Introduction

Astrology is as old as measured time. Although there are many different approaches to astrology, all astrologers appear united in the idea that there is a connection between the heavens and the Earth -- they share one common space. For centuries there has been a misunderstanding concerning the nature of astrology to the effect that the heavens somehow "influence" events here on Earth. This theory of celestial influence has penetrated into the modern world until today it is the main concept or idea of astrology supported by the public -- the lay astrological audience.

Professional astrologers do not hold with theories of celestial influence. Instead, the modern astrologer conceives of the heavens and Earth as united, interpenetrating, and sharing a common space and time. The great cosmic or celestial events happening around and beyond the Earth (eclipses, lineups, and so on) are not seen as CAUSING events to occur on Earth, but as great signatures of events ALSO happening here on Earth. In other words, there is no "cause" in the heavens followed by an "effect" here on Earth. Instead, both planetary and earthly events happen simultaneously and are mutually reflective. Neither is the cause of the other; both are the product of the moment, one acted out in the heavens above, the other here on the Earth below.

While astrologers don't feel that heavenly events are the cause of events here on Earth, they do feel that specific heavenly events are enacted here on the Earth too -- at the same moment. In other words, there is only one grand "play." The great drama enacted in the sky is also acted out (in exact detail) here on Earth in the same instant. Another way to say this is that the Earth is part of the cosmos and shares in that cosmic moment. Scientists have been discovering (for example) that sunspots, solar flares, and solar activity have a very definite (and almost immediate) effect here on Earth. Astrologers tend to feel that all major cosmic events such as eclipses are interactive; they represent an activity also taking place within us and our consciousness.

In summary, astrology is a study of heavenly cycles and cosmic events as they are reflected in our earthly environment and vice-versa -- a vast cosmic clock. Astrologers find the cosmic patterns revealed in the rhythmic motions of the planets a great help in shedding light on the seeming helter-skelter of everyday life. Astrologers may have their heads in the heavens, but only to better guide their feet here on Earth.

We hope you enjoy your Comprehensive AstroProfile. It has been calculated using sophisticated astronomical formulae to ensure high accuracy. On the next page you will

find a list of the zodiac positions of your natal planets along with the house cusps for your birth moment.

Your Rising Sign

First let's take a quick look at your ascendant, or rising sign. Astrologers want to know what zodiac sign is rising at birth, since this gives a picture of the way you appear or come across to others.

You come across in a frank, candid, and scrupulously honest manner... honest of the point of harshness. You are open minded, tolerant and love to travel in the mind (philosophy, religion) and perhaps across the Earth as well.

Planet Aspects

The Lights: The Sun and Moon

At the time of our birth, the planets (through their configurations and relationships) tell us something about how things were when we were born. Each planet points to special qualities within us. Yet, of all the planets, the two most important planets to astrologers are the "lights," the Sun and the Moon. From where we stand here on Earth, the great shining Sun by day and the reflecting Moon at night are our constant companions. They have much to tell us as to where we have been and where we are headed.

The Sun: Your Self and Future

From the Sun comes light, that which draws us into life. The Sun represents all the changes we have not yet taken, that part of us that we have not yet experienced but are headed toward. The Sun represents our identity, or self, in that it is toward these that we are moving and developing. Thus, it also represents that which we will become: older people, authorities -- those we look toward, or up to. Our essence, or future. Teachers, gurus, and older (more experienced) people are represented by the Sun. The Sun is "hot stuff," those further up the road of life experience.

You are a very sensitive person who can depend on feelings and intuition to get around in life. Possessing good common sense, you are always very practical and down-to-earth -- mothering and protective to all. Security is very important. You also love cooking, growing things, and music.

Sun in Cancer

You have great internal strength and tend to be independent, preferring to lean on yourself more than on those outside. The ability to work with those older and younger than yourself is a real gift, and this talent makes you a natural mediator or go-between. You are self-motivating, able to take care of yourself, and autonomous to a high degree. You work well with others.

Moon Conjunction Sun

You push hard, but much energy is wasted because you tend to lack direction and planning. You often work against the way things are: authorities or the status quo. It may be difficult for you to coordinate your ambitions with your actual actions and feelings. You tend to hobble yourself emotionally. Your drive and passions put you at odds with authority figures time and again. This tendency towards clashes and emotional confrontation does exist, and at these times you can be your own worst enemy.

Sun Square Mars

Being successful in life is easy, for you have a built-in sense of how to approach and unravel even the most difficult problems. You have an instinct for justice and the law, and you always know how to approach a problem from just the right angle. This ability

makes you a natural counselor or guide for others, in particular regarding vocational matters. Working with and helping older persons is also suggested.

Sun Trine Jupiter

You find yourself at odds with all that is mystical --- the dreamy side of life. Your ambitions are practical and down to earth, and you tend to pooh-pooh all that smacks of the imaginative or ideal. You may have a fear that others (partners, what-have-you) are out to deceive you and want to pull the wool over your eyes. Authorities, especially men, who set themselves up as peacemakers or spiritual gurus are a major pet peeve. Your emphasis on the practical and real may also let you down, resulting in further disillusionment.

Sun Opposition Neptune

You find it easy to work with sensitive material, touching upon the more vulnerable areas of the mind or self. You are able to handle these delicate matters without ever breaking stride, for emotional and tender areas of the human psyche don't phase you. You enjoy getting beneath the surface and have an innate savvy for handling touchy subjects. This is perfect for any research investigation or plain old detective work.

Sun Trine Pluto

Your interest in relationships, romantic and otherwise, is strong and may sometimes work against your personal needs. You could lose yourself in the social world and neglect your ability to present yourself as a separate, unique individual.

Sun Opposition Ascendant

You seem to shine when it comes to practical matters or those involving work and career. You have an easy way with superiors or those in authority and can always manage to get the most out of any skill or ability you have. You like work and career.

