The Players: The 10 Planets

Part One: The Lead Roles

The Sun

The Sun is the center of our solar system. It generously shares its radiance with the other planets. In Astrology, the Sun is the heart of the chart. It points to ways that your relationship needs to confidently shine. Keep the fires of your Sun burning brightly and proudly together. Love will follow. Happiness will fill your minds, bodies and souls. The Sun stands for ego needs, will power and creative vitality.

Forget your own Sun signs for the moment, Jennifer and Ben.

Your shared Sun sign could be different than your individual Sun signs. Remember that we are talking about your combined Sun. It is the fusion of your two hearts.

Sun in Gemini

A Sign is a psychological process through which a planet operates. As a couple, being solarized through the sign Gemini gives your relationship a restless desire to move in multiple directions. The keyword phrase for Gemini in traditional astrology is "I think." Your minds together can accomplish much. The two of you can easily fan and excite each other's imaginations. There is a yearning to communicate. The thinking in your relationship is accelerated by generously sharing your perceptions with one another.

Mental sparks are constantly visible to others when in your presence. Each of you can enjoy sharing your travel history, information learned and new subjects of interest. People probably find each of you never at a loss for words.

There is the curiosity that Alice found in Wonderland as the two of you guide each other into new vistas of experience. Encouraging each other to gain new insights can bring mutual admiration. The eagerness when first meeting to explore each other's mental horizons will always find you interested in your partner's life interests.

The two of you may naturally change directions quickly. Your relationship can enjoy figuring out creative solutions to life's paradoxes. It is unlikely that either of you has the time to be mentally down for long. A fondness for peers outside of your relationship can help bring in fresh energy for your active minds.

Avoid mentally exhausting each other. Nervous energy is naturally produced by your relationship--count on it! There is a lot of mental voltage! A walk, drive, yoga or aerobics may recharge your batteries.

Be careful about changing lanes constantly. A lack of focus can cause one or both of you frustration. There is a wonderful capacity to enjoy performing several different creative roles in your relationship. Beware of trying to walk too many paths simultaneously.

Your creative vitality will add plenty of nourishment to your mental and emotional sides. Your association can enrich your appreciation of life. Traveling together and sharing your ideas openly can ensure permanence to your relationship. Let your thoughts and words express your love for one another. Encourage the exploration of diversity, and life will be rewarding.

Sun in the Twelfth House

Your Sun is lighting up the 12th house. Idealism, romantic atmospheres and aesthetic interests are big in your companionship. You feel wonderful when you believe in each other. Spiritual values may be a deep foundation for your relationship. Each of you can inspire the other to have faith in intangible forces. A shared devotion to causes or to values encourages intimacy.

Creative energies may lead you to explore individual or joint ventures in aesthetic expressions. Traveling to places, or participating in things that stimulate your imagination, can be mutually enjoyable. There is a capacity to enjoy the unique manner in which each of you creates a sense of beauty and inner peace.

Dedication to each other can be intense. Caring for one another during times of crisis may be powerful. Your intuitive clarity can make communication flow easily.

Do not expect each other to be gods! There will be mistakes made. No relationship is perfect, as there are no perfect people. Guilt is not a friend to either of you. Do things for each other more out of love and respect. You cannot save the other from some pain in the world. Balancing your dependency needs is a good policy to adopt. A clear sense of individual boundaries will keep your relationship healthy.

Talk! Endless silence will find you drifting apart. Communication will bring you back to a happy medium. Since you are probably very sensitized to the emotions of each other, some space can help. But do pick a time to talk! Keep realistic expectations for self and each other.

The Moon

Countless song lyrics, poems and lofty dreams have been inspired through gazing at the Moon. The Moon's sign and house position represents the intimacy and feelings you share with each other. Establishing a sense of security and a home are other lunar sides of life. The Moon symbolizes the imagination you share from your inner landscapes.

Moon in Leo

With your relationship Lunarized through the sign Leo, you have lively and dramatic imaginations. There is no end to the creative heights you can reach together. It is nice to know you have someone cheering you on when the going gets rough. Each of you will be a little demanding of attention. Your friends may see you as a mutual admiration society.

