## ***Your Planetary Day***

*While the calendar we use in the West dates from the 1500s, the seven days of the week have repeated without interruption for over two millennia. From ancient times, each day of the week has been associated with the Sun, Moon or one of the five visible planets. The weekday on which you were born shows where you stand in this ancient seven-fold cycle, and gives you a special link with the quality of its planetary ruler.*

### **You were born on a Saturday.**

This is the day of Saturn, associated with the Greek Chronos, god of time and the scythe-carrying ruler of endings, limitation and boundaries — and therefore of form and solid objects. Saturn rules all that is tangible and material, most especially the mineral kingdom. Saturn's metal is lead; his colors, earth hues and dark shades like black and navy. As a planet, Saturn is the archetype of the elder who embodies rigidity, but also authority and substance. Traditionally, the sin of Saturn was covetousness; his virtue, prudence. In the Kabbalah, Saturn is ruled by Orphiel, angel of care and solicitude. On the Kabbalistic Tree of Life, Saturn is associated with Binah, one of the highest Sephiroth, which signifies the Great Mother, the principle of Form and of Understanding. "Saturday's child must work for a living." — *Harper's Weekly*, 1887.

## ***About Personal Numerology***

*The report that follows explores the numerological meaning of your birth date and the full name that was given to you at birth. Its aim is to make you more aware of the tendencies and patterns in your life, so that you can live more consciously, and more fully become the person you were meant to be.*

*As you read the following pages, remember that they describe pure types for each number. No one, of course, exhibits these character traits in their pure form. Instead, each of us is multi-dimensional, made up of many energy imperatives vying for expression. Some energies harmonize easily, while others are at cross-purposes, causing us to live with contradictions and inner conflicts. Our task is to honor all parts of ourselves and work at bringing our disparate selves into some kind of balance and cooperation. By making us more aware of our inner tendencies, numerology can help us to do this all-important work on ourselves.*

*In our families and other groups of which we are a part, some behaviors are encouraged and others are discouraged. If who we are wasn't acceptable, we probably contorted ourselves to be what others wanted us to be. If so, we may have become what is called a "turn-type."*

*For example, we may negatively manifest a number by expressing its opposite, as when the independent number 1 type becomes extremely dependent. Alternatively, the energy is out of balance and expressed extremely, as when the daring number 1 type becomes foolhardy. Or the energy is not developed enough, so that the number 1 is cowardly instead of courageous.*

*Because we feel that a certain trait is unacceptable and unworthy of us according to the biases of our family, superiors or peers, we may not be able to relate to it in ourselves. We may then spend many years discovering who we really are apart from other people's expectations of us.*

*Studies such as numerology can help us find our way out of this maze, orienting us toward our true being and the highest manifestation of what we are. They can give us an objective picture of our strengths and weaknesses, show us our place in the larger scheme of things, and help us find the hidden gold in our characters, which we may not have even suspected that we had.*

***How Numerology Works.*** *Through the use of ancient principles, numerology can derive a world of meaning from your birthdate and birth name. In the course of your life other numbers may become important for you, and you will probably acquire other names, but, like your astrological birth chart, the numerological vibrations at the very beginning of your life set the tone for all that follows.*

*To find the meaning inherent in your day, month and year of birth, numerologists add the digits in various ways. Most totals turn out to be more than one digit. They therefore reduce them to a single digit by adding the digits together. Whenever a total turns out to be a master number like 11 or 22, however, it is left as-is. These doubled numbers have a special significance, and are given special interpretations.*

*To find the numerological meaning of your name, numerology assigns a number to each letter of the alphabet. In the Pythagorean system used in this report, A = 1, B = 2, and so on through the first nine letters, and then we repeat the cycle through the rest of the alphabet. We then total the numbers corresponding to the vowels, the numbers corresponding to the consonants, and the numbers corresponding to all the letters to determine specific things about your character.*

