The Players: The 10 Planets

Part One: The Lead Roles

The Sun

The Sun is the center of our solar system. It generously shares its radiance with the other planets. In Astrology, the Sun is the heart of the chart. It points to ways that your relationship needs to confidently shine. Keep the fires of your Sun burning brightly and proudly together. Love will follow. Happiness will fill your minds, bodies and souls. The Sun stands for ego needs, will power and creative vitality.

Forget your own Sun signs for the moment, Jennifer and Marc.

Your shared Sun sign could be different than your individual Sun signs. Remember that we are talking about your combined Sun. It is the fusion of your two hearts.

Sun in Leo

A sign is a psychological process through which a planet operates. As a couple, being solarized through the sign Leo gives your partnership a dramatic way of expressing yourselves. The keyword phrase for Leo in traditional astrology is "I will ". You are two people very determined to put your ideas into action. There is a joint pride in your relationship. You can inspire great confidence in one another to persevere through obstacles. Your will power to make dreams happen is truly awesome! Each of you can display a passion for creative expression. It is essential that each of you must express yourselves on your own terms.

Giving each other the room to grow is important. Sharing center stage and staying clear of false pride keeps your relationship free of harmful debris. Avoiding excessive demands for attention frees both of you. Allowing each other to lead in your areas of expertise is wise. Sharing the power maintains clear perspective. Treat each other with the respect you want to receive.

The warmth of an honest sharing of love lights your romantic fires. You can enjoy each other's sense of humor. There is great passion for life in your being together! Bring out each other's creative joy. Celebrate the success each of you achieves. You can be a great fan of one another.

Beware of bossiness. Sitting on a throne of bossy arrogance will leave you with no domain worth having. Try to force your will on your partner and you will likely be met with great resistance. Learn to work together with a spirit of cooperation. Together you can move mountains. Experience the warmth of your individual strength without losing sight of your partner's needs.

Try to keep from letting pride come between you. Cherish each other's creative dreams and happiness will blossom. Pay attention to that which each of you views as valuable and you have a friend and lover for life. Maintain an open heart, even when your

mind does not understand the other's personal goals. Your minds need to stay flexible even when in the midst of solving a problem or making major decisions.

Let your creative vitality encourage you to care about each other in the most difficult of times. Take a stand to provide warmth and tenderness. Make time for vacations and romantic atmospheres. Listen to the inner and outer dreams that get expressed after really getting to know each other. It is here that your time spent together can truly shine!

You can fill a variety of roles, whether it is in the form of parent, job, civic leader, etc. Sharing responsibility in your relationship gives you a sense of confirmation about each other. Making time for one another creates intimacy.

Friends and strangers will likely see you as people that know what they want in life. Your lives are based on a clear commitment. Your public and private lives can be balanced with good management. Remember to be fair to each other when life gets stressful or demanding.

A lack of adaptability can cause emotional distance. Too much competition within the partnership can create instability. Respect for each other's leadership ability is a stabilizing factor. Take turns being the boss.

You are a serious couple when it comes to making your ideas become a reality. You don't like people wanting to waste your time. Discipline is something you value.

Make time for each other. The temptation to compulsively work on individual challenges can distract you from your relationship. Give one another the attention and emotional support needed. If you do, you will have a friend for life!

The Moon

Establishing a sense of security and a home are other lunar sides of life. The Moon symbolizes the imagination you share from your inner landscapes.

Moon in Aquarius

to naturally deepen your mutual understanding.

Your mental alignments lead to experimentation. Your partnership could easily feature a trend- setting tone. Friends, peers or loved ones could be motivated to new inventive thinking. Your relationship probably attracts unusual people and situations.

The home could have a unique beat to it! Visitors with progressive insights may frequent it. Groups may enjoy meeting at your house. You might display a great capacity to adjust to each other's moods. A need for closeness and distance is indicated. Doesn't this sound like a difficult challenge? You will need to talk this dimension of your relationship through carefully. You can balance these two tendencies in your everyday relating with one another.

Aloofness! It might cause a deep wrinkle in your caring for one another. Find a happy medium between your emotional and mental sides. Communicate to each other's heart as much as the mind. Support each other's future goals and you just might have a friend forever!

Let your imaginations guide you to walk with a spirit of autonomy, and yet find areas where the farthest reaches of your worlds can meet. Embracing the closeness found in the present may be wiser than pinning all of your hopes for the promise of the future--though it's hard not to look ahead!

Moon in the Third House

Your minds often see eye-to-eye on major issues, though they can travel from different directions. Perceptions are often flavored by your emotions. There can be instant intuitive awareness of situations due to the chemistry of your energies.

A shared curiosity to learn is indicated. Communication is highlighted. You might even teach a subject of mutual interest together. Your home is never a dull place. Reading and staying in touch with current events is never far from your minds. You can receive visitors or telephone calls at any time of day. It is probably wise to have more than one phone line computer and television!

