Your Planetary Day

While the calendar we use in the West dates from the 1500s, the seven days of the week have repeated without interruption for over two millennia. From ancient times, each day of the week has been associated with the Sun, Moon or one of the five visible planets. The weekday on which you were born shows where you stand in this ancient seven-fold cycle, and gives you a special link with the quality of its planetary ruler.

You were born on a Sunday.

Sunday is named for the Sun, which is often associated with the hero who sets out on a quest and earns honor and glory. Like the Sun, the solar person stands at the center, radiating energy to those nearby. Of the seven directions of space, the Sun's direction is upward, toward the highest point in the sky. The Sun rules consciousness and illumination, the day-side of life. In the Kabbalah, the Sun is associated with Michael, angel of light. Pride is the weakness of the solar personality; and devotion to the heroic quest its special strength.

In Romance languages, the name for Sunday means “day of the lord,” and indeed the Sun also signifies the god who dies and is reborn, as the Sun is each day. As the unmoving center of the solar system, the Sun is the still point where we encounter the eternal. For the Christians, its day became the Sabbath, the day of rest. “The child that is born on the Sabbath Day / Is brave and bonny and good and gay.” —*Harper's Weekly*, 1887.

About Personal Numerology

The report that follows explores the numerological meaning of your birth date and the full name that was given to you at birth. Its aim is to make you more aware of the tendencies and patterns in your life, so that you can live more consciously, and more fully become the person you were meant to be.

As you read the following pages, remember that they describe pure types for each number. No one, of course, exhibits these character traits in their pure form. Instead, each of us is multi-dimensional, made up of many energy imperatives vying for expression. Some energies harmonize easily, while others are at cross-purposes, causing us to live with contradictions and inner conflicts. Our task is to honor all parts of ourselves and work at bringing our disparate selves into some kind of balance and cooperation. By making us more aware of our inner tendencies, numerology can help us to do this all- important work on ourselves.

In our families and other groups of which we are a part, some behaviors are encouraged and others are discouraged. If who we are wasn't acceptable, we probably contorted ourselves to be what others wanted us to be. If so, we may have become what is called a “turn-type.”

For example, we may negatively manifest a number by expressing its opposite, as when the independent number 1 type becomes extremely dependent. Alternatively, the energy is out of balance and expressed extremely, as when the daring number 1 type becomes foolhardy. Or the energy is not developed enough, so that the number 1 is cowardly instead of courageous.

Because we feel that a certain trait is unacceptable and unworthy of us according to the biases of our family, superiors or peers, we may not be able to relate to it in ourselves. We may then spend many years discovering who we really are apart from other people's expectations of us.

Studies such as numerology can help us find our way out of this maze, orienting us toward our true being and the highest manifestation of what we are. They can give us an objective picture of our strengths and weaknesses, show us our place in the larger scheme of things, and help us find the hidden gold in our characters, which we may not have even suspected that we had.

How Numerology Works. Through the use of ancient principles, numerology can derive a world of meaning from your birthdate and birth name. In the course of your life other numbers may become important for you, and you will probably acquire other names, but, like your astrological birth chart, the numerological vibrations at the very beginning of your life set the tone for all that follows.

To find the meaning inherent in your day, month and year of birth, numerologists add the digits in various ways. Most totals turn out to be more than one digit. They therefore reduce them to a single digit by adding the digits together. Whenever a total turns out to be a master number like 11 or 22, however, it is left as-is. These doubled numbers have a special significance, and are given special interpretations.

To find the numerological meaning of your name, numerology assigns a number to each letter of the alphabet. In the Pythagorean system used in this report, A = 1, B = 2, and so on through the first nine letters, and then we repeat the cycle through the rest of the alphabet. We then total the numbers corresponding to the vowels, the numbers corresponding to the consonants, and the numbers corresponding to all the letters to determine specific things about your character.

Each digit from 1 to 9 represents a specific stage in a cycle and has its own set of associations. In general, the odd numbers are considered introverted, in the sense of being primarily focused on inner life. The even numbers tend toward extroversion: that is, being primarily focused on outer activities. The numbers 1, 6, and 22, however, are considered dual in nature.

This said, let us now look first at your basic character and the major themes in your life.

Your Life Path

The total of the day, month and year of your birth is called by numerologists the Life Path, Life Lesson, Birth Path, Birth Force or, sometimes, the Destiny number. This number is chosen by nature rather than by you or your parents, and it reflects the season and historical era of your birth. As its names suggest, it shows your mission in life, your life work and what the universe intends for you. It shows the opportunities you must seize in order to make the most of your potential. Following the life path that has been given to you will enable you to avoid continual discord and frustration, and to unfold in the way that is best for your nature. When you find your true place in the world, you will feel at home.

