basic fairness and evenhandedness is helpful.

*Sagittarius*

Religion, philosophy, and truth are essential to your life. You are painstaking and deliberate when it comes to sorting through ideas and values for what is lasting and solid. You may appear to others as too sober or religious.

*Saturn in Ninth House*

### **Tenth House: Practical Vision, Vocation**

The 10th house is a house of practical vision and clairvoyance, for here we can see clearly what is. Reputation and career are often connected to this house, since the areas where we can see with greatest clarity are those we most often can put to use to make a living. In summary, this house is where we have real vision and can see to do and work. Planets transiting this house may provide moments of insight and clear-seeing as well.

*Tenth House*

Capricorn is the business energy of the zodiac, for it is the very opposite of the emotional Cancer. Given to clear-headedness and practical insight and vision, this sign always takes a distanced perspective, a cool appraisal. Logical and painstaking, Capricorns love hard work and earned results. Money and things in general are very important.

*Capricorn*

### **Eleventh House: Dreams & Visions, Community**

The 11th house has to do with putting our visions and dreams to work. We have been on the mountain and had a vision (10th house). Here we take our vows never to forget what we have seen and to work hard to make these dreams into reality. Thus this house has always been connected with altruistic and humanitarian goals and trying to set them in motion. It is the house of friends and community, because when we are powered by a real insight or vision we share with all -- irrespective of differences.

*Eleventh House*

Capricorn is the business energy of the zodiac, for it is the very opposite of the emotional Cancer. Given to clear-headedness and practical insight and vision, this sign always takes a distanced perspective, a cool appraisal. Logical and painstaking, Capricorns love hard work and earned results. Money and things in general are very important.

*Capricorn*

You love community projects and group work of any kind. Your sense of values finds you on

the side of altruism and humanism at every turn. You appreciate goals and efforts at the global level.

*Venus in Eleventh House*

You have real community spirit, a drive to work with others on projects of humanitarian interest. An urge to make your altruistic dreams a reality keeps you moving in the direction of group goals and work.

*Mars in Eleventh House*

### **Twelfth House: Sacrifice, Psychology, Acceptance**

The 12th house is about all that we go through in order to make our dreams into reality and manifest them in the world around us. It covers what we are willing to put up with, the sacrifices we will make in order to bring across what is really important. This is connected to prisons, institutions, betrayal, self-undoing, and the like, because it is here that we must choose to take some possible abuse for the sake of the message we are carrying, or blow it all away with a negative reaction.

*Twelfth House*

Aquarius, the sign of humanitarian goals and altruism. Always impartial and nonsectarian, Aquarian energy is communal (even global). The focus is on the goal, and the goal is always one that is for the many and not the few. Thus this sign is connected to far-seeing visions, world views, and group work of all kinds. This sign tends towards coolness, independence.

*Aquarius*
