Introduction

Astrology is as old as measured time. Although there are many different approaches to astrology, all astrologers appear united in the idea that there is a connection between the heavens and the Earth -- they share one common space. For centuries there has been a misunderstanding concerning the nature of astrology to the effect that the heavens somehow "influence" events here on Earth. This theory of celestial influence has penetrated into the modern world until today it is the main concept or idea of astrology supported by the public -- the lay astrological audience.

Professional astrologers do not hold with theories of celestial influence. Instead, the modern astrologer conceives of the heavens and Earth as united, interpenetrating, and sharing a common space and time. The great cosmic or celestial events happening around and beyond the Earth (eclipses, lineups, and so on) are not seen as CAUSING events to occur on Earth, but as great signatures of events ALSO happening here on Earth. In other words, there is no "cause" in the heavens followed by an "effect" here on Earth. Instead, both planetary and earthly events happen simultaneously and are mutually reflective. Neither is the cause of the other; both are the product of the moment, one acted out in the heavens above, the other here on the Earth below.

While astrologers don't feel that heavenly events are the cause of events here on Earth, they do feel that specific heavenly events are enacted here on the Earth too -- at the same moment. In other words, there is only one grand "play." The great drama enacted in the sky is also acted out (in exact detail) here on Earth in the same instant. Another way to say this is that the Earth is part of the cosmos and shares in that cosmic moment. Scientists have been discovering (for example) that sunspots, solar flares, and solar activity have a very definite (and almost immediate) effect here on Earth. Astrologers tend to feel that all major cosmic events such as eclipses are interactive; they represent an activity also taking place within us and our consciousness.

In summary, astrology is a study of heavenly cycles and cosmic events as they are reflected in our earthly environment and vice-versa -- a vast cosmic clock. Astrologers find the cosmic patterns revealed in the rhythmic motions of the planets a great help in shedding light on the seeming helter-skelter of everyday life. Astrologers may have their heads in the heavens, but only to better guide their feet here on Earth.

We hope you enjoy your Comprehensive AstroProfile. It has been calculated using sophisticated astronomical formulae to ensure high accuracy. On the next page you will

find a list of the zodiac positions of your natal planets along with the house cusps for your birth moment.

Your Rising Sign

First let's take a quick look at your ascendant, or rising sign. Astrologers want to know what zodiac sign is rising at birth, since this gives a picture of the way you appear or come across to others.

You wear your heart on your sleeve and always manage to come across as confident and sure of yourself (possibly egotistical). You are very free with your emotions, which nevertheless tend to stay under your control. You are warm-hearted and effusive.

Planet Aspects

The Lights: The Sun and Moon

At the time of our birth, the planets (through their configurations and relationships) tell us something about how things were when we were born. Each planet points to special qualities within us. Yet, of all the planets, the two most important planets to astrologers are the "lights," the Sun and the Moon. From where we stand here on Earth, the great shining Sun by day and the reflecting Moon at night are our constant companions. They have much to tell us as to where we have been and where we are headed.

The Sun: Your Self and Future

From the Sun comes light, that which draws us into life. The Sun represents all the changes we have not yet taken, that part of us that we have not yet experienced but are headed toward. The Sun represents our identity, or self, in that it is toward these that we are moving and developing. Thus, it also represents that which we will become: older people, authorities -- those we look toward, or up to. Our essence, or future. Teachers, gurus, and older (more experienced) people are represented by the Sun. The Sun is "hot stuff," those further up the road of life experience.

You know how to say "No!" and to go without, if need be. Intense and sometimes driven, you are able to cut through to the heart of things. You are seldom interested in refinement. You can be very magnetic, even wild at times, and have a sense of power and an instinct for survival. Moody.

Sun in Scorpio

Any attempt to avoid confronting life at the personal level is bound to frustration. Your avowed goals and ambitions may tend to ignore questions of vulnerability and great sensitivity, and the two are forever about to meet and "tell all." You would rather skirt your sensitive and vulnerable areas and concentrate on your career, but they always intrude and refuse to be banished. Although you yourself like to avoid personal issues, your interest in probing the secrets of others is very energetic.

Sun Square Pluto

The Moon: The Support System

Here is information about the kind of environment we create around us, our support system. It is not only the surroundings that we set up today, but the Moon also represents our past, the particular history and social background out of which we grew. Aside from our social background, the Moon governs all of the old habits that we have grown beyond. We tend to look down on, or back on, our Moon. It represents those experiences out of which we have come, all those younger souls who are unconscious, or "sub" conscious to our own level. This is why it is said that the Moon is a mystery planet, for it

is both our parent and our child: our parent in that out of it we were born, our child in that we can't but respond to others who are now living as we once did.

You have strong, stable emotions and tend to draw around you the perfect environment for your upbringing. The thing you need is always at hand. In addition, you get much support and good fortune from friends and relatives. You value constancy and security in all things and possess a good business sense. You are, by nature, very domestic and enjoy nice surroundings.

Moon in Taurus

It may be hard to find support for your ideas, and arguments may arise with those who oppose or challenge your way of thinking. You could find yourself thinking and presenting ideas that are out of place or don't go along with the current mood. Since you don't always pay attention to your own moods and feelings, some of your ideas may not even feel right to you. You could say things that upset or challenge those around you. You may be great at argument.

Moon Opposition Mercury

You find it easy to work with other people and tend to pour a lot of energy into those around you. Your home and surroundings reflect this. When it comes to teaching or coaching younger people, you are a natural, always able to motivate and inspire others. With your powerful spirit, you enjoy your strong emotions and have an active social life as well.

Moon Trine Mars

You have a knack for always finding assistance in whatever career moves you decide to make. In fact, your ability to rally support makes a public career of one kind or another quite probable. Success is indicated in education, politics, or the law. You know how to attack and solve problems, whether personal or public. Chances are, your social skills mean that you are popular with almost everyone.

Moon Trine Jupiter

Your sense of responsibility is so well developed that you always end up managing any situation you become involved in. You are disciplined, work hard, and are good at getting others to work with and for you. Perhaps a little too serious and frugal, you enjoy getting along on less. Essentials are what count. You like to keep to yourself and tend to avoid too much socializing. Others may prefer keeping some distance too.

