## Your Planetary Day

While the calendar we use in the West dates from the 1500s, the seven days of the week have repeated without interruption for over two millennia. From ancient times, each day of the week has been associated with the Sun, Moon or one of the five visible planets. The weekday on which you were born shows where you stand in this ancient seven-fold cycle, and gives you a special link with the quality of its planetary ruler.

### *You were born on a Monday.*

Monday is named for the Moon, symbolizing all that receives and contains, including the mother, cradling arms, and the home. The Moon's day is the second of seven stages, signifying the division of unity (Stage One, Sunday) into conscious and unconscious, day and night. While the Sun is the unmoving center, the Moon rules all that periodically waxes and wanes. Of the seven directions of space, the Moon's direction is down, inward, and toward the past, toward the hidden night-side of imagination and dreams. In the Kabbalah, the Moon is ruled by Gabriel, angel of dreams and of hope. "Monday's child is fair of face." — *Harper's Weekly*, 1887.

## About Personal Numerology

The report that follows explores the numerological meaning of your birth date and the full name that was given to you at birth. Its aim is to make you more aware of the tendencies and patterns in your life, so that you can live more consciously, and more fully become the person you were meant to be.

As you read the following pages, remember that they describe pure types for each number. No one, of course, exhibits these character traits in their pure form. Instead, each of us is multi-dimensional, made up of many energy imperatives vying for expression. Some energies harmonize easily, while others are at cross-purposes, causing us to live with contradictions and inner conflicts. Our task is to honor all parts of ourselves and work at bringing our disparate selves into some kind of balance and cooperation. By making us more aware of our inner tendencies, numerology can help us to do this all-important work on ourselves.

In our families and other groups of which we are a part, some behaviors are encouraged and others are discouraged. If who we are wasn't acceptable, we probably contorted ourselves to be what others wanted us to be. If so, we may have become what is called a "turn-type."

For example, we may negatively manifest a number by expressing its opposite, as when the independent number 1 type becomes extremely dependent. Alternatively, the energy is out of balance and expressed extremely, as when the daring number 1 type becomes foolhardy. Or the energy is not developed enough, so that the number 1 is cowardly instead of courageous.

Because we feel that a certain trait is unacceptable and unworthy of us according to the biases of our family, superiors or peers, we may not be able to relate to it in ourselves. We may then spend many years discovering who we really are apart from other people's expectations of us.

Studies such as numerology can help us find our way out of this maze, orienting us toward our true being and the highest manifestation of what we are. They can give us an objective picture of our strengths and weaknesses, show us our place in the larger scheme of things, and help us find the hidden gold in our characters, which we may not have even suspected that we had.

**How Numerology Works.** Through the use of ancient principles, numerology can derive a world of meaning from your birthdate and birth name. In the course of your life other numbers may become important for you, and you will probably acquire other names, but, like your astrological birth chart, the numerological vibrations at the very beginning of your life set the tone for all that follows.

To find the meaning inherent in your day, month and year of birth, numerologists add the digits in various ways. Most totals turn out to be more than one digit. They therefore reduce them to a single digit by adding the digits together. Whenever a total turns out to be a master number like 11 or 22, however, it is left as-is. These doubled numbers have a special significance, and are given special interpretations.

To find the numerological meaning of your name, numerology assigns a number to each letter of the alphabet. In the Pythagorean system used in this report, A = 1, B = 2, and so on through the first nine letters, and then we repeat the cycle through the rest of the alphabet. We then total the numbers corresponding to the vowels, the numbers corresponding to the consonants, and the numbers corresponding to all the letters to determine specific things about your character.

Each digit from 1 to 9 represents a specific stage in a cycle and has its own set of associations. In general, the odd numbers are considered introverted, in the sense of being primarily focused on inner life. The even numbers tend toward extroversion: that is, being primarily focused on outer activities. The numbers 1, 6, and 22, however, are considered dual in nature.

