Introduction

Astrology is as old as measured time. Although there are many different approaches to astrology, all astrologers appear united in the idea that there is a connection between the heavens and the Earth -- they share one common space. For centuries there has been a misunderstanding concerning the nature of astrology to the effect that the heavens somehow "influence" events here on Earth. This theory of celestial influence has penetrated into the modern world until today it is the main concept or idea of astrology supported by the public -- the lay astrological audience.

Professional astrologers do not hold with theories of celestial influence. Instead, the modern astrologer conceives of the heavens and Earth as united, interpenetrating, and sharing a common space and time. The great cosmic or celestial events happening around and beyond the Earth (eclipses, lineups, and so on) are not seen as CAUSING events to occur on Earth, but as great signatures of events ALSO happening here on Earth. In other words, there is no "cause" in the heavens followed by an "effect" here on Earth. Instead, both planetary and earthly events happen simultaneously and are mutually reflective. Neither is the cause of the other; both are the product of the moment, one acted out in the heavens above, the other here on the Earth below.

While astrologers don't feel that heavenly events are the cause of events here on Earth, they do feel that specific heavenly events are enacted here on the Earth too -- at the same moment. In other words, there is only one grand "play." The great drama enacted in the sky is also acted out (in exact detail) here on Earth in the same instant. Another way to say this is that the Earth is part of the cosmos and shares in that cosmic moment. Scientists have been discovering (for example) that sunspots, solar flares, and solar activity have a very definite (and almost immediate) effect here on Earth. Astrologers tend to feel that all major cosmic events such as eclipses are interactive; they represent an activity also taking place within us and our consciousness.

In summary, astrology is a study of heavenly cycles and cosmic events as they are reflected in our earthly environment and vice-versa -- a vast cosmic clock. Astrologers find the cosmic patterns revealed in the rhythmic motions of the planets a great help in shedding light on the seeming helter-skelter of everyday life. Astrologers may have their heads in the heavens, but only to better guide their feet here on Earth.

Planet Aspects

The Lights: The Sun and Moon

At the time of our birth, the planets (through their configurations and relationships) tell us something about how things were when we were born. Each planet points to special qualities within us. Yet, of all the planets, the two most important planets to astrologers are the "lights," the Sun and the Moon. From where we stand here on Earth, the great shining Sun by day and the reflecting Moon at night are our constant companions. They have much to tell us as to where we have been and where we are headed.

The Sun: Your Self and Future

From the Sun comes light, that which draws us into life. The Sun represents all the changes we have not yet taken, that part of us that we have not yet experienced but are headed toward. The Sun represents our identity, or self, in that it is toward these that we are moving and developing. Thus, it also represents that which we will become: older people, authorities -- those we look toward, or up to. Our essence, or future. Teachers, gurus, and older (more experienced) people are represented by the Sun. The Sun is "hot stuff," those further up the road of life experience.

You are nothing if not compassionate. Interested in serving others, you worry about their welfare. You like to take care of everything, and are always redeeming, salvaging, and restoring. You believe in conservation in all things. You find yourself through response and service to others, to life.

Sun in Virgo

You are very fortunate in being able to grow and progress throughout your life without major difficulties. You can always find the resources you require at hand plus the necessary instruction in how to use them. An inner vision, coupled with the ability to see the "Big" picture, often finds you working as a go-between with others. You could even have a special gift for spanning the generation gap, bringing older and younger spirits together. A love of animals, children, older people, and the needy and downtrodden in general, is a lifelong trait.

Moon Trine Sun

You push hard, but much energy is wasted because you tend to lack direction and planning. You often work against the way things are: authorities or the status quo. It may be difficult for you to coordinate your ambitions with your actual actions and feelings. You tend to hobble yourself emotionally. Your drive and passions put you at odds with authority figures time and again. This tendency towards clashes and emotional confrontation does exist, and at these times you can be your own worst enemy.

Sun Square Mars

You find yourself fighting to realize your ambitions amidst a sea of fuzzy dreams. A

fear of letting go (and trusting the more mystical side of yourself) keeps you hard at it. You can't seem to let yourself dream a little, don't trust your own idealizations, and struggle between your sense of ideals and your more realistic ambitions. Your practical concerns with getting ahead and fulfilling your ambitions tend to ignore your more deep-rooted ideals and dreams. You may not trust those in authority.

Sun Square Neptune

You seem to shine when it comes to practical matters or those involving work and career. You have an easy way with superiors or those in authority and can always manage to get the most out of any skill or ability you have. You like work and career.

Sun Sextile Midheaven

The Moon: The Support System

Here is information about the kind of environment we create around us, our support system. It is not only the surroundings that we set up today, but the Moon also represents our past, the particular history and social background out of which we grew. Aside from our social background, the Moon governs all of the old habits that we have grown beyond. We tend to look down on, or back on, our Moon. It represents those experiences out of which we have come, all those younger souls who are unconscious, or "sub" conscious to our own level. This is why it is said that the Moon is a mystery planet, for it is both our parent and our child: our parent in that out of it we were born, our child in that we can't but respond to others who are now living as we once did.

You have strong, stable emotions and tend to draw around you the perfect environment for your upbringing. The thing you need is always at hand. In addition, you get much support and good fortune from friends and relatives. You value constancy and security in all things and possess a good business sense. You are, by nature, very domestic and enjoy nice surroundings.

Moon in Taurus

A special affinity for old people and for children, plus an innate love of animals, the helpless, and the underdog. An inner vision coupled with the ability to see the "Big" picture often finds you working as a go-between with others.

Moon Trine Sun

Your approach to discipline and responsibilities does not exactly cater to the moods and feelings of others. You have little patience for sentiment, tradition, and history. Your lack of control over your own feelings can result in real arguments. One result is that you may not always have the support of those around you. You sometimes have to go it alone.

