Your Planetary Day

While the calendar we use in the West dates from the 1500s, the seven days of the week have repeated without interruption for over two millennia. From ancient times, each day of the week has been associated with the Sun, Moon or one of the five visible planets. The weekday on which you were born shows where you stand in this ancient seven-fold cycle, and gives you a special link with the quality of its planetary ruler.

You were born on a Wednesday.

This is the day of Mercury, well known as the messenger of the gods and ruler of intelligence, communication, transportation and commerce. Mercury also rules mediumship, magic and the mantic arts, and was the guider of souls in the underworld. In English, Wednesday is named after the great Norse god Woden, who much like Mercury was associated with writing, wisdom, poetry, and also with prophecy, magic, shape-shifting and disguise. Dual in nature, Mercury rules trickery as well as truth, and is as hard to pin down as his metal, quicksilver. The German name for Wednesday means simply mid-week, and of the seven directions of space, Mercury signifies the middle. In the Kabbalah, Mercury is associated with Raphael, the civilizing angel. “Wednesday’s child is full of woe.” — *Harper’s Weekly*, 1887.

About Personal Numerology

The report that follows explores the numerological meaning of your birth date and the full name that was given to you at birth. Its aim is to make you more aware of the tendencies and patterns in your life, so that you can live more consciously, and more fully become the person you were meant to be.

As you read the following pages, remember that they describe pure types for each number. No one, of course, exhibits these character traits in their pure form. Instead, each of us is multi-dimensional, made up of many energy imperatives vying for expression. Some energies harmonize easily, while others are at cross-purposes, causing us to live with contradictions and inner conflicts. Our task is to honor all parts of ourselves and work at bringing our disparate selves into some kind of balance and cooperation. By making us more aware of our inner tendencies, numerology can help us to do this all-important work on ourselves.

In our families and other groups of which we are a part, some behaviors are encouraged and others are discouraged. If who we are wasn’t acceptable, we probably contorted ourselves to be what others wanted us to be. If so, we may have become what is called a “turn-type.”

For example, we may negatively manifest a number by expressing its opposite, as when the independent number 1 type becomes extremely dependent. Alternatively, the energy is out of balance and expressed extremely, as when the daring number 1 type becomes foolhardy. Or the energy is not developed enough, so that the number 1 is cowardly instead of courageous.

Because we feel that a certain trait is unacceptable and unworthy of us according to the biases of our family, superiors or peers, we may not be able to relate to it in ourselves. We may then spend many years discovering who we really are apart from other people's expectations of us.

Studies such as numerology can help us find our way out of this maze, orienting us toward our true being and the highest manifestation of what we are. They can give us an objective picture of our strengths and weaknesses, show us our place in the larger scheme of things, and help us find the hidden gold in our characters, which we may not have even suspected that we had.

How Numerology Works. *Through the use of ancient principles, numerology can derive a world of meaning from your birthdate and birth name. In the course of your life other numbers may become important for you, and you will probably acquire other names, but, like your astrological birth chart, the numerological vibrations at the very beginning of your life set the tone for all that follows.*

To find the meaning inherent in your day, month and year of birth, numerologists add the digits in various ways. Most totals turn out to be more than one digit. They therefore reduce them to a single digit by adding the digits together. Whenever a total turns out to be a master number like 11 or 22, however, it is left as-is. These doubled numbers have a special significance, and are given special interpretations.

To find the numerological meaning of your name, numerology assigns a number to each letter of the alphabet. In the Pythagorean system used in this report, A = 1, B = 2, and so on through the first nine letters, and then we repeat the cycle through the rest of the alphabet. We then total the numbers corresponding to the vowels, the numbers corresponding to the consonants, and the numbers corresponding to all the letters to determine specific things about your character.

Each digit from 1 to 9 represents a specific stage in a cycle and has its own set of associations. In general, the odd numbers are considered introverted, in the sense of being primarily focused on inner life. The even numbers tend toward extroversion: that is, being primarily focused on outer activities. The numbers 1, 6, and 22, however, are considered dual in nature.

This said, let us now look first at your basic character and the major themes in your life.

Your Life Path

The total of the day, month and year of your birth is called by numerologists the Life Path, Life Lesson, Birth Path, Birth Force or, sometimes, the Destiny number. This number is chosen by nature rather than by you or your parents, and it reflects the season and historical era of your birth. As its names suggest, it shows your mission in life, your life work and what the universe intends for you. It shows the opportunities you must seize in order to make the most of your potential. Following the life path that has been given to you will enable you to avoid continual discord and frustration, and to unfold in the way that is best for your nature. When you find your true place in the world, you will feel at home.