Moon Trine Saturn

You are very original when it comes to home and surroundings -- the environment you build around you. This could also manifest in unusual ways of supporting yourself. Your mother may have been quite eccentric or your upbringing somehow different. When you have breakthroughs, they often come as insights into your immediate surroundings, home, and environment -- your support system in general. This could also manifest in your finding new and different ways to make a living. You may have new ideas about the past, history, and younger people, find it easy to create an unusual environment, and enjoy surrounding yourself with what is new and different.

Moon Sextile Uranus

Your close ties with home and family, plus your career interest, may cut into your social life and personal charm. Others may find you somewhat preoccupied and lacking in the social graces. You may feel some regret or tension from this situation.

Moon Square Ascendant

The Inner Planets: Mercury and Venus

The planets Mercury and Venus have more to do with our internal and personal life than with life outside us. These inner planets are located between the orbit of the Earth and the Sun. We can look to qualities that are inside us. Venus indicates how we appreciate and measure our experience, how we value life. Mercury tells us something about how our mind works, how we think and communicate -- our intrinsic brightness.

Mercury: The Mind and Communication

Mercury is the light in our eyes, the ever-changing consciousness within us that moves from idea to idea. Thus Mercury has always represented thoughts, ideas, and the mental process in general. It governs not only ideas, but communications, too. Communications -- by phone, letter, spoken, or however -- are ruled by Mercury. Also thoughts, connections, phone wires, and everything that connects and conveys -- even conversations.

The original Sherlock Holmes, you are able to ferret out information and all kinds of secrets. You are research-oriented and security minded. A shrewd and penetrating mind, you have great psychological instincts and are able to get at the causes beneath the surface of life.

Mercury in Scorpio

You may think and speak in a way that others could find challenging or even antagonistic. Since you don't always listen to your own moods and feelings, some of your ideas may not even feel right to you. You could argue or debate in public.

Moon Opposition Mercury

You are a heavy-duty thinker and serious student, always ready to work an idea through, reducing it to what is essential. You enjoy mental effort and discipline, and work long and hard at whatever you put your mind to. You could present or teach religious and philosophical ideas, anything where substance and content are at issue.

Mercury Sextile Saturn

You enjoy working with your mind, and your sharp perceptions make finding new solutions easy. You always bring an unexpected twist or insight to anything you set your mind to. You are able to teach or help others to be more original when it comes to the words or thoughts they use. You can use the mind in original ways and probably have excellent eye-hand coordination. Your laser-like mind makes conversations fast-paced and illuminating. A ready wit.

Mercury Trine Uranus

Your mind is ever on career and family, and this may not make you the most communicative and social animal. You may prefer to avoid crowds and all large gatherings. You may not need relationships other than at home and at work.

Mercury Square Ascendant

Venus: Values and Discrimination

Venus rules our values and sense of appreciation. When we appraise or appreciate something, whether that be another person or a new car, this is Venus -- the sense of love and compassion we may feel. By the same token, this planet rules enjoyment too. Whether it be self-appreciation or just plain old decadent self-enjoyment by having a good time, this is Venus. When we go shopping or are on a spending spree, it is Venus that allows us to appreciate and value all the good things of life.

A socialite, you love decorum and etiquette, but relationships are the big thing -- friends. A peacemaker, sometimes superficial, you avoid all harsh and crude actions, people or things. You appreciate care, concern for life, equality, gentleness, and acceptance.

Venus in Libra

You love to work with younger people and would make a superb teacher or coach. You appreciate a heart-felt approach and are an enthusiast if there ever was one. You understand and encourage emotions, feelings and creativity and find it easy to work in these areas. You value drive and the ability to get things done. Matters of the heart, marriage, and the like are areas where you can help others.

Venus Sextile Mars

You place a high value on your dreams and ideals and don't consider them otherworldly or impossible. You experience the unity around you -- that which joins things together. There is a love of the sea and of whatever solves that which separates us. Mysticism, mythology, poetry, and music are natural. These are all known items to you. People who encounter you may sometimes feel deceived by your remarkable vision, which they enjoy when they are with you but find hard to maintain by themselves. They wish the world were like you say it is.

Venus Conjunction Neptune

You are very skilled at working with psychology, and the hidden recesses of the mind are, to you, no secret. You would make an excellent psychologist and teacher of this subject. These same skills make it possible for you to work with the public, in politics or wherever handling sensitive or "hot" issues is routine. You value change and transformation and have an almost reckless faith in the life process. You love to be touched at the most personal and vulnerable levels.

Venus Sextile Pluto

Your love of family and home and lack of interest in external affairs (be they friends or work-related) needs to be noted and kept in balance.

Venus Opposition Midheaven

The External Planets: Mars, Jupiter, Saturn

The major planets outside the Earth's orbit (external to us) are Mars, Jupiter, and Saturn. These are the planets of the outer world -- life as we find it outside ourselves. Mars tells us something about the drive and energy we have, Jupiter shows us how to best channel that energy, and Saturn decrees what sort of material or territory we will be passing through. Again: Saturn tells us about the territory we will be going through,

Jupiter the way or path through it, and Mars what kind of push or drive we can count on to keep going.

Mars: Drive and Emotions

Mars is the planet of emotion and inner motivation or drive. When we search for the meaning of something, life or whatever, it is Mars that urges us on, keeps us searching. Mars also drives us against things, too and sends us into war and combat. The urgency of Mars, the search for meaning, is identical to the need for union, yoga, and marriage. Mars is the planet of union, and marriage is the most common form of yoga. When we have questions about the opposite sex, we are looking at the planet Mars.

With direct drive, you always head straight to the heart of the matter. You are candid, even blunt or brusque in manner. No bells or whistles needed, for you like simple living and could be an outdoors person. You have an urge to be free, to be challenged and tested, and would rather travel far than be stuck in routine.