Moon Opposition Saturn

Everything seems to conspire to put you in the limelight. You always come off well in a group and manage to get your ideas across.

Moon Trine Ascendant

You flee from crowds and are most happy when surrounded by home, family, and all that is private. Your home life is most important. It matters not to you that you are not a public person and not at your best when in a crowd.

Moon Opposition Midheaven

The Inner Planets: Mercury and Venus

The planets Mercury and Venus have more to do with our internal and personal life than with life outside us. These inner planets are located between the orbit of the Earth and the Sun. We can look to qualities that are inside us. Venus indicates how we appreciate and measure our experience, how we value life. Mercury tells us something about how our mind works, how we think and communicate -- our intrinsic brightness.

Mercury: The Mind and Communication

Mercury is the light in our eyes, the ever-changing consciousness within us that moves from idea to idea. Thus Mercury has always represented thoughts, ideas, and the mental process in general. It governs not only ideas, but communications, too. Communications -- by phone, letter, spoken, or however -- are ruled by Mercury. Also thoughts, connections, phone wires, and everything that connects and conveys -- even conversations.

You have a fine mind and a great appetite for detail. You appreciate minute differences and distinctions. A craftsman with an innate critical sense, you are always full of suggestions. Your careful, conservative mind wants to salvage every last thing. You possess a love for detail and trivia. Quick-minded.

Mercury in Virgo

You enjoy working with your mind and can usually find a solution to even the worst problems. You like to solve puzzles and dilemmas, yours or others'. Your skills in this regard make you expert at counseling and guiding others. Fine verbal skills and a natural sense of justice makes legal work a distinct possibility. Working with laws, natural or man-made, amounts to a real talent. You also have a great interest in ideas, the more true and lasting the better. Religious concepts will be a lifelong concern for you.

Mercury Trine Jupiter

You may have trouble with any ideas that are new and different. Your more conservative way of thinking and expressing yourself goes against all that is radical and new. Thoughts and concepts that break with tradition may be a hassle for you -- a constant headache. You prefer that conversations and communications stay on the accepted paths and become irritated when they stray from what you expect. You have a tendency to lose your temper with little warning.

Mercury Square Uranus

You are expert at working with words that communicate mystical and mythological ideas. You are at home in these realms and can always manage to bring other-worldly ideas into the practical realms. You would make an excellent teacher of philosophy or religion, for you can't help but communicate these subjects and enchant all who come to know you. Your understanding of the unity behind appearances, along with the ability to put these thoughts into words, is a rare and valuable gift. You would make a good director, for you like working with mental images.

Mercury Trine Neptune

When it comes to mental work, you have a perfect gift for research and investigation. You enjoy examining and analyzing, in particular when it comes to psychological and

sensitive areas of the mind. Your ability to sift through the dross and come up with what is essential every time is exceptional. You like to discuss and communicate, again always at a psychological and very personal level. Others may find you just too intense.

Mercury Sextile Pluto

Your mind is ever on communication, how you present yourself and come across with others. It is easy for you to express yourself in a crowd, and you are a real smoothie. Everything seems to work out for you when you are talking with others.

Mercury Trine Ascendant

Venus: Values and Discrimination

Venus rules our values and sense of appreciation. When we appraise or appreciate something, whether that be another person or a new car, this is Venus -- the sense of love and compassion we may feel. By the same token, this planet rules enjoyment too. Whether it be self-appreciation or just plain old decadent self-enjoyment by having a good time, this is Venus. When we go shopping or are on a spending spree, it is Venus that allows us to appreciate and value all the good things of life.

A socialite, you love decorum and etiquette, but relationships are the big thing -- friends. A peacemaker, sometimes superficial, you avoid all harsh and crude actions, people or things. You appreciate care, concern for life, equality, gentleness, and acceptance.

Venus in Libra

You love to work with younger people and would make a superb teacher or coach. You appreciate a heart-felt approach and are an enthusiast if there ever was one. You understand and encourage emotions, feelings and creativity and find it easy to work in these areas. You value drive and the ability to get things done. Matters of the heart, marriage, and the like are areas where you can help others.

Venus Sextile Mars

Your love of family and home and lack of interest in external affairs (be they friends or work-related) needs to be noted and kept in balance.

Venus Square Ascendant

The External Planets: Mars, Jupiter, Saturn

The major planets outside the Earth's orbit (external to us) are Mars, Jupiter, and Saturn. These are the planets of the outer world -- life as we find it outside ourselves. Mars tells us something about the drive and energy we have, Jupiter shows us how to best channel that energy, and Saturn decrees what sort of material or territory we will be passing through. Again: Saturn tells us about the territory we will be going through, Jupiter the way or path through it, and Mars what kind of push or drive we can count on to keep going.

Mars: Drive and Emotions

Mars is the planet of emotion and inner motivation or drive. When we search for the meaning of something, life or whatever, it is Mars that urges us on, keeps us searching. Mars also drives us against things, too and sends us into war and combat. The urgency of

Mars, the search for meaning, is identical to the need for union, yoga, and marriage. Mars is the planet of union, and marriage is the most common form of yoga. When we have questions about the opposite sex, we are looking at the planet Mars.

With direct drive, you always head straight to the heart of the matter. You are candid, even blunt or brusque in manner. No bells or whistles needed, for you like simple living and could be an outdoors person. You have an urge to be free, to be challenged and tested, and would rather travel far than be stuck in routine.

Mars in Sagittarius

Your drive to succeed is strong, but you often push yourself in a direction against your own best interests. Your ambitions may find you at odds with authority figures again and again. A tendency towards arguments and emotional drama exists.

Sun Square Mars

All heart! Feelings are always out front and entirely natural. Love of action, motion (sports, physical, sex, and the like). An expert at matters of the heart. Children, animals, and all creative work get top billing. Always act on instinct, feelings.