Your birthdate total is 3.

Your Life Path of 3 means that that your destiny is involved with the development of social graces and good communication skills. You have a wonderful ability to inspire and amuse people. It is through those you favorably impress that your opportunities in life will come. Be creative, be artistic, and learn to use words to your advantage. You have an appealing charm and a real charisma. Versatility is vital to your success, but you must pace yourself. Learn not to scatter your energy.

What Motivates You in Life

We now move on to the name that you were given at birth. We first look at the total of the vowels in your full birth name, because this shows the emotional force that drives all that you do. Variously known as the Motivation, Soul Urge, Heart's Desire, or Inner Self number, the vowel total shows what you want out of life. Along with the Impression and Expression numbers that will be discussed below, it is a basic component of your character.

The vowel total in your name is 9.

With 9 as a Motivation number, you thirst after knowledge and enjoy sharing it with others. Dedicated to that which is universal, you are the eternal student of life, always in search of better understanding. You have humanitarian ideals, and sincerely desire to improve life's conditions. You tend to react emotionally and romantically, and are as much in love with the idea of love as with a person. When help is needed, you are capable of considerable self-sacrifice.

Colors and gems have number vibrations, too. Your Motivation colors are all colors in the brightest hues. Your Motivation gem is the opal. Wear these when you want to relax and restore your energies.

More about Your Emotions and Motivations

The first vowel in your first name augments or mitigates the force of the vowel total, and gives additional information about your emotional nature and underlying motivations in life. It manifests differently depending on whether the vowel sound is long or short. The long vowel gives a more direct and forthright expression, while the expression of the short vowel is more muted.

The first vowel in your name is O.

“O” feels both sympathetic and responsible. You work best with others and prefer not to go it alone. You want to create beautiful and congenial surroundings, and like to support and sustain your loved ones. You are the glue that keeps the family together and the lubricant that smoothes over the rough edges in intimate relationships. You can also be relied upon, such that your friends and family will vouch for your loyalty, stability and steadfastness. You are a refuge for those in need of help, and you have excellent problem- solving skills when the time comes to explore options and plan strategy. You give comfort and lend a sympathetic ear.

The Impression You Give to Others

The total of the consonants in your name is known as the Impression, Personality, Outer Self or Adapted Self number. As its names suggest, this number signifies your persona, the face you show to the world. It shows the vibrations that you project, how others see you, and the kind of impression that you make on those around you. This has its origin in your illusions and fantasies, the world you create for yourself in daydreams. Given enough energy, your fantasies become reality, because you tend to become who you think you are.

Your consonant total is 1.

Having the Impression number 1, you dream of being a pioneer for mankind: an original, daring trendsetter who is strongly individual. As the number 1 represents ego and self- realization, you see yourself as forceful and effective in obtaining what others can't even see. You want always to be first and best, and for others to be in awe of your abilities and accomplishments. Most of all, you always want to feel that *you* are in control.

Your Impression color is red, and your Impression gem is the ruby. Wear these when you want to be sociable and enjoy the company of others.

The Way You Express Yourself

The total of all the letters in your full name is variously called the Expression, Mission or Life Purpose number. Composed of both the vowels and the consonants, it represents the blending of your inner and outer selves. It thus shows the natural expression of your goals and desires: what you do best, and, by extension, your talents and career potential. It also indicates how you deal with the outside world: your style of solving problems, getting things done, and negotiating with others to attain what you would consider success.

Your name total is 1.

The Expression number 1 makes you tend to be a strong individualist, both self-reliant and dependable. A natural leader, you're at your best when in charge. You're capable in almost any business or art form, and your possibilities are unlimited when you can do your own thing. Directness is one of your great strengths, but do not let your ego and impatience get in the way of your effectiveness. Also, take care that your mind does not run ahead of your ability to implement your ideas.

When you want to be businesslike, try wearing red as your Expression color and the ruby as your Expression gem.

Careers Offering the Best Self-Expression

With 1 as your Expression number, consider these kinds of jobs:

The Boss: director, manager or owner of a business; advertising executive, department head, buyer, editor, contractor.

On Stage: musician, actor, salesman, guide, promoter, politician.

Service: internist, psychiatrist, analyst, inspector, lawyer, repairperson, telephone operator.

Just You: architect, pilot, explorer, farmer, inventor, writer, designer, illustrator, geographer.

Best Bet: be the boss or work alone.