Mars in Sagittarius

A born coach or teacher, you are at home in the physical and "doing" areas of life. An inspiration and driving force in the lives of others. Quite able to manage a very active and strong emotional life. Strong spirit. Attractive. Direct, perhaps loud.

Moon Trine Mars

All heart! Feelings are always out front and entirely natural. Love of action, motion (sports, physical, sex, and the like). An expert at matters of the heart. Children, animals, and all creative work get top billing. Always act on instinct, feelings.

Venus Sextile Mars

You enjoy working with whatever is psychological -- the hidden, vulnerable, sensitive areas of the mind and self. You can handle material that is sensitive or taboo without batting an eye. This interest in all that is psychological makes you an excellent teacher in the field. You have a natural grasp for the political, for handling the public, and you know how to get your way. Your drive in these areas amounts to a passion, and those around you may feel that you are often too intense. Power struggles are somewhat routine for you.

Mars Trine Pluto

You put forth a lot of effort, in particular regarding your career. Your drive and ambitions work well with whatever management skills and practical ability you have, producing a harmonious work environment.

Mars Trine Midheaven

Jupiter: Career and Life Path

Jupiter is the planet of success and simple survival, the way we have to solve the problems that confront us. Thus Jupiter has to do with the way in which we can be successful, our vocation. The Hindu word for Jupiter is Guru. Jupiter is the guru and guide, the way we go through life, our life path or vocation. Jupiter is the method each of us has for dealing with the laws of life, our Saturn, or limitations. Jupiter is the light or path. Jupiter provides us with our sense of direction, the path we are on, the way we handle life. It affects how we approach life's problems. It has always been an indicator of

how successful we may be, our vocation.

Always on the go, you are a skilled diplomat, negotiator, or representative. Honest, frank, and to the point, you hate routines and love the outdoors, travel, and sports. An eternal optimist, you are open, friendly, and lucky too. Always the philosopher, you are not much taken with emotions. Independent.

Jupiter in Sagittarius

Like a fish in water when in the limelight or in a group, you have an innate social charm. Political and lucky too! A natural sense of what's right or of the way to get things done brings great popularity, even renown. Law, education. Could be lazy.

Moon Trine Jupiter

You are a natural architect and builder, able to use your mind to make decisions in matters of form and function. For you, the goal and the way to get to it are the same thing. You like to build each step and have each decision be an end in itself. Things must be done right. You also have great skill with the law, whether man-made or those of nature, and you can put all of this into words. You could well teach others in these areas. You understand how to handle authorities and have a natural gift at solving problems.

Jupiter Trine Saturn

You like your career straight and conventional, and you defy anyone who would suggest otherwise. The well-trodden path is where to find you. You go out of your way to conform, and avoid the new, novel, and unconventional with great vigor. Confrontations with people and things that don't conform are common, not to mention arguments along these lines. That which won't go along is opposed.

Jupiter Opposition Uranus

Saturn: Responsibilities

The process of finding out who we are (self-discovery) starts when we come to grips with whatever problems life presents to us and begin to get a handle on them. In other words, if we have not dealt with Saturn, or time (that is, if we don't have some control of time), there is little opportunity for other questions. Saturn rules the laws and limitations of this material world we all live in. Saturn indicates where we are bound to learn, the narrowness that makes our way felt, the walls that make homes possible. Saturn holds us together as much as apart. Saturn is said to be the great teacher, the planet that keeps us from getting carried away in one direction or another. Although it always seeks to limit and determine any thought, word, or action, it also defines and clarifies. Saturn is called the prince of the material world.

You have a tendency to avoid responsibility or work and to put off taking care of details -- delinquency. Application and practice is the remedy. Be specific. Take care of every last detail. Develop and use your critical faculties. Take care of business.

Saturn in Virgo

A tireless and disciplined worker, you have a tendency to be serious and to prefer being alone over entering the social scene. You can get the most out of others, get them to work under you. A wisdom that comes from simple needs. Conservative. Careful.

Moon Trine Saturn

A real problem-solver, the more tedious the better. Able to reduce any subject matter to the bare bones. Heavy-duty thinker. Could be very serious or philosophical. Enjoy study and thought. Very methodical and practical in approach.

Mercury Sextile Saturn

You possess an architect's vision for what needs to be done and how to do it right to make it last -- an expert or true builder. Knowing what tool to use and just how and when to use it. A sense of the right path or dharma. With you, the means and ends are identical.

Jupiter Trine Saturn

The Outer Planets

In the previous sections, we have dealt with planets that we can see with our naked eyes. In general, these planets refer to life as we know and live it and are the so-called historical or classic planets. Beyond these are three planets that are not visible in the sky and which have cycles longer than the average human life span. Since they are beyond Saturn or time, astrologers call them the trans-personal or transcendental planets -- the planets beyond the physical. One of the ways astrologers learn something about our life beyond time (eternal life) is through these three outer planets: Uranus, Neptune, and Pluto. Here we find information on how we discover ourselves (Uranus), how we understand and accept these discoveries (Neptune), and, in time, how we depend and identify with them (Pluto).

Uranus: Break-Thrus & Insights

Our responsibilities can tend to weigh us down, and we each have our particular ways of getting around (or breaking through) the mass of obstructions that tends to congeal around us. The planet that has to do with how we get beyond the difficulties and problems life presents us is Uranus. Here is the way insights come to us, how we discover or come to know and understand ourselves. It has to do with finding new uses for old things, and it rules inventions and sudden insights into our life -- everything that is unusual, eccentric, and out of the ordinary. It is the reverse of the status quo and is always unconventional and heretical. Uranus is, in many ways, the opposite, or undoing of Saturn.

You have brilliant insights into communications of all kinds -- computers, radio, T.V., the press, writing, and speaking. You are inventive and also have deep insights into research and investigations. You like to relax in conversations, telephone, puzzles, and making connections.

Uranus in Gemini

The life of the party, able to loosen up even the most sober. Great at bringing out the best qualities of others, discovering hidden talents. New and innovative ideas regarding the social scene. Spontaneous, on the move. Independent.

