Your Planetary Day

While the calendar we use in the West dates from the 1500s, the seven days of the week have repeated without interruption for over two millennia. From ancient times, each day of the week has been associated with the Sun, Moon or one of the five visible planets. The weekday on which you were born shows where you stand in this ancient seven-fold cycle, and gives you a special link with the quality of its planetary ruler.

You were born on a Wednesday.

This is the day of Mercury, well known as the messenger of the gods and ruler of intelligence, communication, transportation and commerce. Mercury also rules mediumship, magic and the mantic arts, and was the guider of souls in the underworld. In English, Wednesday is named after the great Norse god Woden, who much like Mercury was associated with writing, wisdom, poetry, and also with prophecy, magic, shape-shifting and disguise. Dual in nature, Mercury rules trickery as well as truth, and is as hard to pin down as his metal, quicksilver. The German name for Wednesday means simply mid-week, and of the seven directions of space, Mercury signifies the middle. In the Kabbalah, Mercury is associated with Raphael, the civilizing angel. “Wednesday’s child is full of woe.” — *Harper’s Weekly*, 1887.

About Personal Numerology

The report that follows explores the numerological meaning of your birth date and the full name that was given to you at birth. Its aim is to make you more aware of the tendencies and patterns in your life, so that you can live more consciously, and more fully become the person you were meant to be.

As you read the following pages, remember that they describe pure types for each number. No one, of course, exhibits these character traits in their pure form. Instead, each of us is multi-dimensional, made up of many energy imperatives vying for expression. Some energies harmonize easily, while others are at cross-purposes, causing us to live with contradictions and inner conflicts. Our task is to honor all parts of ourselves and work at bringing our disparate selves into some kind of balance and cooperation. By making us more aware of our inner tendencies, numerology can help us to do this all-important work on ourselves.

In our families and other groups of which we are a part, some behaviors are encouraged and others are discouraged. If who we are wasn’t acceptable, we probably contorted ourselves to be what others wanted us to be. If so, we may have become what is called a “turn-type.”

For example, we may negatively manifest a number by expressing its opposite, as when the independent number 1 type becomes extremely dependent. Alternatively, the energy is out of balance and expressed extremely, as when the daring number 1 type becomes foolhardy. Or the energy is not developed enough, so that the number 1 is cowardly instead of courageous.

Because we feel that a certain trait is unacceptable and unworthy of us according to the biases of our family, superiors or peers, we may not be able to relate to it in ourselves. We may then spend many years discovering who we really are apart from other people's expectations of us.

Studies such as numerology can help us find our way out of this maze, orienting us toward our true being and the highest manifestation of what we are. They can give us an objective picture of our strengths and weaknesses, show us our place in the larger scheme of things, and help us find the hidden gold in our characters, which we may not have even suspected that we had.

How Numerology Works. *Through the use of ancient principles, numerology can derive a world of meaning from your birthdate and birth name. In the course of your life other numbers may become important for you, and you will probably acquire other names, but, like your astrological birth chart, the numerological vibrations at the very beginning of your life set the tone for all that follows.*

To find the meaning inherent in your day, month and year of birth, numerologists add the digits in various ways. Most totals turn out to be more than one digit. They therefore reduce them to a single digit by adding the digits together. Whenever a total turns out to be a master number like 11 or 22, however, it is left as-is. These doubled numbers have a special significance, and are given special interpretations.

To find the numerological meaning of your name, numerology assigns a number to each letter of the alphabet. In the Pythagorean system used in this report, A = 1, B = 2, and so on through the first nine letters, and then we repeat the cycle through the rest of the alphabet. We then total the numbers corresponding to the vowels, the numbers corresponding to the consonants, and the numbers corresponding to all the letters to determine specific things about your character.

Each digit from 1 to 9 represents a specific stage in a cycle and has its own set of associations. In general, the odd numbers are considered introverted, in the sense of being primarily focused on inner life. The even numbers tend toward extroversion: that is, being primarily focused on outer activities. The numbers 1, 6, and 22, however, are considered dual in nature.

This said, let us now look first at your basic character and the major themes in your life.

Your Life Path

The total of the day, month and year of your birth is called by numerologists the Life Path, Life Lesson, Birth Path, Birth Force or, sometimes, the Destiny number. This number is chosen by nature rather than by you or your parents, and it reflects the season and historical era of your birth. As its names suggest, it shows your mission in life, your life work and what the universe intends for you. It shows the opportunities you must seize in order to make the most of your potential. Following the life path that has been given to you will enable you to avoid continual discord and frustration, and to unfold in the way that is best for your nature. When you find your true place in the world, you will feel at home.