Sun Trine Midheaven

The Moon: The Support System

Here is information about the kind of environment we create around us, our support system. It is not only the surroundings that we set up today, but the Moon also represents our past, the particular history and social background out of which we grew. Aside from our social background, the Moon governs all of the old habits that we have grown beyond. We tend to look down on, or back on, our Moon. It represents those experiences out of which we have come, all those younger souls who are unconscious, or "sub" conscious to our own level. This is why it is said that the Moon is a mystery planet, for it is both our parent and our child: our parent in that out of it we were born, our child in that we can't but respond to others who are now living as we once did.

You can sense and understand the mood and feelings of others, and are excellent at counseling and nursing. You are quite emotional, and have a natural sense of that which pleases, knowing the mood of the crowd. You can be overly protective (or protected), but are good at parenting and creating a home. Quite domestic.

Moon in Cancer

A natural go-between or mediator between the generations, you always manage to see it two ways, understanding both sides of any question. Intense and perhaps somewhat

private, you have a strong effect on those who come to know you. New ideas.

Moon Conjunction Sun

You may find yourself being too harsh or forceful when dealing with others, especially in group situations. The social fabric around you is something you tear through all too often in your drive to get things done. This can result in a distinct lack of support or assistance from others. Since you tend to ignore sentiment and the feelings of others, you are often left on your own. This non-cooperation makes it hard to really get ahead.

Moon Square Mars

You have a knack for always finding assistance in whatever career moves you decide to make. In fact, your ability to rally support makes a public career of one kind or another quite probable. Success is indicated in education, politics, or the law. You know how to attack and solve problems, whether personal or public. Chances are, your social skills mean that you are popular with almost everyone.

Moon Trine Jupiter

The image you project of what is perfect or ideal from your point of view may find little support at home. Others could oppose or block you in these matters, and maintaining your dreams may be at the price of your friends and surroundings. You may find your background, environment, and all that is traditional less than ideal, even flat and uninspiring.

Moon Opposition Neptune

Your love of groups and the social scene may find you less concerned about you as a person and more interested in relationships of all kinds. Others find you very unselfish and open to sharing and cooperation.

Moon Opposition Ascendant

Your career always seems to get the support you need, and this is one area of life that runs smoothly. You seem to understand what the public wants, and mass marketing is a natural for you.

The Inner Planets: Mercury and Venus

The planets Mercury and Venus have more to do with our internal and personal life than with life outside us. These inner planets are located between the orbit of the Earth and the Sun. We can look to qualities that are inside us. Venus indicates how we appreciate and measure our experience, how we value life. Mercury tells us something about how our mind works, how we think and communicate -- our intrinsic brightness.

Mercury: The Mind and Communication

Mercury is the light in our eyes, the ever-changing consciousness within us that moves from idea to idea. Thus Mercury has always represented thoughts, ideas, and the mental process in general. It governs not only ideas, but communications, too. Communications -- by phone, letter, spoken, or however -- are ruled by Mercury. Also thoughts, connections, phone wires, and everything that connects and conveys -- even conversations.

Yours is a lightning wit. You somehow know everything about everybody. Curious, you love finding things out -- speculating, investigating. You are clever but not known for your deep thinking, and any and all kinds of communication satisfy. You are always exploring, testing. Debates, games, and puzzles please you. Quick.

Mercury in Gemini

You have a great love of the written and spoken word, and ideas in all their flavors are what you like best to work with. Your enthusiasm for mind, the intellect, and the world of ideas makes it easy for you to communicate these things to others. You would be a good teacher. You have no trouble putting your feelings into words, and what you say always carries a lot of content. You could make a fine entertainer and an excellent speaker.

Mercury Trine Mars

You are a heavy-duty thinker and serious student, always ready to work an idea through, reducing it to what is essential. You enjoy mental effort and discipline, and work long and hard at whatever you put your mind to. You could present or teach religious and philosophical ideas, anything where substance and content are at issue.

Mercury Trine Saturn

You play it pretty straight when it comes to the words and ideas you use. You make a virtue out of plain talk, and tend to avoid jargon and all things new or unusual. You could find that nonconformists, so-called radicals, like to pit themselves against you in conversation and arguments. You do this too often to be a real innocent. Your avoidance of the novel and unorthodox at every turn is itself a bit unusual.

Mercury Opposition Uranus

Venus: Values and Discrimination

Venus rules our values and sense of appreciation. When we appraise or appreciate something, whether that be another person or a new car, this is Venus -- the sense of love and compassion we may feel. By the same token, this planet rules enjoyment too. Whether it be self-appreciation or just plain old decadent self-enjoyment by having a good time, this is Venus. When we go shopping or are on a spending spree, it is Venus that allows us to appreciate and value all the good things of life.

Let's get physical! You love to touch and you can be very possessive. You love food and all the creature comforts. Money and what it buys are very important. You are a gentle lover and like a good home life. You are very loyal, loving, and down-to-earth. You may like gardening and gift-giving.

Venus in Taurus

You like your life regular and find little value in new trends and inventions for their own sake. The same goes for nonconformists and all the other weirdo's that crowd the world. You oppose them, and often deliver your message in person. Arguments on this theme are common. Any sort of change threatens you more than most, and you do all you can to ignore it. Every so often, like those earthquake faults, all hell breaks loose and some of this catches up with you.

Venus Opposition Uranus

The External Planets: Mars, Jupiter, Saturn

The major planets outside the Earth's orbit (external to us) are Mars, Jupiter, and Saturn. These are the planets of the outer world -- life as we find it outside ourselves. Mars tells us something about the drive and energy we have, Jupiter shows us how to best channel that energy, and Saturn decrees what sort of material or territory we will be passing through. Again: Saturn tells us about the territory we will be going through, Jupiter the way or path through it, and Mars what kind of push or drive we can count on to keep going.

