

Personal Numerology Report

for

HOWARD HUGHES

born on

December 24 1905

Your Planetary Day

While the calendar we use in the West dates from the 1500s, the seven days of the week have repeated without interruption for over two millennia. From ancient times, each day of the week has been associated with the Sun, Moon or one of the five visible planets. The weekday on which you were born shows where you stand in this ancient seven-fold cycle, and gives you a special link with the quality of its planetary ruler.

You were born on a Sunday.

Sunday is named for the Sun, which is often associated with the hero who sets out on a quest and earns honor and glory. Like the Sun, the solar person stands at the center, radiating energy to those nearby. Of the seven directions of space, the Sun's direction is upward, toward the highest point in the sky. The Sun rules consciousness and illumination, the day-side of life. In the Kabbalah, the Sun is associated with Michael, angel of light. Pride is the weakness of the solar personality; and devotion to the heroic quest its special strength.

In Romance languages, the name for Sunday means “day of the lord,” and indeed the Sun also signifies the god who dies and is reborn, as the Sun is each day. As the unmoving center of the solar system, the Sun is the still point where we encounter the eternal. For the Christians, its day became the Sabbath, the day of rest. “The child that is born on the Sabbath Day / Is brave and bonny and good and gay.” —*Harper's Weekly*, 1887.

About Personal Numerology

The report that follows explores the numerological meaning of your birth date and the full name that was given to you at birth. Its aim is to make you more aware of the tendencies and patterns in your life, so that you can live more consciously, and more fully become the person you were meant to be.

As you read the following pages, remember that they describe pure types for each number. No one, of course, exhibits these character traits in their pure form. Instead, each of us is multi-dimensional, made up of many energy imperatives vying for expression. Some energies harmonize easily, while others are at cross-purposes, causing us to live with contradictions and inner conflicts. Our task is to honor all parts of ourselves and work at bringing our disparate selves into some kind of balance and cooperation. By making us more aware of our inner tendencies, numerology can help us to do this all-important work on ourselves.

In our families and other groups of which we are a part, some behaviors are encouraged and others are discouraged. If who we are wasn't acceptable, we probably contorted ourselves to be what others wanted us to be. If so, we may have become what is called a “turn-type.”

For example, we may negatively manifest a number by expressing its opposite, as when the independent number 1 type becomes extremely dependent. Alternatively, the energy is out of balance and expressed extremely, as when the daring number 1 type becomes foolhardy. Or the energy is not developed enough, so that the number 1 is cowardly instead of courageous.

Because we feel that a certain trait is unacceptable and unworthy of us according to the biases of our family, superiors or peers, we may not be able to relate to it in ourselves. We may then spend many years discovering who we really are apart from other people's expectations of us.

Studies such as numerology can help us find our way out of this maze, orienting us toward our true being and the highest manifestation of what we are. They can give us an objective picture of our strengths and weaknesses, show us our place in the larger scheme of things, and help us find the hidden gold in our characters, which we may not have even suspected that we had.

How Numerology Works. Through the use of ancient principles, numerology can derive a world of meaning from your birthdate and birth name. In the course of your life other numbers may become important for you, and you will probably acquire other names, but, like your astrological birth chart, the numerological vibrations at the very beginning of your life set the tone for all that follows.

To find the meaning inherent in your day, month and year of birth, numerologists add the digits in various ways. Most totals turn out to be more than one digit. They therefore reduce them to a single digit by adding the digits together. Whenever a total turns out to be a master number like 11 or 22, however, it is left as-is. These doubled numbers have a special significance, and are given special interpretations.

To find the numerological meaning of your name, numerology assigns a number to each letter of the alphabet. In the Pythagorean system used in this report, A = 1, B = 2, and so on through the first nine letters, and then we repeat the cycle through the rest of the alphabet. We then total the numbers corresponding to the vowels, the numbers corresponding to the consonants, and the numbers corresponding to all the letters to determine specific things about your character.

