The Players: The 10 Planets

Part One: The Lead Roles

The Sun

The Sun is the center of our solar system. It generously shares its radiance with the other planets. In Astrology, the Sun is the heart of the chart. It points to ways that your relationship needs to confidently shine. Keep the fires of your Sun burning brightly and proudly together. Love will follow. Happiness will fill your minds, bodies and souls. The Sun stands for ego needs, will power and creative vitality.

Forget your own Sun signs for the moment, Charles and Diana.

Your shared Sun sign could be different than your individual Sun signs. Remember that we are talking about your combined Sun. It is the fusion of your two hearts.

Sun in Libra

A Sign is a psychological process through which a planet operates. As a couple, being solarized through the sign, Libra, gives you a shared desire to be a soul mate for each other. The keyword phrase for Libra in traditional astrology is "I balance." Establishing a sense of equality and unity are important aspirations. A spirit of cooperation enhances your relationship. Important friends and peers can be enriching.

Exploring the things you have in common is exciting. Sharing a fondness for the arts and life's natural beauty can bring you closer. Life can become a romantic dance. Periods of self-exploration will add deeper meaning to your time spent together.

If your schedules start to have a hectic pace, be sure to create moments of relaxation. Your relationship stimulates people to want to be involved in your lives. Finding time to be alone may not be easy. You might even need to carefully protect your schedules to find quality moments together.

Include each other on major decisions that affect each of you. Do this and you will win mutual admiration. There is nothing each of you dislikes more than being discounted.

It is not wise to project your own problems onto your partner. Learn to communicate openly about circumstances. Truly listen to each other. It will go far to keep you on the same mental wavelength.

Allow your own unique identities to blossom. Living your greatest potentials through the partner takes away from creativity. Take pleasure in enjoying the essence of individual and collective expressions.

Have fun with the creative styles of this relationship. The two of you can display artistic talent. Your friends could even have rich aesthetic backgrounds. Your social circles stretch wide and far. There is likely sensitivity regarding criticism. Talk about your differences patiently. An argument does not mean that you are wrong for each other.

Express your feelings as well as your mind. Compromise could be the solution to finding the middle ground.

Your creative vitality widens your mental horizons. The feelings expressed can gracefully deepen your connection. The beauty and harmony discovered in your individual lives will bring excitement into your relationship. Make a toast to the lessons of the past and to the new lessons to be learned in the future. You make a vivacious couple. Entertaining others for business or pleasure is always at your fingertips. Your tact and flair for diplomacy are hard to rival.

A shared sense of dedication to a cause or mission can deepen your relationship. Diet and health are probably areas of mutual concern. There might be interest in the healing arts, whether this is traditional or an alternative field. Exercising together might be a favorite pastime.

Don't compulsively focus on the imperfections you notice in each other, as this will be frustrating. It is important to stay away from over analyzing your relationship. You bring out an awareness for details in each other. Put this energy to constructive use.

Your business sense is great. You can offer each other good career advice. Exchanging ideas regarding work could be mutually beneficial. Show an eagerness to learn from each other.

You both can get too caught up in work. Serving different organizations can be rewarding. Make time to relax. Plan your romantic escapes to make sure they happen.

Your relationship thrives on being well organized. You like some routine to keep you from becoming scattered. Do something different on short notice to keep life exciting.

The Moon

Countless song lyrics, poems and lofty dreams have been inspired through gazing at the Moon. The Moon's sign and house position represents the intimacy and feelings you share with each other. Establishing a sense of security and a home are other lunar sides of life. The Moon symbolizes the imagination you share from your inner landscapes.

Moon in Taurus

With your relationship lunarized through the sign Taurus, your imaginations can be filled with sensuality and a sense of beauty. This can denote a calm acceptance of life's

realities. There can be comfort in a shared love of nature, aesthetics, food and ownership. Maintaining a state of consistency in your life together is important to you both. Your partnership may have a relaxing affect on others.

Your home needs to have a peaceful atmosphere. Surround yourselves with the colors that make you feel the best. Each of you will have certain items that bring back sentimental meaning or fond memories. These are possessions that you must be able to display.

Tangible projects that you can do together bring harmony. These can include planting a garden, picking out a house or apartment or planning a vacation together. The two of you could operate a business. There is a green thumb in earning money. Being supportive of each other's career aspirations wins mutual friendship. Taking the time to celebrate special occasions brings you closer. You like to anticipate being treated to a wonderful gift once in a while.