Mars: Drive and Emotions

Mars is the planet of emotion and inner motivation or drive. When we search for the meaning of something, life or whatever, it is Mars that urges us on, keeps us searching. Mars also drives us against things, too and sends us into war and combat. The urgency of Mars, the search for meaning, is identical to the need for union, yoga, and marriage. Mars is the planet of union, and marriage is the most common form of yoga. When we have questions about the opposite sex, we are looking at the planet Mars.

You have an inner urge to be all things to all people and would rather bend than argue or make an issue. You are a natural diplomat, always courteous and concerned with the comfort and welfare of others. You stay in the background, but are able to manipulate and bring out cooperation in others every time.

Mars in Libra

Your drive to succeed is strong, but you often push yourself in a direction against your own best interests. Your ambitions may find you at odds with authority figures again and again. A tendency towards arguments and emotional drama exists.

Sun Square Mars

Your own forcefulness and drive can make it difficult for others to offer you nourishment and support. You can be too harsh to allow any real sentiment and feeling to flourish. You tend to ignore personal history and any display of emotions.

Moon Square Mars

Language, sound, "the spoken word" are in focus. The ability to give words meaning or to put ideas into words and give others a feeling for what things mean. Communicating with words. Also a sharp and clear mind. Quick, even clever. Entertaining.

Mercury Trine Mars

You are responsible to the extreme, always taking on obligations and pushing yourself to the limit. You pursue your obligations with much emotion and obvious enthusiasm. You are Spartan when it comes to your needs and surroundings. Small and less are beautiful for you. If anything, you try too hard and tend to force things. Others may find your approach severe and hurtful at times. You can be too sober and frugal.

Mars Conjunction Saturn

Jupiter: Career and Life Path

Jupiter is the planet of success and simple survival, the way we have to solve the problems that confront us. Thus Jupiter has to do with the way in which we can be

successful, our vocation. The Hindu word for Jupiter is Guru. Jupiter is the guru and guide, the way we go through life, our life path or vocation. Jupiter is the method each of us has for dealing with the laws of life, our Saturn, or limitations. Jupiter is the light or path. Jupiter provides us with our sense of direction, the path we are on, the way we handle life. It affects how we approach life's problems. It has always been an indicator of how successful we may be, our vocation.

An in-fighter, with animal-like instincts when it comes to big business, you are always where the action is most intense. Your penetrating mind gets through the B.S. and straight to the bottom line every time. Exciting to be near, you are an entrepreneur, the big wheel. Sometimes restless, driven.

Jupiter in Scorpio

You have a sense of justice and an innate ability to understand the law, whether natural or manmade. Showing others the way through or beyond the problems in their lives comes easy, for you sense how to manipulate the opportunities of life. Lucky.

Sun Trine Jupiter

Like a fish in water when in the limelight or in a group, you have an innate social charm. Political and lucky too! A natural sense of what's right or of the way to get things done brings great popularity, even renown. Law, education. Could be lazy.

Moon Trine Jupiter

You would do well in a career in music, poetry, psychology, philosophy -- the realms of the imagination. You work well in these areas and can help or teach others by sharing your understanding. You can serve as a guide to the nether worlds of the mind and psyche -- religions, mysticism, and so on. Spiritual problems and questions are easy, for you always grasp the unity behind what appears separate.

Jupiter Sextile Neptune

A career in psychology, areas of the mind and self that are vulnerable and sensitive, is indicated. You not only like change and transforming experiences, you pursue them for their own sake. You head straight for whatever challenges your sense of identity and puts you through changes. This life path could also carry you into subjects like reincarnation, psychic experiences, and all that is occult or hidden from common view. You plunge right in, dig through the whole mess, and leave not a secret unturned. Yours is a career deep in change, transformation, and metamorphosis.

Jupiter Conjunction Pluto

Your manner is so facilitating and attractive to others that you would make an excellent counselor or teacher. You find it easy to solve the problems that present themselves, and others benefit from this ability of yours.

Jupiter Sextile Ascendant

Career is very important, and you have superb management abilities. You are expert at manipulating a situation to the benefit of all concerned.

Jupiter Conjunction Midheaven

Saturn: Responsibilities

The process of finding out who we are (self-discovery) starts when we come to grips with whatever problems life presents to us and begin to get a handle on them. In other words, if we have not dealt with Saturn, or time (that is, if we don't have some control of time), there is little opportunity for other questions. Saturn rules the laws and limitations of this material world we all live in. Saturn indicates where we are bound to learn, the narrowness that makes our way felt, the walls that make homes possible. Saturn holds us together as much as apart. Saturn is said to be the great teacher, the planet that keeps us from getting carried away in one direction or another. Although it always seeks to limit and determine any thought, word, or action, it also defines and clarifies. Saturn is called the prince of the material world.

You have difficulty with relationships and are very idealistic when it comes to friends. You are inflexible, seldom compromise, and find it hard to give in where other people are involved. You need to develop diplomacy and patience. Learn to give (as in "give in") rather than oppose. Be flexible.

Saturn in Libra

A real problem-solver, the more tedious the better. Able to reduce any subject matter to the bare bones. Heavy-duty thinker. Could be very serious or philosophical. Enjoy study and thought. Very methodical and practical in approach.

Mercury Trine Saturn

It is easy for you to push too hard and maybe break something. You may have difficulty learning to use force wisely or efficiently. Learning to contain yourself, foot your energy, and build a good engine will be important to your well-being.

Mars Conjunction Saturn

The Outer Planets

In the previous sections, we have dealt with planets that we can see with our naked eyes. In general, these planets refer to life as we know and live it and are the so-called historical or classic planets. Beyond these are three planets that are not visible in the sky and which have cycles longer than the average human life span. Since they are beyond Saturn or time, astrologers call them the trans-personal or transcendental planets -- the planets beyond the physical. One of the ways astrologers learn something about our life beyond time (eternal life) is through these three outer planets: Uranus, Neptune, and Pluto. Here we find information on how we discover ourselves (Uranus), how we understand and accept these discoveries (Neptune), and, in time, how we depend and identify with them (Pluto).