Your birthdate total is 4.

Your Life Path of 4 means that your destiny is closely allied to the work ethic. It is through self-discipline and conscientious labor that you will advance in life. You are best at endeavors that deal in facts and require a logical solution. You will be known as the one who gets the job done in the most effective and efficient way possible. Routine, hard work, dependability, practicality and service are the keys to your success.

What Motivates You in Life

We now move on to the name that you were given at birth. We first look at the total of the vowels in your full birth name, because this shows the emotional force that drives all that you do. Variously known as the Motivation, Soul Urge, Heart's Desire, or Inner Self number, the vowel total shows what you want out of life. Along with the Impression and Expression numbers that will be discussed below, it is a basic component of your character.

The vowel total in your name is 3.

With 3 as a Motivation number, you are the born entertainer who is always encircled by friends and admirers. Beauty and glamour are necessary parts of your existence. You need to feel that you're in the center of what's happening and that your life is a whirl with excitement. You're a flirt and love to be admired for your charm and wit. Communication and self-expression are vital to your well being. Living on an emotional seesaw, you're never down for long.

Colors and gems have number vibrations, too. Your Motivation color is yellow and your Motivation gem is the topaz. Wear these when you want to relax and restore your energies.

More about Your Emotions and Motivations

The first vowel in your first name augments or mitigates the force of the vowel total, and gives additional information about your emotional nature and underlying motivations in life. It manifests differently depending on whether the vowel sound is long or short. The long vowel gives a more direct and forthright expression, while the expression of the short vowel is more muted.

The first vowel in your name is I.

"I" feels compassion and the desire to serve. You go the extra mile to work for the good of all. If you feel it will improve the lot of your fellow humans and make the world a better place, you may sometimes even work against your own best interests. You have a passionate nature and can go to great lengths for the causes you embrace. Determined and relentless in the pursuit of a cause that excites you, you may become known for your philanthropy and generosity. Because you are a source of insight and encouragement, others eagerly seek your healing energy and counsel. Inspired, you are also an inspiration to others.

The Impression You Give to Others

The total of the consonants in your name is known as the Impression, Personality, Outer Self or Adapted Self number. As its names suggest, this number signifies your persona, the face you show to the world. It shows the vibrations that you project, how others see you, and the kind of impression that you make on those around you. This has its origin in your illusions and fantasies, the world you create for yourself in daydreams. Given enough energy, your fantasies become reality, because you tend to become who you think you are.

Your consonant total is 5.

Having the Impression number 5, you envision yourself as the world traveler, living a life of variety and adventure, free from mundane cares and responsibilities. Wanting to experience as much as possible, you seek pleasure and want never to be bored. You are the gambler who thrives on challenge and the unexpected, and in your dreams, every day brings surprise and excitement. A lover of crowds and happenings, you embrace life enthusiastically.

Your Impression color is pastel blue, and your Impression gem is the turquoise. Wear these when you want to be sociable and enjoy the company of others.

The Way You Express Yourself

The total of all the letters in your full name is variously called the Expression, Mission or Life Purpose number. Composed of both the vowels and the consonants, it represents the blending of your inner and outer selves. It thus shows the natural expression of your goals and desires: what you do best, and, by extension, your talents and career potential. It also indicates how you deal with the outside world: your style of solving problems, getting things done, and negotiating with others to attain what you would consider success.

Your name total is 8.

The Expression number 8 makes you the business leader, the organizer and the practical achiever. You get what you want through resolve and stamina. You have an air of authority that instills confidence, and your innate business sense attracts success. You're quick to seize opportunity and enlist others to help you. Power comes easily to you, and it is sometimes hard for you to relinquish your natural tendency to dominate.

When you want to be businesslike, try wearing try wearing rose as your Expression color and the diamond as your Expression gem.

Careers Offering the Best Self-Expression

With 8 as your Expression number, consider these kinds of jobs:

The Boss: bank director, manufacturer, military officer, head of a public institution, publishing executive, corporation head, real estate developer, developer of chain stores or franchises, contractor, financier, judge, buyer, office manager, coach.

On Stage: public official, orchestra leader, promoter.

Service: banker, cashier, broker, compiler, engineer, shipper, corporation or tax lawyer, purchasing agent, insurance agent, business consultant, investment advisor, office worker at a credit or loan company or stock brokerage.

