Your Planetary Day

While the calendar we use in the West dates from the 1500s, the seven days of the week have repeated without interruption for over two millennia. From ancient times, each day of the week has been associated with the Sun, Moon or one of the five visible planets. The weekday on which you were born shows where you stand in this ancient seven-fold cycle, and gives you a special link with the quality of its planetary ruler.

You were born on a Saturday.

This is the day of Saturn, associated with the Greek Chronos, god of time and the scythe-carrying ruler of endings, limitation and boundaries — and therefore of form and solid objects. Saturn rules all that is tangible and material, most especially the mineral kingdom. Saturn's metal is lead; his colors, earth hues and dark shades like black and navy. As a planet, Saturn is the archetype of the elder who embodies rigidity, but also authority and substance. Traditionally, the sin of Saturn was covetousness; his virtue, prudence. In the Kabbalah, Saturn is ruled by Orphiel, angel of care and solicitude. On the Kabbalistic Tree of Life, Saturn is associated with Binah, one of the highest Sephiroth, which signifies the Great Mother, the principle of Form and of Understanding. "Saturday's child must work for a living." — *Harper's Weekly*, 1887.

About Personal Numerology

The report that follows explores the numerological meaning of your birth date and the full name that was given to you at birth. Its aim is to make you more aware of the tendencies and patterns in your life, so that you can live more consciously, and more fully become the person you were meant to be.

As you read the following pages, remember that they describe pure types for each number. No one, of course, exhibits these character traits in their pure form. Instead, each of us is multi-dimensional, made up of many energy imperatives vying for expression. Some energies harmonize easily, while others are at cross-purposes, causing us to live with contradictions and inner conflicts. Our task is to honor all parts of ourselves and work at bringing our disparate selves into some kind of balance and cooperation. By making us more aware of our inner tendencies, numerology can help us to do this all-important work on ourselves.

In our families and other groups of which we are a part, some behaviors are encouraged and others are discouraged. If who we are wasn't acceptable, we probably contorted ourselves to be what others wanted us to be. If so, we may have become what is called a "turn-type."

For example, we may negatively manifest a number by expressing its opposite, as when the independent number 1 type becomes extremely dependent. Alternatively, the energy is out of balance and expressed extremely, as when the daring number 1 type becomes foolhardy. Or the energy is not developed enough, so that the number 1 is cowardly instead of courageous.

Because we feel that a certain trait is unacceptable and unworthy of us according to the biases of our family, superiors or peers, we may not be able to relate to it in ourselves. We may then spend many years discovering who we really are apart from other people's expectations of us.

Studies such as numerology can help us find our way out of this maze, orienting us toward our true being and the highest manifestation of what we are. They can give us an objective picture of our strengths and weaknesses, show us our place in the larger scheme of things, and help us find the hidden gold in our characters, which we may not have even suspected that we had.

How Numerology Works. *Through the use of ancient principles, numerology can derive a world of meaning from your birthdate and birth name. In the course of your life other numbers may become important for you, and you will probably acquire other names, but, like your astrological birth chart, the numerological vibrations at the very beginning of your life set the tone for all that follows.*

To find the meaning inherent in your day, month and year of birth, numerologists add the digits in various ways. Most totals turn out to be more than one digit. They therefore reduce them to a single digit by adding the digits together. Whenever a total turns out to be a master number like 11 or 22, however, it is left as-is. These doubled numbers have a special significance, and are given special interpretations.

To find the numerological meaning of your name, numerology assigns a number to each letter of the alphabet. In the Pythagorean system used in this report, A = 1, B = 2, and so on through the first nine letters, and then we repeat the cycle through the rest of the alphabet. We then total the numbers corresponding to the vowels, the numbers corresponding to the consonants, and the numbers corresponding to all the letters to determine specific things about your character.

Each digit from 1 to 9 represents a specific stage in a cycle and has its own set of associations. In general, the odd numbers are considered introverted, in the sense of being primarily focused on inner life. The even numbers tend toward extroversion: that is, being primarily focused on outer activities. The numbers 1, 6, and 22, however, are considered dual in nature.

This said, let us now look first at your basic character and the major themes in your life.

Your Life Path

The total of the day, month and year of your birth is called by numerologists the Life Path, Life Lesson, Birth Path, Birth Force or, sometimes, the Destiny number. This number is chosen by nature rather than by you or your parents, and it reflects the season and historical era of your birth. As its names suggest, it shows your mission in life, your life work and what the universe intends for you. It shows the opportunities you must seize in order to make the most of your potential. Following the life path that has been given to you will enable you to avoid continual discord and frustration, and to unfold in the way that is best for your nature. When you find your true place in the world, you will feel at home.