A feeling that you have a lot in common regarding your values makes you happy. Knowing that you are valued is a confirmation of your being together. The intuitive nature of your relationship is awakened by a passionate sense of beauty.

It sounds great! What can go wrong? Inertia! Don't become overly trapped by the comfort zones you create. Too much of a good thing can spoil you. Be sure to stay focused on your key objectives. There might be worry over money or what you lack. Try to maintain a link with an abundant consciousness.

You are two individuals not afraid to work for what you want. Each of you needs to have some control over the finances. It will keep you feeling you are equal partners. Let your imaginations guide you gently beneath the surface appearance of situations to find hidden gifts. You bring out a mutual desire to walk on solid and practical ground.

Moon in the Twelfth House

Your feelings flow back and forth powerfully. When first meeting you could have felt like you could see right into each other's minds. Did you wonder if you already knew each other? At times you can almost speak without using any words.

A strong spiritual connection is possible. Your belief systems can have much common ground. You could easily find yourselves championing a special mission or cause together. Working in the healing or helping professions could appeal to you both. There is a talent for art and music in your lives.

Romance is something you tend to cherish. Going to each other's favorite places is enjoyable. You both probably like to think you will never lead uneventful lives. A bit of intrigue and mystery never hurts anything.

Your home is a refuge or escape for you both. Tranquility is a must. The type of music, art or possessions you find meaningful must fill your residence. You may like to display items that hold special symbolic meaning. People visiting your home may be moved by its uplifting presence. The two of you don't care for stress here. You will do almost anything to make it go away.

Everyday life will flow better if you have a clear sense of reality. Your idealism will be tested. Your faith in each other and your beliefs can get you through just about anything. Don't give up your dreams if they are slow in manifesting.

A natural compassion for each other helps sort out your differences. Do not try to rescue one another from the lessons you need to learn.

Keep expectations realistic. Setting individual or relationship standards too high can create disappointment. The idea is to continue enjoying each other. This will not happen constantly. Accept the ups and downs.

Let your intuition guide you to walk together with sober eyes. You can be a lighthouse for each other, shining radiantly in the night, as the ship of your dreams is trying to land safely.

The Ascendant

We are taking a short intermission from the planets to introduce you to an additional key part of your relationship. The Ascendant or Rising Sign is the sign that starts the 1st house of the chart. The Ascendant is one of the twelve signs with a special role serving as an ambassador. It acts as a persona or mask for an individual or a relationship. The Ascendant is the personality through which we interact with the world.

The Ascendant is the way we appear to others. It is their first impressions of us. You meet someone and he or she seems to be confident, shy, talkative, cheerful, etc. The same can be said for a couple. The two people might seem theatrical, dreamy, or businesslike.

Ascendant in Gemini

People likely see the two of you as talkative and witty. You may seem educated and excelling in communication, able to draw on the appropriate facts as quickly as needed. You move briskly with a joy in your faces when getting to move in multiple directions. Boredom is not a welcomed sight. Reading and learning stimulate your eager minds. Thinking in terms of options is a way of life for you both. Without them, life is missing an important ingredient. The formula for happiness must contain exhilarating experiences.

The Part of Fortune

Your Sun, Moon and Ascendant can be combined or blended into a cosmic alchemy, known as the Part of Fortune. This is not a planet, but rather a reference point in the chart. The Arabian astrologers of the Middle Ages are given credit for its discovery. The Part of Fortune is said to show where we can expect to find good fortune and even luck. Do we really need to take a look at something from the long ago past, if it will serve as nothing more than a relic to hang on the wall? A translation of this ancient symbol into modern terms makes this symbol worth investigating. Why? Because it can give clues to special paths that lead to harmony and a spirit of feeling united.

Think of the Part of Fortune as the potential corridor leading to Opportunity. It is a way to read the pulse rate of the partnership, indicating ways to reach a shared sense of fulfillment.

Part of Fortune in Scorpio

An incredible relentless push toward greater heights can take the two of you into exciting levels of self-mastery. It is the mystery that pulsates through you both, during key life changes, that can magically deliver good fortune. Sometimes it's when you understand life the least, that a new opportunity might suddenly present itself. Your creative power can lead to wise investments. Channeling your power into what you pursue can make you a charismatic duo. Learning to put a more positive spin on negative situations points the way to greater happiness. Practicing the art of forgiveness paints your path with fewer struggles.