Venus Sextile Mars

You are probably hard to control and very unpredictable. Your drive for independence is obvious, and it is clear that the common and the traditional are not for you. Anything else but that! You pursue alternate or nonconformist solutions to life with great energy. Your temper is hot and sharp and tends to snap out like a lightning bolt. You are aggressive in the pursuit of gaining insight into all that is new, different, and out of the ordinary. Electronics, computers, and communications could be a big part of your life.

Mars Conjunction Uranus

Jupiter: Career and Life Path

Jupiter is the planet of success and simple survival, the way we have to solve the problems that confront us. Thus Jupiter has to do with the way in which we can be successful, our vocation. The Hindu word for Jupiter is Guru. Jupiter is the guru and guide, the way we go through life, our life path or vocation. Jupiter is the method each of us has for dealing with the laws of life, our Saturn, or limitations. Jupiter is the light or path. Jupiter provides us with our sense of direction, the path we are on, the way we handle life. It affects how we approach life's problems. It has always been an indicator of how successful we may be, our vocation.

The perfect manager: conservative and professional in all things. Your career is all-important. A "doer," you are always practical. Never ruled by emotions, you are cool, capable, and competent. You are quick to get the outline or skeleton of a project, to see how things work.

Jupiter in Capricorn

Good ability to "get the picture" (the gist of things) and to communicate this to others. In fact, helping others to find their way through life (for example via vocational counseling) is indicated. Religious ideas and concepts are natural.

Mercury Trine Jupiter

With you, dreams and ideals have become a way of life. You seek to bring them down to earth and make them real. You will, as the song says, never let your dreams depart. Yours is a path of imagination and vision, perhaps leading to a career in music, mysticism, or the arts. You understand the forest behind the trees and the unity beyond all separateness.

Jupiter Conjunction Neptune

Mass psychology (what motivates people) is something you understand. Your career may well be in managing or working with people within a psychological context. You would make a good teacher in these areas too. Counseling or helping people who are in crisis or working out sensitive issues are careers where you could excel. You have a way of sifting through the garbage and coming up with whatever is meaningful or relevant.

Jupiter Sextile Pluto

You can seem like all things to all people, so able are you to facilitate others. People trust you instantly. You would make a great teacher and counselor.

Jupiter Conjunction Ascendant

Saturn: Responsibilities

The process of finding out who we are (self-discovery) starts when we come to grips with whatever problems life presents to us and begin to get a handle on them. In other words, if we have not dealt with Saturn, or time (that is, if we don't have some control of time), there is little opportunity for other questions. Saturn rules the laws and limitations of this material world we all live in. Saturn indicates where we are bound to learn, the narrowness that makes our way felt, the walls that make homes possible. Saturn holds us together as much as apart. Saturn is said to be the great teacher, the planet that keeps us from getting carried away in one direction or another. Although it always seeks to limit and determine any thought, word, or action, it also defines and clarifies. Saturn is called the prince of the material world.

You have difficulty owning up to any selfishness, sexuality or mental undercurrents of any kind. You may attempt to deny your passions, but you need to accept instincts, attachments, and all things natural. Allow your desires to function unhindered. Take off the straight-jacket. Feel it.

Saturn in Scorpio

You tend to organize and discipline yourself in a very different manner from the rest of your crowd. Others may complain that your methods may ignore feelings and personal rapport. You could turn your back on the past, ignore sentiment and moods.

Moon Opposition Saturn

You express yourself deliberately and don't waste your words. You have a natural sense of organization and come across as disciplined and careful, perhaps a little too sober.

Saturn Sextile Ascendant

With a great interest in the business and practical world, your mind works like a steel trap when it comes to making career and management decisions.

Saturn Conjunction Midheaven

The Outer Planets

In the previous sections, we have dealt with planets that we can see with our naked eyes. In general, these planets refer to life as we know and live it and are the so-called historical or classic planets. Beyond these are three planets that are not visible in the sky and which have cycles longer than the average human life span. Since they are beyond Saturn or time, astrologers call them the trans-personal or transcendental planets -- the planets beyond the physical. One of the ways astrologers learn something about our life beyond time (eternal life) is through these three outer planets: Uranus, Neptune, and Pluto. Here we find information on how we discover ourselves (Uranus), how we understand and accept these discoveries (Neptune), and, in time, how we depend and identify with them (Pluto).

Uranus: Break-Thrus & Insights

Our responsibilities can tend to weigh us down, and we each have our particular ways of getting around (or breaking through) the mass of obstructions that tends to congeal around us. The planet that has to do with how we get beyond the difficulties and problems life presents us is Uranus. Here is the way insights come to us, how we discover or come to know and understand ourselves. It has to do with finding new uses for old things, and it rules inventions and sudden insights into our life -- everything that is unusual, eccentric, and out of the ordinary. It is the reverse of the status quo and is always unconventional and heretical. Uranus is, in many ways, the opposite, or undoing of Saturn.

You have new philosophies ideas for the future and new approaches to travel and exploration (of all kinds). Long journeys interest you. You may startle others with your direct conversations, always getting right to the nitty-gritty. You enjoy being alone, free, and on the move. The original optimist.

Uranus in Sagittarius

You tend to carry a lot of mental energy and tension, and this can suddenly erupt when you're not kept busy. The way you speak, think, and use your mind can give way to sheer insight and brilliance. At other times you may have very conventional ideas.

Mercury Square Uranus

Your temper is a hot one and tends to come bursting forth. A drive for independence and nonconformity takes you beyond the ordinary into the unusual and eccentric. You could pursue electronics, computers, and the like.