Uranus: Break-Thrus & Insights

Our responsibilities can tend to weigh us down, and we each have our particular ways of getting around (or breaking through) the mass of obstructions that tends to congeal around us. The planet that has to do with how we get beyond the difficulties and problems life presents us is Uranus. Here is the way insights come to us, how we discover or come to know and understand ourselves. It has to do with finding new uses for old things, and it rules inventions and sudden insights into our life -- everything that is

unusual, eccentric, and out of the ordinary. It is the reverse of the status quo and is always unconventional and heretical. Uranus is, in many ways, the opposite, or undoing of Saturn.

You have new philosophies ideas for the future and new approaches to travel and exploration (of all kinds). Long journeys interest you. You may startle others with your direct conversations, always getting right to the nitty-gritty. You enjoy being alone, free, and on the move. The original optimist.

Uranus in Sagittarius

You have trouble coming up with words and ideas that are truly original, but your mind and thoughts are not as conventional as they may appear. Things that are strange, eccentric, and novel seem to challenge you. Result: An overly conservative response.

Mercury Opposition Uranus

You tend not to like things (or people) who are unconventional or different. You appreciate conformity and traditional values, although you may have periods when you break through all this and do the unexpected and let it all hang out.

Venus Opposition Uranus

Neptune: Ideals & Imagination

Even the most hard-nosed of us have moments of real understanding, when things are seen as linked together and one piece. We stop getting the idea in little flashes and just get the whole thing. It dawns on us. We each have our own way of letting go, having communion, and (as the poet wrote) letting "the dewdrop slip into the shining sea." These moments and this state of mind are, in fact, the source for all our imagination. There are many ways of seeing through the separateness in the world to the unity behind it.

Idealism is an innate talent, and you are in love with grand gestures and long thoughts. Religion, politics and philosophy are natural. The world traveler. You enjoy fair, just, frank, and broad-minded persons. You are gregarious and sports-minded. You dare to dream big. You like new philosophies, long novels.

Neptune in Sagittarius

Others may not always support your self-image and your personal ideals. At times, your more romantic and idealistic side may even work against your best interests, resulting in disappointments and disillusion with partners, authorities, and such.

Sun Opposition Neptune

Your hopes and dreams may be maintained at the expense of your emotions and home life. Others may challenge or find themselves opposed to your ideals or the image you project. Your interest in the occult and spiritual may not always find group support.

Moon Opposition Neptune

Prefer the forest to the trees, the common to the uncommon or special. At home in ideas of man's essential unity. Religious and psychological ideas are natural. Will act as a minister to others, like it or not. You can sense and see the unity of life.

Jupiter Sextile Neptune

You work with real imagination and understanding in areas of the mind that are the most personal or private -- depth psychology. You are like a midwife of the spirit,

assisting at the birth of each individual going through a spiritual or re-birth process. You accept the natural process of birth, spiritual and physical, and have dedicated yourself to helping it along. You would make a great teacher in these areas.

Neptune Sextile Pluto

You have a way of entrancing others and bringing them under the spell that you weave so well with your imagination and sense of communion.

Neptune Conjunction Ascendant

Pluto: Inner Change and Growth

Pluto is the planet of profound change, starting deep within us and moving toward the surface. It often touches upon the most sensitive psychological areas inside us. Once touched, we have no choice but to change and grow. The most sensitive of experiences, the times of greatest vulnerability, are times of complete identification with an experience, a person, or a thing. We know in these instants that we are looking at our self, what we are. The most personal of experiences is one of complete identification with a person, moment, or idea. Perhaps this is only possible for most of us when we look into our child's eyes, and then only infrequently. Love is not the experience here, but total identification. This is very sensitive stuff. To touch upon this material is to go through deep inner change and transformation -- inner alchemy. Identification and experiencing that life is our own creation and that, in fact, you are I and I am you. This experience breaks us down and humbles. When we touch upon this experience, we cannot but die to what we have been thinking and doing up to now. It reduces us to our most sensitive because -- in a flash -- we see or remember that it all is us, our life.

Change and inner growth tend to come through relationships, both friends and lovers. Marriage or union (yoga) will be very intense and not at all superficial. You get to the heart of a relationship each and every time.

Pluto in Libra

Innate intensity and seriousness are visible to all. A sense of the eternal aspects of life makes authority and leadership positions natural and unavoidable. A gut sense of how to act in stress situations. Lots of charisma. Power.

Sun Trine Pluto

Your life-course takes you straight through depth psychology, transformation, regeneration, and all that is vulnerable within us. You may function as a guide or teacher in these realms. You work with areas of the human psyche that are too hot to handle.

Jupiter Conjunction Pluto

A searing vision that cuts through what passes for conventional religion. A vision of the endless process of life ever being born afresh. Great acceptance and faith in the natural process and next generation. Love of children and animals.

Neptune Sextile Pluto

You always manage to come across as intense and personal when communicating and presenting yourself to others. Others can be fascinated by the way you come on.

Pluto Sextile Ascendant

Challenges and Abilities

Focus

These are areas of life where we show intense focus and activity. For better or worse, these qualities stand out and are obvious to all those who come to know us. They are very clear parts of our character.

You have a way of entrancing others and bringing them under the spell that you weave so well with your imagination and sense of communion.

Challenges

Life can be challenging, and things are not always easy. The major challenges in a natal chart are where we can expect increased activity and personal involvement -- ready or not. These critical areas of life can be difficult, and the resulting confusion and possible obscuration often makes it hard for us to see and act with normal clarity. Therefore, when it comes to the following factors you may wish to exercise caution and extra patience.