Moon Sextile Uranus

Sharp, nimble mind with ready wit. Quick to get insights and to see new solutions. Approaching genius when it comes to communication skills. Natural physical dexterity. Good hands too. The life of the party when it comes to spontaneity.

Mercury Trine Uranus

Any unconventional behavior on your part often ends up affecting your career. Your day-to-day path to success tends to be very staid and lacking in originality, which is what prompts you to leap outside convention and do something unusual.

Jupiter Opposition Uranus

Neptune: Ideals & Imagination

Even the most hard-nosed of us have moments of real understanding, when things are seen as linked together and one piece. We stop getting the idea in little flashes and just get the whole thing. It dawns on us. We each have our own way of letting go, having communion, and (as the poet wrote) letting "the dewdrop slip into the shining sea." These moments and this state of mind are, in fact, the source for all our imagination. There are many ways of seeing through the separateness in the world to the unity behind it.

Relationships are the ideal. Non-discriminating and impersonal in scope, to you all are equal. You are seldom bound by tradition or personal ties and are not domestic. You hold the ideal vision up to the real. You open up in response to others and accept others as yourself.

Neptune in Libra

You love everything mystical and other-worldly. An idealist of the first order, you value dreams, visions, and anything that points beyond mundane reality. Art, poetry, and imagination you appreciate. Needless to say, you are not noted for practicality.

Venus Conjunction Neptune

You work with real imagination and understanding in areas of the mind that are the most personal or private -- depth psychology. You are like a midwife of the spirit, assisting at the birth of each individual going through a spiritual or re-birth process. You accept the natural process of birth, spiritual and physical, and have dedicated yourself to helping it along. You would make a great teacher in these areas.

Neptune Sextile Pluto

Your ideal dream is a private one, and heaven is as close as home and family. You find public life and the outer world harsh and unimaginative.

Neptune Opposition Midheaven

Pluto: Inner Change and Growth

Pluto is the planet of profound change, starting deep within us and moving toward the surface. It often touches upon the most sensitive psychological areas inside us. Once touched, we have no choice but to change and grow. The most sensitive of experiences, the times of greatest vulnerability, are times of complete identification with an experience, a person, or a thing. We know in these instants that we are looking at our self, what we are. The most personal of experiences is one of complete identification with a person, moment, or idea. Perhaps this is only possible for most of us when we look into our child's eyes, and then only infrequently. Love is not the experience here, but total identification. This is very sensitive stuff. To touch upon this material is to go through deep inner change and transformation -- inner alchemy. Identification and experiencing that life is our own creation and that, in fact, you are I and I am you. This experience breaks us down and humbles. When we touch upon this experience, we cannot but die to

what we have been thinking and doing up to now. It reduces us to our most sensitive because -- in a flash -- we see or remember that it all is us, our life.

You are very sensitive (even vulnerable) when it comes to expressing yourself, getting it out. Periods of intense creativity enable you to go through changes and inner growth. This creative intensity is good for music, poetry, art, and such.

Pluto in Leo

You may have a secret life aside from your more public ambitions. Your need for analysis and in-depth probing of every aspect of your life may run counter to your best interests. Power struggles with authorities (and within yourself) can result.

Sun Square Pluto

An almost reckless faith in the life process. A natural revolutionary and supporter of change. Fervent feelings for others and deep running emotions mark all relationships. Great personal intensity, even power. Love animals, children, and change.

Venus Sextile Pluto

Great intensity of emotions and purpose. Could be a spokesperson for a cause or a generation. Fearless in action and not afraid to use power. Will have your way. Know how to get what you want. A very magnetic and perhaps controversial personality.

Mars Trine Pluto

A searing vision that cuts through what passes for conventional religion. A vision of the endless process of life ever being born afresh. Great acceptance and faith in the natural process and next generation. Love of children and animals.

Neptune Sextile Pluto

The supportive help of women or a girl can be an important factor that will affect business or reputation and increase your sense of security. You are a fine psychologist, researcher, or detective and are good at dealing with joint or others' finances.

Pluto Trine Midheaven

Challenges and Abilities

Focus

These are areas of life where we show intense focus and activity. For better or worse, these qualities stand out and are obvious to all those who come to know us. They are very clear parts of our character.

You place a high value on your dreams and ideals and don't consider them otherworldly or impossible. You experience the unity around you -- that which joins things together. There is a love of the sea and of whatever solves that which separates us. Mysticism, mythology, poetry, and music are natural. These are all known items to you.

People who encounter you may sometimes feel deceived by your remarkable vision, which they enjoy when they are with you but find hard to maintain by themselves. They wish the world were like you say it is.

Venus Conjunction Neptune 02°15'

Challenges

Life can be challenging, and things are not always easy. The major challenges in a natal chart are where we can expect increased activity and personal involvement -- ready or not. These critical areas of life can be difficult, and the resulting confusion and possible obscuration often makes it hard for us to see and act with normal clarity. Therefore, when it comes to the following factors you may wish to exercise caution and extra patience.

You like your career straight and conventional, and you defy anyone who would suggest otherwise. The well-trodden path is where to find you. You go out of your way to conform, and avoid the new, novel, and unconventional with great vigor. Confrontations with people and things that don't conform are common, not to mention arguments along these lines. That which won't go along is opposed.

Since you don't always pay attention to your own moods and feelings, some of your ideas may not

even feel right to you. You could say things that upset or challenge those around you. You may be great at argument.

Talents and Abilities

Despite whatever problems we may have, there are areas of life where we have clear insight and real talent -- natural ability. When it comes to these matters, our judgment is sharp and we always manage to take charge. We have the knack. It may be as simple as the ability to work hard and accomplish things without something going wrong. An innate sense of the workings of these parts of life makes it easy for us to learn and accomplish things where they are concerned.

You are very skilled at working with psychology, and the hidden recesses of the mind are, to you, no secret. You would make an excellent psychologist and teacher of this subject. These same skills make it possible for you to work with the public, in politics or wherever handling sensitive or "hot" issues is routine. Pluto Trine Midheaven 03°18'

This interest in all that is psychological makes you an excellent teacher in the field. You have a natural grasp for the political, for handling the public, and you know how to get your way. Your drive in these areas amounts to a passion, and those around you may feel that you are often too intense. Power struggles are somewhat routine for you.