Mars Conjunction Uranus

Neptune: Ideals & Imagination

Even the most hard-nosed of us have moments of real understanding, when things are seen as linked together and one piece. We stop getting the idea in little flashes and just get the whole thing. It dawns on us. We each have our own way of letting go, having communion, and (as the poet wrote) letting "the dewdrop slip into the shining sea." These moments and this state of mind are, in fact, the source for all our imagination. There are many ways of seeing through the separateness in the world to the unity behind it.

Idealism is an innate talent, and you are in love with grand gestures and long thoughts. Religion, politics and philosophy are natural. The world traveler. You enjoy fair, just, frank, and broad-minded persons. You are gregarious and sports-minded. You dare to dream big. You like new philosophies, long novels.

Neptune in Sagittarius

You struggle between your sense of ideals and your more practical ambitions. Your self-image and dreams are kept apart from the day-to-day practical concerns. They continue to confront one another. Authorities may not trust you, and vice versa.

Sun Square Neptune

Great psychological talent. Able to sense and feel in the more abstract mental areas and to bring far-out ideas down to earth. Always at the leading edge of social understanding. Great sense of compassion and a real understanding of others.

Mercury Trine Neptune

Yours is a path that seeks to make your dreams and ideals a reality. An interest in unity, mysticism, philosophy, and all that is mythical and dreamlike. Your imagination is the key, and esoteric and artistic pursuits of all kinds are indicated.

Jupiter Conjunction Neptune

You work with real imagination and understanding in areas of the mind that are the most personal or private -- depth psychology. You are like a midwife of the spirit, assisting at the birth of each individual going through a spiritual or re-birth process. You accept the natural process of birth, spiritual and physical, and have dedicated yourself to helping it along. You would make a great teacher in these areas.

Neptune Sextile Pluto

Pluto: Inner Change and Growth

Pluto is the planet of profound change, starting deep within us and moving toward the surface. It often touches upon the most sensitive psychological areas inside us. Once touched, we have no choice but to change and grow. The most sensitive of experiences, the times of greatest vulnerability, are times of complete identification with an experience, a person, or a thing. We know in these instants that we are looking at our self, what we are. The most personal of experiences is one of complete identification with a person, moment, or idea. Perhaps this is only possible for most of us when we look into our child's eyes, and then only infrequently. Love is not the experience here, but total identification. This is very sensitive stuff. To touch upon this material is to go through deep inner change and transformation -- inner alchemy. Identification and experiencing that life is our own creation and that, in fact, you are I and I am you. This experience breaks us down and humbles. When we touch upon this experience, we cannot but die to what we have been thinking and doing up to now. It reduces us to our most sensitive because -- in a flash -- we see or remember that it all is us, our life.

You tear through appearances in an effort to get beneath, behind, and at the heart or essence. You may find psychology, initiation, and mysticism, and the occult of great interest. Intense personal change and inner growth are lifelong habits.

Pluto in Scorpio

Penetrating, probing mind that is good for research. Can see far beyond normal concepts in areas of religion and psychology. Always want to get to the bottom of things, get under or beyond the superficial. A sense of the eternal.

Mercury Sextile Pluto

Organizational genius, especially when it comes to managing other people. You understand what motivates others from the point of view of mass psychology and can get at the heart of things in an instant. You have a great talent for social leadership.

Jupiter Sextile Pluto

A searing vision that cuts through what passes for conventional religion. A vision of the endless process of life ever being born afresh. Great acceptance and faith in the natural process and next generation. Love of children and animals.

Neptune Sextile Pluto

Challenges

Life can be challenging, and things are not always easy. The major challenges in a natal chart are where we can expect increased activity and personal involvement -- ready or not. These critical areas of life can be difficult, and the resulting confusion and possible obscuration often makes it hard for us to see and act with normal clarity. Therefore, when it comes to the following factors you may wish to exercise caution and extra patience.

You flee from crowds and are most happy when surrounded by home, family, and all that is private. Your home life is most important. It matters not to you that you are not a public person and not at your best when in a crowd.

Talents and Abilities

Despite whatever problems we may have, there are areas of life where we have clear insight and real talent -- natural ability. When it comes to these matters, our judgment is sharp and we always manage to take charge. We have the knack. It may be as simple as the ability to work hard and accomplish things without something going wrong. An innate sense of the workings of these parts of life makes it easy for us to learn and accomplish things where they are concerned.

You love to work with younger people and would make a superb teacher or coach. You appreciate a heart-felt approach and are an enthusiast if there ever was one. Neptune Sextile Pluto 01°54'

Mass psychology (what motivates people) is something you understand. Your career may well be in managing or working with people within a psychological context. You would make a good teacher in these areas too. Counseling or helping people who are in crisis or working out sensitive issues are careers where you could excel. You have a way of sifting through the garbage and coming up with whatever is meaningful or relevant.

Jupiter Sextile Pluto 03°00'

When it comes to mental work, you have a perfect gift for research and investigation. You enjoy examining and analyzing, in particular when it comes to psychological and sensitive areas of the mind. Your ability to sift through the dross and come up with what is essential every time is exceptional. You like to discuss and communicate, again always at a psychological and very personal level. Others may find you just too intense.

Mercury Sextile Pluto 04°39'

You seem to shine when it comes to practical matters or those involving work and career. You have an easy way with superiors or those in authority and can always manage to get the most out of any skill or ability you have. You like work and career.

Sun Sextile Midheaven 05°55'

Your mind is ever on communication, how you present yourself and come across with others. It is easy for you to express yourself in a crowd, and you are a real smoothie. Everything seems to work out for you when you are talking with others.

Mercury Trine Ascendant 06°09'

You are expert at working with words that communicate mystical and mythological ideas. You are at home in these realms and can always manage to bring other-worldly ideas into the practical realms. You would make an excellent teacher of philosophy or religion, for you can't help but communicate these subjects and enchant all who come to know you. Your understanding of the unity behind appearances, along with the ability to put these thoughts into words, is a rare and valuable gift. You would make a good director, for you like working with mental images.