The Power You Can Achieve in Maturity

The total of the day, month and year of your birth and your full name at birth is known variously as the Power, Maturity, Reality, Real Self, Final Opportunity, Destiny or Goal Power number. A summation of both your name and your birthdate, this number shows how the two principal streams of energy converge to fulfill the purposes of your true self. The Power number is of great significance because it gives a clue as to what your ultimate life purpose might be.

This vibration usually becomes manifest only in the later part of your life. In the first half of life it tends to exist only as a potential. In these earlier years you live through many experiences that temper and define your character and aptitudes. Not until the age of 35 or 40 do most people live through enough life events to find their life purpose and develop it to the point where it becomes their main focus and direction. It is then that fulfillment comes. But this is usually achieved only after many false starts, and years of struggling to gain self-knowledge.

Finding your right place in life is gratifying. If you have not pushed through to this achievement, you can be dissatisfied and unhappy. You may feel at loose ends, without direction, rudderless and ill at ease. But if you have lived your life in accord with the purpose that was meant to be fulfilled in this life, you will find contentment and peace of mind.

What follows is the mature expression of your Power number. Mature development is not about living out someone else's idea of what you should be. It has more to do with honoring your own way of being in the world and moving from your own center. It is about trusting the process of unfoldment that exists within each of us and making this your guiding principle.

The total of your name and birthdate is 4.

A Power number of 4 signifies those who build order and stability into our world. Fours attract situations that require thoroughness, precision and dependability. They actually *like* to put their nose to the grindstone. Wherever they turn their attention, they organize and create structure. Focused on the material plane, they express archetype of the Builder, and want to see concrete results in all their endeavors.

Like a square table perfectly balanced and solidly positioned, fours are firmly planted on this earth. They are comfortable in surroundings that are tidy, well ordered and predictable. They like to know what to expect, and flourish in an atmosphere where expectations are clearly laid out. They are no-frills people who hate posturing and pretense. Give them the facts. Don't dissemble, and don't embroider. The pure, unvarnished truth is what they prefer.

Tarot Key 4: The Emperor

To gain further insights about your Power number, it can help to look at the Tarot trump that corresponds to it. In your case, this is the Emperor. Seated foursquare upon a ram- decorated throne, he embodies a fiery energy which is channeled and structured through reason in order to create concrete achievements. Serious, practical and discriminating, he is a patriarch who is wise in the ways of the world and is interested in results. He embodies the disciplined will, which is the foundation for achieving worldly power.

Your Karmic Lessons

Karma numbers are digits that are completely missing in the letters of your name as given at birth. Most people have one or more Karma numbers. These missing digits serve as a guide to the areas of your life and personality that may be lacking. Such areas will benefit from special attention. If you ignore these blind spots, life can have a painful way of making you notice them. This, however, can eventually spur you forward on the path to wisdom. When you develop yourself in these areas, you will feel much more whole and complete.

The number 3 is missing in your name.

With a 3 Karma number, you may lack self-confidence and have problems expressing yourself. Contact with the public can help you to overcome your inhibitions.

The number 4 is missing in your name.

With a Karma number of 4, you may have to fight a tendency toward laziness and a lack of focus and concentration. You'll strengthen your character when you cultivate discipline and make an effort to work steadily for what you want.

The number 7 is missing in your name.

With a Karma number of 7, it's possible that you have many fears and anxieties. You will find that the path out of your worry is to develop your intellect and spirituality.

Your Subconscious Response

Your Subconscious Response is related to how many Karma numbers you have. It shows the way you tend to react in emergencies, when you have no time to consult your intellect.

Your Subconscious Response number is 6.

In rough times, you think first of your family, friends, loved ones and possessions. You are very protective of what is yours, and your responses are generally practical and responsible. The main thing to be aware of is that your sentimental attachments tend to win out, even in situations where a more reasoned approach would be more appropriate.

Your Youth, Maturity and Later Years

So far, we've discussed the number vibrations that stay with you throughout your life. Now we move on to the three major periods of your life as shown by your Life Cycle numbers. These are derived from reducing the digits in your month, day and year of birth. The sum of the month digits describes the first period; the day, the second period; and the year, the third period.

Your First Life Cycle starts at birth and lasts until age 34.

Its number is 6.

Your home life has a profound effect on your childhood, and during this cycle you are most comfortable in the protection of the home. Indeed, you may marry early to preserve this sheltered life. You tend to worry, and need much reassurance. A family fight can leave you miserable. While you are sheltered, you may also feel restricted with family duties and responsibilities.

During the First Life Cycle, your Life Path number and your First Minor Challenge number are also especially important influences.

Your Second Life Cycle starts at age 34 and lasts until age 61.

Its number is 4.