Each digit from 1 to 9 represents a specific stage in a cycle and has its own set of associations. In general, the odd numbers are considered introverted, in the sense of being primarily focused on inner life. The even numbers tend toward extroversion: that is, being primarily focused on outer activities. The numbers 1, 6, and 22, however, are considered dual in nature.

This said, let us now look first at your basic character and the major themes in your life.

Your Life Path

The total of the day, month and year of your birth is called by numerologists the Life Path, Life Lesson, Birth Path, Birth Force or, sometimes, the Destiny number. This number is chosen by nature rather than by you or your parents, and it reflects the season and historical era of your birth. As its names suggest, it shows your mission in life, your life work and what the universe intends for you. It shows the opportunities you must seize in order to make the most of your potential. Following the life path that has been given to you will enable you to avoid continual discord and frustration, and to unfold in the way that is best for your nature. When you find your true place in the world, you will feel at home.

Your birthdate total is 6.

Your Life Path of 6 means that your destiny is to serve and to be responsible for the welfare of others. Be it the home, the family or a work situation, your task is to lead the group and make it unified and productive. You'll be involved with nurturing weaker persons, and you must learn to put the welfare of the group before your own interests. Aspire to be the benign parent figure, a source of guidance and strength. Marriage is ideal for you.

Numerology based on your name: HOWARD HUGHES

What Motivates You in Life

We now move on to the name that you were given at birth. We first look at the total of the vowels in your full birth name, because this shows the emotional force that drives all that you do. Various known as the Motivation, Soul Urge, Heart's Desire, or Inner Self number, the vowel total shows what you want out of life. Along with the Impression and Expression numbers that will be discussed below, it is a basic component of your character.

The vowel total in your name is 6.

With 6 as a Motivation number, you want to create harmony everywhere in your world, and you are committed to a well-established, nourishing domestic scene. You do all in your power to help others and to be a source of strength and guidance. You have definite principles, and actively work to set the world straight. You are also artistic and like to work with color and design. You relate to everything personally. This can be a strength, but be on guard that your emotions do not cloud your judgment.

Colors and gems have number vibrations, too. Your Motivation colors are the deeper shades of blue, and your Motivation gems are the pearl and sapphire. Wear these when you want to relax and restore your energies.

More about Your Emotions and Motivations

The first vowel in your first name augments or mitigates the force of the vowel total, and gives additional information about your emotional nature and underlying motivations in life. It manifests differently depending on whether the vowel sound is long or short. The long vowel gives a more direct and forthright expression, while the expression of the short vowel is more muted.

The first vowel in your name is O.

“O” feels both sympathetic and responsible. You work best with others and prefer not to go it alone. You want to create beautiful and congenial surroundings, and like to support and sustain your loved ones. You are the glue that keeps the family together and the lubricant that smoothes over the rough edges in intimate relationships. You can also be relied upon, such that your friends and family will vouch for your loyalty, stability and steadfastness. You are a refuge for those in need of help, and you have excellent problem-solving skills when the time comes to explore options and plan strategy. You give comfort and lend a sympathetic ear.

The Impression You Give to Others

The total of the consonants in your name is known as the Impression, Personality, Outer Self or Adapted Self number. As its names suggest, this number signifies your persona, the face you show to the world. It shows the vibrations that you project, how others see you, and the kind of impression that you make on those around you. This has its origin in your illusions and fantasies, the world you create for yourself in daydreams. Given enough energy, your fantasies become reality, because you tend to become who you think you are.

Your consonant total is 5.

Having the Impression number 5, you envision yourself as the world traveler, living a life of variety and adventure, free from mundane cares and responsibilities. Wanting to experience as much as possible, you seek pleasure and want never to be bored. You are the gambler who thrives on challenge and the unexpected, and in your dreams, every day brings surprise and excitement. A lover of crowds and happenings, you embrace life enthusiastically.

Your Impression color is pastel blue, and your Impression gem is the turquoise. Wear these when you want to be sociable and enjoy the company of others.

The Way You Express Yourself

The total of all the letters in your full name is variously called the Expression, Mission or Life Purpose number. Composed of both the vowels and the consonants, it represents the blending of your inner and outer selves. It thus shows the natural expression of your goals and desires: what you do best, and, by extension, your talents and career potential. It also indicates how you deal with the outside world: your style of solving problems, getting things done, and negotiating with others to attain what you would consider success.