Mars Trine Pluto 04°23'

Matters of the heart, marriage, and the like are areas where you can help others.

Venus Sextile Mars 04°34'

You are disciplined, work hard, and are good at getting others to work with and for you. Perhaps a little too serious and frugal, you enjoy getting along on less. Essentials are what count. You like to keep to yourself and tend to avoid too much socializing. Others may prefer keeping some distance too.

Moon Trine Saturn 04°50'

You are a natural architect and builder, able to use your mind to make decisions in matters of form and function. For you, the goal and the way to get to it are the same thing. You like to build each step and have each decision be an end in itself. Things must be done right. You also have great skill with the law, whether man-made or those of nature, and you can put all of this into words. You could well teach others in these areas. You understand how to handle authorities and have a natural gift at solving problems.

Landscape: Major Life Periods

What follows amounts to a brief overview of the first thirty years or so of your life -- a road map of the years to come. Since childhood, adolescence, and early adult life are so crucial to each of us, an attempt has been made to describe these formative years. Based on the gradual movement of the planet Saturn, this is one of the most tested of all astrological techniques. It is used by almost every professional astrologer as part of any personal consultation. Provided that your time of birth is more or less accurate, you will find this information both accurate and informative. Here is a general life overview, followed by a close-up on your current changes -- what is happening right now. First the overview:

Your Personal Background

A very active and outgoing youngster, you show an interest in the outside world and social life very early, say around 11-12 years of age. You may at this time move very rapidly into the limelight and find yourself a leader and quite successful in all social activities. Things will just work out for you. This trend will continue and reach a peak when you are about 18-19 years of age, after which time you will lose interest in the social and external and turn more inward. This could result in your being somewhat of a prodigy and achieving a very early career success, only to find yourself less and less involved in it. You may even turn away from everything and choose to start over again to find a new vocation. You may discover yourself spending many years pursuing a more inward and subjective path that could last until you are 30 years of age (or more) at which time you will turn outward once again and take a new direction.

Your Current Situation

Now for a close-up of recent years: while landscape was quite general, the dates given in this close-up should be much more precise. Life is composed of sections of time, each devoted to one kind of activity or another. We go along for a while in one direction until something changes within (or outside) us and we head off in a new course. Some of our earlier activities dry up and new ones spring up in their place. What follows is an analysis of the time period in which you find yourself now. Don't look here for a day-to-day account of life but rather to get a picture of this stretch of time, "these years."

Apr 24, 1997 1st Pass D> (Age 48 5m)

You are riding a high now in terms of taking advantage of the cycles in your life. This may well be a high-water mark; however, this is also the beginning of a series of years during which you should begin to consolidate and tie down the advances you have made in recent years. It may be best to begin to dig in and strengthen your current position rather than expand outward too much. You will find your mind beginning to turn away from the external (the material) and to be concerned with more inward and spiritual ideas. All of this will become clear over the next several years. This time marks a change of direction for you, away from the material and glitter, toward inner needs and security. You will find yourself more concerned with maintaining and strengthening your position, rather than pushing outward. In summary, a kind of high-water mark in the outward and social department. These years should be easy and filled with opportunities and friendships. Enjoy them. More demanding and inward years will be forthcoming a little further on down the road.

The Elements, Modalities and Angularity

Elements, modalities, and house quadrants. These are all techniques used by astrologers to gain a general picture of how a person measures up. How do your planets and houses total up? Which do you have in abundance, and which do you lack, if any? Those with high totals show what we can or must do in life. These are qualities we have. However, most people are more interested by what they lack or want -- their lowest totals. They tend to study their "wants," imitate, and even pretend to have them. The old adage is: we become what we want (or lack), while we do what we can (or have to do). Here are your totals:

Your positivism lets you get right to the point, and you have little patience with those who shilly-shally. You've plenty of enthusiasm and warm up to things and people quickly. You have an inner self-confidence which burns with its own light.

Have Fire

There is an emphasis on communication, expression of ideas, and the connections between things, places, and people. What goes on in your mind is the all-important motivation in your life. You tend towards mental pursuits and admire intelligence.

Have Air

You may have trouble understanding those who seem emotional or sentimental, yet your own practicality and factuality may attract just such types into your life. You may try to balance your lack of intuitiveness with logic and common sense.

Want Water

Common sense and the ability to deal with practical matters may be lacking, and you may wonder at those who spend much time making money, doing life's chores, and attending to basic necessities. You depend on mental activity and confidence.

Want Earth

Not a great starter, you may have trouble initiating things and getting them moving. You may need help from friends or others in learning how to be more aggressive and outgoing.

Want Cardinal

Your energies run effectively toward making yourself felt in the material, tangible outer world. You are an "action" person who gains the attention of others and seems to get things moving. The circumstances of your life suggest extroversion.

Have Angular

You may complain of never having any privacy or time to think -- your pattern seems to throw you much in contact with people and the outer world. Being an extrovert, you may have difficulty understanding reclusive types.

Want Cadent

Your Burn Rate

We all change, but the question is: At what rate? Some of us tear through change after change, one phase following another, year after year, while others move at a more serene pace. Or, one area of our lives may be hectic and forever changing, while other areas are quite tranquil. Why do some people seem to live lifetimes within lifetimes? Here is an analysis of your particular rate of change or "burn rate," including the particular areas of your life (planets) where you can expect continued change and growth. Areas where there is a very low index of change (indicating clear and easy use of the qualities involved) will also be pointed out. If you have sometimes wondered about the areas of your life where the candles burn at both ends, here are the details.

You have a very high burn rate (index of change) and tend to run hot and fast. It is almost like having many lifetimes within this single one. Things are always fast and furious with you, and you seldom remain calm for long. Your thirst for experience and growth keeps you always on the move. You work through an enormous amount of change compared to an average person. In particular, the following qualities are areas where you have experienced and will continue to experience much change. These areas of life persist in presenting themselves to you, so you may already have become very experienced in them. On the other hand, they could be arenas in which you struggle but have not yet attained mastery.