This said, let us now look first at your basic character and the major themes in your life.

## **Your Life Path**

The total of the day, month and year of your birth is called by numerologists the Life Path, Life Lesson, Birth Path, Birth Force or, sometimes, the Destiny number. This number is chosen by nature rather than by you or your parents, and it reflects the season and historical era of your birth. As its names suggest, it shows your mission in life, your life work and what the universe intends for you. It shows the opportunities you must seize in order to make the most of your potential. Following the life path that has been given to you will enable you to avoid continual discord and frustration, and to unfold in the way that is best for your nature. When you find your true place in the world, you will feel at home.

### ***Your birthdate total is 5.***

Your Life Path of 5 means that your destiny is to learn to revel in the many changes and the variety of experiences that will come your way. You must learn to flow with life and to use well the freedom you've been granted. Don't tie yourself down with too many responsibilities, or you may run the risk of boredom and frustration. Seize opportunities: live life to the fullest, and then be ready to move on to the next intense adventure.

### **What Motivates You in Life**

We now move on to the name that you were given at birth. We first look at the total of the vowels in your full birth name, because this shows the emotional force that drives all that you do. Variously known as the Motivation, Soul Urge, Heart's Desire, or Inner Self number, the vowel total shows what you want out of life. Along with the Impression and Expression numbers that will be discussed below, it is a basic component of your character.

#### ***The vowel total in your name is 3.***

With 3 as a Motivation number, you are the born entertainer who is always encircled by friends and admirers. Beauty and glamour are necessary parts of your existence. You need to feel that you're in the center of what's happening and that your life is a whirl with excitement. You're a flirt and love to be admired for your charm and wit. Communication and self-expression are vital to your well being. Living on an emotional seesaw, you're never down for long.

Colors and gems have number vibrations, too. Your Motivation color is yellow and your Motivation gem is the topaz. Wear these when you want to relax and restore your energies.

### **More about Your Emotions and Motivations**

The first vowel in your first name augments or mitigates the force of the vowel total, and gives additional information about your emotional nature and underlying motivations in life. It manifests differently depending on whether the vowel sound is long or short. The long vowel gives a more direct and forthright expression, while the expression of the short vowel is more muted.

#### ***The first vowel in your name is I.***

"I" feels compassion and the desire to serve. You go the extra mile to work for the good of all. If you feel it will improve the lot of your fellow humans and make the world a better place, you may sometimes even work against your own best interests. You have a passionate nature and can go to great lengths for the causes you embrace. Determined and relentless in the pursuit of a cause that excites you, you may become known for your philanthropy and generosity. Because you are a source of insight and encouragement, others eagerly seek your healing energy and counsel. Inspired, you are also an inspiration to others.

## **The Impression You Give to Others**

The total of the consonants in your name is known as the Impression, Personality, Outer Self or Adapted Self number. As its names suggest, this number signifies your persona, the face you show to the world. It shows the vibrations that you project, how others see you, and the kind of impression that you make on those around you. This has its origin in your illusions and fantasies, the world you create for yourself in daydreams. Given enough energy, your fantasies become reality, because you tend to become who you think you are.

### ***Your consonant total is 7.***

Having the Impression number 7, you dream of being a sage who is removed from the chaos of the world, and who, from this detached position, is able to meditate on the meaning of the universe. You feel that your perception of the world is all encompassing, and wish to have a well-developed philosophy of life. You would also prefer the rest of the world to be a quiet, calm and peaceful place where the spiritual and the intellectual are widely valued.

Your Impression color is violet, and your Impression gems are the aquamarine and amethyst. Wear these when you want to be sociable and enjoy the company of others.

## **The Way You Express Yourself**

The total of all the letters in your full name is variously called the Expression, Mission or Life Purpose number. Composed of both the vowels and the consonants, it represents the blending of your inner and outer selves. It thus shows the natural expression of your goals and desires: what you do best, and, by extension, your talents and career potential. It also indicates how you deal with the outside world: your style of solving problems, getting things done, and negotiating with others to attain what you would consider success.