Your name total is 11/2.

As an Expression number, the master number 11 can indicate great potential as an enlightened thinker with excellent intuition and vision. You have the ability to create harmony out of conflict, but can have difficulty maintaining your own equilibrium. Your tastes run to the exotic, and you have a mysterious and otherworldly air. Spiritual in nature and high-strung, you are best off when working with others who are more practical than you. The supreme idealist, you need to become more grounded if you are to apply your ideals to the real world.

A master number is too powerful a vibration to be used all the time. Instead, it requires special circumstances and energies. In daily life, you will find that you tend to express yourself on a more human 2 level. Here you can sense the feelings of others, and this enables you to be a natural peacemaker. You bring love to your circle of family and friends, and inspire others to be more patient and tolerant. You dress modestly, as you are not really interested in being the center of attention. You are quite happy to go along with the crowd. Do not allow a tendency toward passivity to cause you to end up with the short end of things.

When you are feeling inspired and operating on your 11 level, you are more likely to be at your serious best when you are wearing the color silver and/or the metal platinum. When you want to be businesslike but are living at your more human 2 level, it's best to wear orange and/or the moonstone.

Careers Offering the Best Self-Expression

Having the master number 11 as your name total gives you great flexibility in your choice of careers. To work up to the demands of your 11 Expression number, consider these kinds of jobs:

The Boss: the leader of a reform movement.

On Stage: clergyman, reformer, religious leader, actor, promoter, musician, political campaigner, teacher, lecturer, auctioneer, any work with the mass media.

Service: diplomat, revenue collector, beauty specialist; lawyer, psychiatrist, psychologist; charity, welfare or social worker; counselor for the elderly, young, or unemployed,.

Just You: inventor, philosopher, poet, biographer, composer, novelist, writer on religious or spiritual matters, critic, explorer, antique dealer, filmmaker, psychic, mystic, searcher for spiritual enlightenment or expanded consciousness.

Best Bet: any job where your special talents can reach the public.

Alternatively, to work at the less demanding level of a 2 Expression number, consider the following careers:

The Boss: club organizer, tour director, producer, publisher.

On Stage: politician, musician, entertainer in a group, teacher.

Service: diplomat, secretary, civil servant, office worker, analyst, collection agent, nurse, psychologist, homemaker, waitperson, mechanic, psychic or medium.

Just You: bookkeeper, librarian, antique dealer, poet, novelist.

Best Bet: any job where you work as a member of a team.

The Power You Can Achieve in Maturity

The total of the day, month and year of your birth and your full name at birth is known variously as the Power, Maturity, Reality, Real Self, Final Opportunity, Destiny or Goal Power number. A summation of both your name and your birthdate, this number shows how the two principal streams of energy converge to fulfill the purposes of your true self. The Power number is of great significance because it gives a clue as to what your ultimate life purpose might be.

This vibration usually becomes manifest only in the later part of your life. In the first half of life it tends to exist only as a potential. In these earlier years you live through many experiences that temper and define your character and aptitudes. Not until the age of 35 or 40 do most people live through enough life events to find their life purpose and develop it to the point where it becomes their main focus and direction. It is then that fulfillment comes. But this is usually achieved only after many false starts, and years of struggling to gain self-knowledge.

Finding your right place in life is gratifying. If you have not pushed through to this achievement, you can be dissatisfied and unhappy. You may feel at loose ends, without direction, rudderless and ill at ease. But if you have lived your life in accord with the purpose that was meant to be fulfilled in this life, you will find contentment and peace of mind.

What follows is the mature expression of your Power number. Mature development is not about living out someone else's idea of what you should be. It has more to do with honoring your own way of being in the world and moving from your own center. It is about trusting the process of unfoldment that exists within each of us and making this your guiding principle.

The total of your name and birthdate is 8.