Your birthdate total is 3.

Your Life Path of 3 means that that your destiny is involved with the development of social graces and good communication skills. You have a wonderful ability to inspire and amuse people. It is through those you favorably impress that your opportunities in life will come. Be creative, be artistic, and learn to use words to your advantage. You have an appealing charm and a real charisma. Versatility is vital to your success, but you must pace yourself. Learn not to scatter your energy.

What Motivates You in Life

We now move on to the name that you were given at birth. We first look at the total of the vowels in your full birth name, because this shows the emotional force that drives all that you do. Variously known as the Motivation, Soul Urge, Heart's Desire, or Inner Self number, the vowel total shows what you want out of life. Along with the Impression and Expression numbers that will be discussed below, it is a basic component of your character.

The vowel total in your name is 7.

With 7 as a Motivation number, you have a need to live in a peaceful and quiet world where there is time for meditation and study. You can be something of a loner and have a great need for privacy. Though you are not one to show your emotions, you are, in fact, a very sensitive and feeling person. You value quality, can be a perfectionist, and have an intellectual and analytical approach to life. Rather than being a go-getter, you prefer to let opportunities come to you.

Colors and gems have number vibrations, too. Your Motivation color is violet, and your Motivation gems are the aquamarine and amethyst. Wear these when you want to relax and restore your energies.

More about Your Emotions and Motivations

The first vowel in your first name augments or mitigates the force of the vowel total, and gives additional information about your emotional nature and underlying motivations in life. It manifests differently depending on whether the vowel sound is long or short. The long vowel gives a more direct and forthright expression, while the expression of the short vowel is more muted.

The first vowel in your name is E.

“E” feels changeable and restless, and gives you a love of freedom and excitement. You tend to be on the move, always on the lookout for the next interesting event. For you, variety is truly the spice of life. You are mentally stimulating and stimulated mentally by all that passes before you. Preferring to remain unfettered and free to explore new horizons, you find it difficult to take root. A “people” person, you are outgoing and have many friends who enjoy your optimism and good humor. You also work well with your hands and are very versatile.

The Impression You Give to Others

The total of the consonants in your name is known as the Impression, Personality, Outer Self or Adapted Self number. As its names suggest, this number signifies your persona, the face you show to the world. It shows the vibrations that you project, how others see you, and the kind of impression that you make on those around you. This has its origin in your illusions and fantasies, the world you create for yourself in daydreams. Given enough energy, your fantasies become reality, because you tend to become who you think you are.

Your consonant total is 2.

Having the Impression number 2, you dream of an idyllic life where you are surrounded by those who love and need you, where all is peaceful and harmonious, where the mundane cares of the world are far away, and all basic needs are magically supplied. You envision yourself as a most sensitive person who can supply everyone's emotional needs while resting in a cradle of security yourself. You are patient, understanding, loving and loved.

Your Impression color is orange, and your Impression gem is the moonstone. Wear these when you want to be sociable and enjoy the company of others.

The Way You Express Yourself

The total of all the letters in your full name is variously called the Expression, Mission or Life Purpose number. Composed of both the vowels and the consonants, it represents the blending of your inner and outer selves. It thus shows the natural expression of your goals and desires: what you do best, and, by extension, your talents and career potential. It also indicates how you deal with the outside world: your style of solving problems, getting things done, and negotiating with others to attain what you would consider success.

Your name total is 9.

The Expression number 9 makes you tend to be a universe-oriented person who is by nature compassionate and understanding. You are a true humanitarian who also has the potential for high artistic achievement. A romantic at heart, you have emotions that swing from high to low. You could help humanity, and a job utilizing your aesthetic sense and sympathetic nature would suit you. Just do not drain yourself emotionally by becoming involved in too many things at once.

Your Expression colors are any and all colors in the brightest hues. Your Expression gem is the opal. Try wearing these when you need to be businesslike.

Careers Offering the Best Self-Expression

With 9 as your Expression number, consider these kinds of jobs:

The Boss: director of a charity organization, publisher, resort owner, judge, circulation manager.

On Stage: entertainer, actor, musician, teacher, philanthropist, clergyman, religious leader, reformer, politician, seller of decorative items, lecturer, promoter, receptionist.

Service: doctor, social worker, healer, lawyer, broker, advisor or counselor, reporter, engineer, beautician, navigator, freight dispatcher, mail clerk, policeman, fireman, parole officer, ranger.

Just You: composer, writer, illustrator, decorator, sculptor, author, humorist, engraver, astronomer, chemist, pilot.