Your interest in relationships, romantic and otherwise, is strong and may sometimes work against your personal needs. You could lose yourself in the social world and neglect your ability to present yourself as a separate, unique individual.

Sun Opposition Ascendant 02°40'

This tendency towards clashes and emotional confrontation does exist, and at these times you can be your own worst enemy.

Sun Square Mars 09°06'

The image you project of what is perfect or ideal from your point of view may find little support at home. Others could oppose or block you in these matters, and maintaining your dreams may be at the price of your friends and surroundings. You may find your background, environment, and all that is traditional less than ideal, even flat and uninspiring.

Talents and Abilities

Despite whatever problems we may have, there are areas of life where we have clear insight and real talent -- natural ability. When it comes to these matters, our judgment is sharp and we always manage to take charge. We have the knack. It may be as simple as the ability to work hard and accomplish things without something going wrong. An innate sense of the workings of these parts of life makes it easy for us to learn and accomplish things where they are concerned.

You have a great love of the written and spoken word, and ideas in all their flavors are what you like best to work with. Your enthusiasm for mind, the intellect, and the world of ideas makes it easy for you to communicate these things to others. You would be a good teacher. You have no trouble putting your feelings into words, and what you say always carries a lot of content. You could make a fine entertainer and an excellent speaker.

Mercury Trine Mars 00°14'

Being successful in life is easy, for you have a built-in sense of how to approach and unravel even the most difficult problems. You have an instinct for justice and the law, and you always know how to approach a problem from just the right angle. This ability makes you a natural counselor or guide for others, in particular regarding vocational matters. Working with and helping older persons is also suggested.

Sun Trine Jupiter 00°23'

You work with real imagination and understanding in areas of the mind that are the most personal or private -- depth psychology. You are like a midwife of the spirit, assisting at the birth of each individual going through a spiritual or re-birth process. You accept the natural process of birth, spiritual and physical, and have dedicated yourself to helping it along. You would make a great teacher in these areas.

Neptune Sextile Pluto 01°23'

You seem to shine when it comes to practical matters or those involving work and career. You have an easy way with superiors or those in authority and can always manage to get the most out of any skill or ability you have. You like work and career.

Sun Trine Midheaven 02°19'

Your career always seems to get the support you need, and this is one area of life that runs smoothly. You seem to understand what the public wants, and mass marketing is a natural for you.

Moon Trine Midheaven 02°32'

Your manner is so facilitating and attractive to others that you would make an excellent counselor or teacher. You find it easy to solve the problems that present themselves, and others benefit from this ability of yours.

Jupiter Sextile Ascendant 03°03'

You always manage to come across as intense and personal when communicating and presenting yourself to others. Others can be fascinated by the way you come on.

Pluto Sextile Ascendant 03°17'

You have a knack for always finding assistance in whatever career moves you decide to make. In fact, your ability to rally support makes a public career of one kind or another quite probable. Success is indicated in education, politics, or the law. You know how to attack and solve problems, whether personal or public. Chances are, your social skills mean that you are popular with almost everyone.

Moon Trine Jupiter 04°28'

You would do well in a career in music, poetry, psychology, philosophy -- the realms of the imagination. You work well in these areas and can help or teach others by sharing your understanding. You can serve as a guide to the nether worlds of the mind and psyche -- religions, mysticism, and so on. Spiritual problems and questions are easy, for you always grasp the unity behind what appears separate.

Jupiter Sextile Neptune 04°57'

You find it easy to work with sensitive material, touching upon the more vulnerable areas of the mind or self. You are able to handle these delicate matters without ever breaking stride, for emotional and tender areas of the human psyche don't phase you. You enjoy getting beneath the surface and have an innate savvy for handling touchy subjects. This is perfect for any research investigation or plain old detective work.

Sun Trine Pluto 05°57'

You are a heavy-duty thinker and serious student, always ready to work an idea through, reducing it to what is essential. You enjoy mental effort and discipline, and work long and hard at whatever you put your mind to. You could present or teach religious and philosophical ideas, anything where substance and content are at issue.

Landscape: Major Life Periods

What follows amounts to a brief overview of the first thirty years or so of your life -- a road map of the years to come. Since childhood, adolescence, and early adult life are so crucial to each of us, an attempt has been made to describe these formative years. Based on the gradual movement of the planet Saturn, this is one of the most tested of all astrological techniques. It is used by almost every professional astrologer as part of any personal consultation. Provided that your time of birth is more or less accurate, you will find this information both accurate and informative. Here is a general life overview, followed by a close-up on your current changes -- what is happening right now. First the overview:

Your Personal Background

A fairly easy childhood up until around the 11-12th year, at which time you will begin to become more subjective and inner-directed. This could mean that your adolescence is somewhat more lonely and less socially oriented than the average. This inner time of exploration lasts until you are about 18-19 years of age. At that time, you will proceed to take hold, discover yourself, and become more outward -- in a rather short time. Your sense of confidence will take hold and build, and the years of introspection will pay off as you begin to reach out. The years from 18 through 25 or 26 will be ones of hard work and continued gains in self-confidence. From the 26th year, your real climb to fame and fortune will commence. Your 30s and 40s will be very good and successful years.

Your Current Situation

Now for a close-up of recent years: while landscape was quite general, the dates given in this close-up should be much more precise. Life is composed of sections of time, each devoted to one kind of activity or another. We go along for a while in one direction until something changes within (or outside) us and we head off in a new course. Some of our earlier activities dry up and new ones spring up in their place. What follows is an analysis of the time period in which you find yourself now. Don't look here for a day-to-day account of life but rather to get a picture of this stretch of time, "these years."