Your birthdate total is 8.

Your Life Path of 8 means that you are destined for success in the commercial world, and you've only to work hard and be profit oriented for that success to be assured. You are the born executive, the one who attracts power, has vision, and is able to manipulate people and things for maximum return. You will go far if you learn how to use situations to your own advantage and to cultivate influential and powerful allies in high places.

Numerology based on your name: MARTHA KOSTYRA

What Motivates You in Life

We now move on to the name that you were given at birth. We first look at the total of the vowels in your full birth name, because this shows the emotional force that drives all that you do. Variously known as the Motivation, Soul Urge, Heart's Desire, or Inner Self number, the vowel total shows what you want out of life. Along with the Impression and Expression numbers that will be discussed below, it is a basic component of your character.

The vowel total in your name is 7.

With 7 as a Motivation number, you have a need to live in a peaceful and quiet world where there is time for meditation and study. You can be something of a loner and have a great need for privacy. Though you are not one to show your emotions, you are, in fact, a very sensitive and feeling person. You value quality, can be a perfectionist, and have an intellectual and analytical approach to life. Rather than being a go-getter, you prefer to let opportunities come to you.

Colors and gems have number vibrations, too. Your Motivation color is violet, and your Motivation gems are the aquamarine and amethyst. Wear these when you want to relax and restore your energies.

More about Your Emotions and Motivations

The first vowel in your first name augments or mitigates the force of the vowel total, and gives additional information about your emotional nature and underlying motivations in life. It manifests differently depending on whether the vowel sound is long or short. The long vowel gives a more direct and forthright expression, while the expression of the short vowel is more muted.

The first vowel in your name is A.

“A” feels courageous and daring, and gives you the soul of a warrior. Often you do not look before you leap, impulsively getting yourself into more hot water than you’d like. But you have the dash and flair to extricate yourself no matter what. You like to be on the front line, and are not afraid to go out on a limb for your beliefs. Preferring to be the one in control, you do not take well to authority. You want to call the shots and go it alone, because you are often too impatient to wait for others.

The Impression You Give to Others

The total of the consonants in your name is known as the Impression, Personality, Outer Self or Adapted Self number. As its names suggest, this number signifies your persona, the face you show to the world. It shows the vibrations that you project, how others see you, and the kind of impression that you make on those around you. This has its origin in your illusions and fantasies, the world you create for yourself in daydreams. Given enough energy, your fantasies become reality, because you tend to become who you think you are.

Your consonant total is 1.

Having the Impression number 1, you dream of being a pioneer for mankind: an original, daring trendsetter who is strongly individual. As the number 1 represents ego and self-realization, you see yourself as forceful and effective in obtaining what others can’t even see. You want always to be first and best, and for others to be in awe of your abilities and accomplishments. Most of all, you always want to feel that *you* are in control.

Your Impression color is red, and your Impression gem is the ruby. Wear these when you want to be sociable and enjoy the company of others.

The Way You Express Yourself

The total of all the letters in your full name is variously called the Expression, Mission or Life Purpose number. Composed of both the vowels and the consonants, it represents the blending of your inner and outer selves. It thus shows the natural expression of your goals and desires: what you do best, and, by extension, your talents and career potential. It also indicates how you deal with the outside world: your style of solving problems, getting things done, and negotiating with others to attain what you would consider success.

Your name total is 8.

The Expression number 8 makes you the business leader, the organizer and the practical achiever. You get what you want through resolve and stamina. You have an air of authority that instills confidence, and your innate business sense attracts success. You're quick to seize opportunity and enlist others to help you. Power comes easily to you, and it is sometimes hard for you to relinquish your natural tendency to dominate.

When you want to be businesslike, try wearing try wearing rose as your Expression color and the diamond as your Expression gem.

Careers Offering the Best Self-Expression

With 8 as your Expression number, consider these kinds of jobs:

The Boss: bank director, manufacturer, military officer, head of a public institution, publishing executive, corporation head, real estate developer, developer of chain stores or franchises, contractor, financier, judge, buyer, office manager, coach.

On Stage: public official, orchestra leader, promoter.

Service: banker, cashier, broker, compiler, engineer, shipper, corporation or tax lawyer, purchasing agent, insurance agent, business consultant, investment advisor, office worker at a credit or loan company or stock brokerage.

Just You: statistician, critic, business analyst.

Best Bet: any job dealing with money, big business or power.

