## ***Your Planetary Day***

*While the calendar we use in the West dates from the 1500s, the seven days of the week have repeated without interruption for over two millennia. From ancient times, each day of the week has been associated with the Sun, Moon or one of the five visible planets. The weekday on which you were born shows where you stand in this ancient seven-fold cycle, and gives you a special link with the quality of its planetary ruler.*

### **You were born on a Wednesday.**

This is the day of Mercury, well known as the messenger of the gods and ruler of intelligence, communication, transportation and commerce. Mercury also rules mediumship, magic and the mantic arts, and was the guider of souls in the underworld. In English, Wednesday is named after the great Norse god Woden, who much like Mercury was associated with writing, wisdom, poetry, and also with prophecy, magic, shape-shifting and disguise. Dual in nature, Mercury rules trickery as well as truth, and is as hard to pin down as his metal, quicksilver. The German name for Wednesday means simply mid-week, and of the seven directions of space, Mercury signifies the middle. In the Kabbalah, Mercury is associated with Raphael, the civilizing angel. “Wednesday’s child is full of woe.” — *Harper’s Weekly*, 1887.

## ***About Personal Numerology***

*The report that follows explores the numerological meaning of your birth date and the full name that was given to you at birth. Its aim is to make you more aware of the tendencies and patterns in your life, so that you can live more consciously, and more fully become the person you were meant to be.*

*As you read the following pages, remember that they describe pure types for each number. No one, of course, exhibits these character traits in their pure form. Instead, each of us is multi-dimensional, made up of many energy imperatives vying for expression. Some energies harmonize easily, while others are at cross-purposes, causing us to live with contradictions and inner conflicts. Our task is to honor all parts of ourselves and work at bringing our disparate selves into some kind of balance and cooperation. By making us more aware of our inner tendencies, numerology can help us to do this all-important work on ourselves.*

*In our families and other groups of which we are a part, some behaviors are encouraged and others are discouraged. If who we are wasn’t acceptable, we probably contorted ourselves to be what others wanted us to be. If so, we may have become what is called a “turn-type.”*

*For example, we may negatively manifest a number by expressing its opposite, as when the independent number 1 type becomes extremely dependent. Alternatively, the energy is out of balance and expressed extremely, as when the daring number 1 type becomes foolhardy. Or the energy is not developed enough, so that the number 1 is cowardly instead of courageous.*

*Because we feel that a certain trait is unacceptable and unworthy of us according to the biases of our family, superiors or peers, we may not be able to relate to it in ourselves. We may then spend many years discovering who we really are apart from other people's expectations of us.*

*Studies such as numerology can help us find our way out of this maze, orienting us toward our true being and the highest manifestation of what we are. They can give us an objective picture of our strengths and weaknesses, show us our place in the larger scheme of things, and help us find the hidden gold in our characters, which we may not have even suspected that we had.*

**How Numerology Works.** *Through the use of ancient principles, numerology can derive a world of meaning from your birthdate and birth name. In the course of your life other numbers may become important for you, and you will probably acquire other names, but, like your astrological birth chart, the numerological vibrations at the very beginning of your life set the tone for all that follows.*

*To find the meaning inherent in your day, month and year of birth, numerologists add the digits in various ways. Most totals turn out to be more than one digit. They therefore reduce them to a single digit by adding the digits together. Whenever a total turns out to be a master number like 11 or 22, however, it is left as-is. These doubled numbers have a special significance, and are given special interpretations.*

*To find the numerological meaning of your name, numerology assigns a number to each letter of the alphabet. In the Pythagorean system used in this report, A = 1, B = 2, and so on through the first nine letters, and then we repeat the cycle through the rest of the alphabet. We then total the numbers corresponding to the vowels, the numbers corresponding to the consonants, and the numbers corresponding to all the letters to determine specific things about your character.*

*Each digit from 1 to 9 represents a specific stage in a cycle and has its own set of associations. In general, the odd numbers are considered introverted, in the sense of being primarily focused on inner life. The even numbers tend toward extroversion: that is, being primarily focused on outer activities. The numbers 1, 6, and 22, however, are considered dual in nature.*