A majority of planets in the FUTURE suggests that you tend to run ahead of the pack, taking changes and acting things out before they become accepted and a part of the status quo. Things happen to you that you come to understand over time.

Planets in High Focus

There are big changes (high burn rate) throughout your life in matters of organization and responsibility. It may be difficult for you to learn to be thorough, to finish things, and take care of all the loose ends. You may have a lot to learn regarding what is and what is not essential in life -- separating the wheat from the chaff. Getting down to the nitty-gritty, the bare bones of the matter, could well be a major lesson.

Saturn

You have a high burn rate (go through a lot of changes) when it comes to sensitive, psychological areas of your life or times when you are feeling vulnerable. Direct confrontation tends to put you through a lot. You prefer diplomacy but find yourself in the midst of sticky situations on a regular basis.

Patterns: Your Inner and Outer Self

Here we are examining your basic attitude or approach to life, what is called by some the archetype or soul-type. If you know something about your particular soul-type, this can provide valuable information as to the general direction and purpose of your life. In particular, it is important to note the difference, if any, between our outer personality (the way we appear to others) and our real inner self; how are we, in fact, as people get to know us? Not all people are as they seem.

You are no secret. Outside or inside, there is not much difference. You are just as you appear.

Geo: Square Helio: Square

Your Soul Type

You are independent, confident, and more than likely more than a little self-centered. You love attention and somehow manage to gravitate to the center of almost any group or happening. Others accept you, for they sense you are a leader and admire your almost regal manner. Yet they may have to keep their distance, for as much as you love attention and the crowd, you are also fiercely protective of your independence, sense of freedom, and -- above all -- your privacy. There is a kind of contradiction here. When in the mood, you love to express yourself, entertain and perform for others, and enjoy being surrounded by an audience. You are very magnetic and dynamic. Others love to be with you. There is something about you that others can't seem to get enough of; yet for all your confidence, you tend to depend on others for advice and counsel. Your grasp of the moment is unquestioned. You're it, or at least always in the midst of it. Yet you find yourself needing the advice of someone who is not as involved, someone to give you directions from time to time. In a sense, you are all dressed up but are not sure where to go or where you are headed. And because of this, you depend on those around you for

direction and guidance during the times when you lose sight of the bigger picture.

You are a very feeling person and can sense the drift of a situation without a lot of analysis. This immediate "hands-on" approach might be contrasted with one that is more deliberate and cerebral. You could be left with a bit of an inferiority complex when it comes to matters of education, philosophy, and conceptual ability. In a word, you revere this kind of stuff, not because it is natural to you but rather because it does not come easy for you. You have to work for it. There may be a tendency on your part to puff up your intellectual powers.

It is said that there are just two kinds of people in the world, those who are born to love and those who are born to be loved. You are the second type, one who is born to be loved and cared for by others. Don't feel bad about attracting attention in a group. People love to be with you and find you very easy to love. Everyone wants a piece of you, and this can result in your needing more space, a chance to be alone. Your type is not famous for being attentive to the needs of others or being very demonstrative in a love relationship. You are the immovable object that others find irresistible and sometimes selfish. You love to express yourself and are a born entertainer. You are very stubborn and have great stamina. You may tend to fear that others find you a little dense or too sense-oriented. You radiate energy and information and have to just accept the fact that people like to feel your warmth. Let them take care of you. You sit on the throne.

The Key to your Inner Life

Each person has one or more key qualities. Here we are not referring to our appearance or personality, but rather to our inner nature, how we are when someone really gets to know us.

Your sense of direction and guidance are the key to understanding you at any in-depth level. You are a natural problem-solver, always managing to come up with the correct approach. There is an innate capacity to negotiate with the law and authorities, plus an ability to find your way (the correct way) when it comes to inner and spiritual matters. Others sense this gift, and accept guidance and council.

Jupiter

You have an uncanny ability to get beyond the status quo, always coming up with new ways of doing things. You can take the most mundane stuff and find that new angle. Unpredictable and spontaneous, you seldom lean on precedent, preferring to create as you go. All will agree that you are indeed very original, unconventional, and possess deep and accurate insights. Much of what makes you "you" depends on this independence and love of freedom. You discover inner ways that are fresh and vital.

Uranus

The Key to your Personality

Your sense of direction (handling a person or a problem) is perhaps the key element in your personality make-up. How you manage difficulties, find that diplomatic solution, or come up with the right approach all are built around your talent. Your outward charm and ability to be all things to all people is what is most central to your personality. This

ability to solve problems, to counsel and always to put others at ease is the key to meeting and coming to know you.

Jupiter

The Personal Hot Spot

Emotions and drive take the heat as far as being a prime focus for action in your personal sphere.

Mars

Interface: Innermost qualities

This feature is based on an intricate analysis of the position of a particular planet in relation to the orbital planes of the other planets. The resulting series of crossings, or nodes, tells us something about the nature of our innermost inclinations (Inc) and disinclinations (Dis). These indicators are not to be considered at the level of our personality, but rather are deep-seated parts of our innermost character -- our internal biases. These pros and cons are not apt to change in the course of our lifetime.

You enjoy life yourself and value gusto and enthusiasm in those around you. Feelings are something you express with ease, and you appreciate others doing the same. Emotional drama is valued rather than avoided. Your appetite for action is probably well known, and well noted. Sports, outdoor activities, and everything physical are high on your list of favorites. Sex is, no doubt, also important.

Mars Inc Venus

You may lack coordination, in particular in relation to making career moves. Your emotions, led by your temper, can send you off in a direction that is anything but where you really want to go. There is a basic struggle between your feelings and your livelihood; therefore, it is important to find work that does not deny your feelings, or they will explode. Acting only on your feelings and doing "whatever you want" with no thought for a plan is also not helpful. Advice from a trusted friend is in order to help coordinate your job and your emotional life.