You bring out the romantic in each other with a capital "R". It is confirming to have a person in your life that truly believes in you. Respect your partner's pride in individual accomplishments and you have a friend forever! People can be moved by the passion the two of you exhibit. You have a way of making life deliver what you need. You aren't

likely to sit around and wait for things to come to you. A take charge spirit comes forward instinctually.

You both need to feel like royalty in your home. There is a need to feel you can be anything you want to be here. This is a place where you tend to exhibit your pride. It can be fun to entertain friends, groups or business associates. You might each need to have a designated area that inspires your creativity. A room that symbolizes your love of leisure and play is a must.

You can make well-calculated risks or investments together. Your shared promotion or advertising talents can lead to a wealth of ideas or money. Just be sure to consult each other on the big decisions. Neither of you will like being excluded.

Doing things that keep the romantic fires burning brightly is something to remember. Balancing work and play puts more smiles on your faces. Vacations to exotic places do wonders for your intimacy.

Do not fear some vulnerability. It is not always necessary that each of you appear invincible. If you need help, say so! Pride can keep you from talking. Keep bossiness to a minimum. You each need to hear how important you are to your partner's happiness. Flexibility may be a great ally to solve problems. Let each other be the leader at different times. Negotiate from the heart.

Do not try to create your partner in your own image. The freedom to act out life spontaneously will endear you to one other. It isn't as important to lavish gifts on each other as it is to appreciate individual creative imagination.

Let your imaginations guide you to keep discovering a fountain of youthful and playful vitality. There can be great satisfaction in falling in love, over and over again.

Moon in the Second House

There is a need to make each other feel secure regarding money. Joint ownership needs your best cooperation. You can build a slow and steady increase of financial wealth together. Together your productivity can take you far in life.

The gentle and soothing nature of your partnership brings enjoyable intimacy. The joy of being together inspires creativity. Sharing the wealth generously strengthens your commitment. A solid sense of internal security can keep you together. You can be stabilizing forces for one another.

Sensuality and passion expressed for each other is easily awakened. Pleasing your partner is a heartfelt desire. The two of you appreciate being together when you are free from stress and worry.

Your home is a safe haven from the outer world. You probably like natural beauty in the form of plants and forests. No matter where you reside your home needs to have a peaceful atmosphere. There is likely often the smell of spices, incense or other interesting aromas in the air.

Possessiveness need not come between you. Let each other be free to express heartfelt

needs. You may not always be able to completely comprehend each other's choices, but do your best to accept them.

Your shared values can give you confidence in one another. Your willingness to work hard for what you want is a unifying factor.

Let your intuition lead you to full cups of self-esteem. Accepting each other at face value does wonders for feeling close. Positive strokes never hurt either.

The Ascendant

We are taking a short intermission from the planets to introduce you to an additional key part of your relationship. The Ascendant or Rising Sign is the sign that starts the 1st house of the chart. The Ascendant is one of the twelve signs with a special role serving as an ambassador. It acts as a persona or mask for an individual or a relationship. The Ascendant is the personality through which we interact with the world.

The Ascendant is the way we appear to others. It is their first impressions of us. You meet someone and he or she seems to be confident, shy, talkative, cheerful, etc. The same can be said for a couple. The two people might seem theatrical, dreamy, or businesslike.

Ascendant in Cancer

People might see the two of you as homey or nurturing. Your caring tendencies can make others feel accepted and valued. Closeness or loyalty is in your faces. Privacy is your way of processing emotions and information. Some individuals will find you a hard-to-get-to-know pair. Other will delight in the way you support them. Home and family can be a key topic of interest.

The Part of Fortune

Your Sun, Moon and Ascendant can be combined or blended into a cosmic alchemy, known as the Part of Fortune. This is not a planet, but rather a reference point in the chart. The Arabian astrologers of the Middle Ages are given credit for its discovery. The Part of Fortune is said to show where we can expect to find good fortune and even luck. Do we really need to take a look at something from the long ago past, if it will serve as nothing more than a relic to hang on the wall? A translation of this ancient symbol into modern terms makes this symbol worth investigating. Why? Because it can give clues to special paths that lead to harmony and a spirit of feeling united.