### ***Your name total is 1.***

The Expression number 1 makes you tend to be a strong individualist, both self-reliant and dependable. A natural leader, you're at your best when in charge. You're capable in almost any business or art form, and your possibilities are unlimited when you can do your own thing. Directness is one of your great strengths, but do not let your ego and impatience get in the way of your effectiveness. Also, take care that your mind does not run ahead of your ability to implement your ideas.

When you want to be businesslike, try wearing red as your Expression color and the ruby as your Expression gem.

## **Careers Offering the Best Self-Expression**

With 1 as your Expression number, consider these kinds of jobs:

**The Boss:** director, manager or owner of a business; advertising executive, department head, buyer, editor, contractor.

**On Stage:** musician, actor, salesman, guide, promoter, politician.

**Service:** internist, psychiatrist, analyst, inspector, lawyer, repairperson, telephone operator.

**Just You:** architect, pilot, explorer, farmer, inventor, writer, designer, illustrator, geographer.

**Best Bet:** be the boss or work alone.

## **The Power You Can Achieve in Maturity**

The total of the day, month and year of your birth and your full name at birth is known variously as the Power, Maturity, Reality, Real Self, Final Opportunity, Destiny or Goal Power number. A summation of both your name and your birthdate, this number shows how the two principal streams of energy converge to fulfill the purposes of your true self. The Power number is of great significance because it gives a clue as to what your ultimate life purpose might be.

This vibration usually becomes manifest only in the later part of your life. In the first half of life it tends to exist only as a potential. In these earlier years you live through many experiences that temper and define your character and aptitudes. Not until the age of 35 or 40 do most people live through enough life events to find their life purpose and develop it to the point where it becomes their main focus and direction. It is then that fulfillment comes. But this is usually achieved only after many false starts, and years of struggling to gain self-knowledge.

Finding your right place in life is gratifying. If you have not pushed through to this achievement, you can be dissatisfied and unhappy. You may feel at loose ends, without direction, rudderless and ill at ease. But if you have lived your life in accord with the purpose that was meant to be fulfilled in this life, you will find contentment and peace of mind.

What follows is the mature expression of your Power number. Mature development is not about living out someone else's idea of what you should be. It has more to do with honoring your own way of being in the world and moving from your own center. It is about trusting the process of unfoldment that exists within each of us and making this your guiding principle.

### ***The total of your name and birthdate is 6.***

A Power number of 6 signifies an overriding desire to create harmony and balance. Six is the archetype of the Caregiver. Sixes have a rock-solid reputation for being loyal, dependable and conscientious, and they continually attract situations that require these traits. Wanting to live responsibly, they protect and provide for those in their keeping and are steadfast in their devotion to loved ones.

Sixes give time, attention and loving care not just to their families, but also to friends and even to casual acquaintances. Because of this, they make faithful and steadfast life-long friends. They sense another's needs, and freely give of themselves. Through their own sympathetic knowing, they are intuitively able to heal. They are good at helping others sort out and clarify their problems, choose options and find solutions. They create a safe place for people who are in need, and happily lend support in a crisis. Their homes reflect their love of comfort and all that is pleasant, and often become havens for the troubled and perplexed. Also at home on Mother Earth, sixes sense the underlying rhythm of nature, and are able to move in harmony with the cycle of the seasons.

### ***Tarot Key 6: The Lovers***

To gain further insights about your Power number, it can help to look at the Tarot trump that corresponds to it. In your case, this is the card called the Lovers. The card depicts a couple watched over by an angel who hovers above them, representing the higher force that unifies opposites. This card obviously signifies romantic love, but in a wider sense it points to the love that people find when they place their ideals of service and dedication, of truth and justice, above their own personal welfare. This may work out first in the personal sphere, and then in the progressively widening spheres of family, community, and humanity.