*Each digit from 1 to 9 represents a specific stage in a cycle and has its own set of associations. In general, the odd numbers are considered introverted, in the sense of being primarily focused on inner life. The even numbers tend toward extroversion: that is, being primarily focused on outer activities. The numbers 1, 6, and 22, however, are considered dual in nature.*

*This said, let us now look first at your basic character and the major themes in your life.*

## ***Your Life Path***

*The total of the day, month and year of your birth is called by numerologists the Life Path, Life Lesson, Birth Path, Birth Force or, sometimes, the Destiny number. This number is chosen by nature rather than by you or your parents, and it reflects the season and historical era of your birth. As its names suggest, it shows your mission in life, your life work and what the universe intends for you. It shows the opportunities you must seize in order to make the most of your potential. Following the life path that has been given to you will enable you to avoid continual discord and frustration, and to unfold in the way that is best for your nature. When you find your true place in the world, you will feel at home.*

## **Your birthdate total is 1.**

With a Life Path of 1, you have a destiny to stand on your own, to believe in yourself, your own ideas and your own potential. Yours will be the life of the leader and the pioneer. Being a unique individual, you can follow your own path and live free from many of the rules that govern others. You may, however, have to fight to live the way you want and to accomplish what you want to do. Nevertheless, you must not conform or give up your goals.

## ***Numerology based on your name: GEORGE TIMOTHY CLOONEY***

### ***What Motivates You in Life***

*We now move on to the name that you were given at birth. We first look at the total of the vowels in your full birth name, because this shows the emotional force that drives all that you do. Variously known as the Motivation, Soul Urge, Heart's Desire, or Inner Self number, the vowel total shows what you want out of life. Along with the Impression and Expression numbers that will be discussed below, it is a basic component of your character.*

### **The vowel total in your name is 1.**

With 1 as a Motivation number, you are essentially a leader, and you feel most comfortable when in control. Because you have more ideas than time to pursue them, you can often be very impatient. You relate best to those who admire you and who will let you dominate. This drive of yours to lead and be independent at all costs will allow you to accomplish a lot in life, but it could make you somewhat of a loner. Nevertheless, your own strong will must prevail.

Colors and gems have number vibrations, too. Your Motivation color is red and your Motivation gem is the ruby. Wear these when you want to relax and restore your energies.

### ***More about Your Emotions and Motivations***

*The first vowel in your first name augments or mitigates the force of the vowel total, and gives additional information about your emotional nature and underlying motivations in life. It manifests differently depending on whether the vowel sound is long or short. The long vowel gives a more direct and forthright expression, while the expression of the short vowel is more muted.*

### **The first vowel in your name is E.**

“E” feels changeable and restless, and gives you a love of freedom and excitement. You tend to be on the move, always on the lookout for the next interesting event. For you, variety is truly the spice of life. You are mentally stimulating and stimulated mentally by all that passes before you. Preferring to remain unfettered and free to explore new horizons, you find it difficult to take root. A “people” person, you are outgoing and have many friends who enjoy your optimism and good humor. You also work well with your hands and are very versatile.

## ***The Impression You Give to Others***

*The total of the consonants in your name is known as the Impression, Personality, Outer Self or Adapted Self number. As its names suggest, this number signifies your persona, the face you show to the world. It shows the vibrations that you project, how others see you, and the kind of impression that you make on those around you. This has its origin in your illusions and fantasies, the world you create for yourself in daydreams. Given enough energy, your fantasies become reality, because you tend to become who you think you are.*

### **Your consonant total is 3.**

Having the Impression number 3, you dream of being a very popular person: magnetically attractive, and even a sex symbol. You are the actor on center stage, the movie star, the life of the party, charming everyone with your wit. Since you are conscious of the image you project, only the latest and best in fashion will do. You may dream of the jet-set life or another glamorous lifestyle in which you are the star.

Your Impression color is yellow, and your Impression gem is the topaz. Wear these when you want to be sociable and enjoy the company of others.