Aug 29, 2002 1st Pass D> (Age 20 2m)
Nov 23, 2002 2nd Pass R< (Age 20 5m)
May 13, 2003 3rd Pass D> (Age 20 10m)

The above dates mark the end of a number of years of hard work on your part, sort of an apprenticeship. Now you will begin to come into your own. Opportunities will present themselves. Now is the time to make that outward push and ride the crest of the wave into fame and fortune. This is the best time you will have (for many years) to make progress, push forward, and rise to prominence. It will be hard for you to do wrong, for all the cycles are working in your favor. This is also a time when you may marry or take on a new role in the community or with other people. You will be in demand, and recognition will be forthcoming. Go for it. These next 6-7 years will find circumstances working to

help you and raise you up, push you forward. In summary, this marks a more outward and enjoyable series of years, during which things will come to you easily. Friends and a social life are in order and, in general, an easy and untroubled life. These are good years to grow up, be social, recognized, and so on.

The Elements, Modalities and Angularity

Elements, modalities, and house quadrants. These are all techniques used by astrologers to gain a general picture of how a person measures up. How do your planets and houses total up? Which do you have in abundance, and which do you lack, if any? Those with high totals show what we can or must do in life. These are qualities we have. However, most people are more interested by what they lack or want -- their lowest totals. They tend to study their "wants," imitate, and even pretend to have them. The old adage is: we become what we want (or lack), while we do what we can (or have to do). Here are your totals:

There is an emphasis on communication, expression of ideas, and the connections between things, places, and people. What goes on in your mind is the all-important motivation in your life. You tend towards mental pursuits and admire intelligence.

Have Air

Common sense and the ability to deal with practical matters may be lacking, and you may wonder at those who spend much time making money, doing life's chores, and attending to basic necessities. You depend on mental activity and confidence.

Want Earth

You are an aggressive prime mover, a starter, able to initiate and get things moving. Not always hot on the follow-up, you may tend to get the ball rolling and get out to move on to other things.

Have Cardinal

Not too centered, perhaps not always able to hang in there for the long haul. You might not make a good linebacker. You may tend to be all over the place rather than front and center.

Want Fixed

Circumstances can throw you into positions where you must use your mind and deal with communications, service, or enclosed hidden interests. You may deal with education, psychology, spiritual enlightenment or teaching principles and techniques.

Have Cadent

You could have difficulty getting outer recognition for your efforts or accomplishments. This doesn't mean they're worthless. It does mean you should throw your efforts into work or ventures you really love doing, not for others.

Your Burn Rate

We all change, but the question is: At what rate? Some of us tear through change after change, one phase following another, year after year, while others move at a more serene pace. Or, one area of our lives may be hectic and forever changing, while other areas are quite tranquil. Why do some people seem to live lifetimes within lifetimes? Here is an analysis of your particular rate of change or "burn rate," including the particular areas of your life (planets) where you can expect continued change and growth. Areas where there is a very low index of change (indicating clear and easy use of the qualities involved) will also be pointed out. If you have sometimes wondered about the areas of your life where the candles burn at both ends, here are the details.

You have a very high burn rate (index of change) and tend to run hot and fast. It is almost like having many lifetimes within this single one. Things are always fast and furious with you, and you seldom remain calm for long. Your thirst for experience and growth keeps you always on the move. You work through an enormous amount of change compared to an average person. In particular, the following qualities are areas where you have experienced and will continue to experience much change. These areas of life persist in presenting themselves to you, so you may already have become very experienced in them. On the other hand, they could be arenas in which you struggle but have not yet attained mastery.

A majority of planets in the PAST suggests that you are comfortable with established values. You know and understand more than you let on, and life changes seldom take you by surprise. You have a great deal of control over your actions.

Planets in High Focus

The mind, and all that is mental, will be the source of continued change and adjustment. Letters, writing, speaking, and all things having to do with communication and cognitive work assume great importance. Your mind tends to be engrossed with thoughts, ideas, and concepts and remains in almost constant flux. Mental learning is an area of preoccupation.

Mercury

Emotional change and growth will be in high focus and amount to a constant in your life. A high burn rate here suggests that feelings, motivation, and sheer drive will be a trademark as well as a source of continual experience and learning. You find yourself in constant change in matters of feelings, and emotional scenes are part of your stock and trade. Experience in these realms will be extensive.

Mars

Questions of attitude, approaches to problem-solving, and the methods for handling authorities and the law are in high focus and are indicated by a high burn rate regarding

your career and making your way through life. Perhaps you will have many jobs or be forever going through changes and adjustments that affect your career. It could be difficult finding lasting success or prosperity, and the path to it may be areas where you have real experience and particular expertise.

Jupiter

There are big changes (high burn rate) throughout your life in matters of organization and responsibility. It may be difficult for you to learn to be thorough, to finish things, and take care of all the loose ends. You may have a lot to learn regarding what is and what is not essential in life -- separating the wheat from the chaff. Getting down to the nitty-gritty, the bare bones of the matter, could well be a major lesson.

Saturn

Your imagination and sense of idealism are near-perfect and true. You are at home in all things mystical or religious, and have this as a natural talent. You have a low burn rate and have clear vision in these realms.

Neptune

You have a high burn rate (go through a lot of changes) when it comes to sensitive, psychological areas of your life or times when you are feeling vulnerable. Direct confrontation tends to put you through a lot. You prefer diplomacy but find yourself in the midst of sticky situations on a regular basis.

Patterns: Your Inner and Outer Self

Here we are examining your basic attitude or approach to life, what is called by some the archetype or soul-type. If you know something about your particular soul-type, this can provide valuable information as to the general direction and purpose of your life. In particular, it is important to note the difference, if any, between our outer personality (the way we appear to others) and our real inner self; how are we, in fact, as people get to know us? Not all people are as they seem.