Mercury Trine Neptune 06°33'

Everything seems to conspire to put you in the limelight. You always come off well in a group and manage to get your ideas across.

Landscape: Major Life Periods

What follows amounts to a brief overview of the first thirty years or so of your life -- a road map of the years to come. Since childhood, adolescence, and early adult life are so crucial to each of us, an attempt has been made to describe these formative years. Based on the gradual movement of the planet Saturn, this is one of the most tested of all astrological techniques. It is used by almost every professional astrologer as part of any personal consultation. Provided that your time of birth is more or less accurate, you will find this information both accurate and informative. Here is a general life overview, followed by a close-up on your current changes -- what is happening right now. First the overview:

Your Personal Background

A fairly easy childhood up until around the 11-12th year, at which time you will begin to become more subjective and inner-directed. This could mean that your adolescence is somewhat more lonely and less socially oriented than the average. This inner time of exploration lasts until you are about 18-19 years of age. At that time, you will proceed to take hold, discover yourself, and become more outward -- in a rather short time. Your sense of confidence will take hold and build, and the years of introspection will pay off as you begin to reach out. The years from 18 through 25 or 26 will be ones of hard work and continued gains in self-confidence. From the 26th year, your real climb to fame and fortune will commence. Your 30s and 40s will be very good and successful years.

Your Current Situation

Now for a close-up of recent years: while landscape was quite general, the dates given in this close-up should be much more precise. Life is composed of sections of time, each devoted to one kind of activity or another. We go along for a while in one direction until something changes within (or outside) us and we head off in a new course. Some of our earlier activities dry up and new ones spring up in their place. What follows is an analysis of the time period in which you find yourself now. Don't look here for a day-to-day account of life but rather to get a picture of this stretch of time, "these years."

Sep 10, 2003 1st Pass D> (Age 18 11m)

Dec 11, 2003 2nd Pass R< (Age 19 2m)

May 25, 2004 3rd Pass D> (Age 19 8m)

The above dates mark the end of a number of years of hard work on your part, sort of an apprenticeship. Now you will begin to come into your own. Opportunities will present themselves. Now is the time to make that outward push and ride the crest of the wave into fame and fortune. This is the best time you will have (for many years) to make progress, push forward, and rise to prominence. It will be hard for you to do wrong, for all the cycles are working in your favor. This is also a time when you may marry or take on a new role in the community or with other people. You will be in demand, and recognition will be forthcoming. Go for it. These next 6-7 years will find circumstances working to

help you and raise you up, push you forward. In summary, this marks a more outward and enjoyable series of years, during which things will come to you easily. Friends and a social life are in order and, in general, an easy and untroubled life. These are good years to grow up, be social, recognized, and so on.

The Elements, Modalities and Angularity

Elements, modalities, and house quadrants. These are all techniques used by astrologers to gain a general picture of how a person measures up. How do your planets and houses total up? Which do you have in abundance, and which do you lack, if any? Those with high totals show what we can or must do in life. These are qualities we have. However, most people are more interested by what they lack or want -- their lowest totals. They tend to study their "wants," imitate, and even pretend to have them. The old adage is: we become what we want (or lack), while we do what we can (or have to do). Here are your totals:

You're concerned with preserving the status quo and are stable and methodical in your ways of going on. You resist change and may have trouble getting started, but once on the move are indomitable. You mistrust that which is new or untried.

Have Earth

You could have difficulty getting your ideas across to others, sometimes feeling inadequate in matters that require logic or the use of your mental powers. You may have doubts about those who talk too much and seem "long" on ideas.

Want Air

Very communicative, flexible, mental, and other-oriented. Perhaps you can be all things to all people, giving them what they require. Probably a smooth talker with a quick wit and ready tongue.

Have Mutable

Not a great starter, you may have trouble initiating things and getting them moving. You may need help from friends or others in learning how to be more aggressive and outgoing.

Want Cardinal

Your feelings need to be stirred before you can throw yourself whole-heartedly into any venture. Love, ideals, and a strong sense of your own worth are vital to your well-being and ability to function.

Have Succeedent

You could have difficulty getting outer recognition for your efforts or accomplishments. This doesn't mean they're worthless. It does mean you should throw your efforts into work or ventures you really love doing, not for others.

Your Burn Rate

We all change, but the question is: At what rate? Some of us tear through change after change, one phase following another, year after year, while others move at a more serene pace. Or, one area of our lives may be hectic and forever changing, while other areas are quite tranquil. Why do some people seem to live lifetimes within lifetimes? Here is an analysis of your particular rate of change or "burn rate," including the particular areas of your life (planets) where you can expect continued change and growth. Areas where there is a very low index of change (indicating clear and easy use of the qualities involved) will also be pointed out. If you have sometimes wondered about the areas of your life where the candles burn at both ends, here are the details.

You have a very high burn rate (index of change) and tend to run hot and fast. It is almost like having many lifetimes within this single one. Things are always fast and furious with you, and you seldom remain calm for long. Your thirst for experience and growth keeps you always on the move. You work through an enormous amount of change compared to an average person. In particular, the following qualities are areas where you have experienced and will continue to experience much change. These areas of life persist in presenting themselves to you, so you may already have become very experienced in them. On the other hand, they could be arenas in which you struggle but have not yet attained mastery.

A majority of planets in the PAST suggests that you are comfortable with established values. You know and understand more than you let on, and life changes seldom take you by surprise. You have a great deal of control over your actions.

Planets in High Focus

The mind, and all that is mental, will be the source of continued change and adjustment. Letters, writing, speaking, and all things having to do with communication and cognitive work assume great importance. Your mind tends to be engrossed with thoughts, ideas, and concepts and remains in almost constant flux. Mental learning is an area of preoccupation.