Jupiter Dis Mars

Your dreams and imaginings keep bumping into the real and the actual (and quite visceral) process of life. You continue to imagine that you have graduated and are above going through this sensitive and personal material, but it keeps happening. The blood-and-guts parts of life do not suit your self-image. Tension results from this struggle between dreams and reality.

Neptune Dis Pluto

Anyone who tries to get you to play with words is in for a big surprise. Your mind cuts right through all the window dressing and gets right down to the quick. Before anyone knows it, you have the heart of the matter out front for everyone to see. You would make a great investigator, either in scientific research or undercover work. It

makes no difference. Your ability to get to the point is all but phenomenal. You can talk and put into words areas of the psychological that others wouldn't touch with a ten-foot pole.

Major Transits Happening Now

Astrologers use the term "transits" to mean the positions of the major planets that are overhead (in the sky) right now and their relationship to our birth chart. Transits are very important indicators of the current situation in which we find ourselves. They can provide insight into what we are now going through. Here are the dates when the next major transits for the planets Jupiter, Saturn, Uranus, Neptune, and Pluto are exact in your chart. Some dates will have already passed and some are still to come. Remember, with these large planets transits don't just happen on the day when they are exact. They cover a wide span of days, weeks, months, and sometimes years, depending on which planet is involved.

In general, transits of Jupiter take from several days to a week or two to complete, while those of Saturn take from two weeks to a month to play themselves out. With the outer planets, the period of activity is even longer: transits of Uranus take about two months, Neptune three or four months, and Pluto takes about a year. Uranus, Neptune, and Pluto move so slowly that the complete transit experience may take a year or two to complete itself. So be prepared to work with these situations.

House Activity and Emphasis

The twelve houses of the horoscope, particularly when they are occupied by a planet, provide a clue to areas of special activity and use. Here is an analysis of house activity based on planet emphasis:

First House: Appearance, Approach

The first house has to do with how we appear or the way we come across, thus our appearance and personality. This is the essential stuff that bubbles up in us spontaneously and that is obvious to others as our trademark or activity. It is what makes us each so personally different. This house rules our personal self and everything about us that draws a reaction from our surroundings or others.

First House

Leo energy is expressive, emotive, and concerned with awareness and a sense of pride and ownership. Here is always a sense of home base or confidence from which the aggressive and outgoing Leo energy operates. Often very artistic, and always theatrical and expressive, this sign is good for creativity and the arts. Warm and big-hearted, this sign belongs to love of animals, sports, children.

Leo

You are very out-front and candid, probably not known for your great sense of diplomacy or tact. Your intensity and passionate approach to life are obvious to all who meet you. You are driven to penetrate the superficial and get at the essential.

Pluto in First House

Second House: Possessions, Reactions

The second house is concerned with how we respond to or field whatever impulses or unique and personal qualities we manifest via our first house. This is how we hold or "have" things (possessions, material goods, money, and the like). The second house always refers to how we secure ourselves, the kind of response we get from life and those around us.

Second House

Leo energy is expressive, emotive, and concerned with awareness and a sense of pride and ownership. Here is always a sense of home base or confidence from which the aggressive and outgoing Leo energy operates. Often very artistic, and always theatrical and expressive, this sign is good for creativity and the arts. Warm and big-hearted, this sign belongs to love of animals, sports, children.

Leo

You could be frugal when it comes to possessions, always limiting your purchases to what is essential and has value. This same theme carries through in your response to people. You don't tend to lavish affection or sentiment. You keep it short and simple.

Saturn in Second House

Third House: Inquiries, Communications

The third house is concerned with explorations, investigations, and inquiry and research of all kinds. It also rules connections, communications, wires, tubes -- anything that we can get through with our body, mind, voice, letters, what-have-you. It is here that we explore and search for the limits of our life, whatever we are working with at the moment. A very mental house, concerned with finding, furthering, peering, and all manner of questioning. Traditionally rules short journeys, siblings.

Third House

Virgo energy is analytical and precise, always separating what is worthwhile and worth supporting from that which is outmoded and of no further use. A mental sign, where thinking and examining are in high focus. Also, a different kind of mother, here an endless caring and worrying (fussing) about just about everything. Always compassionate and responsive, Virgo energy is service-oriented above all, often thinking and caring more about what others are doing and thinking than for self.

Virgo

Fourth House: Home, Family, Security

The fourth house is where we send down roots, find our limits, and generally secure ourselves. It is the end of any searching we might have done in the third house. Here we

find or end our search, settle down, and manage to get in possession of the whole situation. This is our home and the base from which we can work, feel, and experience. This is the root of our experience, the core or thick of it.

Fourth House

Libra energy is always facilitating and responsive, assuming the appropriate reaction or response to any question or statement. What is sometimes seen as two-faced is only Libra's facility at responding to each in kind. This is certainly the social sign, par excellence. Impersonal and impartial, this sign doles out only what is demanded, never overdoing things.

Libra

Home, family, and security are important to you. You love to send out roots and build a home base. Sensitive and somewhat private, you tend to be a very feeling (and sometimes vulnerable) person. You sense things and have a good feel for business.

Sun in Fourth House

Your mind tends to settle on issues of security -- home, family, and such. Your thoughts have great substance and feeling. An interest in history, the past, and nostalgia may be lifelong.

Mercury in Fourth House

You love your roots, whether home and family, ancestors, or history in general. You are probably a collector and very discriminating in this area. You appreciate emotions and like to get a sense or feel for whatever is happening.

Venus in Fourth House

You don't have to leave home to escape from the rat race. Family, home, and security seem just about ideal to you. You may be very imaginative with your home and domestic setup, or a sense of community and unity pervades your family life.

Neptune in Fourth House

Fifth House: Expression, Creativity

The fifth house has to do with awareness, emotion (to move out), and expression (to press out). Here there is always a growing sense of self-confidence and even a pride of ownership, since we begin to recognize and own our experience. We know that we have had or are having an experience. All forms of expression and offspring are connected to this house -- children, animals, creative expression, and so on. A sense of direction and ownership takes hold at this point in our experience.