You are not what you appear to be. Your personality, the way the world sees you, appears more independent and outgoing than is the case when people get to know you. An extroverted manner screens a more inward and quiet-seeking self. In other words, you are much more sensitive and concerned about what others think than meets the eye. Although your outer personality may look tough and self-centered, you are more sensitive to the needs and feelings of others than you let on. Whereas your appearance and personality may bring you unwanted attention, the real you prefers to stay out of the limelight. Appearances aside, let's take a look at the real or inner you.

Geo: Square Helio: Trine

Your Soul Type

You are the eternal patron of just about anyone who will let you look after them -- the original mother hen. You need to feel useful and wanted and are never happy unless you are active and involved. Always the host, you find yourself (in most situations) caring for and taking care of others. In fact, you may tend to worry about others -- making a good impression -- too much. Not content to let others judge you on appearance alone, you would rather be judged by your actions, by what you have done or can do. You are most happy when you can do something for someone and aren't above keeping others in your debt. Your general sense of concern for everything makes you invaluable when anything needs doing and, if left unoccupied, you have been known to even worry for worry's sake. Given only a few facts, you are able to take in a situation and come up with a real picture of what is happening. Never happier than when fully engaged. You will tend to find yourself in responding to others. You can always put your ideas into words and describe or analyze situations for yourself and others. Chances are you will work in one of the many service occupations, taking care of and looking after people. You may feel empty or that there is not much to you, particularly in a group situation where you will not tend to be the center of attention or a great entertainer. Your mind and caring attitude are what others find attractive in you.

You are born to love and care for others and may tend to worry overmuch. Your fear of being left out or not being fully used up in this life can be alleviated by much hard work, by jumping in with both feet and putting your thoughts into action.

Trine Type

The Key to your Personality

Your ambitions and goals are central to your character. Much of your personal life hinges on pursuing your own growth and success. Your very essence and self are most central. Other talents and activities seem to be subservient to these.

Sun

Your idealism and ability to be spellbinding are central to your personality, the way you appear to others. You have an almost other-worldly quality that more or less dominates or coordinates the rest of your character. Your imagination always reaches beyond differences and manages to solve them. At your best you are enchanting, able to point to the unity that binds all things together. At other times, your ability to mesmerize may only fog up the mind.

Neptune

The Personal Hot Spot

You tend to take everything with great intensesness. Your drive to get at the heart and truth of things is constantly invoked, and serves as a common theme in your life.

Pluto

Emotions and drive take the heat as far as being a prime focus for action in your personal sphere.

Mars

Interface: Innermost qualities

This feature is based on an intricate analysis of the position of a particular planet in relation to the orbital planes of the other planets. The resulting series of crossings, or nodes, tells us something about the nature of our innermost inclinations (Inc) and disinclinations (Dis). These indicators are not to be considered at the level of our personality, but rather are deep-seated parts of our innermost character -- our internal biases. These pros and cons are not apt to change in the course of our lifetime.

You don't spend a lot of time thinking out your problems, considering solutions, and the like. Your thoughts are most often elsewhere, and tend to be impractical much of the time. You can't seem to figure out the right course of action. This is most true when it comes to your career or vocation. Not a good counselor yourself, you are well advised to seek the advice of someone you trust when it comes to matters of your career.

Mercury Dis Jupiter

Anyone who tries to get you to play with words is in for a big surprise. Your mind cuts right through all the window dressing and gets right down to the quick. Before anyone knows it, you have the heart of the matter out front for everyone to see. You would make a great investigator, either in scientific research or undercover work. It makes no difference. Your ability to get to the point is all but phenomenal. You can talk and put into words areas of the psychological that others wouldn't touch with a ten-foot pole.

Mercury Inc Pluto

You are a very forceful speaker and communicate with great enthusiasm. Words just flow out and are always followed by an emotional impact that brings them home to your listeners. You have no trouble putting your feelings into words; in fact, you may have to exercise some control over your tongue, for you are quick to say things and everything you communicate packs a wallop. Things you say mean a lot. You have a great mental drive and lavish great energy on mental pursuits of all kinds. Ideas, words, books, and the like are pursued with great gusto.

Mars Inc Mercury

You have the mind of a lawyer, always able to size up a problem and come up with a solution. Using your mind to negotiate obstacles and handle dilemmas (your own or those of others), is a great talent. You have an innate ability to guide and lead others through the hurdles and hassles of life. You could be very much in demand as a counselor. You are a problem-solver.

Jupiter Inc Mercury

Your career is smooth until the question of personal freedom comes up. Successful career moves may demand conformity and cost you personal freedom, perhaps toning down your unconventional habits. You may have to conform and go along in order to get the right job. This is a source of some tension, and your tendency to rebel can get you in hot water every time.

Jupiter Dis Uranus

You have real difficulties when it comes to matters of self-discipline. Your career

suffers due to your lack of training and education. You go against authority, clashing with it rather than finding a way to work with and learn from it. You end up taking an unplanned course of action that lacks any organization and seldom holds up for long. Taking the easy way out can be very painful. You come back to square one again and again.

Jupiter Dis Saturn

Your very organized self tends to hide behind duties and responsibilities. This no-nonsense approach manages to push aside many opportunities for others to reach out to you and get close. You resist getting personal and tend to avoid issues that are touchy and might result in confrontation and change. There could be eruptions that overturn all of the more orderly rituals.

Saturn Dis Pluto

The rebel in you likes to ignore your dreams and ideals and just let come what may. You relish your freedom and independence and pursue it even at the expense of what you know you really want. You can take delight in ruining your own deep-rooted dreams. The romantic in you struggles against the frontier spirit that often moves you to action.

Uranus Dis Neptune

Your tendency to compromise and settle for less than you dreamed can be a problem. Given the opportunity, you may choose the path of least resistance, willing to bypass some of the things you always wanted in favor of expediency. Career moves must be given special attention. Tension results when you ignore your own desires (the things you need and want) and take a course of action, job, career, or whatever that can never satisfy. Or worse, you may find yourself in a job that is compromising.