### **Your Karmic Lessons**

Karma numbers are digits that are completely missing in the letters of your name as given at birth. Most people have one or more Karma numbers. These missing digits serve as a guide to the areas of your life and personality that may be lacking. Such areas will benefit from special attention. If you ignore these blind spots, life can have a painful way of making you notice them. This, however, can eventually spur you forward on the path to wisdom. When you develop yourself in these areas, you will feel much more whole and complete.

#### ***The number 2 is missing in your name.***

With a Karma number of 2, you may lack patience and tend to be overly sensitive. You may have experiences where you are forced to learn to get along better with others.

#### ***The number 6 is missing in your name.***

Having 6 as a Karma number points to a need to work on your relationships. You may find others depending on you. This can force you to learn the value of family and other close ties.

## **Your Subconscious Response**

Your Subconscious Response is related to how many Karma numbers you have. It shows the way you tend to react in emergencies, when you have no time to consult your intellect.

### ***Your Subconscious Response number is 7.***

When the going gets rough, you tend to become very analytical and may seem detached and unemotional. You are likely to suffer in silence. During these times you do best when you pray or meditate. Your tendency not to get personally involved may be appropriate in some situations, but not when other people are in great need.

## **Your Youth, Maturity and Later Years**

So far, we've discussed the number vibrations that stay with you throughout your life. Now we move on to the three major periods of your life as shown by your Life Cycle numbers. These are derived from reducing the digits in your month, day and year of birth. The sum of the month digits describes the first period; the day, the second period; and the year, the third period.

### ***Your First Life Cycle starts at birth and lasts until age 23. Its number is 7.***

When young, you need much time alone in peace and quiet while you build up deep inner resources. At times misunderstood or considered difficult, you have a natural reserve that keeps you from opening up to others. During this period you would do well to have a specialized education that understands your need to cultivate your inner life, and gives you the chance to read, think, dream and possibly express yourself in one of the arts. If, instead, your parents, teachers or peers did not understand you, try not to take it as a judgment on yourself. Be glad for the rich inner world that you have developed in your youth.

During the First Life Cycle, your Life Path number and your First Minor Challenge number are also especially important influences.

### ***Your Second Life Cycle starts at age 23 and lasts until age 59. Its number is 8.***

During your middle period you will be drawn to accumulating wealth and power, so this is an excellent cycle for business success. More than at other times, you have the ability to influence your environment in an efficient and result-oriented way. Your success is assured if you devise a plan and manage your life and finances well.

During this Life Cycle or the next, your Power number generally begins to manifest.

### ***Your Third Life Cycle starts at age 59 and lasts until death. Its number is 8.***

Never think of "retirement"! For you, later life is a great time for directing projects and achieving ambitious goals. This can be a time of success, and you will have the power to get things done. Your considerable energy will be best used in organizing others. With the promise of solid accomplishment and material gain, you'll be active to the end.

## **Major Decision or Turning Points in Your Life**

Your Turning Points or Pinnacles are also derived from your full birthdate. Each of them defines a period in your life and the special issues that you will face during that period. As their name suggests, Turning Points show points of choice where you need to make decisions. Besides showing the issues at stake, the Turning Point number indicates the choice that will be best for you. Turning Points are like tests that you must pass before proceeding forward. The happiness that you feel in a given Turning Point period depends on the choices you've made and the skills you've developed when faced with the previous Turning Point.

***Your First Turning Point starts at birth and lasts until age 34.  
Its number is 6.***

This youthful Turning Point may call you to take on heavy domestic responsibilities at an early age, such that you feel denied a carefree childhood. If you shoulder these responsibilities with good grace, your reward may be love, security, protection, loyalty and sympathy, both given and received. This Turning Point may also take the form of an early marriage that comes when you are still really too young to settle down.

***Your Second Turning Point starts at age 35 and lasts until age 44.  
Its number is 7.***

The next nine years of your life will test your ability to go inward, meditate and study. Now is your chance to develop a philosophy that sustains you through the rest of your life. Ensure that you get enough intellectual stimulation, and that you learn how to analyze and evaluate.