Fifth House

Scorpio is the most famous sign. Intense, passionate, and very personal, Scorpio rushes past superficialities and right to the heart of any matter. A loyal friend but a fanatic foe, this sign does well in politics and all areas where someone who dares is rewarded. Often associated with sexual energy, perhaps due to its tendency to strip away veneer, laying bare anything that is there.

Scorpio

You are driven to excel in any form of physical and creative expression--sports, theatrics, arts and crafts, whatever. This urge to express yourself, to speak out and be heard, propels you into many an interesting situation.

Mars in Fifth House

You could be successful working with creativity and self-expression through the arts and theater, in sports, or with the ultimate self-expression, children. You may find yourself a guide and teacher to others when it comes to these matters.

Jupiter in Fifth House

Sixth House: Responsibility, Work, Health

The sixth house has to do with salvaging and preserving what is good and healthy in our experience. Here we separate the wheat from the chaff. We begin to care for ourselves and our experience and thus health, nutrition. The idea here is that we are able to analyze our experience and have thoughts about what is pure and what is not. The sixth house is an attempt to save the heart of an experience, one that already by that attempt is beginning to pass or not cohere.

Sixth House

Capricorn is the business energy of the zodiac, for it is the very opposite of the emotional Cancer. Given to clear-headedness and practical insight and vision, this sign always takes a distanced perspective, a cool appraisal. Logical and painstaking, Capricorns love hard work and earned results. Money and things in general are very important.

Capricorn

Seventh House: Relationships, Other People

The seventh house is the house of partnerships, relationships, social life, and all that carries us beyond our personal self into an awareness of other people, community, and the like. This includes spiritual awakening and the discovery that we are more than just our personality. Here we begin to respond to our personal needs (and those of others) for the first time. We can see what is going on and are committed to it; thus, marriage and yoga, or union, is indicated in this house.

Seventh House

Aquarius, the sign of humanitarian goals and altruism. Always impartial and nonsectarian, Aquarian energy is communal (even global). The focus is on the goal, and the goal is always one that is for the many and not the few. Thus this sign is connected to far-seeing visions, world views, and group work of all kinds. This sign tends towards coolness, independence.

Aquarius

Eighth House: Business Savvy, Elimination

The eighth house, traditionally the house of death, is concerned with getting rid of excess parts of ourselves that we see we no longer need. Thus this house also covers initiation and any activities where we are transforming toward a more integral position, getting to the heart of things. The no-nonsense quality of the eighth house makes it good for business ventures since here we are stripping away the dross to reveal the truth or essence of the subject.

Eighth House

Aquarius, the sign of humanitarian goals and altruism. Always impartial and nonsectarian, Aquarian energy is communal (even global). The focus is on the goal, and the goal is always one that is for the many and not the few. Thus this sign is connected to far-seeing visions, world views, and group work of all kinds. This sign tends towards coolness, independence.

Aquarius

Ninth House: Religions, Philosophy, Ideas

The ninth house covers long journeys and religion (the longest journey of all). Here is what remains of the purification that takes place in the eighth house -- the seed, or essence, of an entire cycle of experience. Religion comes from a Latin word that means to bind back, and thus refers to all things that last or endure, such as the truth. Essential ideas, philosophy, and all that is the very heart of things belong here.

Ninth House

Pisces energy runs deep and toward the psychological -- whatever is beneath the surface. This sign is understanding, patient, and long-suffering. Pisces tend to absorb all the little barbs and digs coming from outside. They always have their mind on an inner goal, something more important. They are very forgiving and accepting -- giving of themselves for the sake of more important issues.

Pisces

Tenth House: Practical Vision, Vocation

The 10th house is a house of practical vision and clairvoyance, for here we can see clearly what is. Reputation and career are often connected to this house, since the areas where we can see with greatest clarity are those we most often can put to use to make a living. In summary, this house is where we have real vision and can see to do and work. Planets transiting this house may provide moments of insight and clear-seeing as well.

Aries is the sign of the pioneer and leader. It is always impulsive, concentrated, and spontaneous. Act first and think about what you have done later. Rushing in where others fear to tread, the Aries energy is attention-getting. It always provokes a response from the surroundings, from others. There is something essential and instigative that starts or causes something else to happen -- a reaction or response.

Aries

You have a natural insight and understanding as to what the public wants. Your career gets all kinds of support from other people, and you feel at home making practical and management decisions. You look to your work for strength and encouragement.

Eleventh House: Dreams & Visions, Community

The 11th house has to do with putting our visions and dreams to work. We have been on the mountain and had a vision (10th house). Here we take our vows never to forget what we have seen and to work hard to make these dreams into reality. Thus this house has always been connected with altruistic and humanitarian goals and trying to set them in motion. It is the house of friends and community, because when we are powered by a real insight or vision we share with all -- irrespective of differences.

Taurus manages to respond, possess, and "have" just about everything possible. This is a nurturing and fertile sign in that any seed or impulse is cradled, bringing forth growth and development. Taurus is the way we "have" things, how we possess and acquire things. There is something gentle, regular, steadfast, and determined about Taurus. Always accepting, mothering, providing a base for... a matrix or womb where growth takes place.

Taurus

You may enjoy eccentric or unconventional friends, and groups with some kind of humanitarian flavor will appeal. You have very original ideas when it comes to community, making our collective dreams into a reality.

Twelfth House: Sacrifice, Psychology, Acceptance

The 12th house is about all that we go through in order to make our dreams into reality and manifest them in the world around us. It covers what we are willing to put up with, the sacrifices we will make in order to bring across what is really important. This is connected to prisons, institutions, betrayal, self-undoing, and the like, because it is here that we must choose to take some possible abuse for the sake of the message we are carrying, or blow it all away with a negative reaction.

Cancer is the mother of the zodiac, always making a home, protecting and providing for others. A sensitive sign where feelings and real experience count more than cold logic. It doesn't get any more physical and emotional than here. This sign has a sense of substance, a home base or foundation. Cancer energy is always limiting, bringing us down to Earth, grounding our every thought in experience, in substance.