A Power number of 8 signifies a life of striving for achievement and, often, financial power. Eight is the archetype of the Administrator. Not surprisingly, eights are found in management positions and are often CEOs. Whatever they do, eights attract situations that demand organization and executive ability. Shrewd in business, they have excellent instincts for commerce and are often drawn to the world of finance.

Eights tend to be ambitious and are willing to work with remarkable concentration and commitment to achieve their goals. They take their responsibilities seriously and are usually very civic-minded.

Efficient and exacting employers, eights are powerful and dominant, with a take-charge way about them. Because they expect as much from themselves as they do from others, they have a natural, unquestioned authority. They make excellent leaders, and are good at teaching those who work for them the skills necessary for success.

Tarot Key 8: Strength

To gain further insights about your Power number, it can help to look at the Tarot trump that corresponds to it. In your case, this is the card called Strength. Here Strength is portrayed as a woman, taming the fierce lion with a firm but loving touch. The civilized person keeps only the gentlest of reins on the possibly destructive, but also powerful and vital, animal nature. This is the strength of the martial arts and of expert horsemanship, expending the least possible energy to get the job done. It comes from perfect attention to what is, and perfect responsiveness to the moment. From this balance comes the ability to excel in the “real” world, where survival of the fittest is the rule. Such strength is the perfect vessel for authority.

In some Tarot decks, Key 8 is the card called Justice. This is also a card that you might want to contemplate.

Your Karmic Lessons

Karma numbers are digits that are completely missing in the letters of your name as given at birth. Most people have one or more Karma numbers. These missing digits serve as a guide to the areas of your life and personality that may be lacking. Such areas will benefit from special attention. If you ignore these blind spots, life can have a painful way of making you notice them. This, however, can eventually spur you forward on the path to wisdom. When you develop yourself in these areas, you will feel much more whole and complete.

The number 2 is missing in your name.

With a Karma number of 2, you may lack patience and tend to be overly sensitive. You may have experiences where you are forced to learn to get along better with others.

Your Subconscious Response

Your Subconscious Response is related to how many Karma numbers you have. It shows the way you tend to react in emergencies, when you have no time to consult your intellect.

Your Subconscious Response number is 8.

When the going gets rough, you generally take charge of the situation in a calm and businesslike manner. You keep in control with a practical plan of action that is both well-organized and expedient.

Your Youth, Maturity and Later Years

So far, we've discussed the number vibrations that stay with you throughout your life. Now we move on to the three major periods of your life as shown by your Life Cycle numbers. These are derived from reducing the digits in your month, day and year of birth. The sum of the month digits describes the first period; the day, the second period; and the year, the third period.

Your First Life Cycle starts at birth and lasts until age 31.

Its number is 3.

During a youth bent on expressing yourself at any cost, you have a tendency to go to extremes. A fun-loving chatterbox, you can be quite a handful unless you have the chance to get out and be with people as much as possible. While formal schooling may make you restless, you will probably thrive when you channel your exuberant energy into the areas of art, drama, music or other forms of self-expression.

During the First Life Cycle, your Life Path number and your First Minor Challenge number are also especially important influences.

Your Second Life Cycle starts at age 31 and lasts until age 58.

Its number is 6.

More than most people, you need a middle life of settling down, building your nest and putting down roots. Your responsibilities to others are paramount during this time. Others will depend on you, so you must be strong and able to give advice and guidance. Your family life should now be in order if you are to accomplish your goals during this period. This is a perfect time for enjoying married life.

During this Life Cycle or the next, your Power number generally begins to manifest.

Your Third Life Cycle starts at age 58 and lasts until death.

Its number is 6.

Your final life cycle will be concentrated around the home, so it's best to prepare the way by building a solid life around family and friends. You're promised lots of companionship and the security of the comfortable and familiar. It's a mellow, comfortable way to spend your golden years.

Major Decision or Turning Points in Your Life

Your Turning Points or Pinnacles are also derived from your full birthdate. Each of them defines a period in your life and the special issues that you will face during that period. As their name suggests, Turning Points show points of choice where you need to make decisions. Besides showing the issues at stake, the Turning Point number indicates the choice that will be best for you. Turning Points are like tests that you must pass before proceeding forward. The happiness that you feel in a given Turning Point period depends on the choices you've made and the skills you've developed when faced with the previous Turning Point.

