## **Your Planetary Day**

While the calendar we use in the West dates from the 1500s, the seven days of the week have repeated without interruption for over two millennia. From ancient times, each day of the week has been associated with the Sun, Moon or one of the five visible planets. The weekday on which you were born shows where you stand in this ancient seven-fold cycle, and gives you a special link with the quality of its planetary ruler.

### ***You were born on a Monday.***

Monday is named for the Moon, symbolizing all that receives and contains, including the mother, cradling arms, and the home. The Moon's day is the second of seven stages, signifying the division of unity (Stage One, Sunday) into conscious and unconscious, day and night. While the Sun is the unmoving center, the Moon rules all that periodically waxes and wanes. Of the seven directions of space, the Moon's direction is down, inward, and toward the past, toward the hidden night-side of imagination and dreams. In the Kabbalah, the Moon is ruled by Gabriel, angel of dreams and of hope. "Monday's child is fair of face." — *Harper's Weekly*, 1887.

## **About Personal Numerology**

The report that follows explores the numerological meaning of your birth date and the full name that was given to you at birth. Its aim is to make you more aware of the tendencies and patterns in your life, so that you can live more consciously, and more fully become the person you were meant to be.

As you read the following pages, remember that they describe pure types for each number. No one, of course, exhibits these character traits in their pure form. Instead, each of us is multi-dimensional, made up of many energy imperatives vying for expression. Some energies harmonize easily, while others are at cross-purposes, causing us to live with contradictions and inner conflicts. Our task is to honor all parts of ourselves and work at bringing our disparate selves into some kind of balance and cooperation. By making us more aware of our inner tendencies, numerology can help us to do this all- important work on ourselves.

In our families and other groups of which we are a part, some behaviors are encouraged and others are discouraged. If who we are wasn't acceptable, we probably contorted ourselves to be what others wanted us to be. If so, we may have become what is called a "turn-type."

For example, we may negatively manifest a number by expressing its opposite, as when the independent number 1 type becomes extremely dependent. Alternatively, the energy is out of balance and expressed extremely, as when the daring number 1 type becomes foolhardy. Or the energy is not developed enough, so that the number 1 is cowardly instead of courageous.

Because we feel that a certain trait is unacceptable and unworthy of us according to the biases of our family, superiors or peers, we may not be able to relate to it in ourselves. We may then spend many years discovering who we really are apart from other people's expectations of us.

Studies such as numerology can help us find our way out of this maze, orienting us toward our true being and the highest manifestation of what we are. They can give us an objective picture of our strengths and weaknesses, show us our place in the larger scheme of things, and help us find the hidden gold in our characters, which we may not have even suspected that we had.

**How Numerology Works.** Through the use of ancient principles, numerology can derive a world of meaning from your birthdate and birth name. In the course of your life other numbers may become important for you, and you will probably acquire other names, but, like your astrological birth chart, the numerological vibrations at the very beginning of your life set the tone for all that follows.

To find the meaning inherent in your day, month and year of birth, numerologists add the digits in various ways. Most totals turn out to be more than one digit. They therefore reduce them to a single digit by adding the digits together. Whenever a total turns out to be a master number like 11 or 22, however, it is left as-is. These doubled numbers have a special significance, and are given special interpretations.

To find the numerological meaning of your name, numerology assigns a number to each letter of the alphabet. In the Pythagorean system used in this report, A = 1, B = 2, and so on through the first nine letters, and then we repeat the cycle through the rest of the alphabet. We then total the numbers corresponding to the vowels, the numbers corresponding to the consonants, and the numbers corresponding to all the letters to determine specific things about your character.

Each digit from 1 to 9 represents a specific stage in a cycle and has its own set of associations. In general, the odd numbers are considered introverted, in the sense of being primarily focused on inner life. The even numbers tend toward extroversion: that is, being primarily focused on outer activities. The numbers 1, 6, and 22, however, are considered dual in nature.

This said, let us now look first at your basic character and the major themes in your life.