The middle of your life will be very productive if you allow the work ethic to reign. Be conscientious, disciplined and well organized, because this is your best time to build solid foundations for the future. Though your life may sometimes seem tedious during this period, it will also be effective. Your joy will come through earthy pleasures and through establishing a solid base of operations at home and in your career.

During this Life Cycle or the next, your Power number generally begins to manifest.

Your Third Life Cycle starts at age 61 and lasts until death.

Its number is 2.

Your later years will be peaceful, and will be happiest if they are full of social interaction. This can be a time of quiet accumulation in which you will become a collector of things, ideas, and even people. Concentrate on developing your relationships, for as you grow older they'll become an increasingly important part of your life.

Major Decision or Turning Points in Your Life

Your Turning Points or Pinnacles are also derived from your full birthdate. Each of them defines a period in your life and the special issues that you will face during that period. As their name suggests, Turning Points show points of choice where you need to make decisions. Besides showing the issues at stake, the Turning Point number indicates the choice that will be best for you. Turning Points are like tests that you must pass before proceeding forward. The happiness that you feel in a given Turning Point period depends on the choices you've made and the skills you've developed when faced with the previous Turning Point.

Your First Turning Point starts at birth and lasts until age 34.

Its number is 1.

This youthful Turning Point asks you to strike out on your own, to develop your own individuality, and to create something original. During this period it is best to lead rather than being led. You may feel frustrated, because early in your life others will probably be in a better position to lead you, and they may not tolerate your expressions of individuality. Your task is not to respond by being stubborn and self-centered.

Your Second Turning Point starts at age 35 and lasts until age 44.

Its number is 6.

The next nine years of your life will test your ability to take on domestic responsibilities with grace. You must avoid getting hung up on delivering the material necessities to your near and dear, and remember that it is your love and acceptance of who they really are that is the most important give you can give.

Your Third Turning Point starts at age 45 and lasts until age 54.

Its number is 7.

This 7 vibration may mark a pause in the prime of your life as you turn inward to integrate your experiences and meditate on the meaning of it all. For some, this may be merely retreating from the demands of the world, but it is possible to make this period a true voyage to the sometimes scary but potentially rewarding places inside. If you complete this voyage successfully, you lay the foundation for an old age marked by true wisdom and the ability to give something of great value to the world.

Your Fourth Turning Point starts at age 55 and lasts until death.

Its number is 8.

In the last period of your life, an 8 vibration calls you to consolidate your financial position and exercise some power. If you are not retired yet, this may be the pinnacle of your career. If you are retired, you will probably be drawn to take high positions in volunteer organizations, or to advise others on business and finance. Resist the cultural stereotype of sitting back in a rocking chair at your age, because for you happiness lies in continued productive activity, and the power you achieve is what keeps you vibrant.

The Challenges You Will Meet

Everyone is born with special lessons to be learned. Again, your full birth date has inherent in it two Minor Challenges that are usually presented to you earlier in life, and a Major Challenge that is lifelong but which you will probably get to master only later in life.

Challenges may at first present themselves to you as external obstacles to your progress, but they arise from the deficiencies that you are born with, parts that are lacking or underdeveloped. Once you can determine exactly what the weak link is, you can make a conscious effort to strengthen that trait within yourself. This takes willpower and may sometimes feel as if you are going against the grain, but it pays off abundantly in terms of progress and success in life. As you tackle each challenge, your fears are pushed back, your scope enlarges, and you feel more comfortable in the world.

Your First Minor Challenge number is 2.

The First Minor Challenge usually crops up early in life. When its number is 2, you may be painfully timid, thin-skinned, and sensitive to the slightest hurts from others. Your challenge here is to maintain your remarkable sensitivity to feelings and vibrations, but not feel personally hurt or threatened. Remember that when others are cruel it comes from their own unhappiness and really has nothing to do with who you are. Cooperation with others may be a major theme in your life, and an additional challenge with this number is to learn to work with others without either leaning on them or trying to dominate the situation.

Your Second Minor Challenge number is 2.

The Second Minor Challenge is about aspects of your character that you need to work on during your Second Life Cycle, from about ages 35 to 62. With a Challenge of 2, your task is to develop confidence in yourself and thicken up your protective coating so that you can hold your own in relationships with others. Instead of bringing you closer to others, your extreme sensitivity can make you run for cover when the vibes get jagged or overwhelmingly strong. Your challenge is to retain that responsiveness to the feelings of others without losing your own identity or feeling personally devastated. You may need to live alone for a bit and find out who you really are. Then you will be able to enter into a partnership as a true equal, and realize a closeness that you had not dreamed was possible.