***Your First Turning Point starts at birth and lasts until age 34.
Its number is 9.***

This youthful Turning Point may face you with change or loss at an early age. For a young person it may be especially difficult to deal with the intense emotions involved, and to love and give even though there may be no return. Nevertheless, during a 9 vibration this is where happiness lies. The more you rise to this challenge, the more beautiful life will seem to you. If you work for the good of others, you may be able to achieve money and success quite early in life.

***Your Second Turning Point starts at age 35 and lasts until age 44.
Its number is 3.***

The next nine years of your life will test your ability to expand both socially and artistically. It is a time to learn how to be cheerful and friendly, and to develop your ability to create. You may have the opportunity to write, speak publicly, or in other ways to use your mind and be on-stage. Develop your feelings and imagination, and be prepared for prosperity.

***Your Third Turning Point starts at age 45 and lasts until age 54.
Its number is 3.***

This 3 vibration in the prime of your life demands that you now actualize your creative powers. Your imagination is fertile, and this is a great time to express yourself, especially in words. This is also a chance for networking and making yourself known, and it can be a time when you have the choice of wearing prosperity badly or well.

***Your Fourth Turning Point starts at age 55 and lasts until death.
Its number is 9.***

In the last period of your life, a 9 vibration calls you to be selfless, impersonal and universal in your outlook. If you cling to anything in a period when change, endings and loss are real possibilities, you will only create misery for yourself and you will fail to garner the wisdom that is offered to you now. Whatever life brings, you must study it for the lessons that it offers. When you learn the lesson, suffering is no longer necessary. If you maintain your universal outlook, money and success are a real possibility, but your greatest rewards are in learning compassion and seeing the true beauty that is all around you.

The Challenges You Will Meet

Everyone is born with special lessons to be learned. Again, your full birth date has inherent in it two Minor Challenges that are usually presented to you earlier in life, and a Major Challenge that is lifelong but which you will probably get to master only later in life.

Challenges may at first present themselves to you as external obstacles to your progress, but they arise from the deficiencies that you are born with, parts that are lacking or underdeveloped. Once you can determine exactly what the weak link is, you can make a conscious effort to strengthen that trait within yourself. This takes willpower and may sometimes feel as if you are going against the grain, but it pays off abundantly in terms of progress and success in life. As you tackle each challenge, your fears are pushed back, your scope enlarges, and you feel more comfortable in the world.

Your First Minor Challenge number is 3.

The First Minor Challenge usually crops up early in life. When its number is 3, you will feel impeded until you learn to overcome the barriers to the free expression of your natural talents. You may need to overcome shyness and learn to express yourself clearly. Once you learn to relax with people, you may exhibit an unusual facility for expressing yourself in conversation and lending life and enjoyment to social situations. You should seize every opportunity to realize your creative potential, taking lessons when you can and letting enjoyment of what you are doing break down any barriers to your spontaneity.

Your Second Minor Challenge number is 0.

The Second Minor Challenge is about aspects of your character that you need to work on during your Second Life Cycle, from about ages 35 to 62. A zero Challenge number presents no particular challenge. This can mean either that life is easy because you have no large obstacles in your path, or that it is difficult because everything is an obstacle and you don't know which to tackle first. If the latter is true, it is best just to pick one difficulty arbitrarily and work on that until you have mastered it. Your plate is either very full or very empty because you are an old soul. You are evolved enough to be conscious of whatever shortcomings you have, and to deal with them one at a time. Becoming the kind of person you know you could be is the most difficult of challenges, but you are capable of meeting it.

Your Major Challenge number is 3.

You face your Major Challenge throughout life. Most likely, however, you will find yourself needing to do the most work on it during your Third Life Cycle, after the lesser challenges have been met. With a Challenge number of 3, you will feel impeded until you learn to overcome the barriers to the free expression of your natural talents. Cultivate your communication skills, and allow yourself to relax and play. When you learn to do this, your creative talents will flourish.