## **Your Life Path**

The total of the day, month and year of your birth is called by numerologists the Life Path, Life Lesson, Birth Path, Birth Force or, sometimes, the Destiny number. This number is chosen by nature rather than by you or your parents, and it reflects the season and historical era of your birth. As its names suggest, it shows your mission in life, your life work and what the universe intends for you. It shows the opportunities you must seize in order to make the most of your potential. Following the life path that has been given to you will enable you to avoid continual discord and frustration, and to unfold in the way that is best for your nature. When you find your true place in the world, you will feel at home.

### ***Your birthdate total is 7.***

Your Life Path of 7 means that your destiny lies with the mental and spiritual: the path of study and the search for life's meaning. A certain solitude is necessary for your development. Your natural aloofness and detachment aren't well suited to superficial social relationships or heavy family responsibility. It's important that you specialize in a philosophical or scientific field. Don't be aggressive; instead, let opportunities come to you.

### **What Motivates You in Life**

We now move on to the name that you were given at birth. We first look at the total of the vowels in your full birth name, because this shows the emotional force that drives all that you do. Variously known as the Motivation, Soul Urge, Heart's Desire, or Inner Self number, the vowel total shows what you want out of life. Along with the Impression and Expression numbers that will be discussed below, it is a basic component of your character.

### ***The vowel total in your name is 3.***

With 3 as a Motivation number, you are the born entertainer who is always encircled by friends and admirers. Beauty and glamour are necessary parts of your existence. You need to feel that you're in the center of what's happening and that your life is a whirl with excitement. You're a flirt and love to be admired for your charm and wit. Communication and self-expression are vital to your well being. Living on an emotional seesaw, you're never down for long.

Colors and gems have number vibrations, too. Your Motivation color is yellow and your Motivation gem is the topaz. Wear these when you want to relax and restore your energies.

## **More about Your Emotions and Motivations**

The first vowel in your first name augments or mitigates the force of the vowel total, and gives additional information about your emotional nature and underlying motivations in life. It manifests differently depending on whether the vowel sound is long or short. The long vowel gives a more direct and forthright expression, while the expression of the short vowel is more muted.

### ***The first vowel in your name is E.***

“E” feels changeable and restless, and gives you a love of freedom and excitement. You tend to be on the move, always on the lookout for the next interesting event. For you, variety is truly the spice of life. You are mentally stimulating and stimulated mentally by all that passes before you. Preferring to remain unfettered and free to explore new horizons, you find it difficult to take root. A “people” person, you are outgoing and have many friends who enjoy your optimism and good humor. You also work well with your hands and are very versatile.

## **The Impression You Give to Others**

The total of the consonants in your name is known as the Impression, Personality, Outer Self or Adapted Self number. As its names suggest, this number signifies your persona, the face you show to the world. It shows the vibrations that you project, how others see you, and the kind of impression that you make on those around you. This has its origin in your illusions and fantasies, the world you create for yourself in daydreams. Given enough energy, your fantasies become reality, because you tend to become who you think you are.

### ***Your consonant total is 4.***

Having the Impression number 4, you dream of being a strong, down-to-earth sort of person who is the most necessary part of the lives of your family and friends. You see yourself as a dependable soul who can always be counted upon to do what is required. You have planned for everything that could go wrong, and are well prepared for the future. You use your past experience to your advantage, and can handle any obstacle that threatens your domain.

Your Impression color is green and your Impression gem is the emerald. Wear these when you want to be sociable and enjoy the company of others.

## The Way You Express Yourself

The total of all the letters in your full name is variously called the Expression, Mission or Life Purpose number. Composed of both the vowels and the consonants, it represents the blending of your inner and outer selves. It thus shows the natural expression of your goals and desires: what you do best, and, by extension, your talents and career potential. It also indicates how you deal with the outside world: your style of solving problems, getting things done, and negotiating with others to attain what you would consider success.

### *Your name total is 7.*

The Expression number 7 makes you an intellectual who needs to analyze and investigate the dynamics of life. In search of meaning, you are drawn to the psychological, the scientific and the occult, and you can master many levels of understanding. People may often misinterpret your natural dignity as aloofness. Your constant search for perfection and the need for an intellectual solution to problems can sometimes bring frustration, but you have the potential for bringing new kinds of understanding to the world.