The onset of mood swings could disrupt communication. Emotional upheavals can distort your perceptions of each other. Be sure to separate feelings from facts. Listening helps keep emotional reactions balanced.

Let your intuition guide you to listen to each other carefully. Honoring individual

ways of establishing mental coolness can be the hidden ally. You can be intrigued with the diverse paths you will walk through life together.

The Ascendant

We are taking a short intermission from the planets to introduce you to an additional key part of your relationship. The Ascendant or Rising Sign is the sign that starts the 1st house of the chart. The Ascendant is one of the twelve signs with a special role serving as an ambassador. It acts as a persona or mask for an individual or a relationship. The Ascendant is the personality through which we interact with the world.

The Ascendant is the way we appear to others. It is their first impressions of us. You meet someone and he or she seems to be confident, shy, talkative, cheerful, etc. The same can be said for a couple. The two people might seem theatrical, dreamy, or businesslike.

Ascendant in Scorpio

People see the two of you as passionate and business-like or contemplative. You can display all three of these traits, depending on the circumstances. You can be charismatic when feeling extra confident. A need for privacy will sometimes find you a retreating couple. Financial sense is likely sharp. Negotiating skills can show you carrying yourselves in an articulate manner. The quiet intensity with which you project yourselves into the world could intrigue others. Prosperity is a product of working as a team. You can at times even take on the role of detectives or researchers.

The Part of Fortune

Your Sun, Moon and Ascendant can be combined or blended into a cosmic alchemy, known as the Part of Fortune. This is not a planet, but rather a reference point in the chart. The Arabian astrologers of the Middle Ages are given credit for its discovery. The Part of Fortune is said to show where we can expect to find good fortune and even luck. Do we really need to take a look at something from the long ago past, if it will serve as nothing more than a relic to hang on the wall? A translation of this ancient symbol into modern terms makes this symbol worth investigating. Why? Because it can give clues to special paths that lead to harmony and a spirit of feeling united.

Think of the Part of Fortune as the potential corridor leading to Opportunity. It is a way to read the pulse rate of the partnership, indicating ways to reach a shared sense of fulfillment.

Part of Fortune in Aries

Striking out in search of new worlds to explore fires up your passion. Waiting is not easy for you to do. Each of you can entice the other to follow an impulse to leap first and worry later. It is when leaving your comfort zones behind that fate or good fortune smiles down upon you. You are happier when feeling like doers, rather than watchers. Encourage your partner to pursue the directions that are the most energizing. You both function at your best when anticipating that tomorrow will bring a new horizon.

Part of Fortune in the Sixth House

It's your willingness to humbly learn new skills or ways toward self-improvement that summons the presence of good omens. You will never be perfect in each other's eyes. The sooner you see this; your time together will be more user-friendly. It's when you roll up your sleeves and work together that you shape a successful future. You may discover beauty and meaning through serving a joint purpose. Business dealings may point the way to abundance and self-satisfaction. Getting the most mileage from your efforts is a similar drive.

It points to the primal competitive instincts embedded deep within each of us. In modern terms, this fiery red planet's sign and house placement are associated with assertion and acting on impulse.

Saturn

Astronomers say that if Saturn fell from the sky it is light enough to float on an ocean. Some people dread hearing about where Saturn is in their chart more than they do going to the dentist! The fortune tellers of old always painted this planet with "heavy" interpretations. They presented this planet as being a god of doom and gloom. In modern astrology, this motif denotes endurance and ambition. In mythology, Saturn was Chronos, the god of time, reflecting the wisdom that can be learned from past experiences. You could say Saturn is a "Cosmic Chiropractor", showing adjustments needing to be made along life's way. There can be frustration in repeating the same mistakes. Saturn's sign and house themes are associated with Commitment and Reality-Testing. The two of you may find clues here about how you define your relationship roles. Career drive is a Saturn hallmark. Saturn shadows are fear, rigidity and a need to be compulsively controlling. There is no longevity without partners dealing with the symbolism of this particular celestial wanderer. With a lot of practice and patience the two of you can get good in making this side of your relationship flow--honest! Saturn can become more a god of Success!

Saturn in Taurus

You are smooth and graceful in working together. Taking care of practical concerns will normally run like clockwork. Your slow and methodological approach to getting a job done gets results. Neither of you cares much for stress provoking situations. People probably see you as a reliable couple. You believe in making money the old-fashioned way by earning it. Each of you needs to have your opinions about money recognized. There will be tension if you don't. Patience takes you far together. Investments that start small can snowball into profit in future years. You have noses that can sniff out where to put your savings to let it mature handsomely. It could be frustrating if one of you wants to take more of a risk, and the other doesn't. A carefully laid out strategy that involves taking a chance could be a good thing.

Talent in creating or collecting beautiful items can be exhibited. Each of you can get very attached to possessions. Respecting what your partner values is endearing. You can share a love of well-designed landscapes. Owning land can be enjoyable. A fondness for peaceful surrounds can be a mutual desire.