*This said, let us now look first at your basic character and the major themes in your life.*

## ***Your Life Path***

*The total of the day, month and year of your birth is called by numerologists the Life Path, Life Lesson, Birth Path, Birth Force or, sometimes, the Destiny number. This number is chosen by nature rather than by you or your parents, and it reflects the season and historical era of your birth. As its names suggest, it shows your mission in life, your life work and what the universe intends for you. It shows the opportunities you must seize in order to make the most of your potential. Following the life path that has been given to you will enable you to avoid continual discord and frustration, and to unfold in the way that is best for your nature. When you find your true place in the world, you will feel at home.*

## **Your birthdate total is 1.**

With a Life Path of 1, you have a destiny to stand on your own, to believe in yourself, your own ideas and your own potential. Yours will be the life of the leader and the pioneer. Being a unique individual, you can follow your own path and live free from many of the rules that govern others. You may, however, have to fight to live the way you want and to accomplish what you want to do. Nevertheless, you must not conform or give up your goals.

## ***Numerology based on your name: HALLE MARIA BERRY***

### ***What Motivates You in Life***

*We now move on to the name that you were given at birth. We first look at the total of the vowels in your full birth name, because this shows the emotional force that drives all that you do. Variously known as the Motivation, Soul Urge, Heart's Desire, or Inner Self number, the vowel total shows what you want out of life. Along with the Impression and Expression numbers that will be discussed below, it is a basic component of your character.*

### **The vowel total in your name is 11/2.**

As a Motivation number, the master number 11 indicates the potential for creative genius. You could be a special person possessing great vision and ideals, one who sees beyond ordinary horizons. You tend to be the dreamer who envisions a better world, but who can have difficulties adjusting to the realities of this one. To see your ideas take form, you need to work at developing the practical side of your nature. It helps to have a strong, down-to-earth partner who understands your most special spirit and who can help you to accomplish your goals.

As a master number, 11 is too high and potent a vibration to be used continuously. You will find that it is, in fact, a 2 vibration that motivates you in daily life. At the 2 level, you desire much love and understanding, and are at your best when following another person's ideas or direction within a marriage or other type of partnership. Highly motivated to cooperate with others, you enjoy sharing. Your life centers around a harmonious and peaceful existence, a life that is comfortable, but where the material aspects take second place to human and social values.

Colors, gems and metals have number vibrations, too. When you're feeling the inspiration of your 11 vibration and wish to relax and be at peace with yourself, wear the color silver or the metal platinum. When you're feeling the more human 2 vibration and want to relax, you should wear orange as a color and the moonstone as a gem.

### ***More about Your Emotions and Motivations***

*The first vowel in your first name augments or mitigates the force of the vowel total, and gives additional information about your emotional nature and underlying motivations in life. It manifests differently depending on whether the vowel sound is long or short. The long vowel gives a more direct and forthright expression, while the expression of the short vowel is more muted.*

## **The first vowel in your name is A.**

“A” feels courageous and daring, and gives you the soul of a warrior. Often you do not look before you leap, impulsively getting yourself into more hot water than you’d like. But you have the dash and flair to extricate yourself no matter what. You like to be on the front line, and are not afraid to go out on a limb for your beliefs. Preferring to be the one in control, you do not take well to authority. You want to call the shots and go it alone, because you are often too impatient to wait for others.

## ***The Impression You Give to Others***

*The total of the consonants in your name is known as the Impression, Personality, Outer Self or Adapted Self number. As its names suggest, this number signifies your persona, the face you show to the world. It shows the vibrations that you project, how others see you, and the kind of impression that you make on those around you. This has its origin in your illusions and fantasies, the world you create for yourself in daydreams. Given enough energy, your fantasies become reality, because you tend to become who you think you are.*

## **Your consonant total is 11/2.**

Your Impression number is the master number 11. In your loftier moments you dream of creating a new way of life, one that is revolutionary and avant-garde. You see yourself as an extraordinary person who has visions that others can’t comprehend. By nature, you are high-strung and nervous, but are dramatic and can be quite brilliant. Your ideas could indeed change the world, and your secret longing for fame could motivate you to put your visionary abilities into action.