Think of the Part of Fortune as the potential corridor leading to Opportunity. It is a way to read the pulse rate of the partnership, indicating ways to reach a shared sense of fulfillment.

Part of Fortune in Virgo

It points to the primal competitive instincts embedded deep within each of us. In modern terms, this fiery red planet's sign and house placement are associated with assertion and acting on impulse.

Mars in Cancer

The warrior in you can become watered down by emotions. Doesn't this sound like a contradiction in terms? It is! Don't panic. It only means that there will be times the two of you dread to argue openly. The emotional upset doesn't seem worth the price, being direct about some issues does have one main advantage. It gets to the heart of your feelings quickly. It's like pulling a Band-Aid off slow or fast. You need to decide which is less painful. Saturn

Astronomers say that if Saturn fell from the sky it is light enough to float on an ocean. Some people dread hearing about where Saturn is in their chart more than they do going to the dentist! The fortune tellers of old always painted this planet with "heavy" interpretations. They presented this planet as being a god of doom and gloom. In modern astrology, this motif denotes endurance and ambition. In mythology, Saturn was Chronos, the god of time, reflecting the wisdom that can be learned from past experiences. You could say Saturn is a "Cosmic Chiropractor", showing adjustments needing to be made along life's way. There can be frustration in repeating the same mistakes. Saturn's sign and house themes are associated with Commitment and Reality-Testing. The two of you may find clues here about how you define your relationship roles. Career drive is a Saturn hallmark. Saturn shadows are fear, rigidity and a need to be compulsively controlling. There is no longevity without partners dealing with the symbolism of this particular celestial wanderer. With a lot of practice and patience the two of you can get good in making this side of your relationship flow--honest! Saturn can become more a god of Success!

Saturn in Gemini

Do your serious plans seem to come in twos in your relationship? More than twos? Your multiple life interests will always keep you guessing which direction you both will choose next. Mental dexterity is a strong point in your being together. You make a pair of curious people with a sense of shared awe in searching for new pursuits. It may seem unusual for both of you to be down for long. Life doesn't remain stationary. Stimulating each other to greater awareness happens regularly. You can be wonderful sounding boards for each other's concerns.

Your commitment feels more relaxed when you don't state rigid expectations. You might ignore them anyway! Friends and loved ones are attracted to the enthusiasm in your eyes. You likely see life as a series of possibilities rather than closed-ended questions. What you notice and learn along the way is just as important as the end result. The two of you may have a way of getting a job done that is puzzling to others. It may even surprise yourselves! It's just your way of not getting bored by taking a different route now and then.

A talent in communication is indicated. Teaching, consulting, writing and even sales can demonstrate your command of language. Others respect your intelligence.

Your relationship is an interesting one to define because of its constant mobility. It's more a question of how well you can keep adapting to your changing needs. Life together is an ever-climbing escalator, leading you to explore exhilarating options. What else is new?

Saturn in the Eleventh House

A serious sense of direction is your guiding light. You are a couple that will commit to a plan if it is clearly defined. There is an ability to be inventive in business. Authority figures can appreciate the stabilizing insights you offer. You tend to respect individuals

with sound reasoning powers.

Showing indifference to your partner's emotional needs is shortsighted. You must talk issues through. Being comfortable with closeness and distance might take practice. Solitude could be needed by each of you when life is very stressful. It is your way of recharging yourselves. Your friends may see you both as protective of your space. They likely appreciate your sincere loyalty.

Professional associations could be special. Your work excellence can become widely known among your peers. Attending conferences or joining groups might be a good way to network. Receiving awards is possible for both of you.

Your being together contains an atmosphere of friendship as well as romance. Receiving support for your goals makes you feel this is a special relationship. You may like the way your partner can think progressive or in conservative terms as needed. Your connection is enlivened by creating a new goal occasionally.