Part of Fortune in the Sixth House

It's your willingness to humbly learn new skills or ways toward self-improvement that summons the presence of good omens. You will never be perfect in each other's eyes. The sooner you see this; your time together will be more user-friendly. It's when you roll up your sleeves and work together that you shape a successful future. You may discover beauty and meaning through serving a joint purpose. Business dealings may point the way to abundance and self-satisfaction. Getting the most mileage from your efforts is a similar drive.

This planet was discovered in the eighteenth century, sandwiched in between the American and French Revolutions. Is it any great wonder that this planet's sign and house occupations show our individuality and innovative ideas? Experimentation. Inventiveness. These are two more themes of this exciting and trend-setting entity. What is the down side to this rebel? A tendency in exhibiting a sarcastic tongue in your everyday communication. Launching sudden irresponsible actions will not make you feel like friends. Uranus can be the source of enjoying the refreshing insights you bring to your partnership. Treat each other as equals and you are likely responding to a positive tendency embedded in this planet's symbolism.

Uranus in Virgo

You awaken efficient brain waves in one another that point toward working hard toward goals. When you join forces your minds can emit great insight into getting a job done. You are better with details if a subject really holds your concentration. When you rebel against order or political correctness, your most erratic tendencies are likely to manifest. Your friends can see you as a genuine couple.

Your personal habits might make each other uncomfortable. Finding ways to channel tension constructively will lead to more productive actions. Adapting to each other's schedules will be a stretch. The art of compromise never hurts.

Your individuality wants to make its presence known in your careers and causes. Developing your skills to the highest conceivable level can open the door to wider opportunities. You both have a tendency to outgrow a job if it doesn't challenge you. You prefer to be independent in your work environment.

Being industrious comes easily. Finding directions that are mutually beneficial makes you happy. Assisting your partner on the road to prosperity is a quality that charms each of you.

Uranus in the Fifth House

Your unique qualities as a couple don't take long for others to notice. There is a dramatic way the two of you enter a room. Your views about everything from world events to everyday local happenings capture the ear of people. It is hard to ignore your way of making your opinions heard. Your romance could easily have gotten off to a whirlwind start. A fascination with each other physically and mentally is likely, right from the start.

Patience might not be the strong point in your relationship. You are a forceful combination when you put your ideas into motion. A tug-of-war can occur due to the momentum each of you induces in the other. It is when you suddenly pull in personal directions in mid-stream that friction can be felt. How do you handle this? You need to listen to each other's defense of their position. Finding a win-win solution is not simple, but well worth the time. This is better than the endless fighting over who is right.

You both can excel in championing your ideas. An inventive hot zone is embedded in your shared chemistry together. You can soar to new heights with this electricity. Business ventures can be a source of excitement. Think things through before committing most of your resources to something. Use each other as a sounding board to get clear about a decision.

You have met an excellent romantic match. Many moments of surprise and elation are continuously in store. Make room for the goals that call to both of your hearts and you will be happy.

Neptune

There is a planet that adds a mystical tone to our lives. Neptune defies being labeled as part of the physical world. It is our spiritual awareness on one hand and desire to

escape from earthly reality on the other. Both are possible!

In mythology, Neptune was Poseidon, god of the oceans. This water god represents the strong emotions that love activates. Do the two of you feel any common ground when it comes to your highest beliefs? If you do, it might be associated with this planet's symbolism.

Faith is a Neptune theme. Neptune's sign and house will point to the ideals and causes you share. Your intuitive insights into one another can also be revealed here. Shadows of Neptune are denial and guilt. Keep these tendencies in check. It will ensure greater clarity and closeness. If you don't, it can feel like you are eating chicken broth with a fork.

Aesthetic interests are another part of Neptune's world. Your shared interests in art and music can come through loud and clear.

Neptune in Scorpio

You may not be as idealistic as other couples. The bottom line of what you both desire is usually in your line of vision. You can still dream! Be careful what you want from life. You are likely to get it! Your relationship was born passionate. A strong sensual connection is likely.

You can influence each other to be secretive. Trust comes as you put some of your cards face up. When you have few hidden agendas life will be more fun together. Your material expectations probably need to be kept reasonable. When you put your money and business smarts together, you can increase each other's wealth.

People may see you as a couple with magic in their fingertips. Your hard work might be perceived as effortless by others. Emotions are intense with both of you. Your bond can be strong. A shared interest in the mysteries of life can be shown. You can show great concentration when you dive into a serious area of study. The realization that you can rely on your partner is a stabilizing factor.