In your more modest moments, you project your reduced impression number of 2. At these times you may see yourself as part of a couple, someone who is both loving and loved. You view yourself as patient and understanding, a sensitive person who can supply everyone’s emotional needs. You may dream of an idyllic life where you are surrounded by those who love and need you, where all is peaceful and harmonious, where the mundane cares of the world are far away, and all basic needs are magically supplied.

When you are feeling your 11 vibration, your Impression color is silver, and your metal is platinum. On the 2 level, your Impression color is orange, and your gem is the moonstone. Wear these colors and gems when you want to be sociable and enjoy the company of others.

## ***The Way You Express Yourself***

*The total of all the letters in your full name is variously called the Expression, Mission or Life Purpose number. Composed of both the vowels and the consonants, it represents the blending of your inner and outer selves. It thus shows the natural expression of your goals and desires: what you do best, and, by extension, your talents and career potential. It also indicates how you deal with the outside world: your style of solving problems, getting things done, and negotiating with others to attain what you would consider success.*

## **Your name total is 4.**

The Expression number 4 makes you tend to be the workhorse who loves to organize things, devise systems, and make sure that everything has its place. You are especially good with your hands, and feel most comfortable in the material world where you can see the tangible result of your efforts. Not one for flash, you prefer to dress in good taste and in the best quality. Basically conservative, you are loyal and responsible, but can be rather too cautious at times.

When you want to be businesslike, try wearing green as your Expression color and the emerald as your Expression gem.

## ***Careers Offering the Best Self-Expression***

With 4 as your Expression number, consider these kinds of jobs:

**The Boss:** executive, banker, contractor, military officer, buyer, manufacturer of quality items.

**On Stage:** musician.

**Service:** doctor, real estate agent, ecologist, engineer, fireman, policeman, military person, inspector, office worker, secretary, cashier, postal worker, factory employee, waitperson, service station attendant.

**Just You:** accountant, economist, technical writer, architect, proofreader.

**Hands-On:** dentist, surgeon, sculptor, electrician, mechanic, printer, typesetter, plumber, tailor, watch repairer, engraver, draftsman, landscaper, farmer, skilled laborer.

**Best Bet:** Any job where you can see tangible results for your efforts.

## ***The Power You Can Achieve in Maturity***

*The total of the day, month and year of your birth and your full name at birth is known variously as the Power, Maturity, Reality, Real Self, Final Opportunity, Destiny or Goal Power number. A summation of both your name and your birthdate, this number shows how the two principal streams of energy converge to fulfill the purposes of your true self. The Power number is of great significance because it gives a clue as to what your ultimate life purpose might be.*

*This vibration usually becomes manifest only in the later part of your life. In the first half of life it tends to exist only as a potential. In these earlier years you live through many experiences that temper and define your character and aptitudes. Not until the age of 35 or 40 do most people live through enough life events to find their life purpose and develop it to the point where it becomes their main focus and direction. It is then that fulfillment comes. But this is usually achieved only after many false starts, and years of struggling to gain self-knowledge.*

*Finding your right place in life is gratifying. If you have not pushed through to this achievement, you can be dissatisfied and unhappy. You may feel at loose ends, without direction, rudderless and ill at ease. But if you have lived your life in accord with the purpose that was meant to be fulfilled in this life, you will find contentment and peace of mind.*

*What follows is the mature expression of your Power number. Mature development is not about living out someone else's idea of what you should be. It has more to do with honoring your own way of being in the world and moving from your own center. It is about trusting the process of unfoldment that exists within each of us and making this your guiding principle.*

### **The total of your name and birthdate is 5.**

A Power number of 5 signifies a life of freedom, variety and change. Fives attract situations that demand versatility and adaptability. Always open to new experiences, they seek out the curious and the unusual, and are constantly on the lookout for new fields to explore and new roads to travel. In some way embodying the archetype of the Trickster, they are unconventional, unpredictable, full of surprises, and excel at doing the unexpected. Not ones to tarry long, they tend toward impulsivity and depart in a flash if their interest is diverted elsewhere. Adventurous, enterprising and resourceful, they continually enliven their environment with energy and enthusiasm.