***Your Third Turning Point starts at age 45 and lasts until age 54.  
Its number is 4.***

This 4 vibration in the prime of your life gives you the chance to be maximally productive. If you use it well, you will be building a solid and secure foundation for your older years. You may have heavy responsibilities at this time, but if you shoulder them with good grace you will immediately reap rewards in terms of satisfaction and the recognition of your power to get things done.

***Your Fourth Turning Point starts at age 55 and lasts until death.  
Its number is 6.***

In the last period of your life, a 6 vibration calls you to build a secure and cozy retreat for you and your loved ones. At this time of life it is especially important to guard against becoming set in your routine and rigid in your opinions. If responsibilities are thrust upon you for care of your loved ones, you have the choice of whether or not to accept your duties wholeheartedly. Will this be just another burden to bear, or will you use it for practice in opening your heart and discovering strengths you never knew you had? The choice is yours.

## **The Challenges You Will Meet**

Everyone is born with special lessons to be learned. Again, your full birth date has inherent in it two Minor Challenges that are usually presented to you earlier in life, and a Major Challenge that is lifelong but which you will probably get to master only later in life.

Challenges may at first present themselves to you as external obstacles to your progress, but they arise from the deficiencies that you are born with, parts that are lacking or underdeveloped. Once you can determine exactly what the weak link is, you can make a conscious effort to strengthen that trait within yourself. This takes willpower and may sometimes feel as if you are going against the grain, but it pays off abundantly in terms of progress and success in life. As you tackle each challenge, your fears are pushed back, your scope enlarges, and you feel more comfortable in the world.

### ***Your First Minor Challenge number is 1.***

The First Minor Challenge usually crops up early in life. When its number is 1, this usually means that you must fight to overcome a sense of being held down by those with stronger wills. To meet this challenge, you must learn to assert your independence and discover your own individuality, while at the same time respecting the rights of others. It's important not to get caught up in merely pleasing others, and in a dignified way to assert your right to have your needs met and to determine the course of your own life. When you grow older, you'll then be able to let others have their rights, too.

### ***Your Second Minor Challenge number is 0.***

The Second Minor Challenge is about aspects of your character that you need to work on during your Second Life Cycle, from about ages 35 to 62. A zero Challenge number presents no particular challenge. This can mean either that life is easy because you have no large obstacles in your path, or that it is difficult because everything is an obstacle and you don't know which to tackle first. If the latter is true, it is best just to pick one difficulty arbitrarily and work on that until you have mastered it. Your plate is either very full or very empty because you are an old soul. You are evolved enough to be conscious of whatever shortcomings you have, and to deal with them one at a time. Becoming the kind of person you know you could be is the most difficult of challenges, but you are capable of meeting it.

### ***Your Major Challenge number is 1.***

You face your Major Challenge throughout life. Most likely, however, you will find yourself needing to do the most work on it during your Third Life Cycle, after the lesser challenges have been met. With a Challenge number of 1, you must fight to overcome a sense of being held down by those with stronger wills. To meet this challenge, you must learn to assert your independence and discover your own individuality, while at the same time respecting the rights of others.

## **Your Best Activities for the Year**

Your Personal Year number combines your birth month and day with the current year. Personal Year numbers go in a recurring nine-year cycle of development. Each time you go around the cycle you have a chance to do things with added wisdom and skill. Keeping your activities in tune with your current year vibration can make your existence more harmonious and keep your unfoldment upon its intended track.

Some numerologists believe that the new personal year number begins on January 1st of the new year. Others believe that it doesn't change until your birthday on that year, so that up until your birthday you would be using the personal year number for the preceding calendar year.