Neptune in the Sixth House

Devotion to work and efficiency is a focus in your relationship. Making dreams and ideals become pragmatic entities is certainly within the realm of your imaginations. You believe in taking steps toward a vision, while many people are only watchers. Don't doubt yourselves along the way. It's your propensity to see the lack of perfection in what you do. Be sure a revision of a plan does not become so discouraging that it puts a halt to your progress. You are apt to sporadically disagree on how to get a job accomplished. Learn to not be overly sensitive when hearing your partner's opinions. A tip: It does help to stay away from leveling each other's ideas in a disparaging way.

A mutual interest in maintaining your mental and physical health is probable. You can learn from each other about diet and exercise. You will appreciate encouragement for developing your skills. It is an area where your belief in one another benefits you both. The saying "what is good for one is good for all" works in your companionship.

When you first met, you may have sensed encountering someone as conscientious about work and serving others as yourself. You are a team that moves as predictably as a

well made clock. In the ideal world, you could say and do the exact things that light up each other's hearts. In the real one, you can fuel each other's fortitude to see limitations as opportunities to shine through, rather than as dark clouds.

Pluto

Last, but not least, is a planet of mystery and intrigue, Pluto. You may get a message or two in this section about your shared psychological intensity. Pluto's sign and house point to our drives for power, passion and financial gain. A desire to get to know each other on the deepest of levels can be a Pluto theme. We must let go of a part of ourselves to be in a relationship. This scares some people and seems like a fair deal to others. What we cannot face as individuals sometimes will be brought to the surface in our interactions with a partner. Pluto's shadows center around jealousy and possessiveness. This planet teaches us that letting go and trusting one another are rewarding paths. Facing the tests of Pluto together is the breakfast of champions.

Pluto in Virgo

Two people with a plan! Does this describe you? A passionate plea for life to respond to your most sincere efforts is in your stars. Work is a regular part of your diet. It shares equal footing with any of your other interests. There is talent when you put your energies together. Planning a direction that yields practical results is within your reality. Each of you can be very dedicated to improving your skills. You experience greater harmony when helping your partner achieve self-improvement.

Watch those critical remarks. Keep them to an absolute minimum. You respond better to positive strokes. There is a tendency to push each other to greater heights. You may do this out of love or a compulsive worry. With practice, you will learn just how encouraging you need to be.

Researching the best diet, and healthy ways to live, are possibly of mutual interest. Your work could involve health related or service fields. You both possess instincts to satisfy the public. Business ideas can be exciting. You may be a careful couple when it comes to your money. Knowing how to find a bargain is a strong point.

Make time for sheer pleasure. You will need this to maintain your physical and mental health. Getting away is good for your romance.

Pluto in the Fifth House

You greatly impact each other's creative intensity. A compulsive tendency to make a strong impression on others may be shown. Hiding your talents makes you both feel uncomfortable. You need to have outlets to release a passionate drive for success. Helping your partner find ways to market their talents wins their admiration and love. You may be all or nothing people. It could be in your thinking to not bother with an enterprise unless you really see it producing big. Receiving attention from each other is a craving. Don't be too upset if your lives become too busy for this to always be possible.

Engaging in certain hobbies may be a way for you to feel a stronger bond. Working together on a project can build a spirit of cooperation. This will backfire if either of you

gets too bossy. Neither of you likes to be told what to do by the other all of the time. Let each other take turns leading the dance. You activate each other's leadership drives. People may find that you are lovers that like to take control of situations. You may cause others to be jealous of your apparent wonderful romance. Your relationship has a way of growing stronger after you deal with conflict. Don't run away from your partner's intensity. It's the power inherent in your being together that calls for you to be courageous in dealing with each other.

Don't let pride be your most visible trait. You will sometimes step on each other's feelings. You are at your best when you make each other feel needed and included. This is when you both feel like winners.

Midheaven

Just as the Ascendant was described as a sign serving a special purpose, there is a sign referred to as the Midheaven, with a special mission of its own. This is the sign at the beginning of the 10th house of a chart. A palm reader can interpret the career line embedded in your hand. Think of the Midheaven or 10th house sign as a type of career line in your chart. How you two conduct business in the world and your work interests are shown here.

Midheaven in Aquarius

Unique roles are a distinct possibility in this relationship. You can be inventive types with a desire to be in cutting-edge professions. New technologies call to you on a regular basis to discover them. Neither of you cares to have someone looking over your shoulder in work environments. You are a goal-oriented couple when it comes to serious ambitions. You both require jobs or roles that you can't outgrow too quickly. You work better together when you treat your partner as an equal. Boredom with slow moving minds or institutions is likely. Your plans can shock others out of their comfort zones. Groups may find you a refreshing twosome.