Fives are sociable and get on well with all kinds of people. Talking is one of their favorite activities. People interest them immensely, and they will spend hours chatting with strangers and friends alike.

As clever as they are with words, fives are also clever with their hands. They make excellent craftsmen, are known for their versatility, and are often amazingly dexterous, dazzling others with their creative handiwork.

## **Tarot Key 5: The Hierophant**

To gain further insights about your Power number, it can help to look at the Tarot trump that corresponds to it. In your case, this is the Hierophant. Called the Pope in some decks, he wears a triple crown, which in metaphysical language represents the integration of body, mind, and spirit. This integration creates a deep faith in life, and an energetic desire to experience life to its fullest. The Hierophant is versatile, a generalist who can see many facets of life. This can lead to brilliant ideas and new interpretations. People on this vibration deal with people well, and, like the Pope, may have a sizable flock.

### ***Your Karmic Lessons***

*Karma numbers are digits that are completely missing in the letters of your name as given at birth. Most people have one or more Karma numbers. These missing digits serve as a guide to the areas of your life and personality that may be lacking. Such areas will benefit from special attention. If you ignore these blind spots, life can have a painful way of making you notice them. This, however, can eventually spur you forward on the path to wisdom. When you develop yourself in these areas, you will feel much more whole and complete.*

### **The number 6 is missing in your name.**

Having 6 as a Karma number points to a need to work on your relationships. You may find others depending on you. This can force you to learn the value of family and other close ties.

### ***Your Subconscious Response***

*Your Subconscious Response is related to how many Karma numbers you have. It shows the way you tend to react in emergencies, when you have no time to consult your intellect.*

### **Your Subconscious Response number is 8.**

When the going gets rough, you generally take charge of the situation in a calm and businesslike manner. You keep in control with a practical plan of action that is both well- organized and expedient.

## ***Your Youth, Maturity and Later Years***

*So far, we've discussed the number vibrations that stay with you throughout your life. Now we move on to the three major periods of your life as shown by your Life Cycle numbers. These are derived from reducing the digits in your month, day and year of birth. The sum of the month digits describes the first period; the day, the second period; and the year, the third period.*

### **Your First Life Cycle starts at birth and lasts until age 36.**

#### **Its number is 8.**

The 8 vibration is a great deal of power for youth to handle. You will be drawn to mastering the material aspects of life early, leading and directing others and possibly amassing a certain amount of power and money at an early age. Because you may not yet have had the chance to develop empathy, when pursuing your own goals you may tend to disregard the rights and feelings of others. Lacking life experience, you may need guidance in order to develop good judgment, especially about money.

During the First Life Cycle, your Life Path number and your First Minor Challenge number are also especially important influences.

### **Your Second Life Cycle starts at age 36 and lasts until age 63.**

#### **Its number is 5.**

For you, mid-life is a period best suited change and variety, so you will be happiest if not tied down unnecessarily. You will want to travel, and to experience the new and different in many ways. During this cycle you can get to renew yourself by breaking out of old routines. Now is the time to learn to adapt, to be free and to live for the moment. For the time being, it is best to put aside ideas of permanence.

During this Life Cycle or the next, your Power number generally begins to manifest.

### **Your Third Life Cycle starts at age 63 and lasts until death.**

#### **Its number is 6.**

Your final life cycle will be concentrated around the home, so it's best to prepare the way by building a solid life around family and friends. You're promised lots of companionship and the security of the comfortable and familiar. It's a mellow, comfortable way to spend your golden years.