Your Major Challenge number is 0.

You face your Major Challenge throughout life. Most likely, however, you will find yourself needing to do the most work on it during your Third Life Cycle, after the lesser challenges have been met. A zero Challenge number presents no particular challenge, and so it gives you a choice of what to work on. You may be tempted to coast through life, but if you choose instead to work on any problems in your character, you can become truly great. You are evolved enough to be conscious of whatever shortcomings you have, and to deal with them one at a time. Becoming the kind of person you know you could be is the most difficult of challenges, but you are eminently capable of meeting it.

Your Best Activities for the Year

Your Personal Year number combines your birth month and day with the current year. Personal Year numbers go in a recurring nine-year cycle of development. Each time you go around the cycle you have a chance to do things with added wisdom and skill. Keeping your activities in tune with your current year vibration can make your existence more harmonious and keep your unfoldment upon its intended track.

Some numerologists believe that the new personal year number begins on January 1st of the new year. Others believe that it doesn't change until your birthday on that year, so that up until your birthday you would be using the personal year number for the preceding calendar year.

Your Personal Year number beginning on Jan. 1, 2002 is 14/5

A 5 Personal Year is a time to lift your nose from the grindstone and go adventuring. If you've been diligent in your 4 year, it's now time to break away from your routine and refresh yourself. Try meeting new people, going to new places, involving yourself in new situations, and participating in a wide variety of activities. Opportunity won't necessarily come knocking at your door, so put yourself out there and see what comes your way. The excitement level is high, and the energy is there for the untried and the unusual. Like the 1 Personal Year, this is a pivotal time for shifts, twists and turns, so prepare yourself for the unexpected. The keyword for this year is Change. If you bounce along with the tide and remember to keep circulating, this should be a year of progress.

Your Personal Year number beginning on Jan. 1, 2003 is 15/6

In this 6 Personal Year, relationships will be a major focus and you may need to make some adjustments in this area of your life. Money and jobs are not likely to be a problem, and your energies now best directed toward home, family and friends. It is time really to take responsibility for those about whom you care. If your responsibilities toward others become heavy this year, remember that meeting them wholeheartedly can add immense emotional richness to your life. So, for now, put career demands and a desire for self-assertion and self-expression on the back burner. Concentrate on creating a loving home life and possibly also on making your physical home more comfortable and pleasing. In all ways, it is time to seek harmony and balance in your relationships and personal life. The keyword to remember this year is Harmonize.

Where Do We Go from Here?

If this report has aroused your curiosity and you want to learn more, you may find that exploring your numbers with a deck of Tarot cards is an excellent means for further self-reflection.

Suppose that your birth date were August 19, 1962. The Tarot trump that you would look at for the month would be 8 (Strength, or in some decks, Justice). For the day, you would look at 19 (the Sun), $1+9=10$ (the Wheel of Fortune), and, reducing it even further, $1+0=1$ (the Magician). For the year, you would look at $1+9+6+2=18$ (the Moon), and possibly also $1+8=9$ (the Hermit).

These cards would have something to say about you and how you express these traits as you follow your destiny. Our example birth date would have the Sun in Leo, and trump 19, the Sun, would reinforce the Leo symbolism. You could see that the person is a hard worker (8) with a sunny disposition (19) who is aware of the changes in fortune that life can bring (10). Extremely creative (1), he is also a sensitive, caring person who is tuned in to other people's feelings (18).

It is instructive to buy a Tarot deck, put one of your cards up for a few days, and mull over the symbolism. Remember that there are no truly negative numbers or cards. All participate in the experiences of the soul as it passes through life.

Even trump 15, the Devil, has its place. Everyone has traits that create stumbling blocks or weaknesses. When we work to overcome these we achieve maturity and become more sympathetic to the weaknesses that we see in others. This may be an important focus for a soul with the number 15 prominent.

Also, trump 13, the so-called Death card, is often misunderstood. Remember that in the cycle of seasons the leaves fall and winter comes, but this death is only the precursor of the life that bursts forth in the spring. Life is not all white light and bubbles. There are dark clouds of pain and frustration as well. It's all part of the cycle.

Whatever you find your numbers to be, remember that nobody has it all down pat. We all have plenty to learn. We do have a choice, however. We can, if we wish, fight against our destiny or try to ignore it. Or we can, as the great psychoanalyst C.G. Jung put it, "do willingly what we must do by necessity." Viewing ourselves through the lens of studies such as numerology, the Tarot and astrology, we gain a clearer picture of what our own necessity is, and can then travel more consciously on our life's intended path.