## ***The Way You Express Yourself***

*The total of all the letters in your full name is variously called the Expression, Mission or Life Purpose number. Composed of both the vowels and the consonants, it represents the blending of your inner and outer selves. It thus shows the natural expression of your goals and desires: what you do best, and, by extension, your talents and career potential. It also indicates how you deal with the outside world: your style of solving problems, getting things done, and negotiating with others to attain what you would consider success.*

### **Your name total is 4.**

The Expression number 4 makes you tend to be the workhorse who loves to organize things, devise systems, and make sure that everything has its place. You are especially good with your hands, and feel most comfortable in the material world where you can see the tangible result of your efforts. Not one for flash, you prefer to dress in good taste and in the best quality. Basically conservative, you are loyal and responsible, but can be rather too cautious at times.

When you want to be businesslike, try wearing green as your Expression color and the emerald as your Expression gem.

## ***Careers Offering the Best Self-Expression***

With 4 as your Expression number, consider these kinds of jobs:

**The Boss:** executive, banker, contractor, military officer, buyer, manufacturer of quality items.

**On Stage:** musician.

**Service:** doctor, real estate agent, ecologist, engineer, fireman, policeman, military person, inspector, office worker, secretary, cashier, postal worker, factory employee, waitperson, service station attendant.

**Just You:** accountant, economist, technical writer, architect, proofreader.

**Hands-On:** dentist, surgeon, sculptor, electrician, mechanic, printer, typesetter, plumber, tailor, watch repairer, engraver, draftsman, landscaper, farmer, skilled laborer.

**Best Bet:** Any job where you can see tangible results for your efforts.

## ***The Power You Can Achieve in Maturity***

*The total of the day, month and year of your birth and your full name at birth is known variously as the Power, Maturity, Reality, Real Self, Final Opportunity, Destiny or Goal Power number. A summation of both your name and your birthdate, this number shows how the two principal streams of energy converge to fulfill the purposes of your true self. The Power number is of great significance because it gives a clue as to what your ultimate life purpose might be.*

*This vibration usually becomes manifest only in the later part of your life. In the first half of life it tends to exist only as a potential. In these earlier years you live through many experiences that temper and define your character and aptitudes. Not until the age of 35 or 40 do most people live through enough life events to find their life purpose and develop it to the point where it becomes their main focus and direction. It is then that fulfillment comes. But this is usually achieved only after many false starts, and years of struggling to gain self-knowledge.*

*Finding your right place in life is gratifying. If you have not pushed through to this achievement, you can be dissatisfied and unhappy. You may feel at loose ends, without direction, rudderless and ill at ease. But if you have lived your life in accord with the purpose that was meant to be fulfilled in this life, you will find contentment and peace of mind.*

*What follows is the mature expression of your Power number. Mature development is not about living out someone else's idea of what you should be. It has more to do with honoring your own way of being in the world and moving from your own center. It is about trusting the process of unfoldment that exists within each of us and making this your guiding principle.*

## **The total of your name and birthdate is 5.**

A Power number of 5 signifies a life of freedom, variety and change. Fives attract situations that demand versatility and adaptability. Always open to new experiences, they seek out the curious and the unusual, and are constantly on the lookout for new fields to explore and new roads to travel. In some way embodying the archetype of the Trickster, they are unconventional, unpredictable, full of surprises, and excel at doing the unexpected. Not ones to tarry long, they tend toward impulsivity and depart in a flash if their interest is diverted elsewhere. Adventurous, enterprising and resourceful, they continually enliven their environment with energy and enthusiasm.

Fives are sociable and get on well with all kinds of people. Talking is one of their favorite activities. People interest them immensely, and they will spend hours chatting with strangers and friends alike.

As clever as they are with words, fives are also clever with their hands. They make excellent craftsmen, are known for their versatility, and are often amazingly dexterous, dazzling others with their creative handiwork.