Mercury

Emotional change and growth will be in high focus and amount to a constant in your life. A high burn rate here suggests that feelings, motivation, and sheer drive will be a trademark as well as a source of continual experience and learning. You find yourself in constant change in matters of feelings, and emotional scenes are part of your stock and trade. Experience in these realms will be extensive.

Mars

Questions of attitude, approaches to problem-solving, and the methods for handling authorities and the law are in high focus and are indicated by a high burn rate regarding your career and making your way through life. Perhaps you will have many jobs or be

forever going through changes and adjustments that affect your career. It could be difficult finding lasting success or prosperity, and the path to it may be areas where you have real experience and particular expertise.

Jupiter

You have a high burn rate when it comes to questions of your independence and autonomy. You tend to rebel and buck authority, and this will be a major source of change and adjustment. You will be concerned with issues of freedom and independence far beyond the average person. A passion for inventions, electronics, and the like can also be expected.

Uranus

You have a high rate of change when it comes to what you believe in -- your ideals and dreams. You adjust and change your ideals often and struggle not to get carried away with each new vision. The world of your imagination is a major focus of change.

Neptune

Patterns: Your Inner and Outer Self

Here we are examining your basic attitude or approach to life, what is called by some the archetype or soul-type. If you know something about your particular soul-type, this can provide valuable information as to the general direction and purpose of your life. In particular, it is important to note the difference, if any, between our outer personality (the way we appear to others) and our real inner self; how are we, in fact, as people get to know us? Not all people are as they seem.

No mistake possible here. With you, the saying "What you see is what you get" is true. You are very much just as you appear to be.

Geo: Trine Helio: Trine

Your Soul Type

You are the eternal patron of just about anyone who will let you look after them -- the original mother hen. You need to feel useful and wanted and are never happy unless you are active and involved. Always the host, you find yourself (in most situations) caring for and taking care of others. In fact, you may tend to worry about others -- making a good impression -- too much. Not content to let others judge you on appearance alone, you would rather be judged by your actions, by what you have done or can do. You are most happy when you can do something for someone and aren't above keeping others in your debt. Your general sense of concern for everything makes you invaluable when anything needs doing and, if left unoccupied, you have been known to even worry for worry's sake. Given only a few facts, you are able to take in a situation and come up with a real picture of what is happening. Never happier than when fully engaged. You will tend to find yourself in responding to others. You can always put your ideas into words and describe or analyze situations for yourself and others. Chances are you will work in one of the many service occupations, taking care of and looking after people. You may feel empty or that there is not much to you, particularly in a group situation where you will

not tend to be the center of attention or a great entertainer. Your mind and caring attitude are what others find attractive in you.

You are born to love and care for others and may tend to worry overmuch. Your fear of being left out or not being fully used up in this life can be alleviated by much hard work, by jumping in with both feet and putting your thoughts into action.

The Key to your Inner Life

Each person has one or more key qualities. Here we are not referring to our appearance or personality, but rather to our inner nature, how we are when someone really gets to know us.

The light in your eyes says it all: your mind and ideas are central to your inner and philosophical life. Communications on an inner and spiritual level are not just important for you, they are indispensable. Mentality is the focus and conduit through which all the other parts of you function and relate.

Mercury

In a word, it is your emotions and gusto that hold your innermost self together. Your feelings are not just important, they are central to getting to really know you. A strong devotional nature becomes apparent to anyone who takes time to know the real you. All else follows upon this inner drive and energy. The search for a mate, and marriage in particular, are crucial for you. You are driven to unite and find out what togetherness means.

Mars

The Key to your Personality

The key to understanding your personality and the circumstances in which you find yourself can be found in the environment or support system that surrounds you. You are very much the creature of habit and habitat, and the encircling network of friends, relationships, and what-not are crucial to your success or lack thereof. You are nourished in great measure by the atmosphere and conditions you are able to set up.

Moon

Your outward seriousness and no-nonsense approach to things is obvious to all. This deliberate sense of responsibility comes across and is central to your personality and the way you relate to other people. Everything is run through your checkpoint to see if it holds up and can pass the test. You can be a stickler with details.

Saturn

The Personal Hot Spot

Your dreams and ideals are the number-one component for action in your chart. Your imagination is crucial to your functioning.

Neptune

Your career, sense of judgment, and problem-solving ability are at the top of the list as the key components to look out for whenever you are stroked or stressed.

Jupiter

Interface: Innermost qualities

This feature is based on an intricate analysis of the position of a particular planet in relation to the orbital planes of the other planets. The resulting series of crossings, or nodes, tells us something about the nature of our innermost inclinations (Inc) and disinclinations (Dis). These indicators are not to be considered at the level of our personality, but rather are deep-seated parts of our innermost character -- our internal biases. These pros and cons are not apt to change in the course of our lifetime.

Your insistence on the traditional clashes with everything in the world that is innovative and changing. You come up against this again and again. Your drive and emotions take conservative, well-traveled paths, carefully avoiding the new and different. You may have trouble feeling spontaneous and become overly dependent on others. All of this erupts in sudden fits of temper from time to time.

Mars Dis Uranus

You cherish whatever is different and out of the ordinary. The commonplace and the humdrum are not for you. Your friends and surroundings -- everything around you -- must be unconventional to the point of being controversial. You could care less what others think, and this independence is your passion. The way you show affection may also be unusual, and your partners are certainly nonconformist. You set a high value on being different.

Uranus Inc Venus

You hate a lack of clarity, especially when it comes to your feelings and emotions. This is a less than ideal world as far as you are concerned, and you are for making the best of it. Whatever dreams and ideals you may have had are somehow shut off from the day-to-day realities you face. You would rather ignore your dreams than be tortured by their remoteness. You are suspicious of pie-in-the-sky and have an abnormal fear of being deceived, in particular in matters of love and feelings. A sign of emotional tension.