The Power You Can Achieve in Maturity

The total of the day, month and year of your birth and your full name at birth is known variously as the Power, Maturity, Reality, Real Self, Final Opportunity, Destiny or Goal Power number. A summation of both your name and your birthdate, this number shows how the two principal streams of energy converge to fulfill the purposes of your true self. The Power number is of great significance because it gives a clue as to what your ultimate life purpose might be.

This vibration usually becomes manifest only in the later part of your life. In the first half of life it tends to exist only as a potential. In these earlier years you live through many experiences that temper and define your character and aptitudes. Not until the age of 35 or 40 do most people live through enough life events to find their life purpose and develop it to the point where it becomes their main focus and direction. It is then that fulfillment comes. But this is usually achieved only after many false starts, and years of struggling to gain self-knowledge.

Finding your right place in life is gratifying. If you have not pushed through to this achievement, you can be dissatisfied and unhappy. You may feel at loose ends, without direction, rudderless and ill at ease. But if you have lived your life in accord with the purpose that was meant to be fulfilled in this life, you will find contentment and peace of mind.

What follows is the mature expression of your Power number. Mature development is not about living out someone else's idea of what you should be. It has more to do with honoring your own way of being in the world and moving from your own center. It is about trusting the process of unfoldment that exists within each of us and making this your guiding principle.

The total of your name and birthdate is 7.

Seven is the archetype of the Seeker, and a Power number of 7 signifies a life in pursuit of knowledge and perfection. Sevens have a burning desire to know, and so they question, analyze, probe, explore and examine every detail of whatever stimulates their curiosity. Bright and intelligent, they have penetrating minds that miss nothing. They tend to be quiet and are often thought to be rather antisocial and unfriendly, but this is a misunderstanding. Outside pressures interfere with the imperative of this number. Sevens are introverts who require massive amounts of time alone for study and reflection. They must have solitude to think things through with the depth that naturally comes to them

In the company of others, sevens are poised, refined, philosophical and reserved. Their rich inner life fascinates them far more than what is going on in the world around them. They attract situations that stimulate their investigative and analytical abilities, and it is their insights that are their gift to the world.

Tarot Key 7: The Chariot

To gain further insights about your Power number, it can help to look at the Tarot trump that corresponds to it. In your case, this is the card called the Chariot. The charioteer, dressed as a military leader, sets out on a journey with vigor and confidence, drawn forward by sphinxes. Emotions, the motivating force, are harnessed so that the Chariot can move forward. One sphinx is black, the other, white, signifying that motion comes about through the interaction of opposites. At the end of the road will be insights, and possibly invention, in far-ranging areas of the mind such as science, philosophy or the occult.

Your Karmic Lessons

Karma numbers are digits that are completely missing in the letters of your name as given at birth. Most people have one or more Karma numbers. These missing digits serve as a guide to the areas of your life and personality that may be lacking. Such areas will benefit from special attention. If you ignore these blind spots, life can have a painful way of making you notice them. This, however, can eventually spur you forward on the path to wisdom. When you develop yourself in these areas, you will feel much more whole and complete.

The number 3 is missing in your name.

With a 3 Karma number, you may lack self-confidence and have problems expressing yourself. Contact with the public can help you to overcome your inhibitions.

The number 5 is missing in your name.

With a 5 Karma number, you may fear change in your own life and may thus tend to lack compassion for others who are caught up in devastating changes. A life of wide experience will give you better understanding. As you are presented with life's challenges, you will find your own power to weather change. Then you will no longer fear it, and you will be able to help others face change in their own lives. This Karma number also reminds you to work on controlling your appetites.

Your Subconscious Response

Your Subconscious Response is related to how many Karma numbers you have. It shows the way you tend to react in emergencies, when you have no time to consult your intellect.

Your Subconscious Response number is 7.

When the going gets rough, you tend to become very analytical and may seem detached and unemotional. You are likely to suffer in silence. During these times you do best when you pray or meditate. Your tendency not to get personally involved may be appropriate in some situations, but not when other people are in great need.

Your Youth, Maturity and Later Years

So far, we've discussed the number vibrations that stay with you throughout your life. Now we move on to the three major periods of your life as shown by your Life Cycle numbers. These are derived from reducing the digits in your month, day and year of birth. The sum of the month digits describes the first period; the day, the second period; and the year, the third period.

Your First Life Cycle starts at birth and lasts until age 29. Its number is 8.

The 8 vibration is a great deal of power for youth to handle. You will be drawn to mastering the material aspects of life early, leading and directing others and possibly amassing a certain amount of power and money at an early age. Because you may not yet have had the chance to develop empathy, when pursuing your own goals you may tend to disregard the rights and feelings of others. Lacking life experience, you may need guidance in order to develop good judgment, especially about money.