When you want to be businesslike, try wearing violet as your Expression color and the aquamarine or amethyst as your Expression gem.

## Careers Offering the Best Self-Expression

With 7 as your Expression number, consider these kinds of jobs:

**The Boss:** judge, university dean or administrator, editor, foreman or superintendent, bank director.

**On Stage:** clergyman, religious leader, teacher, professor.

**Service:** doctor, dentist, psychologist, surgeon, banker, lawyer, detective, watchmaker, florist, appraiser, auditor, and any type of analyst, including political analyst, stock analyst or investment counselor, and astrologer.

**Just You:** accountant, librarian, historian, architect, writer, mathematician, philosopher, designer, creator of delicate handwork, engraver, antique dealer.

**Technical:** scientist, engineer, technical expert, astronomer, chemist, biologist, geologist, physicist, worker in electronics, computers or data processing.

**Best Bet:** Any job requiring analysis and synthesis of information.

## **The Power You Can Achieve in Maturity**

The total of the day, month and year of your birth and your full name at birth is known variously as the Power, Maturity, Reality, Real Self, Final Opportunity, Destiny or Goal Power number. A summation of both your name and your birthdate, this number shows how the two principal streams of energy converge to fulfill the purposes of your true self. The Power number is of great significance because it gives a clue as to what your ultimate life purpose might be.

This vibration usually becomes manifest only in the later part of your life. In the first half of life it tends to exist only as a potential. In these earlier years you live through many experiences that temper and define your character and aptitudes. Not until the age of 35 or 40 do most people live through enough life events to find their life purpose and develop it to the point where it becomes their main focus and direction. It is then that fulfillment comes. But this is usually achieved only after many false starts, and years of struggling to gain self-knowledge.

Finding your right place in life is gratifying. If you have not pushed through to this achievement, you can be dissatisfied and unhappy. You may feel at loose ends, without direction, rudderless and ill at ease. But if you have lived your life in accord with the purpose that was meant to be fulfilled in this life, you will find contentment and peace of mind.

What follows is the mature expression of your Power number. Mature development is not about living out someone else's idea of what you should be. It has more to do with honoring your own way of being in the world and moving from your own center. It is about trusting the process of unfoldment that exists within each of us and making this your guiding principle.

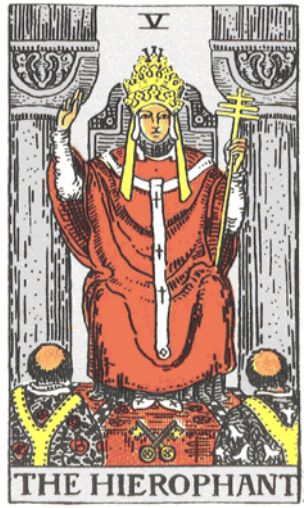

### ***The total of your name and birthdate is 5.***

A Power number of 5 signifies a life of freedom, variety and change. Fives attract situations that demand versatility and adaptability. Always open to new experiences, they seek out the curious and the unusual, and are constantly on the lookout for new fields to explore and new roads to travel. In some way embodying the archetype of the Trickster, they are unconventional, unpredictable, full of surprises, and excel at doing the unexpected. Not ones to tarry long, they tend toward impulsivity and depart in a flash if their interest is diverted elsewhere. Adventurous, enterprising and resourceful, they continually enliven their environment with energy and enthusiasm.

Fives are sociable and get on well with all kinds of people. Talking is one of their favorite activities. People interest them immensely, and they will spend hours chatting with strangers and friends alike.

As clever as they are with words, fives are also clever with their hands. They make excellent craftsmen, are known for their versatility, and are often amazingly dexterous, dazzling others with their creative handiwork.

### *Tarot Key 5: The Hierophant*

To gain further insights about your Power number, it can help to look at the Tarot trump that corresponds to it. In your case, this is the Hierophant. Called the Pope in some decks, he wears a triple crown, which in metaphysical language represents the integration of body, mind, and spirit. This integration creates a deep faith in life, and an energetic desire to experience life to its fullest. The Hierophant is versatile, a generalist who can see many facets of life. This can lead to brilliant ideas and new interpretations. People on this vibration deal with people well, and, like the Pope, may have a sizable flock.