## **Tarot Key 5: The Hierophant**

To gain further insights about your Power number, it can help to look at the Tarot trump that corresponds to it. In your case, this is the Hierophant. Called the Pope in some decks, he wears a triple crown, which in metaphysical language represents the integration of body, mind, and spirit. This integration creates a deep faith in life, and an energetic desire to experience life to its fullest. The Hierophant is versatile, a generalist who can see many facets of life. This can lead to brilliant ideas and new interpretations. People on this vibration deal with people well, and, like the Pope, may have a sizable flock.

### ***Your Karmic Lessons***

*Karma numbers are digits that are completely missing in the letters of your name as given at birth. Most people have one or more Karma numbers. These missing digits serve as a guide to the areas of your life and personality that may be lacking. Such areas will benefit from special attention. If you ignore these blind spots, life can have a painful way of making you notice them. This, however, can eventually spur you forward on the path to wisdom. When you develop yourself in these areas, you will feel much more whole and complete.*

### **The number 1 is missing in your name.**

With your 1 Karma number, you tend to be indecisive and to lack ambition. You must learn to take the initiative and to be more independent. In a word, take control of your life.

### ***Your Subconscious Response***

*Your Subconscious Response is related to how many Karma numbers you have. It shows the way you tend to react in emergencies, when you have no time to consult your intellect.*

## **Your Subconscious Response number is 8.**

When the going gets rough, you generally take charge of the situation in a calm and businesslike manner. You keep in control with a practical plan of action that is both well-organized and expedient.

## ***Your Youth, Maturity and Later Years***

*So far, we've discussed the number vibrations that stay with you throughout your life. Now we move on to the three major periods of your life as shown by your Life Cycle numbers. These are derived from reducing the digits in your month, day and year of birth. The sum of the month digits describes the first period; the day, the second period; and the year, the third period.*

## **Your First Life Cycle starts at birth and lasts until age 36.**

### **Its number is 5.**

In youth you are the one who must learn everything for yourself. Quick to learn, but easily bored, you don't fit into a structured lifestyle. You do everything "early," and the chances are good that you aren't among those who cling to the security of the home. If your early life is too unsupervised and unstructured, you run the danger of indulging an appetite for drugs, drink, sex, or other forms of excitement.

During the First Life Cycle, your Life Path number and your First Minor Challenge number are also especially important influences.

## **Your Second Life Cycle starts at age 36 and lasts until age 63.**

### **Its number is 6.**

More than most people, you need a middle life of settling down, building your nest and putting down roots. Your responsibilities to others are paramount during this time. Others will depend on you, so you must be strong and able to give advice and guidance. Your family life should now be in order if you are to accomplish your goals during this period. This is a perfect time for enjoying married life.

During this Life Cycle or the next, your Power number generally begins to manifest.

## **Your Third Life Cycle starts at age 63 and lasts until death.**

### **Its number is 8.**

Never think of "retirement"! For you, later life is a great time for directing projects and achieving ambitious goals. This can be a time of success, and you will have the power to get things done. Your considerable energy will be best used in organizing others. With the promise of solid accomplishment and material gain, you'll be active to the end.

## ***Major Decision or Turning Points in Your Life***

*Your Turning Points or Pinnacles are also derived from your full birthdate. Each of them defines a period in your life and the special issues that you will face during that period. As their name suggests, Turning Points show points of choice where you need to make decisions. Besides showing the issues at stake, the Turning Point number indicates the choice that will be best for you. Turning Points are like tests that you must pass before proceeding forward. The happiness that you feel in a given Turning Point period depends on the choices you've made and the skills you've developed when faced with the previous Turning Point.*

### **Your First Turning Point starts at birth and lasts until age 34.**

#### **Its number is 11/2.**

Having the very high 11 vibration as a youthful Turning Point gives you the chance to achieve public notice early in life. Much can be expected of you, so that you may need to deal with nervous tension during these years. Your task is to take the insights, inspiration and possibly inventive genius that are now given to you, and turn them toward bettering the lot of others.

With 2 as the lower-level vibration during this period, you may also be asked to learn to work constructively as a team member, and to learn how to be the tactful diplomat and peacemaker.