During the First Life Cycle, your Life Path number and your First Minor Challenge number are also especially important influences.

Your Second Life Cycle starts at age 29 and lasts until age 56. Its number is 3.

This middle period of your life is a time for love, friendship, beauty and creativity. It will be happiest revolving around social contacts and your own self-realization and expression through art, music or words. You are also able to sell anything during this time, and would do well to find work that brings you in contact with the public.

During this Life Cycle or the next, your Power number generally begins to manifest.

Your Third Life Cycle starts at age 56 and lasts until death. Its number is 6.

Your final life cycle will be concentrated around the home, so it's best to prepare the way by building a solid life around family and friends. You're promised lots of companionship and the security of the comfortable and familiar. It's a mellow, comfortable way to spend your golden years.

Major Decision or Turning Points in Your Life

Your Turning Points or Pinnacles are also derived from your full birthdate. Each of them defines a period in your life and the special issues that you will face during that period. As their name suggests, Turning Points show points of choice where you need to make decisions. Besides showing the issues at stake, the Turning Point number indicates the choice that will be best for you. Turning Points are like tests that you must pass before proceeding forward. The happiness that you feel in a given Turning Point period depends on the choices you've made and the skills you've developed when faced with the previous Turning Point.

***Your First Turning Point starts at birth and lasts until age 34.
Its number is 11/2.***

Having the very high 11 vibration as a youthful Turning Point gives you the chance to achieve public notice early in life. Much can be expected of you, so that you may need to deal with nervous tension during these years. Your task is to take the insights, inspiration and possibly inventive genius that are now given to you, and turn them toward bettering the lot of others.

With 2 as the lower-level vibration during this period, you may also be asked to learn to work constructively as a team member, and to learn how to be the tactful diplomat and peacemaker.

***Your Second Turning Point starts at age 35 and lasts until age 44.
Its number is 9.***

In the next nine years of your life you will be called to seek out ways serving the world and your fellow human beings. This could be brought on by personal losses that stimulate you to seek higher forms of happiness than mere ego gratification. This is an ideal time to develop compassion and to learn to sustain yourself with an appreciation of all the beauty in your life.

***Your Third Turning Point starts at age 45 and lasts until age 54.
Its number is 2.***

This 2 vibration in the prime of your life enables you to work out your destiny through partnership in either marriage or business. Your inclination may be to give way to your partner's needs and demands, but this is not the way to master this vibration. The real lesson of a partnership is to find a balance between equals. This means not just learning how to love, but also how to fight, or some gentler way getting your own needs met as well as those of your partner.

***Your Fourth Turning Point starts at age 55 and lasts until death.
Its number is 5.***

In the last period of your life, a 5 vibration calls you to overturn your old routines and renew yourself with travel, new ideas, and possibly even a new lifestyle. Your choice to do something a bit risky will keep you feeling remarkably young for your years. If you go rigid and try to barricade yourself safely away from the possibility of change, it can have a nasty way of seeking you out anyway. It's best to hang loose and roll with it if it comes. Your life will be so much more interesting that way.

The Challenges You Will Meet

Everyone is born with special lessons to be learned. Again, your full birth date has inherent in it two Minor Challenges that are usually presented to you earlier in life, and a Major Challenge that is lifelong but which you will probably get to master only later in life.

Challenges may at first present themselves to you as external obstacles to your progress, but they arise from the deficiencies that you are born with, parts that are lacking or underdeveloped. Once you can determine exactly what the weak link is, you can make a conscious effort to strengthen that trait within yourself. This takes willpower and may sometimes feel as if you are going against the grain, but it pays off abundantly in terms of progress and success in life. As you tackle each challenge, your fears are pushed back, your scope enlarges, and you feel more comfortable in the world.

Your First Minor Challenge number is 5.

The First Minor Challenge usually crops up early in life. When its number is 5, you need to learn the correct use of freedom. When you are young, your main challenge may be to overcome an appetite for the exciting and dangerous, and learn to be enterprising and adventurous without putting yourself and others at risk. Restless and wild, you may need to learn to settle down and apply yourself. Alternatively, life may present you with great, disrupting changes, and you may need to relax your white-knuckled grip and learn to ride the waves gracefully. Once learned, this is a rare skill that will enable you to project a vibrant energy that enhances the world around you.

Your Second Minor Challenge number is 3.

The Second Minor Challenge is about aspects of your character that you need to work on during your Second Life Cycle, from about ages 35 to 62. With a Challenge of 3, your task is to channel your energies so that you can truly express yourself. You may need to learn not to scatter your attention and squander your time and energy. You may need either to avoid being a chatterbox, or to come out of your shell and not be daunted by criticism. When you find your stride, life will feel like a dance, and your self-expression will be natural and unimpeded.