Neptune Dis Jupiter

There could be a lot of emotional tension with this combination. You tend to set yourself against whatever forces of change manage to rear their heads around you. This is never more true than where your feelings are concerned. Your attempt to remain untouched and impersonal seems doomed to failure. Everything intrudes, gets too personal, and threatens to hurt your feelings. Your insistence on being an emotional island is probably interspersed with bursts of anger, even fits of rage.

Pluto Dis Mars

Your passion for freedom and independence stops short of the personal and private areas of your life. You don't feel so free when things get psychological and analytical. You tend to rebel against all interaction that gets close and personal. Feeling vulnerable or exposed causes you to freak out and break away.

Pluto Dis Uranus

You are unruffled and like things calm and impersonal. Polite, but not too close, and never personal. You don't appreciate displays of emotion, and any attempts at analysis meet with the cold cut-off. It is as if all vulnerable issues do not, and never did, exist. Your surveillance sees to that. However, the stuff of gossip fascinates and calls to you from across the void. You hate it, but you love it. There is a lot of unrest built around this issue.

Pluto Dis Venus

Major Transits Happening Now

Astrologers use the term "transits" to mean the positions of the major planets that are overhead (in the sky) right now and their relationship to our birth chart. Transits are very important indicators of the current situation in which we find ourselves. They can provide insight into what we are now going through. Here are the dates when the next major transits for the planets Jupiter, Saturn, Uranus, Neptune, and Pluto are exact in your chart. Some dates will have already passed and some are still to come. Remember, with these large planets transits don't just happen on the day when they are exact. They cover a wide span of days, weeks, months, and sometimes years, depending on which planet is involved.

In general, transits of Jupiter take from several days to a week or two to complete, while those of Saturn take from two weeks to a month to play themselves out. With the outer planets, the period of activity is even longer: transits of Uranus take about two months, Neptune three or four months, and Pluto takes about a year. Uranus, Neptune, and Pluto move so slowly that the complete transit experience may take a year or two to complete itself. So be prepared to work with these situations.

House Activity and Emphasis

The twelve houses of the horoscope, particularly when they are occupied by a planet, provide a clue to areas of special activity and use. Here is an analysis of house activity based on planet emphasis:

First House: Appearance, Approach

The first house has to do with how we appear or the way we come across, thus our appearance and personality. This is the essential stuff that bubbles up in us spontaneously and that is obvious to others as our trademark or activity. It is what makes us each so personally different. This house rules our personal self and everything about us that draws a reaction from our surroundings or others.

First House

Sagittarius is nothing if not direct, candid, and to the point. Sometimes harsh, this energy always is concerned with the absolute truth of the subject at hand. Associated with philosophy, religion, and all things that last, Sagittarius energy is always welcome in politics as well as social and community endeavors, where its basic fairness and evenhandedness is helpful.

Sagittarius

Second House: Possessions, Reactions

The second house is concerned with how we respond to or field whatever impulses or unique and personal qualities we manifest via our first house. This is how we hold or "have" things (possessions, material goods, money, and the like). The second house always refers to how we secure ourselves, the kind of response we get from life and those around us.

Second House

Aquarius, the sign of humanitarian goals and altruism. Always impartial and nonsectarian, Aquarian energy is communal (even global). The focus is on the goal, and the goal is always one that is for the many and not the few. Thus this sign is connected to far-seeing visions, world views, and group work of all kinds. This sign tends towards coolness, independence.

Aquarius

Third House: Inquiries, Communications

The third house is concerned with explorations, investigations, and inquiry and research of all kinds. It also rules connections, communications, wires, tubes -- anything that we can get through with our body, mind, voice, letters, what-have-you. It is here that we explore and search for the limits of our life, whatever we are working with at the moment. A very mental house, concerned with finding, furthering, peering, and all manner of questioning. Traditionally rules short journeys, siblings.

Third House

Aries is the sign of the pioneer and leader. It is always impulsive, concentrated, and spontaneous. Act first and think about what you have done later. Rushing in where others

fear to tread, the Aries energy is attention-getting. It always provokes a response from the surroundings, from others. There is something essential and instigative that starts or causes something else to happen -- a reaction or response.

Aries

Fourth House: Home, Family, Security

The fourth house is where we send down roots, find our limits, and generally secure ourselves. It is the end of any searching we might have done in the third house. Here we find or end our search, settle down, and manage to get in possession of the whole situation. This is our home and the base from which we can work, feel, and experience. This is the root of our experience, the core or thick of it.

Fourth House

Taurus manages to respond, possess, and "have" just about everything possible. This is a nurturing and fertile sign in that any seed or impulse is cradled, bringing forth growth and development. Taurus is the way we "have" things, how we possess and acquire things. There is something gentle, regular, steadfast, and determined about Taurus. Always accepting, mothering, providing a base for... a matrix or womb where growth takes place.

Taurus

Fifth House: Expression, Creativity

The fifth house has to do with awareness, emotion (to move out), and expression (to press out). Here there is always a growing sense of self-confidence and even a pride of ownership, since we begin to recognize and own our experience. We know that we have had or are having an experience. All forms of expression and offspring are connected to this house -- children, animals, creative expression, and so on. A sense of direction and ownership takes hold at this point in our experience.

Fifth House

Taurus manages to respond, possess, and "have" just about everything possible. This is a nurturing and fertile sign in that any seed or impulse is cradled, bringing forth growth and development. Taurus is the way we "have" things, how we possess and acquire things. There is something gentle, regular, steadfast, and determined about Taurus. Always accepting, mothering, providing a base for... a matrix or womb where growth takes place.

Taurus

You can express feelings and put emotions into words. This could give you a flair for the dramatic, public speaking, poetry, and the arts. You are proud of your mind and enjoy using it, solving puzzles -- any creative mental outlet.

Mercury in Fifth House