Uranus

Try to visualize a maverick planet orbiting on its side, whereas the other planets sit straight up and down. Uranus! This planet was discovered in the eighteenth century, sandwiched in between the American and French Revolutions. Is it any great wonder that this planet's sign and house occupations show our individuality and innovative ideas? Experimentation. Inventiveness. Pluto's sign and house point to our drives for power, passion and financial gain. A desire to get to know each other on the deepest of levels can be a Pluto theme. We must let go of a part of ourselves to be in a relationship. This scares some people and seems like a fair deal to others. What we cannot face as individuals sometimes will be brought to the surface in our interactions with a partner. Pluto's shadows center around jealousy and possessiveness. This planet teaches us that letting go and trusting one another are rewarding paths. Facing the tests of Pluto together is the breakfast of champions.

Enhancing each other's learning is a bonus in being together. Don't put each other through a lie detector test. If you are truthful more than you are not, this won't be necessary anyway. It isn't easy to fool one another for very long. You may find yourselves exposing the darkness in those that lie to themselves.

Part Three: Planetary Aspects

It's time now to mention another technical side of your report. (If you don't like technical explanations, skip right to the Aspect Interpretations). You have already been introduced to the ten planets. Certain planetary pairs in your chart have a special relationship to one another due to particular angular distances separating them, known as aspects. You could almost say the two planets in an aspect travel and interact together along the same circuit. The following aspect interpretations or descriptions will be listed under five types. Two are known as the soft aspects: the sextile (60 degrees) and trine (120 degrees). These two aspects generally point to more gentle themes found in your relationship. They indicate a lower voltage of electricity and produce less friction. The planets involved in a trine or sextile are more likely to be areas where you flow together without much effort.

The more hard or intense aspects are the conjunction (0 degrees), square (90 degrees) and opposition (180 degrees). They require our understanding and will point to key ways the two of you must communicate and negotiate. Planets that are part of an intense aspect will show how you energize one another. These higher voltage aspects don't mean you want to avoid them, but more so to develop a true understanding of how to use this energy constructively. "Soft" does not mean good and "intense" does not imply bad. It is often the more intense aspects that deepen the bond of a partnership. The interpretation of any planetary aspect depends greatly on the symbolism of the two planets forming an aspect.

It might be helpful to keep some key words in mind for the aspects. The sextile is a promise of Excitement and Eagerness. The planets in this aspect give clues how your energies support one another. The trine is a special Harmony shown by two planets. There is often positive regard for one another that comes spontaneously. We expect good things to be delivered in the trine.

The conjunction is where two planets are joined at the hip. There is a Fusion or powerful blending of these two energies. The square can reveal where you will encounter Friction in your relationship. Pay special attention to these aspects, as they are opportunities for growth as much as discord. The opposition requires a Balancing act. It is similar to a seesaw. Each of you may find yourselves taking turns in acting out one planet or the other.

It might be helpful to refer to Parts One and Two to refresh your memory about the meaning of the Planets, Ascendant and Midheaven, as you read the aspects that follow. Remember that it is usually the more intense aspects that stretch us the most. The more

positively you use these challenging planetary combinations the greater will be your understanding of each other.

Note that a planet might be involved in several different aspects. In other words, the planet is interfacing its energies with numerous other planets (or even with the Ascendant or Midheaven). A "heavily aspected planet" plays a key role in your relating to each other.

Maybe it was a charismatic smile, the way you could talk, a physical attraction, or a shared sense of values. There is a multitude of possibilities you could name. The Nodes of the Moon are not planets. They are a celestial polarity offering clues to your connection on the soul level. Think of it as your own "psychic friends network." If this sounds too mystical or corny, just think of the Nodes as a shared frequency level in your partnership. It doesn't mean you get psychic flashes about each other. Much of this link between your minds is probably on a subconscious level. The Nodes usually play an active part in our closest relationships. The longer we are in a relationship with a particular person, the more these two energies come into our conscious awareness.