Neptune Dis Mars

Your tendency to compromise and settle for less than you dreamed can be a problem. Given the opportunity, you may choose the path of least resistance, willing to bypass some of the things you always wanted in favor of expediency. Career moves must be given special attention. Tension results when you ignore your own desires (the things you need and want) and take a course of action, job, career, or whatever that can never satisfy. Or worse, you may find yourself in a job that is compromising.

Neptune Dis Jupiter

You are unruffled and like things calm and impersonal. Polite, but not too close, and never personal. You don't appreciate displays of emotion, and any attempts at analysis meet with the cold cut-off. It is as if all vulnerable issues do not, and never did, exist. Your surveillance sees to that. However, the stuff of gossip fascinates and calls to you from across the void. You hate it, but you love it. There is a lot of unrest built around this issue.

Pluto Dis Venus

Major Transits Happening Now

Astrologers use the term "transits" to mean the positions of the major planets that are overhead (in the sky) right now and their relationship to our birth chart. Transits are very important indicators of the current situation in which we find ourselves. They can provide insight into what we are now going through. Here are the dates when the next major transits for the planets Jupiter, Saturn, Uranus, Neptune, and Pluto are exact in your chart. Some dates will have already passed and some are still to come. Remember, with these large planets transits don't just happen on the day when they are exact. They cover a wide span of days, weeks, months, and sometimes years, depending on which planet is involved.

In general, transits of Jupiter take from several days to a week or two to complete, while those of Saturn take from two weeks to a month to play themselves out. With the outer planets, the period of activity is even longer: transits of Uranus take about two months, Neptune three or four months, and Pluto takes about a year. Uranus, Neptune, and Pluto move so slowly that the complete transit experience may take a year or two to complete itself. So be prepared to work with these situations.

House Activity and Emphasis

The twelve houses of the horoscope, particularly when they are occupied by a planet, provide a clue to areas of special activity and use. Here is an analysis of house activity based on planet emphasis:

First House: Appearance, Approach

The first house has to do with how we appear or the way we come across, thus our appearance and personality. This is the essential stuff that bubbles up in us spontaneously and that is obvious to others as our trademark or activity. It is what makes us each so personally different. This house rules our personal self and everything about us that draws a reaction from our surroundings or others.

First House

Capricorn is the business energy of the zodiac, for it is the very opposite of the emotional Cancer. Given to clear-headedness and practical insight and vision, this sign always takes a distanced perspective, a cool appraisal. Logical and painstaking, Capricorns love hard work and earned results. Money and things in general are very important.

Capricorn

Second House: Possessions, Reactions

The second house is concerned with how we respond to or field whatever impulses or unique and personal qualities we manifest via our first house. This is how we hold or

"have" things (possessions, material goods, money, and the like). The second house always refers to how we secure ourselves, the kind of response we get from life and those around us.

Second House

Pisces energy runs deep and toward the psychological -- whatever is beneath the surface. This sign is understanding, patient, and long-suffering. Pisces tend to absorb all the little barbs and digs coming from outside. They always have their mind on an inner goal, something more important. They are very forgiving and accepting -- giving of themselves for the sake of more important issues.

Pisces

Third House: Inquiries, Communications

The third house is concerned with explorations, investigations, and inquiry and research of all kinds. It also rules connections, communications, wires, tubes -- anything that we can get through with our body, mind, voice, letters, what-have-you. It is here that we explore and search for the limits of our life, whatever we are working with at the moment. A very mental house, concerned with finding, furthering, peering, and all manner of questioning. Traditionally rules short journeys, siblings.

Third House

Aries is the sign of the pioneer and leader. It is always impulsive, concentrated, and spontaneous. Act first and think about what you have done later. Rushing in where others fear to tread, the Aries energy is attention-getting. It always provokes a response from the surroundings, from others. There is something essential and instigative that starts or causes something else to happen -- a reaction or response.

Aries

Fourth House: Home, Family, Security

The fourth house is where we send down roots, find our limits, and generally secure ourselves. It is the end of any searching we might have done in the third house. Here we find or end our search, settle down, and manage to get in possession of the whole situation. This is our home and the base from which we can work, feel, and experience. This is the root of our experience, the core or thick of it.

Fourth House

Taurus manages to respond, possess, and "have" just about everything possible. This is a nurturing and fertile sign in that any seed or impulse is cradled, bringing forth growth and development. Taurus is the way we "have" things, how we possess and acquire things. There is something gentle, regular, steadfast, and determined about Taurus. Always accepting, mothering, providing a base for... a matrix or womb where growth takes place.

Taurus

You look to home and family for support and encouragement. History (personal or otherwise) interests you, and you tend toward nostalgia. Security is very important and you need to have real roots in order to be productive.

Moon in Fourth House

Fifth House: Expression, Creativity

The fifth house has to do with awareness, emotion (to move out), and expression (to press out). Here there is always a growing sense of self-confidence and even a pride of ownership, since we begin to recognize and own our experience. We know that we have had or are having an experience. All forms of expression and offspring are connected to this house -- children, animals, creative expression, and so on. A sense of direction and ownership takes hold at this point in our experience.

Fifth House

Gemini is concerned with connections and communication of all kinds -- letters, wires, telephones, voice, thoughts, writing, and mental processes in general. Gemini is the gadfly, the communicator, the gossip of the zodiac. Searching conversations, scientific inquiry, research, and so on belong here. Gemini energy is unattached, independent, and inquisitive.

Gemini

Sixth House: Responsibility, Work, Health

The sixth house has to do with salvaging and preserving what is good and healthy in our experience. Here we separate the wheat from the chaff. We begin to care for ourselves and our experience and thus health, nutrition. The idea here is that we are able to analyze our experience and have thoughts about what is pure and what is not. The sixth house is an attempt to save the heart of an experience, one that already by that attempt is beginning to pass or not cohere.