### **Your Second Turning Point starts at age 35 and lasts until age 44.**

#### **Its number is 5.**

The next nine years of your life will test your ability to be adventurous and enterprising, and to gracefully ride the waves of change as you set out in the world and take up a career. This is a time for slowing down your restless momentum somewhat so that you can at least think about settling upon a life direction.

### **Your Third Turning Point starts at age 45 and lasts until age 54.**

#### **Its number is 7.**

This 7 vibration may mark a pause in the prime of your life as you turn inward to integrate your experiences and meditate on the meaning of it all. For some, this may be merely retreating from the demands of the world, but it is possible to make this period a true voyage to the sometimes scary but potentially rewarding places inside. If you complete this voyage successfully, you lay the foundation for an old age marked by true wisdom and the ability to give something of great value to the world.

### **Your Fourth Turning Point starts at age 55 and lasts until death.**

#### **Its number is 4.**

In the last period of your life, a 4 vibration calls you make practical choices, and you will get a good feeling from putting your affairs in order. You may need to live on a tight budget, but if you approach it with the correct attitude, this need not feel like a great burden. You may be one of those for whom thrift is a pleasure and an entertainment. A steady routine of work can keep you on track, and if you so choose, you can derive deep satisfaction by leaving a legacy of tangible achievement.

## ***The Challenges You Will Meet***

*Everyone is born with special lessons to be learned. Again, your full birth date has inherent in it two Minor Challenges that are usually presented to you earlier in life, and a Major Challenge that is lifelong but which you will probably get to master only later in life.*

*Challenges may at first present themselves to you as external obstacles to your progress, but they arise from the deficiencies that you are born with, parts that are lacking or underdeveloped.*

*Once you can determine exactly what the weak link is, you can make a conscious effort to strengthen that trait within yourself. This takes willpower and may sometimes feel as if you are going against the grain, but it pays off abundantly in terms of progress and success in life. As you tackle each challenge, your fears are pushed back, your scope enlarges, and you feel more comfortable in the world.*

### **Your First Minor Challenge number is 1.**

The First Minor Challenge usually crops up early in life. When its number is 1, this usually means that you must fight to overcome a sense of being held down by those with stronger wills. To meet this challenge, you must learn to assert your independence and discover your own individuality, while at the same time respecting the rights of others. It's important not to get caught up in merely pleasing others, and in a dignified way to assert your right to have your needs met and to determine the course of your own life. When you grow older, you'll then be able to let others have their rights, too.

### **Your Second Minor Challenge number is 2.**

The Second Minor Challenge is about aspects of your character that you need to work on during your Second Life Cycle, from about ages 35 to 62. With a Challenge of 2, your task is to develop confidence in yourself and thicken up your protective coating so that you can hold your own in relationships with others. Instead of bringing you closer to others, your extreme sensitivity can make you run for cover when the vibes get jagged or overwhelmingly strong. Your challenge is to retain that responsiveness to the feelings of others without losing your own identity or feeling personally devastated. You may need to live alone for a bit and find out who you really are. Then you will be able to enter into a partnership as a true equal, and realize a closeness that you had not dreamed was possible.

### **Your Major Challenge number is 1.**

You face your Major Challenge throughout life. Most likely, however, you will find yourself needing to do the most work on it during your Third Life Cycle, after the lesser challenges have been met. With a Challenge number of 1, you must fight to overcome a sense of being held down by those with stronger wills. To meet this challenge, you must learn to assert your independence and discover your own individuality, while at the same time respecting the rights of others.