Part Three: Planetary Aspects

It's time now to mention another technical side of your report. (If you don't like technical explanations, skip right to the Aspect Interpretations). You have already been introduced to the ten planets. Certain planetary pairs in your chart have a special relationship to one another due to particular angular distances separating them, known as aspects. You could almost say the two planets in an aspect travel and interact together along the same circuit. The following aspect interpretations or descriptions will be listed under five types. Two are known as the soft aspects: the sextile (60 degrees) and trine (120 degrees). These two aspects generally point to more gentle themes found in your relationship. They indicate a lower voltage of electricity and produce less friction. The planets involved in a trine or sextile are more likely to be areas where you flow together

without much effort.

The more hard or intense aspects are the conjunction (0 degrees), square (90 degrees) and opposition (180 degrees). They require our understanding and will point to key ways the two of you must communicate and negotiate. Planets that are part of an intense aspect will show how you energize one another. These higher voltage aspects don't mean you want to avoid them, but more so to develop a true understanding of how to use this energy constructively. "Soft" does not mean good and "intense" does not imply bad. It is often the more intense aspects that deepen the bond of a partnership. The interpretation of any planetary aspect depends greatly on the symbolism of the two planets forming an aspect.

It might be helpful to keep some key words in mind for the aspects. The sextile is a promise of Excitement and Eagerness. The planets in this aspect give clues how your energies support one another. The trine is a special Harmony shown by two planets. There is often positive regard for one another that comes spontaneously. We expect good things to be delivered in the trine.

The conjunction is where two planets are joined at the hip. There is a Fusion or powerful blending of these two energies. The square can reveal where you will encounter Friction in your relationship. Pay special attention to these aspects, as they are opportunities for growth as much as discord. The opposition requires a Balancing act. It is similar to a seesaw. Each of you may find yourselves taking turns in acting out one planet or the other.

It might be helpful to refer to Parts One and Two to refresh your memory about the meaning of the Planets, Ascendant and Midheaven, as you read the aspects that follow. Remember that it is usually the more intense aspects that stretch us the most. The more positively you use these challenging planetary combinations the greater will be your understanding of each other.

Note that a planet might be involved in several different aspects. In other words, the planet is interfacing its energies with numerous other planets (or even with the Ascendant or Midheaven). A "heavily aspected planet" plays a key role in your relating to each other.

Part Four: The Nodes of the Moon

Do you sometimes wonder if it was fate or some other mysterious set of events that introduced the two of you? What attracted you the most to each other? Maybe it was a charismatic smile, the way you could talk, a physical attraction, or a shared sense of values. There is a multitude of possibilities you could name. The Nodes of the Moon are not planets. They are a celestial polarity offering clues to your connection on the soul level. Think of it as your own "psychic friends network." If this sounds too mystical or corny, just think of the Nodes as a shared frequency level in your partnership. It doesn't mean you get psychic flashes about each other. Much of this link between your minds is probably on a subconscious level. The Nodes usually play an active part in our closest relationships. The longer we are in a relationship with a particular person, the more these two energies come into our conscious awareness.

The Nodes represents a special way you can build your relationship together. They point to certain themes that must be nurtured. This helps keep weeds of discontent and frustration from growing. The Nodes are a path to solidifying your sense of closeness.

You can acquire wealth together. A mutual appreciation for beauty is something you have in common. A love for the outdoors is probable. When you first met, did you both feel at ease and accepted at face value? You have a way of doing this for one another. Just be sure to include your partner on the big decisions that impact you both.

The trickster or hidden irrational tendencies surface in the form of whether you can trust each other--it could be scary. Revealing your deepest psychological needs takes courage. It has a big payoff in that you will learn how to be more supportive of each other. You bring out great passion for life in each other. There is a desire to discuss the taboos that many people are afraid to talk about. Balancing the power is a must. You can increase each other's wealth on several levels.

It is possible the two of you may need to get better in talking about real issues. It is tempting to do the sweeping under the carpet trick. Eventually you must talk straight. Criticism can be destructive if it gets out of hand. Neither of you probably likes to be critiqued anyway. The two of you are happier when you balance reality and idealism. You likely appreciate it when your partner is holding up their end of the bargain in acting responsibly. You can be an efficient duo able to enjoy the fruits of working toward shared objectives.