### ***Your Personal Year number beginning on Jan. 1, 2004 is 21/3***

A 3 Personal Year is a time to enjoy the good things that are born out of the self-assertion of the first year in the cycle and the pairing-off and gentle accommodations of the second year. When you plant your seeds well in the 1 Personal Year, your 3 Personal Year is indeed a lucky one, full of potential for growth and advancement. If you put yourself forward, you will be popular and will find those who will help you express yourself and further your ideas. So open up and spread the word. It is no time to hide your light under a bushel. Get around, be seen and identified, socialize and network. This is a light-hearted year, a time for exuberant self-expression, a year of fun and rewards in which you can restore your vital energies, explore your creativity, and widen your social contacts before the hard work that lies ahead. The keyword for this year is Enjoy.

### ***Your Personal Year number beginning on Jan. 1, 2005 is 22/4***

A 22 Personal Year is a rare occurrence that provides exceptional opportunity for building something lasting that will benefit humanity. To respond to this higher vibration, you must leave personal concerns behind. If you fail to do this, it will simply be another 4 year of hard work and heavy responsibility. If you use this year to serve others, however, limitations will fall away and you will have the opportunity to realize the highest aspirations of your life. You may find yourself in a position of leadership. Use it well. Be honest and practical, and you will be able to create something of enduring value for the world at large.

At at least some points during such a year, most people will find themselves falling back into the 4 vibration that underlies 22. If your grander projects don't seem to be getting off the ground, it is time to slow down, turn inward, and get down to the hard work that is needed to make your dream a reality. The first step is to get rid of the dead wood and focus on what is truly effective. Get your affairs in order and keep them that way. Have a physical checkup, and do whatever is needed in the way of diet, exercise, and good health habits to get your body in tune. In all areas, get your tools in order, and cultivate the habit of practicality in order to build a solid foundation. Work out the details and follow through. This is a year when any solid work that you put in can yield extraordinary results.

## Where Do We Go from Here?

If this report has aroused your curiosity and you want to learn more, you may find that exploring your numbers with a deck of Tarot cards is an excellent means for further self- reflection.

Suppose that your birth date were August 19, 1962. The Tarot trump that you would look at for the month would be 8 (Strength, or in some decks, Justice). For the day, you would look at 19 (the Sun),  $1+9=10$  (the Wheel of Fortune), and, reducing it even further,  $1+0=1$  (the Magician). For the year, you would look at  $1+9+6+2=18$  (the Moon), and possibly also  $1+8=9$  (the Hermit).

These cards would have something to say about you and how you express these traits as you follow your destiny. Our example birth date would have the Sun in Leo, and trump 19, the Sun, would reinforce the Leo symbolism. You could see that the person is a hard worker (8) with a sunny disposition (19) who is aware of the changes in fortune that life can bring (10). Extremely creative (1), he is also a sensitive, caring person who is tuned in to other people's feelings (18).

It is instructive to buy a Tarot deck, put one of your cards up for a few days, and mull over the symbolism. Remember that there are no truly negative numbers or cards. All participate in the experiences of the soul as it passes through life.

Even trump 15, the Devil, has its place. Everyone has traits that create stumbling blocks or weaknesses. When we work to overcome these we achieve maturity and become more sympathetic to the weaknesses that we see in others. This may be an important focus for a soul with the number 15 prominent.

Also, trump 13, the so-called Death card, is often misunderstood. Remember that in the cycle of seasons the leaves fall and winter comes, but this death is only the precursor of the life that bursts forth in the spring. Life is not all white light and bubbles. There are dark clouds of pain and frustration as well. It's all part of the cycle.

Whatever you find your numbers to be, remember that nobody has it all down pat. We all have plenty to learn. We do have a choice, however. We can, if we wish, fight against our destiny or try to ignore it. Or we can, as the great psychoanalyst C.G. Jung put it, "do willingly what we must do by necessity." Viewing ourselves through the lens of studies such as numerology, the Tarot and astrology, we gain a clearer picture of what our own necessity is, and can then travel more consciously on our life's intended path.