### **Your Karmic Lessons**

Karma numbers are digits that are completely missing in the letters of your name as given at birth. Most people have one or more Karma numbers. These missing digits serve as a guide to the areas of your life and personality that may be lacking. Such areas will benefit from special attention. If you ignore these blind spots, life can have a painful way of making you notice them. This, however, can eventually spur you forward on the path to wisdom. When you develop yourself in these areas, you will feel much more whole and complete.

#### ***The number 2 is missing in your name.***

With a Karma number of 2, you may lack patience and tend to be overly sensitive. You may have experiences where you are forced to learn to get along better with others.

## **Your Subconscious Response**

Your Subconscious Response is related to how many Karma numbers you have. It shows the way you tend to react in emergencies, when you have no time to consult your intellect.

### ***Your Subconscious Response number is 8.***

When the going gets rough, you generally take charge of the situation in a calm and businesslike manner. You keep in control with a practical plan of action that is both well-organized and expedient.

## **Your Youth, Maturity and Later Years**

So far, we've discussed the number vibrations that stay with you throughout your life. Now we move on to the three major periods of your life as shown by your Life Cycle numbers. These are derived from reducing the digits in your month, day and year of birth. The sum of the month digits describes the first period; the day, the second period; and the year, the third period.

### ***Your First Life Cycle starts at birth and lasts until age 30. Its number is 11/2.***

Few, if any, children live a First Cycle on the 11 vibration. If they do, there is tremendous potential for creativity, but the high level of inspiration and illumination is likely to come with great nervous tension. To release their ideas and insights, such children do best in a permissive environment, with others dealing with the practicalities.

It is far more likely to live the First Cycle on the 2 level, which is characterized by great sensitivity and abundant emotion. Quiet, and with a desire to please, these children do best in a peaceful environment where there is loving guidance. It's possible to be spoiled by a doting parent, and to try to preserve this close relationship by marrying early. This is a time when it is good to give your intense nervous and emotional energy an artistic outlet, and also to cultivate obedience and adaptability.

During the First Life Cycle, your Life Path number and your First Minor Challenge number are also especially important influences.

### ***Your Second Life Cycle starts at age 30 and lasts until age 57. Its number is 11/2.***

The 11 vibration can bring a rare and special period in your life. For you, mid-life brings the possibility of great accomplishment on the mental or spiritual plane. When you are living on this high vibration, it is best to avoid business and the purely practical parts of life, and instead seize this precious time for meditating, teaching, creating and becoming a specialist in something. If you learn to follow your own fine intuition, you can be a source of inspiration to others.

You may also, at least occasionally, drop back to the 2 vibration. This means that mid-life success comes through cooperation, perhaps through work that helps people get along with each other. When you live on the 2 vibration it is time to put yourself second, attend to details, and be sensitive to the needs of others. This is also an excellent cycle for improving your own partnerships and marriage.

During this Life Cycle or the next, your Power number also usually starts to manifest.

***Your Third Life Cycle starts at age 57 and lasts until death.***

***Its number is 3.***

You can look forward to an enjoyable last cycle, filled with friendship, socializing, and a renewed pleasure in life. This is a wonderful time for developing artistic talents. Now you can creatively use your life experiences to help others develop the same “joie de vivre” that you are blessed with now.

## **Major Decision or Turning Points in Your Life**

Your Turning Points or Pinnacles are also derived from your full birthdate. Each of them defines a period in your life and the special issues that you will face during that period. As their name suggests, Turning Points show points of choice where you need to make decisions. Besides showing the issues at stake, the Turning Point number indicates the choice that will be best for you. Turning Points are like tests that you must pass before proceeding forward. The happiness that you feel in a given Turning Point period depends on the choices you've made and the skills you've developed when faced with the previous Turning Point.