Just You: statistician, critic, business analyst.

Best Bet: any job dealing with money, big business or power.

The Power You Can Achieve in Maturity

The total of the day, month and year of your birth and your full name at birth is known variously as the Power, Maturity, Reality, Real Self, Final Opportunity, Destiny or Goal Power number. A summation of both your name and your birthdate, this number shows how the two principal streams of energy converge to fulfill the purposes of your true self. The Power number is of great significance because it gives a clue as to what your ultimate life purpose might be.

This vibration usually becomes manifest only in the later part of your life. In the first half of life it tends to exist only as a potential. In these earlier years you live through many experiences that temper and define your character and aptitudes. Not until the age of 35 or 40 do most people live through enough life events to find their life purpose and develop it to the point where it becomes their main focus and direction. It is then that fulfillment comes. But this is usually achieved only after many false starts, and years of struggling to gain self-knowledge.

Finding your right place in life is gratifying. If you have not pushed through to this achievement, you can be dissatisfied and unhappy. You may feel at loose ends, without direction, rudderless and ill at ease. But if you have lived your life in accord with the purpose that was meant to be fulfilled in this life, you will find contentment and peace of mind.

What follows is the mature expression of your Power number. Mature development is not about living out someone else's idea of what you should be. It has more to do with honoring your own way of being in the world and moving from your own center. It is about trusting the process of unfoldment that exists within each of us and making this your guiding principle.

The total of your name and birthdate is 3.

A Power number of 3 signifies a life in pursuit of beauty, love, pleasure, and self-expression. Three is the archetype of the Performer. Talented, imaginative and with a genius for the spoken word, threes must have an outlet for their energy and creativity. Expressing themselves is a necessity. They love being in the spotlight and thrive on the attention they receive when they do something noteworthy.

Threes attract situations that demand vibrancy and cordiality. There is a restlessness in their nature and a need to remain occupied and involved. With their positive, optimistic outlook, these are the upbeat people who are sought after because of their joyful, fun-loving style. Good-natured, witty and the life of any party, threes have an eye for what is stylish and “in.” Sociable and friendly, they are bright and breezy, adding color and vigor to the world.

Tarot Key 3: The Empress

To gain further insights about your Power number, it can help to look at the Tarot trump that corresponds to it. In your case, this is the Empress. Great with child, she wields her scepter amidst the lush bounty of a garden. The matriarch, she symbolizes nature’s powers of creation. Her domain includes fertility, productivity, creative talent, love, pleasure, happiness and luck.

Your Karmic Lessons

Karma numbers are digits that are completely missing in the letters of your name as given at birth. Most people have one or more Karma numbers. These missing digits serve as a guide to the areas of your life and personality that may be lacking. Such areas will benefit from special attention. If you ignore these blind spots, life can have a painful way of making you notice them. This, however, can eventually spur you forward on the path to wisdom. When you develop yourself in these areas, you will feel much more whole and complete.

There are no numbers missing in your name.

The fact that you have no Karma numbers indicates that you are a very special person! You are unusually well balanced, and have an excellent chance of resolving any personality problems. Your state of evolution is such that you are perfecting your human character and are free to give much service to the world.

Your Subconscious Response

Your Subconscious Response is related to how many Karma numbers you have. It shows the way you tend to react in emergencies, when you have no time to consult your intellect.

Your Subconscious Response number is 9.

When the going gets rough, you can either come across in an extremely valuable way, or you can detach yourself completely from the outcome. When others panic, your ability to see the larger picture can give you a calm philosophical attitude. This can bring a much-needed calm and sense of perspective to the situation, but you must guard against a tendency to ignore the plight of others.

Your Youth, Maturity and Later Years

So far, we've discussed the number vibrations that stay with you throughout your life. Now we move on to the three major periods of your life as shown by your Life Cycle numbers. These are derived from reducing the digits in your month, day and year of birth. The sum of the month digits describes the first period; the day, the second period; and the year, the third period.

Your First Life Cycle starts at birth and lasts until age 33.

Its number is 9.

This is a high vibration for a young person to bear. This is because 9 is not conducive to a sense of security, and because selflessness may be expected of you at a time in your development when it is natural to be selfish. There may be change and instability for you to cope with, and the air may be charged with emotional tensions that you are too young to understand. Your own needs as a child may be neglected, so that you do not know what to do with your own intense feelings. Some form of artistic expression can be a great help in sorting these feelings out, and a good education can provide some structure and resources to deal with life. Toward the end of this cycle you will most likely have gained enough maturity to feel more comfortable with the intense energies of a 9.