## ***Major Decision or Turning Points in Your Life***

*Your Turning Points or Pinnacles are also derived from your full birthdate. Each of them defines a period in your life and the special issues that you will face during that period. As their name suggests, Turning Points show points of choice where you need to make decisions. Besides showing the issues at stake, the Turning Point number indicates the choice that will be best for you. Turning Points are like tests that you must pass before proceeding forward. The happiness that you feel in a given Turning Point period depends on the choices you've made and the skills you've developed when faced with the previous Turning Point.*

### **Your First Turning Point starts at birth and lasts until age 34.**

#### **Its number is 4.**

This youthful Turning Point may give you little time to enjoy the pleasures of childhood, but it does offer a chance to learn care and discipline in your work. The determination and perseverance that you learn now are sure to bring rewards later on.

### **Your Second Turning Point starts at age 35 and lasts until age 44.**

#### **Its number is 11/2.**

In the next nine years of your life you will be given innovative ideas and possibly spiritual insights, and you will have an unusual opportunity for fame. Your task is to direct these gifts for the benefit of others.

### **Your Third Turning Point starts at age 45 and lasts until age 54.**

#### **Its number is 6.**

This 6 vibration in the prime of your life brings a choice about how you will bear heavy responsibilities, and whether you will let them beat you down or bring you the happiness that comes from helping others. It may also be a time when you are called to make a nest that is a true haven for you, your family and friends.

### **Your Fourth Turning Point starts at age 55 and lasts until death.**

#### **Its number is 5.**

In the last period of your life, a 5 vibration calls you to overturn your old routines and renew yourself with travel, new ideas, and possibly even a new lifestyle. Your choice to do something a bit risky will keep you feeling remarkably young for your years. If you go rigid and try to barricade yourself safely away from the possibility of change, it can have a nasty way of seeking you out anyway. It's best to hang loose and roll with it if it comes. Your life will be so much more interesting that way.

## ***The Challenges You Will Meet***

*Everyone is born with special lessons to be learned. Again, your full birth date has inherent in it two Minor Challenges that are usually presented to you earlier in life, and a Major Challenge that is lifelong but which you will probably get to master only later in life.*

*Challenges may at first present themselves to you as external obstacles to your progress, but they arise from the deficiencies that you are born with, parts that are lacking or underdeveloped. Once you can determine exactly what the weak link is, you can make a conscious effort to strengthen that trait within yourself. This takes willpower and may sometimes feel as if you are going against the grain, but it pays off abundantly in terms of progress and success in life. As you tackle each challenge, your fears are pushed back, your scope enlarges, and you feel more comfortable in the world.*

### **Your First Minor Challenge number is 3.**

The First Minor Challenge usually crops up early in life. When its number is 3, you will feel impeded until you learn to overcome the barriers to the free expression of your natural talents. You may need to overcome shyness and learn to express yourself clearly. Once you learn to relax with people, you may exhibit an unusual facility for expressing yourself in conversation and lending life and enjoyment to social situations. You should seize every opportunity to realize your creative potential, taking lessons when you can and letting enjoyment of what you are doing break down any barriers to your spontaneity.

### **Your Second Minor Challenge number is 1.**

When the number 1 is your Second Minor Challenge, you will probably need to do most of your work on this area in mid-life, during your Second Life Cycle from about ages 35 to 62. This is a time to work on your will power and on asserting yourself as an individual. It is a time to overcome dependency and stand on your own feet so that you don't believe you need to please others in order to survive. Pick a goal, and in working toward it you will realize your own powers. Then you will have earned the respect of others and yourself.

### **Your Major Challenge number is 2.**

You face your Major Challenge throughout life. Most likely, however, you will find yourself needing to do the most work on it during your Third Life Cycle, after the lesser challenges have been met. With a Challenge number of 2, the thing to master is cooperating with others without either leaning on them or trying to dominate the situation. Balance is the watchword here. Also, when you find yourself hurt or slighted, you will be much happier when you learn not to take it personally.