Experience teaches you to how to negotiate with your partner. Stubbornness is a tendency when either of you feels slighted. When your commitment is based on an equal give-and-take, you feel like two lovers meant for each other.

Your social engagements can introduce you to people with influence. You might prefer self-reliant individuals. Planning is one of your strong points. You may be uncomfortable when first meeting strangers. It could take a while to warm up to new surroundings. A clear definition of your relationship is a must. You need to have an explicit understanding in what each of you hopes to achieve together.

Business and career aspirations are mutual interests. You bring out great ambition in one another. Neither of you cares for a person not taking their responsibilities seriously. You both expect others to perform at high levels. Rewarding sincere effort could be a common belief.

Your love for one another increases when you truly show how much you care. Controlling behaviors cause distance between your hearts. You are at your best when helping each other find confidence. Designing strategies that lead to success is a talent. Each of you may be influenced somewhat by traditions. Let one another feel free to be themselves. It creates a warmer closeness.

Uranus

Try to visualize a maverick planet orbiting on its side, whereas the other planets sit straight up and down. Uranus! This planet was discovered in the eighteenth century, sandwiched in between the American and French Revolutions. Is it any great wonder that this planet's sign and house occupations show our individuality and innovative ideas? Experimentation. Inventiveness. These are two more themes of this exciting and trend-setting entity. What is the down side to this rebel? A tendency in exhibiting a sarcastic tongue in your everyday communication. Launching sudden irresponsible actions will not make you feel like friends. Uranus can be the source of enjoying the refreshing insights you bring to your partnership. Treat each other as equals and you are likely responding to a positive tendency embedded in this planet's symbolism.

Uranus in Libra

The two of you enjoy meeting people from many different backgrounds. Your social connections are as wide as the Grand Canyon. You will need to allow your partner to maintain close associations outside of your relationship. Each of you is enriched by your friends. Peer groups could be a boost for your self-confidence. You are people with dynamic energy when you are focused.

Part Three: Planetary Aspects

It's time now to mention another technical side of your report. (If you don't like technical explanations, skip right to the Aspect Interpretations). You have already been introduced to the ten planets. Certain planetary pairs in your chart have a special relationship to one another due to particular angular distances separating them, known as aspects. You could almost say the two planets in an aspect travel and interact together along the same circuit. The following aspect interpretations or descriptions will be listed under five types. Two are known as the soft aspects: the sextile (60 degrees) and trine (120 degrees). These two aspects generally point to more gentle themes found in your relationship. They indicate a lower voltage of electricity and produce less friction. The planets involved in a trine or sextile are more likely to be areas where you flow together without much effort.

The more hard or intense aspects are the conjunction (0 degrees), square (90 degrees) and opposition (180 degrees). They require our understanding and will point to key ways the two of you must communicate and negotiate. Planets that are part of an intense aspect will show how you energize one another. These higher voltage aspects don't mean you want to avoid them, but more so to develop a true understanding of how to use this energy constructively. "Soft" does not mean good and "intense" does not imply bad. It is often the more intense aspects that deepen the bond of a partnership. The interpretation of any planetary aspect depends greatly on the symbolism of the two planets forming an aspect.

It might be helpful to keep some key words in mind for the aspects. The sextile is a promise of Excitement and Eagerness. The planets in this aspect give clues how your energies support one another. The trine is a special Harmony shown by two planets. There is often positive regard for one another that comes spontaneously. We expect good things to be delivered in the trine.

The conjunction is where two planets are joined at the hip. There is a Fusion or powerful blending of these two energies. The square can reveal where you will encounter Friction in your relationship. Pay special attention to these aspects, as they are opportunities for growth as much as discord. The opposition requires a Balancing act. It is similar to a seesaw. Each of you may find yourselves taking turns in acting out one planet or the other.

It might be helpful to refer to Parts One and Two to refresh your memory about the meaning of the Planets, Ascendant and Midheaven, as you read the aspects that follow. Remember that it is usually the more intense aspects that stretch us the most. The more positively you use these challenging planetary combinations the greater will be your understanding of each other.

Note that a planet might be involved in several different aspects. In other words, the planet is interfacing its energies with numerous other planets (or even with the Ascendant or Midheaven). A "heavily aspected planet" plays a key role in your relating to each other.

Maybe it was a charismatic smile, the way you could talk, a physical attraction, or a shared sense of values. There is a multitude of possibilities you could name. The Nodes of the Moon are not planets. They are a celestial polarity offering clues to your connection on the soul level. Think of it as your own "psychic friends network." If this sounds too mystical or corny, just think of the Nodes as a shared frequency level in your partnership. It doesn't mean you get psychic flashes about each other. Much of this link between your minds is probably on a subconscious level. The Nodes usually play an active part in our closest relationships. The longer we are in a relationship with a particular person, the more these two energies come into our conscious awareness.