During the First Life Cycle, your Life Path number and your First Minor Challenge number are also especially important influences.

Your Second Life Cycle starts at age 33 and lasts until age 60.

Its number is 7.

Analysis is the key to your middle cycle. During your middle years you probe deeply to understand all that is going on around and inside you. You are highly sensitive at this time, and it may be best to keep your feelings to yourself. Because you need much time alone to think things through, your partner, if you have one, will need to understand this.

During this Life Cycle or the next, your Power number generally begins to manifest.

Your Third Life Cycle starts at age 60 and lasts until death.

Its number is 6.

Your final life cycle will be concentrated around the home, so it's best to prepare the way by building a solid life around family and friends. You're promised lots of companionship and the security of the comfortable and familiar. It's a mellow, comfortable way to spend your golden years.

Major Decision or Turning Points in Your Life

Your Turning Points or Pinnacles are also derived from your full birthdate. Each of them defines a period in your life and the special issues that you will face during that period. As their name suggests, Turning Points show points of choice where you need to make decisions. Besides showing the issues at stake, the Turning Point number indicates the choice that will be best for you. Turning Points are like tests that you must pass before proceeding forward. The happiness that you feel in a given Turning Point period depends on the choices you've made and the skills you've developed when faced with the previous Turning Point.

Your First Turning Point starts at birth and lasts until age 34.

Its number is 7.

This Turning Point may pose the challenge of feeling lonely and isolated when you are young. It's possible that you are either denied the education you wish for, or you are pressured into studying by your parents. If you are lucky, you will be permitted to go inward to study and dream. Doing so can enable you to develop a deep philosophy of life that will sustain you in later years.

Your Second Turning Point starts at age 35 and lasts until age 44.

Its number is 4.

The next nine years of your life will test your ability to learn to be practical and realistic. This is a time for careful, disciplined work so that you can give your most productive years a firm and orderly foundation. Developing perseverance and a consistent application to work will bring rewards for the rest of your life. If you feel cramped economically during this period, remember that this is probably a passing influence.

Your Third Turning Point starts at age 45 and lasts until age 54.

Its number is 11/2.

Having the master number 11 vibration in the prime of your life is a great gift, for now is a time when you can have the widest possible influence. This nine-year period gives you a chance for unusual inspiration and illumination, and you may well achieve fame. Your test is to use this high and difficult vibration without burning yourself out, and to turn it to constructive use for humanity.

Your Fourth Turning Point starts at age 55 and lasts until death.

Its number is 6.

In the last period of your life, a 6 vibration calls you to build a secure and cozy retreat for you and your loved ones. At this time of life it is especially important to guard against becoming set in your routine and rigid in your opinions. If responsibilities are thrust upon you for care of your loved ones, you have the choice of whether or not to accept your duties wholeheartedly. Will this be just another burden to bear, or will you use it for practice in opening your heart and discovering strengths you never knew you had? The choice is yours.

The Challenges You Will Meet

Everyone is born with special lessons to be learned. Again, your full birth date has inherent in it two Minor Challenges that are usually presented to you earlier in life, and a Major Challenge that is lifelong but which you will probably get to master only later in life.

Challenges may at first present themselves to you as external obstacles to your progress, but they arise from the deficiencies that you are born with, parts that are lacking or underdeveloped. Once you can determine exactly what the weak link is, you can make a conscious effort to strengthen that trait within yourself. This takes willpower and may sometimes feel as if you are going against the grain, but it pays off abundantly in terms of progress and success in life. As you tackle each challenge, your fears are pushed back, your scope enlarges, and you feel more comfortable in the world.

Your First Minor Challenge number is 2.

The First Minor Challenge usually crops up early in life. When its number is 2, you may be painfully timid, thin-skinned, and sensitive to the slightest hurts from others. Your challenge here is to maintain your remarkable sensitivity to feelings and vibrations, but not feel personally hurt or threatened. Remember that when others are cruel it comes from their own unhappiness and really has nothing to do with who you are. Cooperation with others may be a major theme in your life, and an additional challenge with this number is to learn to work with others without either leaning on them or trying to dominate the situation.

Your Second Minor Challenge number is 1.

When the number 1 is your Second Minor Challenge, you will probably need to do most of your work on this area in mid-life, during your Second Life Cycle from about ages 35 to 62. This is a time to work on your will power and on asserting yourself as an individual. It is a time to overcome dependency and stand on your own feet so that you don't believe you need to please others in order to survive. Pick a goal, and in working toward it you will realize your own powers. Then you will have earned the respect of others and yourself.