***Your First Turning Point starts at birth and lasts until age 34.  
Its number is 22/4.***

Having the very high 22 vibration as a youthful Turning Point gives you the chance to combine material concerns with your highest ideals. In doing so you can build something of substance that will benefit others. Your test is to learn to use the great power that is given to you at this early age unselfishly and for the betterment of the community. Doing so will bring you a renown that you will be glad to take into later life.

With 4 as the lower-level vibration during this period, you may also be forced to learn care and discipline in your work. Determination and perseverance learned now are sure to bring rewards later on.

***Your Second Turning Point starts at age 35 and lasts until age 44.  
Its number is 5.***

The next nine years of your life will test your ability to be adventurous and enterprising, and to gracefully ride the waves of change as you set out in the world and take up a career. This is a time for slowing down your restless momentum somewhat so that you can at least think about settling upon a life direction.

***Your Third Turning Point starts at age 45 and lasts until age 54.  
Its number is 9.***

This 9 vibration in the prime of your life can lead you into situations of high emotion and possibly loss. You have the choice of how to react. If you play the victim, you regress and create unhappiness. If you take the long view of loss and are able to accept its necessity and absorb its message, you will realize that you have the power to create your own happiness and life will take on a luminous kind of beauty.

***Your Fourth Turning Point starts at age 55 and lasts until death.  
Its number is 5.***

In the last period of your life, a 5 vibration calls you to overturn your old routines and renew yourself with travel, new ideas, and possibly even a new lifestyle. Your choice to do something a bit risky will keep you feeling remarkably young for your years. If you go rigid and try to barricade yourself safely away from the possibility of change, it can have a nasty way of seeking you out anyway. It's best to hang loose and roll with it if it comes. Your life will be so much more interesting that way.

## **The Challenges You Will Meet**

Everyone is born with special lessons to be learned. Again, your full birth date has inherent in it two Minor Challenges that are usually presented to you earlier in life, and a Major Challenge that is lifelong but which you will probably get to master only later in life.

Challenges may at first present themselves to you as external obstacles to your progress, but they arise from the deficiencies that you are born with, parts that are lacking or underdeveloped. Once you can determine exactly what the weak link is, you can make a conscious effort to strengthen that trait within yourself. This takes willpower and may sometimes feel as if you are going against the grain, but it pays off abundantly in terms of progress and success in life. As you tackle each challenge, your fears are pushed back, your scope enlarges, and you feel more comfortable in the world.

### ***Your First Minor Challenge number is 0.***

The Challenge number zero presents no particular challenge, but this does not mean that you should rest on your laurels. It just gives you a choice of what to work on. During your youth you may be tempted to coast through life, but if you choose instead to work on any problems in your character, you can become truly great. It's possible that you might need some practice in making choices and then acting upon them. Generally, however, you are evolved enough to be conscious of whatever shortcomings you have, and to deal with them one at a time. Becoming the kind of person you know you could be is the most difficult of challenges, but you are capable of meeting it.

### ***Your Second Minor Challenge number is 8.***

The Second Minor Challenge is about aspects of your character that you need to work on during your Second Life Cycle, from about ages 35 to 62. With a Challenge of 8, you will need to overcome an obsession with money and power. Bound by a fear of not having enough, you may actually cause their loss, and having lost what you thought was most valuable, you will eventually learn that life goes on without them. In this way you learn that the proper use of money and power is to enhance happiness, and that so long as you can create happiness, you need never fear loss.

### ***Your Major Challenge number is 8.***

You face your Major Challenge throughout life. Most likely, however, you will find yourself needing to do the most work on it during your Third Life Cycle, after the lesser challenges have been met. When you have a Challenge number of 8, life will make it plain that you need to rethink your attitude toward money and power. You will need to find a balance between wanting it too much and disdaining it entirely. When your income and position arise naturally out of who you are, you will have met this challenge. Realize that accumulation is not what it's about. What's important is an easy flow, so that you and everyone else have enough when it's needed.

## **Your Best Activities for the Year**

Your Personal Year number combines your birth month and day with the current year. Personal Year numbers go in a recurring nine-year cycle of development. Each time you go around the cycle you have a chance to do things with added wisdom and skill. Keeping your activities in tune with your current year vibration can make your existence more harmonious and keep your unfoldment upon its intended track.