Sixth House

Gemini is concerned with connections and communication of all kinds -- letters, wires, telephones, voice, thoughts, writing, and mental processes in general. Gemini is the gadfly, the communicator, the gossip of the zodiac. Searching conversations, scientific inquiry, research, and so on belong here. Gemini energy is unattached, independent, and inquisitive.

Gemini

Seventh House: Relationships, Other People

The seventh house is the house of partnerships, relationships, social life, and all that carries us beyond our personal self into an awareness of other people, community, and the like. This includes spiritual awakening and the discovery that we are more than just our personality. Here we begin to respond to our personal needs (and those of others) for the first time. We can see what is going on and are committed to it; thus, marriage and yoga, or union, is indicated in this house.

Seventh House

Cancer is the mother of the zodiac, always making a home, protecting and providing for others. A sensitive sign where feelings and real experience count more than cold logic. It doesn't get any more physical and emotional than here. This sign has a sense of substance, a home base or foundation. Cancer energy is always limiting, bringing us down to Earth, grounding our every thought in experience, in substance.

Cancer

Eighth House: Business Savvy, Elimination

The eighth house, traditionally the house of death, is concerned with getting rid of excess parts of ourselves that we see we no longer need. Thus this house also covers initiation and any activities where we are transforming toward a more integral position, getting to the heart of things. The no-nonsense quality of the eighth house makes it good for business ventures since here we are stripping away the dross to reveal the truth or essence of the subject.

Eighth House

Virgo energy is analytical and precise, always separating what is worthwhile and worth supporting from that which is outmoded and of no further use. A mental sign, where thinking and examining are in high focus. Also, a different kind of mother, here an endless caring and worrying (fussing) about just about everything. Always compassionate and responsive, Virgo energy is service-oriented above all, often thinking and caring more about what others are doing and thinking than for self.

Virgo

"What you see is what you get" is not enough for you. You want more than appearances and are willing to dig down to get at the heart of things. You work through all that is superficial, no matter what kind of personal sacrifice is required.

Sun in Eighth House

You have a very analytical bent, and your mind excels at making practical decisions. Your ideas run deeper than superficial issues which could mean an interest in depth psychology and even occult and mystical subjects.

Mercury in Eighth House

You don't care much for the superficial. You appreciate getting past the surface and down to the heart--the bare bones of the matter. This could make you a very shrewd and discriminating business person. You value passion in a relationship.

Venus in Eighth House

Ninth House: Religions, Philosophy, Ideas

The ninth house covers long journeys and religion (the longest journey of all). Here is what remains of the purification that takes place in the eighth house -- the seed, or essence, of an entire cycle of experience. Religion comes from a Latin word that means to bind back, and thus refers to all things that last or endure, such as the truth. Essential ideas, philosophy, and all that is the very heart of things belong here.

Ninth House

Libra energy is always facilitating and responsive, assuming the appropriate reaction or response to any question or statement. What is sometimes seen as two-faced is only Libra's facility at responding to each in kind. This is certainly the social sign, par excellence. Impersonal and impartial, this sign doles out only what is demanded, never overdoing things.

Libra

Religion, philosophy, and truth are essential to your life. You are painstaking and deliberate when it comes to sorting through ideas and values for what is lasting and solid. You may appear to others as too sober or religious.

Saturn in Ninth House

You are passionate in your search for truth and essence. Nothing superficial or ephemeral holds your attention. Your intense analytical approach to life cuts through to the heart of things. This directness may not always endear you to others.

Pluto in Ninth House

Tenth House: Practical Vision, Vocation

The 10th house is a house of practical vision and clairvoyance, for here we can see clearly what is. Reputation and career are often connected to this house, since the areas where we can see with greatest clarity are those we most often can put to use to make a living. In summary, this house is where we have real vision and can see to do and work. Planets transiting this house may provide moments of insight and clear-seeing as well.

Tenth House

Scorpio is the most famous sign. Intense, passionate, and very personal, Scorpio rushes past superficialities and right to the heart of any matter. A loyal friend but a fanatic foe, this sign does well in politics and all areas where someone who dares is rewarded. Often associated with sexual energy, perhaps due to its tendency to strip away veneer, laying bare anything that is there.

Scorpio

Eleventh House: Dreams & Visions, Community

The 11th house has to do with putting our visions and dreams to work. We have been on the mountain and had a vision (10th house). Here we take our vows never to forget what we have seen and to work hard to make these dreams into reality. Thus this house has always been connected with altruistic and humanitarian goals and trying to set them in motion. It is the house of friends and community, because when we are powered by a real insight or vision we share with all -- irrespective of differences.

Eleventh House

Sagittarius is nothing if not direct, candid, and to the point. Sometimes harsh, this energy always is concerned with the absolute truth of the subject at hand. Associated with philosophy, religion, and all things that last, Sagittarius energy is always welcome in politics as well as social and community endeavors, where its basic fairness and evenhandedness is helpful.

Sagittarius

You have real community spirit, a drive to work with others on projects of humanitarian interest. An urge to make your altruistic dreams a reality keeps you moving in the direction of group goals and work.

Mars in Eleventh House

Twelfth House: Sacrifice, Psychology, Acceptance

The 12th house is about all that we go through in order to make our dreams into reality and manifest them in the world around us. It covers what we are willing to put up with, the sacrifices we will make in order to bring across what is really important. This is connected to prisons, institutions, betrayal, self-undoing, and the like, because it is here that we must choose to take some possible abuse for the sake of the message we are carrying, or blow it all away with a negative reaction.

Sagittarius is nothing if not direct, candid, and to the point. Sometimes harsh, this energy always is concerned with the absolute truth of the subject at hand. Associated with philosophy, religion, and all things that last, Sagittarius energy is always welcome in politics as well as social and community endeavors, where its basic fairness and evenhandedness is helpful.