Your Major Challenge number is 1.

You face your Major Challenge throughout life. Most likely, however, you will find yourself needing to do the most work on it during your Third Life Cycle, after the lesser challenges have been met. With a Challenge number of 1, you must fight to overcome a sense of being held down by those with stronger wills. To meet this challenge, you must learn to assert your independence and discover your own individuality, while at the same time respecting the rights of others.

Your Best Activities for the Year

Your Personal Year number combines your birth month and day with the current year. Personal Year numbers go in a recurring nine-year cycle of development. Each time you go around the cycle you have a chance to do things with added wisdom and skill. Keeping your activities in tune with your current year vibration can make your existence more harmonious and keep your unfoldment upon its intended track.

Some numerologists believe that the new personal year number begins on January 1st of the new year. Others believe that it doesn't change until your birthday on that year, so that up until your birthday you would be using the personal year number for the preceding calendar year.

Your Personal Year number beginning on Jan. 1, 2002 is 20/2

In a 2 Personal Year, you become softer and more receptive, and your focus naturally turns toward partnership and cooperation with others. It is time to seek out a person who will help you to crystallize your dreams. Then you should listen to your partner, be diplomatic and patient, and perfect the art of working as a team in a spirit of respect and harmony. When two hearts come together in a common effort, in an atmosphere of give-and-take and mutual regard, you can accomplish wondrous things. As receptive as you are to another person, you should also be receptive to your own inner knowing. In all things, the keyword this year is Accommodate.

Your Personal Year number beginning on Jan. 1, 2003 is 21/3

A 3 Personal Year is a time to enjoy the good things that are born out of the self-assertion of the first year in the cycle and the pairing-off and gentle accommodations of the second year. When you plant your seeds well in the 1 Personal Year, your 3 Personal Year is indeed a lucky one, full of potential for growth and advancement. If you put yourself forward, you will be popular and will find those who will help you express yourself and further your ideas. So open up and spread the word. It is no time hide your light under a bushel. Get around, be seen and identified, socialize and network. This is a light-hearted year, a time for exuberant self-expression, a year of fun and rewards in which you can restore your vital energies, explore your creativity, and widen your social contacts before the hard work that lies ahead. The keyword for this year is Enjoy.

Where Do We Go from Here?

If this report has aroused your curiosity and you want to learn more, you may find that exploring your numbers with a deck of Tarot cards is an excellent means for further self-reflection.

Suppose that your birth date were August 19, 1962. The Tarot trump that you would look at for the month would be 8 (Strength, or in some decks, Justice). For the day, you would look at 19 (the Sun), $1+9=10$ (the Wheel of Fortune), and, reducing it even further, $1+0=1$ (the Magician). For the year, you would look at $1+9+6+2=18$ (the Moon), and possibly also $1+8=9$ (the Hermit).

These cards would have something to say about you and how you express these traits as you follow your destiny. Our example birth date would have the Sun in Leo, and trump 19, the Sun, would reinforce the Leo symbolism. You could see that the person is a hard worker (8) with a sunny disposition (19) who is aware of the changes in fortune that life can bring (10). Extremely creative (1), he is also a sensitive, caring person who is tuned in to other people's feelings (18).

It is instructive to buy a Tarot deck, put one of your cards up for a few days, and mull over the symbolism. Remember that there are no truly negative numbers or cards. All participate in the experiences of the soul as it passes through life.

Even trump 15, the Devil, has its place. Everyone has traits that create stumbling blocks or weaknesses. When we work to overcome these we achieve maturity and become more sympathetic to the weaknesses that we see in others. This may be an important focus for a soul with the number 15 prominent.

Also, trump 13, the so-called Death card, is often misunderstood. Remember that in the cycle of seasons the leaves fall and winter comes, but this death is only the precursor of the life that bursts forth in the spring. Life is not all white light and bubbles. There are dark clouds of pain and frustration as well. It's all part of the cycle.

Whatever you find your numbers to be, remember that nobody has it all down pat. We all have plenty to learn. We do have a choice, however. We can, if we wish, fight against our destiny or try to ignore it. Or we can, as the great psychoanalyst C.G. Jung put it, "do willingly what we must do by necessity." Viewing ourselves through the lens of studies such as numerology, the Tarot and astrology, we gain a clearer picture of what our own necessity is, and can then travel more consciously on our life's intended path.