Best Bet: any job that has humanitarian aims.

The Power You Can Achieve in Maturity

The total of the day, month and year of your birth and your full name at birth is known variously as the Power, Maturity, Reality, Real Self, Final Opportunity, Destiny or Goal Power number. A summation of both your name and your birthdate, this number shows how the two principal streams of energy converge to fulfill the purposes of your true self. The Power number is of great significance because it gives a clue as to what your ultimate life purpose might be.

This vibration usually becomes manifest only in the later part of your life. In the first half of life it tends to exist only as a potential. In these earlier years you live through many experiences that temper and define your character and aptitudes. Not until the age of 35 or 40 do most people live through enough life events to find their life purpose and develop it to the point where it becomes their main focus and direction. It is then that fulfillment comes. But this is usually achieved only after many false starts, and years of struggling to gain self-knowledge.

Finding your right place in life is gratifying. If you have not pushed through to this achievement, you can be dissatisfied and unhappy. You may feel at loose ends, without direction, rudderless and ill at ease. But if you have lived your life in accord with the purpose that was meant to be fulfilled in this life, you will find contentment and peace of mind.

What follows is the mature expression of your Power number. Mature development is not about living out someone else's idea of what you should be. It has more to do with honoring your own way of being in the world and moving from your own center. It is about trusting the process of unfoldment that exists within each of us and making this your guiding principle.

The total of your name and birthdate is 3.

A Power number of 3 signifies a life in pursuit of beauty, love, pleasure, and self-expression. Three is the archetype of the Performer. Talented, imaginative and with a genius for the spoken word, threes must have an outlet for their energy and creativity. Expressing themselves is a necessity. They love being in the spotlight and thrive on the attention they receive when they do something noteworthy.

Threes attract situations that demand vibrancy and cordiality. There is a restlessness in their nature and a need to remain occupied and involved. With their positive, optimistic outlook, these are the upbeat people who are sought after because of their joyful, fun-loving style. Good-natured, witty and the life of any party, threes have an eye for what is stylish and “in.” Sociable and friendly, they are bright and breezy, adding color and vigor to the world.

Tarot Key 3: The Empress

To gain further insights about your Power number, it can help to look at the Tarot trump that corresponds to it. In your case, this is the Empress. Great with child, she wields her scepter amidst the lush bounty of a garden. The matriarch, she symbolizes nature’s powers of creation. Her domain includes fertility, productivity, creative talent, love, pleasure, happiness and luck.

Your Karmic Lessons

Karma numbers are digits that are completely missing in the letters of your name as given at birth. Most people have one or more Karma numbers. These missing digits serve as a guide to the areas of your life and personality that may be lacking. Such areas will benefit from special attention. If you ignore these blind spots, life can have a painful way of making you notice them. This, however, can eventually spur you forward on the path to wisdom. When you develop yourself in these areas, you will feel much more whole and complete.

The number 1 is missing in your name.

With your 1 Karma number, you tend to be indecisive and to lack ambition. You must learn to take the initiative and to be more independent. In a word, take control of your life.

The number 2 is missing in your name.

With a Karma number of 2, you may lack patience and tend to be overly sensitive. You may have experiences where you are forced to learn to get along better with others.

The number 7 is missing in your name.

With a Karma number of 7, it’s possible that you have many fears and anxieties. You will find that the path out of your worry is to develop your intellect and spirituality.

The number 8 is missing in your name.

With an 8 Karma number, you are ambitious, but your judgment may not always be the best. You must learn the value of money, and find out how to use power responsibly.

Your Subconscious Response

Your Subconscious Response is related to how many Karma numbers you have. It shows the way you tend to react in emergencies, when you have no time to consult your intellect.

Your Subconscious Response number is 5.

When the going gets rough, you tend to become very nervous and talk a lot. Though you may have trouble settling on one practical solution, you can be a useful source of ideas about what should be done.

Your Youth, Maturity and Later Years

So far, we've discussed the number vibrations that stay with you throughout your life. Now we move on to the three major periods of your life as shown by your Life Cycle numbers. These are derived from reducing the digits in your month, day and year of birth. The sum of the month digits describes the first period; the day, the second period; and the year, the third period.

Your First Life Cycle starts at birth and lasts until age 34.

Its number is 3.

During a youth bent on expressing yourself at any cost, you have a tendency to go to extremes. A fun-loving chatterbox, you can be quite a handful unless you have the chance to get out and be with people as much as possible. While formal schooling may make you restless, you will probably thrive when you channel your exuberant energy into the areas of art, drama, music or other forms of self-expression.