Some numerologists believe that the new personal year number begins on January 1st of the new year. Others believe that it doesn't change until your birthday on that year, so that up until your birthday you would be using the personal year number for the preceding calendar year.

### ***Your Personal Year number beginning on Jan 1 2005 is 29/11/2***

An 11 Personal Year is rare and special. When you are living on this higher vibration, it can be a phenomenal time for inspiration, illumination, creativity and inventiveness. Your ideas may be avant-garde, and your ingenuity may create great beauty. If you follow the intuitions that this vibration brings, you can bring something truly new into the world and may come to the notice of others. Because this is such a high vibration, you may feel some nervous tension during the year. With the great power that you are given now, it is best to flow with your inspiration and intuitions, and to live in the service of others.

At at least some points during the year, you may find yourself "resting" at the lower 2 vibration. This means that you become softer and more receptive, and your focus naturally turns toward partnership and cooperation with others. It is time to seek out a person who will help you to crystallize your dreams. Then you should listen to your partner, be diplomatic and patient, and perfect the art of working as a team in a spirit of respect and harmony. As receptive as you are to another person, you should also be receptive to your own inner knowing.

### ***Your Personal Year number beginning on Jan 1 2006 is 30/3***

A 3 Personal Year is a time to enjoy the good things that are born out of the self-assertion of the first year in the cycle and the pairing-off and gentle accommodations of the second year. When you plant your seeds well in the 1 Personal Year, your 3 Personal Year is indeed a lucky one, full of potential for growth and advancement. If you put yourself forward, you will be popular and will find those who will help you express yourself and further your ideas. So open up and spread the word. It is no time hide your light under a bushel. Get around, be seen and identified, socialize and network. This is a light-hearted year, a time for exuberant self-expression, a year of fun and rewards in which you can restore your vital energies, explore your creativity, and widen your social contacts before the hard work that lies ahead. The keyword for this year is Enjoy.

## Where Do We Go from Here?

If this report has aroused your curiosity and you want to learn more, you may find that exploring your numbers with a deck of Tarot cards is an excellent means for further self- reflection.

Suppose that your birth date were August 19, 1962. The Tarot trump that you would look at for the month would be 8 (Strength, or in some decks, Justice). For the day, you would look at 19 (the Sun),  $1+9=10$  (the Wheel of Fortune), and, reducing it even further,  $1+0=1$  (the Magician). For the year, you would look at  $1+9+6+2=18$  (the Moon), and possibly also  $1+8=9$  (the Hermit).

These cards would have something to say about you and how you express these traits as you follow your destiny. Our example birth date would have the Sun in Leo, and trump 19, the Sun, would reinforce the Leo symbolism. You could see that the person is a hard worker (8) with a sunny disposition (19) who is aware of the changes in fortune that life can bring (10). Extremely creative (1), he is also a sensitive, caring person who is tuned in to other people's feelings (18).

It is instructive to buy a Tarot deck, put one of your cards up for a few days, and mull over the symbolism. Remember that there are no truly negative numbers or cards. All participate in the experiences of the soul as it passes through life.

Even trump 15, the Devil, has its place. Everyone has traits that create stumbling blocks or weaknesses. When we work to overcome these we achieve maturity and become more sympathetic to the weaknesses that we see in others. This may be an important focus for a soul with the number 15 prominent.

Also, trump 13, the so-called Death card, is often misunderstood. Remember that in the cycle of seasons the leaves fall and winter comes, but this death is only the precursor of the life that bursts forth in the spring. Life is not all white light and bubbles. There are dark clouds of pain and frustration as well. It's all part of the cycle.

Whatever you find your numbers to be, remember that nobody has it all down pat. We all have plenty to learn. We do have a choice, however. We can, if we wish, fight against our destiny or try to ignore it. Or we can, as the great psychoanalyst C.G. Jung put it, "do willingly what we must do by necessity." Viewing ourselves through the lens of studies such as numerology, the Tarot and astrology, we gain a clearer picture of what our own necessity is, and can then travel more consciously on our life's intended path.