## ***Your Best Activities for the Year***

*Your Personal Year number combines your birth month and day with the current year. Personal Year numbers go in a recurring nine-year cycle of development. Each time you go around the cycle you have a chance to do things with added wisdom and skill. Keeping your activities in tune with your current year vibration can make your existence more harmonious and keep your unfoldment upon its intended track.*

*Some numerologists believe that the new personal year number begins on January 1st of the new year. Others believe that it doesn't change until your birthday on that year, so that up until your birthday you would be using the personal year number for the preceding calendar year.*

### **Your Personal Year number beginning on Jan. 1, 2002 is 15/6**

In this 6 Personal Year, relationships will be a major focus and you may need to make some adjustments in this area of your life. Money and jobs are not likely to be a problem, and your energies now best directed toward home, family and friends. It is time really to take responsibility for those about whom you care. If your responsibilities toward others become heavy this year, remember that meeting them wholeheartedly can add immense emotional richness to your life. So, for now, put career demands and a desire for self-assertion and self-expression on the back burner. Concentrate on creating a loving home life and possibly also on making your physical home more comfortable and pleasing. In all ways, it is time to seek harmony and balance in your relationships and personal life. The keyword to remember this year is Harmonize.

### **Your Personal Year number beginning on Jan. 1, 2003 is 16/7**

In a 7 Personal Year the tide once more turns inward. More than at any other time during the nine-year cycle, you will require time alone. This is especially true if you are an introverted type to begin with, but even extroverts will be somewhat less enthusiastic about mixing with others. The energy this year is just not right for gadabouting or for dealing with practical matters in the outside world. You'll want to retreat from the hubbub of life in the fast lane and perhaps study or meditate. This year is a time of pause when you go into the deepest parts of yourself and integrate all that has come before. If you feel depressed, it may be because your energy has gone below the surface, where it is busily gestating something new. Don't despair, and don't feel you should be cheerful and outgoing right now. Respect this part of the cycle. Ride it out fully, and it will pass, leaving you with renewed inner riches. Let your inward journey take you to where you are now supposed to be in the unfoldment process of your life. This is a year for re-discovering your spiritual resources. Its watchwords are Retreat and Reflect.

## ***Where Do We Go from Here?***

*If this report has aroused your curiosity and you want to learn more, you may find that exploring your numbers with a deck of Tarot cards is an excellent means for further self-reflection.*

*Suppose that your birth date were August 19, 1962. The Tarot trump that you would look at for the month would be 8 (Strength, or in some decks, Justice). For the day, you would look at 19 (the Sun),  $1+9=10$  (the Wheel of Fortune), and, reducing it even further,  $1+0=1$  (the Magician). For the year, you would look at  $1+9+6+2=18$  (the Moon), and possibly also  $1+8=9$  (the Hermit).*

*These cards would have something to say about you and how you express these traits as you follow your destiny. Our example birth date would have the Sun in Leo, and trump 19, the Sun, would reinforce the Leo symbolism. You could see that the person is a hard worker (8) with a sunny disposition (19) who is aware of the changes in fortune that life can bring (10). Extremely creative (1), he is also a sensitive, caring person who is tuned in to other people's feelings (18).*

*It is instructive to buy a Tarot deck, put one of your cards up for a few days, and mull over the symbolism. Remember that there are no truly negative numbers or cards. All participate in the experiences of the soul as it passes through life.*

*Even trump 15, the Devil, has its place. Everyone has traits that create stumbling blocks or weaknesses. When we work to overcome these we achieve maturity and become more sympathetic to the weaknesses that we see in others. This may be an important focus for a soul with the number 15 prominent.*

*Also, trump 13, the so-called Death card, is often misunderstood. Remember that in the cycle of seasons the leaves fall and winter comes, but this death is only the precursor of the life that bursts forth in the spring. Life is not all white light and bubbles. There are dark clouds of pain and frustration as well. It's all part of the cycle.*

*Whatever you find your numbers to be, remember that nobody has it all down pat. We all have plenty to learn. We do have a choice, however. We can, if we wish, fight against our destiny or try to ignore it. Or we can, as the great psychoanalyst C.G. Jung put it, "do willingly what we must do by necessity." Viewing ourselves through the lens of studies such as numerology, the Tarot and astrology, we gain a clearer picture of what our own necessity is, and can then travel more consciously on our life's intended path.*