During the First Life Cycle, your Life Path number and your First Minor Challenge number are also especially important influences.

Your Second Life Cycle starts at age 34 and lasts until age 61.

Its number is 3.

This middle period of your life is a time for love, friendship, beauty and creativity. It will be happiest revolving around social contacts and your own self-realization and expression through art, music or words. You are also able to sell anything during this time, and would do well to find work that brings you in contact with the public.

During this Life Cycle or the next, your Power number generally begins to manifest.

Your Third Life Cycle starts at age 61 and lasts until death.

Its number is 6.

Your final life cycle will be concentrated around the home, so it's best to prepare the way by building a solid life around family and friends. You're promised lots of companionship and the security of the comfortable and familiar. It's a mellow, comfortable way to spend your golden years.

Major Decision or Turning Points in Your Life

Your Turning Points or Pinnacles are also derived from your full birthdate. Each of them defines a period in your life and the special issues that you will face during that period. As their name suggests, Turning Points show points of choice where you need to make decisions. Besides showing the issues at stake, the Turning Point number indicates the choice that will be best for you. Turning Points are like tests that you must pass before proceeding forward. The happiness that you feel in a given Turning Point period depends on the choices you've made and the skills you've developed when faced with the previous Turning Point.

Your First Turning Point starts at birth and lasts until age 34.

Its number is 6.

This youthful Turning Point may call you to take on heavy domestic responsibilities at an early age, such that you feel denied a carefree childhood. If you shoulder these responsibilities with good grace, your reward may be love, security, protection, loyalty and sympathy, both given and received. This Turning Point may also take the form of an early marriage that comes when you are still really too young to settle down.

Your Second Turning Point starts at age 35 and lasts until age 44.

Its number is 9.

In the next nine years of your life you will be called to seek out ways serving the world and your fellow human beings. This could be brought on by personal losses that stimulate you to seek higher forms of happiness than mere ego gratification. This is an ideal time to develop compassion and to learn to sustain yourself with an appreciation of all the beauty in your life.

Your Third Turning Point starts at age 45 and lasts until age 54.

Its number is 6.

This 6 vibration in the prime of your life brings a choice about how you will bear heavy responsibilities, and whether you will let them beat you down or bring you the happiness that comes from helping others. It may also be a time when you are called to make a nest that is a true haven for you, your family and friends.

Your Fourth Turning Point starts at age 55 and lasts until death.

Its number is 9.

In the last period of your life, a 9 vibration calls you to be selfless, impersonal and universal in your outlook. If you cling to anything in a period when change, endings and loss are real possibilities, you will only create misery for yourself and you will fail to garner the wisdom that is offered to you now. Whatever life brings, you must study it for the lessons that it offers. When you learn the lesson, suffering is no longer necessary. If you maintain your universal outlook, money and success are a real possibility, but your greatest rewards are in learning compassion and seeing the true beauty that is all around you.

The Challenges You Will Meet

Everyone is born with special lessons to be learned. Again, your full birth date has inherent in it two Minor Challenges that are usually presented to you earlier in life, and a Major Challenge that is lifelong but which you will probably get to master only later in life.

Challenges may at first present themselves to you as external obstacles to your progress, but they arise from the deficiencies that you are born with, parts that are lacking or underdeveloped. Once you can determine exactly what the weak link is, you can make a conscious effort to strengthen that trait within yourself. This takes willpower and may sometimes feel as if you are going against the grain, but it pays off abundantly in terms of progress and success in life. As you tackle each challenge, your fears are pushed back, your scope enlarges, and you feel more comfortable in the world.

Your First Minor Challenge number is 0.

The Challenge number zero presents no particular challenge, but this does not mean that you should rest on your laurels. It just gives you a choice of what to work on. During your youth you may be tempted to coast through life, but if you choose instead to work on any problems in your character, you can become truly great. It's possible that you might need some practice in making choices and then acting upon them. Generally, however, you are evolved enough to be conscious of whatever shortcomings you have, and to deal with them one at a time. Becoming the kind of person you know you could be is the most difficult of challenges, but you are capable of meeting it.

Your Second Minor Challenge number is 3.

The Second Minor Challenge is about aspects of your character that you need to work on during your Second Life Cycle, from about ages 35 to 62. With a Challenge of 3, your task is to channel your energies so that you can truly express yourself. You may need to learn not to scatter your attention and squander your time and energy. You may need either to avoid being a chatterbox, or to come out of your shell and not be daunted by criticism. When you find your stride, life will feel like a dance, and your self-expression will be natural and unimpeded.

Your Major Challenge number is 3.