## ***Your Best Activities for the Year***

*Your Personal Year number combines your birth month and day with the current year. Personal Year numbers go in a recurring nine-year cycle of development. Each time you go around the cycle you have a chance to do things with added wisdom and skill. Keeping your activities in tune with your current year vibration can make your existence more harmonious and keep your unfoldment upon its intended track.*

*Some numerologists believe that the new personal year number begins on January 1st of the new year. Others believe that it doesn't change until your birthday on that year, so that up until your birthday you would be using the personal year number for the preceding calendar year.*

### **Your Personal Year number beginning on Jan. 1, 2002 is 17/8**

After the pause and retreat of a 7 year, an 8 year is a public and social time when you become once more deeply engaged with the tangible, outward world. An 8 Personal Year is specially suited for power and achievement. In this phase of the cycle, all that you've worked for can come to fruition in the form of material gain and public recognition. You can think of it as a time of harvest. If you've planted the seeds and followed through in the previous years, your 8 year will be one of rewards and satisfaction arising from a job well done. You'll still have to push for the outcome that you envisioned, but it will materialize this year if you've done the work. You may find yourself organizing and administrating on a greater scale than usual, working with people and materials to achieve highly visible results. The keyword for this year is Consolidation.

### **Your Personal Year number beginning on Jan. 1, 2003 is 18/9**

In a 9 Personal Year, the cycle of Personal Years comes to an end. This is a year to harvest the remaining crop before it rots, time to tie up all the old cycle's loose ends. So clear the decks and weed the garden. Whatever you have put off, you need to finish it now. Next year you'll be starting a new cycle, and you don't want the detritus of the old cycle to impede your progress. Like the 5 Personal Year, this is a pivotal time, one that is appropriate for change. Now you can reinvent yourself, lose weight, toss out old stuff, and get rid of old habits. As people and things fall away because they are no longer appropriate, you may experience this as a year of loss. Say a graceful good-bye, and open yourself to the new cycle to come.

## ***Where Do We Go from Here?***

*If this report has aroused your curiosity and you want to learn more, you may find that exploring your numbers with a deck of Tarot cards is an excellent means for further self-reflection.*

*Suppose that your birth date were August 19, 1962. The Tarot trump that you would look at for the month would be 8 (Strength, or in some decks, Justice). For the day, you would look at 19 (the Sun),  $1+9=10$  (the Wheel of Fortune), and, reducing it even further,  $1+0=1$  (the Magician). For the year, you would look at  $1+9+6+2=18$  (the Moon), and possibly also  $1+8=9$  (the Hermit).*

*These cards would have something to say about you and how you express these traits as you follow your destiny. Our example birth date would have the Sun in Leo, and trump 19, the Sun, would reinforce the Leo symbolism. You could see that the person is a hard worker (8) with a sunny disposition (19) who is aware of the changes in fortune that life can bring (10). Extremely creative (1), he is also a sensitive, caring person who is tuned in to other people's feelings (18).*

*It is instructive to buy a Tarot deck, put one of your cards up for a few days, and mull over the symbolism. Remember that there are no truly negative numbers or cards. All participate in the experiences of the soul as it passes through life.*

*Even trump 15, the Devil, has its place. Everyone has traits that create stumbling blocks or weaknesses. When we work to overcome these we achieve maturity and become more sympathetic to the weaknesses that we see in others. This may be an important focus for a soul with the number 15 prominent.*

*Also, trump 13, the so-called Death card, is often misunderstood. Remember that in the cycle of seasons the leaves fall and winter comes, but this death is only the precursor of the life that bursts forth in the spring. Life is not all white light and bubbles. There are dark clouds of pain and frustration as well. It's all part of the cycle.*

*Whatever you find your numbers to be, remember that nobody has it all down pat. We all have plenty to learn. We do have a choice, however. We can, if we wish, fight against our destiny or try to ignore it. Or we can, as the great psychoanalyst C.G. Jung put it, "do willingly what we must do by necessity." Viewing ourselves through the lens of studies such as numerology, the Tarot and astrology, we gain a clearer picture of what our own necessity is, and can then travel more consciously on our life's intended path.*