Your Major Challenge number is 2.

You face your Major Challenge throughout life. Most likely, however, you will find yourself needing to do the most work on it during your Third Life Cycle, after the lesser challenges have been met. With a Challenge number of 2, the thing to master is cooperating with others without either leaning on them or trying to dominate the situation. Balance is the watchword here. Also, when you find yourself hurt or slighted, you will be much happier when you learn not to take it personally.

Your Best Activities for the Year

Your Personal Year number combines your birth month and day with the current year. Personal Year numbers go in a recurring nine-year cycle of development. Each time you go around the cycle you have a chance to do things with added wisdom and skill. Keeping your activities in tune with your current year vibration can make your existence more harmonious and keep your unfoldment upon its intended track.

Some numerologists believe that the new personal year number begins on January 1st of the new year. Others believe that it doesn't change until your birthday on that year, so that up until your birthday you would be using the personal year number for the preceding calendar year.

Your Personal Year number beginning on Jan 1 2005 is 18/9

In a 9 Personal Year, the cycle of Personal Years comes to an end. This is a year to harvest the remaining crop before it rots, time to tie up all the old cycle's loose ends. So clear the decks and weed the garden. Whatever you have put off, you need to finish it now. Next year you'll be starting a new cycle, and you don't want the detritus of the old cycle to impede your progress. Like the 5 Personal Year, this is a pivotal time, one that is appropriate for change. Now you can reinvent yourself, lose weight, toss out old stuff, and get rid of old habits. As people and things fall away because they are no longer appropriate, you may experience this as a year of loss. Say a graceful good-bye, and open yourself to the new cycle to come.

Your Personal Year number beginning on Jan 1 2006 is 19/1

A 1 Personal Year begins a new cycle. This is a time to make a fresh start, a time to plant seeds that will mature in the next nine years. In this opening phase of a new cycle you should make a special effort to maintain your independence and individuality, make your own decisions, and rely on your own abilities and instincts. Stay at the forefront, and do not take a back seat to anyone. This is the year to focus on *your* ideas, *your* needs, and the fulfillment of *your* dreams. Once you get your own thing going, you will be better able to relate to another person in the next stage of the cycle. So for now, exercise your own creative powers as fully as possible, and use all that fresh new energy to plunge ahead into new areas that you can develop more fully later. In all things this, year, Initiate.

Where Do We Go from Here?

If this report has aroused your curiosity and you want to learn more, you may find that exploring your numbers with a deck of Tarot cards is an excellent means for further self- reflection.

Suppose that your birth date were August 19, 1962. The Tarot trump that you would look at for the month would be 8 (Strength, or in some decks, Justice). For the day, you would look at 19 (the Sun), $1+9=10$ (the Wheel of Fortune), and, reducing it even further, $1+0=1$ (the Magician). For the year, you would look at $1+9+6+2=18$ (the Moon), and possibly also $1+8=9$ (the Hermit).

These cards would have something to say about you and how you express these traits as you follow your destiny. Our example birth date would have the Sun in Leo, and trump 19, the Sun, would reinforce the Leo symbolism. You could see that the person is a hard worker (8) with a sunny disposition (19) who is aware of the changes in fortune that life can bring (10). Extremely creative (1), he is also a sensitive, caring person who is tuned in to other people's feelings (18).

It is instructive to buy a Tarot deck, put one of your cards up for a few days, and mull over the symbolism. Remember that there are no truly negative numbers or cards. All participate in the experiences of the soul as it passes through life.

Even trump 15, the Devil, has its place. Everyone has traits that create stumbling blocks or weaknesses. When we work to overcome these we achieve maturity and become more sympathetic to the weaknesses that we see in others. This may be an important focus for a soul with the number 15 prominent.

Also, trump 13, the so-called Death card, is often misunderstood. Remember that in the cycle of seasons the leaves fall and winter comes, but this death is only the precursor of the life that bursts forth in the spring. Life is not all white light and bubbles. There are dark clouds of pain and frustration as well. It's all part of the cycle.

Whatever you find your numbers to be, remember that nobody has it all down pat. We all have plenty to learn. We do have a choice, however. We can, if we wish, fight against our destiny or try to ignore it. Or we can, as the great psychoanalyst C.G. Jung put it, "do willingly what we must do by necessity." Viewing ourselves through the lens of studies such as numerology, the Tarot and astrology, we gain a clearer picture of what our own necessity is, and can then travel more consciously on our life's intended path.