You face your Major Challenge throughout life. Most likely, however, you will find yourself needing to do the most work on it during your Third Life Cycle, after the lesser challenges have been met. With a Challenge number of 3, you will feel impeded until you learn to overcome the barriers to the free expression of your natural talents. Cultivate your communication skills, and allow yourself to relax and play. When you learn to do this, your creative talents will flourish.

Your Best Activities for the Year

Your Personal Year number combines your birth month and day with the current year. Personal Year numbers go in a recurring nine-year cycle of development. Each time you go around the cycle you have a chance to do things with added wisdom and skill. Keeping your activities in tune with your current year vibration can make your existence more harmonious and keep your unfoldment upon its intended track.

Some numerologists believe that the new personal year number begins on January 1st of the new year. Others believe that it doesn't change until your birthday on that year, so that up until your birthday you would be using the personal year number for the preceding calendar year.

Your Personal Year number beginning on Jan. 1, 2002 is 10/1

A 1 Personal Year begins a new cycle. This is a time to make a fresh start, a time to plant seeds that will mature in the next nine years. In this opening phase of a new cycle you should make a special effort to maintain your independence and individuality, make your own decisions, and rely on your own abilities and instincts. Stay at the forefront, and do not take a back seat to anyone. This is the year to focus on *your* ideas, *your* needs, and the fulfillment of *your* dreams. Once you get your own thing going, you will be better able to relate to another person in the next stage of the cycle. So for now, exercise your own creative powers as fully as possible, and use all that fresh new energy to plunge ahead into new areas that you can develop more fully later. In all things this, year, Initiate.

Your Personal Year number beginning on Jan. 1, 2003 is 11/2

An 11 Personal Year is rare and special. When you are living on this higher vibration, it can be a phenomenal time for inspiration, illumination, creativity and inventiveness. Your ideas may be avant-garde, and your ingenuity may create great beauty. If you follow the intuitions that this vibration brings, you can bring something truly new into the world and may come to the notice of others. Because this is such a high vibration, you may feel some nervous tension during the year. With the great power that you are given now, it is best to flow with your inspiration and intuitions, and to live in the service of others.

At at least some points during the year, you may find yourself “resting” at the lower 2 vibration. This means that you become softer and more receptive, and your focus naturally turns toward partnership and cooperation with others. It is time to seek out a person who will help you to crystallize your dreams. Then you should listen to your partner, be diplomatic and patient, and perfect the art of working as a team in a spirit of respect and harmony. As receptive as you are to another person, you should also be receptive to your own inner knowing.

Where Do We Go from Here?

If this report has aroused your curiosity and you want to learn more, you may find that exploring your numbers with a deck of Tarot cards is an excellent means for further self-reflection.

Suppose that your birth date were August 19, 1962. The Tarot trump that you would look at for the month would be 8 (Strength, or in some decks, Justice). For the day, you would look at 19 (the Sun), $1+9=10$ (the Wheel of Fortune), and, reducing it even further, $1+0=1$ (the Magician). For the year, you would look at $1+9+6+2=18$ (the Moon), and possibly also $1+8=9$ (the Hermit).

These cards would have something to say about you and how you express these traits as you follow your destiny. Our example birth date would have the Sun in Leo, and trump 19, the Sun, would reinforce the Leo symbolism. You could see that the person is a hard worker (8) with a sunny disposition (19) who is aware of the changes in fortune that life can bring (10). Extremely creative (1), he is also a sensitive, caring person who is tuned in to other people's feelings (18).

It is instructive to buy a Tarot deck, put one of your cards up for a few days, and mull over the symbolism. Remember that there are no truly negative numbers or cards. All participate in the experiences of the soul as it passes through life.

Even trump 15, the Devil, has its place. Everyone has traits that create stumbling blocks or weaknesses. When we work to overcome these we achieve maturity and become more sympathetic to the weaknesses that we see in others. This may be an important focus for a soul with the number 15 prominent.

Also, trump 13, the so-called Death card, is often misunderstood. Remember that in the cycle of seasons the leaves fall and winter comes, but this death is only the precursor of the life that bursts forth in the spring. Life is not all white light and bubbles. There are dark clouds of pain and frustration as well. It's all part of the cycle.

Whatever you find your numbers to be, remember that nobody has it all down pat. We all have plenty to learn. We do have a choice, however. We can, if we wish, fight against our destiny or try to ignore it. Or we can, as the great psychoanalyst C.G. Jung put it, "do willingly what we must do by necessity." Viewing ourselves through the lens of studies such as numerology, the Tarot and astrology, we gain a clearer picture of what our own necessity is, and can then travel more consciously on our life's intended path.
